BACKGROUND:

Summary

The Assignment and Assumption Agreement (Agreement) transfers the rights and responsibilities from Assignor as established by the original Cooperative Agreement executed on September 25, 2018 (Board Agenda Item No. 3.17). Once executed, the Assignee will assume responsibility for the construction of the flood control facilities required as a condition of approval for Tract No. 31632-1. The Agreement is necessary to provide for County and District inspection and subsequent operation and maintenance of the referenced storm drain facilities.

The County will assume ownership and responsibility for the operation and maintenance of the project's associated catch basins, inlets, outlets, connector pipes, curbs and gutters, access roads and various lateral storm drains that are thirty-six inches or less in diameter that are located within County held rights of way for Tract No. 31632-1. Upon completion of construction, the Assignee will assume ownership, operation and maintenance of the mainline storm drains until such time as the District assumes ownership, operation and maintenance in accordance the terms and conditions as set forth in the Agreement. The Assignee will retain ownership, operation and maintenance of the water quality basins and landscape features located within its rights of way.

County Counsel has approved the Agreement as to legal form, and the County and Assignee have executed the Agreement. A companion item appears on the Riverside County Flood Control and Water Conservation District agenda this same date.

Impact on Residents and Businesses

Construction of these drainage improvements is a requirement for the development of Tract No. 31632-1. The principal beneficiaries are the future residents of the tract. Ancillary benefits will accrue to the public who will utilize the tracts' roadways.

Additional Fiscal Information

The Assignee is funding all construction and construction inspection costs. Future operation and maintenance costs of the Transportation Department's maintained storm drain facilities will accrue to the County.
