BACKGROUND:

Summary

The Government Finance Officers Association (GFOA) established the Certificate of Achievement for Excellence in Financial Reporting Program to encourage and assist state and local governments to go beyond the minimum requirements of generally accepted accounting principles to prepare comprehensive annual financial reports that evidence the spirit of transparency and full disclosure and then to recognize individual governments that succeed in achieving that goal. The Riverside County Flood Control and Water Conservation District (District) has received this prestigious award for thirty (30) consecutive years. The Fiscal Year 2020-2021 Annual Comprehensive Financial Report (ACFR) will mark the District's thirty-first (31) submission for this award.

The Fiscal Year 2020-2021 ACFR includes the District's financial statements audited by Van Lant Fankhanel, LLP, statistical information and other pertinent data. The District has received an unmodified opinion from Van Lant Fankhanel, LLP indicating that the District's financial statements have been presented fairly in all material respects in accordance with accounting principles generally accepted in the United States of America.

Impact on Residents and Businesses

There is no impact upon existing residents or business. The items provided are for informational purposes only.

Additional Fiscal Information

There is no cost to the District.

Jason Farin, Principal Management Analyst 11/30/2021

Independent Auditor's Report

The Honorable Chairman and Board of Supervisors
Riverside County Flood Control and Water Conservation District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District (District), as of and for the year ended June 30, 2021, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Van Lant & Fankhanel, LLP

29970 Technology Drive, Suite 105 A
Murrieta, CA 92563

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the schedules listed in the supplementary Information section of the table of contents, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules listed in the supplementary information section of the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules listed in the supplementary information section of the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated November 3, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Van Lant + Fankhanel, LLP

Murrieta, California

November 3, 2021

**Independent Auditor's Report on Internal Control over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Honorable Chairman and Board of Supervisors
Riverside County Flood Control and Water
Conservation District
Riverside, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for California Special Districts, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District (the "District"), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 3, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Van Lant & Fankhanel, LLP

29970 Technology Drive, Suite 105 A
Murrieta, CA 92563
909.856.6879

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Van Lant + Fankhanel, LLP

November 3, 2021

November 3, 2021

Honorable Chairman and Board of Supervisors
Riverside County Flood Control and Water
Conservation District
Riverside, California

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District for the year ended June 30, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 10, 2021. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the fair value of investments is based on information provided by financial institutions. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements as a whole.

Van Lant & Fankhanel, LLP

29970 Technology Drive, Suite 105 A
Murrieta, CA 92563
909.856.6879

Management's estimate of capital assets depreciation is based on historical estimates of each capitalized item's useful life. We evaluated key factors and assumptions used to develop the estimated useful lives in determining that they are reasonable in relation to the financial statements as a whole.

Management's estimate of the net pension and net OPEB liabilities are based on actuarial information provided by the California Public Employee Retirement System's (CalPERS) actuarial office, and other sources. We evaluated the key factors and assumptions used to develop these liabilities in determining that the estimated liabilities are reasonable in relation to the financial statements as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

The disclosure of the fair value of investments in Note 2 to the financial statements represents amounts susceptible to market fluctuation.

The disclosure of accumulated depreciation in Note 4 to the financial statements is based on estimated useful lives which could differ from actual useful lives of each capitalized item.

The disclosures for the net OPEB and net pension liabilities in Notes 7 and 8 to the financial statements are based on assumptions for discount rates, etc., which could differ from actual experience. The notes disclose the differences in these liabilities if different assumptions are used in estimating these liabilities.

During the year the District made an additional contribution of \$12,577,638 to CalPERS as payment towards the unfunded pension liability.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 3, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the required supplementary information (RSI), as listed in the table of contents, that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, as listed in the table of contents, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to

the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory and statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

This information is intended solely for the use of the Board of Supervisors and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Van Lant + Fankhaed, LLP

RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

November 3, 2021

To the Members of the Board of Supervisors and Citizens served by the Riverside County Flood Control and Water Conservation District:

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. The Riverside County Flood Control and Water Conservation District (District) is a component unit of the County of Riverside, California. This report is published to fulfill that requirement for the fiscal year ended June 30, 2021.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Van Lant & Fankhanel, LLP., Certified Public Accountants, have issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2021. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. Management's discussion and analysis complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The District, formed in 1945 by an Act of the State Legislature, is located in the southern part of the state within the County of Riverside, which boasts the 7th largest cumulative numeric increase in population in the country.¹ The District currently occupies 2,676 square miles and serves a population of approximately 2.08 million. The District is divided into seven geographic zones and is empowered to levy property or special assessment tax on both real and personal property located within the boundaries of each zone. Taxes collected within each zone must be spent for flood control projects within, or proportionally beneficial to, that zone.

The County of Riverside, Board of Supervisors, ex officio, has been the District's governing body since 1945. Policy making and legislative authority are vested in the Board, consisting of five members elected on a non-partisan basis. Board members serve staggered four-year terms with member seats opening for election on an alternating basis. The Board of Supervisors appoints the District's General Manager-Chief Engineer, who in turn appoints the heads of the various divisions within the District.

¹ Source: U.S. Census Bureau, Estimates of the Components of Resident Population Change: April 1, 2010 to July 1, 2019

Additionally, the Board of Supervisors appoints three Zone Commissioners to each zone. The Zone Commissioners act as an advisory body to the Board of Supervisors by prioritizing the need for new flood control facilities within a zone based on requests from citizens, cities and other agencies within the zone boundaries, and making budget recommendations for new or pending projects in the upcoming fiscal year.

The District provides a full range of services, including the design and construction of flood control facilities; regulatory services which fulfill legal requirements associated with federal and state programs that relate to District activities; surveying and mapping services; watershed protection services; planning services that relate to land development, and provide for the public's health and safety by contributing to orderly development and growth within the County; the operation and maintenance of the District's fleet and facilities, land interests, and encroachment issues; information technology services providing technical support to the District staff; and administrative services providing clerical, financial and personnel support to the District staff.

The Board of Supervisors is required to adopt by resolution a final budget for the County of Riverside, including all districts, agencies and authorities governed by the Board of Supervisors, no later than October 2nd of each year pursuant to Sections 29080 through 29092 of the Government Code. The Board of Supervisors adopted the District's 2021 fiscal year budget on June 30, 2020. The annual budget serves as the foundation for the District's financial planning and control. The District's legal level of budgetary control is by class or appropriation level (e.g., salaries and benefits, services and supplies) within each category present on the financial statements. The District may transfer resources between appropriation levels within the same fund at their discretion and with approval by the County of Riverside Executive Office. Increase of resources or establishment of a new appropriation level requires approval by the Board of Supervisors.

Local Economy

The District oversees the western portion of the Riverside County which includes twenty-one cities and unincorporated county communities west of the San Jacinto and Santa Rosa Mountains. Riverside County is California's fourth largest populated county according to the State Department of Finance. It represents 6.22% of California's total population.² Riverside County is part of a larger area known as Southern California's Inland Empire, comprised of Riverside and San Bernardino counties. It is approximately 60 miles from north to south and some 50 miles wide. Major industries located within the Riverside County include government, retail trade, educational and health services, leisure and hospitality, and construction.

From August 2020 to August 2021, the unemployment rate in the inland empire dropped from 11.2% to 7.6%. While nonfarm employment did increase by 4.5% agricultural employment decreased by 1,400 down 11.5% within the year. The increase can be attributed to the addition of 65,700 jobs. The trade, transportation and utilities industries made a sizeable recovery by adding 25,400 jobs. The leisure and hospitality industry accounted for another 20,100 jobs, while educational and health services accounted for an additional 13,900 jobs. Meanwhile, government, manufacturing, and financial activities lost a total of 9,100 jobs within the year.³

² Source: State of California, Department of Finance, E-1 Population Estimates for Cities, Counties and the State with Annual Percentage Change – January 1, 2020 and 2021. Sacramento, CA, May 2021

³ Source: State of California, Employment Development Department, Labor Force Data – Riverside and San Bernardino Counties.

Over the past ten years, the District's expenses related to the construction and maintenance of flood control facilities have continually increased in amount and as a percentage of total expenses. However this year while the expenses have increased the percentage of total expenses decreased (a ten-year decrease of 3.8%). Maintenance costs for the current fiscal year ended have increased by 0.7% from the prior year. The increase is attributed to flood prevention in response to the Holy and Cranston fires

With the fluctuation of the economy, the District continues to follow a moderate construction schedule. The District's practice has been to accumulate monies for large projects, while maintaining a prudent reserve for operations and maintenance.

During this same ten-year period, charges for services decreased, both in amount and as a percentage of total revenues (reflecting a ten-year decrease of 93.35%).

Long-term Financial Planning

Timely project development is facilitated by the District's five-year Capital Improvement Plan (CIP) which provides a long-range plan for funding of designated flood control and drainage infrastructure projects. The CIP details revenues and expenditures anticipated for each project for a five-year period. The CIP is an internal document and is provided as information in the District's annual budget. The CIP does not contain all projects that need to be completed, but rather those projects that will be initiated during the prescribed five-year period.

Relevant Financial Policies

The District's cash and investments, stated at fair value, are on account with and pooled with other governmental agencies by the County of Riverside Treasurer for the purpose of increasing income through investment activities. U.S. Bank Corporate Trust Services serves as the District's fiscal agent for special assessment debt and cash reserves. See *Note 2* in the *Notes to Financial Statements* section of this report for more detailed information.

Major Initiatives

During the fiscal year ended June 30, 2021, the District issued notices of completion for Five projects totaling over \$9 million dollars in construction costs. At the close of the fiscal year, the District had four construction contracts in progress totaling an additional \$19 million dollars. The majority of these projects are estimated for completion by the end of calendar 2021.

The following District-administered flood control project contracts were completed during, or were under construction during the fiscal year 2020-2021:

<u>Facilities</u>	<u>Status</u>	<u>Construction Cost</u>
Leach Canyon Dam, Stage 90 Spillway Restoration	Completed – 7/7/20	\$728,819.21
Jurupa-Pyrite MDP Line A-2, Stage 1	Completed – 8/25/20	\$339,284.20
Desert Hot Springs MDP Line E-5, Stage 1	Completed – 3/2/21	\$3,767,460.81
Palm Canyon Wash, Stage 93 Emergency Levee Restoration	Completed – 3/9/21	\$1,849,676.19
Ortega Channel Retrofit, Stage 91	Completed – 5/25/21	\$2,322,307.02
S. Norco Ch. Stg 6, Norco MDP Line S-1, Stg 1 and Norco MDP Line S-5, Stg 1	In- progress	\$7,744,444.00
Banning MDP Line H, Stage 1	In-Progress	\$3,255,550.00
Norco Crestview Drive Debris Basin, Stage 91	In-Progress	\$1,333,333.00
Bautista Creek Channel Recharge Basin Expansion, Stage 50	In-Progress	\$1,756,236.75
Romoland MDP Line A-3, Stages 2 & 3	In-Progress	\$4,280,283.00
Woodcrest Dam Outlet Modification, Stage 90	In-Progress	\$983,233.94

Leach Canyon Dam, Stage 90 spillway restoration – This is a District-led project that will repair and reinforce the spillway that sustained significant damage after the major storm events in February 2019. The project includes the replacement of lost rock riprap, construction of two cut-off walls and restoration of the earthwork grading. The District will be reimbursed a portion of the construction costs of this project, pursuant to the federal emergency declaration #4431.

