I give my 2 minutes to:_____

(Revised: 01/11/2021)

DUARD RULLS

Requests to Address Board on "Agenda" Items:

You may request to be heard on a published agenda item. Requests to be heard must be submitted to the Clerk of the Board before the scheduled meeting time.

Requests to Address Board on items that are "NOT" on the Agenda:

Notwithstanding any other provisions of these rules, member of the public shall have the right to address the Board during the mid-morning "Oral Communications" segment of the published agenda. Said purpose for address must pertain to issues which are under the direct jurisdiction of the Board of Supervisors. YOUR TIME WILL BE LIMITED TO TWO (2) MINUTES.

Power Point Presentations/Printed Material:

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, insuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please ensure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo. Speakers are prohibited from bringing signs, placards or posters into the hearing room.

Individual Speaker Limits:

Individual speakers are limited to a maximum of two (2) minutes. Please step up to the podium when the Chair calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 20 seconds remaining, the "yellow" light will begin flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chair adheres to a strict two (2) minutes per speaker. Note: If you intend to give your time to a "Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.

Group/Organized Presentations:

Group/organized presentations with more than one (1) speaker will be limited to six (6) minutes at the Chair's discretion. The organizer of the presentation will automatically receive the first two (2) minutes, with the remaining four (4) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the front bottom of the form.

Addressing the Board & Acknowledgement by Chair:

The Chair will determine what order the speakers will address the Board and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles in order to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using course, crude, profane or vulgar language while speaking to the Board members, staff, the general public and/or meeting participants. Such behavior, at the discretion of the Board Chair may result in removal from the Board Chambers by Sheriff Deputies.

Welcome to the Winter White Barn!

Why shut down a community serving small businesses with no complaints? I think that is what so many of us are here to address. I am Kelly Winter, the owner of Nomad Nuptials LLC DBA Winter White Barn. We are on track for closure september 29th in spite of having no complaints. This will be devastating to these couples and their families. I implore you to give us more time!

We have an established facility of four years and the only reason my name was brought to the attention of code enforcement was when another venue asked why Winter White Barn can stay open if they could not.

This closure will create a tremendous hardship for the community of licensed event vendors, beautiful couples, my staff, and also my neighbors!

I have 3 direct neighbors working here as well as two short term rental properties on the next street over that I supply business too.

We host many neighborhood events as well as host fundraising galas for non profits such as Sale Ranch, a farm animal sanctuary. I am a very conscientious business owner who abides by the noise ordinance, parking on site, only licensed and insured vendors for catering and such, as well as being wheelchair accessible. We have paid all of our taxes for our business the entire time we have lived here, and we are focused on creating positive experiences for our community of neighbors and beyond.

I beg you to reconsider the closure of this vital small business. We support the wine country by providing 12 pages of local vendors as well as suggestions to stay at places such as South Coast, Carter Estates and more. We are very focused on providing high paying, quality jobs for our community. Our staff of 15 includes 3 single moms, one of which has a medically fragile son.

Besides the support that you see before you, I also have brought in 40 plus letters of support from my direct neighbors and neighboring

communities. I urge you to reconsider the closure of the Winter White Barn. How does it make sense to close a business with no complaints that employs 15 of the people that you represent?

Thank you for your time and consideration

APN: 924-220-001-4.

Case number CVCO220361 June 13, received June 12th (Called Monday June 13th and it was confirmed that We had no complaints and this citation had not been filed at the county yet. We had no blemishes on our record at that time.)

Case number CVZO220493 July 11th received July 13th

My husband and I had a promising meeting with Riverside County's Principal Planner Russell Brady and Urban Regional Planner Kathleen Mitchell who had directed us onto a path forward. Additionally, I was working with Code Enforcement's Ronald Welch to gain compliance. Through conversations with Ronald Welch we were given permission to continue with our contracted events if we continued on our stellar path of compliance. We were made to deliver a list of contracted events after being reassured that this was not a way to shut them down, but rather to know we are not booking additional events. I considered this a great mercy on my staff, my couples and our community of wedding professionals. He stated in writing that we could complete our obligations through October 1.

However, on July 13, I received a cease and desist letter.

We have had zero noise complaints and only compliments from our neighbors. I have already complied with the ordinance by canceling all events past the three month window (plus five special events that were being considered), removing my website, taking down my sign, ceasing advertising to the best of my abilities, and working to resolve the permit issue with an architect and calls into a structural engineer.

My heart breaks for these couples who have been planning for months to host their once-in-a-lifetime event here at the Winter White Barn. I'm also concerned for my fellow small business owners who will be vendors at these events. The hardship that will be created for the local businesses – such as Pete's Firehouse BBQ, Classy Kay Events, Hops and Grains mobile bar service, The Vine House, and more – could be financially devastated if we can't complete our contracted events. Additionally, my employees, especially the three single moms relying on this income to support their families and keep them fed and housed, will be devastated by this closure.

Please let me know your availability for a meeting on Wednesday, July 20.

Case number CVCO220361 June 13, received June 12th (Called Monday June 13th and it was confirmed that We had no complaints and this citation had not been filed at the county yet. We had no blemishes on our record at that time.)

Case number CVZO220493 July 11th received July 13th

My husband and I had a promising meeting with Riverside County's Principal Planner Russell Brady and Urban Regional Planner Kathleen Mitchell who had directed us onto a path forward. Additionally, I was working with Code Enforcement's Ronald Welch to gain compliance. Through conversations with Ronald Welch we were given permission to continue with our contracted events if we continued on our stellar path of compliance. We were made to deliver a list of contracted events after being reassured that this was not a way to shut them down, but rather to know we are not booking additional events. I considered this a great mercy on my staff, my couples and our community of wedding professionals. He stated in writing that we could complete our obligations through October 1.

However, on July 13, I received a cease and desist letter.

We have had zero noise complaints and only compliments from our neighbors. I have already complied with the ordinance by canceling all events past the three month window (plus five special events that were being considered), removing my website, taking down my sign, ceasing advertising to the best of my abilities, and working to resolve the permit issue with an architect and calls into a structural engineer.

My heart breaks for these couples who have been planning for months to host their once-in-a-lifetime event here at the Winter White Barn. I'm also concerned for my fellow small business owners who will be vendors at these events. The hardship that will be created for the local businesses – such as Pete's Firehouse BBQ, Classy Kay Events, Hops and Grains mobile bar service, The Vine House, and more – could be financially devastated if we can't complete our contracted events. Additionally, my employees, especially the three single moms relying on this income to support their families and keep them fed and housed, will be devastated by this closure.

Please let me know your availability for a meeting on Wednesday, July 20.

Kelly & Brian Winter 38595 Via Del Oso Temecula Ca 92592 951-640-9523

Subject: Winter White Barn

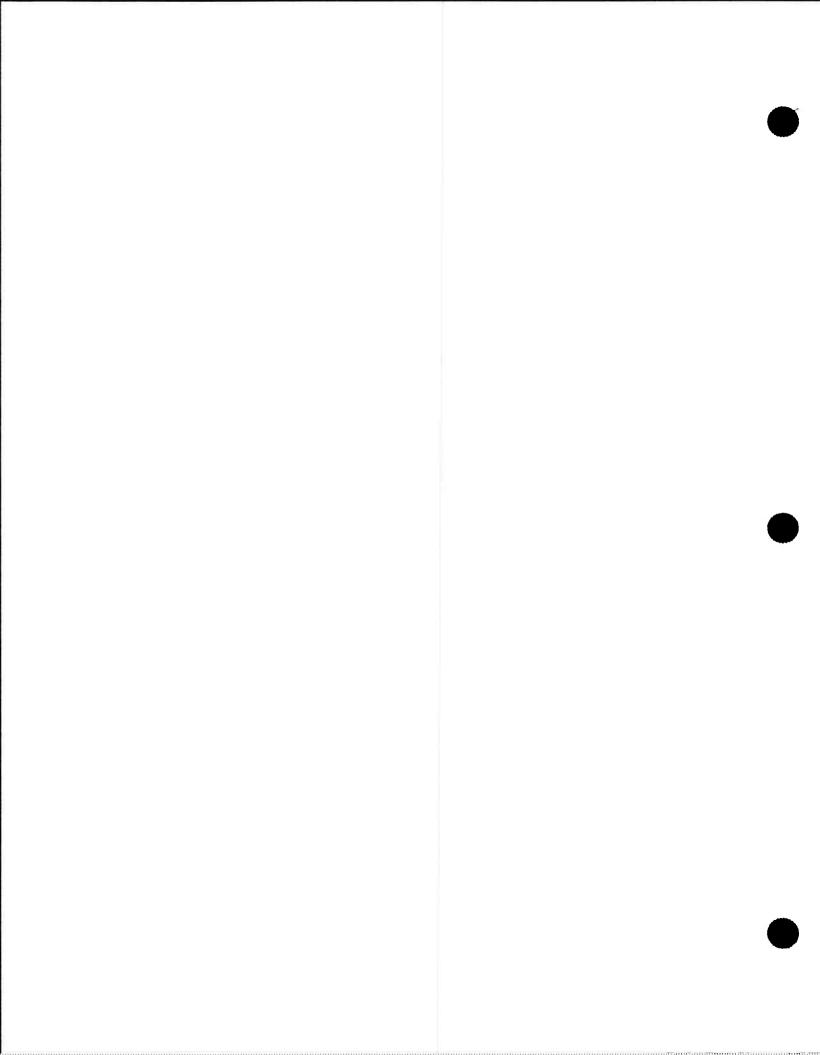

To whom it may concern,

Kelly Winter has been an amazing contributor to the Temecula wine country community. As a woman running her own small business, she is loved and supported by her surrounding neighbors and businesses. Her passion for event planning is seen in all she does. The Winter White Barn has referred many customers to my own lodging facility as well as all surrounding wineries. It would be very disheartening to see the closure of such a wonderful, well run establishment. Kelly's events are well done, beautiful, respectful to neighbors, and have only brought income to our area. Winter White Barn is a huge contributor to tourism and the growth of Temecula Wine Country.

Sincerely,

Lacey Britton

(Owner of The Vine House)

Winter White Barn Referral

On Saturday, July 9, 2022, Sale Ranch Animal Sanctuary hosted its 6th Annual Fundraising Gala, "An Enchanted Evening," at Winter White Barn. This annual event is our most significant fundraiser, raising money to support our mission and operational needs throughout the year.

Our Gala is a celebration of our work to rescue, rehabilitate farm animals, and educate on their behalf over the last ten years. In addition to our animal advocacy efforts, Sale Ranch supports the local community by growing and donating clean produce to vulnerable and food-insured people through Good Samaritan Food Bank. We believe we help create a more compassionate and kinder world for ALL beings.

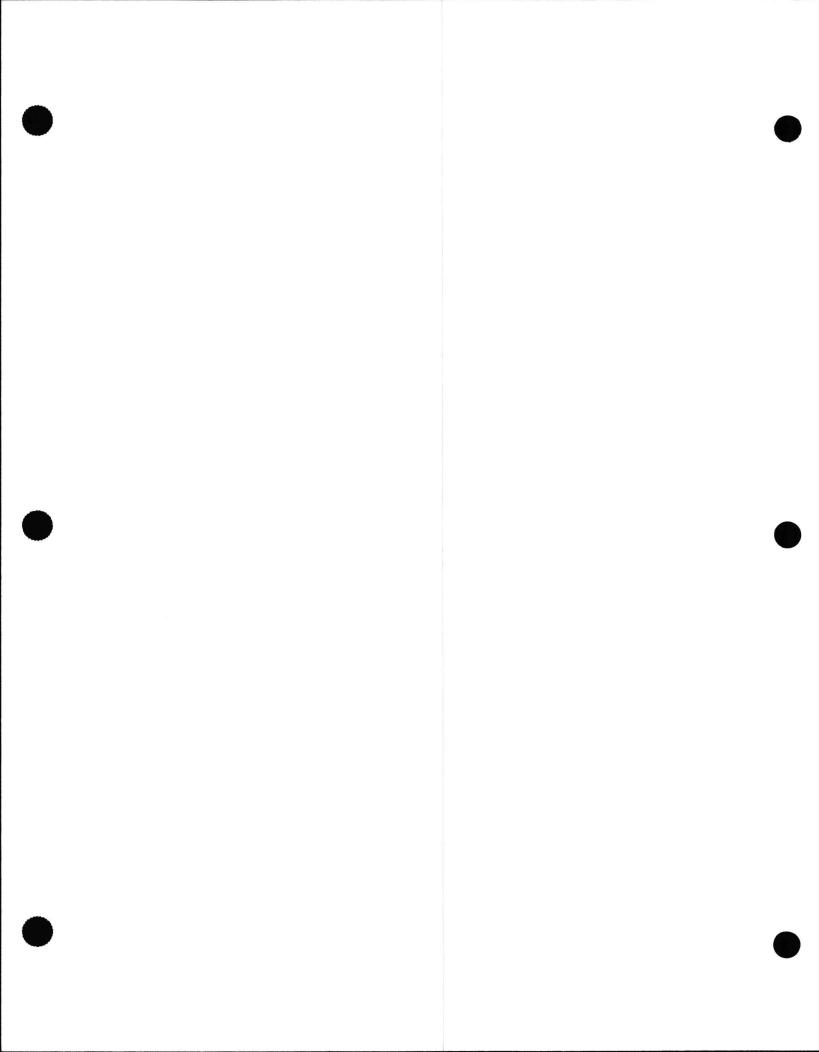

Our Gala venue selection each year includes several factors: location, aesthetics, and guest capacity, to name a few. Upon discovering Winter White Barn, we were overjoyed when owner Kelly Winters graciously offered to host our event WITHOUT charge. Not only did Kelly offer her venue free of charge, but she also donated staff hours for set-up and tear-down. In addition, Kelly continued to go above and beyond by attending our event and purchasing two tables. We are incredibly grateful for Kelly's support and her very gracious donation that significantly increased our total fundraising dollars by eliminating the venue cost.

Our event started at 6:00 pm, and we completed our evening with guests leaving the property by 9:45 pm.

Our event was incredible, and we couldn't have asked for a more gracious host. However, less than 24 hours before our event, we faced devastating news -- that Winter White Barn may have to cancel our event. Caterers, florists, linen rentals, DJ, and live entertainment had already been contracted and paid. The threat of cancellation made us panic as we had no time to find an alternate venue. What should have been our biggest money maker could now be our most significant expense of the year and an expense we may not be able to recover from. An overwhelming thought was that our ten years of advocacy work was now in jeopardy. Thankfully the morning of our event, we received the good news that our event could go on.

Sale Ranch Animal Sanctuary is very grateful to Kelly and Winter White Barn for their generosity and services. We acknowledge and appreciate their efforts to support the local community by choosing to support Sale Ranch. We hope to return to this beautiful venue in the years ahead and recreate our memorable and magical night.

Family Residence at:

38740 Via Del Oso, Temecula CA 92592

To whom it may concern,

On behalf of the Sanchez Family and neighbors of the Winter Family we write this letter in support of Mrs. Kelly Winter and the Winter White Barn venue in Temecula.

We are the Sanchez Family, neighbors to Winter Family for just a little over 3 years now. Not only are we neighbors, but both Rosa Sanchez and Miguel Sanchez (Spouses) are employed by the Winter White Barn venue.

Over the past years our family has witnessed all the hard work & sweat, love and passion Mrs. Kelly Winter has invested into her Winter White Barn venue. There are days when we drive by and its over 90 degrees outside or its raining and there is Mrs. Kelly; planting, re-arranging, decorating, fixing anything from a broken chair to painting a table so that her venue looks just right. We have 3 children and fills us with joy when they look forward to passing the Winter Family Barn venue especially when Mrs. Kelly is holding an event. It has become a ritual for us to roll down our windows to look at all the beautiful people arrive, listen to the music and appreciate the beautiful landscape.

Prior to being employed by the Winter White Barn venue, as a family we were having financial hardship especially with rising cost today. We are now able to make end meet and provide for our 3 kids comfortably. Having the ability to walk to work and not have the additional gas expense makes a significant difference in our finances. As parents it also, provides us with comfort and a peace of mind that we are at reach of our kids should an emergency occur. Mrs. Kelly Winter always works with our schedules to accommodate time with our children, this accommodation is priceless to us as parents.

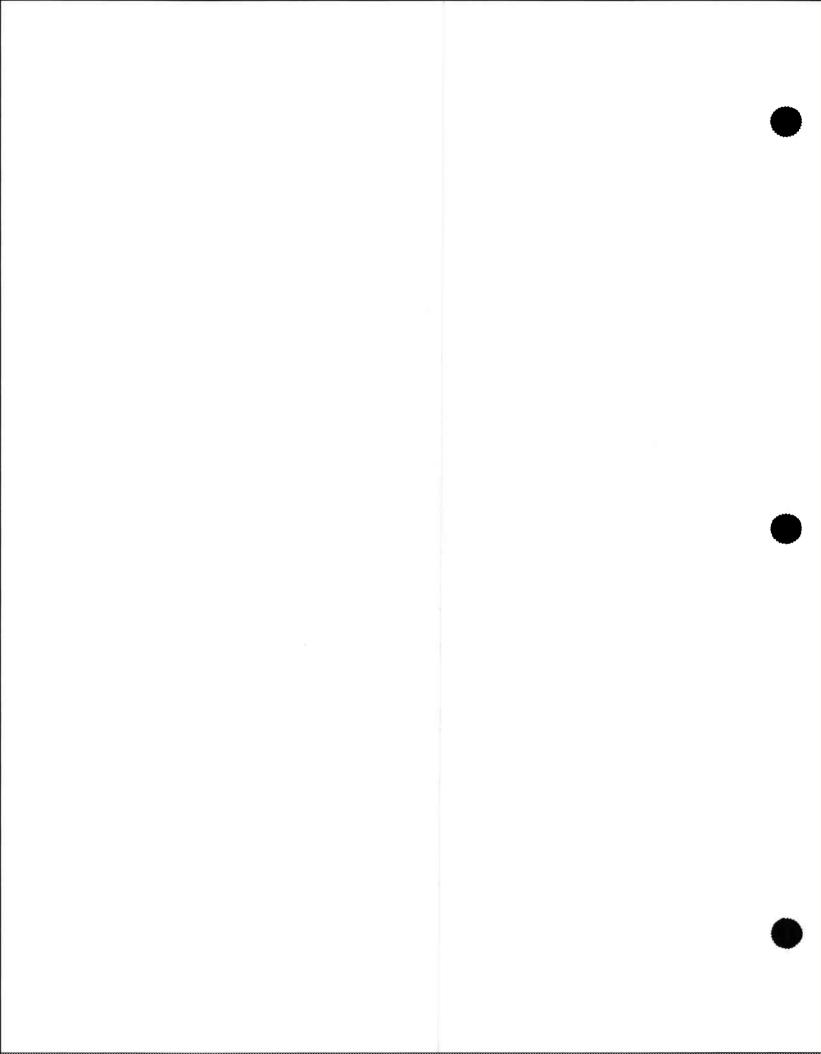

Mrs. Kelly Winter not only provided job security to an entire staff but supports local small/large business owners such as DJ's, florist, bakeries, cooks, restaurants, photographers, designers, landscapers and list goes on. Mr. Kelly Winter is kind, understanding and treats all her staff, guest, and vendors with the outmost respect. Without the Winter Family Barn venue all these employees including my family and business owners will suffer a financial hardship.

