SOURCE OF FUNDS: Measure A/Western (84%) and Gas Tax/SB-1 (16%). There are no General Funds used in this project.			Budget Adjustment: No	
			For Fiscal Year: 20/21	

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

By Minute Order dated August 4, 2020 (Agenda Item 3.60), the Board of Supervisors authorized the Clerk of the Board to advertise for the construction of the Slurry Seal and Curb Ramp Accessibility Project for Fiscal Year 2020/21 at various locations in the communities of East Hemet, French Valley, and the unincorporated areas of Menifee and Temecula. The specific roads with their respective limits are listed in Attachment "1".

This project proposes to apply slurry seal, cape seal, and micro-surfacing treatments based on the condition of the existing pavement.

The slurry seal and cape seal treatments are provided as preventative maintenance measures to extend the life of the pavement and postpone more costly pavement rehabilitation. Both surface seal treatments seal small cracks, restore lost flexibility to the pavement surface and help preserve underlying pavement structure.

The micro-surfacing treatment is similar to slurry seal except it uses polymer modified and fast setting asphalt emulsion allowing thicker layers to be placed. The thick layer application is used to fill in ruts commonly found on roads with light to moderate truck traffic.

This project originally included reconstruction of one hundred and eight (108) existing curb ramps, an additional eleven (11) curb ramps were added by addendum, which brings the total to one hundred nineteen (119) curb ramps at various locations as part of the Transportation Department goal to provide safe and usable pedestrian facilities for all pedestrians and to comply with the Title II of the Americans with Disabilities Act (ADA) requirements. As part of the ADA requirement, curb ramps must be upgraded when adjoining roads are altered through resurfacing or placement of a thick layer of seal coat. The specific curb ramps locations are listed in Attachment "2".

A letter of bid protest was submitted by the second low bidder, Roy Allan Slurry Seal, Inc., for this project. The letter presented matters declaring the apparent low bidder as non-responsive and non-responsible. The Transportation Department and County Counsel reviewed the protest

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

and responded to their points of concern. Attached is a letter dated October 14, 2020 and attachments from County Counsel responding to the second low bidder's letter.

Page 1 of 2 of the Bid Proposal, received from American Asphalt South, Inc., has a hand written numeric correction made to the sub-total amount of Base Bid Schedule 1 and initialed by "TS". The sub-total amount was independently verified by the County to be the same amount as shown corrected on the bid. The Bid is signed by an authorized person. Nonetheless, a company representative appropriately submitted the Bid with the "TS" initials whose name is not listed on the company's Corporate Resolution. This clerical typo correction and initial is recommended to be waived as a minor bid irregularity.

During the advertisement, period two addenda were issued to all registered plan holders as a supplement to the plans and specifications. Bidders were required to acknowledge and take into account the issued addenda on their contractor's Bid in order to be considered for award. The addenda are attached and designated as Addendum No. 1 and Addendum No. 2.

The contract will include the following schedules of work:

Base Bid: Slurry Seal and associated work.
Alternative Bid Schedule 1: Curb Ramp and associated work
Alternative Bid Schedule 2: Curb Ramp and associated work at Intersection with Traffic Signals

Alternative Bid Schedule 2 was included to the contract by Addendum No. 1.

The contractor, American Asphalt South, Inc. is qualified to perform the work as outlined in the bid. They have executed the Contract and have provided bonds and insurance documents that meet the requirements of the Contract.

Project Numbers: D1-0008 (Slurry Seal)
D1-0013 (Curb Ramp)

Impact on Residents and Businesses

The Slurry Seal treatment will extend the life of the pavement thereby reducing the need for more extensive types of resurfacing that can be up to ten times more costly.

The reconstruction of curb ramps is expected to improve the access and safety of disabled persons using the pedestrian facilities along the roadways. In addition, bringing the curb ramps up to current accessibility standards contributes toward fulfilling the County Transportation Department's goals as stated in its ADA Self-Evaluation and Transition Plan as required by Title II of the Americans with Disabilities Act (ADA).

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

The work is expected to begin in December of 2020 and will take approximately five and half months to complete. The work will temporarily be halted between January and March 2021 due to anticipated rain and cold temperatures and will resume in April 2021.

Additional Fiscal Information

The Contract is recommended to be awarded to American Asphalt South, Inc. for the total amount of \$3,596,108. The slurry seal Contract is funded with Measure A/Western, and Gas Tax/SB-1 funds.

The proposed budget as shown on Attachment "A" includes Contract award amount and other associated costs. There are no General Funds used in this project.

Contract History and Price Reasonableness

Five bids were received on Wednesday September 2, 2020, ranging from \$3,596,108.30 to \$5,009,643.20. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by American Asphalt South, Inc. in the amount of \$3,596,108.30 which is \$813,392 (18%) below the Engineer's Estimate.

The Transportation Department recommends the award of the contract to the lowest responsive and responsible contractor, American Asphalt South, Inc.

Riverside County Contract No. 20-10-002

Contract

THIS CONTRACT is entered into at Riverside, California as of the date set forth below is between County of Riverside hereafter called "County" and American Asphalt South, Inc., hereafter called "Contractor".

WITNESSETH

Recitals:

1. Contractor has submitted to County his Contractor's Proposal for the construction of County Project, Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020 - 2021, District 3, Project No. D1-0008, D1-0013, in strict accordance with the Contract Documents identified below and County has accepted said Proposal.
2. Contractor states that he has reexamined his Contractor's Proposal and found it to be correct, has ascertained that his subcontractors are properly licensed and possess the requisite skill and forces, has reexamined the site and Contract Documents and is of the opinion that he can presently do the work in accordance with the Contract Documents for the money set forth in his Proposal to be paid as provided in the Contract Documents.

Agreement:

It is agreed by the parties as follows:

1. Contract Documents

The entire Contract consists of the following: (a) The Construction Contract, (b) The Notice to Bidders, (c) The Instruction to Bidders, (d) The Bid, (e) The Bid Bond, (f) The Payment Bond, (g) The Performance Bond, (h) The General Conditions, (i) The Special Provisions, (j) The Standard Specifications of the State of California Department of Transportation edition of 2018 as modified in other portions of the Contract Documents and as amended by the State of California Department of Transportation, (k) The Standard Plans of the Department of Transportation identified on the plans or in the Special Provisions, (l) The Plans, (m) Addenda (**none**), (n) The Determination of Prevailing Wage Rates for Public Works, (o) Any Change Orders issued, and (p) Any additional or supplemental specifications, notice, instructions and drawings issued in accordance with the provisions of the Contract Documents. All of said Documents presently in existence are by this reference incorporated herein with like effect as if here set forth in full and upon the proper issuance of other documents they shall likewise be deemed incorporated. The Bid Bond is exonerated upon execution of this Contract and the Payment Bond and Performance Bond.

2. The Work

Contractor shall do all tasks necessary to construct the work generally described in Recital No. 1 in accordance with the Contract Documents.

3. Prosecution, Progress and Liquidated Damages

Attention is directed to the provisions in Section 8-1.04, "Start of Job Site Activities", Section 8-1.05, "Time", and in Section 8-1.10 "Liquidated Damages" of the Standard Specifications and these Special Provisions.

Standard Specification Section 8-1.04B, "Standard Start" is modified to read as follows:

The Contractor shall begin work within fifteen (15) calendar days, or as revised in the Special Provisions, of the date stated within the written "Notice to Proceed".

The Contractor shall notify the Engineer, in writing, of the Contractor's intent to begin work at least 72 hours before work is begun. If the project has more than one (1) location of work, Contractor shall submit a separate notice for each location. The notice shall be delivered to the Transportation Department's Construction Engineer and shall specify the date the Contractor intends to start at said location.

Should the Contractor begin work in advance of receiving a written "Notice to Proceed", any work performed by the Contractor in advance of the date stated in the "Notice to Proceed" shall be considered as having been done by the Contractor at his own risk and as a volunteer and subject to the following:

- A. The Contractor shall, on commencing operations, take all precautions required for public safety and shall observe all the provisions in the Specifications and the Special Provisions.
- B. All work done according to the Contract, prior to the issuance of the "Notice to Proceed", will be considered authorized work and will be paid for as provided in the contract.
- C. The Contractor shall not be entitled to any additional compensation or an extension of time for any delay, hindrance or interference caused by or attributable to commencement of work prior to the issuance of the "Notice to Proceed".

4. Compensation

Contractor shall be paid in the manner set forth in the Contract Documents the amount of his Proposal as accepted by County, the above rates, subject to additions and deductions as provided in the Contract Documents. Said Proposal is on file in the Office of the Clerk of the Board of Supervisors of County.

**MINUTES OF THE 2019 ANNUAL MEETING
OF THE BOARD OF DIRECTORS OF
AMERICAN ASPHALT SOUTH, INC.**

The 2020 annual meeting of the Board of Directors of American Asphalt South, Inc., a California corporation (hereinafter referred to as the "Corporation"), was held in Fontana, California, on January 3, 2020, commencing immediately after the 2019 annual meeting of the shareholders of the Corporation. Said 2020 annual meeting of the Board of Directors was held for the purpose of electing officers of the Corporation, considering reports of the affairs of the Corporation, and transacting other business within the powers of the Board of Directors.

