C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

Section 18 of the Riverside County Flood Control and Water Conservation District Act requires the Board of Supervisors to hold a public hearing for the purpose of considering all comments regarding any proposed facilities before authorizing the construction of such facilities.

The Riverside County Flood Control and Water Conservation District (District) proposes to carry out the Woodcrest Dam Outlet Modification Project (Project), which will improve the overall reliability, maintainability, safety, and functionality of the facility. Specific measures to be implemented include rehabilitation of the existing outlet pipe, and replacement of the existing intake gate structure, survey monument well, and utility poles. Additional improvements include erosion control and hydroseeding on the earthen dam walls, placement of aggregate base along access roads and ramps, installation of an automated gate control system, seismometers, and concrete stairs. The cost of implementing the project is estimated at \$1,100,000.00 and is included in the District's Zone 1 budget.

California Environmental Quality Act (CEQA)

The Project is exempt from CEQA because it is consistent with the State CEQA Guidelines Class 1 Categorical Exemption (Existing Facilities) as provided in section 15301(m), which exempts "Minor repairs and alterations to existing dams and appurtenant structures under the supervision of the Department of Water Resources." The Project is being conducted under the supervision of the Division of Safety of Dams within the California Department of Water Resources. The Project is also consistent with State CEQA Guidelines section 15061(b)(3), the "General Rule" or "Common Sense Exemption", because it can be seen with certainty that there is no possibility that the proposed Project may have a significant effect on the environment because it is solely for the purpose of rehabilitating existing facilities that will improve the overall reliability, maintainability, safe and functionality of the dam.

In accordance with CEQA, the District has prepared an NOE. If the Board approves Resolution No. F2020-31, the Board may consider the NOE under Resolution No. F2020-32 during the Section 18 public hearing.

By *Aracella Raso*
Deputy

Description:

The District is the lead for this project. The goal for this project is to construct several improvements to the facility to improve the safety and operation of the dam. The proposed improvements include a new grated inlet structure to reduce potential for clogging of the outlet works, rehabilitation of the existing outlet gate assembly and control stem, implementation of an automated gate control system, rehabilitation of the outlet pipe, restoration of the outlet channel, erosion controls on the embankment slope, and extending the existing cutoff wall at the spillway. Once completed, this project will serve as an example for performing similar upgrades to the remaining Riverside Reservoir Dams. This project is fully funded by the District.

Woodcrest Dam Outlet Modification
Project No. 1-0-00045

Engineer's Statement

The proposed Woodcrest Dam Outlet Modification Project is located in the city of Riverside, California. The project site is bounded by Highridge Street to the north, Washington Street to the west, Hermosa Drive to the south, and Golden Star Avenue to the east. The primary project objective is to improve the reliability, maintainability, and safety of the outlet works. Project related improvements include:

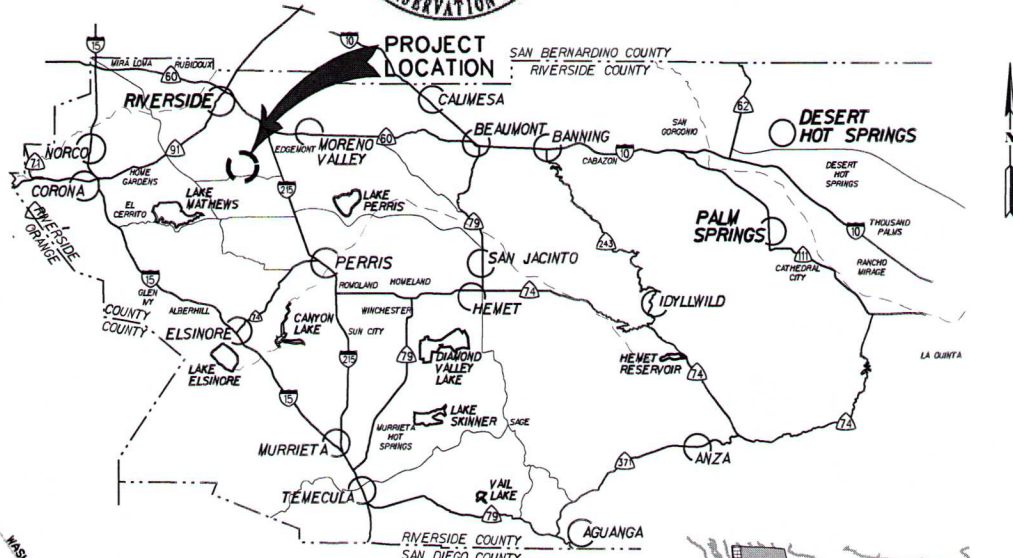

- Upgrading the existing intake structure with a new grated debris intake structure in order to reduce the potential for clogging and allow for safer maintenance;
- Replacing the existing outlet gate and gate stem;
- Installing access stairs along the upstream embankment from the crest to the toe;
- Armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed;
- Replacing the concrete pedestal at the crest of the dam; and
- Providing safety railing on the outlet wingwall.