As a neighbors, friends, and employees of Mrs. Kelly Winter we take pleasure in supporting the Winter White Barn venue and request that you please keep her doors open for business.

When and

Sincerely,

Rosa & Miguel Sanchez

Dear sir / Madam

Regarding: The Winter White Barn

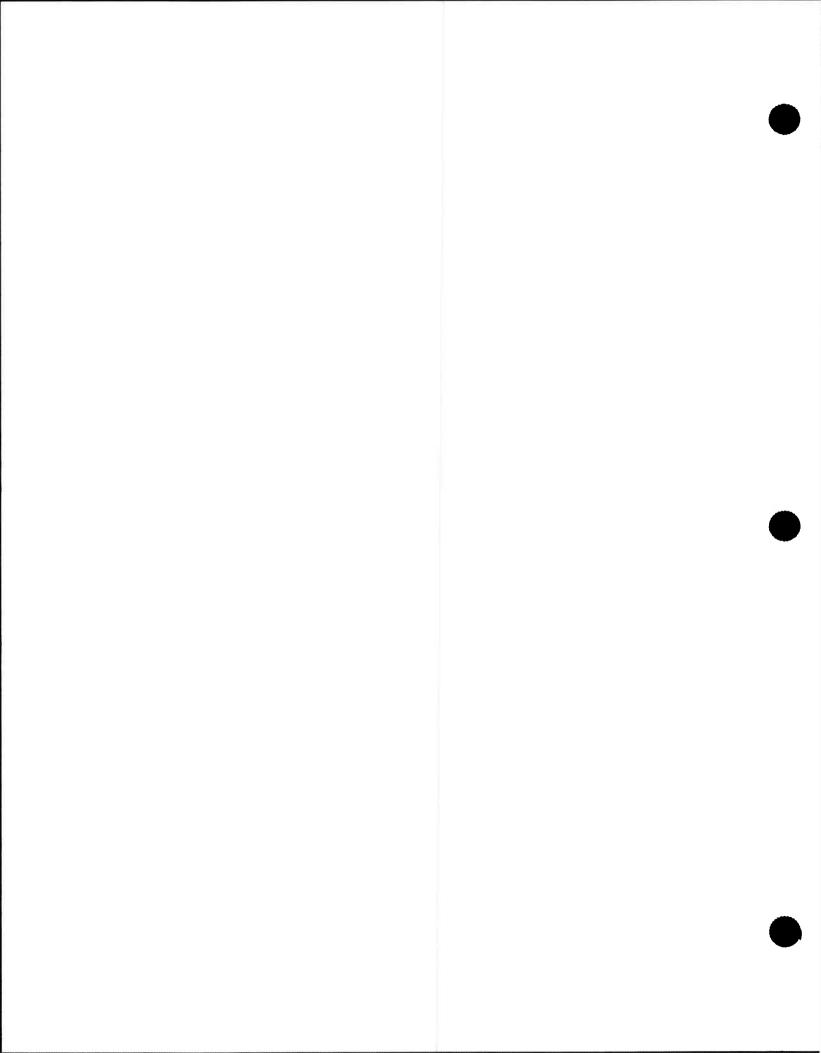

My wife and I are writing this letter as a neighbor of the Winter White Barn. We would like to provide any concerned parties with our opinion regarding the event venue that is located in our neighborhood. As a neighbor we have had nothing but positive experiences with these neighbors and their events. We believe that they are an asset to the neighborhood and to the community.

We have leased our property for approximately II years and have recently purchased it. Our property is only separated by a small on maintained County Road. We have spoke with them on multiple occasions, as neighbors discussing the community and the neighborhood. We are aware of their events and what they do, but honestly the only reason we even know is because they have told us. As one of their closest neighbors geographically, I can say without a doubt if there were any concerns that would affect the neighborhoods peaceful and quiet enjoyment we would be one of the first to know and show concern. Without a doubt we can say that we have never had one omplaint. Their property is well-maintained and well groomed and a visual asset to the neighborhood.

I believe that as one of their closest neighbors we are more than qualified to speak on this topic. If anyone is to be affected by what is going on in our community or the neighborhood especially when they are that close it would be our family. I believe that should be seriously taken into consideration when making any decisions with regards to this matter. It would be disappointing to us as property owners in the community and the County of Riverside, to see anyone take issue with these people or their beautiful property.

Our family sees nothing wrong with anything that they are doing and we hardly know that they are there. We are available to discuss this with anyone that has any concerns. My phone number is provided below. Please feel free to contact me anytime to discuss further.

Kindest Regards, Dustin and Segrid Lunde .310-707-3883

Dear Riverside County.

My name is Robin Rabens and I have been a small woman's business owner and music teacher in Riverside County since 1998. When the public schools decided to take music out of the curriculum I retired from public service and entered the world of property management. My family of special needs children and I would more than likely be impoverished without the confidence of investing in a stable business environment. I have spent the last 24 years investing in rentals throughout Riverside county and grateful that I have been able to be the breadwinner for my special needs boys.

A year and a half ago I started the airbnb Rock Creek Estate (a name that Kelly came up with) at 38388 Rock Creek Cir. Temecula, CA 92592. I was excited about the location for it's magical ecosystem and loved it's historical providence. Shortly after embarking on the grueling renovations needed, Kelly Winter the next door neighbor came to my aide. Often she was accompanied by her sister also the mother of a special needs son. Together the sisters generously spent countless days helping me in anyway possible. It was a godsend to have the Winterwhite Barn as my closest neighbor. Kelly and her family supported me. She helped my fledgling business get off the ground. To this day she refers me to potential clients and is always there to help in anyway possible. Woman Business owners are a special breed and I hope the county realizes that these hardworking entrepreneurs are the bedrock of our communities. It has been a brutal 2 years for working people and their families. We have had to wear many hats, caring for our families, trying to keep our businesses afloat, has been beyond imaginable.

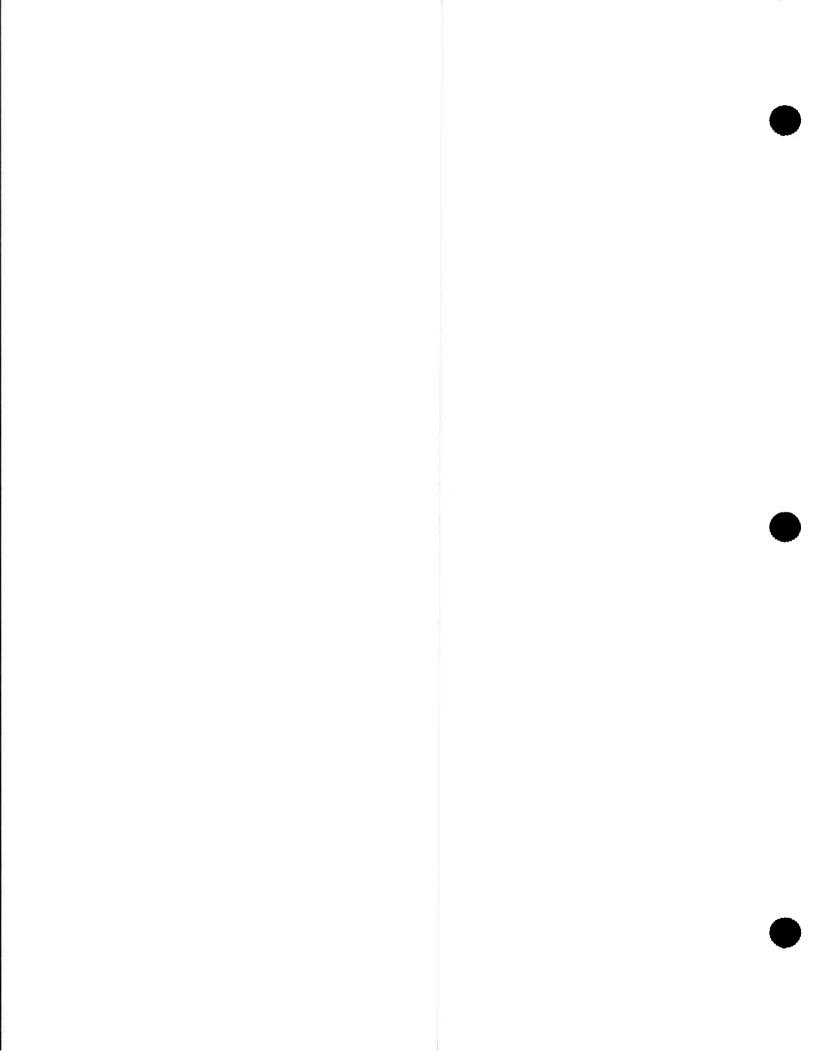

then I first visited the Winterwhite Barn I saw something so unique, it is a work of art. These 2 sisters have poured erything of their true selves into this business. Riverside County should be very proud of their accomplishment. They have, employed local families with meaningful livelihoods. Not only that they are very considerate neighbors. I hear very little noise from her venue despite being right next door. She always closes down on time and I have never received one complaint from my renters.

Thank you for taking the time to help Kelly and her family to continue to thrive in her mission to provide the special events that she has produced.

I hope that this multifamily small business continues to make Riverside County the special place that it is. Sincerely,

Robin Rabens

Winter White Barn / Kelly Winter

6/21/2002

We are writing this in support of Kelly Winter and her wedding venue that is directly across the street from us. She has done a commendable job of refurbishing and upgrading the property. It is a significant upgrade from the previous environment, and we consider it an asset in comparison to what was there previously. We firmly believe her presence is an asset to our neighborhood. She is very aware of the other people that live nearby and ensure that her events never intrude on the area. She has created a very nice atmosphere for her clients without ever intruding in any way shape or form. We frequently leave our windows open during the evening and barely notice that there is a wedding event taking place. We have yet to notice any issues regarding noise, traffic, or any kind of negative behavior during any of the events that take place.

I have spoken to several neighbors in the area and have heard only praise for what she has created. We could use more of this in my opinion. We are available to discuss this further should the need arise. As retired folks, we're here most of the time and love the environment.

RE: Parand Kelly Winter 38595 Via Del Oso Temecula, California 92592

To Whom It May Concern:

My wife, Laurie and I, live directly across the street from Brian and Kelly Winter's property.

It has been brought to our attention that there are concerns regarding the use of that property as a wedding venue. We have resided on our property for over thirty years.

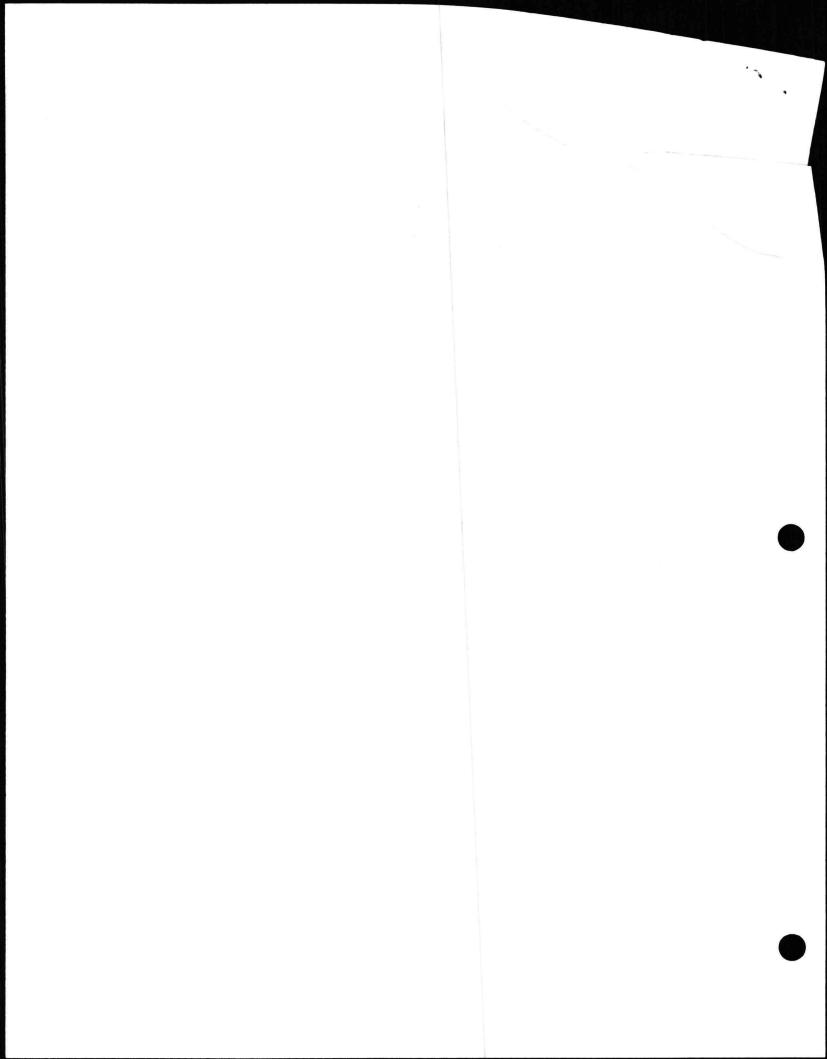

The property has been greatly improved since they have moved in. They have cooperated with us as neighbors these past few years and we support them having a wedding /special event venue at that location. We believe that they should be allowed to continue their business activities on their property as designed.

Sincerely,

Doug and Laurie Richardson 41370 De Portola Rd Temecula, CA 92592

To whom it may concern:

I am writing this letter to convey my support of Winter White Barn. As a member of this community, I have lived in Temecula for 20 years, I have seen what venues such as the Winter White barn bring to this city.

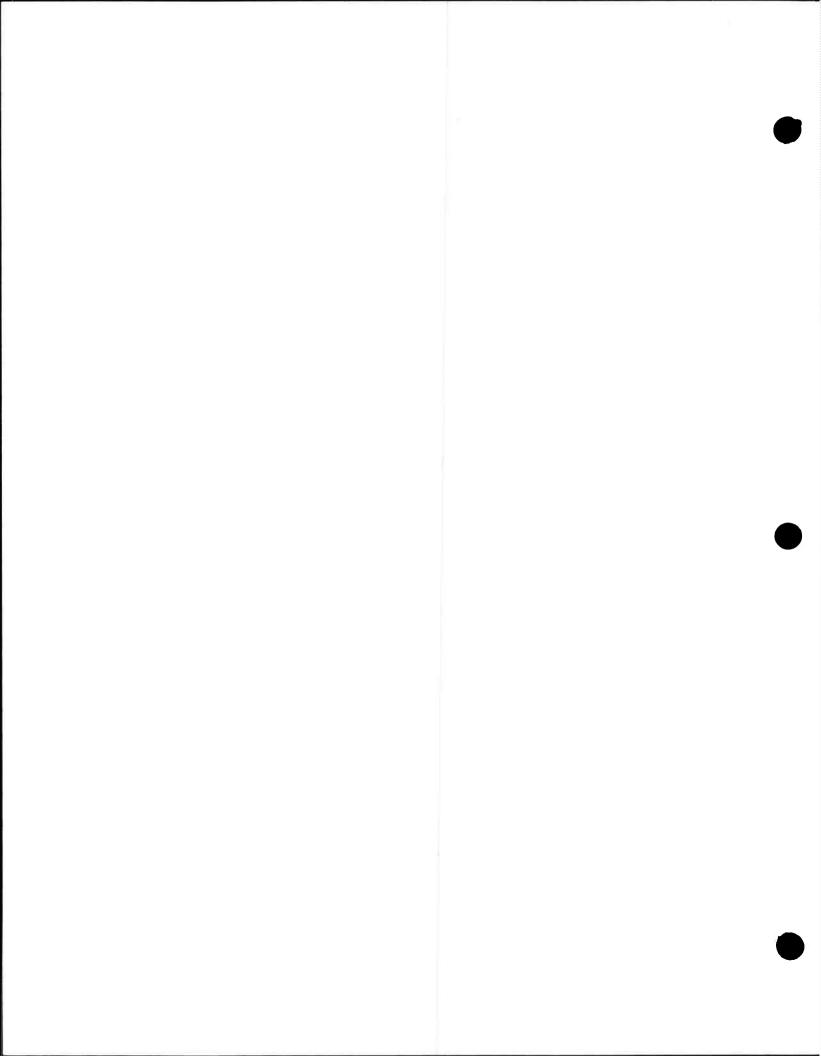

These events not only support the venue and staff, but Temecula as well as the guests get to enjoy all Temecula has to offer. Financially these guests support our restaurants, accommodations, wineries and so much more.

Winter White Barn provides jobs to many who work there. Jobs we need and I will be greatly affected financially if I am unable to work at Winter White Barn.

Winter White Barn is an amazing place to host an event and to work. The owners are great people who don't deserve what is happening to them. Please do everything you can to keep their doors open.

Sincerely,

Kristina Barradas STREET ADDRESS, CITY, ST ZIP CODE T (123) 456-7890 U WWW.COMPANY.COM

To whom it may concern:

My name is Pete, and I work for the Winter White Barn as a side job.

I moved to Temecula in 2008, from Escondido, because I could afford a home here. Moreover, the schools rated very well. Moving here was a financial stretch, but I have remained very happy with my choice. However, with the rising cost of living, yet continuing to earn the same pay from my state job, my ability to remain in this community became a financial challenge. Thus I took side work helping Kelly take care of her property. I enjoy hearing her vision and helping bring that vision to light.

Capturing Kelly's unique vision has led me to shop in local businesses of which I was previously unaware. For instance, for other people I do side welding jobs. I have always driven down to Escondido Metal Supply to purchase metal for any job I am doing. Since beginning to work for Kelly, I started frequenting Tusker Metals in Temecula. I am now familiar with the business as well as the brothers who own and operate it. I now buy metal there for all projects I am doing here in Temecula. I have since turned friends and neighbors alike onto Tusker Metal. The same is true for Hank's Hardware, Action Gas Welding Supply, Hazit, Tractor Supply Company and any number of other local businesses.