1. CALL TO ORDER-CHAIRMAN AND SECRETARY

The meeting was called to order by Allan A. Henderson, Chairman of the Board of Directors of the Corporation. Lyle Stone, the Corporate Secretary, acted as secretary of the meeting and recorded the minutes. Mr. Henderson then noted that at the 2019 annual meeting of the shareholders of the Corporation, which annual meeting had just concluded, that Allan A. Henderson, Kimberly L. Henderson and Jeffery R. Petty had been re-elected as members of the Corporation's Board of Directors, all to serve as such until the 2018 annual meeting of the shareholders of this Corporation.

2. VALIDITY OF MEETING

Notice of the date of this meeting is stated in the By-laws of this Corporation, specifically Section 3.6. All Directors present agreed that this is a valid meeting of the Board of Directors.

3. DIRECTORS PRESENT

The following Directors were present: Allan A. Henderson, Kimberly L. Henderson and Jeffrey R. Petty. The following Director(s) were absent: None.

4. ELECTION OF CHAIRMAN

Allan A. Henderson was then unanimously re-elected to serve as the Chairman of the Board of Directors until the 2020 annual meeting.

5. APPROVAL OF PRIOR MINUTES

The Chairman then presented to the meeting the minutes of the January 4, 2019 annual meeting of the Board of Directors of this Corporation, which are in the form of a written action. Said minutes were unanimously approved and all actions taken therein unanimously ratified.

6. NOMINATION AND ELECTION OF OFFICERS

The Chairman then called for nominations for the officers of the Corporation to serve for one year until the next annual Board of Directors meeting and until their successors are elected and qualified. The following persons were nominated for the offices designated beside his or her name:

Allan A. Henderson	- President
Jeff Petty	- Vice President
Lyle Stone	- Secretary
Allan A. Henderson	- Chief Executive Officer

The Chairman called for further nominations but none was made. The above persons were unanimously elected to the offices to which he had been nominated. Furthermore, all elected officers are duly authorized to sign documents on behalf of the corporation.

6. ADJOURNMENT

There being no further business, the meeting was adjourned.

Lyle Stone
Corporate Secretary

Performance Bond

Recitals:

1. American Asphalt South, Inc. (Contractor) has entered into a Contract with COUNTY OF RIVERSIDE (County) for construction of public work known as Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020 - 2021, District 3, Project No. D1-0008, D1-0013.
2. _____, a _____ corporation (Surety), is the Surety under this Bond.

Agreement:

We, Contractor as Principal and Surety as Surety, jointly and severally agree, state, and are bound unto County, as obligee, as follows:

1. The amount of the obligation of this Bond is 100% of the estimated contract price for the Project of \$3,596,108.30 (Three million, five hundred ninety six thousand, one hundred eight dollars and thirty cents) and inures to the benefit of County.
2. This Bond is exonerated by Contractor doing all things to be kept and performed by it in strict conformance with the Contract Documents for this project, otherwise it remains in full force and effect for the recovery of loss, damage and expense of County resulting from failure of Contractor to so act. All of said Contract Documents are incorporated herein.
3. This obligation is binding on our successors and assigns.
4. For value received, Surety stipulates and agrees that no change, time extension, prepayment to Contractor, alteration or addition to the terms and requirements of the Contract Documents or the work to be performed thereunder shall affect its obligations hereunder and waives notice as to such matters, except the total contract price cannot be increased by more than 10% without approval of Surety.

On September 16, 2020 before me, Deanna Quintero, Notary Public
(insert name and title of the officer)

personally appeared Elizabeth Collodi

who proved to me on the basis of satisfactory evidence to be the person(s) whose name(s) is/~~are~~ subscribed to the within instrument and acknowledged to me that ~~he~~/she/~~they~~ executed the same in ~~his~~/her/~~their~~ authorized capacity(~~ies~~), and that by ~~his~~/her/~~their~~ signature(s) on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature  (Seal)

POWER OF ATTORNEY
EVEREST REINSURANCE COMPANY
DELAWARE

KNOW ALL PERSONS BY THESE PRESENTS: That Everest Reinsurance Company, a corporation of the State of Delaware ("Company") having its principal office located at 477 Martinsville Road, Liberty Corner, New Jersey 07938, do hereby nominate, constitute, and appoint:

Breanna Boatright, Elizabeth Collodi, John Hopkins, John J. Weber, Joseph H. Weber, Katherine Gordon, Marissa Robinson, Renee Ramsey, Sara Walliser, Stephanie Agapoff, Mindy Whitehouse, Jennifer Lakmann, K. Corey Ward, Deanna Quintero, Kristie Phillips, Claudine Gordon, Michael K. Feeney, Samantha Watkins

its true and lawful Attorney(s)-in-fact to make, execute, attest, seal and deliver for and on its behalf, as surety, and as its act and deed, where required, any and all bonds and undertakings in the nature thereof, for the penal sum of no one of which is in any event to exceed UNLIMITED, reserving for itself the full power of substitution and revocation.

Such bonds and undertakings, when duly executed by the aforesaid Attorney(s)-in-fact shall be binding upon the Company as fully and to the same extent as if such bonds and undertakings were signed by the President and Secretary of the Company and sealed with its corporate seal.

This Power of Attorney is granted and is signed by facsimile under and by the authority of the following Resolutions adopted by the Board of Directors of Company ("Board") on the 28th day of July 2016:

RESOLVED, that the President, any Executive Vice President, and any Senior Vice President and Anthony Romano are hereby appointed by the Board as authorized to make, execute, seal and deliver for and on behalf of the Company, any and all bonds, undertakings, contracts or obligations in surety or co-surety with others and that the Secretary or any Assistant Secretary of the Company be and that each of them hereby is authorized to attest to the execution of any such bonds, undertakings, contracts or obligations in surety or co-surety and attach thereto the corporate seal of the Company.

RESOLVED, FURTHER, that the President, any Executive Vice President, and any Senior Vice President and Anthony Romano are hereby authorized to execute powers of attorney qualifying the attorney named in the given power of attorney to execute, on behalf of the Company, bonds and undertakings in surety or co-surety with others, and that the Secretary or any Assistant Secretary of the Company be, and that each of them is hereby authorized to attest the execution of any such power of attorney, and to attach thereto the corporate seal of the Company.

RESOLVED, FURTHER, that the signature of such officers named in the preceding resolutions and the corporate seal of the Company may be affixed to such powers of attorney or to any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be thereafter valid and binding upon the Company with respect to any bond, undertaking, contract or obligation in surety or co-surety with others to which it is attached.

IN WITNESS WHEREOF, Everest Reinsurance Company has caused their corporate seals to be affixed hereto, and these presents to be signed by their duly authorized officers this 28th day of July 2016.

Nicole Chase

Attest: Nicole Chase, Assistant Secretary

Everest Reinsurance Company

Anthony Romano

By: Anthony Romano, Vice President

On this 28th day of July 2016, before me personally came Anthony Romano, known to me, who, being duly sworn, did execute the above instrument; that he knows the seal of said Company; that the seal affixed to the aforesaid instrument is such corporate seal and was affixed thereto; and that he executed said instrument by like order.

LINDA ROBINS
Notary Public, State of New York

ADDITIONAL INSURED – VOLUNTEER WORKERS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

Section II – Who Is An Insured is amended to include as an insured any person(s) who are volunteer worker(s) for you, but only while acting at the direction of, and within the scope of their duties for you. However, none of these volunteer worker(s) are insureds for:

1. "Bodily injury" or "personal and advertising injury":
 - a. To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to your other volunteer worker(s) or to your "employees" arising out of and in the course of their duties for you;
 - b. To the spouse, child, parent, brother or sister of your volunteer worker(s) or your "employees" as a consequence of Paragraph 1.a. above;
 - c. For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraphs 1.a. or b. above; or
 - d. Arising out of his or her providing or failing to provide professional health care services.
2. "Property damage" to property:
 - a. Owned, occupied, or used by,
 - b. Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by you, any of your other volunteer workers, your "employees", any partner or member (if you are a partnership or joint venture), or any member (if you are a limited liability company).

**DESIGNATED CONSTRUCTION PROJECT(S)
GENERAL AGGREGATE LIMIT**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

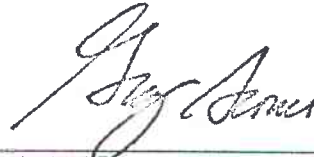

Designated Construction Projects: ALL PROJECTS WITH THE POLICY PERIOD.

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

- A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERAGE A (SECTION I), and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:
 - 1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations
 - 2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under COVERAGE A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under COVERAGE C regardless of the number of:
 - a. Insureds;
 - b. Claims made or "suits" brought; or
 - c. Persons or organizations making claims or bringing "suits".
 - 3. Any payments made under COVERAGE A for damages or under COVERAGE C for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
 - 4. The limits shown in the Declarations for Each Occurrence, Fire Damage and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.
- B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under COVERAGE A (SECTION I), and for all medical expenses caused by accidents under COVERAGE C (SECTION I), which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above
 - 1. Any payments made under COVERAGE A for damages or under COVERAGE C for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-Completed Operations Aggregate Limit, whichever is applicable; and
 - 2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.
- C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-Completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restated, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Limits Of Insurance (SECTION III) not otherwise modified by this endorsement shall continue to apply as stipulated.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.
CONTRACTUAL LIABILITY – RAILROADS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Scheduled Railroad:	Designated Job Site:
	ALL JOBSITES

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

With respect to operations performed for, or affecting, a Scheduled Railroad at a Designated Job Site, the definition of "insured contract" in the Definitions section is replaced by the following:

9. "Insured Contract" means:

- a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire to premises while rented to you or temporarily occupied by you with permission of the owner is not an "insured contract";
- b. A sidetrack agreement;
- c. Any easement or license agreement;
- d. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;
- e. An elevator maintenance agreement;
- f. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury" or "property damage" to a third person or organization.

Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph f. does not include that part of any contract or agreement:

- (1) That indemnifies an architect, engineer or surveyor for injury or damage arising out of:
 - (a) Preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
 - (b) Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage;
- (2) Under which the insured, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in Paragraph (1) above and supervisory, inspection, architectural or engineering activities.

THIS ENDORSEMENT MODIFIES INSURANCE PROVIDED UNDER THE FOLLOWING:

CONTRACTORS POLLUTION LIABILITY COVERAGE PART

SCHEDULE:

Name of Person(s) or Organization(s):

As required by written contract or agreement signed by both parties prior to a loss to which this insurance applies.

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

A. SECTION II - WHO IS AN INSURED is amended to include as an additional insured the persons or organizations shown in the Schedule, but only with respect to liability for injury or damage, to which this insurance applies, caused, in whole or in part, by:

1. Your acts or omissions; or
 2. The acts or omissions of those acting on your behalf;
- in the performance of your ongoing operations for the additional insureds.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following exclusion is added:

Exclusions

This insurance does not apply to injury or damage occurring after:

- a. All work or operations, including materials, parts or equipment furnished in connection with such work or operations, on the project (other than service, maintenance or repairs) to be performed by you or on your behalf at the site of the covered operations has been completed; or

Westchester

A Chubb Company

b. That portion of **your work** out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for the additional insured as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to **SECTION III – LIMITS OF INSURANCE:**

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
 2. Available under the applicable Limits of Insurance shown in the Declarations;
- whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

All other terms and conditions of this policy remain unchanged.

(NAME OF INSURANCE COMPANY)

issued to American Asphalt South, Inc

Premium (if any) \$

None

Authorized Representative

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. (This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.)

You must maintain payroll records accurately segregating the remuneration of your employees while engaged in the work described in the Schedule.

The additional premium for this endorsement shall be *% of the California workers' compensation premium otherwise due on such remuneration.

Schedule

RE: Response to Bid Protest Letter
Slurry Seal and Curb Ramp Accessibility Project, for Fiscal Year 2020-2021, District 3,
Project No. D1-0008, D1-0013

Dear Mr. Allan:

This office is legal counsel for the Riverside County Transportation and Land Management Agency, Transportation Department ("Transportation"). We have received a letter from you sent to Joel Jimenez, Engineering Project Manager, of Transportation dated September 18, 2020 regarding the above referenced Project (letter attached). With regard to your letter and the bid by American Asphalt South, Inc. ("AAS"), Transportation and this office have reviewed your issues presented and the bid by AAS. Transportation provides the following response to the one ground of protest noted in your letter.

On September 2, 2020, five (5) bids were received at the Transportation Department's office, for the Project. After the public bid opening, AAS was announced as the apparent low bidder and Roy Allan Slurry Seal, Inc. was the second low bidder. See attached bid summary for verified cost information regarding all five received bids.

Your letter presented two issues or concerns in which you have requested that Transportation declare the apparent low bidder as non-responsive and non-responsible.

In your letter it was asserted that:

"We are formally protesting the award of the Slurry Seal and Curb Ramp Accessibility Project...to American Asphalt South (AAS). AAS is not a responsible bidder as required by the Public Contract Code and the contract documents, and their bid is nonresponsive. The County of Riverside should award this project to the lowest responsible and responsive bidder, Roy Allan Slurry Seal, Inc."

In regards to the assertion AAS is non-responsive your letter stated:

"AAS' bid is nonresponsive because it has been altered and initialed by someone other than an authorized signer. On page one of the bid document the subtotal is crossed out and rewritten, it is initialed by a "TS" which is neither the bid signer nor a person authorized to sign for the bidder as listed on page B4 of the bid. Because of this the bid is not responsive."

In order for a bid to be "responsive" a bid must be in strict and full accordance with the material terms of the bid instructions, and a public agency has the discretion to waive an immaterial variation. "An "immaterial variation" is the failure of a bidder to meet a bid requirement that does not affect the bidder's commitment if it is awarded the contract because the requirement is merely procedural and, in the particular case, the meaning of the bid is clear..." *Konika Bus. Machs. U.S.A., Inc., v. Regents of Univ. of Cal.*, (1988) 206 Cal.App.3d 449. AAS wrote the correct subtotal for Base Bid 1 and crossed out one set of numbers to write the correct set to match the written words. It is clear the mistake was a typo and regardless of the initials next to the crossed out information, the bid was signed by the appropriate authority and it is presumed the authority signing on behalf of the company was aware of the strike-through and approved the information. The bid was submitted by AAS appropriately and their signature authority on any of the operative requirements within their bid has not been disputed. The total of the bid is clear and the crossed out information is considered immaterial because it would not change AAS from its obligation to perform under the bid documents and does not give them an unfair advantage over other bidders. Therefore, the bid by AAS is deemed responsive.

The next issue you presented is the claim AAS is not a responsible bidder. As your letter has stated the term "responsible bidder" has been held to refer not only to trustworthiness, but also to quality, fitness, capacity and experience of the bidder to satisfactorily perform the particular requirements of the proposed work. "A determination that a bidder is responsible [or not] is a complex matter dependent, often, on information received outside the bidding process and requiring, in many cases, an application of subtle judgment. Not only is the process complex, but the declaration of nonresponsibility may have an adverse impact on the professional or business reputation of the bidder." (*Taylor Bus Service, Inc. v. San Diego Bd. of Education* (1987) 195 Cal.App.3d 1331, 1341-1342, 241 Cal.Rptr. 379.)

In evaluating the responsibility of a bidder numerous factors will be considered, for example, the financial capabilities of the bidder, the bidder's experience with the type of work of the project, the bidder's work on previous projects, etc. The letter from the City of San Diego, which is the basis of your reasoning to declare AAS as non-responsible, has been evaluated by our office and we have given due consideration to the information you have presented. However, the letter presented by the City only shows one side of the story and the debarment hearing referenced in the letter does not have a set date at this time. Without knowing the outcome of the debarment proceedings or the facts presented by AAS, this office would not have the ability to make an informed decision. The "responsibility" of each individual bidder has to be done independently and as a public agency we are also "required to afford a significant level of due process to the bidder, including notice and an opportunity to respond", *D.H. Williams Constr., Inc. v. Clovis*

Lawrence Allan, President
October 14, 2020
Page 3

Unified Sch. Dist., 146 Cal. App. 4th 757, 53 Cal. Rptr. 3d 345 (2007). We simply could not declare AAS as non-responsible only based on pending disciplinary actions taken in another jurisdiction. It is not our role to validate claims made outside of our agency. As a public agency we have the discretion to conduct our own responsibility hearing if we believe there are enough facts to warrant those proceedings, however the information presented is insufficient to recommend our own responsibility hearing.

Furthermore, AAS has bid on several projects within Riverside County and has been declared the lowest bidder more than once. Transportation has worked with AAS multiple times over the years and has not had any issues arise regarding the responsibility of AAS and their ability to perform the work required. Therefore, given the past professional experience with AAS and the insufficiency of the evidence presented your request to declare the bid from American Asphalt South, Inc. as non-responsible and non-responsive and award this project to the second low bidder, Roy Allan Slurry Seal, Inc., has been reviewed and is denied. Transportation intends to award to American Asphalt South, Inc. as the lowest responsive and responsible bid at the next possible Board meeting. To view and determine when this item will go before the Board of Supervisors for award, you may check the Clerk of the Board website, <http://www.rivcocob.org/> under Agendas & Proceedings for the Board of Supervisors on the Friday before a regularly scheduled upcoming Tuesday meeting. Or you may contact Saleem Baig at SBAIG@rivco.org or at 951-955-1682 for an update.

Transportation sincerely thanks Roy Allan Slurry Seal, Inc. for its interest in bidding on its projects. Transportation looks forward to your continued interest in its projects and encourages you to continue to check on future projects on which to bid. Should you have any questions or need additional information, please contact me at your convenience at (951) 955-6300.

Sincerely,

GREGORY P. PRIAMOS
County Counsel

RE: Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020-2021, District 3,
Project No. D1-0008, D1-0013

To whom it may concern,

We are formally protesting the award of the Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020-2021, District 3, Project No. D1-0008, D1-0013 to American Asphalt South (AAS). AAS is not a responsible bidder as required by the Public Contract Code and the contract documents, and their bid is nonresponsive. The County of Riverside should award this project to the lowest responsible and responsive bidder, Roy Allan Slurry Seal, Inc.

AAS' bid is nonresponsive because it has been altered and initialed by someone other than an authorized signer. On page one of the bid document the subtotal is crossed out and rewritten, it is initialed by a "TS" which is neither the bid signer nor a person authorized to sign for the bidder as listed on page B4 of the bid. Because of this the bid is not responsive.

In addition to the bid being nonresponsive AAS is also not a responsible bidder. Public Contract Code section 20162 states that, "When the expenditure required for a public project exceed five thousand dollars (\$5,000), it shall be contracted for and let to the lowest responsible bidder after notice". PCC Section 1103 defines a responsible bidder as, "a bidder who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity, and experience to satisfactorily perform the public works contract. The County of Riverside's own 2015 Vendor Handbook defines responsible bidder as, "A bidder who has the capability in all respects to perform the contract requirements fully, and whose integrity and reliability will assure good-faith performance."