Completion of the upgrades will restore the dam's hydraulic efficiency and extend the lifetime of the facility, improve the safety for maintenance staff, and reduce the need for embankment face maintenance. The estimated cost for the project is \$1,100,000.

RESOLUTION NO. F2020-32

**COMPLYING WITH SECTION 18 OF THE DISTRICT ACT
FOR THE WOODCREST DAM OUTLET MODIFICATION PROJECT
AND APPROVING THE WOODCREST DAM RESTORATION PROJECT**

WHEREAS, on November 10, 2020, the Board of Supervisors adopted Resolution No. F2020-31 pursuant to Section 18 of the Riverside County Flood Control and Water Conservation District Act ("District Act"), which requires the Riverside County Flood Control and Water Conservation District ("District") to give notice of its intention to construct a project in Zone 1, within the city of Riverside, designated as Woodcrest Dam Outlet Modification Project ("Project") and giving further notice that the Project would be considered at a public hearing on December 8, 2020; and

WHEREAS, the Project is generally bounded to the west by Washington Street, to the east by Golden Star Avenue, to the north by Highridge Street, and to the south by Hermosa Drive; and

WHEREAS, the Project consists of improvements to Woodcrest Dam, which will improve the overall reliability, maintainability, safety, and functionality of the structure. Specific measures to be implemented include upgrading the existing intake structure with a new grated debris intake structure, replacing the existing outlet gate and gate stem, installing access stairs along the upstream embankment, armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed, replacing the concrete pedestal at the crest of the dam, and providing safety railing on the outlet wingwall; and

WHEREAS, notice of the Section 18 public hearing was properly made, as required by law, and all persons desiring to be heard on the matter were given the opportunity to appear and present testimony, both oral and written, on December 8, 2020; and

WHEREAS, pursuant to the California Environmental Quality Act ("CEQA"), the District

1 is the lead agency for the Project; and

2 **WHEREAS**, the Project is not expected to adversely affect special status species, disturb
3 or remove hazardous materials, or result in significant cumulative impacts; and

4 **WHEREAS**, the District has reviewed the Project and determined that it is exempt from
5 CEQA pursuant to State CEQA Guidelines Sections 15301(m) which exempts "Minor repairs and
6 alterations to existing dams and appurtenant structures under the supervision of the Department of
7 Water Resources." The Project is also consistent with CEQA Guidelines Section 15061(b)(3), the
8 "General Rule" or "Common Sense Exemption"; and

9
10 **WHEREAS**, all provisions of CEQA and the District Rules to Implement the California
11 Environmental Quality Act have been satisfied; and

12 **WHEREAS**, the District is an active participant and Permittee in the Western Riverside
13 County Multiple Species Habitat Conservation Plan (MSHCP); and

14 **WHEREAS**, the Project is in compliance with Sections 6.1.2, 6.1.3, 6.3.2, 6.1.4, 7.0, and
15 Appendix C of the MSHCP for the Project.

16
17 **NOW, THEREFORE, BE IT RESOLVED, FOUND, DETERMINED AND**
18 **ORDERED** by the Board of Supervisors of the District in regular session assembled on December
19 8, 2020, based upon the evidence and testimony presented on the matter, both written and oral,
20 that:

21 1. The Project is in compliance with Section 18 of the District Act. The Section 18
22 Map is attached herein as Attachment "A"; an illustration of the Project's cross sections are
23 attached herein as Attachment "B"; the Engineer's Statement is attached herein as Attachment "C";
24 and the Declaration of Postings for the Woodcrest Public Library, the County Clerk, and the
25 District are attached herein as Attachment "D".

26
27 2. The environmental impacts of the Project have been sufficiently assessed, and a
28 determination has been made that the Project is exempt from CEQA pursuant to State CEQA

1 Guidelines Sections 15301(m) and 15061(b)(3) based on the information set forth in the Notice of
2 Exemption which is incorporated herein by this reference.

3 3. All obligations set forth to the District pursuant to applicable sections of the
4 MSHCP have been analyzed and shall be implemented by the District as prescribed in the MSHCP
5 Implementation Agreement.

