AB 262, Local health officers: communicable diseases.

Existing law requires the State Department of Public Health to examine into the causes of communicable disease in man and domestic animals occurring or likely to occur in this state, and to establish a list of reportable diseases and conditions. Existing law requires a health officer knowing or having reason to believe that any case of the diseases made reportable by regulation of the department, or any other contagious, infectious or communicable disease exists, or has recently existed, within the territory under the local health officer's jurisdiction, to take measures to prevent the spread of the disease or occurrence of additional cases.

AB262) This bill would require a local health officer, during an outbreak of a communicable disease, or upon the imminent and proximate threat of a communicable disease outbreak or epidemic that threatens the public's health, to notify and update governmental entities within the health officer's jurisdiction about certain communicable diseases that may affect them, if, in the opinion of the local health officer, action or inaction on the part of the governmental entity might affect outbreak response efforts. The bill would require the local health officer to make any relevant information available to those governmental entities, as specified, and would require both the local health officer and the governmental entities to comply with applicable state and federal privacy laws with regard to information that the health officer provides to the governmental entities. The bill would authorize the local health officer to issue orders to other governmental entities within the local health officer's jurisdiction to take any action the local health officer deems necessary to control the spread of the communicable disease.

By imposing new requirements on local health officers, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory

SECTION 1.

Section 120175.5 is added to the Health and Safety Code, to read:

120175.5.

(a) During an outbreak of a communicable disease, or upon the imminent and proximate threat of a communicable disease outbreak or epidemic that threatens the public's health, a local health officer shall do both of the following:

(1) Promptly notify and update governmental entities within the local health officer's jurisdiction about communicable diseases listed in Section 2500 of Title 17 of the California Code of Regulations that may affect them, if, in the opinion of the local health officer, action or inaction on the part of the governmental entity might affect outbreak response efforts.

(2) Make any relevant information available to governmental entities, including, but not limited to, the locations of concentrations of cases, the number of residents affected, and the measures that the governmental entities should take to assist with outbreak response efforts.

(b) In addition to the actions required under subdivision (a), the local health officer may issue orders to other governmental entities within the local health officer's jurisdiction to take any action the local health officer deems necessary to control the spread of the communicable disease.

(c) A local health officer that provides the notification and information to a governmental entity pursuant to subdivision (a), and the governmental entity that receives the notification and information, shall comply with all applicable state and federal privacy laws.

SEC. 2.

If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

Comment
6-8-2021

AB 389, as introduced, Grayson. Ambulance services.

The Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, among other things, authorizes a county to develop an emergency medical services program, and requires a county developing such a program to designate a local EMS agency that is required to be the county health department, an agency established and operated by the county, an entity with which the county contracts for the purposes of local emergency medical services administration, or a particular type of joint powers agency. The act authorizes a local EMS agency to create one or more exclusive operating areas in the development of a local plan, if a competitive process is utilized to select the provider of the services pursuant to the plan, except as specified.

This bill would authorize a county to contract for emergency ambulance services with a fire protection district that is governed by the county's board of supervisors and provides those services, in whole or in part, through a written subcontract with a private ambulance service. The bill would authorize a fire protection district to enter into a written subcontract with a private ambulance service for these purposes.

SECTION 1.

Section 1797.230 is added to the Health and Safety Code, to read:

1797.230.

(a) A county may contract for emergency ambulance services with a fire protection district that is governed by the county's board of supervisors and provides those services, in whole or in part, through a written subcontract with a private ambulance service.

(b) A fire protection district may enter into a written subcontract with a private ambulance service for the purposes of contracting with a county as described in subdivision (a).

CA State Assembly

RE: Cease and Desist AB 262 Local Health Officer; Communicable Disease (2019-2020)

To members of CA State Assembly,

Residents of Riverside County are requesting to stop any further action on the bill AB262. We are addressing the questionable Assembly Bills AB 262 and AB 389 as it relates to use of taxpayer dollars which gives the government a wide net to take any action deemed necessary. Given all the lockdowns, and continual loss of our freedoms, we are putting government on notice the "We the People" request a detailed explanation of the terms outlined in each bill; most importantly, explain in detail how the government intends to perform these acts within each county and the purpose of contracted private ambulance companies. A rhetorical question: is the intent of the government to deploy mobile crisis units to the homes of citizens who have not been vaccinated and deem them a threat to public health and society as outlined in AB 262?

Thank you,

County Board of Supervisors and Constituents of Riverside County