It is clear why trustworthiness is listed as the first attribute of a responsible bidder. Before all else a public agency must be able to trust the contractor, without which the other attributes are meaningless. An agency must be able to trust that the contractor is not engaging in corrupt bidding practices, trust that they are not creating a conflict of interest by giving gifts to city employees to influence their contract, trust that they are not creating fraudulent change orders, and trust that they are not billing the city twice for completed work. These are just a few examples cited by the City of San Diego in the attached document in which the city suspends AAS and determines they are not a responsible contractor

In their letter the City of San Diego concludes, "AAS has shown their willingness to manipulate prices and the contracting process. These actions make AAS a non-responsible bidder and unable to perform on City work. It is in the best public interest to prevent harming the public's financial well-being and to maintain the public's trust to contract with contractors that do not violate the law."

Sincerely,

Lawrence Allan
President

Fontana, CA 92331

Re: Notice of Suspension and Initiation of Debarment Proceedings

Dear Mr. Henderson,

This letter is to inform you that the City of San Diego (City) is suspending American Asphalt South, Inc., pending debarment¹ proceedings, along with its officers, and its affiliates under San Diego Municipal Code (SDMC) §22.0807(a)(4) and 22.0807(a)(7). The grounds for suspension pending debarment are based on the following facts and evidence:

On April 13, 2020, the Office of the City Auditor issued a report entitled "Hotline Investigation of Gifts Received by a City Employee" (Attachment 2). This report prompted City staff to review and conduct a separate, internal investigation, of potential wrongdoing based on behavior identified by vendors included in the report. After conducting an internal investigation of City email correspondence and reviewing the City Auditor's confidential report, staff determined that American Asphalt South, Inc. (AAS) has acted in ways that justify debarment as described in San Diego Municipal Code Chapter 2, Article 2, Division 8 (Debarment).

1. **AAS created a conflict of interest by providing gifts, travel, and entertainment to City Employee A, a public employee with the authority to award option contracts, approve change orders up to \$250,000, and authorize field order money up to \$150,000 on AAS contracts.**

City Employee A confirms he received gifts from contractors. Specifically, from AAS, tickets to a football game at Levi's Stadium in the San Francisco Bay Area, including hotel and airfare. The value of this gift totaled \$563.60.

Further, City Employee A received and attended invitations to Annual MSA Golf Tournaments between 2012 and 2016. The cumulative value of these tournaments totaled \$382.50 (refer to Attachment 2 for detailed information).

2. **AAS has engaged in corrupt practices in the bidding, award, administration, or performance of a contract (SDMC §22.0807(a)(4)).**

¹ The City's debarment procedures are described in San Diego Municipal Code §22.0801 through 22.0826. Refer to Attachment 1.

A contractor may be permanently debarred from City contracts when "... engaged in any corrupt practice in bidding, award, administration, or performance of a contract." For every bid submitted, AAS certified under the penalty of perjury a "Non-Collusion Affidavit" under 23 United States Code 112 and Public Contract Code 7106. In all instances where AAS was a prime bidder, this certification was attested to. However, based on the examples noted within this recommendation, the evidence found during the investigation indicate AAS frequently and actively engaged in dishonest and corrupt behavior in connection with City contracts, conspired with City Employee A to receive competitive advantages, and submitted sham bids. Based on the evidence, the following corrupt practices committed by AAS staff and officers include:

A. Scheming with City Employee A to extend bid opening dates and alter bidding documents via addendum to allow AAS to bid on projects.

On at least one occasion, AAS obtained a competitive edge by convincing the City to accept a different slurry seal material, because AAS was unable to obtain the material that was originally called for in the invitation to bid.

In an email between City Employee A and a representative from AAS, a bid item for "Scrub Seal" on the FY '10 Slurry Seal Group V project that was actively advertising, the AAS representative asked City Employee A to delete the item:

AAS Representative: *"You can't just delete the item."*

City Employee A: *"Nope. It's set in stone...politics bro."*

In a separate email related to the same bid, a representative from AAS forwards an email between AAS and Petrochem Manufacturing, Inc. (PMI) indicating PMI has decided not to quote AAS. By PMI indicating they would not quote AAS for the proprietary product (Rubberized Emulsion Aggregate Slurry, known as REAS) specified in the bid, AAS would not be able to bid the project. Instead, working with City Employee A to change the proprietary product to a non-proprietary product, AAS put itself in a position to bid.

City Employee A: *"Looks like I may be switching to RPMS then. Hang tight, I just discussed this with our Purchasing Dept. and they asked me to consult with my attorney. I'll get back to you. If PMI does have the legal right to do this, then I will have to delay the bids on all my projects one more month in order to switch the product."*

Subsequently, the bid opening date was extended, and a change in product was made to include an "or equal clause." This permitted AAS to submit a bid to include Rubber Polymer Modified Slurry (RPMS) in lieu of the proprietary PMI product.

AAS Representative: *"You're the MAN!!!!!!!!!!!!!!!!!!!!!!"*

City Employee A: *"PMI doesn't have me in their pocket AND I don't take kindly to them playing dirty. It's a good thing AA[S] has you working for them and we both like guns."*

B. Conspired with City Employee A to remove subcontractors listed in bid documents, in violation of WHITEBOOK requirements, create fraudulent change orders, and complete an excess of \$715,000 of subcontractor work in-house.

Subcontractors listed on bid documents cannot be substituted without the express authorization of the City. Contractors' must follow the subcontractor substitution procedure contained within City of San Diego Standard Specifications for Public Works Construction, "The WHITEBOOK", including complying with Public Contract Code (PCC) 4107. Substitution requests must comply with one of the nine (9) reasons identified under PCC and as mirrored in the WHITEBOOK. Verification that a valid reason to substitute exists is conducted prior to authorizing such a substitution by appropriate City staff. Unauthorized, or illegal substitution of a subcontractor will result in a penalty being assessed as outlined under PCC 4110.

In an email from an AAS representative and City Employee A:

AAS Representative: *"Here is the information on the last 2 options FY10 group III and FY10 group V. FY10 group III on this one we can delete the AC item (to get rid of Frank and sons) and CCO its back in afterwards so we can do it in house. Sub out the crack seal and striping depending on the \$ amount to meet the goals to meet the 15.1% subcontracting goals. FY 10 group V on this one we have to give the AC to PAL due to the SLBE and ELBE goals. But we could not list Safe USA for the crack seal and do it in house."*

The subcontractors on these projects were listed for \$377,842 (Frank and Sons) and \$338,340 (Safe USA) worth of work. The award to AAS was made based on low bid, but also the mandatory subcontractor participation requirements identified in the contract. Listing subcontractors to meet subcontractor participation requirements, and subsequently removing them to perform work in house is a violation. It is evident that AAS submitted a sham bid as AAS had no desire to provide the subcontract opportunities to the listed subcontractors. AAS intended to remove the subcontractors and retain the City money that would have gone to those listed subcontractors.

C. Submission of unreasonably low bids with a covert understanding that City Employee A would later approve change orders and price increases.

Prior to submitting its bids, AAS sought to gain a competitive advantage by asking City Employee A to comment upon or revise its bid.

A representative from AAS sent an email to City Employee A regarding the bid proposal for contract Option 14 S1.

AAS Representative: *"I made this sheet for you to look at."*

City Employee A: *"See attached proposal. You guys are fleecing me! Yes, it's lower than the original contract, BUT you'll make it up in about \$3 to \$400k in change orders for mill/paves AND check out the bonus I'm giving you guys in bid items 12, 13, & 15! PARTY! Make sure you guys get yourself a little something special."*

D. Conspiring with City Employee A to obtain favorable prices and terms on City contracts to the detriment of the City, including being paid twice for completed work, creating change orders for payment of work already listed in contract documents and submitting invoices for incomplete work.

In an email exchange regarding Slurry contracts:

AAS Representative: *"Attached is the proposal for Granada Avenue."*

City Employee A: *"Thanks! Looks good. Don't think I didn't see the \$750/ton digouts. I'm going to ask Field to ask you for a quote. Stay tuned."*

In an email exchange for a specific contract (FY11, Group 6), Transportation & Storm Water (TSW) Staff question a quote submittal by AAS for PCC Trench Resurfacing with City Employee A:

TSW Staff: *"These tons were already identified in the bid docs. The contract states no additional payment shall be made for milling, grinding, or saw cutting PCC or other material. The REs don't understand why a perfectly good PCC trench cap needs removal—most likely due to failing sub around the trench. I know PAL doesn't like PCC but our contract is pretty clear. I've told the REs before that the issue is between PAL and American, not us."*

Do you want to approve all this 'extra work' that isn't?"

City Employee A: *"I see your point, but their claim is that it's a full digout of the PCC which by what I can tell isn't covered under milling, grinding, or saw cutting. In future overlay/slurry contracts, we're going to include a bid item for utility trench R&R."*

TSW Staff: *"These were marked out and quantified as dig outs. What is the difference with so much PCC in the streets? AC contractors should know about San Diego streets being full of PCC trench caps. I'm missing the point of adding more bid items that don't get inspected. Contractors could claim all AC work is trench work and the RE wouldn't be the wiser. And, since Field won't enforce the contract, contractors get away with so many CCOs for 'extra work'. I know, I know--it is none of my business. I'll approve all CCOs without comment."*

In another instance, City Employee A forwards an email exchange amongst internal City staff related to work related to the Governor Drive Library. By forwarding such exchanges, AAS is given insider knowledge on what City staff is expecting, urgency, and willingness to execute a contract. Insider information allows a bidder to formulate their bid or quote in such a way that will appear attractive to the reviewer of such quote.