Jurupa Pyrite MDP Line A-2 – This District-led project consists of constructing an interim portion of Line A-2 to alleviate flooding hazards to the properties located at the end of Bellmore Street and surrounding the proposed project site. This interim project follows the master drainage plan alignment and collects flows at the southern end of Bellmore Street and conveys the flows in a small concrete swale westerly across Agate Street. Once constructed, a majority of the project will be maintained by the District, with Agate Street crossing maintained by the City of Jurupa Valley.

Desert Hot Springs MDP Line E-5 – This District-led project will reduce flooding along 8th Street between Mesquite Avenue and West Drive. Approximately 3,700 lineal feet of underground storm drain will be constructed along 8th Street beginning at District's existing Line E channel near West Drive with upstream end near Mesquite Avenue.

Palm Canyon Wash, Stage 93 (Emergency Levee Restoration) – This is a District-led emergency restoration project of approximately 3,200 lineal feet of levee in the city of Palm Springs. The primary objective of this project is to repair damaged levee sections and extend toe down depth along Palm Canyon Wash from the corner of Murray Canyon Drive and Toledo Avenue downstream to the wash crossing at Palm Canyon Drive (Highway 111).

Ortega Channel Retrofit, Stage 91 - The District-led retrofit project will facilitate the maintenance of and the removal of sediment from the existing Ortega Channel Storm Drain located in the city of Lake Elsinore. This project replaces roughly 600 lineal feet of sediment-prone underground storm drain-pipe (84"-96") and replaces it with roughly 600 lineal feet of 10'Hx12'W RCB and three access structures which will allow for more timely maintenance.

South Norco Channel, Stage 6 and Norco MDP lines S-1 & S-5 – This is a District-led project that will reduce flooding and remove properties from the floodplain between Second and Fourth Streets east of Corona Circle. It is expected to benefit both local residences, traffic, as well as benefit Norco Intermediate School and Norco High School.

Banning MDP Line H – This is a District-led project that will reduce flooding along Hathaway Street between Barbour Street and Wesley Street. It will collect flows in Hathaway Street beginning at Barbour Street and convey them south in an underground storm drain within Hathaway Street, then east along Wesley Street until it discharges into Smith Creek.

Norco-Crestview Debris Basin, Stage 91 – This District-led project requested by the City of Norco proposes to reduce mud/debris issues along Crestview Drive by constructing a debris basin (1.8-acre site) at the foot of the La Sierra Hills. The debris basin will collect mud/debris at three locations along the La Sierra Hills. After settling larger sediment and debris in the basin, 10-year flows will drain from the basin southwesterly into the recently constructed underground storm drain in Crestview Drive (Norco MDP Line NA-1, Stage 2). This project is funded by the District.

Bautista Creek Channel Recharge Basin Expansion, Stage 50 - This District-led project, in partnership with Lake Hemet Municipal Water District, will expand groundwater recharge by constructing six infiltration basins on the existing 17.5 acres of open space adjacent to Bautista Creek Channel. This project is funded by a combination of District funds, and external funding from a Proposition 84 state grant administered by the California State Department of Water Resources, and a contribution from the Lake Hemet Municipal Water District.

Romoland MDP Line A-3 – This is a District-led project that will ultimately protect existing neighborhoods along Varela Lane and properties south of Varela Lane and east of Palomar Street. Stage 1 of Line A-3 was already constructed near Case Road in Palomar Street. Stages 2 and 3 will extend this storm drain system north in Palomar Road to Varela Lane. The total length of these two stages is approximately 3,200 feet of underground box storm drain (12'Wx6.5'H). This project also enables the future construction of Stages 4 and 5 which extend east along Varela Lane. The full benefit of this project will not be realized until Stages 4 and 5 are also constructed. This project is funded by the District.

Woodcrest Dam Outlet Modification – This is a District-led project to upgrade the safety and operation of Woodcrest Dam. The improvements include replacing the existing gate assembly and control system, replacing the existing outlet structure with a new debris rack outlet structure to reduce clogging potential, and installation of erosion control measures on the embankment slope. This project is funded by the District.

Additionally, the District continued to collaborate with the Cities of Corona, Norco, Moreno Valley, San Jacinto and Riverside to deliver priority infrastructure. Utilizing District funding (provided through Board-approved cooperation agreements), these Cities are managing design and construction of significant flood control projects.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report (ACFR) for the fiscal year ended June 30, 2020. This was the thirtieth consecutive year that the District published an easily readable and efficiently organized ACFR that satisfied both generally accepted accounting principles and applicable legal requirements.

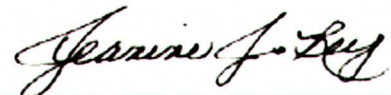

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance and administration divisions. We wish to express our appreciation to all members of the District who assisted and contributed to the preparation of this report. A special thanks to Jeanine Rey, Finance Director, Darrylenn Prudholme-Brockington, Assistant Finance Director, Sunita Jain, Administrative Services Supervisor, Amber Hartoog, Accountant II, and Charlene Villalvazo, Accountant I, for their efforts in the preparation of this report. Credit must also be given to the Board of Supervisors, for their unfailing support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

JASON UHLEY

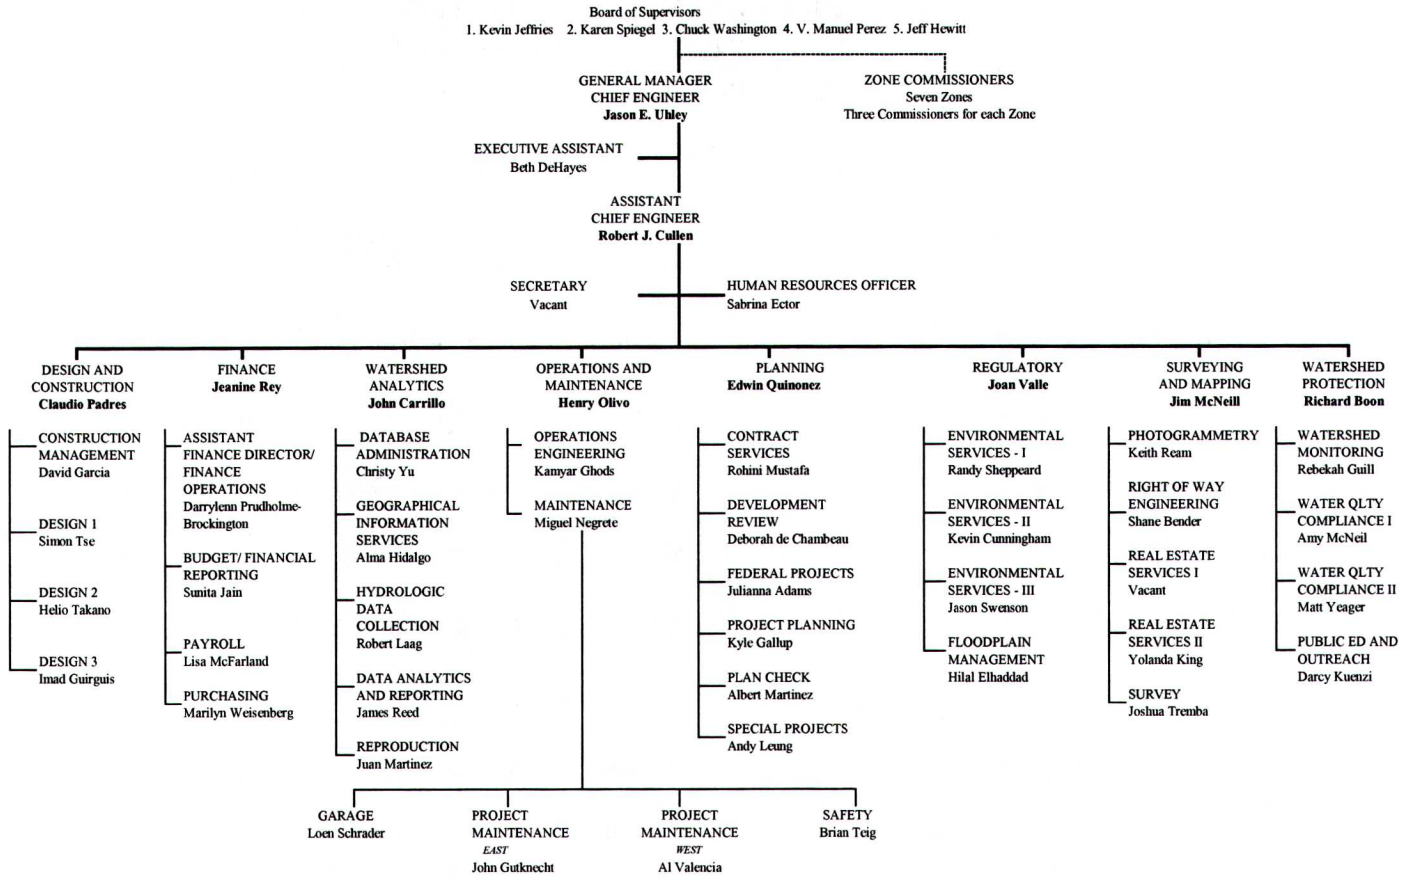

JEANINE J. REY

Independent Auditor's Report

The Honorable Chairman and Board of Supervisors
Riverside County Flood Control and Water Conservation District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District (District), as of and for the year ended June 30, 2021, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Van Lant & Fankhanel, LLP

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the schedules listed in the supplementary Information section of the table of contents, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules listed in the supplementary information section of the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules listed in the supplementary information section of the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated November 3, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Riverside County Flood Control and Water Conservation District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - v of this report. All monetary amounts, unless otherwise indicated, are expressed in the nearest dollar.

Financial Highlights

- ◆ The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$1,285,021,781 (*net position*).
- ◆ The District's total net position increased by \$36,758,218. Approximately 73 percent of this increase is attributable to the addition of donated capital assets, i.e., infrastructure and land, net of investment related expenses.
- ◆ The (\$40,167,002) deficit reported in unrestricted net position is the result of the District's unfunded net pension and net OPEB liabilities.
- ◆ As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$274,622,703, an increase of \$1,052,276 in comparison with the prior year. Approximately 1 percent of this amount (\$3,600,164) is *available for spending* at the District's discretion (*unassigned fund balance*).
- ◆ At the end of the fiscal year, unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund was \$5,190,390, or 69 percent of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the District's assets, liabilities, and deferred inflows/outflows, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include general government and public ways and facilities. The business-type activities of the District include Subdivision Operations, Photogrammetry Operations and Encroachment Permits. The government-wide financial statements can be found on pages 15-17 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources*, available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the special revenue funds, both of which are considered major funds. The capital project fund and the debt service fund, nonmajor funds, are presented as *Other Governmental Funds* in the basic governmental fund financial statements.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with this budget.

The governmental fund financial statements can be found on pages 18-25 of this report.

Proprietary funds. The District maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The District uses *enterprise funds* to account for its subdivision, photogrammetry and encroachment permit operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its hydrology, garage, project maintenance, mapping services and data processing. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the subdivision operation, which is considered a major fund of the District. Data from the other two enterprise funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major enterprise funds is provided in the form of *combining statements* elsewhere in this report. Conversely, the five internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its proprietary funds.

The proprietary fund financial statements can be found on pages 26-28 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-52 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's schedule of changes in the net pension liability during the measurement period reported, schedule of plan contributions, progress in funding its obligation to provide other post-employment benefits to its employees. Required supplementary information can be found on pages 53-72 of this report.

The combining statements referred to earlier in connection with non-major governmental funds, enterprise funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 73-89 of this report.

