BACKGROUND:

Summary

The Board of Supervisors approved Resolutions Nos, 2021-056 (April 20, 2021; Agenda Item 3.6) and 2021-153 (July 27, 2021; Agenda Item 3.21) establishing their intent to form a Temecula Valley Wine Country Enhanced Infrastructure Financing District (EIFD). The County has met the requirements of Government Code Sections 53398.50 through 53398.88 (EIFD law); however, when coordinating the filing with the State Board of Equalization (SBOE), the department was notified that a full metes and bounds and mapping would be required by December 1, 2021, in order to complete the project. An extension of time was subsequently negotiated with SBOE, with a revised required completion date of December 31, 2021.

The Tax-Rate Area System is administered by the SBOE and used by counties for the proper allocation of property tax revenues between counties, cities, and special tax districts. The requirements and fees are filed pursuant to sections 54900 through 54903 of the Government Code.

Hess Development, Inc. was selected to complete the required metes and bounds because they were able to meet the strict timeline of a one-month turn around while providing the lowest reasonable costs for the scope of work required.

STATE OF CALIFORNIA**

Impact on Residents and Businesses

The establishment of the EIFD and subsequent filing with the SBOE will not result in any new taxes or fees to property owners. Increase in property value from resale and development of properties will be used for future infrastructure projects with community-wide and economic benefits.

Contract History and Price Reasonableness

Four companies were requested to provide a proposal for these services. One company could not meet the requested deliverable timeline, and therefore declined. Another company misunderstood the full scope of work, and upon clarification of the requirements notified the department that they were unable to provide the required services. The last two proposals received were able to meet the timeline required; however, one proposal was in the amount of \$170,000 with a delivery date of 12/16/2021. Hess Development's proposal was \$79,000 with a delivery date of 12/8/2021. Therefore, Hess Development was selected based upon their fee and ability to finish the required scope of work one week earlier, and for a savings of \$91,000 compared to the other company.

5) If, during the term of this Agreement or any extension thereof, there is a material change in the scope of services; or, there is a material change in the equipment to be used in the performance of the scope of work; or, the term of this Agreement, including any extensions thereof, exceeds five (5) years; the COUNTY reserves the right to adjust the types of insurance and the monetary limits of liability required under this Agreement, if in the County Risk Manager's reasonable judgment, the amount or type of insurance carried by the CONTRACTOR has become inadequate.

6) CONTRACTOR shall pass down the insurance obligations contained herein to all tiers of subcontractors working under this Agreement.

7) The insurance requirements contained in this Agreement may be met with a program(s) of self-insurance acceptable to the COUNTY.

8) CONTRACTOR agrees to notify COUNTY of any claim by a third party or any incident or event that may give rise to a claim arising from the performance of this Agreement.

22. General

22.1 CONTRACTOR shall not delegate or assign any interest in this Agreement, whether by operation of law or otherwise, without the prior written consent of COUNTY. Any attempt to delegate or assign any interest herein shall be deemed void and of no force or effect.

22.2 Any waiver by COUNTY of any breach of any one or more of the terms of this Agreement shall not be construed to be a waiver of any subsequent or other breach of the same or of any other term of this Agreement. Failure on the part of COUNTY to require exact, full, and complete compliance with any terms of this Agreement shall not be construed as in any manner changing the terms or preventing COUNTY from enforcement of the terms of this Agreement.

22.3 In the event the CONTRACTOR receives payment under this Agreement, which is later disallowed by COUNTY for nonconformance with the terms of the Agreement, the CONTRACTOR shall promptly refund the disallowed amount to the COUNTY on request; or at its option the COUNTY may offset the amount disallowed from any payment due to the CONTRACTOR.

22.4 CONTRACTOR shall not provide partial delivery or shipment of services or products unless specifically stated in the Agreement.