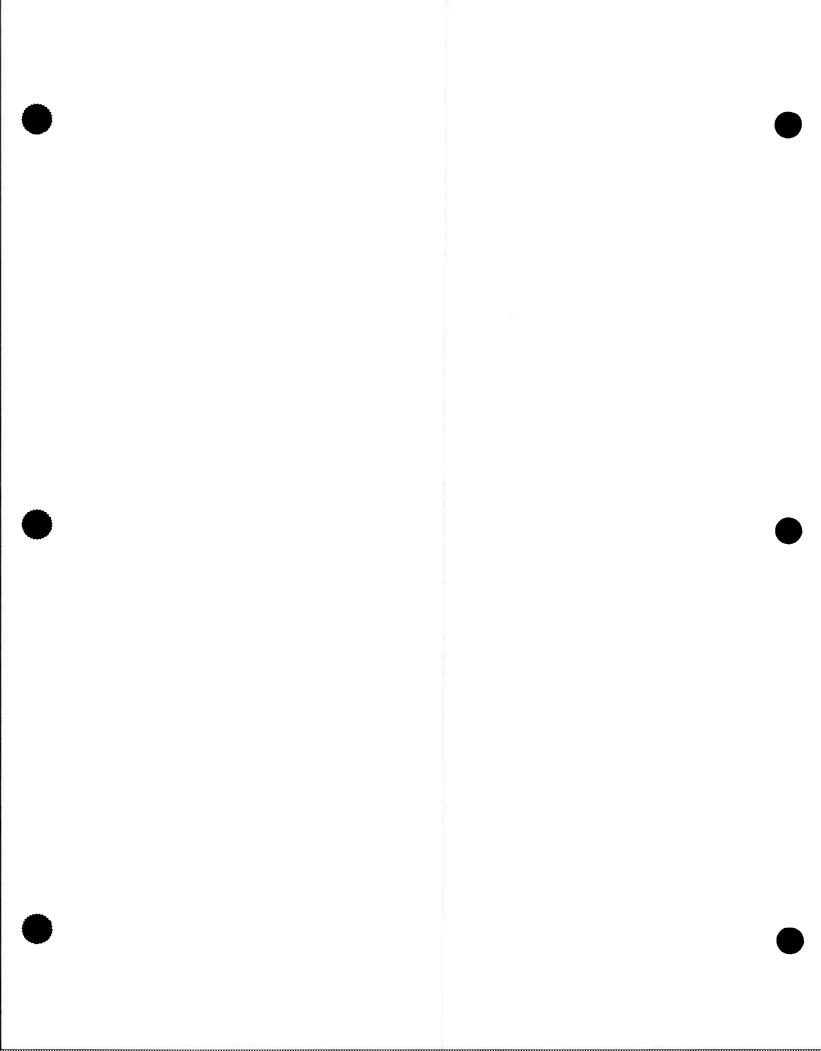

The extra income I earn working for Kelly Winter not only helps me continue to live in Temecula. I depend on having regular side work just to make ends meet. If I didn't have this part-time job, I am not sure how much longer I would be able to continue living in Temecula.

I enjoy taking pride in my local community. Driving to and from the Winter White Barn has put me in parts of Temecula I'd previously not encountered. Some of these new shops and restaurants I now frequent, and I am happy to be able to give back to Temecula.

Personally, working for Kelly is both a pleasure as she is a fantastic employer, but has also been greatly beneficial in helping me make ends meet. If her business is no longer allowed to function it will be a detriment to me financially as well as my quality of life. The income loss will make it more difficult, and it will also diminish the quality of my life as I enjoy working for the Winters very much. I hope you will help support their bid to continue to operate.

Thank you for your consideration,

Pete Rauch Employee & 14-year Temecula Resident.

Sepport for Winter White Barn as an Event Planner

Karissa Shannon <karissainman@gmail.com>
To: Kelly Winter <Winterwhitebarn@gmail.com>

Mon, Jun 20, 11:53 AM

To the kind people taking on this case, we appreciate you.

I hope you can take the time to read all the supportive emails and kind words that will be shared with you today about Kelly Winter and the Winter White Barn.

I have been an event planner for a few years now. Deciding to go into business in September of 2019 was hard but as a world and community we found ways to keep each other safe and a priority. I'm sad to see these values be so easily forgotten as we try to go back to "normal."

Normal for me and my small business has been at the Winter White Barn. I have had the wonderful opportunity to learn and grow from a professional and personal standpoint. Kelly Winter has taught me things about running a business and introduced me to many local contacts that I will keep throughout my career. I have learned ways to ask simple questions to clients on what they envision for their parties and events and know how to decorate around their simple response. I have learned that hard work does pay off. I have learned who can be recommended based on their priorities and needs. I have learned what fun activities and places clients can visit and go to while family visits and stays for their events. I have learned I can work hard and be compensated and complemented in a supportive environment unlike in my other job. I have learned I am appreciated at the Winter White Barn.

When clients ask for vendor suggestions I am able to recommend places like Pete's Firehouse BBQ, a local Fireman making the best smoked tri-tip and mac and cheese in the community. Pete's team is kind and hardworking people who live in the community and are like many other small businesses trying to survive.

me clients want their guests to enjoy the fine foods delivered by Greg Lamb, the local owner of Wood Fire Pizza Wagon. This brick oven pizza has served parties and events for many years at the Winter White Barn and we are always excited to see what pizza clients have chosen. My personal favorite is the gorgonzola pear! Greg's team makes personal pizzas for clients and caters to their likes. We love a pizza party!

When we have a client say they love tacos I encourage them to reach out to Temecula native Angel Tapia who runs Taps Tacos. It doesn't get much better than street tacos and close friends to enjoy a party at the Winter White Barn.

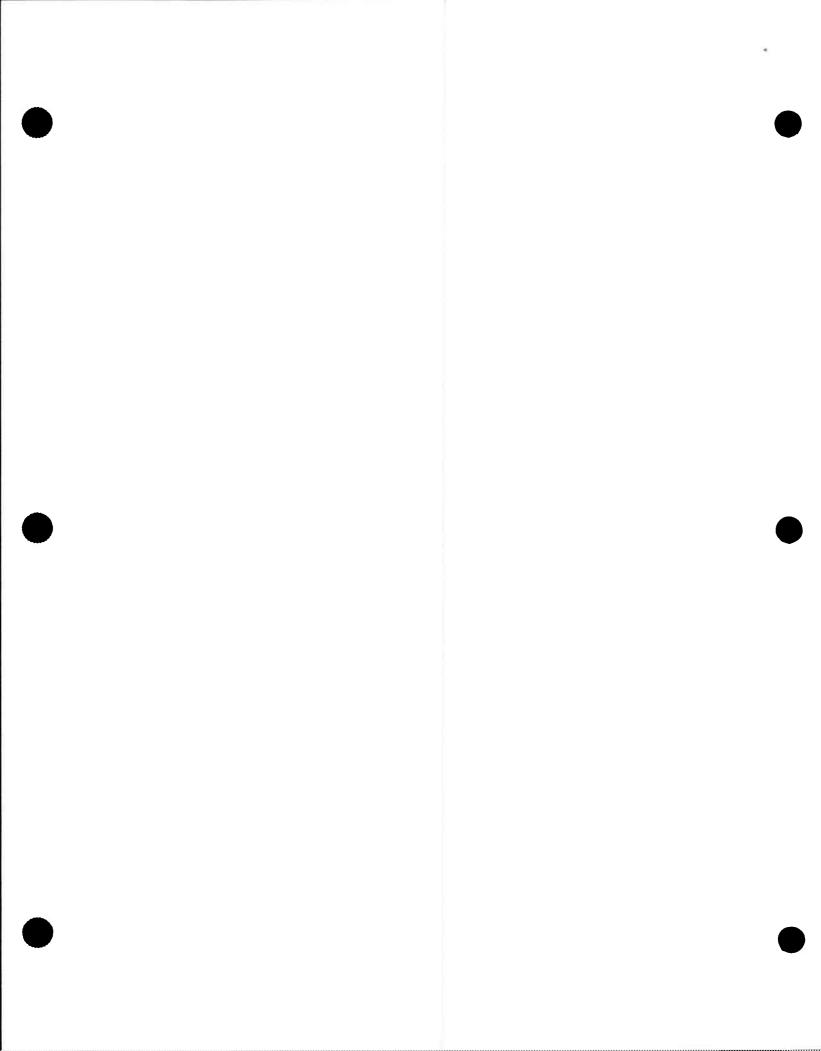

Recently, Creative Catering Temecula was booked and catered an event at the Winter White Barn. This husband and wife duo, Tonya and Trinidad, are awesome locals running a catering and event space business here in Temecula! They make a delicious spread and bring a team of local professionals to work hard. I love to have them and recommend their event space and services.

This is a small sample of the locally owned businesses I recommend and use at event spaces like the Winter White Barn. As small businesses we need places like the Winter White Barn to continue supporting and allowing growth for this community. I have personally seen the impact this space provides to its local vendors, businesses and charities and I know we need to fight for it to stay open. We can no longer allow big business to stomp out the little guy. We will run out of little guys and force people to leave this beautiful community.

Please fight for what's right on behalf of the little guy.

We appreciate your support and time taken to read our supportive letters,

Karissa Shannon Next Door Event Planning

To whom it may concern,

I am writing to you in defense of keeping the Winter White Barn open and operating. It has come to my attention that the venue is at risk of being shut down. I would like to tell you about the positive influence the Winter White Barn and its owner, Kelly Winter, have had on my life and the lives of others.

I am very happy as a Winter White Barn employee, but it is the opportunity that Kelly has provided my wife that I truly treasure. She has become a mentor to my wife, Karissa, as she works to become a full-time event coordinator. Kelly fills a similar role for several of us who work with her. So many people feel her positive influence.

Kelly employs many of her own neighbors at the Winter White Barn. We employees all come from local communities including Temecula, Menifee, Murrieta, and Wildomar. It is, in my experience, quite a blessing to work close to home for a local business owner who cares deeply about her community.

I know that Kelly has always been conscientious of her neighbors. Before opening the venue, she made sure to speak with each of them about having an event venue nearby. They all agreed it would not hinder the peaceful enjoyment of their own homes. I would suggest that the Winter White Barn has been a benefit to the neighbors who run local businesses. People attending a wedding there often seek other local activities to enjoy during their time in Temecula. Not to mention the neighbors who have come on as employees and enjoy a steady job close to home.

Kelly and the team at the Winter White Barn are also mindful of the cleanliness in and out of the grounds. All guests and events are kept well within the boundaries of the property. I have never heard of neighbors bringing complaints of noise, waste, wandering guests or anything of the sort. In fact, the grounds are so well managed that guests sometimes drive right past it without even noticing there is an event going on!

I cannot overstate the positive effects the operation of the Winter White Barn and efforts of Kelly Winter have had on the community. Winter White Barn clients hire local DJs, musicians, photographers, florists, shuttle services, caterers, food trucks and more. Events held there result in local hotels booking rooms and local restaurants serving more customers. Local bars see more patrons after a Winter White Barn event. Local Uber and Lyft drivers give more rides to Winter White Barn guests. Local wineries see more customers when event guests stay in Temecula.

In closing, I will share an anecdote that speaks volumes to Kelly Winter's character. These were Kelly's immediate concerns after learning the venue may close:

She could no longer help people make their wedding day unforgettable.

She could no longer benefit the community by employing neighbors and other locals or promoting local vendors to clients.

She would refund all clients their deposit for future events by selling the property, which includes her home.

She would sell her home to refund non-refundable deposits! This is a kind person who is clearly not in it to make a quick buck at the expense of the neighborhood. This is the kind of person everyone would be lucky to have as a neighbor. Kelly Winter wants to serve her community and create unforgettable moments for families. The Winter White Barn is how she does that.

I see no valid reason for the closure of this incredible venue, and I pray that you agree.

Thank you for your time, Parker Shannon

To Whom This May Concern,

I take great pleasure, honor, and pride to write this letter in support of Ms. Kelly Winter and the Winter White Barn venue in Temecula.

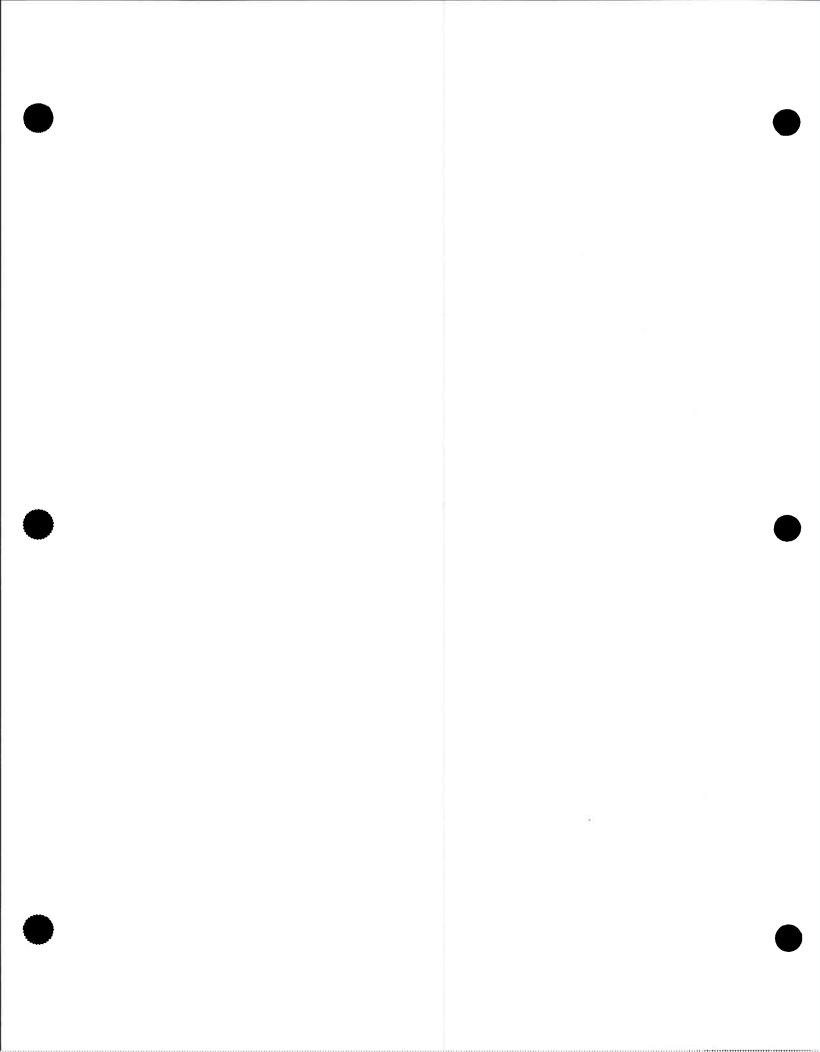

I am currently employed at the Winter White Barn; my position is working with the event staff. Although I had no experience working at an event center, Kelly graciously provided me with this opportunity. Working at the Winter White Barn supplements my income, it's a true blessing to me and my family as we no longer struggle to pay our utilities.

Over the last several months, I have been witness to many positive events at the Winter White Barn and how valuable the venue is to the Temecula and surrounding communities.

The venue not only supports me, but other employees and a large amount of local community vendors and partners such as caterers, bakeries, florists, photographers, DJ's, videographers, transportation companies, landscapers, electricians, plumbers, welders, etc. All of these companies and employees would be impacted financially without the venue.

Kelly treats her staff, vendors, and trade partners with the upmost respect. She is courteous to her surrounding neighbors. Kelly is well known to be a supporter of many non-profits, fundraisers, local artists and even the environment as the venue follows a strict recycling program. I have a large amount of respect on how ethically Kelly operates the venue. It is my sincere hope and prayer that you will see the value and positive impact of The Winter White Barn venue.

Respectfully, Fabi Carrillo 32645 Tucker Road Menifee CA 92584

B Support Letter

Stevie Dee <stevie@steviedeephotography.com>
To: Winter White Barn <nomadnuptials@gmail.com>

Tue, Jun 21, 9:32 PM

To whom it may concern,

The greater Temecula "wine country" community has become the desired location for those seeking an event venue, but few compare to Winter White Barn. The Winter family strives to operate this property as an asset to the local areas, and we believe they will continue to accelerate their contributions.

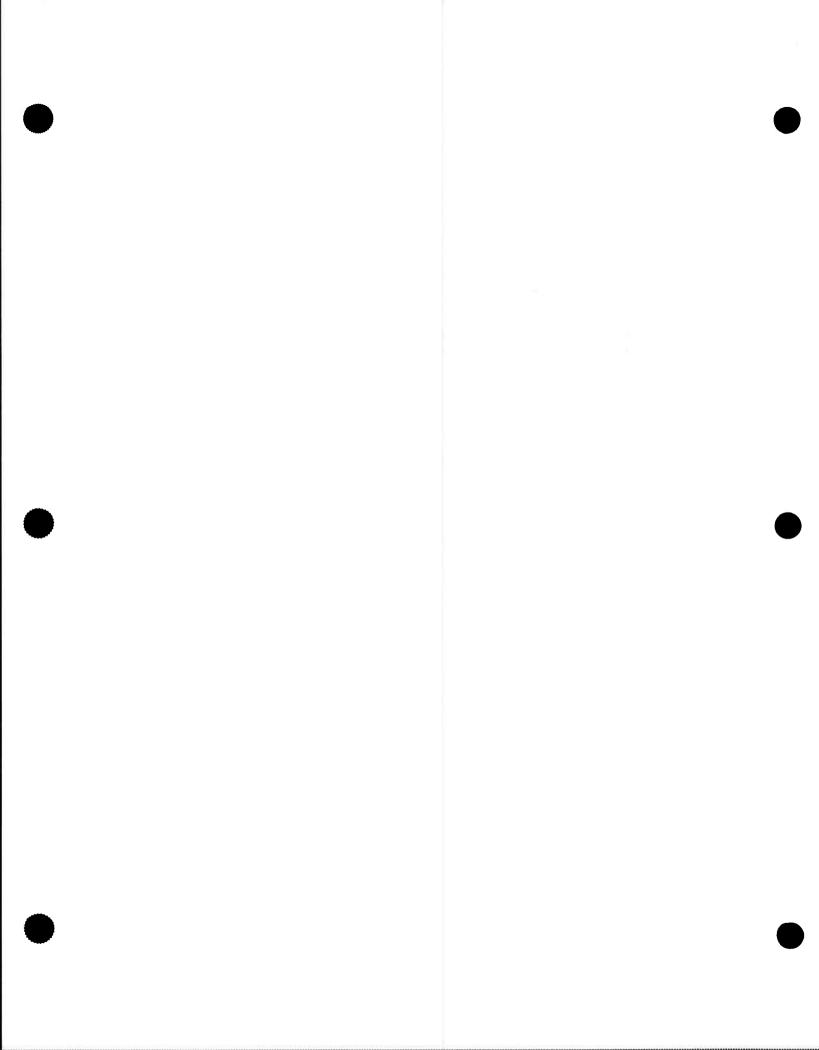

We are Stevie Dee Photography, a local photography team working with Winter White Barn. We have had the privilege to photograph weddings of our area residents, high school graduates of Great Oak, Chaparral and Temecula Valley High schools, family sessions, and other shoots for our community members at Winter White Barn, and they have always welcomed us to enjoy the beauty of the property.

It truly takes an army to appropriately execute a wedding or event, this army consists of several local vendors that are teamed with multiple associates. Each vendor works with local businesses to piece this all together, spending days, weeks, months, sometimes years to finalize it all for this one day. Compare this to a family tree, and you will find be "family" working together in our town, supporting each other as well as a plethora of nearby businesses. Winter White Barn is not alone, they are supported from their long family tree of Temecula based small businesses, we all love them, we all need them.

Stevie Dee Photography operates as a husband and wife team planting roots in Temecula in 2014 as a business, Stevie Dee became a Temecula resident in 2003, and Ryan Dee became a Temecula resident in 1987. We are not strangers to Temecula, our opinion is valid.

