BACKGROUND:

Summary

The County of Riverside entered a lease in December 2002, for 73,770 square feet of office space located at 14375 Nason Street, Moreno Valley, commonly referred to as the Campus Professional Center, (CPC). Divisions of Riverside University Health System (RUHS), have occupied this building, which is adjacent to the County hospital, to provide services to the public and staff and support hospital operations.

One of the programs, Riverside County Child Assessment Team (RCCAT), requires office space to provide program services to the community. RUHS has determined the CPC building as a favorable location, and office space within the building has been identified for RCCAT's occupancy.

The tenant improvements for the proposed RCCAT suite will include a secure reception/lobby, a waiting room, with exam, interview and therapy rooms as well as 5 offices and open staff areas for cubicles. The project will also include some staff relocations with associated tenant improvements to two other suites as well as building code updates for ADA compliance. The Sixth Amendment to Lease provides for the Lessor to complete the tenant improvements which cost will be paid in full by RUHS' Foundation Department. No County funds will be used.

NOTICE OF EXEMPTION

October 5, 2020

Project Name: RUHS Campus Professional Center Sixth Amendment to Lease, Moreno Valley

Project Number: FM042462004100

Project Location: 14375 Nason Street, north of Cactus Avenue, Moreno Valley, California 92555; Assessor's Parcel Number (APN) 486-280-034

Description of Project: The County of Riverside (County) has a Lease Agreement with Campus Medical Center, LLC, a California limited liability company, (Lessor) which was entered into in December 2002 for the purpose of providing office space for the Riverside University Health System (RUHS). The leased facility, referred to as the Campus Professional Center (CPC), is located at 14375 Nason Street, adjacent to the existing RUHS Hospital. The County leases 73,770 square feet of space within the facility under a Lease that expires on June 20, 2024. Five previous amendments to the existing lease have been implemented for extensions of term, tenant improvements, and rent adjustments. One of the RUHS programs, the Riverside County Child Assessment Team (RCAAT) requires office space to provide services. In order to accommodate RCAAT, additional tenant improvements are required to make the space functional. The Sixth Amendment to Lease is identified as the proposed project under the California Environmental Quality Act (CEQA). The proposed project would involve tenant improvements within the previously approved facility and would not result in an increase in capacity or physical expansion beyond what was previously approved as part of the Lease Agreement. No significant physical changes would occur as a result of the Sixth Amendment to the Lease Agreement.

Name of Public Agency Approving Project: Riverside County

Name of Person or Agency Carrying Out Project: Riverside County Facilities Management

Exempt Status: State CEQA Guidelines Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b) (3), General Rule or "Common Sense" Exemption. Codified under California Code of Regulations Title 14, Article 5, Section 15061.

Reasons Why Project is Exempt: The proposed project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The project will not cause an impact to an environmental resource of hazardous or critical concern nor would the project involve unusual circumstances that could potentially have a significant effect on the environment. The project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the Sixth Amendment to the Lease Agreement.

- Section 15301 Class 1 Existing Facilities Exemption: This categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site's use. The alterations to the previously approved facility would be limited to minor tenant improvements to accommodate the RCAAT. These improvements would be within the existing building and consistent with the existing land use, and no substantial increase in capacity would be created by the project. Therefore, the project is exempt as it meets the scope and intent of the Categorical Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.
- Section 15061 (b) (3) "Common Sense" Exemption: In accordance with CEQA, the use of the Common Sense Exemption is based on the "general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment." State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if "it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment." *Ibid.* This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the project may have a significant effect on the environment. The proposed Sixth Amendment to the Lease Agreement will not result in any direct or indirect physical environmental impacts. The use and operation of the facility will be substantially similar to the existing use and will not create any new environmental impacts to the surrounding area. No impacts beyond the ongoing, existing use of the site would occur. Therefore, in no way, would the project as proposed have the potential to cause a significant environmental impact and the project is exempt from further CEQA analysis.

Therefore, the County of Riverside Facilities Management hereby concludes that no physical environmental impacts are anticipated to occur and the project as proposed is exempt under CEQA. No further environmental analysis is warranted.