22.5 CONTRACTOR shall not provide any services or products subject to any chattel mortgage or under a conditional sales contract or other agreement by which an interest is retained by a third party. The

The COUNTY reserves the right to purchase more or less than the quantities specified in this Agreement.

22.7 The COUNTY agrees to cooperate with the CONTRACTOR in the CONTRACTOR's performance under this Agreement, including, if stated in the Agreement, providing the CONTRACTOR with reasonable facilities and timely access to COUNTY data, information, and personnel.

22.8 CONTRACTOR shall comply with all applicable Federal, State and local laws and regulations. CONTRACTOR will comply with all applicable COUNTY policies and procedures. In the event that there is a conflict between the various laws or regulations that may apply, the CONTRACTOR shall comply with the more restrictive law or regulation.

22.10 CONTRACTOR shall comply with all requirements of the Occupational Safety and Health Administration (OSHA) standards and codes as set forth by the U.S. Department of Labor and the State of California (Cal/OSHA).

Any legal action related to the performance or interpretation of this Agreement shall be filed only in the Superior Court of the State of California located in Riverside, California, and the parties waive any provision of law providing for a change of venue to another location. In the event any provision in this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force without being impaired or invalidated in any way.

22.12 This Agreement, including any attachments or exhibits, constitutes the entire Agreement of the parties with respect to its subject matter and supersedes all prior and contemporaneous representations, proposals, discussions and communications, whether oral or in writing. The following information is provided to assist you in filing your jurisdictional boundary change. Fees charged for processing jurisdictional boundary changes are listed on Page 6, and definitions and special fee provisions are provided on Page 7.

Statement of Boundary Change

Filings must be submitted on Form BOE-400-TA, *Statement of Boundary Change*. This form is available on the Board's website at <http://www.boe.ca.gov/proptaxes/pdf/400ta.pdf>.

Certified Copy of Election Results

A certified copy of the election results authorizing the change and the resulting assessment must be submitted, pursuant to Article XIII C, Section 2 of the State Constitution (commonly referred to as Proposition 218).

Certificate of Completion

A certificate of completion must be included for all filings submitted through the Local Agency Formation Commission. All documents must be recorded before submittal. (Conformed documents are acceptable.)

Resolution(s)

The resolution(s) with signatures from the tax levying authority shall be submitted with the filing. Resolution(s) shall have a resolution number, the title of the project, and a detailed description of the content of the boundary change.

Written Geographic Description(s) of the Project Area(s)

Descriptions of the territory that are filed with the Board's Tax Area Services Section (TASS) are used to establish geodetic position and are not intended to establish property ownership in a court of law.² Subdivision maps, tract maps, recorded survey maps, survey monuments, and deeds are not on file with the Board. Boundary descriptions that merely cite recorded documents or refer to assessor's parcel numbers will not be accepted. Any supporting documents may be used as reference only and cannot be used as a substitution. Written geographic descriptions shall conform to the following specifications:

1. Every written geographic description (a document separate from the maps) must stand on its own without the necessity of reference to any extraneous document; a description that relies solely on the use of secondary references will not be accepted. The TASS cartographic staff must be able to plot the boundaries from the written description alone.
2. The written description shall be of the project area only. If a complete description of the special district is filed, the project area shall be clearly identified in a separate document.
3. The geographic description shall:
 - a. State the township and range, section number(s) or rancho(s)
 - b. Have a **point of beginning** (POB) referenced to a known major geographic position (e.g., section corners, intersection of street centerlines, or the intersection of street centerline and an existing district boundary at the time of filing). A description will be rejected if the POB refers only to a tract map, a subdivision map or a recorded survey map. It is preferable that the POB be the point of departure from an existing district boundary (when applicable).
 - c. Be expressed as a specific parcel description in sectionalized land (e.g., "The SW 1/4 of Section 22, T1N, R1W") or by bearings and distances. When the description is by bearings and distances, **all courses shall be numbered and listed individually** in a consistent clockwise direction. The description shall not be written in a narrative format. All courses required to close the traverse of the project area must be stated. All curves must be described by direction of concavity. Delta, arc length, chord, and radius shall be listed, including radial bearings for all points of non-tangency.