6 4. The Project is approved and the District is hereby authorized to proceed with the
7 Project.

8 5. The custodians of the documents and materials that constitute the record of
9 proceedings on which this decision is based are with the Clerk of the Board of Supervisors and the
10 District. These documents and materials are located at 4080 Lemon Street, Riverside, California
11 ("Clerk") and 1995 Market Street, Riverside, California ("District"), respectively.

12 6. The Clerk of Board is directed to file the Notice of Exemption with the County
13 Clerk within five working days of approval by the Board.

SOURCE OF FUNDS:			Budget Adjustment: No	
			For Fiscal Year: 20/21	

C.E.O. RECOMMENDATION: [CEO use]

BACKGROUND:

Summary

The District proposes to carry out the Project, which will improve the overall reliability, maintainability, safety, and functionality of the facility. Specific measures to be implemented include upgrading the existing intake structure with a new grated debris intake structure, replacing the existing outlet gate and gate stem, installing access stairs along the upstream embankment, armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed, replacing the concrete pedestal at the crest of the dam, and providing safety railing on the outlet wingwall. The cost of implementing the project is estimated at \$1,100,000.00 and is included in the District's Zone 1 budget.

California Environmental Quality Act (CEQA)

The Project is exempt from CEQA because it is consistent with the CEQA Class 1 Categorical Exemption 15301(m), which exempts "Minor repairs and alterations to existing dams and appurtenant structures under the supervision of the Department of Water Resources." Based on the project's scope and setting, there are no applicable exceptions to exemption listed in Section 15300.2 of the State CEQA Guidelines.

The Project is also consistent with CEQA Guidelines Section 15061(b)(3), the "General Rule" or "Common Sense Exemption", because it can be seen with certainty that there is no possibility that the proposed Project may have a significant effect on the environment.

Based upon the exemptions identified above, the District concludes that no physical environmental impacts are anticipated to occur, and the Project as proposed is exempt under CEQA. Therefore, nothing further is required.

NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1st Floor Board Chambers, Court Administrative Center, 4080 Lemon Street, Riverside, on Tuesday, December 08, 2020, at 9:30 a.m., or as soon as possible thereafter, to consider the following Resolution Setting a Public Hearing Date for Woodcrest Dam Outlet Modification Project with Section 18 of the District Act, staff will be recommending continuance of the public hearing for Resolution No. 2020-32 to Tuesday, December 15, 2020:

**RESOLUTION NO. F2020-31
SETTING A PUBLIC HEARING DATE FOR
WOODCREST DAM OUTLET MODIFICATION PROJECT
WITH SECTION 18 OF THE
RIVERSIDE COUNTY FLOOD CONTROL
AND WATER CONSERVATION DISTRICT ACT**

WHEREAS, Act 6642 of the State Legislature, Section 18, of the Riverside County Flood Control and Water Conservation District Act ("District Act") requires that the Riverside County Flood Control and Water Conservation District ("District") give public notice and conduct a public hearing prior to undertaking construction of District facilities; and
WHEREAS, this Board of Supervisors ("Board") intends to undertake a project within the city of Riverside designated as the Woodcrest Dam Outlet Modification Project ("Project"); and
WHEREAS, the Project is generally bounded to the west by Washington Street, to the east by Golden Star Avenue, to the north by Highridge Street, and to the south by Hermosa Drive; and
WHEREAS, the Project consists of improvements to Woodcrest Dam which will improve the overall reliability, maintainability, safety, and functionality of the structure. Specific measures to be implemented include upgrading the existing intake structure with a new grated debris intake structure, replacing the existing outlet gate and gate stem, installing access stairs along the upstream embankment, armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed, replacing the concrete pedestal at the crest of the dam, and providing safety railing on the outlet wingwall; and
WHEREAS, reference is made to a Section 18 map (Attachment "A") bearing the name and showing the general location of the Project; and
WHEREAS, in accordance with the California Environmental Quality Act ("CEQA"), the District prepared a Notice of Exemption which demonstrates that the Project is consistent with the Class 1 Categorical Exemption for minor repairs and alterations to existing dams and appurtenant structures under the supervision of the Department of Water Resources; and
WHEREAS, on December 8, 2020, the date of the Section 18 Public Hearing, the Board will consider the Notice of Exemption and Resolution No. F2020-32; and
WHEREAS, the Section 18 map and the Engineers Statement for the Project are posted on the District's website of <http://rcflood.org> under the CEQA/Section 18 tab and may be inspected at the District's office located at 1995 Market Street, Riverside, California 92501 or at Woodcrest Public Library located at 16625 Krameria Avenue, Riverside, California 92504; and