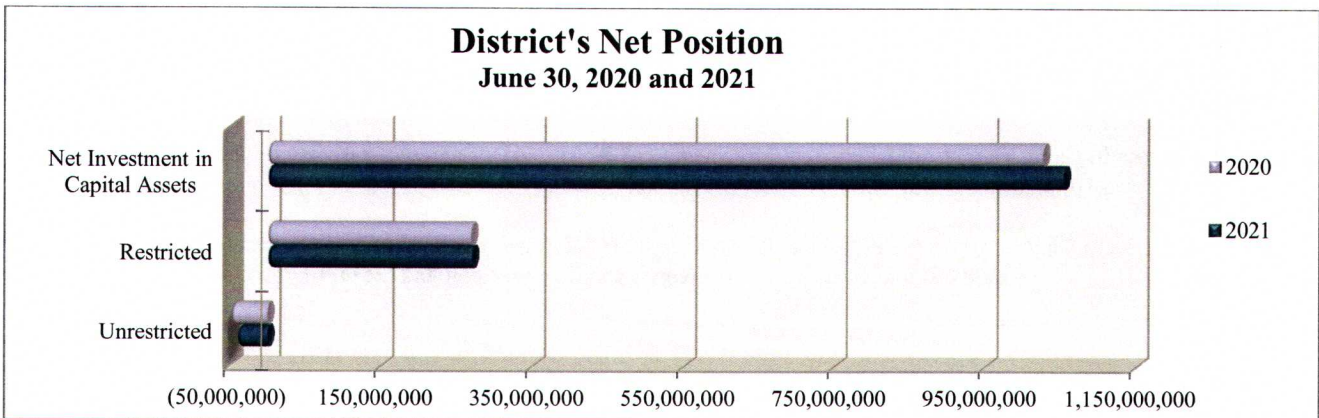

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,285,021,781 at the close of the most recent fiscal year.

By far the largest portion of the District's net position (82 percent) reflects its net investment in capital assets (e.g., land and easements, buildings and improvements, infrastructure, and equipment), less any related outstanding debt that was used to acquire those assets. The District uses these capital assets to provide services to prevent and to protect citizens from flooding within the District's zone boundaries; consequently, these assets are *not* available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	District's Net Position					
	Governmental Activities		Business-type Activities		Total	
	2021	2020	2021	2020	2021	2020
Current and Other Assets	\$298,259,318	\$288,917,269	7,323,520	\$7,016,797	\$305,582,838	\$295,934,066
Capital Assets, Net	1,065,849,712	1,040,941,695	110,768	138,022	1,065,960,480	1,041,079,717
Total Assets	1,364,109,030	1,329,858,964	7,434,288	7,154,819	1,371,543,318	1,337,013,783
Deferred Outflows of Resources	26,282,162	17,992,645	314,065	491,242	26,596,227	18,483,887
Current and Other Liabilities	17,585,816	7,525,241	6,940,762	6,585,029	24,526,578	14,110,270
Long-term Liabilities	85,804,870	89,057,292	2,370,532	2,411,478	88,175,402	91,468,770
Total Liabilities	103,390,686	96,582,533	9,311,294	8,996,507	112,701,978	105,579,040
Deferred Inflows of Resources	385,167	1,610,310	30,617	44,757	415,784	1,655,067
Net Position:						
Net Investment in Capital Assets	1,054,620,396	1,027,200,051	110,768	138,022	1,054,731,164	1,027,338,073
Restricted	270,457,619	269,383,288	-	-	270,457,619	269,383,288
Unrestricted	(38,462,676)	(46,924,573)	(1,704,326)	(1,533,225)	(40,167,002)	(48,457,798)
Total Net Position	\$1,286,615,339	\$1,249,658,766	(\$1,593,558)	(\$1,395,203)	\$1,285,021,781	\$1,248,263,563

An additional portion of the District's net position (21 percent) represents resources that are subject to external restrictions on how they may be used. As noted earlier, the deficit balance of (\$40,167,002) reported in unrestricted net position (-3 percent) is primarily the result of the District's unfunded net pension and net OPEB liabilities.

The District's overall net position increased \$36,758,218 from the prior fiscal year. The District experienced a net increase primarily due to increases in charges for services and tax revenues.

Governmental activities. During the current fiscal year, net position for the governmental activities increased the District's net position by \$36,956,573 from the prior fiscal year, thereby accounting for 101 percent of the total increase in net position for the District. Key elements of the increase are as follows:

District's Changes in Net Position

	Governmental Activities		Business-type Activities		Total	
	2021	2020	2021	2020	2021	2020
Revenues:						
Program Revenues:						
Charges for Services	\$17,068,874	\$10,176,693	\$2,172,294	\$1,608,201	\$19,241,168	\$11,784,894

Public Ways and Facilities	84,511,843	72,378,253	-	-	84,511,843	72,378,253
Interest on Long-Term Debt	279,589	392,172	-	-	279,589	392,172
Subdivision Operations	-	-	1,789,037	1,594,555	1,789,037	1,594,555
Photogrammetry Operations	-	-	200,549	167,536	200,549	167,536
Encroachment Permits	-	-	384,111	473,374	384,111	473,374
Total Expenses	92,976,685	80,525,322	2,373,697	2,235,465	95,350,382	82,760,787
Increase (Decrease) in Net Position	36,956,573	39,450,179	(198,355)	(510,643)	36,758,218	38,939,536
Net Position – Beginning, Restated	1,249,658,766	1,210,208,587	(1,395,203)	(884,560)	1,248,263,563	1,209,324,027
Net Position - Ending	\$1,286,615,339	\$1,249,658,766	(\$1,593,558)	(\$1,395,203)	\$1,285,021,781	\$1,248,263,563

- ◆ Historically, ongoing revenues for governmental activities have exceeded expenses as a percentage of net position by approximately less than 1 to 2 percent in a given fiscal year. During the year, ongoing revenues continued to exceed expenses by \$10,191,042 (approximately 1 percent of net position). Overall revenues increased by 8 percent due primarily to an increase in charges for services revenue of 68 percent.

For the most part, increases and decreases in expenses paralleled inflation and growth in the demand for services. Noteworthy exceptions include the following:

- ◆ A decrease in Capital Grants and Contributions revenue of \$2,511,141 (9 percent) associated with a decrease in donated capital assets (infrastructure and land in various zones) being placed in service.
- ◆ An increase in Charges for Services revenue of \$6,892,181 (68 percent) due primarily to the recording of pension income resulting from excess deferred outflows made to decrease overall net pension and net OPEB liabilities.

Expenses and Program Revenues - Governmental Activities

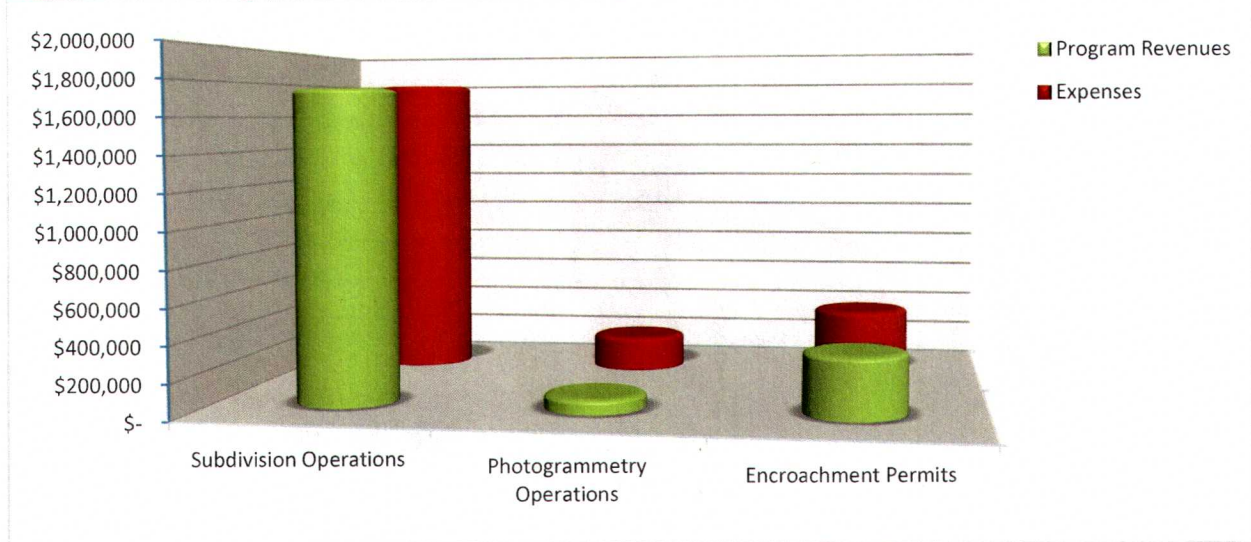

Revenues by Source - Governmental Activities

Business-type activities. Business-type activities decreased the District’s net position by \$198,355. Key elements of the decrease are as follows.

- ◆ Overall charges for services for business-type activities increased by 35 percent while expenses increased by 6 percent from the previous fiscal year. Historically, increases and decreases in charges for services and expenses are development related and will vary based on the level of private development activity within the County of Riverside. Development activity within the Subdivision Operations fund has increased by 44 percent over the past year due to fluctuation in the economy. Normal operating expenses increased by 11 percent due to increased professional service costs associated with the increased development activity that occurred during the fiscal year.

Expenses and Program Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. Restricted, *assigned*, and *unassigned* fund balances may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$274,622,703 an increase of \$1,052,276 in comparison with the prior year. The majority of this total amount (\$269,431,713) constitutes *restricted fund balances*, which reflect resources that are subject to externally enforceable legal restrictions that arise when the authorization to raise revenues is conditioned upon the revenue being used for a particular purpose, e.g., maintenance and construction of flood control facilities within designated zone boundaries. *Unassigned fund balance* (\$3,600,164) reflects surplus resources in the District's general fund that are available for spending at the District's discretion. The remainder of fund balance is *assigned fund balance* (\$1,590,226), which reflects resources that the District intends to use to fund accrued compensated absence liabilities as required, and *nonspendable fund balance* (\$600) for imprest cash.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$3,600,164, while total fund balance reached \$5,190,990. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 48 percent of total general fund expenditures, while total fund balance represents 69 percent of that same amount.

During the current fiscal year, the fund balance in the District's general fund decreased by \$363,041. The decrease in fund balance is primarily a result of increases in expenditures during the current fiscal year. General government expenditures increased by \$2,205,687 primarily due to a reduction in the overhead allocation from the special revenue and enterprise funds through the overhead allocation process.

The special revenue funds account for the following:

- ◆ Revenues and expenditures related to providing flood control facilities maintenance and the design and construction of flood control facilities within defined geographical areas Zone 1 through Zone 7 (zone funds).
- ◆ Revenues and expenditures related to the administration of and compliance with the National Pollutant Discharge Elimination System (NPDES) regulations for the Whitewater, Santa Ana and Santa Margarita benefit assessment areas (NPDES funds).

The zone funds had an aggregate fund balance of \$259,582,348 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year was \$1,144,552. Key factors in the aggregate net increase are as follows:

- ◆ *Zone 1* reported a fund balance of \$41,954,063 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$3,798,956. Property tax and redevelopment revenues account for approximately 98 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 152 percent (\$11,164,335). Overall revenues increased (\$1,607,472) as a result of increases in property tax revenue (\$633,790), redevelopment revenue (\$1,722,724), charges for services (\$53,147), and area drainage fees (\$7,354). These increases offset the decreases in intergovernmental revenue (\$6,983), investment earnings (\$661,572), and use of assets from the lease of land (\$140,988). Additionally, expenditures increased (\$12,785,925) due primarily to expenditures associated with a cooperative agreement with the City of Riverside for the design and construction of the Southwest Monroe Master Drainage Plan Line E, Stage 2 and 3, Line E-2 and Line E-5.