Following are examples of unacceptable and acceptable descriptions:

Unacceptable (*This description refers only to extraneous documents and does not stand alone.*)

"From the point of beginning, northerly to the southwest corner of that certain property recorded in Book 12, Page 15 of Recorded Deeds, thence easterly to the southeast corner of that certain property recorded in Book 12, Page 16 of Recorded Deeds...."

Acceptable (*This is the same description with the courses numbered and the bearings and distances added.*)

"From the point of beginning:

Course 1. North 1° 18' 56" West a distance of 150' to the southwest corner of that certain property recorded in Book 12, Page 15 of Recorded Deeds, thence,

Course 2. North 85° 7' 56" West a distance of 75' to the southeast corner of that certain property recorded in Book 12, Page 16 of Recorded Deeds, thence...."

² The Board's Tax Area Service Section is not involved in issues relating to property ownership.

4. The written description shall state the acreage for each separate single area (see Definitions and Special Fee Provisions for the definition of a single area) and a combined total acreage of the project area.

Example: "Area A containing 2.50 acres, Area B containing 1.75 acres: Total computed acreage containing 4.25 acres more or less."

5. All information stated on the description must match with the map(s), such as the name of the short title, the point of beginning, the course numbers, all the bearings and distances, and the acreage(s).

Map(s)

It is strongly recommended that all maps submitted to the Board be filed in electronic/digital form. Digital information will not be shared without the permission of the applicant.

Maps submitted as part of the jurisdictional boundary change filing shall conform to the following specifications:

Map Documents:

1. All maps shall be professionally and accurately drawn or copied. Rough sketches or pictorial drawings will not be accepted. Assessor's parcel maps will not be accepted as a substitute for the project map.
2. Original or copies of the same size project map must be submitted. Reduced maps are not acceptable and will be rejected.
3. A vicinity map shall be included. The vicinity map shall show the location of the project area in relationship to a larger geographic area that includes major streets and highways or other physical features.
4. Any portion of an existing district boundary in close proximity to the project area shall be shown and identified.
5. Every map must clearly show all existing streets, roads and highways with their current names that are within and adjacent to the project area. Additionally, every map shall indicate each township and range, section lines and numbers, or ranchos that are in proximity of the project area.
6. Every map shall bear a scale and a north arrow. The **point of beginning** shall be clearly shown and match the written geographic description.
7. The boundaries of the project area shall be distinctively delineated on each map without masking any essential geographic or political features. The boundaries of the project area must be the most predominant line on the map. Boundary lines that are delineated by a line that exceeds 1.5 millimeter in width shall be rejected. The use of graphic tape or broad tip marking pens to delineate the boundary is not acceptable.
8. All dimensions needed to plot the boundaries must be given on the map of the project area. Each map shall have **numbered courses matching the written geographic description**. Index tables may be utilized.
9. All parcels within the project area that touch the new boundary shall be clearly labeled with the assessor's parcel number. Interior parcels that do not touch the boundary need not be identified on the map.

10. If the project area has an interior island(s) of exclusion or the boundary has a peninsula of exclusion (or inclusion), that area(s) should be shown in an enlarged drawing. This drawing should be of sufficient size and scale to allow TASS to plot the boundary without difficulty.
11. When it is necessary to use more than one map sheet to show the boundaries of the project area, the sheet size should be uniform. A small key map giving the relationship of the several sheets shall be furnished. Match lines between adjoining sheets must be used. While the geography on adjoining sheets may overlap, the project boundaries must stop at the match lines. TASS has standardized the D size (24" x 36") map sheet, but will accept larger or smaller map sizes depending on the size and complexity of the individual single area(s).