We have no doubt Winter White Barn and the Winter family will always keep our community at heart, and they will continue to pursue excellence. Temecula as a whole should be grateful to have such an influential family with us.

Stevie and Ryan Dee [Quoted text hidden]

My name is Cassandra with Classy Kay Events, My husband and I own our event coordinating company and videography company. Winter White Barn has helped us be successful in more than one way. She refers both of our services out to clientele in order for us to be able to work, to get bookings and feel more secure with running our small businesses. It is such a blessing to have Winter White Barns ongoing business and fear what it would do to us and our other small business owner friends if they were no longer able to serve our community as an event space. When things were really rough for my family, Kelly Winter reached out to me and offered me work by adding my company and my husbands company to her referral list, and it meant the whole world to us. Not only to feel more secure with our finances but we was able to do what we loved. It has given us a sense of stability and confidence in what we do.

We currently have events on the books and if we are unable to host them, it would really hurt so many; all the clients as well as my husband and I and all our other small business friends. This would hurt us not just emotionally but also financially in a catastrophic way. We have really come to depend on this beautiful property and taking

it away from us would just be wrong.

Winter White Barn benefits our community and the surrounding neighbors in such a positive and impressive way. Winter White Barn has a great relationship with their neighbors, there has never been a complaint because of the way that Kelly Winter has put her neighbors needs first. The events hosted at Winter White Barn benefit the neighbors so much that they bringing some of the surrounding neighbors on property to help with their events providing them and their families an extra income and a joy for what they get to be part of.

The events that Winter White Barn brings to Temecula benefits so many; from the vendors that rely on their business for their work, such as myself, as well as the surrounding businesses; hotels, restaurants, and wineries because the clients visit those establishments while enjoying the time they are having the event at Winter White

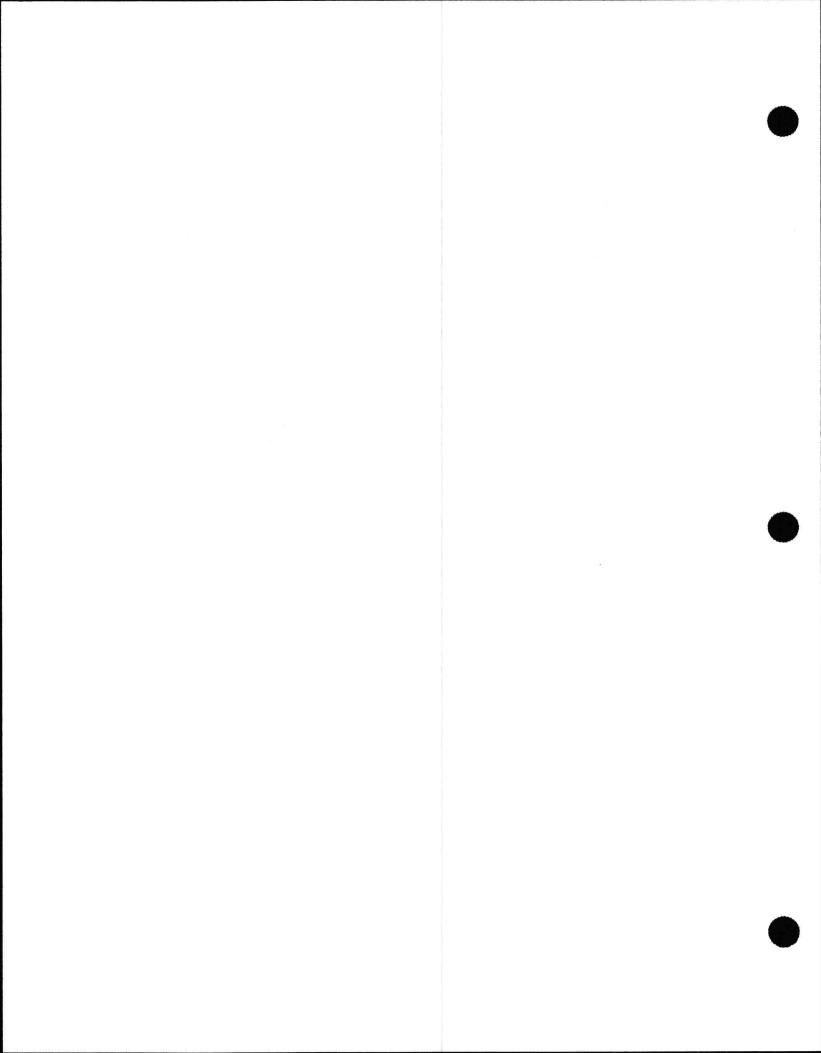

Barn.

This property is not just another event space, it is a home and a safe haven to so many. I feel so blessed to be part of it and can not image my life and how my business will survive without it.

It is so important that Winter White Barn stays open and active in order for our community, and the people within it to strive and be able to benefit from its referrals and support.

Thank you for your time and efforts, We will be praying for a positive outcome because so much is riding on this decision.

Sincerely, Cassandra Vazquez Classy Kay Events 951-551-2646

To whom it may concern,

I have known Kelly and collaborated in business with her for over 10 years. Kelly and her husband Brian, are well known and respected in many circles of this community. They are humanitarians to the core. Dreaming, like many, of planting futures and growing roots.

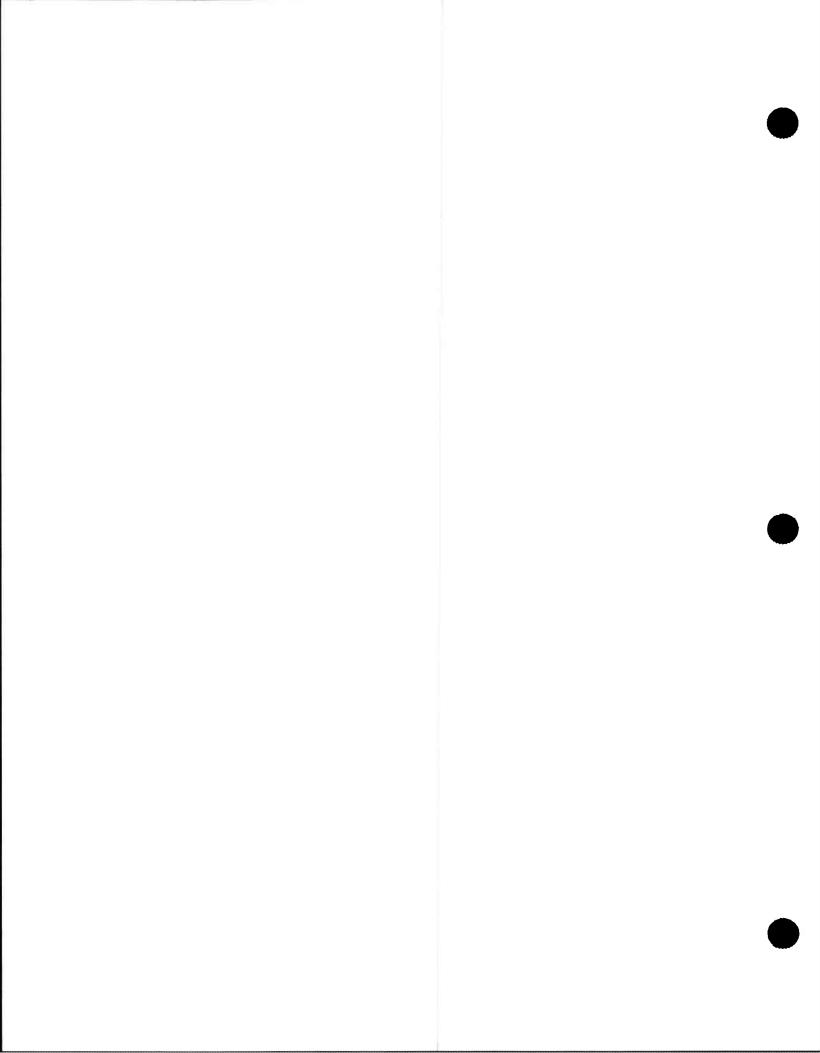

I'm grateful for our professional relationship-that has become more over the years. It is built from hard work, perseverance, honesty and years of building trust.

Kelly has opened her doors to our professional services over the years to all sorts of gatherings. If I lose their business I will suffer financial hardship. Moreover, it will be a crushing blow to the single moms that I employ. The community will feel the financial burden heavily.

Please understand my request is to make the changes necessary to let the Winter White Barn continue. family owned rural properties deserve the equal ability to operate among our growing Wine Country community. We all have something special to bring to our community.

Jess Hoene,

Owner Operator of 2 Olives & a Twist

To whom it may concern

I am writing this letter on behalf of Kelly Winter and her beautiful event space, Winter White Barn. My name is Steven Wall, and I own and operate a local mobile bartending company here in Temecula.

I reached out to Kelly after seeing so many people rave about her event space on a community Facebook post. Tons of local people commenting how great her spot was for their graduation party, fundraiser, wedding and more. After seeing all the positive comments, I knew I wanted to try and be a part of her team from that point.

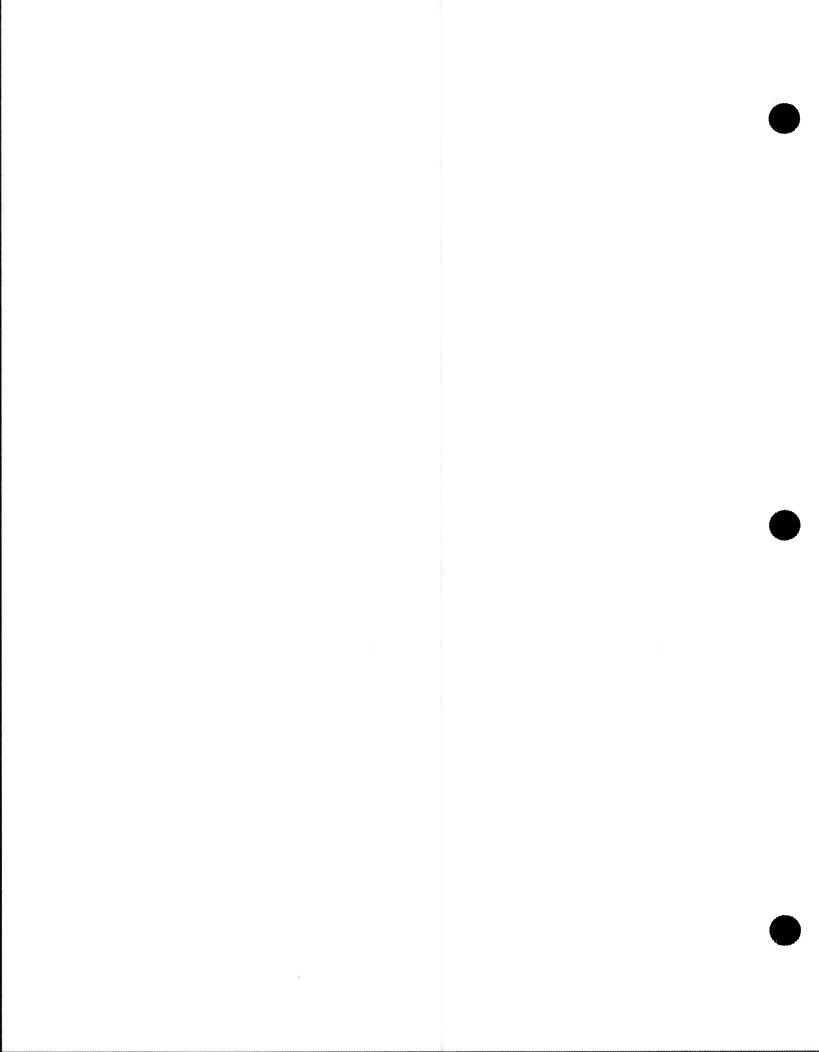

When I first met with Kelly in her parking lot, the first thing I noticed was she was outside with a decibel monitor. I've been to many venues, and have never seen this before so I asked her what she was doing. She was walking the fence line, and checking music decibels so that it wouldn't be a bother to neighbors. This was my first sign that she truly cares about her space, and is doing everything right.

After working with her on many events, I only grow more admiration for her and her dedication to her space. Her staff bends over backwards to appease any guest at events, and is always present to make sure everything runs smoothly. She even was roller skating with high school graduates at their party! Talk about being involved with every event!

As a small local business myself, I admire how she is constantly trying to better her business and put money back into it to make improvements. To say the Winter White Barn is a part of the community is an under statement. She employs local people of the community, helps small business like myself grow, and even gives back to the community by selflessly hosting local fundraisers for free.

It would be wrongful to shut her down. I speak on behalf of one of MANY small local businesses that count on her event space to be open to provide for my family. We all are part of the Winter White Barn family. This would be a shame to close her down for the elite corporates to make an extra dollar. Keep small local businesses open for the sake of our community.

Thank you, Steven Wall

Hi my name is Jennifer. I have lived in Murrieta for 17 years and love our community and the support of our people who live here.

I have had the pleasure to know Kelly personally and on a professional level for over 30 years. She is funny, loving, respectful, giving, honest and gracious and loves life!

I am fighting for her personally as a friend and on a professional level. She is active and involved and contributes to our community. Since Kelly has owned the Winter White Barn she has held several family and community gatherings that I have attended.

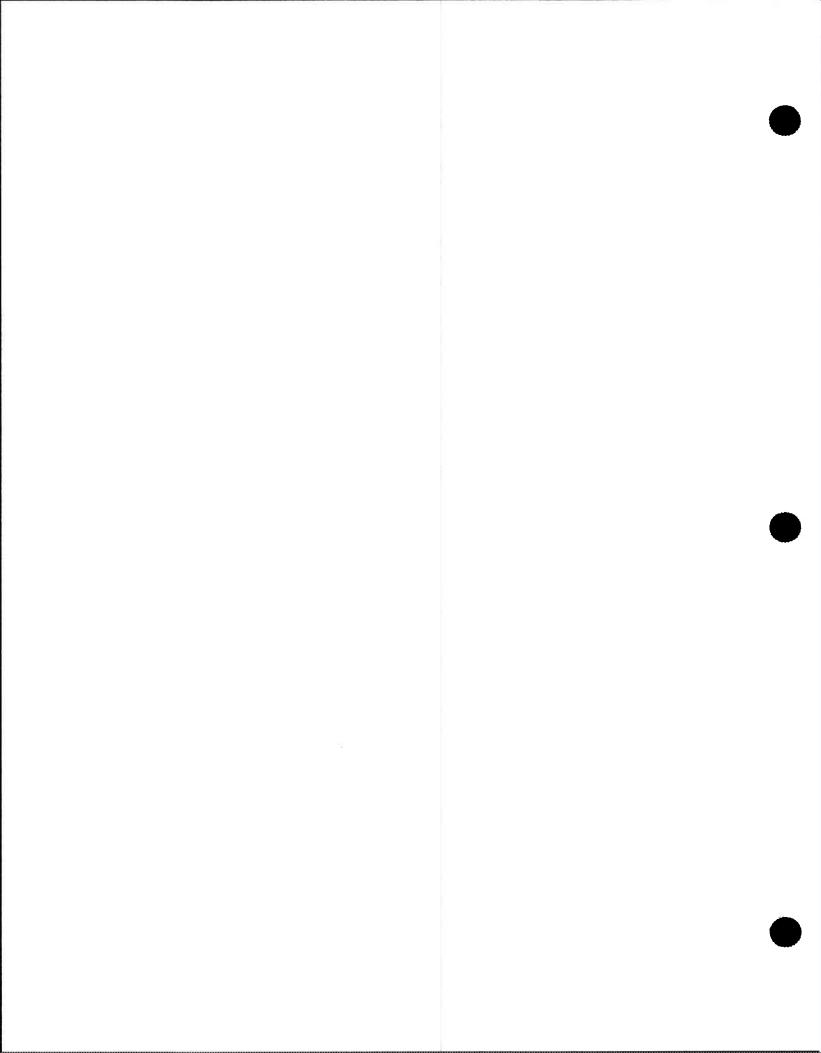

She supports local photographers, fundraisers, social gatherings, and our local businesses financially by providing them a place of business at the Winter White Barn. This is why I love Kelly. She thinks of her community as family and supports local businesses. She is an honest and trustworthy person inside and out and is a very hard worker. She will go above and beyond to work and communicate with you to provide whatever services needed to benefit her community in the County of Riverside.

Please allow my dear friend to continue to live out her dream with honesty, hard work, supporting local businesses, family gatherings and local fundraisers and to help provide financially for her family.

Kelly and her family have been nothing but supportive and contribute to this community in very positive and forward thinking ways.

Sincerely,

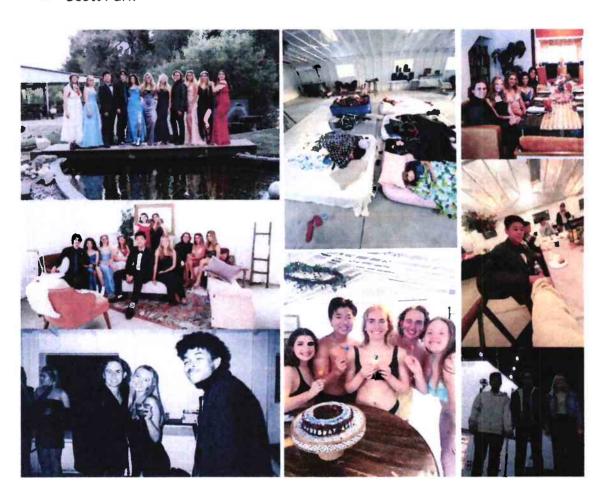

Jennifer Carr

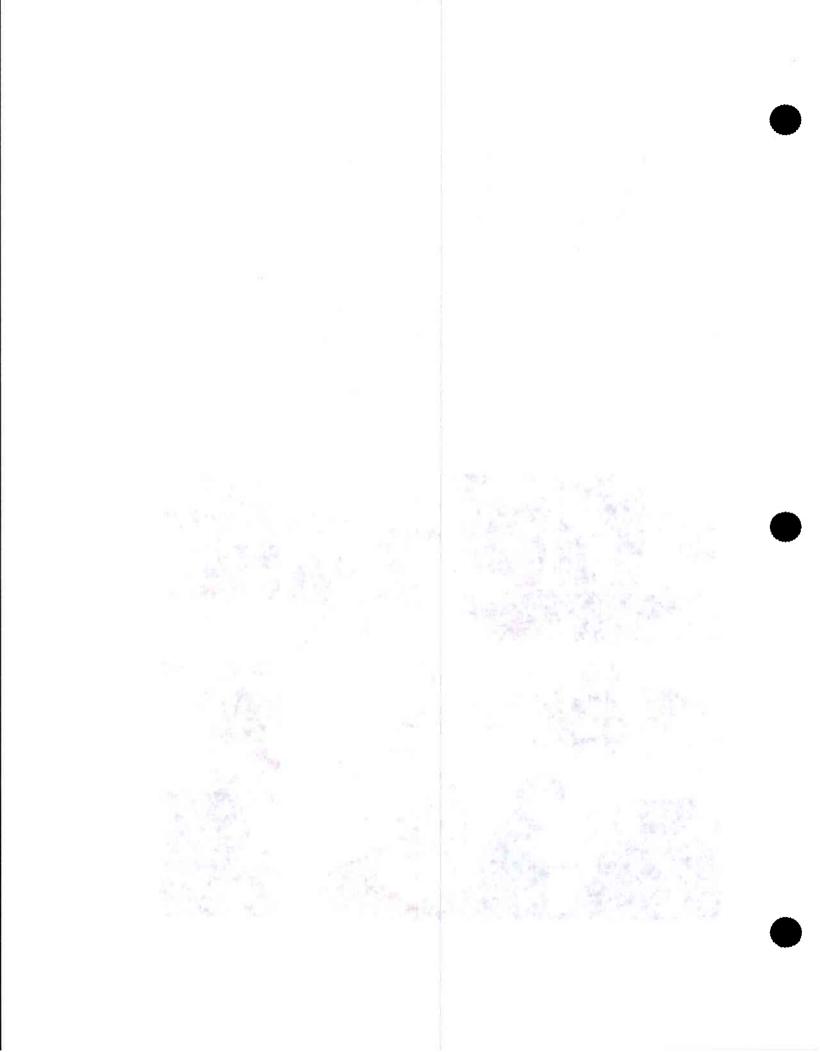

Dear County Members,

The Winter White Barn has been home to countless of my favorite memories, adventures, and activities, and does not deserve to be shut down. From a couple small sleep overs which I've participated in with friends in the Winter White Barn, to more extravagant planned out events like a prom dance with many of my friends, the Winter White Barn has been the perfect place for it all. As a resident of Temecula, I can proudly say that the Winter White Barn is one of the most beautiful places in Temecula, and probably one of my favorites places too. It would hurt so much to see these doors which were once open for us all suddenly and permanently shut. I am in full support of Winter White Barn, and hope a decision is made which prevents the Barn's closure.

