**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

The Riverside County District Attorney's office (DAO) has utilized the services of Net Transcripts LLC for decades. Over the last several years, sequential price increases and decreased levels of service has caused inefficiencies in transcriptions. Unfortunately, some of these delays result in additional work being performed in order to correct these inconsistencies. In the last two years, the DAO has seen an average increase of over 20%.

Through inquiry with surrounding counties with the State of California, One Transcription Services, was recommended by a handful of users with very positive feedback. In August 2020, the DAO reached out to One Transcription Services, and conducted what became a successful pilot program. The pilot program itself was focused within the Riverside Homicide Unit where the subject matter experts were able to review the quality of work received and determine whether the level of service was appropriate.

The DAO found the following areas of superior service with One Transcription services:

- a. Ease of Use-GUI/Accessibility; through a simplified FTP process and website access, the users were able to quickly upload raw content and receive transcribed files within a 24-48hr period. The user interface was very easy to use and maneuver. Individualized access and security protocols were set in place to ensure no unauthorized access was made.
- b. Accuracy: for all the files that were transcribed during this period, the level of accuracy was acceptable. Accuracy Rate is calculated by multiplying the total errors by 100, dividing that product by total words typed, and subtracting that amount from 100.  $(Total\ Errors * 100 / Total\ Typed\ Words) - 100 = Accuracy\ Rate$
- c. File Format: The vendor was able to provide each transcribed file in a format that was easily accessible, readable and immediately up loadable into the DA's file records without any additional manpower thereby reducing staff effort and therefore saving costs.
- d. Customer Service; the vendor is easily accessible during business hours and has a staff that can address any problems or issues immediately thereby reducing potential delays in cases.
- e. Quality Control; there is an existing online feature made available to address any issues/inconsistencies with the transcribed product. This platform makes known errors available in real time.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

- f. Pricing: unlike the previous vendor, One Transcription services utilizes a pricing per line vs a per minute methodology. This change will reduce redundancies found in media recording thereby resulting a reduction in costs.

The agreement with One Transcription Services before the Board for approval is based on utilizing the pricing from the San Bernardino County agreement with One Transcription LLC, also known as piggybacking, which was awarded through a publicized competitive bid process. One Transcription is providing the same pricing and terms as awarded through the San Bernardino agreement. (See attachment B)

Piggybacking off other competitively bid governmental procurements meets the County's requirement of seeking competition and assists with expediting the implementation/acquisition of needed commodities and services.

**Impact on Residents and Businesses**

There is no impact to residents or businesses.

**Contract History and Price Reasonableness**

There will be no impact on NCC dollars spent on transcription with the utilization of this new service. We expect to potentially see a reduction in costs due to the different pricing methodology used (per line vs. per minute). We should note that the total cost for transcription will vary and will depend on the number of cases on the docket and where the services are needed. The estimate per fiscal year will be around \$450,000.