Digital Maps:

Maps that are filed electronically shall conform to the same requirements as described in this section under map documents (Items 1 through 11 above). Additional items for digital maps are as follows:

Required files – The disk or CD shall contain only the following files:

- a. Map/drawing file(s) using AutoCAD.dwg format in vector format:
 - **Plotting**: The map drawing file shall have the same appropriate borders, legends, title blocks, signature block and any necessary information that is required for a manually drawn map.
 - **Scale**: The drawing shall be at real-world scale.
 - **Layers**: A listing of the layers and their definitions shall be included in the "read_me" file.
 - **File Format**: File shall be in vector format only. Raster files, raster-vector hybrid, .pdf, .tiff, .pcx, .eps, .gif, .jpeg or any other image formats will not be accepted.
 - **Compressed Files**: Files shall be uncompressed; compressed files will not be accepted.
- b. A text file labeled "read_me" listing:
 - The name, address, and phone number of the agency/special district
 - County name and city or district name
 - Project/short title of the action
 - Name, address and phone number of office that prepared the map file
 - List of files on the disk or CD
 - Map projection and datum
 - Layer definitions
 - Sheet size
 - Plotting scale
 - Date of creation
- c. Labels: The disk or CD must have a label that identifies:
 - The agency and/or special district submitting the map
 - Name of the project/short title
 - County name(s)
 - Date of creation

List of Assessor's Parcel Numbers for the Project Area

A list of all affected assessor's parcel numbers must be submitted as part of the jurisdictional boundary change filing.

Letter of Tax-Rate Area Assignment

The jurisdictional boundary change filing must include a letter of the tax-rate area (TRA) assignment on consolidated counties only. This TRA assignment letter is provided by the county auditor's office. The current list of consolidated counties can be found on the Board's website.

Definitions and Special Fee Provisions

1. A *single area* means any separate geographical area regardless of ownership. A lot, subdivision or section could each be a single area. A geographical area that is divided into two or more parcels by a roadway, railroad right-of-way, river or stream is considered a single area. Geographic areas that are non-contiguous are not considered a single area.
2. Two areas are *contiguous* when the two polygons that define the areas share a common line segment.

3. A *concurrent transaction* is defined as:

- a) Any combination of formation, annexation or detachment of a single area under one resolution or ordinance, each independent action must be dependent on the other action(s) in order to complete concurrent transaction, e.g., a reorganization.
- b) When there are more than one resolution or ordinance that is required to complete the action, each single area must have identical boundaries, identical actions, and the multiple resolutions or ordinances shall be inter-dependent for completion.

The fee shall be according to the fee schedule provided on Page 6. There is no additional cost for the number of transactions involved.

Multiple formations, annexations, or detachments of a single area under one resolution or ordinance that are not inter-dependent, must be filed separately and fees paid accordingly.

- 4. *Coterminous transaction*: If an annexed or detached territory comprises an entire city, district, or zone without affecting the existence of that city, district or zone, the total processing fee is \$300. Such a transaction is completely coterminous. However, if a coterminous transaction involves areas of exclusion, each area of exclusion shall constitute a single area transaction and all fees and requirements pertaining to single area transactions apply.
- 5. The fee schedule assumes that an action is confined to a single county. If more than one county is involved, add \$300 for each additional county.
- 6. *Multiple area filings* for special revenue districts shall be calculated as a separate fee for each single area. A separate fee must be computed for each ordinance or resolution.
- 7. Payment of the fee for the formation of a city or district may be deferred until that city or district receives its first revenue (section 54902.5).
- 8. *Entire District transaction*: When the action involves the whole district and the district's boundary is not altered by the action, it is considered an entire district transaction, e.g., annexation of a county service area countywide, annexation of a zone of improvement to the entire district.
- 9. *Zones* include temporary zones in highway lighting districts, zones of improvement, zones of benefit, improvement districts, or any other sub-units of a county, city or parent district.