- ◆ *Zone 2* reported a fund balance of \$83,008,974 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$258,844. Property tax and redevelopment revenues account for approximately 98 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 105 percent (\$5,028,510). Overall revenues increased (\$38,340) as a result of increases in property tax revenue (\$1,222,941), redevelopment revenue (\$872,731) and the use of assets from the lease of land (\$159,068). These increases offset the decreases in intergovernmental revenue (\$458,004), charges for services (\$17,596), area drainage fees (\$371,815), and investment earnings (\$1,368,985). Additionally, expenditures decreased (\$4,947,380) due to decreased construction activity within the zone in addition to fewer contributions to other governmental agencies.

- ◆ *Zone 3* reported a fund balance of \$7,940,936 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$382,705. Property tax and redevelopment revenues account for approximately 99 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 119 percent (\$2,345,621). Overall revenues increased (\$1,703,329) as a result of increases in property tax revenue (\$126,676), redevelopment revenue (\$138,897), and charges for services revenue (\$13,045). These increases offset the decreases in special assessments (\$896), intergovernmental revenue (\$1,876,354), and investment earnings (\$104,697). Additionally, expenditures increased (\$667,249) due to construction costs incurred during the current fiscal year for the Ortega Channel Retrofit infrastructure project.

- ◆ *Zone 4* reported a fund balance of \$63,087,096 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$5,998,971. Property tax and redevelopment revenues account for approximately 92 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects a decrease of approximately 44 percent (\$4,807,101). Overall revenues decreased (\$436,338) as a result of decreases in intergovernmental revenue (\$2,916,559), charges for services (\$2,751), investment earnings (\$795,564), and use of assets from the lease of land (\$2,100). These decreases were offset by increases in property tax revenue (\$1,472,194), redevelopment revenue (\$1,371,841), and area drainage fees (\$436,601). Additionally, expenditures increased (\$4,404,551) due primarily to additional discretionary payments made to CalPERS in efforts to reduce the overall net pension and net OPEB liabilities allocated to the zone.

- ◆ *Zone 5* reported a fund balance of \$17,646,189 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$3,479,503. Property tax and redevelopment revenues account for approximately 98 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 220 percent (\$6,381,920). Overall revenues increased (\$574,870) as a result of increases in property tax revenue (\$459,424), redevelopment revenue (\$409,326), and intergovernmental revenue (\$61,419). These increases offset the decreases in charges for services (\$34,515) and investment earnings (\$320,784). Additionally, expenditures increased (\$6,947,357) due primarily to increased construction activity associated with the Banning MDP Line H and Noble Creek Channel projects.

- ◆ *Zone 6* reported a fund balance of \$14,816,914 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$579,655. Property tax and redevelopment revenues account for approximately 94 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 111 percent (\$5,993,669). Overall revenues increased (\$1,067,790) due primarily to increases in property tax revenue (\$315,455), redevelopment revenue (\$702,376), intergovernmental revenue (\$202,459), charges for services (\$13,733), and the use of assets from the lease of land (\$112,001). These increases were offset by the decrease in investment earnings (\$278,234). Additionally, expenditures decreased (\$4,884,104) due primarily to emergency infrastructure repair costs for Palm Canyon Wash that were incurred in the prior fiscal year but not incurred in the current fiscal year.

- ◆ *Zone 7* reported a fund balance of \$31,128,176 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$1,968,246. Property tax and redevelopment revenues account for approximately 94 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects a decrease of approximately 16 percent (\$379,284). Overall revenues increased (\$61,925) as a result of decreases in property tax revenue (\$395,195), redevelopment revenue (\$32,458), area drainage fees (\$83,570), and the use of assets from the lease of land (\$43,200). These increases were offset by decreases in intergovernmental revenue (\$3,405), charges for services (\$37,550), and investment earnings (\$451,543). Additionally, expenditures increased (\$463,800) due primarily to costs incurred for the purchase of land required for the Murrieta Creek Phase II construction project.

The NPDES funds had an aggregate fund balance of \$9,827,627 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year was \$270,303. Key factors in the net increase are as follows:

- ◆ *NPDES Whitewater* reported a fund balance of \$2,612,932 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$245,892. Special assessment revenues account for approximately 42 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 12 percent (\$26,461). Overall revenues decreased (\$4,742) due primarily to a decrease in investment earnings (\$35,673). This decrease was offset by increases in special assessments revenue (\$10,953) and contributions from other governmental agencies (\$19,978). Additionally, expenditures decreased (\$28,784) due largely in part to decreases in professional and operational expenses for the storm water/clean water educational programs.

- ◆ *NPDES Santa Ana* reported a fund balance of \$5,461,417 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$10,195. Special assessment revenues account for approximately 100 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 111 percent (\$105,224). Overall revenues decreased (\$70,985) as a result of the decrease in investment earnings (\$86,787). This decrease was offset by an increase in special assessment revenues (\$15,802). Additionally, expenditures increased (\$38,579) due largely in part to additional discretionary payments made to CalPERS in efforts to reduce the overall net pension and net OPEB liabilities.

- ◆ *NPDES Santa Margarita* reported a fund balance of \$1,753,278 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$34,606. Special assessment revenues account for approximately 28 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 109 percent (\$419,351). Overall revenues increased (\$771,099) as a result of increases in special assessments (\$13,812) and contributions from other agencies (\$787,132). These increases were offset by a decrease in investment earnings (\$29,845). Additionally, expenditures increased (\$357,075) due to increases in professional and operational expenses for the storm water/clean water educational programs. The increases are also attributed to increased additional discretionary payments made to CalPERS in efforts to reduce the overall net pension and net OPEB liabilities.

The nonmajor funds, Flood Control Capital Project Fund and Zone 4 Debt Service Fund, reported an aggregate total fund balance of \$21,738 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year in was \$462. Transfers in are used to offset budgeted capital outlay and debt service costs incurred in any given fiscal year.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide statements, but in more detail.

Unrestricted net position at the end of the year for Subdivision Operations amounted to a deficit of (\$2,183,500) while Photogrammetry Operations reported an unrestricted net position of \$407,529 and the Encroachment Permit Operations reported \$89,739. The total decrease in net position for Subdivision operations was \$28,760. The total decrease in net position for Photogrammetry Operations was \$118,236 and the total decrease for Encroachment Permit Operations was \$44,095. Other factors concerning the finances of these three funds have already been addressed in the discussion of the District's business-type activities.

General Fund Budgetary Highlights

During the year there were no adjustments made between the original and final amended budget increasing general fund appropriations.

Significant budgetary variances between the final amended budget and the actual amounts are a result of the following components:

- ◆ Budgetary estimates for expenditures exceeded total actual expenditures by \$7,985,143. This variance was due primarily to costs budgeted for building improvements to District grounds that were not expended during the fiscal year. There was a 42 percent increase in actual expenditures from the prior year.
- ◆ Estimated revenues exceeded total actual revenues, including transfers in, by \$349,504. This variance was due primarily to a lower than anticipated charges for services revenue received on construction inspection accounts. Budgeted charges for services revenues decreased by 2 percent from the prior year due to decreased design costs incurred by the General Fund.

Capital Assets and Debt Administration

Capital assets. The District’s net investment in capital assets for its governmental and business-type activities as of June 30, 2021, amounts to \$1,54,620,396 (net of accumulated depreciation). This investment of capital assets includes land and easements, construction in progress, infrastructure, land improvements, building and improvements and equipment. The total increase in the District’s investment in capital assets for the current fiscal year was 3 percent.

Major capital asset events during the current fiscal year included the following:

- ◆ Capital assets (infrastructure and land) were donated to the District as a result of prior year development within the County; donated infrastructure and land at the end of the current fiscal year was \$26,303,061.
- ◆ A variety of flood control construction projects which began in the prior fiscal year were completed and new construction began; construction in progress at the end of the current fiscal year was \$41,145,217.
- ◆ A prior period adjustment resulting from the determination that previously capitalized costs for nondepreciable capital assets should have been expensed in a prior year due to the discontinuance of construction on infrastructure related assets.

District’s Capital Assets

	Governmental activities		Business-type activities		Total	
	2021	2020	2021	2020	2021	2020

Total	\$ 1,065,849,711	\$ 1,040,941,695	\$ 110,768	\$ 138,022	\$ 1,065,960,479	\$ 1,041,079,717

Additional information on the District’s capital assets can be found in Note 4 on pages 40-41 of this report.

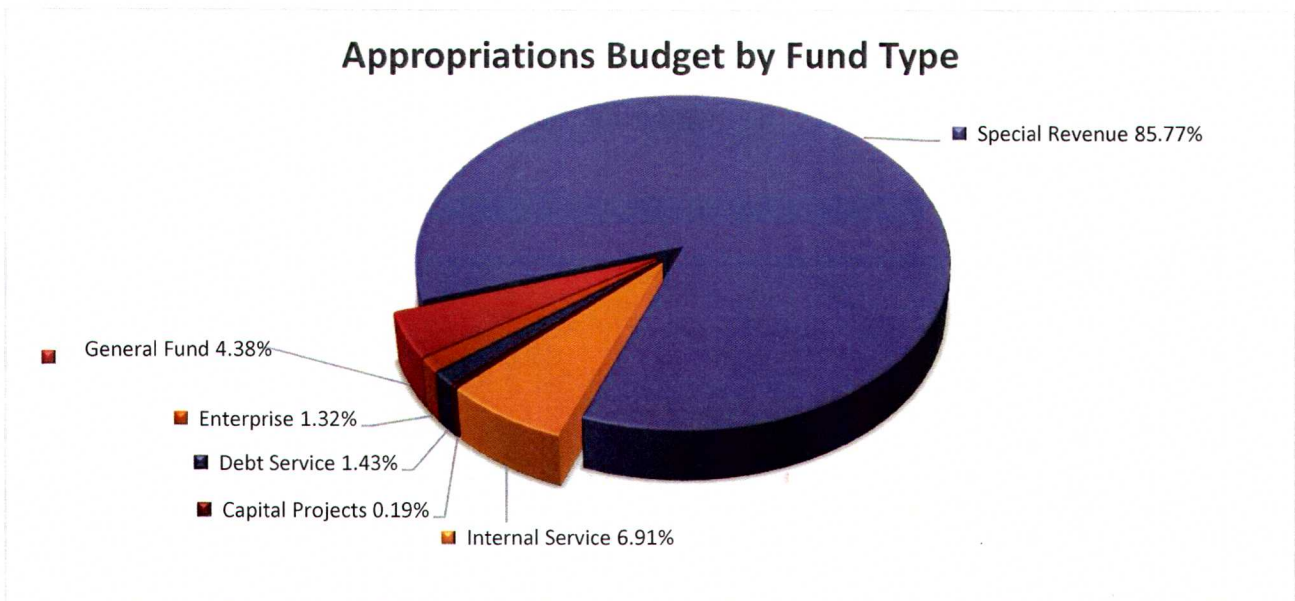

Long-term debt. The District Act limits the amount of general obligation debt the District may issue to the lesser of 3.75 percent of assessed valuation or \$21 million. The District had \$10,260,000 in negotiable promissory notes outstanding at the end of the current fiscal year to finance the construction certain flood control facilities located in Zone 4 of the District, including but not limited to the construction of the Romoland MDP Line A, Stage 4 project. The principal of, premium, and interest on the Notes are payable from the revenues and taxes of Zone 4. Additional information on the District’s promissory notes can be found in Note 5 on page 42 of this report.