WHEREAS, pursuant to Section 18 of the District Act, prior to making a decision on the Project, this Board will consider all written and oral comments; and
WHEREAS, pursuant to Section 18 of the District Act, any person wishing to comment on the Project may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted below.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED by the Board of Supervisors of the Riverside County Flood Control and Water Conservation District in regular session assembled on November 10, 2020 that:

1. A public hearing pertaining to the Woodcrest Dam Outlet Modification Project will be held in accordance with Section 18 of the District Act on December 8, 2020 at 9:30 a.m., or as soon as possible thereafter, at the meeting room of this Board, 1st Floor, County Administrative Center, 4080 Lemon Street, Riverside, California, 92501, at which time all public comments shall be heard.
2. The District shall cause a copy of this Resolution and copies of the map and Engineers Statement to be posted at least 21 days before said hearing at the Woodcrest Public Library located at 16625 Krameria Avenue, Riverside, California 92504.
3. The District shall cause a copy of this Resolution and copies of the map and Engineers Statement to be posted at least 21 days before said hearing at the Riverside County Flood Control and Water Conservation District located at 1995 Market Street, Riverside, California 92501.
4. The District shall cause a copy of this Resolution to be posted at least 21 days before said hearing at the Riverside County Clerk and Recorder's Office, 2724 Gateway Drive, Riverside, California 92507.
5. The Clerk of this Board is directed to cause a copy of this Resolution to be published twice, once at least 21 days before said hearing and once seven days following the initial publication, in a newspaper of general circulation in accordance with Section 18 of the District Act.

Woodcrest Dam Outlet Modification
Project No. 1-0-00045
Engineers Statement

The proposed Woodcrest Dam Outlet Modification Project is located in the city of Riverside, California. The project site is bounded by Highridge Street to the north, Washington Street to the west, Hermosa Drive to the south, and Golden Star Avenue to the east. The primary project objective is to improve the reliability, maintainability, and safety of the outlet works. Project related improvements include:

- Upgrading the existing intake structure with a new grated debris intake structure in order to reduce the potential for clogging and allow for safer maintenance;
- Replacing the existing outlet gate and gate stem;
- Installing access stairs along the upstream embankment from the crest to the toe;
- Armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed;
- Replacing the concrete pedestal at the crest of the dam; and
- Providing safety railing on the outlet wingwall.

Completion of the upgrades will restore the dam's hydraulic efficiency and extend the lifetime of the facility, improve the safety for maintenance staff, and reduce the need for embankment face maintenance. The estimated cost for the project is \$1,100,000.

KECIA R. HARPER, CLERK OF THE BOARD

NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1st Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on Tuesday, December 08, 2020, at 9:30 a.m., or as soon as possible thereafter, to consider the following Resolution Setting a Public Hearing Date for Woodcrest Dam Outlet Modification Project with Section 18 of the Riverside County Flood Control and Water Conservation District Act. In order to comply with noticing requirements pursuant to Section 18 of the District Act, staff will be recommending continuance of the public hearing for Resolution No. 2020-32 to **Tuesday, December 15, 2020:**

**RESOLUTION NO. F2020-31
SETTING A PUBLIC HEARING DATE FOR
WOODCREST DAM OUTLET MODIFICATION PROJECT
WITH SECTION 18 OF THE
RIVERSIDE COUNTY FLOOD CONTROL
AND WATER CONSERVATION DISTRICT ACT**

WHEREAS, Act 6642 of the State Legislature, Section 18, of the Riverside County Flood Control and Water Conservation District Act ("District Act") requires that the Riverside County Flood Control and Water Conservation District ("District") give public notice and conduct a public hearing prior to undertaking construction of District facilities; and

WHEREAS, this Board of Supervisors ("Board") intends to undertake a project within the city of Riverside designated as the Woodcrest Dam Outlet Modification Project ("Project"); and

WHEREAS, the Project is generally bounded to the west by Washington Street, to the east by Golden Star Avenue, to the north by Highridge Street, and to the south by Hermosa Drive; and

WHEREAS, the Project consists of improvements to Woodcrest Dam which will improve the overall reliability, maintainability, safety, and functionality of the structure. Specific measures to be implemented include upgrading the existing intake structure with a new grated debris intake structure, replacing the existing outlet gate and gate stem, installing access stairs along the upstream embankment, armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed, replacing the concrete pedestal at the crest of the dam, and providing safety railing on the outlet wingwall; and

