BACKGROUND:

Summary

By Minute Order dated December 15, 2020 (Agenda Item 3.46), the County of Riverside (County) Board of Supervisors authorized the Clerk of the Board to advertise for the construction of the Re-Bid Ramona Expressway Resurfacing Project from Rider Street to Warren Road, approximately 9.2 miles, in the Communities of Nuevo, Lakeview, and Gilman Hot Springs in Supervisorial Districts 3 and 5.

Ramona Expressway is a two to four lane road; its width currently ranges from 40 to 120 feet. Roadway resurfacing is needed due to the deteriorated pavement conditions. Mainly, the Re-Bid Ramona Expressway Resurfacing Project will consist of four types of treatment.

Ramona Expressway Limits	Treatment Type
Rider Street to Lakeview Avenue	Overlay with Rubberized Hot Mix Asphalt (RHMA)
Lakeview Avenue to 5th Street, and 2,600-feet West of Warren Road to Warren Road	Grind existing asphalt and reclaim the pulverized material using a Foamed Asphalt treatment, and overlay with RHMA over Hot Mix Asphalt (HMA)
5th Street to 2,600 feet west of Warren Road	Slurry seal
At Lakeview Avenue Intersection, at Davis Road Intersection, and at Warren Road Intersection	Remove existing asphalt concrete and pave back with HMA

Additional improvements include safety features such as placement of centerline channelizers and rumble strip to help alert drivers who may stray from the travel lanes and other associated work.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

During the advertisement, period one addendum was issued to all registered plan holders as a supplement to the plans and specifications. Bidders were required to acknowledge and take into account the issued addendum on their contractor's Bid in order to be considered for award. The addendum is attached and designated as Addendum No. 1.

Addendum No. 1 was issued to incorporate the Ramona Expressway Reconstruction Project. In general, this project consists of reconstructing the westbound number two lane of Ramona Expressway from 0.65 Miles East of Warren Road to 0.15 Miles West of Sanderson Avenue in the City of San Jacinto. Reconstruction of the lane includes removing the existing pavement and underlying material, followed by placing back HMA over Class 2 Aggregate Base.

On April 28, 2017, Senate Bill 1 (SB1) was passed to improve the state's aging transportation infrastructure, particularly roads and bridges. Because of this, the County is now able to improve the condition of roads in need of resurfacing or reconstruction and has included them in the County Transportation Improvement Program (TIP). The Ramona Expressway resurfacing project is one of Riverside County's priority projects approved for use with the new Gas Tax/SB1 funds. Without SB1 this needed road repair project would have been shelved until funding became available.

The Contract includes following bid schedules of work:

- Base Bid Schedule: Ramona Expressway Resurfacing
- Alternative Bid Schedule 1: Ramona Expressway Resurfacing – City of San Jacinto portion
- Alternative Bid Schedule 2: Not Selected for Award (Frontier Communications Facilities Adjustments)
- Alternative Bid Schedule 3: Ramona Expressway Reconstruction, City of San Jacinto

The City of San Jacinto has accepted the bid prices proposed by All American Asphalt for alternative bid schedules 1 and 3. A reimbursement agreement between the City of San Jacinto and County will be submitted to the Board of Supervisors for approval concurrent with the award of the construction contract.

The contractor, All American Asphalt, is qualified to perform the work as outlined in the bid, has executed the contract, and has provided bond documents which meet the requirements of the Contract.

Regarding the project number for Ramona Expressway Reconstruction project, the original project number D1-0020 was replaced by project number D2-0018. All American Asphalt is aware that whenever and wherever in the Contract Documents the project number D1-0020 is used, it shall be understood to meant and refer to project number D2-0018.

Environmental findings: Ramona Expressway Reconstruction Project

The project proposes to reconstruct Ramona Expressway from 0.65 Miles East of Warren Road to 0.15 Miles West of Sanderson Avenue in the City of San Jacinto. The project in its entirety is consistent with CEQA Section 15301(c) existing facilities exemption because it does not create additional automobile lanes and involves negligible or no expansion of use of the existing roadway and associated facilities.

Impact on Residents and Businesses

The purpose of this project is to rehabilitate a deteriorated segment of Ramona Expressway, totaling approximately 9.2 miles, between Rider Street and Warren Road, to provide the public with a smooth paved roadway that will improve the safety and efficiency of vehicular traffic.

The work is scheduled to begin in spring 2021. The work will be phased to keep the road open during construction as much as possible and will take approximately two months to complete.

SUPPLEMENTAL:

Additional Fiscal Information

Construction is expected to be completed in FY 2020/21 and will be funded with Gas Tax/SB1 funds and City of San Jacinto funds.

The proposed budget as shown on Attachment "A" includes Contract award amount and other associated costs.

There are no General Funds used in this project.

Contract History and Price Reasonableness

Six bids were received on Wednesday January 6, 2021 ranging from \$7,916,616 to \$9,684,696. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsive and responsible bid was submitted by All American Asphalt in the amount of \$7,916,616 which is \$668,801 (7.8%) below the Engineer's Estimate. The contract amount (\$7,903,891) varies from bid amount (\$7,916,616) because Alternative Bid Schedule 2 in the amount of \$12,725 is not selected for award.