City Employee A: *"Can you do a Type 2 over 3 on this? I'll pay the extra."*

AAS Representative: *"I don't see why not. I'll look at it in the morning."*

AAS and City Employee A also plotted to alter AAS billing so that AAS could obtain more money than they were entitled to. AAS sent these communications to City Employee A's personal email account so that their scheming would not be discovered:

AAS Representative: *"Hi [City Employee A], When we spoke a couple of weeks ago, you told me to send the June billings to you before sending them to the City for your review. I have attached the 3 estimated billings that would be completed at that time. Please let me know if there are any changes you would like me to make."*

City Employee A: *"Looks good. I noticed the 'Crack Seal' bid item is really low on the billing. Can you bill me a lot more for that and still justify it to Field without them questioning you?"*

AAS Representative: *"I have talked to our subcontractor for Crack Sealing and he was completely finished in May. He told me that [Name redacted] is aware of that."*

City Employee A: *"Ok. Submit the invoices to Field Division today. Don't worry, you'll get all that money left on the contract. Thanks.*

3. **American Asphalt South has committed an act or omission so serious or compelling in nature that it affects the present responsibility of the bidder or contractor to be awarded a contract or to participate as a subcontractor (SDMC §22.0807(a)(7)).**

To promote integrity in the City's contracting processes and to protect the public interest, the City shall only do business with responsible bidders and contractors. A "responsible bidder" is defined as a one that has the quality, fitness, and capacity to satisfactorily perform the proposed work, while a non-responsible bidder does not. Further, Public Contract Code section 1103 defines "responsible bidder" - means a bidder who has demonstrated the attribute of **trustworthiness**, as well as quality, fitness, capacity, and experience to satisfactorily perform the public works contract. The City makes the determination if a contractor has the capability to fully perform contract requirements and the business integrity to justify the award of public funds.

Further, in *City of Inglewood - LA County Civic Center Auth. v Superior Court*, 7 Cal.3d 861, 863 (1972) the court defined responsible to include attributes of trustworthiness.

Based on the findings of the investigations conducted by Public Works and Office of the City Auditor, AAS has committed acts so serious that it affects their ability to perform as a responsible bidder, reveals their lack of business integrity, and puts into question their trustworthiness. The following acts committed by AAS and their staff supports these conclusions:

- A. **AAS circumvented official City communications policy and protocol to achieve preferential treatment from City Employee A. AAS was informed through the WHITEBOOK, City bidding documents, and preconstruction meetings that a project's resident engineer is the single point of contact between the City and the contractor. AAS staff consistently sidestepped this policy and communicated directly with City Employee A on both his work and personal email accounts.**

Minutes of preconstruction meetings wherein AAS was a prime contractor all show the same direction was given to AAS regarding a single point of communication:

"There is a single point of contact between the City and the contractor, and that is the Resident Engineer. All communication and correspondences between the City and Contractor shall be through the RE, unless agreed to otherwise by the Resident Engineer. The contractor is represented by the Superintendent."

AAS continuously circumvented this direction by reaching out directly to City Employee A, instead of the assigned resident engineer.

In an email exchange regarding a change in REAS to Type II Slurry, the AAS representative is showing their willingness to circumvent field engineering staff, the designated point of contact, and instead work through a project manager to get the product changed. Failure to follow clear, defined direction shows a lack of responsibility.

City Employee A: *"I told you. The lab does not approve anything. They are there to do testing. I would find out who the project manager on the job is and go through that person to*

change the product. Don't ever deal with Field Division on issues like this. Tell the project manager that you've already spoken with me and I'm ok with using RPMS."

AAS Representative: *"I'll find out who the PM is."*

City Employee A: "I just thought of something that may help. [City employee name redacted] going to be upset if he finds out you went around the RE and asked the project manager directly. Give me an intersection near the project and I can look up the project manager for you with his email. Then, email your question to the RE and cc the project manager. That way you're letting the project manager what you want to do AND your still dealing directly with the RE.

AAS Representative: *"I see, good idea!"*

In an email related to an invoice for a group project, an AAS representative forwards an exchange between TSW staff and AAS to City Employee A with the following question:

AAS Representative: *"Do we really have to deal with the field orders on March invoice?"*

Here, the AAS Representative is questioning the resident engineer's request to correct the invoice as submitted. The resident engineer states that money needed to be allocated to the field order for extra work and that the quantities needed to be agreed upon prior to the submittal as opposed to trying to back track charges.

Another email shows an exchange forwarded by an AAS Representative to City Employee A regarding the Aldine Drive Slope Restoration project, awarded in April of 2011, where AAS was performing as a subcontractor. The scope of the project was to install a retaining wall to stabilize the slope on Aldine Drive segment between Van Dyke and Fairmount Avenues in the Kensington neighborhood. The work would also include restoration of private property, installation of irrigation, and street resurfacing and/or slurry. The application of the slurry product by AAS was showing signs of failure and noted by City staff and AAS. The AAS Representative indicated they [AAS] could make the repairs but would not be able to slurry until August to help minimize shade and dry out wet areas.

AAS Representative: *"Can they fix the seeping water?"*

City Employee A: *"No."*

AAS Representative: *"Have you decided what you want to do with this? This guy from [Contractor Name Redacted] is something else. He called my office wanting to talk to my boss so we gave him to [AAS Representative Name Redacted] and told him he needs to deal with me on it. Haha!!!! He said he just needs something from the city saying it is accepted because field is saying it is not. If you want I can re-slurry it again this time in a full closure in august and hope it holds until winter. Just to make it go away!"*

A separate email string with the same email string shows a separate question after City Employee A says, "No.":

AAS Representative: *"Why not add it to one of my contracts and do an over lay?"*

The request from the AAS Representative shows a blatant disregard to the use of public funds. Instead of working to resolve the project under the warranty provisions of the

appropriate contract [Aldine Drive Slope Restoration, referenced above], AAS shows clear intent on requesting this be moved to a separate contract and to be paid for the same work for a second time.

- B. City Employee A covertly forwarded and blind copied AAS staff to internal City email communications. AAS staff received City communications involving citizen complaints, contractor performance issues, billing and invoicing disputes, changes in bidding documents, and internal City email communications. AAS was privy to internal City dialogue regarding their contracts, and benefited from advanced, inside knowledge.**

In an internal City email exchange forwarded to an AAS representative related to a Field Engineering/Street Division Coordination Meeting, the AAS Representative becomes aware of internal discussions and concerns related to AAS invoicing:

City Employee A: *"FYI. Stop submitting incorrect invoices."*

AAS Representative: *"That's not the issue. [City employee name redacted] is not making sense"*

City Employee A: *"It's always funny to hear their side of the story. How can there be quantity disputes every month? Why isn't the RE verifying quantities as the work occurs???"*

AAS Representative: *"I know, we have not had any disputes on quantities yet that I know of. The only problem we have is the as builts not being correct until mid-month sometimes"*

City Employee A: *"So then what's [City employee name redacted] crap about the invoices always been wrong?"*

AAS Representative: *"She had [City employee name redacted] change the dates and move stuff around (CCO)"*

City Employee A: *"You guys love to get abused. DON'T EVER CHANGE DATES. Make them pay you what the invoice you submit says and deal with the change orders as a separate issue."*

The preceding examples show the City's inability to trust AAS, as AAS was going behind the back of City employees that administer the contract, to obtain advice from City Employee A on how to gain advantages over the construction managers. These examples are not necessarily exhaustive of all communications between AAS and City Employee A. AAS has shown their willingness to manipulate prices and the contracting process. These actions make AAS a non-responsible bidder and unable to perform on City work.

It is in the best public interest to prevent harming the public's financial well-being and to maintain the public's trust to contract with contractors that do not violate the law.

Presentation of Evidence, Arguments, and Burden of Proof:

Pursuant to SDMC section 22.0809, an independent hearing officer will hear evidence and arguments from AAS and the City. The City shall bear the burden of proof by a preponderance of the evidence.

Debarment proceedings before an independent hearing officer and the debarment process are also governed under Administrative Regulation 25.90 (Attachment 3). The City will contact you regarding scheduling a hearing.

You have the opportunity to appeal this suspension prior to the debarment hearing. If you want to appeal this suspension, you must submit a timely request to:

Ms. Alia Khouri, Deputy Chief Operating Officer
City of San Diego
202 C Street, 9th Floor, MS 9A
San Diego, CA 92101

Upon receipt of your written appeal, I will provide you with an opportunity to appeal the suspension at an informal meeting within seventy-two (72) hours, unless there is good cause to extend the time. Refer to the attached Administrative Regulation 25.90 for additional information.

By:

Kris Mitchell
Chief Operating Officer

ADDENDUM NUMBER 1

Dated August 19, 2020

to the Specifications and Contract Documents
for the construction of

Slurry Seal and Curb Ramp Accessibility Project
For Fiscal Year 2020 - 2021
District 3, Project No. D1-0008, D1-0013

Bids Due: **Wednesday, August 26, 2020; 2:00 p.m.**
14th Street Transportation Annex
3525 14th Street, Riverside, CA 92501
(951) 955-6780

This Addendum is issued pursuant to the Instructions to Bidders, Item No. 8, of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Bid (Proposal). Bidders are directed to sign this addendum as acknowledged and attach the signed addendum to the contractor's submitted proposal.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

<http://rctlma.org/trans/Contractors-Corner/Notices-Inviting-Bids>

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: Notice to Bidders. Refer to "Notice to Bidders" on page V of the Specifications and Contract Documents book. The following Engineering Estimate range is added:

Engineers Estimate: \$80,000 - \$94,000 (Alt. Bid Schedule 2)

Item 2: Revised Proposal. Refer to "Proposal" pages B2 and B3. Delete and replace "Proposal" (pages B2 and B3) with "Proposal (Revised)" attached herewith as **Attachment "A"**.

