BACKGROUND:

Summary

This board action will approve a First Amendment to the Agreement with GE Precision Healthcare LLC to consolidate existing Service Agreements for maintenance of imaging equipment at the Riverside University Health Systems (RUHS) departments of L&D (OB-Gyn, Ultrasound, ECHO), Respiratory (Ultrasound, ECHO), Diagnostic Imaging & Radiology (Ultrasound, CT, MRI), Cardiology, Perinatology and the new Medical & Surgical Center Building.

The imaging equipment for the Medical Center requires regularly scheduled preventative maintenance, and repairs to ensure it can be readily used for direct patient care and meets regulatory requirements. If the equipment is out of service, the hospital is at risk of going on diversion, causing patients to be routed to other hospitals and care for existing patients would be at risk due to non-functioning diagnostic equipment that must maintain functional at all times.

Unplanned equipment downtime can cause significant disruptions to the facility's operation and possibly threaten patient safety. In order to keep the radiology equipment running 24/7, the Medical Center requires GE to perform maintenance at regular intervals along with routine and urgent service calls.

RUHS currently maintains numerous service agreements with GE, which have been purchased alongside each equipment purchase of GE imaging equipment. The volume of these multiple service agreements presents an operational challenge for inventory control and management of the maintenance schedules because they all expire at different time points across different internal departments, making contract management very difficult. Additionally, the inefficiencies of the total volume of individual service agreements, have caused continuous billing challenges which place the medical center at risk for service disruption.

This contract consolidation will result in a single contract for all GE equipment requiring service to avoid multiple contracts and delays in payments and contract equipment

STATE OF CALIFORNIA**

mismatch. This consolidation includes eighty-three (83) pieces of critical imaging equipment with an annual maintenance fee of \$1,492,652 for seven years through January 1, 2028. The benefits of this consolidation include:

- Quarterly billing with net 60 payment terms will reduce late charges under the standard net 30 and allow for improved cycle time and timely processing of invoices.
- Fixed pricing for the entirety of the Service Agreement. The County gains efficiencies with fixed pricing that can be applied for new equipment purchases that will be added to the service agreement.
- Consolidated contracts will be coterminous to avoid multiple contract end dates and multiple service contracts. Improves management of equipment.
- Reduction in the downtime of imaging equipment
- Optimal utilization of a medical equipment maintenance plan
- Enhanced efficiency and effectiveness to improve equipment lifespan
- Price efficiency has been improved to identify probe pool across all departments in lieu of being charged for every probe, yielding an annual cost savings to the hospital.

Impact on Residents and Businesses

Riverside County residents will benefit from improved quality of care received from RUHS by the optimal performance of critical imaging equipment.

Additional Fiscal Information

This board action requests \$2,089,712 in contingency to address equipment inventory changes due to planned capital purchases and unplanned capital equipment purchases related to COVID-19 pandemic response and post-pandemic restructuring to address patient care needs.

Contract History and Price Reasonableness

RUHS procures its imaging equipment with GE Healthcare via the County's Vizient GPO membership. The Vizient GPO contracting process competition has been found by the Board to meet the statutory requirements for competition (Board item approved on September 17, 2019, Item #15.2).

Additionally, GE Healthcare's proprietary maintenance services are covered under the Direct Patient Care Authority Resolution 2019-147 approved by the Board of Supervisors on June 18, 2019, Agenda Item #3.20. The First Amendment requires board approval as the aggregate

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

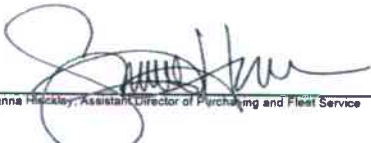

contract amount exceeds the Procurement Agent's delegated authority of \$750,000 per vendor per twelve months.

The current board action will consolidate GE Service Agreements and their respective inventory of imaging equipment. Service Agreements were approved by the Purchasing Agent, Direct Patient Care Authority Resolution 2019-147 authority for GE Contract No. 1-488444863059, dated 3/30/2020 in the amount of \$35,321 and GE Contract No. 1-230630078684, approved 2/1/2018 with a current annual amount of \$57,009. The annual fees of the existing agreements will collectively be reduced by 5% under this multi-year Service Agreement.