Economic Factors and Next Year's Budgets and Rates

The District's principal source of general-purpose revenue is ad valorem property taxes. The estimated property tax revenue for fiscal year 2021-22 is \$78.6 million, an increase of \$4.0 million from the District's fiscal year 2020-21 legally adopted budget. The County Assessor is projecting a 5.0 percent growth in the County assessment valuation for fiscal year 2021-22. The District is taking a conservative approach and is estimating an increase of 3.0 percent in tax revenues for fiscal year 2021-22 based on the County Assessor projections and on actual tax revenue received over the last three years.

The District estimates total revenue of \$117.5 million for fiscal year 2021-22, a decrease of \$8.5 million from fiscal year 2020-21. The Special Revenue Funds revenue is projected to decrease by \$5.4 million due to decreases in Other Agency contributions and FEMA reimbursements in Zone 3 and Contributions from other funds in Zone 4. Fee revenue for the Enterprise Funds is projected to decrease by \$935,000 as a result of anticipated decrease in revenue for plan check fees in the Subdivision Operations fund.

The District's appropriation budget for all funds totals \$197.7 million for fiscal year 2021-22, an increase of \$2.8 million from the District's fiscal year 2020-21 adopted budget. The Zone funds as a group have appropriations of \$163.4 million for fiscal year 2021-22, or 85 percent of the District's total appropriations. This represents a net increase of \$10.4 million from the prior year's budgeted appropriations primarily due to an increase in budgeted salaries, benefits, and infrastructure for District Led Projects in Zone 4.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside, CA 92501.

Riverside County Flood Control and Water Conservation District
Reconciliation of the Governmental Funds Balance Sheet to the
Government-wide Statement of Net Position - Governmental Activities
June 30, 2021

Fund Balances - Total Governmental Funds (Page 20) \$ 274,622,703

Amounts reported for governmental activities in the statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds, net of \$5,044,839 reported in Internal Service Funds. 1,060,804,873

Internal service funds are used by management to charge the costs of hydrology services, garage, project maintenance, and data processing to individual funds. The assets and liabilities of these funds are included in governmental activities in the statement of Net Position, net of \$92,674 allocated to business-type activities. 10,100,304

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the governmental funds balance sheet and should be recognized in the government-wide statement of activities as revenue thereby increasing unrestricted net position in the government-wide statement of Net Position. 1,025,906

Deferred inflows and outflows of resources related to pension and OPEB activity are not reported in the governmental funds but are included in the statement of Net Position.

Deferred outflows of resources	\$ 26,282,162	
Deferred inflows of resources	<u>(385,167)</u>	25,896,995

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.

Net pension liability	(68,654,734)	
Net OPEB liability	(2,129,519)	
Promissory notes, including unamortized premiums	(11,229,316)	
Compensated absences, net of \$137,095 reported in internal service funds	(3,654,206)	
Accrued interest payable	<u>(167,667)</u>	<u>(85,835,442)</u>

**Riverside County Flood Control and Water Conservation District
Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Government-wide Statement of Activities - Governmental Activities
For the Year Ended June 30, 2021**

Net Change in Fund Balances - Total Governmental Funds (Page 24) \$ 1,052,276

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and are charged to depreciation expense.

Expenditures for capital assets, net of \$3,195,941 reported in Internal Service Funds	\$ 16,092,919	
Donation of Capital Assets	23,383,750	
Less current year depreciation, net of \$1,216,614 reported in Internal Service Fund	(13,143,624)	
Loss on Disposal	<u>(3,421,840)</u>	22,911,205

Earned but unavailable revenues reported in the governmental funds balance sheet as deferred inflows of resources should be recognized in the government-wide statement of activities as revenue regardless of availability.

Change in unavailable revenue	<u>(435,738)</u>	(435,738)
-------------------------------	------------------	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental fund.

OPEB expense	1,767,963	
Pension expense	8,813,901	
Change in compensated absences, net of (\$10,913) reported in internal service fund	(316,197)	
Amortization of bond premium	242,328	
Interest Expense	<u>37,833</u>	10,545,828

Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in Net Position of certain internal service funds is reported with governmental activities, net of (\$7,264) allocated to business-type activities.

613,002

The repayment of principal reduces long-term liabilities in the governmental activities statement of net position.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) Reporting Entity

The Riverside County Flood Control and Water Conservation District (the District) was created by an act of the State Legislature on July 7, 1945 to provide financing for the construction and maintenance of flood control facilities. The governing board of the District consists of the same five members of the Board of Supervisors as Riverside County, California, and the Board has the authority to impose its will on the District. Therefore, the District is considered to be a component unit of the County for financial reporting purposes. As required by accounting principles generally accepted in the United States of America, these financial statements present all the fund types of the District.

Riverside County Infrastructure Financing Authority (IFA). The Board is the governing body of the IFA and the County is responsible for all its financial debt. The IFA is a joint exercise of powers authority, duly organized and existing under and pursuant to that certain Joint Exercise of Powers Agreement dated September 15, 2015 by and between the County of Riverside and the District. The IFA is authorized and empowered to issue bonds for the purpose of financing and refinancing public capital improvements of the County.

B) Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the District's activities. These statements include the financial activities of the District. It is the District's policy to make eliminations to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees charged to external parties.

The *statement of activities* presents a comparison between program expenses and program revenues for each segment of the *business-type activities* of the District and for each function of the District's *governmental activities*. *Program expenses* include such direct expenses that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function. *Program revenues* include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as *general revenues*.

When an expense is incurred for a purpose for which both restricted and unrestricted net position are available, management has discretion as to which resources apply. It is the District's policy to use restricted resources before unrestricted resources.

C) Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category – *governmental* and *proprietary* - are presented. The emphasis of the fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Proprietary fund *operating revenues*, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating revenues*, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C) Fund Financial Statements - Continued

The District reports the following as major governmental funds:

- ◆ The *General Fund* is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the District that are not accounted for through other funds. For the District, the General Fund includes such activities as general government and capital outlay.
- ◆ *Zones 1 through 7* are special revenue funds established to account for revenues and expenditures related to providing flood control in each geographical zone. These funds are financed primarily by ad valorem property taxes, developer fees, local cooperative agreements, federal monies, and monies from other local governments.
- ◆ *NPDES Whitewater* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. Primarily the benefit assessment area finances this fund.
- ◆ *NPDES Santa Ana* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. Primarily the benefit assessment area finances this fund.
- ◆ *NPDES Santa Margarita* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. Primarily the benefit assessment area finances this fund.
- ◆ Data from the District's remaining two governmental funds are combined into a single aggregated presentation as *Other Governmental Funds*. Individual fund data for both of these nonmajor governmental funds is provided in the form of combining statements in the supplementary information section.

The District reports the following major enterprise fund:

- ◆ The *Subdivision Operations Fund* accounts for various services needed by developers in the construction of projects within the County. Revenues are primarily for charges for services.

The District reports the following additional fund types:

- ◆ *Internal Service Funds* account for the District's Hydrology Services, Garage, Project Maintenance, and Data Processing, on a cost-reimbursement basis.

D) Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, special assessments, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D) Basis of Accounting - Continued

Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund type financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues and other governmental fund type financial resources are recognized when they become susceptible to accrual - that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes, contracts and other nonexchange transactions are considered available and are accrued when received within sixty days after fiscal year-end. Revenue received from expenditure driven (cost-reimbursement) grants, as defined by GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, are considered available and accrued if expected to be received within twelve months after fiscal year-end.

E) Cash and Investments and Cash and Investments with Fiscal Agents

The District's cash from operations is deposited in the County Treasury. The County pools its funds with other government agencies in the County and invests them as prescribed by the California Government Code and the County of Riverside's Investment Policy. The District's deposits in the County pool may be accessed at any time. The District is allocated interest income on monies deposited with the County based on its proportional share of the pooled investments. All pooled investments and investments with fiscal agent are carried at fair value. The fair value of participants' positions in the pool is not the same as the value of the pooled shares. Restricted cash of \$2,579,176 and \$6,497,519, for governmental and business-type activities respectively, consists mostly of developer and other agency deposits for specific purposes.

In December 1994, the Board of Supervisors created an Investment Oversight Committee to work with the County Treasurer to oversee County investment policies, to include the District. The Committee reviews the County's investment strategy and the status of the County's investments and reports its finding to the Board. The Investment Oversight Committee has reviewed and approved investment policies for funds held outside the County Treasury.

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F) Deferred Outflows/Inflows of Resources

The statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District recognizes deferred outflows of resources on the government-wide financial statements in relation to pensions and other postemployment benefits (OPEB).

The statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District reports an item under this category on the governmental funds balance sheet, under the modified accrual basis of accounting, labeled *unavailable revenue* from two sources: property taxes and special assessments expected to fund the current year but received in a future period. The District also recognizes deferred inflows of resources on the government-wide financial statements in relation to pensions and other postemployment benefits (OPEB).

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

G) Property Taxes

Under California law, property taxes are assessed and collected by counties for up to 1 percent of assessed value, plus other increases as approved by affected voters. Property tax revenues are pooled and then allocated based on assessed valuation. Property taxes on the secured rolls are payable in two installments, November 1 and February 1. Property tax payments become delinquent after December 10 and April 10, respectively.

Remittance of property taxes to the District is accounted for within each appropriate fund. Under the Teeter Plan, the District receives its current-year tax from the County without regard for the delinquency factors.

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

Lien Date	January 1		
Levy Date	July 1 to June 30		
Due Date	November 1	-	1 st Installment
	February 1	-	2 nd Installment
Delinquent Date	December 10	-	1 st Installment
	April 10	-	2 nd Installment

H) Inventories

Inventories, which consist of materials and supplies held for consumption, are valued at the lower of cost (on a first-in, first-out basis) or market in the proprietary funds. Inventories for all governmental funds are valued at average cost. The consumption method is used to account for inventories. Under the consumption method, inventories are recorded as expenditures when consumed rather than when purchased. Material amounts of inventory are reported as assets of the respective fund.

I) Capital Assets

Capital assets, which include property (e.g. land and easements), plant (e.g. buildings, improvements), equipment (e.g. vehicles, computers, office equipment) and infrastructure (e.g. drainage systems, flood control, and similar structures), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary funds statement of net position. Capital assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. The capitalization thresholds are as follows: \$5,000 for equipment, \$1 dollar for buildings (structures), land and land improvements, and \$150,000 for infrastructure.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure:	Flood Channels and Levees	99 years
	Dams/Basins	99 years
	Storm Drains	65 years
Structure and	Buildings	50 years
Improvements:	Building improvements	50 years
Equipment:	Autos, personal computers and equipment valued at less than \$25,000	3 years
	Computer items, small trucks and equipment valued between \$25,000 and \$75,000	5 years
	Large trucks and equipment valued at greater than \$75,000	7 years

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

J) Compensated Absences

Permanent District employees earn from 10 to 20 vacation days annually, depending upon their length of employment, and 12 sick days a year. Employees can carry forward up to a maximum of three times their annual vacation accrual and an unlimited number of sick days for use in subsequent years.

Upon termination or retirement, District employees are entitled to receive compensation at their current salary for all unused vacation time. If an employee retires from the District with at least five years of service, the employee is entitled to receive from 10 percent to 50 percent of the value of any unused sick leave up to 120 days.

K) Long-term Debt

The District reports long-term debt of governmental funds at face value in the government-wide statement of net position. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the government-wide statement of net position. Long-term debt and other obligations financed by the proprietary fund types are reported as liabilities in the appropriate proprietary fund types and in the government-wide statement of net position. Governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued. The premiums, discounts, and deferred gains and losses are reported in the government-wide statement of net position and are amortized over the life of the debt.

L) Operating/Nonoperating Revenues and Expenses

The District defines its operating revenues as revenues derived from charges for services. All other revenue that is not derived directly from charges for services, including interest income and gain/loss on sale of assets, is classified as nonoperating in the accompanying statement of revenues, expenses, and changes in fund net position.