- a. The following bid items has been added:
Item 14.A, "ROADSIDE SIGN – ONE POST"
- b. The following additional bid schedule is incorporated in the contract and made part hereby:
Alternative Bid Schedule 2 – Curb Ramps at Intersections with Traffic Signals
- c. The following bid items are "Like Bid Items" in Alternative Bid Schedule 1 and Alternative Bid Schedule 2:
Items 15 and 22, "REMOVE ASPHALT CONCRETE"
Items 16 and 23, "HOT MIX ASPHALT"
Items 17 and 24, "MINOR CONCRETE (CURB RAMP) (CRS 403 - CASE A)"
Items 18 and 25, "MINOR CONCRETE (CURB RAMP) (CRS 403 - CASE B)"

Item 3: Time of Completion – 115 Working Days. Refer to Section 00-1.03 "Time of Completion," on page 2 of the special provisions. Delete the first paragraph of Section 00-1.03 and replace it with the following paragraph:

The Contractor shall diligently prosecute the work to completion before the expiration of **115 working days** from the date stated in the "Notice to Proceed".

Item 4: Portland Cement Concrete (PCC) Pads. Refer to Section 73-1.03, "Construction," on page 58 of the special provisions.

• Delete the third paragraph of Section 73-1.03, "Construction," and replace it with the following paragraph:

Full compensation for the removal of existing minor concrete structures (Curb Ramps, Cross-Gutter and Spandrels, **PCC pads**) shall be considered as included in the contract bid prices for such minor concrete structures.

• Delete numbers 1 and 4 in the fifth paragraph of Section 73-1.03, "Construction," and replace them with the following numbers:

- 1) Removal and disposal of existing sidewalk, **PCC pad**, and/or curb and gutter and existing soil and aggregate as required;
- 4) Construction of new minor concrete items **including PCC pads**;

Refer to Section 73-1.04, "Payment," on page 58 of the special provisions.

• Delete the paragraph in Section 73-1.04, "Payment," and replace it with the following paragraph:

Payment:

The contract unit bid prices paid per each for Curb Ramp, and per square foot for Gutter and Spandrel, shall include full compensation for furnishing all labor, equipment, materials and tools, and incidentals, and for doing all the work involved in the concrete structures construction including the grading and the removal of any obstacles within the areas of proposed concrete items of work, excavation, backfill, the furnishing and placing of expansion joints, installation of detectable warning surfaces (truncated domes), **construction of PCC pad for electrical cabinets**, complete in place as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

The contract unit bid price paid per each for Pedestrian Barricade (Type I) shall include full compensation for furnishing all labor, equipment, materials and tools, and incidentals and for doing all the work involved in the installation of pedestrian barricades including drilling, sleeve, concrete backfill for footing, complete in place as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

Item 5: ROADSIDE SIGNS: Add Section 82-3, Roadside Signs," to the special provisions. The following special provisions are added and made a part hereby:

82-3 ROADSIDE SIGNS

Add to Section 82-3 General:

ROADSIDE SIGN:

The Contractor shall furnish and install roadside signs at the locations shown on the plans or as directed by the Engineer, in conformance to the provisions in Section 82-3, "Roadside Signs," of the State Standard Specifications and these Special Provisions.

All Signs shall be installed on new square perforated steel tube posts in accordance with County Standard No. 1222.

Street name signs, if any, shall be furnished and installed in conformance with County Standard No. 1221 as shown on the plans, as specified in these Special Provisions and as directed by the Engineer.

All roadway signs shall have retroreflective sheeting. Except as stated below, the retro-reflectivity for all roadway signs, both temporary and permanent installations, shall meet or exceed ASTM Standard D 4956 Type III (3M Co. High Intensity Grade or approved equal). The retroreflectivity for R1-1 ("STOP") signs and W3-1 (Stop Ahead) signs shall meet ASTM Standard D 4956 Type IX (3M Co. Diamond Grade or approved equal).

REMOVE AND SALVAGE EXISTING SIGNS AND POSTS:

Existing roadside signs and posts shall be removed and salvaged as shown on the plans in conformance with Section 82-9, "Existing Roadside Signs and Markers", of the Standard Specifications.

County owned removed and salvaged signs shall be delivered to the nearest County Maintenance Yard or as directed by the Engineer. The County Maintenance Yard is located at the following address:

Riverside County Transportation Department
McKenzie Highway Operations Center
2950 Washington Street
Riverside, California 92504

Compensation for removing and salvaging Roadside Signs shall be considered as included in the contract price paid per each for Roadside Sign – One Post, and shall include full compensation for furnishing all labor, materials, tools, equipment, incidentals and for doing all the work including removing, protecting, storing, transporting and delivering Road Sign as specified in the these Special and no additional compensation will be allowed therefor.

Payment:

The contract unit price paid per each for Roadside Sign - One Post, including street name signs, shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work necessary for installation of new roadside signs, including all excavation and concrete backfill as specified in the Standard Specifications, these special provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

ATTACHMENTS: A – Revised Proposal

This addendum has been prepared under the direction of the following registered Civil Engineer(s):

Recommended by:

Elmer Datuin, PE
Senior Civil Engineer

Concurrence:

Khalid Nasim, PE
Engineering Division Manager

Acknowledged: _____ **Date:** _____
(Contractor)

JRJ: jrj:rr

Note: Refer to Instruction to Bidders Item No. 8, "Addenda". Submission of all addendum pages and non-bidding document attachments of addendum are not necessary for Bid submittal. Submittal of this acknowledgement page is adequate for Bid reception. Bidders are reminded to list addendum number(s) received on the first page of the Bid form (Proposal).

ADDENDUM NUMBER 2

Dated August 25, 2020

to the Specifications and Contract Documents
for the construction of

Slurry Seal and Curb Ramp Accessibility Project
For Fiscal Year 2020 - 2021
District 3, Project No. D1-0008, D1-0013

Bids Due: (Revised) Wednesday, September 2, 2020; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street; Riverside, CA 92501
(951) 955-6780

This Addendum is issued pursuant to the Instructions to Bidders, Item No. 8, of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Bid (Proposal). Bidders are directed to sign this addendum as acknowledged and attach the signed addendum to the contractor's submitted proposal.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

<http://rctlma.org/trans/Contractors-Corner/Notices-Inviting-Bids>

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: The new designated date and time for the receipt and opening of bids is revised as follows:

Wednesday, September 2, 2020; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street; Riverside, CA 92501
(951) 955-6780

Item 2: **Crack Treatment.** The following special provisions are added and made a part hereby:

37-6 CRACK TREATMENTS

Add following to section 37-6.01 GENERAL

ROUT AND SEAL RANDOM CRACKS/FILL POTHOLES

Crack Treatment shall conform to section 37-6 of the Standard Specifications and as directed by engineer.

All cracks shall be filled with a rubberized asphalt material that has a minimum softening point temperature of 200^o Fahrenheit and a safe heating temperature of 380^o Fahrenheit, or as otherwise directed by the Engineer.

1. For cracks in size of 1/8 inch to 3/8 inch in width, the crack shall be widened using a router to form a sealant reservoir which is a minimum of 1/2 inch wide and 3/4 inch to 1 inch deep. The routed crack shall then be cleaned with hot compressed air to remove all dust and free moisture, and then sealed to service level. Pavement surfaces receiving the Chip seal will not require crack sealing for the crack size specified of 1/8 inch to 3/8 inch wide.
2. Cracks that are more than 3/8 inch but less than 3/4 shall be cleaned for the entire crack depth using sandblasting, brushing and hot air blowing techniques, as required to provide a crack free from all debris, dust, loose material and moisture. Gauging or plowing may be required to remove incompressible deep in the crack. The clean crack shall be filled with sealant, from the bottom up to surface level, in a manner which does not result in sealant bridging or entrapped air pockets. With deep cracks, settlement of sealant may occur, thus requiring application of a second layer of sealant material. For cracks with depressed surfaces on each side of the crack shall be over filled beyond level with pavement surface and then squeezed to fill in depressed area. No more than a 2" wide and 1/16" thick strip of material may be applied to the pavement surface. The crack seal for the specified width of 3/8 inch to 3/4 inch shall apply to all pavement surfaces receiving the Chip Seal (Cape Seal) (single and double), Slurry Seal (Type I or Type II), scrub seal, and Micro-surfacing.
3. Cracks wider than 3/4 inch and potholes shall be cleaned using sandblasting or other cleaning technique approved by the Engineer. The cracks and/or potholes shall then be filled with pea-gravel size hot mix asphalt concrete as directed by the Engineer. Filling cracks and potholes shall apply to all pavement surfaces receiving the Chip Seal (Cape Seal) (single and double), Slurry Seal (Type I or Type II), scrub seal, and Micro-surfacing.
4. No slurry, cape, micro-surfacing seal material shall be placed until after the crack seal and/or fill material has been in place for a minimum of five (5) calendar days.

