BACKGROUND:

Summary

The Agricultural Commissioner's Office provides various services for a 1.3-billion-dollar agricultural industry in Riverside County. This industry includes vegetables and citrus in the Coachella Valley desert, wine grapes in the Temecula Wine Country and cotton, alfalfa and wheat along the Colorado River. The office is entrusted with the mission of promoting and protecting the agricultural industry of the County and its environment, ensuring the health and safety of the County's citizens, and fostering confidence and equity in the marketplace through education and the fair and uniform enforcement of laws, regulation, and ordinances enacted by the people of the State of California and the County of Riverside.

Various state statutes and regulations allow for county board of supervisors to set fees to recover costs associated with the agricultural commissioner's office providing certain agricultural services within their county. Said fees are not permitted to be more than the actual cost of the service rendered. The Board of Supervisors adopted Resolution No. 2008-219 on June 10, 2008, Agenda Item No. 9.1, establishing a fee schedule for agricultural services within the County of Riverside. That fee schedule is being updated and amended in accordance with the Board of Supervisors Policy B-4, "RATES CHARGED FOR CURRENT SERVICES."

The Agricultural Commissioner's Office, based on departmental cost analysis, deemed it necessary to amend the current fee schedule in order to ensure full cost recovery. Attached is Resolution No. 2020-144 containing the proposed amended fee schedule for agricultural services within the County of Riverside.

While Government Code section 54985(c)(4) excludes fees charged or collected by a county agricultural commissioner from the public hearing requirement set forth in Government Code section 54986(a), the Agricultural Commissioner's Office requested a public hearing to provide better transparency and opportunity for comments by the public. On June 16, 2020, Agenda Item 3.4, the Board of Supervisors set a public hearing on or after August 4, 2020 regarding the proposed amended fee schedule for agricultural services within the County of Riverside. In addition, the Board of Supervisors authorized and directed the Clerk of the Board to place an advertisement for the public hearing in the appropriate local publications.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

After the close of the public hearing, it is requested that the Board of Supervisors adopt Resolution No. 2020-144, A Resolution of the Board of Supervisors of the County of Riverside Adopting an Amended Fee Schedule for Agricultural Services within the County of Riverside.

Impact on Residents and Businesses

The Agricultural Commissioner's Office is updating the fees for several different types of services. Depending on the type of service, the agricultural industry may pay more or less as the fee will reflect full cost recovery; however, the fee shall not be more than the actual cost of the service rendered.