Consistent with the treatment in the accompanying statement of cash flows, all expenses, with the exception of interest expense, are treated as operating expenses on the accompanying statement of revenues, expenses and changes in fund net position.

M) Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

N) Interfund Transactions

Interfund transactions are reflected as loans, provided services, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Provided services, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

O) Net Position/Fund Balances

The government-wide and business-type activities fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- ◆ Net Investment in Capital Assets - This category reports all capital assets, including infrastructure, into one component of net position. Accumulated depreciation reduces the balance in this category. The amount is further reduced by the associated debts, net of unspent debt proceeds.
- ◆ Restricted Net Position - This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- ◆ Unrestricted Net Position - This category represents the net position of the District, not restricted for any project or other purpose.

When expenses are incurred for purposes of which both restricted and unrestricted net positions are available, the District's policy is to apply restricted net position first, then unrestricted net position as needed.

In accordance with Government Accounting Standards Board Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions* and the District's Fiscal Policy F2, Fund Balance Policy, the District classifies governmental fund balances as follows:

- ◆ Nonspendable - includes amounts either not in spendable form, or legally or contractually required to be maintained intact.
- ◆ Restricted - constraints placed on the use of amounts are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- ◆ Committed - includes amount committed for specific purposes by the Board of Supervisors, the District's highest level of decision making authority, by adopting an ordinance prior to the end of the fiscal year to commit fund balance. Amounts classified as "Committed" are not subject to legal enforceability like restricted fund balance; however, those amounts cannot be used for any other purpose unless the Board of Supervisors removes or changes the limitation by taking the same form of action it employed to previously impose the limitation.

Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent year.

- ◆ Assigned - includes amounts, intended by the District, to be used for specific purposes. Amounts are neither restricted nor limited. The Board of Supervisors has, by resolution, delegated the authority to assign amounts to be used for specific purposes to the Finance Director and District management for the purpose of reporting these amounts in the financial statements.
- ◆ Unassigned - includes any remaining amounts after classifying fund balances according to the fund balance categories of nonspendable, restricted, committed and assigned. The general fund is the only governmental fund that reports a positive amount of unassigned fund balance. However, if a governmental fund other than the general fund were to have nonspendable, restricted, and committed fund balance in excess of total fund balance, the difference would be reported as negative unassigned fund balance.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

O) Net Position/Fund Balances - Continued

Fund Balance Spending Order

Unless legal requirements disallow it, the District will spend the most restricted dollars before less restricted in the following order: (1) Nonspendable (if the funds become spendable), (2) Restricted, (3) Committed, (4) Assigned, (5) Unassigned.

Minimum Fund Balance Policy for Governmental Funds

The following minimum fund balance guidelines for governmental funds have been established by the District's Fiscal Policy F2, Fund Balance Policy, to ensure a sufficient level of fund balance is maintained for unanticipated expenditures, delays in revenue receipt, or revenue shortfalls:

◆ Unrestricted Fund Balance - General Fund

The District shall achieve an unrestricted fund balance in its General Fund equal to a minimum of 66 percent of General Fund expenditures. The District will annually evaluate the minimum fund balance provisions and make adjustments according to an assessment of current events and circumstances as well as changing forecasts, projections and other related risks.

The District has established a contingency account and budgets the minimum assigned fund balance in the General Fund with the recommended budget submitted to the Board of Supervisors for approval each fiscal year. Should the minimum fund balance drop below the prescribed level, the District will develop a plan to replenish the minimum fund balance within two years and include the plan with the recommended budget submitted to the Board of Supervisors for approval in the following budget year.

P) Developer and Other Agency Deposits

Developer and other agency deposits are deposits made by developers and other governmental agencies to support services or work performed by the District on behalf of said developers and governmental agencies. Revenue is recognized when it is earned and the liability is decreased accordingly.

Q) Pensions

The pension expense is for the measurement period of 2019-20 and the net pension liability is measured as of June 30, 2020. Liabilities are based on the results of the actuarial calculations performed as of June 30, 2019 and were rolled forward to June 30, 2020.

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and addition to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms.

Investments are reported at fair value. Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Q) Pensions - Continued

Other gains and losses related to changes in total pension liability and fiduciary net position are recognized as pension expenses over time. They are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits as of the beginning of the measurement period.

R) Other Postemployment Benefits (OPEB)

For the purposes of measuring the net OPEB liability, deferred outflows or resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	July 1, 2020
Measurement Date	June 30, 2020
Measurement Period	July 1, 2019 to June 30, 2020

S) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

Governmental Accounting Standards Board Statement No. 87

In June of 2017, GASB issued Statement No. 87, *Leases*. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources based on the payment provisions of the contract. Statement No. 87 are effective for reporting periods beginning after June 15, 2021. The District has elected not to early implement GASB No. 87 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 91

In December of 2020, GASB issued Statement No. 91, *Conduit Debt Obligations*. This statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with commitments extended by the issuers. Statement No. 91 are effective for reporting periods beginning after December 15, 2021. The District has not determined its effect on the District's financial statements.

2) CASH AND INVESTMENTS

Cash and investments totaled \$303,484,436 as of June 30, 2021. Each fund's portion of this total is reflected in the financial statement accounts entitled "Cash and Investments", "Cash and Cash Equivalents", and "Restricted Cash".

All District cash and investments are on deposit with the County Treasurer with the exception of imprest cash on hand.

The County Treasurer maintains the County's Pooled Investment Fund pursuant to the California Government Code and the County Treasurer's Statement of Investment Policy. Portfolio income, including gains and losses, are distributed quarterly. All investment income is distributed prorata based upon each participant's average daily cash balance for the

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

2) CASH AND INVESTMENTS - Continued

calendar year except for specific investments in which the interest income is to be credited directly to the fund from which the investment was made.

Investments related to the County's Pooled Investment Fund are restricted to those authorized in the California Government Code and the County Treasurer's Statement of Investment Policy. Investments and related credit, custodial credit, concentration of credit, interest rate and foreign currency risks associated with the County's Pooled Investment Funds are disclosed in Riverside County's basic financial statements.

The primary objectives of the Treasurer's investment of public funds are noted in order of priority as follows: to safeguard investment principal, to maintain sufficient liquidity within the portfolio to meet daily cash flow requirements, and to achieve a reasonable rate of return or yield on the portfolio.

Total District cash and investments at fair value are reported as follows:

Cash and Investments:	
Cash With and Pooled by the County Treasury	\$ 303,483,836
Imprest Cash Held at the District	600
Total Cash and Investments	\$ 303,484,436

Total District cash and investments at fair value are reported by the following activities:

Cash and Investments Summary:	
Total Governmental Activities	\$ 296,487,884
Total Business-type Activities	6,996,552
Total Cash and Investments	\$ 303,484,436

A) Investments

Investments are governed by the District's Investment Policy Statement, the California Government Code, the particular bond indenture, Board of Supervisors' Resolution, and the Fiscal Agent agreement.

State statutes and the District's Investment Policy Statement authorize the District to invest in the following investment categories:

- ◆ Obligations of the U.S. Treasury Notes
- ◆ Federal agencies
- ◆ A U.S. Government-sponsored enterprise
- ◆ The State of California
- ◆ Local government agencies
- ◆ Commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record
- ◆ Bankers' acceptances
- ◆ Repurchase agreements
- ◆ Reverse repurchase agreements
- ◆ Guaranteed investment contracts
- ◆ Bond anticipation notes
- ◆ Corporate bonds
- ◆ Negotiable certificates of deposits issued by national and State licensed banks, chartered banks, or Federal/State savings and loan associations.

Notes to the Financial Statements
For the Year Ended June 30, 2021

2) CASH AND INVESTMENTS – Continued

Investments Authorized by Debt Agreements. Investments of debt proceeds held by bond trustee (Fiscal Agent) are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy.

B) Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates that will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The County Treasurer manages exposure to declines in the market value of the Pooled Investment fund portfolio by maintaining a weighted average days to maturity (WAM) of less than 541 days or 1.5 years in accordance with the County Treasurer's Statement of Investment Policy. As of June 30, 2021, the WAM for the Pooled Investment fund portfolio was 1.15 years. Additionally, the County Treasurer maintains at least 40 percent of the portfolio's total value in securities having maturities of 1 year or less to provide sufficient liquidity to meet daily expenditure requirements. Investments held by Fiscal Agents have a maturity of 1 year or less.

As noted in the County Treasurer's Investment Fund Monthly Report for June 2021, the Pooled Investment fund was rated: Aaa-bf by Moody's Investor Service and AAAs/S1 by Fitch Ratings.

C) Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The California Government Code and the District's Investment Policy Statement do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of the pledged securities in the collateral pool must equal at least 110

C) Custodial Credit Risk – Continued

percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits.

D) Credit Risk

The District's Investment Policy Statement sets forth the minimum acceptable credit ratings for investments from the following nationally recognized statistical rating organizations. For an issuer of short-term debt, the rating must be no less than A-1 (Standard & Poor's) and P-1 (Moody's). For an issuer of long-term debt, the rating must be no less than an "A". At June 30, 2021, the credit rating of the District's investments pursuant to the District's Investment Policy Statement was AA for Standard & Poor's.

E) Concentration of Credit Risk

As previously stated, the District's Investment Policy Statement is limited solely to the proceeds of bonds issued by the District and therefore does not address limitations with regards to pool funds. At June 30, 2021, there were no investments that constitute a concentration of credit risk.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

3) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The amounts due to/from other funds as of June 30, 2021 are as follows:

Receivable Fund	Payable Fund	Amount
Zone 1	FC Capital Project Fund	\$ 31,663
Zone 2	FC Capital Project Fund	69,998
Zone 3	FC Capital Project Fund	7,501
Zone 4	FC Capital Project Fund	37,465
Zone 5	FC Capital Project Fund	16,054
Zone 6	FC Capital Project Fund	17,327
Zone 7	FC Capital Project Fund	22,180
FC Capital Project Fund	General Fund	202,188
Total Due To/From Other Funds		<u>\$ 404,376</u>

These interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various District operations and re-allocations of special revenues. The following schedule briefly summarizes the District's transfer activity (in thousands):

Transfer From	Transfer To	Amount	Purpose
Operating or Debt Subsidy:			
Zone 1	General Fund	\$ 57,343	Funded Leave Balance
Zone 2	General Fund	67,097	Funded Leave Balance
Zone 3	General Fund	10,964	Funded Leave Balance
Zone 4	General Fund	80,314	Funded Leave Balance
Zone 5	General Fund	32,723	Funded Leave Balance
Zone 6	General Fund	29,809	Funded Leave Balance
Zone 7	General Fund	33,287	Funded Leave Balance
NPDES Whitewater	General Fund	4,752	Funded Leave Balance
NPDES Santa Ana	General Fund	16,972	Funded Leave Balance
NPDES Santa Margarita	General Fund	11,717	Funded Leave Balance
NPDES Santa Ana	General Fund	\$ 5,518	Transfer of Cash to Purchase Asset
Zone 4	Other Governmental Funds	<u>2,829,750</u>	Transfer of Cash to Process Debt Service Payment
Total Transfers		<u>\$ 3,180,246</u>	

The internal balances on the government-wide statement of net position are created by the allocation of internal service fund activity to business-type activities.