Replace section 37-6.04 Payment with the following

37-6.04 PAYMENT

Full compensation for crack treatment will be paid per lump sum and shall include full compensation for all the work performed including crack cleaning, spraying weed killer, crack filling, as specified in the Standard Specifications, these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

This addendum has been prepared under the direction of the following registered Civil Engineer(s):

Recommended by:

Elmer Datuin, PE
Senior Civil Engineer

Concurrence:

Note: Refer to Instruction to Bidders Item No. 8, "Addenda". Submission of all addendum pages and non-bidding document attachments of addendum are not necessary for Bid submittal. Submittal of this acknowledgement page is adequate for Bid reception. Bidders are reminded to list addendum number(s) received on the first page of the Bid form (Proposal).

Bid

Date: August 16th, 2020

To: County of Riverside, hereafter called "County";

Bidder: American Asphalt South, Inc.
(hereafter called "Contractor")

The undersigned, Contractor, having carefully examined the site and the Contract Documents for the construction of Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020 - 2021, District 3, Project No. D1-0008, D1-0013 hereby proposes to construct the work in accordance with the Contract Documents, including **Addenda Number(s)** 1, 2 (Fill in addenda numbers if addenda have been issued.) for the amount stated in this Bid.

By submitting this Bid, Contractor agrees with County:

1. That unless withdrawn in person by Contractor or some person authorized in writing by Contractor (not by telephone or facsimile) before the time specified in the Notice Inviting Bids for the public opening of bids, this Bid constitutes an irrevocable offer for 90 calendar days after that date.
2. County has the right to reject any or all Bids and to waive any irregularities or informalities contained in a Bid.
3. To execute the Contract and deliver the Performance Bond, Payment Bond and Insurance Certificate with endorsements, that comply with the requirements set forth in the Instruction to Bidders and General Conditions, within ten (10) business days of the date of the Notice of Acceptance of Bid and Intent to Award as issued by the County.
4. That the contract shall be awarded upon a resolution or minute order to that effect duly adopted by the governing body of County; and that execution of the Contract shall constitute a written memorial thereof.
5. To submit to the County such information as County may require determining whether a particular Bid is the lowest responsible bid submitted.
6. That the accompanying Bid Bond, certified check or cashier's check is in an amount not less than 10% of the total bid submitted and constitutes a guarantee that if awarded the contract, Contractor will execute the Contract and deliver the required bonds within ten (10) business days after notice of award. If Contractor fails to execute and deliver said documents, the bond or check is to be charged with the costs of the resultant damages to the County, including but not limited to: publication costs, the difference in money between the amount bid and the amount in excess of the bid which it costs County to do or cause to be done for the work involved, lease and rental costs, additional salaries and overhead, increased interest and costs of funding the project, attorney expense, additional engineering and architectural expense and cost of maintaining or constructing alternate facilities occasioned by the failure to execute and deliver said documents.
7. By signing this Bid the Contractor certifies that the representations made therein are made under penalty of perjury.

5.						<input type="checkbox"/>
6.						<input type="checkbox"/>

Additional Subcontractor List(s) may be attached to the Bid.
(A copy of this form may be attached with additional Subcontractor information.)

Percent of work to be performed by Subcontractors: 34.72 %

Note: A minimum of 50% of the work is required to be performed by the prime/general Contractor.

Non-Collusion Declaration

To be executed by bidder and submitted with bid.
(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

The undersigned declares:

I am the Secretary (Title) of American Asphalt South, Inc. (Company),
the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder.

All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price of any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the applicable laws that the foregoing is true and correct and that this declaration is executed on

August (Month) 26th (Day) of 2020 (Year),
at Fontana (City), CA (State).

Iran Contracting Act
(Public Contract Code sections 2200-2208)

Prior to bidding on, submitting a proposal or executing a contract or renewal for a County of Riverside contract for goods or services of **\$1,000,000 or more**, a Contractor must either:

- a) Certify it is not on the current list of persons engaged in investment activities in Iran created by the California Department of General Services (“DGS”) pursuant to Public Contract Code section 2203(b) and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or
- b) Demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code section 2203(c) or (d).

To comply with this requirement, please insert your Contractor or financial institution name and Federal ID Number (if available) and complete one of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of \$250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts. (Public Contract Code section 2205.)

Option #1 – Certification

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below is **not** on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

Contractor Name/Financial Institution (Printed) <i>American Asphalt South, Inc.</i>		Federal ID Number (or n/a) <i>94-3324781</i>
By (Authorized Signature) <i>[Signature]</i>		
Printed Name and Title of Person Signing <i>Lyle Stone, Secretary</i>		
Date Executed <i>August 26th, 2020</i>	Executed in <i>Fontana, CA</i>	

Option #2 – Exemption

Pursuant to Public Contract Code sections 2203(c) and (d), a public entity may permit a Contractor/financial institution engaged in investment activities in Iran, on a case-by-case basis, to be eligible for, or to bid on, submit a proposal for, or enters into or renews, a contract for goods and services.

If you have obtained an exemption from the certification requirement under the Iran Contracting Act, please fill out the information below, and **attach documentation demonstrating the exemption approval.**

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: Notice to Bidders. Refer to "Notice to Bidders" on page V of the Specifications and Contract Documents book. The following Engineering Estimate range is added:

Engineers Estimate: \$80,000 - \$94,000 (Alt. Bid Schedule 2)

Item 2: Revised Proposal. Refer to "Proposal" pages B2 and B3. Delete and replace "Proposal" (pages B2 and B3) with "Proposal (Revised)" attached herewith as **Attachment "A"**.

- a. The following bid items has been added:
Item 14.A, "ROADSIDE SIGN – ONE POST"
- b. The following additional bid schedule is incorporated in the contract and made part hereby:
Alternative Bid Schedule 2 – Curb Ramps at Intersections with Traffic Signals
- c. The following bid items are "Like Bid Items" in Alternative Bid Schedule 1 and Alternative Bid Schedule 2:
Items 15 and 22, "REMOVE ASPHALT CONCRETE"
Items 16 and 23, "HOT MIX ASPHALT"
Items 17 and 24, "MINOR CONCRETE (CURB RAMP) (CRS 403 - CASE A)"
Items 18 and 25, "MINOR CONCRETE (CURB RAMP) (CRS 403 - CASE B)"

Item 3: Time of Completion – 115 Working Days. Refer to Section 00-1.03 "Time of Completion," on page 2 of the special provisions. Delete the first paragraph of Section 00-1.03 and replace it with the following paragraph:

The Contractor shall diligently prosecute the work to completion before the expiration of **115 working days** from the date stated in the "Notice to Proceed".

Item 4: Portland Cement Concrete (PCC) Pads. Refer to Section 73-1.03, "Construction," on page 58 of the special provisions.

• Delete the third paragraph of Section 73-1.03, "Construction," and replace it with the following paragraph:

Full compensation for the removal of existing minor concrete structures (Curb Ramps, Cross-Gutter and Spandrels, **PCC pads**) shall be considered as included in the contract bid prices for such minor concrete structures.

• Delete numbers 1 and 4 in the fifth paragraph of Section 73-1.03, "Construction," and replace them with the following numbers:

- 1) Removal and disposal of existing sidewalk, **PCC pad**, and/or curb and gutter and existing soil and aggregate as required;
- 4) Construction of new minor concrete items **including PCC pads**;

Refer to Section 73-1.04, "Payment," on page 58 of the special provisions.

• Delete the paragraph in Section 73-1.04, "Payment," and replace it with the following paragraph:

Payment:

The contract unit bid prices paid per each for Curb Ramp, and per square foot for Gutter and Spandrel, shall include full compensation for furnishing all labor, equipment, materials and tools, and incidentals, and for doing all the work involved in the concrete structures construction including the grading and the removal of any obstacles within the areas of proposed concrete items of work, excavation, backfill, the furnishing and placing of expansion joints, installation of detectable warning surfaces (truncated domes), **construction of PCC pad for electrical cabinets**, complete in place as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

The contract unit bid price paid per each for Pedestrian Barricade (Type I) shall include full compensation for furnishing all labor, equipment, materials and tools, and incidentals and for doing all the work involved in the installation of pedestrian barricades including drilling, sleeve, concrete backfill for footing, complete in place as shown on the plans, as specified in the Standard Specifications and these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

Item 5: ROADSIDE SIGNS: Add Section 82-3, Roadside Signs," to the special provisions. The following special provisions are added and made a part hereby:

82-3 ROADSIDE SIGNS

Add to Section 82-3 General:

ROADSIDE SIGN:

The Contractor shall furnish and install roadside signs at the locations shown on the plans or as directed by the Engineer, in conformance to the provisions in Section 82-3, "Roadside Signs," of the State Standard Specifications and these Special Provisions.

All Signs shall be installed on new square perforated steel tube posts in accordance with County Standard No. 1222.

Street name signs, if any, shall be furnished and installed in conformance with County Standard No. 1221 as shown on the plans, as specified in these Special Provisions and as directed by the Engineer.

All roadway signs shall have retroreflective sheeting. Except as stated below, the retro-reflectivity for all roadway signs, both temporary and permanent installations, shall meet or exceed ASTM Standard D 4956 Type III (3M Co. High Intensity Grade or approved equal). The retroreflectivity for R1-1 ("STOP") signs and W3-1 (Stop Ahead) signs shall meet ASTM Standard D 4956 Type IX (3M Co. Diamond Grade or approved equal).

