PROJECT BACKGROUND AND ANALYSIS

Background

Tentative Tract Map No. 32693 (TR32693) was originally approved at Planning Commission on July 12, 2006. The Map proceeded to the Board of Supervisors in conjunction with Change of Zone No. 7027 and was approved on October 17, 2006. The expiration date of TR32693 was automatically extended to October 17, 2016 pursuant to the state bills listed below.

The First Extension of Time was approved on January 4, 2017 to extend the map to October 17, 2017. The Second Extension of Time was approved on January 17, 2018 to extend the map to October 17, 2020.

The Third Extension of Time was received September 28, 2020, ahead of the expiration date of October 17, 2020. The applicant and the County discussed conditions of approval and reached consensus on October 7, 2020.

The County Planning Department, as part of the review of this Extension of Time request, recommends the addition of seven (7) new conditions of approval, in order to be able to make a determination that the project does not adversely affect the general health, safety, and welfare of the public. The applicant was informed of these recommended conditions and has agreed to accept them. Included in this staff report package are the recommended conditions of approval, and the correspondence from the Extension of Time applicant (October 7, 2020) indicating the acceptance of the seven (7) recommended conditions.

Unless specifically requested by the applicant, this Extension of Time request will not be discussed at the time it is presented to the Planning Commission as a consent calendar item.

Riverside County Tentative Map Extensions

Pursuant to County of Riverside Ordinance No. 460 (Subdivision Regulations), tentative tract and parcel maps have an initial life-span approval of 3-years. Prior to September 12, 2017, a maximum of 5, 1-year extensions may have been approved, upon a timely filed extension request, allowing for a total tentative map life-span approval of 8-years. On September 12, 2017, the Board of Supervisors approved an amendment to Ordinance 460, replacing the extension time frames to allow for 2, 3-year extensions, for a total tentative map life-span of 9-years.

The total number years a map may be extended is 6 years. The First Extension of Time granted 1 year. The Second Extension of Time granted another 3 years. The remaining number of years available to extend this tentative map is, therefore, 2 years, pushing the final expiration date of the map to October 17, 2022.

Therefore, upon an approval action by the Planning Commission, subsequent receive and file action by the Board of Supervisors, and the conclusion of the 10-day appeal period, this Tentative Map's expiration date will become October 17, 2022.

State Bills

EFFECT OF Senate Bill No. 1185 (SB1185): On July 15, 2008, SBB1185 was signed into law, which grants a one-time extension to existing subdivision maps so developers can build immediately when the

demand for housing goes up. It gives developers an automatic 12 month extension on previously approved subdivision maps set to expire between July 15, 2008 and January 1, 2011. SB1185 extended the tentative map's expiration date to October 17, 2010.

EFFECT OF Assembly Bill No. 333 (AB333): On July 15, 2009, AB333 was signed into law, which grants a one-time extension to existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on previously approved subdivision maps set to expire between July 15, 2009 and January 1, 2012. AB333 extended the tentative map's expiration date to October 17, 2012.

EFFECT OF Assembly Bill No. 208 (AB208): On July 13, 2011, AB208 was signed into law, which grants a one-time extension to existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on previously approved subdivision maps set to expire between July 13, 2011 and January 1, 2014. AB208 extended the tentative map's expiration date to October 17, 2014.

EFFECT OF Assembly Bill No. 116 (AB116): On July 11, 2013, AB116 was signed into law, which grants a one-time extension to existing subdivision maps so developers can build immediately when the demand for housing goes up. It gives developers an automatic 24 month extension on maps approved after January 1, 2000 and that have not expired prior to July 11, 2013. AB116 extended the tentative map's expiration date to October 17, 2016.

Extension of Time Environmental Determination

Project Case Number: TR32693E03
 Original E.A. Number: EA39736
 Extension of Time No.: 3rd Extension of Time
 Original Approval Date: July 12, 2006 (PC); October 17, 2006 (BOS)
 Project Location: W/ Van Buren St., S/ 62nd Ave., E/ Calhoun St. N/ 64th Ave.

Project Description: Tract Map No. 32693 is a Schedule A subdivision of 162 gross acres into 228 residential lots with common areas, including recreational trails, equestrian pastures, and open space lots, and one lot for an equestrian use. The third extension will move the expiration date to October 17, 2022.

On July 12, 2006, this Tentative Tract Map and its original environmental assessment/environmental impact report was reviewed to determine: 1) whether any significant or potentially significant changes in the original proposal have occurred; 2) whether its environmental conditions or circumstances affecting the proposed development have changed. As a result of this evaluation, the following determination has been made:

<input type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME, because all potentially significant effects (a) have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards and (b) have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration and the project's original conditions of approval.
<input checked="" type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, and there are one or more potentially significant environmental changes or other changes to the circumstances under which the project is undertaken, NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME, because all potentially significant effects (a) have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards and (b) have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration and revisions to the project's original conditions of approval which have been made and agreed to by the project proponent.
<input type="checkbox"/>	I find that there are one or more potentially significant environmental changes or other changes to the circumstances under which the project is undertaken, which the project's original conditions of approval may not address, and for which additional required mitigation measures and/or conditions of approval cannot be determined at this time. Therefore, AN ENVIRONMENTAL ASSESSMENT/INITIAL STUDY IS REQUIRED in order to determine what additional mitigation measures and/or conditions of approval, if any, may be needed, and whether or not at least one of the conditions described in California Code of Regulations, Section 15162 (necessitating a Supplemental or Subsequent E.I.R.) exist. Additionally, the environmental assessment/initial study shall be used to determine WHETHER OR NOT THE EXTENSION OF TIME SHOULD BE RECOMMENDED FOR APPROVAL.
<input type="checkbox"/>	I find that the original project was determined to be exempt from CEQA, and the proposed project will not have a significant effect on the environment, therefore NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED PRIOR TO APPROVAL OF THE EXTENSION OF TIME.
