**BACKGROUND:**

**Summary**

Molina Health Care of California (Health Plan), is requesting to extend its contract with Riverside County Office on Aging (RCOoA) to serve as a Community Based-Care Management Entity (CB-CME) to render certain Health Care services to Health Plan's Health Home Program (HHP) eligible Members in connection with Health Plan's contractual obligations to provide and/or arrange for Health Care Services for Health Plan's Members.

The HHP is a California Department of Health Care Services (DHCS) mandated Medi-Cal Program authorized under Section 2703 of the Affordable Care Act. The HHP serves eligible Medi-Cal beneficiaries with complex medical needs and chronic conditions who may benefit from enhanced care management and coordination. The HHP coordinates the full range of physical health, behavioral health, and community-based long-term services and supports (LTSS) needed by eligible beneficiaries.

RCOoA will be responsible for providing HHP Services to one hundred (100) adults over the age of 55 in the following cities: Riverside, Corona, Hemet, Perris, Lake Elsinore, Wildomar, Temecula, Murrieta, Menifee, Sun City, and Moreno Valley. The HHP services are defined by the DHCS Health Homes Program Guide as a set of six (6) specific care coordination services: 1) Comprehensive Care Management, 2) Care Coordination, 3) Health Promotion, 4) Comprehensive Transitional Care, 5) Individual and Family Support, and 6) Referral to Community and Social Support Services. RCOoA is required to coordinate and integrate care across the continuum of services for the provision of HHP services.

**Impact on Residents and Businesses**

The Health Homes Program will be providing services for one hundred (100) adults over the age of 55 who are eligible Medi-Cal beneficiaries with complex medical needs and chronic conditions that may benefit from enhanced care management and coordination in the cities listed above. The HHP program will empower and support the member to live independently in their home and community, promote healthy aging and community involvement. The expected outcome is a reduction in hospital admissions, emergency department visits, and skilled nursing facility admissions.