The Transportation Department recommends the award of the contract to All American Asphalt in the amount of \$7,903,891.

EXCESS LIABILITY POLICY

There are provisions in this policy that restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Words and phrases in quotation marks have special meaning and can be found in the **Definitions** Section or the specific policy provision where they appear.

In consideration of the payment of the premium and in reliance upon the statements in the Declarations we agree with you to provide coverage as follows:

INSURING AGREEMENTS

I. COVERAGE

We will pay on behalf of the Insured "loss" in excess of the Underlying Limits of Insurance shown in Item 5. of the Declarations, but only up to an amount not exceeding the Company's Limits of Insurance as shown in Item 4. of the Declarations. Except for the terms, conditions, definitions and exclusions of this policy, the coverage provided by this policy will follow the First Underlying Insurance Policy, as shown in Item 5. of the Declarations.

The inclusion or addition hereunder of more than one Insured shall not operate to increase the Company's Limits of Insurance beyond that set forth in Item 4. of the Declarations.

We will be furnished a complete copy of the First Underlying Insurance Policy described in Item 5. of the Declarations.

II. LIMITS OF INSURANCE

A. The Limits of Insurance shown in the Declarations and the rules below describe the most we will pay regardless of the number of:

1. Insureds;
2. claims made or suits brought; or
3. Persons or organizations making claims or bringing suits.

B. The Limits of Insurance of this policy will apply as follows:

1. This policy applies only in excess of the Underlying Limits of Insurance shown in Item 5. of the Declarations.
2. The aggregate limit shown in Item 4. of the Declarations is the most we will pay for all "loss" that is subject to an aggregate limit provided by the First Underlying Insurance Policy. The aggregate limit applies separately and in the same manner as the aggregate limits provided by the First Underlying Insurance Policy.
3. Subject to B.2., the occurrence limit stated in Item 4. of the Declarations is the most we will pay for all "loss" arising out of any one occurrence to which this policy applies.
4. Subject to Paragraphs B.2. and B.3. above, if the underlying Limits of Insurance stated in Item 5. of the Declarations are reduced or exhausted solely by payment of "loss," such insurance provided by this policy will apply in excess of the reduced Underlying Limits or, if all Underlying Limits are exhausted, will apply as underlying insurance subject to the same terms, conditions, definitions and exclusions of the First Underlying Insurance Policy, except for the terms, conditions, definitions and exclusions of this policy.
5. The Limits of Insurance of this policy apply separately to each consecutive annual period and to any remaining pe-

If Contractor fails to execute and deliver said documents, the bond or check is to be charged with the costs of the resultant damages to the County, including but not limited to: publication costs, the difference in money between the amount bid and the amount in excess of the bid which it costs County to do or cause to be done for the work involved, lease and rental costs, additional salaries and overhead, increased interest and costs of funding the project, attorney expense, additional engineering and architectural expense and cost of maintaining or constructing alternate facilities occasioned by the failure to execute and deliver said documents.

PROJECT TITLE: Ramona Expressway Reconstruction: Warren Road to Sanderson Avenue
Work Order# D2-0018 Task Code #Z1530

PROJECT SPONSOR: Riverside County Transportation Department

PROJECT LOCATION: Community of Gilman Hot Springs & City of San Jacinto

SUPERVISORIAL DISTRICT: District 3

PROJECT DESCRIPTION: The Riverside County Transportation Department, at the request of the City of San Jacinto, is proposing to reconstruct the outer westbound lane on Ramona Expressway for approximately 0.90 miles, from 0.65 mile east of the intersection of Warren Road (City Limit Line) to 845' west of the intersection of Sanderson Avenue. Ramona Expressway is classified as an Expressway in the County of Riverside's General Plan. Ramona Expressway's existing width varies from 69' to 93' wide. The project will include the following:

- Remove existing asphalt and base
- Replace and compacting of class A aggregate base
- Repaving back with Hot Mix Asphalt
- Grind adjacent to proposed reconstruction edges and overlay
- Striping of newly paved roadway, including pavement markers and reflectors

Ramona Expressway is a 4-lane roadway with jurisdiction that is divided between the City of San Jacinto and the County of Riverside. The proposed project includes work within the City of San Jacinto jurisdiction within the right of way of Ramona Expressway. The County will be taking lead on the construction of the project which includes the improvements mentioned above.

ENVIRONMENTAL ANALYSIS: The proposed project will not acquire right-of-way.

This project is subject to compliance with the Western Riverside County MSHCP. In accordance with Section 7.1 of the Western Riverside County MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity outside cell criteria areas. This project is considered to be a safety improvement project under operation and maintenance and therefore is a covered activity.

MAR 23 2021 3.29

The Riverside County Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:

Section 15301 (c) – Existing Facilities – The project proposes to reconstruct Ramona Expressway, approximately 0.90 miles from 0.65 miles east of the intersection of Warren Road to 845' west of the intersection of Sanderson Avenue. The project in its entirety is consistent with Section 15301(c) because it does not create additional automobile lanes and involves no expansion of use of the existing roadway and associated facilities.
