BACKGROUND:

Summary

Riverside County Ordinance No. 458 (Ordinance) establishes policies, procedures and standards for regulating development in designated special flood hazard zone areas and implements the provisions of the NFIP within the unincorporated areas of the County of Riverside (County). NFIP is administered by the Federal Emergency Management Agency (FEMA) and makes federally backed flood insurance available to homeowners, renters and business owners in participating communities.

TLMA, Counsel and the District will coordinate to prepare, process, and implement the amendment to the Ordinance.

Impact on Residents and Businesses

By updating Ordinance 458 residents and businesses will be better informed about existing flood and erosion hazards.

Additional Fiscal Information

There are minimal administrative costs limited to staff time and the necessary processing of documents associated with amending the Ordinance. There is adequate departmental funding for this activity. These costs will be borne by the District, with a small portion by Riverside County Building and Safety. No General Fund dollars are allocated for this effort.