June 21, 2022

Dear Mr. Bradley

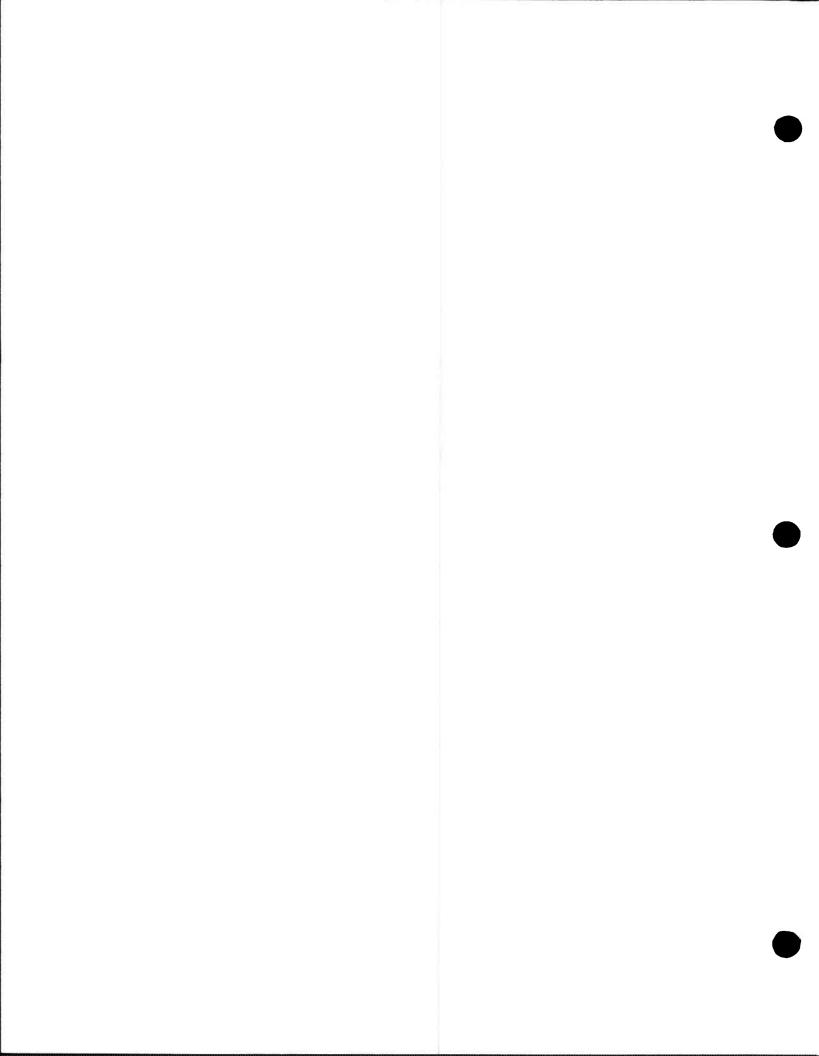

I am writing in regards to Kelly Winter and the Winter White Barn. Over the past 4 years, I have worked numerous events at her venue. Thanks to her, I was able to purchase a food truck, and now have six full time employees. She accounts for 50% of my business. If her venue were to close, I would have to lay off 4 of my employees.

Talking to numerous people at these events, I found that about 80% of the people attending stay in local hotels, visit the wineries, and eat at our local restaurants. Most have never been to wine country and are impressed with the area. Closing this business would not only effect Kelly, myself, and the numerous other vendors who work with her, but also effect the local economy as well.

Thanks for your consideration in this matter.

Greg lat

To Whom It May Concern,

RE: Winter White Barn Event Venue

I have known and worked with Kelly Winter for many years. She is an amazing person who has graciously opened her home and event venue to members of the community for a wide variety of events. I am fortunate that my company, Pete's Firehouse BBQ, has been a part of several events at Winter White Barn. Events like Memorial Services, Community Fundraisers, Corporate Retreats, Weddings, and Picnic Days to name a few. Kelly recently allowed my family to utilize her beautiful property as a backdrop for our family photos!

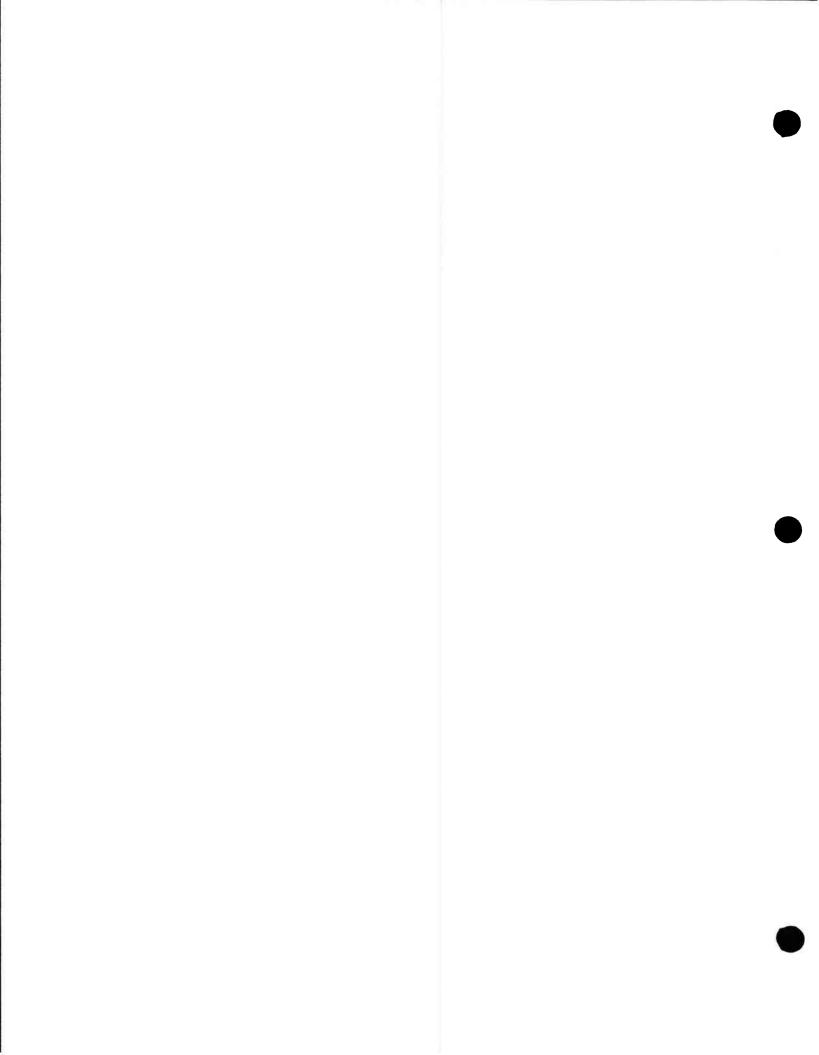

Without the support of Kelly Winter, Winter White Barn, and the events that we participate in, the lively hood of myself, and the 12 staff who I employ as part of our business will be very negatively impacted. Pete's Firehouse BBQ is a family operated; female owned small business based in the Temecula Valley.

I respectfully request that you continue to allow Kelly to host community events at the beautiful Winter White Barn!

Sincerely,

Melissa Lent, Owner Pete's Firehouse BBQ

June 20, 2022

To whom it may concern,

As a vendor serving the special events industry for the past 15 years, I am writing this letter on behalf of the venue known as Winter White Barn. Our group of 4 full-time professionals, (along with several part-time contractors) provides a top-tier, freelance mobile DJ / entertainment service for hire in Riverside county. Like many businesses, all of our work and thereby the usual means to provide for our families, simply stopped during the height of the pandemic. The upcoming events we currently have scheduled at Winter White Barn have provided desperately needed hope for the eventual recovery of our livelihoods.

I've personally known Kelly Winter for over 8 years now. I've seen first hand the careful consideration and attention to detail that goes into every decision she makes regarding events. Months before any event was ever held event at WWB, Kelly and I had several site meetings and long discussions concerning ways we could minimize a noise impact on the immediate surrounding community. Together with our respective staffs, we have developed and thus far successfully implemented, various systems to contain / control event noise. These include: constant monitoring of decibel levels at multiple points throughout the property, installation of sound equipment within a predetermined array pattern, baffles / insulation to absorb sound, consistent event timelines with a strict curfew and more.

Moreover, the safety of her guests has been of paramount concern to Kelly since day one. Many of the events are completely alcohol free, which has a major appeal to tourists and locals who enjoy the beautiful setting of the area, without the winery aspect. Licensed bartending companies are the only ones who serve alcohol at WWB. By Kelly's design, my staff directly makes multiple announcements concerning ride-share service times and availability, throughout each event. Every vendor and WWB staff member on site has been instructed to identify and report potential problematic guest behavior immediately.

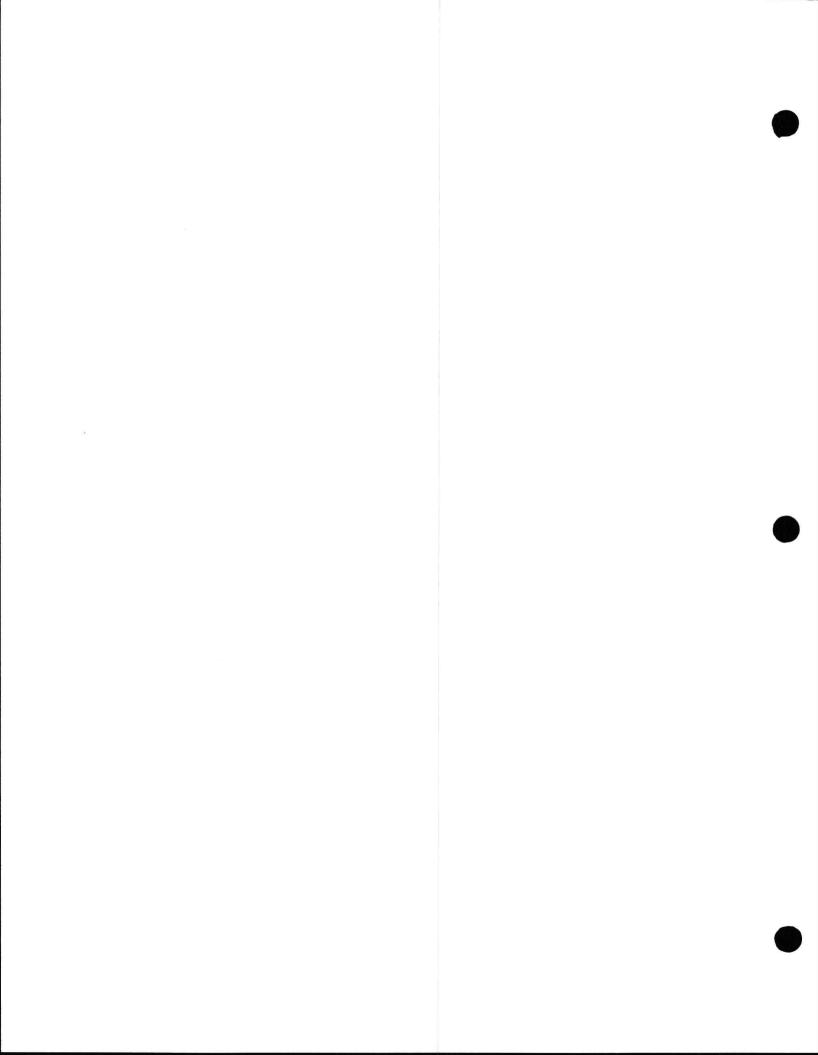

This hands-on approach from the owner is partly what sets WWB apart from others. The genuine care for guests and respect Kelly shows her community is obvious. It sets the standard for all of us that are lucky enough to be a part of this team. Amongst a multitude of surrounding event venue options, Winter White Barn provides a truly unique setting and authentic personal touch.

Sincerely,

Frank Pompeo, Owner

To Whom it May Concern:

It is with great concern for me to write this letter and share my personal feelings regarding Kelly Winters and the Winter White Barn. I have lived in the Temecula Community for over twenty years. Our family has had the privilege of serving our community and working with many individuals and organizations throughout the years. I can say with all sincerity that is rare to meet and work with someone as conscientious, hardworking and service oriented as Kelly Winters. Our extended family has been involved with several of the sporting organizations including the Temecula Valley High School Basketball program. Kelly cares deeply about our community and offered her beautiful venue to host the Basketball Banquet to honor the various players and coaches. Her work ethic is rare. I have seen her pour her heart into this venue and do the hard physical work herself to make the Winter White Barn the special place that it is today.

After our daughter was married she opened up her venue to give us a memorable opportunity to have a reception to celebrate as a family. Not only was this so generous and such a blessing financially but she went out of her way to make all of us feel so welcome and comfortable. She truly has a heart of gold.

Lastly, as I was personally coming into

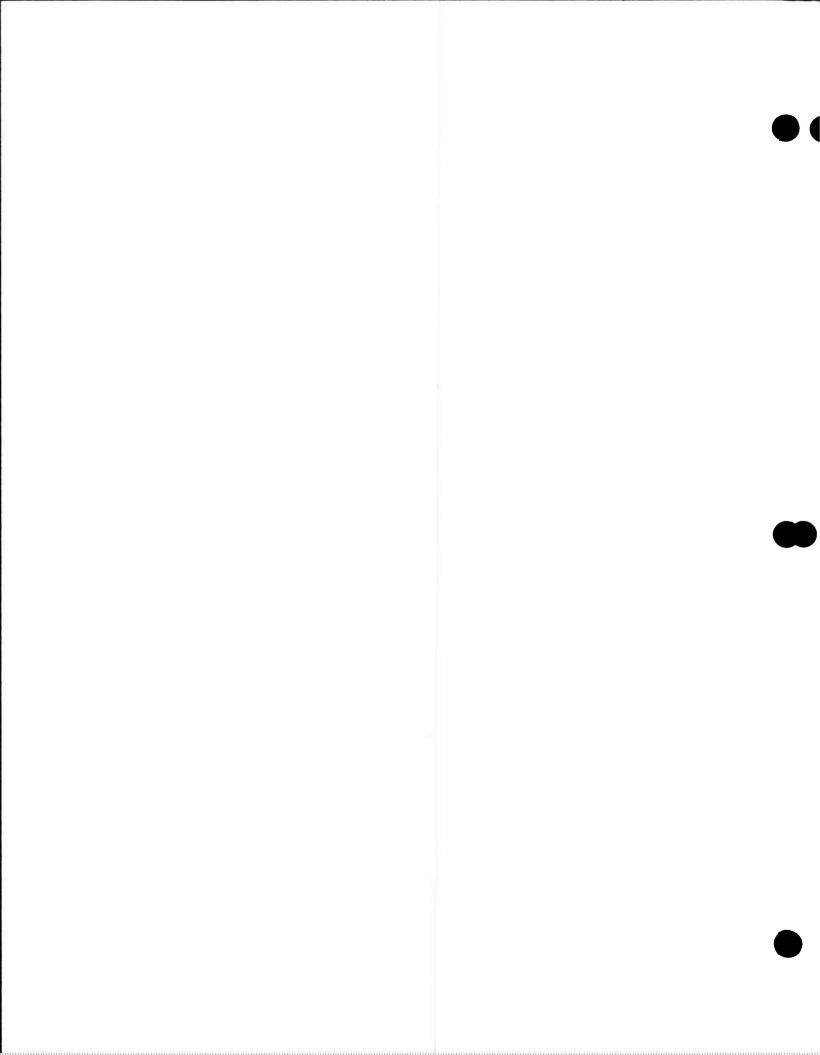

a transition in my life and trying to build a career for myself as a florist she was extremely instrumental in so many ways. Her support and confidence in me helped me build a business that has blessed my family.

It is extremely rare to find an individual with so much integrity that truly cares about our community and makes the effort to help the individuals of this community. What she has created at the Winter White Barn is special and something our mmunity should cherish and respect. Thank you for your time and the service that you provide to the people in our mmunity.

Sincerely, Cathy Jacobsen

To whom it may concern,

I have recently learned of the heartbreaking news that Winter White Barn is at risk of being shut down. I personally have worked events at Winter White Barn as a Bartender for more than a year now. Kellie, the owner, and her team have always displayed professionalism and friendliness to myself and the staff I have worked with. I have seen them go above and beyond for their clients whose event is taking place.