4) CAPITAL ASSETS - Continued

Internal Service Funds predominantly serve the governmental funds. Accordingly, their capital assets are included within governmental activities. Capital asset activity for Internal Service Funds for the year ended June 30, 2021 was as follows:

	Beginning Balance	Additions	Retirements	Ending Balance
<u>Internal Service Funds:</u>				
<i>Capital Assets, Depreciable</i>				
Buildings and Improvements	\$ 12,181	\$ -	\$ -	\$ 12,181
Equipment	15,629,530	3,213,425	(1,612,031)	17,230,924
Total Capital Assets, Depreciable	<u>15,641,711</u>	<u>3,213,425</u>	<u>(1,612,031)</u>	<u>17,243,105</u>
Less Accumulated Depreciation for:				
Buildings and Improvements	(7,187)	(244)	-	(7,431)
Equipment	(12,586,496)	(1,216,370)	1,612,031	(12,190,834)
Total Accumulated Depreciation	<u>(12,593,683)</u>	<u>(1,216,614)</u>	<u>1,612,031</u>	<u>(12,198,265)</u>
Internal Service Funds Capital Assets, Net	<u>\$ 3,048,028</u>	<u>\$ 1,996,811</u>	<u>\$ -</u>	<u>\$ 5,044,839</u>

Depreciation expense was charged to governmental functions as follows:

General Government	\$ 333,985
Public Ways and Facilities	12,809,638
Depreciation on capital assets held by the District's internal service funds is charged to the various functions based on their usage of the assets.	1,216,614
Total Depreciation Expense - Governmental Functions	<u>\$ 14,360,237</u>

Depreciation expense was charged to the business-type functions as follows:

Other Enterprise Funds	\$ 27,254
Total Depreciation Expense - Business-type Functions	<u>\$ 27,254</u>

Replacement of Capital Assets

In accordance with District rate methodology, a balance of resources has been accumulated in the proprietary fund financial statements for the replacement of District capital assets. As of June 30, 2021, the balance of resources amounted to \$2,000,000 and is reflected in Unrestricted Net Position.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

5) LONG-TERM OBLIGATIONS

The following is a summary of long-term liability transactions for the year ended June 30, 2021:

	Beginning Balance	Additions	Retirements	Ending Balance	Amounts Due Within One Year
Governmental activities:					
Compensated Absences	\$ 3,464,191	\$ 899,519	\$ (572,409)	\$ 3,791,301	\$ 692,598
Promissory Note	12,530,000	-	(2,270,000)	10,260,000	2,380,000
Promissory Note Premium	1,211,644	-	(242,328)	969,316	-
Net OPEB Liability	678,319	2,132,366	(681,166)	2,129,519	-
Net Pension Liabilities	71,173,138	18,024,107	(20,542,511)	68,654,734	-
Total Governmental Activities - Long-term Liabilities	<u>\$ 89,057,292</u>	<u>\$ 21,055,982</u>	<u>\$ (24,308,414)</u>	<u>\$ 85,804,870</u>	<u>\$ 3,072,598</u>
Business-type activities:					
Compensated Absences	\$ 62,926	4,024	(7,911)	\$ 59,039	\$ 10,785
Net Pension Liabilities	2,348,552	265,227	(302,286)	2,311,493	-
Total Business-type Activities - Long-term Liabilities	<u>\$ 2,411,478</u>	<u>\$ 269,251</u>	<u>\$ (310,197)</u>	<u>\$ 2,370,532</u>	<u>\$ 10,785</u>

For the governmental activities, compensated absences, OPEB liability and net pension liabilities are generally liquidated by the general fund.

Promissory Notes

On June 25, 2015, the District issued the Zone 4 2015 Negotiable Promissory Notes to fund certain flood control facilities located in Zone 4 of the District, including but not limited to construction of the Romoland MDP Lina A, Stage 4 for Zone 4 and certain expenses incidental thereto. The principal and interest on the Notes are payable from the revenues and taxes of Zone 4 ("Zone 4 Revenues"). The Notes are further secured by a first lien and specific pledge of the Zone 4 Revenues as the Zone 4 Revenues are received, except that any Zone 4 Revenues not needed for debt services on the Notes in any fiscal year will be available to the District for any lawful purpose. The Notes are not subject to optional redemption prior to maturity.

The Promissory Notes were issued in aggregate principal amount of \$21,000,000 plus an original issue premium \$2,423,284. The Notes are to be repaid at an interest rate between 2.0% and 5.0%. As of June 30, 2021, the outstanding notes payable totaled \$10,260,000 and the unamortized premium amounted to \$969,316.

The annual debt service repayment schedule for the Zone 4 2015 Negotiable Promissory Notes as of June 30, 2021 is as follows:

Fiscal Year (June 30)	Principal	Interest	Total
2022	2,380,000	443,500	2,823,500
2023	2,500,000	321,500	2,821,500
2024	2,625,000	193,375	2,818,375
2025	2,755,000	63,875	2,818,875
Total	<u>\$ 10,260,000</u>	<u>\$ 1,022,250</u>	<u>\$ 11,282,250</u>

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

6) SELF-INSURANCE PROGRAM

The District participates in the County's self-insurance program. The County is self-insured for public liability, property damage, long-term and short-term disability, medical malpractice, unemployment and workers' compensation. The County records estimated liabilities for such claims filed or estimated to be filed for incidents that have occurred. The County supplements its self-insurance for long-term disability and workers' compensation with insurance policies. The insurance carrier pays all long-term disability payments exceeding the first two years of coverage.

The maximum coverage under the workers' compensation policy is \$500,000 per claim, and there is no deductible. The County allocates an annual premium to the District based on current payroll costs and an experience modification. The annual premium to the District in fiscal year 2021 was \$532,223.

In the past three fiscal years, the District has not experienced settlements or judgements that exceeded the self-insured coverage.

7) RETIREMENT PLAN

A) Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. State statutes within the Public Employees' Retirement Law establish a menu of benefit provisions as well as other requirements. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. CalPERS issues a separate comprehensive annual financial report. However, a report for the District's plan within CalPERS is not available.

Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office - 400P Street, Sacramento, CA 95814 or an electronic version may be obtained at CalPERS' website under Forms and Publications.

B) Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. At service retirement, a monthly allowance equal to the product of the benefit factor, years of service, and final compensation is paid to the retiree in the form of an annuity. A classic CalPERS member, an employee hired prior to January 1, 2013 becomes eligible for service retirement upon attainment of age 50 with at least 5 years of credited service with a benefit formula of 3% at 60. A classic CalPERS member, hired on or after August 23, 2012 has a modified retirement formula of 2% at 60. A PEPR member, an employee hired after January 1, 2013, will be eligible for service retirement at age 55 with at least 5 years of service with a benefit formula of 2% at 62.

C) Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

7) RETIREMENT PLAN – Continued

C) Contribution Description – Continued

unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the fiscal year ended June 30, 2021 the average active employee contribution rate is 7.441 percent of annual covered salary and the District's contribution rate is 11.207 percent of annual payroll. The District made contributions to CalPERS of \$19,468,310 for the fiscal year ended June 30, 2021. Included in this contribution was the District's required contribution of \$6,890,672 and an additional contribution towards the District's unfunded liability of \$12,577,638.

D) Net Pension Liability

The District's net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 with a roll-forward adjustment to June 30, 2020.

E) Actuarial Assumptions

For the measurement period ended June 30, 2020 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2019 total pension liability. The June 30, 2020 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry age normal
Actuarial Assumptions	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.15% Net of Pension Plan Investment and Administrative Expenses; includes Inflation
Payroll Growth	2.875%
Mortality Rates	The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Pre-retirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries.
Post Retirement Benefit Increase	The lesser of contract COLA or 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

F) Change of Assumptions

Demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate.

G) Discount Rate

The discount rate used to measure the total pension liability was 7.15% percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% percent discount rate is appropriate, and the use of the municipal bond rate calculation is not necessary. The

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

7) RETIREMENT PLAN – Continued

G) Discount Rate – Continued

long-term expected discount rate of 7.15% percent is applied to all plans in the Public Employees Retirement Fund.

The stress test results are presented in a detailed report called “GASB Crossover Testing Report” that can be obtained at CalPERS’ website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds’ asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1-10</u>	<u>Real Return Years 11+</u>
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92%)

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements

H) Net Pension Liability

The changes in the Net Pension Liability are as follows:

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability/(Asset)
<u>Balance at Valuation Date of 7/1/2019:</u>	\$ 209,823,972	\$ 136,302,282	\$ 73,521,690
<i>Changes During the Measurement Period:</i>			
Service Cost	3,019,876	-	3,019,876
Interest on the Total Pension Liability	14,738,030	-	14,738,030
Changes of Assumptions	-	-	-
Differences between Expected and Actual Experience	339,275	-	339,275
Net Plan to Plan Resource Movement	-	-	-
Contributions from the Employer	-	12,731,388	(12,731,388)
Contributions from the Employee	-	1,306,590	(1,306,590)
Net Investment Income	-	6,806,819	(6,806,819)
Benefit Payments	(11,093,800)	(11,093,800)	-
Administrative Expense	-	(192,153)	192,153
Other Miscellaneous Income/(Expense)	-	-	-
Net Changes	7,003,381	9,558,844	(2,555,463)
<u>Balance at Measurement Date of 6/30/2020:</u>	<u>\$ 216,827,353</u>	<u>\$ 145,861,126</u>	<u>\$ 70,966,227</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percent-point higher (8.15 percent) than the current rate:

	Discount Rate – 1% (6.15 %)	Discount Rate (7.15 %)	Discount Rate + 1% (8.15 %)
Plan's Net Pension Liability/ (Asset)	\$ 99,450,399	\$ 70,966,227	\$ 47,431,651

I) Pension Plan Fiduciary Net Position

Detailed information about the CalPERS pension plan Fiduciary Net Position is available in a separately issued financial report. That report may be obtained at CalPERS' website under Forms and Publications.

Notes to the Financial Statements
For the Year Ended June 30, 2021

7) RETIREMENT PLAN - Continued

J) Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the District recognized pension expense of \$10,780,388. At June 30, 2021, the District reported deferred inflows of resources of related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Contributions Subsequent to Measurement Date	\$19,468,310	\$ -
Changes of Assumptions		(211,583)
Differences between Expected and Actual Experience	1,454,656	(185,990)
Net Difference between Projected and Actual Earnings on Pension Plan Investments	1,168,538	-
Total	\$ 22,091,504	\$ (397,573)

\$19,468,310 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in future pension expense as follows:

Measurement Period Ended June 30:	Deferred Outflows/(Inflows) of Resources
2021	(143,508)
2022	972,195
2023	791,313
2024	605,621
2025	-
Thereafter	-
	<u>\$ 2,225,621</u>

K) Recognition of Gains and Losses

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings	5 year straight-line amortization
All other amounts	Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

7) RETIREMENT PLAN – Continued

K) Recognition of Gains and Losses – Continued

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired).

The EARSL for the Plan for the June 30, 2020 measurement period is 3.6 years, which was obtained by dividing the total service years of 2,256 (the sum of remaining service lifetimes of the active employees) by 634 (the total number of participants: active, inactive, and retired).

L) Employees Covered

At June 30, 2019, the following employees were covered by the CalPERS Plan:

Active employees	211
Inactive employees or beneficiaries currently receiving benefits	276
Inactive employees entitled to, but not yet receiving benefits	147
Total	634

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

A) Plan Description

The District participates in the County’s program that provides retiree medical benefits for eligible retirees enrolled in County-sponsored and administered retiree medical plans. The postemployment benefit plan is an agent multiple employer defined benefit post-employment healthcare plan (OPEB Plan). Benefit provisions are established and amended through negotiations between the County and the respective unions. All employees who retire from active employment after age 50 with 5 years of District service (and are immediately eligible for CalPERS pension benefits) are eligible to participate. Former employees eligible for CalPERS pension benefits but who are not eligible for retirement at termination of employment are not eligible for retiree health benefits. As of June 30, 2021, 71 District employees meet the age eligibility requirements, 60 of which will be covered upon retirement while the remaining 11 will qualify upon reaching 5 years of service. Another 91 employees have sufficient time in service to qualify for these benefits upon retirement after age 50.