WHEREAS, reference is made to a Section 18 map (Attachment "A") bearing the name and showing the general location of the Project; and

WHEREAS, reference is made to the engineering cost estimate of the Project, entitled "Engineer's Statement", (Attachment "C") on file with the Clerk of the Board; and

WHEREAS, in accordance with the California Environmental Quality Act ("CEQA"), the District prepared a Notice of Exemption which demonstrates that the Project is consistent with the Class 1 Categorical Exemption for minor repairs and alterations to existing dams and appurtenant structures under the supervision of the Department of Water Resources; and

WHEREAS, on December 8, 2020, the date of the Section 18 Public Hearing, the Board will consider the Notice of Exemption and Resolution No. F2020-32; and

WHEREAS, the Section 18 map and the Engineer's Statement for the Project are posted on the District's website at <http://rcflood.org> under the CEQA/Section 18 tab and may be inspected at the District's office located at 1995 Market Street, Riverside, California 92501 or at Woodcrest Public Library located at 16625 Krameria Avenue, Riverside, California 92504; and

WHEREAS, pursuant to Section 18 of the District Act, prior to making a decision on the Project, this Board will consider all written and oral comments; and

WHEREAS, pursuant to Section 18 of the District Act, any person wishing to comment on the Project may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted below.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED by the Board of Supervisors of the Riverside County Flood Control and Water Conservation District in regular session assembled

on November 10, 2020 that:

1. A public hearing pertaining to the Woodcrest Dam Outlet Modification Project will be held in accordance with Section 18 of the District Act on December 8, 2020 at 9:30 a.m., or as soon as possible thereafter, at the meeting room of this Board, 1st Floor, County Administrative Center, 4080 Lemon Street, Riverside, California, 92501, at which time all public comments shall be heard.

2. The District shall cause a copy of this Resolution and copies of the map and Engineer's Statement to be posted at least 21 days before said hearing at the Woodcrest Public Library located at 16625 Krameria Avenue, Riverside, California 92504.

3. The District shall cause a copy of this Resolution and copies of the map and Engineer's Statement to be posted at least 21 days before said hearing at the Riverside County Flood Control and Water Conservation District located at 1995 Market Street, Riverside, California 92501.

4. The District shall cause a copy of this Resolution to be posted at least 21 days before said hearing at the Riverside County Clerk and Recorder's Office, 2724 Gateway Drive, Riverside, California 92507.

5. The Clerk of this Board is directed to cause a copy of this Resolution to be published twice, once at least 21 days before said hearing and once seven days following the initial publication, in a newspaper of general circulation in accordance with Section 18 of the District Act.

RIVERSIDE COUNTY FLOOD CONTROL & WATER CONSERVATION DISTRICT
Woodcrest Dam Outlet Modification
 Supervisorial District 1

Date Created:	10/07/2020
Engineer:	TBD
Project No.:	1-0-00045-90

Description:

The District is the lead for this project. The goal for this project is to construct several improvements to the facility to improve the safety and operation of the dam. The proposed improvements include a new grated inlet structure to reduce potential for dogging of the outlet works, rehabilitation of the existing outlet gate assembly and control stem, implementation of an automated gate control system, restoration of the outlet pipe, rehabilitation of the outlet channel, erosion controls on the embankment slope, and extending the existing cutoff wall at the spillway. Once completed, this project will serve as an example for performing similar upgrades to the remaining Riverside Reservoir Dams. This project is fully funded by the District.

Woodcrest Dam Outlet Modification
Project No. 1-0-00045

Engineer's Statement

The proposed Woodcrest Dam Outlet Modification Project is located in the city of Riverside, California. The project site is bounded by Highridge Street to the north, Washington Street to the west, Hermosa Drive to the south, and Golden Star Avenue to the east. The primary project objective is to improve the reliability, maintainability, and safety of the outlet works. Project related improvements include:

- Upgrading the existing intake structure with a new grated debris intake structure in order to reduce the potential for clogging and allow for safer maintenance;
- Replacing the existing outlet gate and gate stem;
- Installing access stairs along the upstream embankment from the crest to the toe;
- Armoring both upstream and downstream embankment faces with a combination of rock mulch and hydroseed;
- Replacing the concrete pedestal at the crest of the dam; and
- Providing safety railing on the outlet wingwall.

Completion of the upgrades will restore the dam's hydraulic efficiency and extend the lifetime of the facility, improve the safety for maintenance staff, and reduce the need for embankment face maintenance. The estimated cost for the project is \$1,100,000.