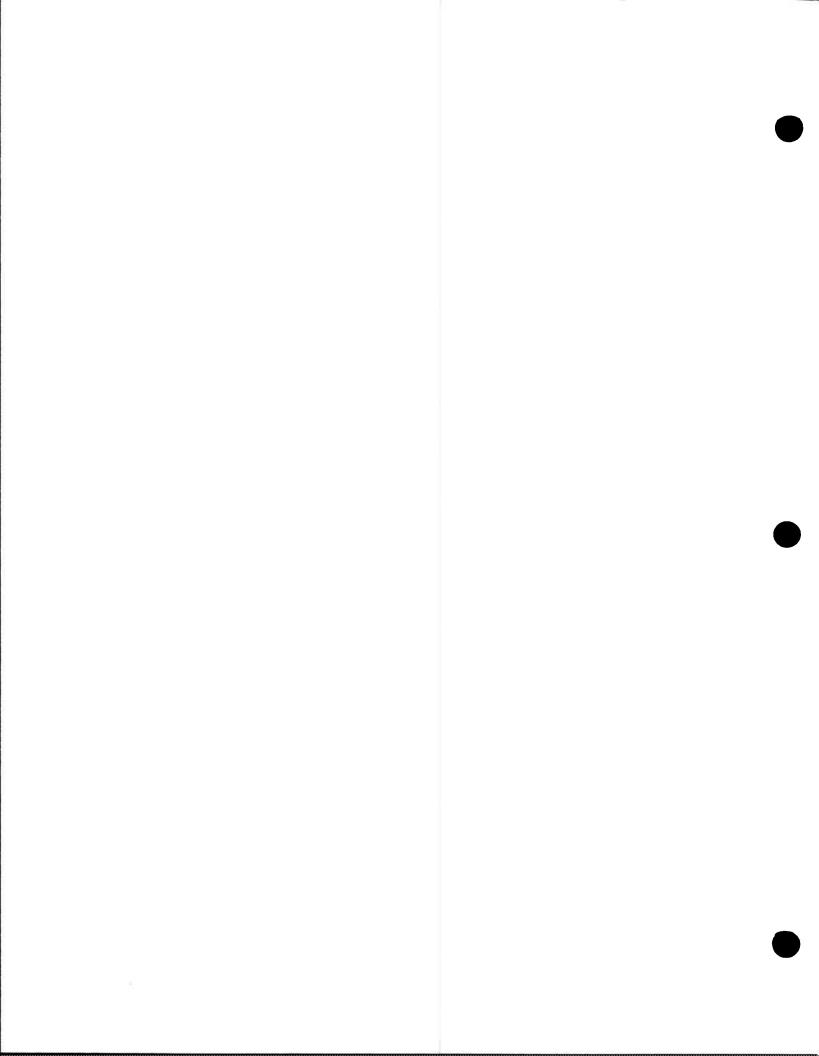

Their Venue is absolutely breathtaking and offers the perfect ambiance for any event. I have watched them pour their heart and souls into continually growing and improving their venue. I have worked at many Venue's and the Winter White Barn is my absolute favorite. The clientele that I have served at Winter White Barn has always spoken highly of the service they were provided and are grateful to have such a venue to host their special events at!

It would be a great loss to the community if Winter White Barn were to be shut down. It not only provides a beautiful venue for any event but it also provides a steady source of income for many. Not only the staff who are employed by Winter White Barn but also many local Vendors who are hired by clients to work their event.

As a subcontracted vendor and as a friend to Kellie and her team, I am asking you to heavily weigh the impact that'll be caused if Winter White Barn we're to be shut down. It would be devastating to the community and to so many others!

Sincerely, Amanda Burroughs

Dear Planning Committee,

As you will see I have taken the opportunity to write two letters that speak about the nature of the Winter White Barn. The first is about the personal cost of the closing of my employment. This second letter is a chance to brag about this business that is GREAT for this community!

I feel I have a responsibility to speak on this because the Winter Family is humble, generous and altruistic. These make them amazing business owners and community members but not so great at "tooting their own horn."

Over the last few years I have been able to watch as Winter White Barn owner Kelly Winter has put her neighborhood and community first in all her decisions related to the Winter White Barn. She strives to promote and utilize small-business owners from around the community, including photographers, cateriers, DJs and others for the various events she hosts.

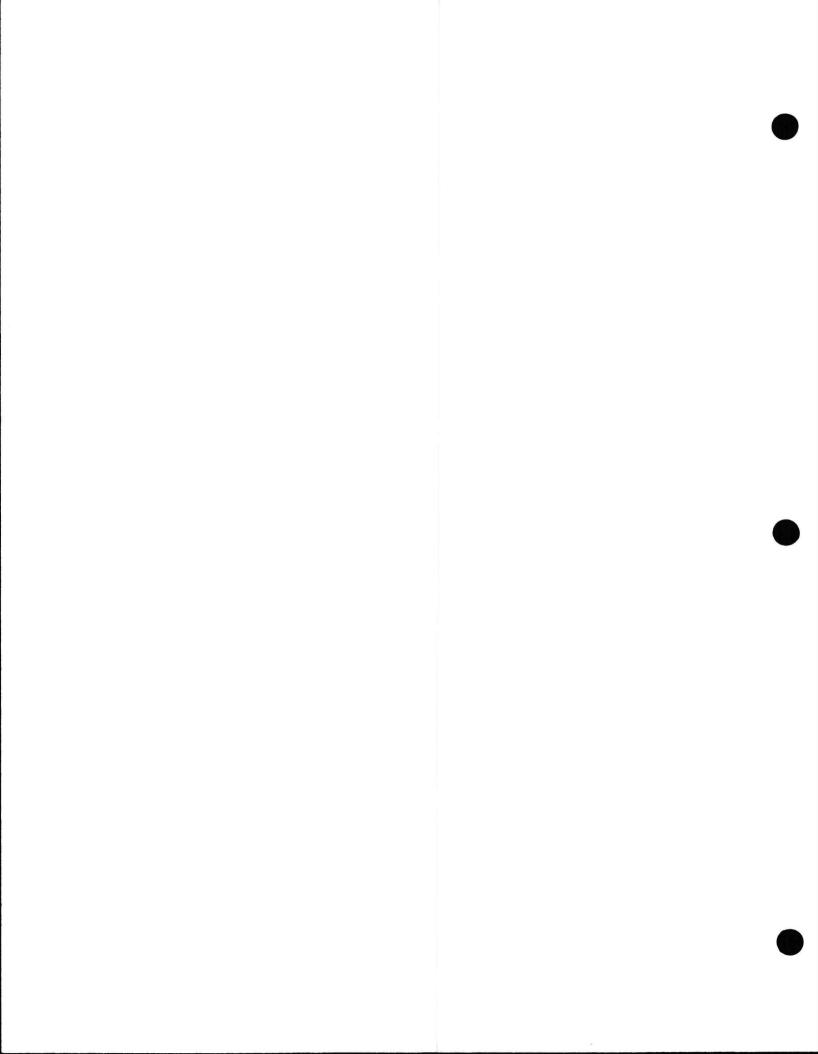

The Winters strive to open the gates for all groups in the community, including an upcoming fundraiser for a local pet charity, a team building picnic for a small business, many photo shoots, and an Easter egg hunt for some pretty lucky kids. Kelly Winter donated her time and location to make each of these events memorable.

Working for and with Kelly Winter and the Winter White Barn has been a great lesson in community awareness and inclusion. I am so proud to work for a company that can see the needs of others before profits.

Thank you for letting me share what I get to see on a daily basis.

To whom it may concern

Dear Madam/Sir,

I have known Kelly, owner of Winter White Barn, since 2018. She always struck me as an extraordinarily creative, kind, and generous person. She is also contagiously positive, fair and just, and in my perspective, Temecula is lucky to have a citizen like Kelly and a venue that embraces ALL with such love.

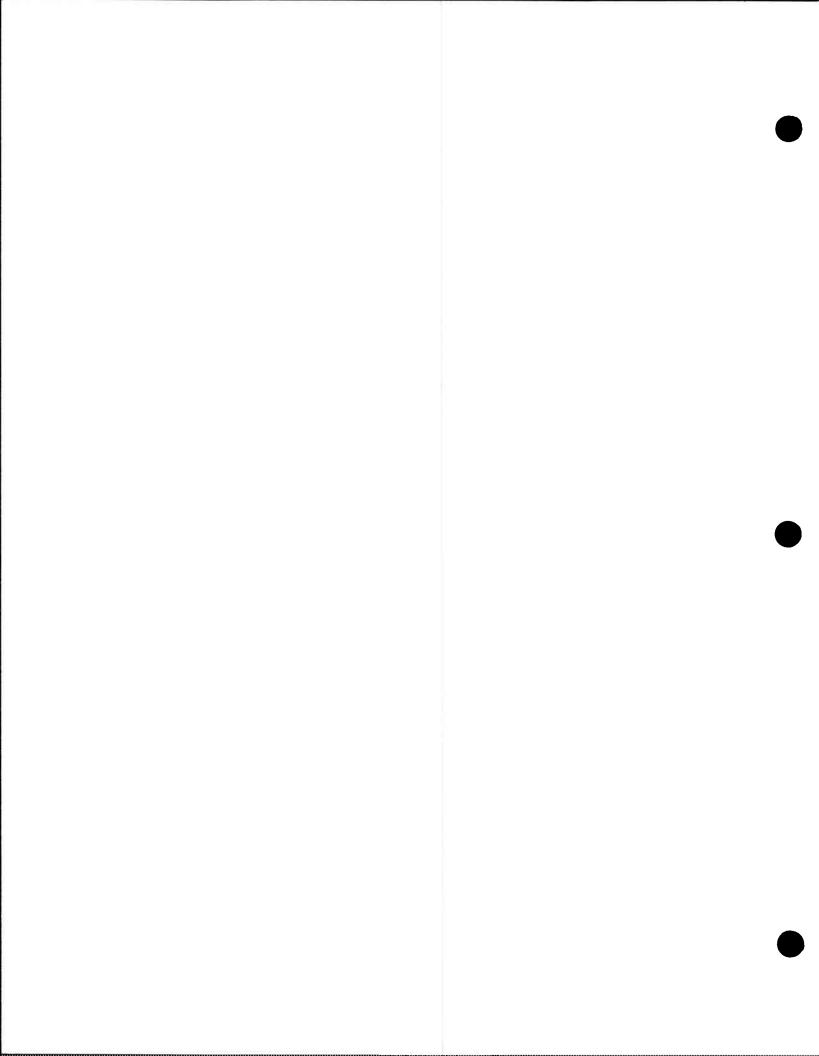

I have followed the transformation done to the property with countless hours of hard work and I am amazed at all the details added with care and love, always with guests and vendors in mind. Winter White Barn has impacted so many lives already and Kelly has built a special team that depends on this business.

I have lived in Temecula since 2014 and enjoy the wineries. Quite a few times, as members, we are surprised by limited hours due to private events. Having Winter White Barn as an option is brilliant and as Temecula continues to grow, one more reason for people to come to the area.

I truly hope the positive impact Kelly and her business bring to Temecula will be cherished and encouraged.

Sincerely,

Dorley Einoder 1-213-9250

Dear Committee Members.

I am writing on behalf of the Winter White Barn. Since Kelly Winter is my sister, I have had the pleasure of attending many, many family and neighborhood events at the WWB. With a family of 50+ members, her property is the perfect location to celebrate Thanksgivings, Easters, graduations, birthday parties, family gatherings (just because we like each other!) and weddings for family and like-family friends.

She hosted an outdoor birthday party for my mother as she turned 85. It was a sweet time with my nephew interviewing and recording my mom talking about her life. That became such a treasure, as we sadly lost my mom a few months later. Subsequently, Kelly hosted my mother's Memorial Service for 100+ family and friends. Being outdoors on the beautiful Temecula property was a perfect location for our friends and family to share memories and cry together.

Kelly is always focused on promoting and supporting local businesses. She's paid to have photographers, coffee carts, food trucks, caterers, DJs, etc., at our big family events. Her events also support the community because those of us who live in San Diego County, Arizona and South Dakota often buy gas, have dinner, stop for coffee, and even pay to stay overnight in Temecula.

I was thrilled that Kelly hosted my nephew's wedding as well as the wedding of some of our close family friends. I'm always impressed that she is so careful to abide by all the county rules while graciously providing and coordinating such beautiful nuptials. Another fun event I was able to attend at the WWB was a big 40th birthday dance party, where Kelly donated her time and location, and coordinated the use of local catering and bakery services as well as a super fun DJ.

Additionally, Kelly is gracious in allowing nonprofits to use her property without pay. She let my church Emmanuel Faith Community Church in Escondido, film a sermon at her property. Next month, she's hosting a fundraiser to support a neighborhood farm-animal rescue, which I am excited to attend.

As an Associate Marriage & Family Therapist who is working on her Doctor of Ministry through Bethel Seminary, I have dreams of hosting spiritual and life-giving day retreats at the Winter White Barn, as the setting is perfect for prayer and self-reflection.

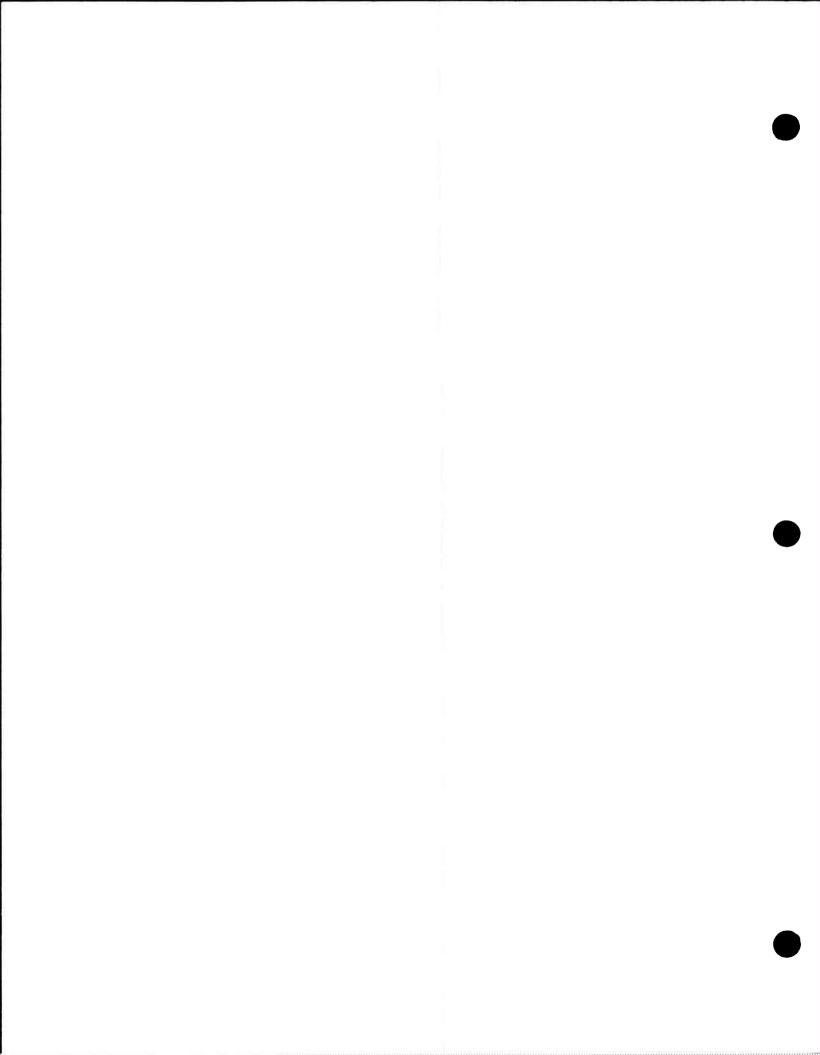

With all the memories of so many family events at the Winter White Barn, losing this beautiful backdrop for our sweet times together would be heartbreaking to our family.

I so appreciate you letting me share about this altruistic family and their picturesque Winter White Barn.

Sincerely, allege

Cyndie de Neve 619-889-4471

ccdeneve@gmail.com

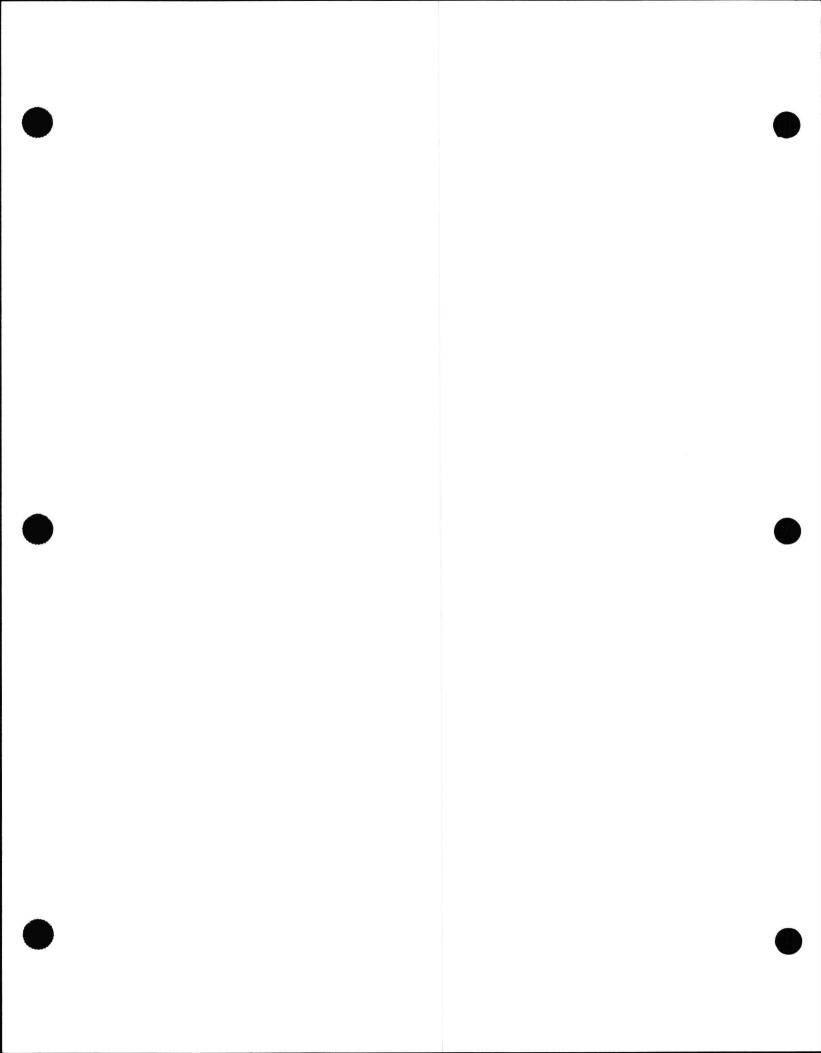

Good afternoon,

I'm writing to share my experience working with the Winter White Barn in Temecula, Riverside County.

The Winter White Barn was the location and host for the memorial of my husband's grandmother. She was the beloved matriarch of a really large family and her loss was deeply felt by us all. When it became safe for us all to gather again and celebrate her life, we knew we needed a location that would allow social distancing and yet a beautiful environment outside. The Winter White Barn was exactly that. My family was able to all be together - the first time since the pandemic began - and honor Gammie while also being responsible. The WWB fills a necessary need in the community... an outdoor location hosted by the owners personally, offering a serene location for those who are wanting to gather without it being a whole machine. It is simple, heartfelt, and a gem in Temecula.

Sincerely, Janell Chan

Cathleen Chan

RE: Kelly Winter and the Winter White Barn

June 18, 2022

To Who It May Concern,

I am writing today in support of my sister and brother in law Kelly and Brian Winter. She has a lovely home at which she has hosted innumerable family events as well as community and school events.