Furthermore, this maintenance contract provides service coverage for newer ultrasound units procured for the Medical & Surgical Center which opened on the RUHS Medical Center campus in Spring 2020 for an annual cost of \$593,116. Additionally, the annual maintenance cost will provide coverage for imaging units that are at end of the warranty stage. This consolidation will result in an improved process with a single inventory and maintenance schedule for improved operational efficiency and contract management. This multi-year agreement will also allow the County to avoid a 10% annual markup on service contracts with fixed pricing resulting in a cost savings of \$1,112,376 over the 84-month term.

GE Healthcare is offering RUHS its CY 2018 pricing for the equipment currently on maintenance contracts and will hold fixed pricing for the entire term of the Service Agreement. Based on RUHS's utilization and replacement rate of ultrasound probes, the vendor has offered to remove the \$3,000 fee per probe (estimate 20 ultrasound probes) and establish a group probe pool with fixed pricing of \$16,000.

Customer will be identified as an additional insured on GE Healthcare's commercial general liability policy, on a primary and non-contributory basis through the Term of this Agreement, up to the limits set forth in the attached certificate of insurance, and only with respect to claims arising out of GE Healthcare's and its employees', agents' or subcontractor's negligent acts or negligent omissions under this Agreement. This does not apply to the extent the liability arises out of the acts or omissions of Customer."

11. Section 19 ("Disputes and Arbitration") and Section 19.1 ("Binding Arbitration") of the GE Healthcare Service Terms & Conditions are hereby amended in their entirety to read as follows:

19. Dispute Resolution.

19.1 Generally. For all matters, the parties will first attempt to resolve in good faith any disputes related to this Agreement. subsequent proceedings.

19.2 Certain Matters. Violation of GE Healthcare's license, confidentiality or intellectual property rights may cause irreparable harm for which the award of money damages alone may be inadequate. For these violations, GE Healthcare may: (i) seek injunctive relief and any other available remedies; and/or (ii) immediately terminate the license grant and require Customer to cease use of and return the Software and Third Party Software. Other than these violations or collection matters, unresolved disputes will be submitted to mediation as described above prior to initiation of other means of dispute resolution."

12. State Licensing Requirements. GE Healthcare shall comply with all applicable State or other licensing requirements. All applicable licensing requirements shall be met at the time proposals are submitted to Customer. GE Healthcare warrants that it has all necessary permits, approvals, certificates, waivers and exemptions necessary for performance of this Agreement as required by the laws and regulations of the United States, the State of California, the County of Riverside and all other governmental agencies with jurisdiction, and shall maintain these throughout the term of this Agreement.

If applicable, GE Healthcare will maintain a current, valid State of California Contractor's license. If applicable, GE Healthcare will pay their employees the general prevailing rate of pay for each craft or type of workman or mechanic needed to perform under this Agreement."

14. Miscellaneous. All other terms and conditions of the Agreement not modified herein shall remain unchanged and in full force and effect. If there is a conflict between this First Amendment and the Agreement or any other earlier amendment or addendum, the terms of this First Amendment will prevail. Except as otherwise expressly provided in this First Amendment, the parties agree that all provisions of the Agreement are hereby ratified and agreed to be in full force and effect and are incorporated herein by this reference. This First Amendment and the Agreement contain the entire agreement among the parties relating to the subject matter herein and all prior proposals, discussions and writings by and among the parties and relating to the subject matter herein are superseded hereby and thereby.

15. Consolidation of Agreement(s). The execution of this First Amendment and acceptance of the Service Contract Addendum will have the effect of terminating the below-referenced agreement(s), as the coverage being provided under such agreement(s) will now be provided under the Agreement. With respect to the below-referenced agreement(s), upon execution of this First Amendment, neither party shall have any further obligations except for (i) payment obligations arising prior to the execution of this First Amendment and (ii) obligations, promises or covenants contained in those agreement(s) which by their terms must extend beyond the termination date.