The District provides retirees access to the same medical coverage as active participants. Prior to age 65, the retiree premiums are the same as active premiums and are developed by blending active and retiree costs. This benefit ceased on January 1, 2011. Currently, all retirees are required to pay “retiree only” (i.e. unblended) premium rates. Participants who retired prior to January 1, 2009 were eligible for this benefit. After age 65, retiree premiums are based exclusively on retiree costs.

The District has established a qualified Internal Revenue Code Section 115 trust with the California Employers’ Retiree Trust (CERBT) to administer the assets of retiree medical plan benefits for District employees. The CERBT issues a publicly available financial report that includes financial statements and required supplementary information related to the established trust. The report may be obtained from CalPERS Employer Services Division, P.O. Box 942709, Sacramento, CA 94229-2709.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS – Continued

B) Employees Covered

As of the June 30, 2020 actuarial valuation, the following current and former employees were covered by the benefit terms under the OPEB Plan:

Active employees	225
Inactive employees or beneficiaries currently receiving benefits	50
<u>Inactive employees entitled to, but not yet receiving benefits</u>	<u>-</u>
Total	<u>275</u>

C) Contributions

The District contributes a portion of an eligible retiree’s medical plan premium under a County sponsored health plan (either at retirement or during a subsequent annual enrollment) for the retiree’s lifetime. The current monthly amount paid by the District ranges from \$25 - \$256, depending on the retiree’s bargaining unit at retirement. These amounts do not increase in future years to account for inflation.

This year the District provided the SEIU bargaining group access to CalPERS health plans, which have higher costs and participation rates that result in an increase in liability. There is a liability of \$2,129,519 to the District for providing these benefits.

The District made a pre-funding contribution of \$2,000,000 to the Plan prior to June 30, 2021 in recognition of the increase in the Actuarial Accrued Liability.

D) Net OPEB Liability

The District’s net OPEB liability was measured as of June 30, 2020 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2020 based on the following actuarial methods and assumptions:

Actuarial Valuation Date	July 1, 2020
Actuarial Cost Method	Entry Age Normal with Amortization of 7/1/2017 unfunded liability over a period ending 6/30/2037 and amortization of subsequent unanticipated changes in unfunded liability over 15-year periods and any asset gain/loss over 5-year periods.
Asset Valuation Method	Market Value
Discount Rate	6.45%
Investment Rate of Return	6.45%, net of OPEB plan investment expense, including inflation
Projected Salary Increases	2.75%
Retirement Age	Retirement rates developed in the 2017 CalPERS Experience Study
Healthcare Cost Trend Rate	The Healthcare Cost Trend Rate is not applicable because the total cost of health benefits is not valued. Only the monthly benefit provided is valued using the assumption that no future increase will be granted to the amount.
Mortality	Pub-2010 Headcount-Weighted Public Retirement Plans Mortality Tables using scale MP-2020
Inflation Rate	2.50%

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

D) Net OPEB Liability - Continued

The long-term expected rate of return on OPEB plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Target Range
Global Equity	59%	± 5%
Global Fixed Income	25%	± 5%
Treasury Inflation-Protected Securities (TIPS)	5%	± 3%
Real Estate Investment Trusts (REITs)	8%	± 5%
Commodities	3%	± 3%

E) Discount Rate

The discount rate used to measure the total OPEB liability was 6.45%. The projection of cash flows used to determine the discount rate assumed that the District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

F) Changes in the OPEB Liability

The changes in the net OPEB liability are as follows:

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability/(Asset)
<u>Balance at 06/30/2019:</u>	\$ 1,251,235	\$ 572,916	\$ 678,319
<i>Changes During the Measurement Period:</i>			
Service Cost	20,416	-	20,416
Interest on the Total OPEB Liability	77,005	-	77,005
Changes of Benefit Terms	-	-	-
Difference Between Expected and Actual Experience	123,548	-	123,548
Changes of Assumptions	1,911,061	-	1,911,061
Benefits Payments	(68,284)	(68,284)	-
Contributions From the Employer	-	618,284	(618,284)
Net Investment Income	-	62,882	(62,882)
Administrative Expense	-	(336)	336
Net Changes	<u>\$2,063,746</u>	<u>\$612,546</u>	<u>\$1,451,200</u>
<u>Balance at Measurement Date of 6/30/2020:</u>	<u>\$3,314,981</u>	<u>\$1,185,462</u>	<u>\$2,129,519</u>

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

8) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

G) Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following table illustrates the impact of interest rate sensitivity on the Net OPEB Liability for the measurement period ended June 30, 2021:

	Discount Rate – 1% (5.45%)	Discount Rate (6.45 %)	Discount Rate + 1% (7.45 %)
Net OPEB Liability/ (Asset)	\$2,644,565	\$2,129,519	\$1,714,760

The following table illustrates the impact of healthcare cost trend sensitivity on the Net OPEB Liability for the measurement period ended June 30, 2021:

	Trend Rate – 1%	Trend Rate	Trend Rate + 1%
Net OPEB Liability/ (Asset)	\$1,670,897	\$2,129,519	\$2,712,451

Annual Medical Inflation (“Trend”) – All District contributions are assumed to remain at the current level.

H) OPEB Plan Fiduciary Net Position

CalPERS issues a publicly available financial report that may be obtained from the from the CalPERS Executive Office - 400P Street, Sacramento, CA 95814 or an electronic version may be obtained at CalPERS’ website under Forms and Publications.

I) Recognition of Deferred Outflows and Deferred Inflows of Resources

For the year ended June 30, 2021, the District recognized OPEB expense of \$ 345,117. At June 30, 2021, the District reported deferred inflows of resources of related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Actual and Expected Experience	\$ 158,034	\$ -
Net Difference Between Expected and Actual Earnings on OPEB Plan Investments	-	16,953
Assumption Changes	2,259,038	1,258
Contributions Made Subsequent to Measurement Date	2,087,651	-
Total	\$4,504,723	\$ 18,211

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in future OPEB expense as follows:

Measurement Period Ended June 30:	Deferred Outflows/(Inflows) of Resources
2022	288,532
2023	286,592
2024	285,146
2025	286,621
2026	289,498
Thereafter	962,472
	\$ 2,398,861

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2021

9) CONTINGENCIES AND COMMITMENTS

Lawsuits and Other Claims

The District is named in various legal actions. Management believes that the ultimate resolution of these actions will not have a significant effect on the District's financial position, results or operations. The estimated amount of remaining construction contract obligations at year-end is \$520,450.

10) UNRESTRICTED NET POSITION DEFICIT

GASB 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, requires the reporting of the District's unfunded pension liability resulting in the government-wide financial statements reporting a deficit unrestricted net position of \$40,167,002 for the year ended June 30, 2021.

Riverside County Flood Control and Water Conservation District Notes to Required Supplemental Information

BUDGETARY COMPARISON SCHEDULES

In accordance with the provisions of the State of California, County Budget Act, Government Code Sections 29000-29144 and Section 30200, the District prepares and adopts a budget under the supervision and control of the Riverside County, Board of Supervisors (the Board) on or before August 30 for each fiscal year. Budgets are adopted for the General fund and Special Revenue funds and are prepared on the modified accrual basis of accounting in conformity with generally accepted accounting principles.

As adopted by the Board, the District controls expenditures at the class or appropriation level within each category presented on the financial statements as follows:

- General Government
- Public Ways and Facilities
- Capital outlay
- Debt service payments for principal and interest
- Transfers

Encumbrances are commitments related to contracts executed for goods or services. Encumbrances are recorded for budgetary control and accountability purposes in the General and Special Revenue funds. Any outstanding encumbrances at year-end represent the estimated amount of expenditures that may result if the contracts in progress at year-end are completed. If the District has recorded these outstanding contracts in the next fiscal year's budget then encumbrances are not recorded. The unencumbered balances (appropriations less expenditures and encumbrances) lapse at year-end.

Any deficiency of budgeted revenues and other financing sources compared to expenditures and other financing uses is financed by beginning available fund balances as provided for in the State of California, County Budget Act.

**Riverside County Flood Control and Water Conservation District
Notes to Required Supplemental Information**

The *General Fund* is available for any authorized purpose and is used to account for all financial resources except for those accounted for in other funds.

Riverside County Flood Control and Water Conservation District Special Revenue Funds

Zone 1: This special revenue fund represents District Zone 1. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 2: This special revenue fund represents District Zone 2. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 3: This special revenue fund represents District Zone 3. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 4: This special revenue fund represents District Zone 4. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 5: This special revenue fund represents District Zone 5. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 6: This special revenue fund represents District Zone 6. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 7: This special revenue fund represents District Zone 7. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

NPDES – Whitewater: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. A benefit assessment area primarily finances this fund.

NPDES – Santa Ana: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. A benefit assessment area primarily finances this fund.

NPDES – Santa Margarita: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. A benefit assessment area primarily finances this fund.

**Riverside County Flood Control and Water Conservation District
Non-Major Enterprise Funds**

Photogrammetry Operations Fund: This fund was established to account for revenues and expenses related to surveying and mapping services performed within the County of Riverside by the Photogrammetry section. Surveying and mapping services are provided to other governmental agencies, private enterprises and individuals.

Encroachment Permits Fund: This fund was established to account for revenue and expenses related to encroachment permit services performed by the Encroachment Permit section. These services are provided to other governmental agencies, developers and individuals. Governmental agencies, developers and individuals must obtain an encroachment permit from the District to gain temporary access to flood control facilities for purposes of completing other construction projects not sponsored by the District.

Riverside County Flood Control and Water Conservation District Internal Service Funds

Hydrology Services Fund: This fund was established to account for revenues and expenses related to hydrological information services performed by the Hydrology section. These services are provided to support zone projects and are charged to the special revenue funds on a cost reimbursement basis.

Garage Fund: This fund was established to account for revenue and expenses related to the operation and maintenance of the District's vehicles. Garage services are provided to support the fleet of vehicles and heavy equipment needed to maintain flood control facilities. These services are charged to all District funds on a cost reimbursement basis.

Project Maintenance Fund: This fund was established to account for revenues and expenses related to the maintenance of the District's flood control facilities. Project maintenance services include weed abatement, repair and preventative maintenance of flood control facilities. These services are charged to the special revenue funds on a cost reimbursement basis.

Mapping Services Fund: This fund was established to account for revenues and expenses related to mapping services performed by the Mapping section. These services are provided to support zone projects and are charged to the special revenue funds of the District.

Data Processing Fund: This fund was established to account for revenues and expenses related to data processing services performed by the Information Technology section. Data processing services include software system support for the computer network, data structure design and organization of the District computer systems. These services are charged to all District funds on a cost reimbursement basis.

STATISTICAL SECTION

CONTENTS

<i>Financial Trends</i>	90
<i>These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.</i>	
<i>Revenue Capacity</i>	99
<i>These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.</i>	
<i>Debt Capacity</i>	105
<i>These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.</i>	
<i>Demographic and Economic Information</i>	110
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.</i>	
<i>Operating Information</i>	113
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.</i>

Source: Assessor Annual Report - County of Riverside. Assessed Valuations are reported for all of Riverside County. Property in the county is reassessed annually. The county assesses property at 100 percent of actual value.

Notes: Property in the county is reassessed annually. The county assesses property at 100 percent of actual value, subject to the limitations of Prop 13, for all types of real and personal property. Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

¹ Includes tax exempt property