Kelly just hosted our extended Claypool family reunion. It was a lovely day. We shared several hours in her beautiful, relaxing environment. She hosts our family regularly for most major holidays. We are deeply grateful for the Winter's big hearts and wonderful generosity.

Kelly has hosted a wide range of family functions, from pool parties to my youngest son's wedding. Probably the most intimate of all events was the gathering to honor my our mother's life after her passing. My mother was the queen of creativity and "can do" attitude. As the wife of a Marine, she believed strongly in making the best of what you have been given. My sister Kelly reflects that in her everyday life and mom was so very proud of all of the beautiful plans Kelly brought to fruition at the Winter White Barn.

As far as I know there have never been any neighborhood complaints about events held at the Winter White Barn. Kelly is very careful about noise restriction and is happy to abide by reasonable regulations that are made known.

I have some very big questions about the validity and constitutionality of restricting opportunities for someone to conduct a business on there property. I especially question the motivations of the parties that are attempting to shut down these businesses. I can only speak for my sister's property and business. She is highly responsible and is in good relationship with her neighbors and has had no negative reports. Kelly provides needed employment for community members, hosts community events,

sports banquets for local high school teams, memorial services, and as stated MANY family events.

My hope is that a closer look, and deeper examination would be made considering the questionable motives the entity which wishes to close down peoples' livelihoods. I would also love to have a better look at the benefits these small business provide to our local community. My sister's property provides employment opportunities of many local vendors: florists, event planners, baristas, bar tenders, coffee carts, caterers, DJs, as well as family members who count on their employment at events for their living..

PLEASE do not make these moves and regulations flippantly with an eye only on the parties with money and power. PLEASE think about the people with little power and little money but with big hearts and motivation who are making the best use of what they have in order to benefit local service businesses and individuals.

I am trusting that you will open your eyes wide and ask WHY?! Why do the powerful wish to squash the small business, this is NOT how our nation was founded, We are supposedly a nation that honors grit, determination, and an individuals right to lift themselves up. The big guys were once small, the big guys sometimes show themselves to be bad guys, This just might be one of those times.

Sincerely yours,

Cathleen E Chan

Cathleen F Chan

Teacher, big sister, lover of nature and Kelly's creative enhancement of the natural beauty on her property, and one who benefits frequently from the beautiful space she has created.

To whom it may concern,

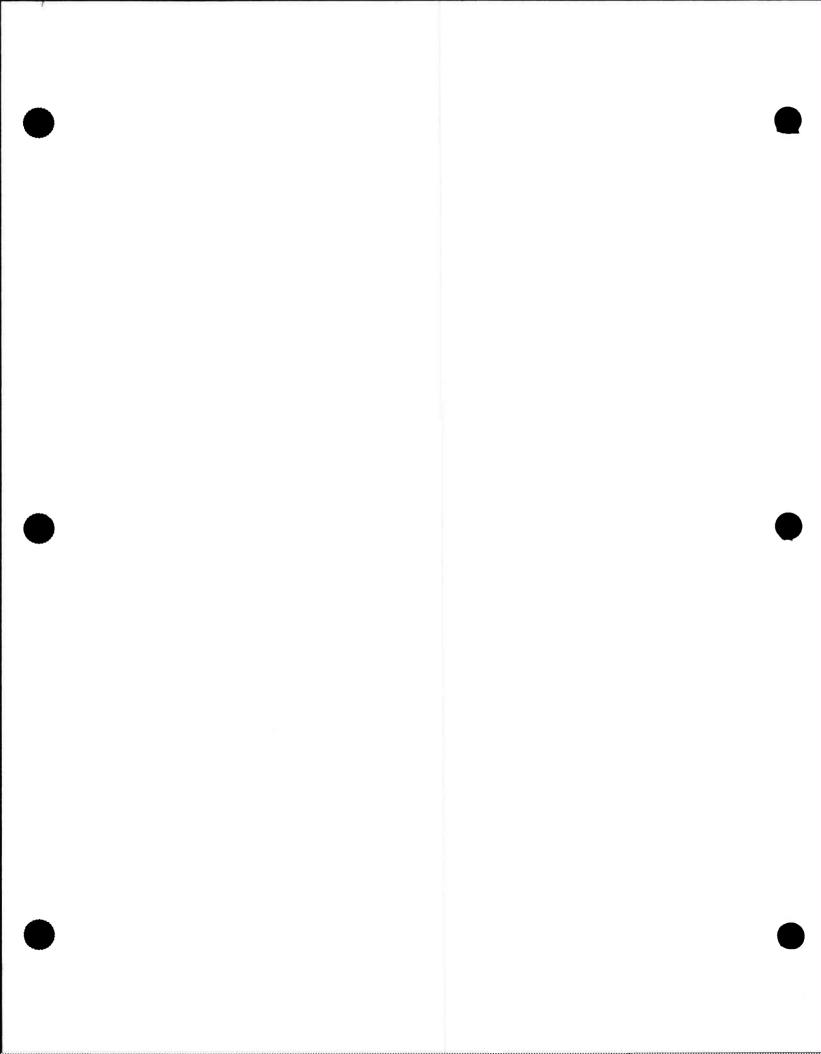

I am in support of the winter white barn! Please do everything that you can to keep its doors open! I have been to many different events at the barn such as birthday party's, pool parties, graduation parties, sleep overs in the barn, movie nights, mini prom, mini homecoming, scavenger hunts, and young adult easter egg hunts.

Kelly Winter has been a big supporter of our community since I was a very young child at Rancho Elementary. She made our parties and festivities next level, and our yearbooks wouldn't have been the same without her.

She brings that same generosity,creativity and kindness to every event here at the Winter White Barn. Our community will feel the loss if their doors close to events.

Please keep the love alive!

- Ryan Stanton

Wed, Jun 22, 9:30 AM

To whom it may concern,

I wanted to share my story with all of you regarding my friend, Kelly Winter, and her beautiful property know as the Winter White Barn. I have known Kelly for 18 years and we have raised our children together in our wonderful community of Temecula, California. When my son and his wife got engaged last year, they knew they wanted to get married close to home, especially so family and friends could attend. I immediately contacted Kelly, who generously offered to let us use her property for the event. I had followed her journey and watched her vision come to life, so I already knew how beautiful her place was. As soon as we toured it, with tears in all of our eyes, we knew it was the perfect place to hold their wedding. It was just magical.

Kelly was so kind and generous in helping us plan every aspect of the special day. She provided us with a binder full of pages and pages of local vendors she trusted and had built relationships with. It made everything so much easier knowing we could fully trust these local small businesses and that we were supporting our community by using them.

What this venue has offer our community is truly unmatched. I toured, visited and called every other venue within an hour radius of here. None of them gave anywhere close to this level of personalized attention, and assistance in planning. Or offered the ease of having so many areas to gather and host an event, such as a wedding. I don't know what we would have done without all of her help. Kelly's passion for event planning has already been a gift to so many of our friends in our community by hosting high school basketball banquets, birthday parties, and weddings.

Kelly and her helpers made our son and daughter-in-law's wedding day more special than we could've ever imagined. They are some of the most thoughtful, caring, generous people I have ever met. It was what every wedding should be, a community coming together to celebrate the bride and groom and make the day magic for them.

We are all forever grateful for her generosity and allowing us to use her beautiful

property for their special day.

Sincerely,

Annette Saenz

Aur Wedding experience at Winter White Barn

Kyle Saenz <kyle.saenz7@gmail.com> To: <winterwhitebarn@gmail.com>

Wed, Jun 22, 5:53 PM

Hi Kelly,

Marissa and I wanted to write you a letter on our wonderful experience of getting married at the Winter White Barn.

When Marissa and I were searching for a venue, it was difficult to find the perfect space for our wedding. My mother then reached out to you as a dear friend and you kindly toured us through your venue. We instantly knew that the Winter White Barn venue was the most perfect place to host our wedding day. You generously walked us through all the steps of planning out our wedding day. From helping us with styling the decor to providing us with an organized binder, you were such a tremendous help to making our wedding day happen.

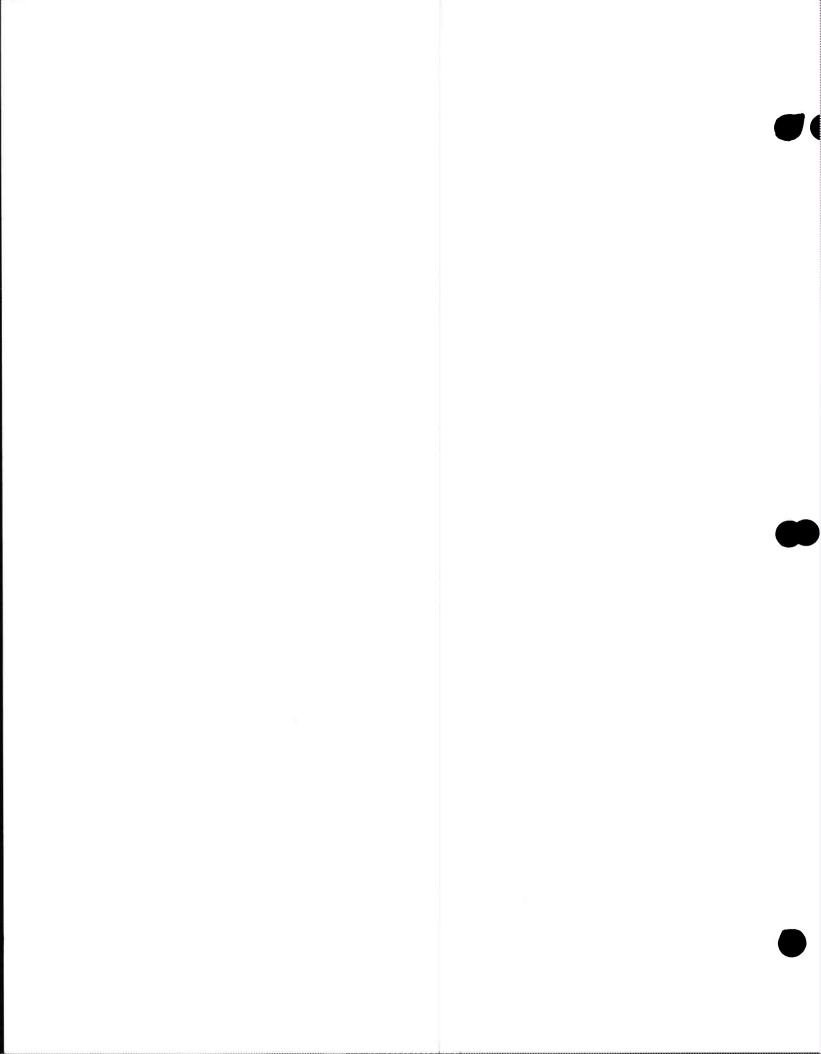

The binder provided was so great because it gave us so many excellent vendor options from local vendors in and near Temecula. This was extra special because Marissa and I both grew up, met each other, and fell in love in Temecula. So to have our wedding at your venue with all local vendors, just added so much more impact to our wedding day.

We truly believe there is something so unique about your Winter White Barn venue. And we couldn't be more grateful for how you helped us navigate vendor selection, wedding details, and even during our wedding day. You truly do it all Kelly and whenever we visit Temecula, we always think about our wedding night at the Winter White Barn.

Thank you for everything you've done for us!

All the best,

le and Marissa Saenz

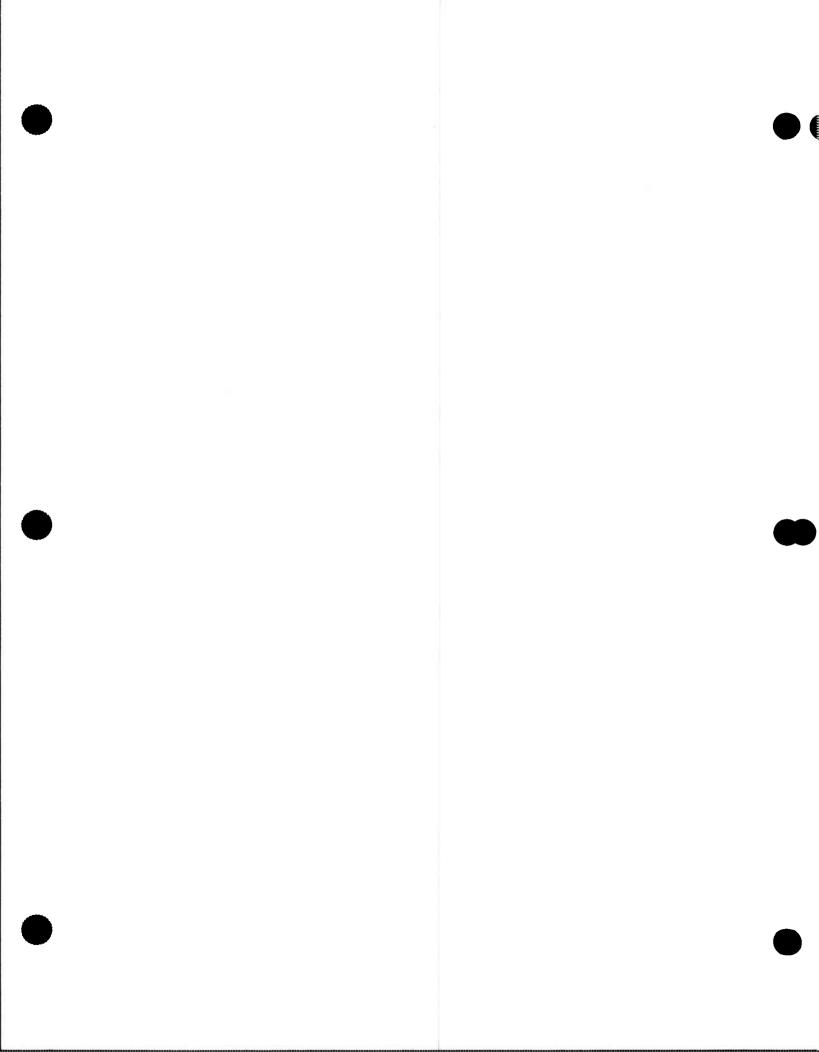

To whom it may concern,

Winter white barn has a very special place in my heart. My husband and I met in Utah, however we knew we wanted to get married in Southern California. We held our small intimate wedding at the winter white barn and it was a magical day. A few short weeks after our wedding we quickly decided this was the place for us to move and start our family. Shortly after moving here I got my real estate license and grew to learn and love this valley so much. I talk to many different members of the community and whenever I say that we got married at the Winter White Barn, everyone starts to gush about the place. I ALWAYS recommend winter white barn, for all sorts of event needs.

As a realtor, it's my job to educate people about the area and all it has to offer. This area is rich in history and beautiful sites. Here in the valley, we are a small-knit community with a small-town family feel. And that's exactly what I think of when I think of the winter white barn. A beautiful piece of property, a small family-owned business, where the magic happens. Keeping the winter white barn running is not only important to me, and all future persons who will hold their event here, but also to the very history of Temecula.

Sincerely Tia Inman Realtor Tia Inman

To Whom it May Concern,

Three years ago, I started following an adorable event space on Instagram that had a beautiful white barn and had photos of happy couples getting married amongst other celebrations. 6 months ago when I got engaged, I knew the Winter White Barn event space was the only place I wanted to get married.

It wasn't until meeting Kelly Winter in person, that I became completely sold on the event space. My fiancé and I were in agreement that we trusted her team with everything for our wedding and knew they would make it the best day of our lives. My fiancé grew up in Temecula and his family resides there, which is a big reason we knew we wanted to get married in Temecula. Winter White Barn is a gem in the Temecula community and adds some spice to the usual and traditional winery wedding venues that don't fit everyone's personality.

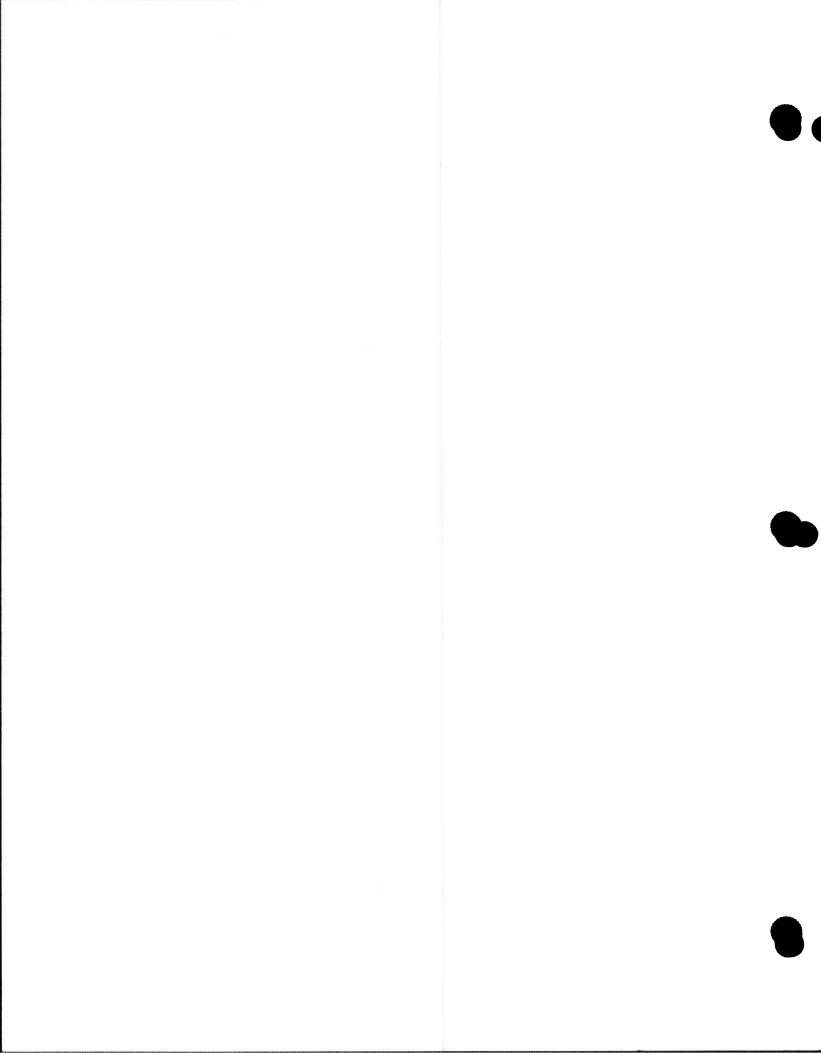

We have spent a great deal of money already, all going right back to the great city of Temecula: Airbnb rentals, a next day celebration at Wilson Creek, local food vendors, and a Temecula based bakery are on our short list of things that we have paid for already.

I can't even fathom not having my wedding here. It would truly be devastating not only to me, but the hundreds of other couples that Kelly and her team has touched the hearts of. From the moment we signed our contract, Kelly's team has been on top of it with details, formalities, and has truly given us a sense of comfort while planning for this special day. Even during this unforeseen time, Kelly has remained professional, comforting, and I have full faith that her and her team will do whatever it takes to keep the magic of Winer White Barn alive, and abide by whatever changes you require them to make.