REMOVE AND SALVAGE EXISTING SIGNS AND POSTS:

Existing roadside signs and posts shall be removed and salvaged as shown on the plans in conformance with Section 82-9, "Existing Roadside Signs and Markers", of the Standard Specifications.

County owned removed and salvaged signs shall be delivered to the nearest County Maintenance Yard or as directed by the Engineer. The County Maintenance Yard is located at the following address:

Riverside County Transportation Department
McKenzie Highway Operations Center
2950 Washington Street
Riverside, California 92504

Compensation for removing and salvaging Roadside Signs shall be considered as included in the contract price paid per each for Roadside Sign – One Post, and shall include full compensation for furnishing all labor, materials, tools, equipment, incidentals and for doing all the work including removing, protecting, storing, transporting and delivering Road Sign as specified in the these Special and no additional compensation will be allowed therefor.

Payment:

The contract unit price paid per each for Roadside Sign - One Post, including street name signs, shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work necessary for installation of new roadside signs, including all excavation and concrete backfill as specified in the Standard Specifications, these special provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

ADDENDUM NUMBER 2

Dated August 25, 2020

to the Specifications and Contract Documents
for the construction of

Slurry Seal and Curb Ramp Accessibility Project
For Fiscal Year 2020 - 2021
District 3, Project No. D1-0008, D1-0013

Bids Due: (Revised) Wednesday, September 2, 2020; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street; Riverside, CA 92501
(951) 955-6780

This Addendum is issued pursuant to the Instructions to Bidders, Item No. 8, of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Bid (Proposal). Bidders are directed to sign this addendum as acknowledged and attach the signed addendum to the contractor's submitted proposal.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

<http://rctlma.org/trans/Contractors-Corner/Notices-Inviting-Bids>

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: The new designated date and time for the receipt and opening of bids is revised as follows:

Wednesday, September 2, 2020; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street; Riverside, CA 92501
(951) 955-6780

Item 2: Crack Treatment. The following special provisions are added and made a part hereby:

37-6 CRACK TREATMENTS

Add following to section 37-6.01 GENERAL

ROUT AND SEAL RANDOM CRACKS/FILL POTHoles

Crack Treatment shall conform to section 37-6 of the Standard Specifications and as directed by engineer.

All cracks shall be filled with a rubberized asphalt material that has a minimum softening point temperature of 200^o Fahrenheit and a safe heating temperature of 380^o Fahrenheit, or as otherwise directed by the Engineer.

1. For cracks in size of 1/8 inch to 3/8 inch in width, the crack shall be widened using a router to form a sealant reservoir which is a minimum of 1/2 inch wide and 3/4 inch to 1 inch deep. The routed crack shall then be cleaned with hot compressed air to remove all dust and free moisture, and then sealed to service level. Pavement surfaces receiving the Chip seal will not require crack sealing for the crack size specified of 1/8 inch to 3/8 inch wide.
2. Cracks that are more than 3/8 inch but less than 3/4 shall be cleaned for the entire crack depth using sandblasting, brushing and hot air blowing techniques, as required to provide a crack free from all debris, dust, loose material and moisture. Gauging or plowing may be required to remove incompressible deep in the crack. The clean crack shall be filled with sealant, from the bottom up to surface level, in a manner which does not result in sealant bridging or entrapped air pockets. With deep cracks, settlement of sealant may occur, thus requiring application of a second layer of sealant material. For cracks with depressed surfaces on each side of the crack shall be over filled beyond level with pavement surface and then squeezed to fill in depressed area. No more than a 2" wide and 1/16" thick strip of material may be applied to the pavement surface. The crack seal for the specified width of 3/8 inch to 3/4 inch shall apply to all pavement surfaces receiving the Chip Seal (Cape Seal) (single and double), Slurry Seal (Type I or Type II), scrub seal, and Micro-surfacing.
3. Cracks wider than 3/4 inch and potholes shall be cleaned using sandblasting or other cleaning technique approved by the Engineer. The cracks and/or potholes shall then be filled with pea-gravel size hot mix asphalt concrete as directed by the Engineer. Filling cracks and potholes shall apply to all pavement surfaces receiving the Chip Seal (Cape Seal) (single and double), Slurry Seal (Type I or Type II), scrub seal, and Micro-surfacing.
4. No slurry, cape, micro-surfacing seal material shall be placed until after the crack seal and/or fill material has been in place for a minimum of five (5) calendar days.

Replace section 37-6.04 Payment with the following

37-6.04 PAYMENT

Full compensation for crack treatment will be paid per lump sum and shall include full compensation for all the work performed including crack cleaning, spraying weed killer, crack filling, as specified in the Standard Specifications, these Special Provisions, and as directed by the Engineer and no additional compensation will be allowed therefor.

This addendum has been prepared under the direction of the following registered Civil Engineer(s):

Submittal of this acknowledgement page is adequate for Bid reception. Bidders are reminded to list addendum number(s) received on the first page of the Bid form (Proposal).

Bid Bond

Recitals:

1. American Asphalt South, Inc. "Contractor", has submitted his/her Contractor's Proposal to County of Riverside, "County", for the construction of public work for Slurry Seal and Curb Ramp Accessibility Project, For Fiscal Year 2020 - 2021, District 3, Project No. D1-0008, D1-0013 in accordance with a Notice Inviting Bids from the County.
2. Everest Reinsurance Company a Delaware corporation, hereafter called "Surety", is the surety of this bond.

Agreement:

We, Contractor as Principal and Surety as Surety, jointly and severally agree and state as follows:

1. The amount of the obligation of this bond is 10% of the amount of the Contractor's Proposal, including bid alternates, and inures to the benefit of County.
2. This Bond is exonerated by (1) County rejecting said Proposal or, in the alternate, (2) if said Proposal is accepted, Contractor executes the Contract and furnishes the Bonds as agreed to in its Proposal, otherwise it remains in full force and effect for the recovery of loss, damage and expense of County resulting from failure of Contractor to act as agreed to in its Proposal. Some types of possible loss, damage and expense are specified in the Contractor's Proposal.
3. Surety, for value received, stipulates and agrees that its obligations hereunder shall in no way be impaired or affected by any extension of time within which County may accept the Proposal and waives notice of any such extension.
4. This Bond is binding on our heirs, executors, administrators, successors and assigns.

EVEREST

POWER OF ATTORNEY
EVEREST REINSURANCE COMPANY
DELAWARE

KNOW ALL PERSONS BY THESE PRESENTS: That Everest Reinsurance Company, a corporation of the State of Delaware ("Company") having its principal office located at 477 Martinsville Road, Liberty Corner, New Jersey 07938, do hereby nominate, constitute, and appoint:

Branna Boatright, Elizabeth Collodi, John Hopkins, John J. Weber, Joseph H. Weber, Katherine Gordon, Marissa Robinson, Renee Ramsey, Sara Walliser, Stephanie Agapoff, Mindy Whitehouse, Jennifer Lakmann, K. Corey Ward, Deanna Quintero, Kristie Phillips, Claudine Gordon, Michael K. Feeney, Samantha Watkins

its true and lawful Attorney(s)-in-fact to make, execute, attest, seal and deliver for and on its behalf, as surety, and as its act and deed, where required, any and all bonds and undertakings in the nature thereof, for the penal sum of no one of which is in any event to exceed UNLIMITED, reserving for itself the full power of substitution and revocation.

Such bonds and undertakings, when duly executed by the aforesaid Attorney(s)-in-fact shall be binding upon the Company as fully and to the same extent as if such bonds and undertakings were signed by the President and Secretary of the Company and sealed with its corporate seal.

This Power of Attorney is granted and is signed by facsimile under and by the authority of the following Resolutions adopted by the Board of Directors of Company ("Board") on the 28th day of July 2016:

RESOLVED, that the President, any Executive Vice President, and any Senior Vice President and Anthony Romano are hereby appointed by the Board as authorized to make, execute, seal and deliver for and on behalf of the Company, any and all bonds, undertakings, contracts or obligations in surety or co-surety with others and that the Secretary or any Assistant Secretary of the Company be and that each of them hereby is authorized to attest to the execution of any such bonds, undertakings, contracts or obligations in surety or co-surety and attach thereto the corporate seal of the Company.

RESOLVED, FURTHER, that the President, any Executive Vice President, and any Senior Vice President and Anthony Romano are hereby authorized to execute powers of attorney qualifying the attorney named in the given power of attorney to execute, on behalf of the Company, bonds and undertakings in surety or co-surety with others, and that the Secretary or any Assistant Secretary of the Company be, and that each of them is hereby authorized to attest the execution of any such power of attorney, and to attach thereto the corporate seal of the Company.

RESOLVED, FURTHER, that the signature of such officers named in the preceding resolutions and the corporate seal of the Company may be affixed to such powers of attorney or to any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be thereafter valid and binding upon the Company with respect to any bond, undertaking, contract or obligation in surety or co-surety with others to which it is attached.

IN WITNESS WHEREOF, Everest Reinsurance Company has caused their corporate seals to be affixed hereto, and these presents to be signed by their duly authorized officers this 28th day of July 2016.

Everest Reinsurance Company

Nicole Chase

Attest: Nicole Chase, Assistant Secretary

Anthony Romano

By: Anthony Romano, Vice President

On this 28th day of July 2016, before me personally came Anthony Romano, known to me, who, being duly sworn, did execute the above instrument; that he knows the seal of said Company; that the seal affixed to the aforesaid instrument is such corporate seal and was affixed thereto; and that he executed said instrument by like order.