The hardships that would come with the closure of Winter White Barn would not only be devastating to me and the City of Temecula, but losing Kelly's team and not being able to have them in our corner for our wedding, is something that I can't imagine. They bring great value not only to Temecula, but to everyone who has had the blessing of experiencing the magic that this team and space brings.

Sincerely.

Rachel Deitch

To Whom It May Concern:

I am writing this in support of Kelly Winter's venue, the Winter White Barn in Temecula, California. My daughter, Marissa Donine and my son-in-law, Kyle Saenz were married at the Winter White Barn on March 12, 2022. From our initial meeting with Kelly to the actual wedding day, our experience was nothing less than exceptional.

It is not often the bride, the groom and their respective families can unequivocally say that the planning and execution of their entire wedding came off flawlessly, but in our case, and I attribute it to the fact that we had the benefit of partnering with Kelly Winter and her amazing venue and staff, it most certainly did.

Kelly is the consummate professional and together with her supportive staff, she was able to provide a world-class experience. Her unique property provides a serene and beautiful setting for any event. Every part of her space is carefully thought out and provides a fully functional venue with tons of options to customize and create the perfect event.

Kelly provides guidance and support and ensures that the customer's every need is met. I am a free-lance florist, and have done many weddings and special events, primarily in Los Angeles and surrounding areas. In all my experiences, I have never had the privilege of working with such a professional venue. The Winter White Barn is exceptional in that, under Kelly's management, planning an event is very easy. From the very beginning, she provides guidance and support. We received a resource binder filled with every detail we would need to plan and organize our event. Kelly has curated a list of fantastic local resources to tap into for any specific needs, including referrals for event coordinators, DJs, musicians, bar tenders, photographers, videographers, florists, coffee service etc. Additionally, by providing access to her own inventory of items she generously offers to all customers, it is by far the most full-service venue I have ever had the pleasure to work with. She and her staff spent several additional hours helping us design and execute the perfect day.

Kelly allowed us to access the venue for early set up and her staff was available throughout the entire day and evening. The bonus of having her talented staff to help with the set up was incredible. They were available, onsite throughout the duration of the ceremony, dinner and reception and stayed well after the event to take down all of the décor. They put everything away and neatly packaged everything up so all we had to do was come back the next morning and load our cars. Everything was meticulously organized from beginning to end.

Kelly employs a wonderful staff. We felt so well taken care of and even afterwards, the next day, her staff followed up to make sure we had all of our belongings and didn't leave anything behind.

I have shared our experience with many friends and cannot recommend this venue highly enough. It is a magical place and born from Kelly Winter's vision and her family and employee's

hard work. She has created a perfect venue for customers to be able to create an affordable and wonderful event.

I am grateful to have been able to work with Kelly Winter and her amazing staff and the outstanding resources and referrals she provides including professional vendors to meet any specific need.

Please accept this letter as my attestation that The Winter White Barn is an outstanding venue that successfully demonstrates exceptional best practices to provide customers with a unique and wonderful experience from beginning to end and is a very important part of the Temecula community.

Sincerely,

Laurie Donine

To Whom This May Concern,

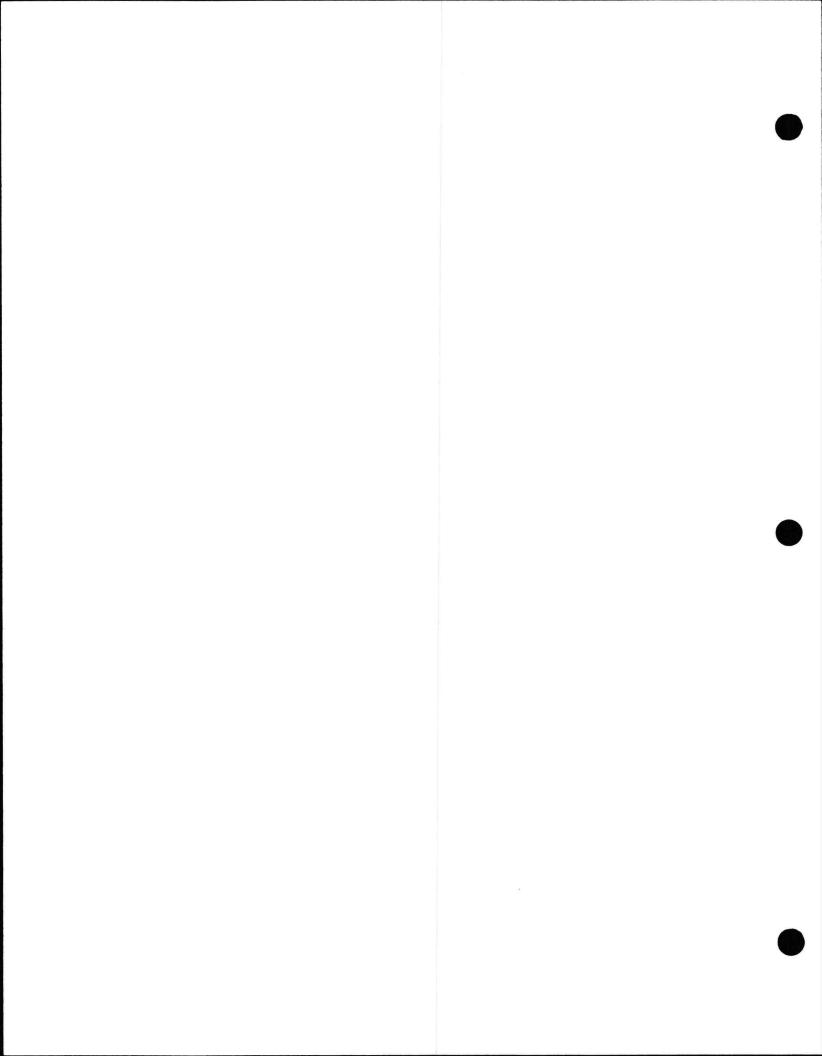

I cannot say enough good things about Kelly Winter and the Winter White Barn. Kelly is an outstanding business woman, member of the community and has the biggest heart. The moment you step foot on the property of the Winter White Barn you are embraced with pure magic.

I have had the pleasure of working with Kelly and her team as a Bride and a Vendor. Kelly and her staff go above and beyond to make each client's wedding vision come alive. In addition, she has been published many times and has won many awards for her service.

Not only does Kelly make wedding dreams come true but she also gives back to the small community. She's held many vendor meet up nights and always welcomes new vendors to her venue. This property is unique and provides an energy that I personally found nowhere else when searching for wedding venues. Not having the Winter White Barn available would be a disservice to the community.

Thank you for your time and consideration.

Respectfully, Jessica Barrozo

ter for Kelly

To whom it may concern,

I wanted to share my story with all of you regarding my friend, Kelly Winter, and her beautiful property know as the Winter White Barn. I have known Kelly for 18 years and we have raised our children together in our wonderful community of Temecula, California. When my son and his wife got engaged last year, they knew they wanted to get married close to home, especially so family and friends could attend. I immediately contacted Kelly, who generously offered to let us use her property for the event. I had followed her journey and watched her vision come to life, so I already knew how beautiful her place was. As soon as we toured it, with tears in all of our eyes, we knew it was the perfect place to hold their wedding. It was just magical.

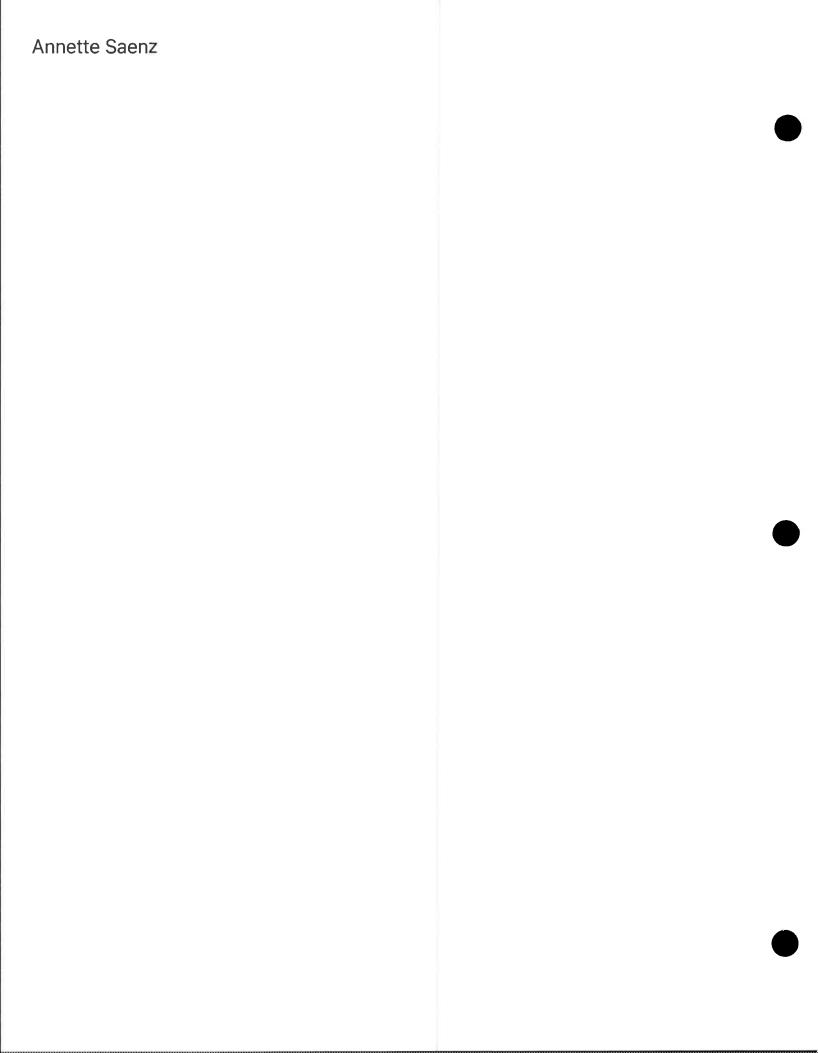

Kelly was so kind and generous in helping us plan every aspect of the special day. She rovided us with a binder full of pages and pages of local vendors she trusted and had built relationships with. It made everything so much easier knowing we could fully trust these local small businesses and that we were supporting our community by using them.

What this venue has offer our community is truly unmatched. I toured, visited and called every other venue within an hour radius of here. None of them gave anywhere close to this level of personalized attention, and assistance in planning. Or offered the ease of having so many areas to gather and host an event, such as a wedding. I don't know what we would have done without all of her help. Kelly's passion for event planning has already been a gift to so many of our friends in our community by hosting high school basketball banquets, birthday parties, and weddings.

Kelly and her helpers made our son and daughter-in-law's wedding day more special than we could've ever imagined. They are some of the most thoughtful, caring, generous people I have ever met. It was what every wedding should be, a community coming together to celebrate the bride and groom and make the day magic for them.

ye are all forever grateful for her generosity and allowing us to use her beautiful property for their special day.

Sincerely,

Our Wedding experience at Winter White Barn

Kyle Saenz <kyle.saenz7@gmail.com> To: <winterwhitebarn@gmail.com>

Wed, Jun 22, 5:53 PM

Hi Kelly,

Marissa and I wanted to write you a letter on our wonderful experience of getting married at the Winter White Barn.

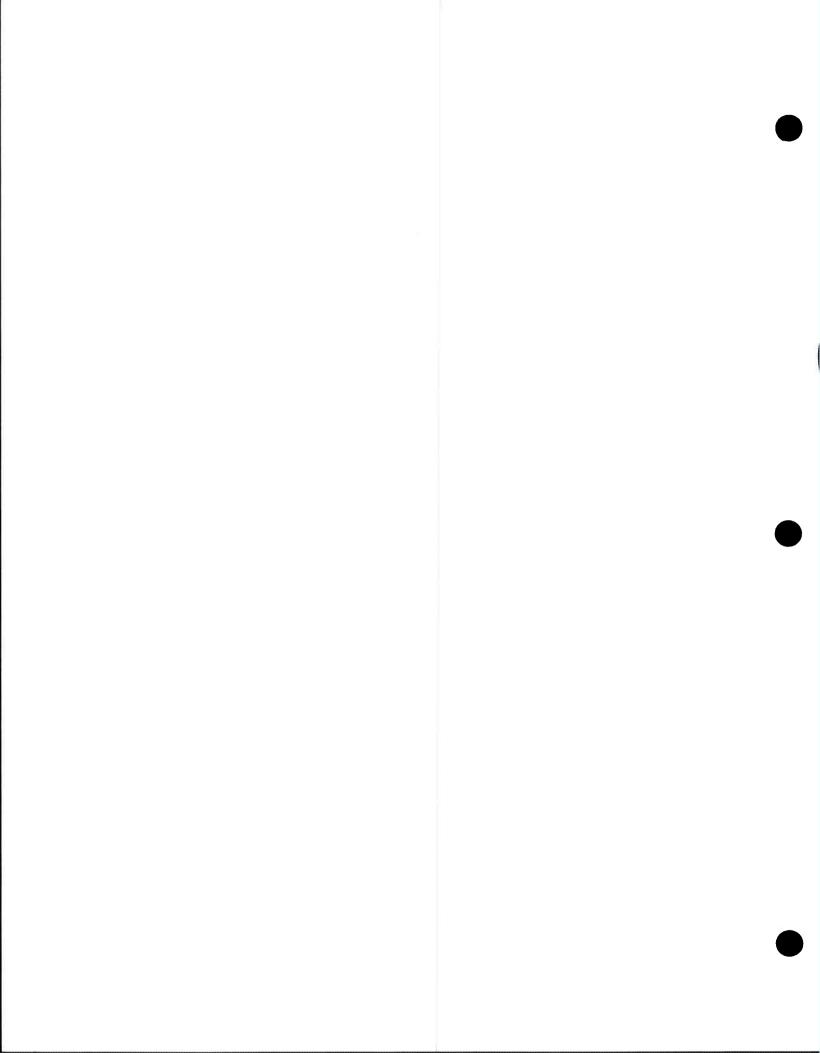

When Marissa and I were searching for a venue, it was difficult to find the perfect space for our wedding. My mother then reached out to you as a dear friend and you kindly toured us through your venue. We instantly knew that the Winter White Barn venue was the most perfect place to host our wedding day. You generously walked us through all the steps of planning out our wedding day. From helping us with styling the decor to providing us with an organized binder, you were such a tremendous help to making our wedding day happen.

The binder provided was so great because it gave us so many excellent vendor options from local vendors in and near Temecula. This was extra special because Marissa and I both grew up, met each other, and fell in love in Temecula. So to have our wedding at your venue with all local vendors, just added so much more impact to our wedding day.

We truly believe there is something so unique about your Winter White Barn venue. And we couldn't be more grateful for how you helped us navigate vendor selection, wedding details, and even during our wedding day. You truly do it all Kelly and whenever we visit Temecula, we always think about our wedding night at the Winter White Barn.

Thank you for everything you've done for us!

All the best, le and Marissa Saenz

To Whom it May Concern:

It is with great concern for me to write this letter and share my personal feelings regarding Kelly Winters and the Winter White Barn. I have lived in the Temecula Community for over twenty years. Our family has had the privilege of serving our community and working with many individuals and organizations throughout the years. I can say with all sincerity that is rare to meet and work with someone as conscientious, hardworking and service oriented as Kelly Winters. Our extended family has been involved with several of the sporting organizations including the Temecula Valley High School Basketball program. Kelly cares deeply about our community and offered her beautiful venue to host the Basketball Banquet to honor the various players and coaches. Her work ethic is rare. I have seen her pour her heart into this venue and do the hard physical work herself to make the Winter White Barn the special place that it is today.

After our daughter was married she opened up her venue to give us a memorable opportunity to have a reception to celebrate as a family. Not only was this so generous and such a blessing financially but she went out of her way to make all of us feel so welcome and comfortable. She truly has a heart of gold.

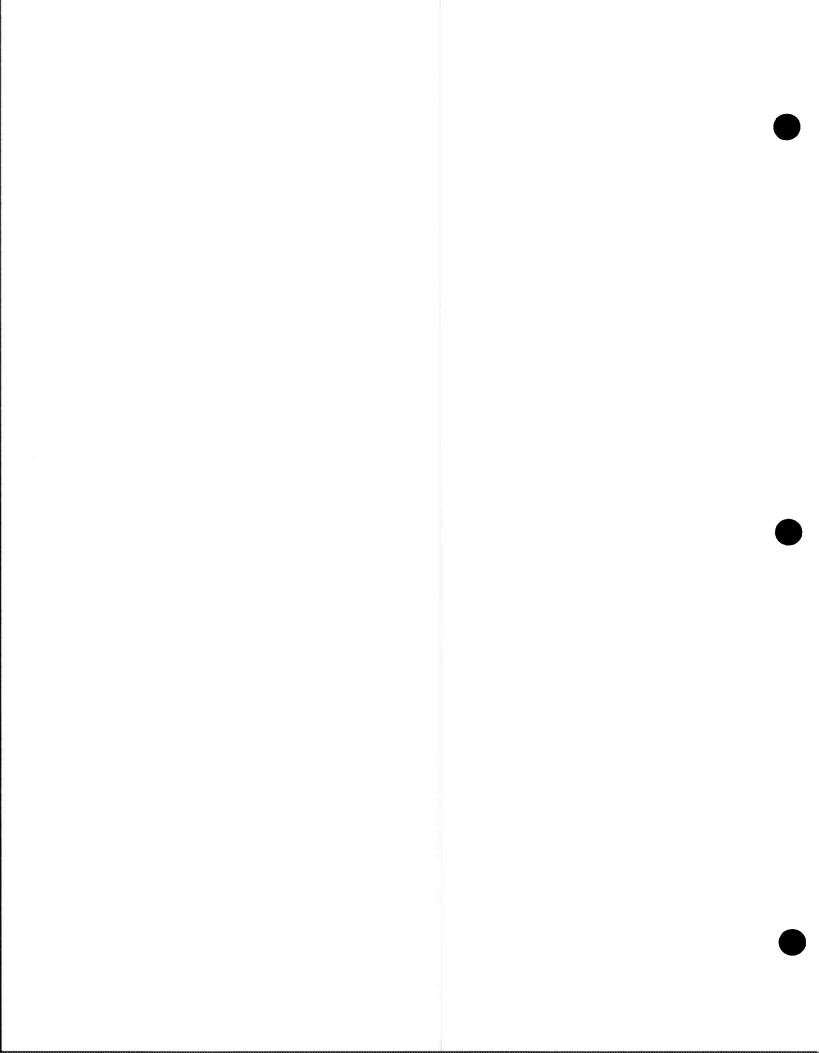

Lastly, as I was personally coming into

a transition in my life and trying to build a career for myself as a florist she was extremely instrumental in so many ways. Her support and confidence in me helped me build a business that has blessed my family.

It is extremely rare to find an individual with so much integrity that truly cares about our community and makes the effort to help the individuals of this community. What she has created at the Winter White Barn is special and something our mmunity should cherish and respect. Thank you for your time and the service that you provide to the people in our mmunity.

Sincerely, Cathy Jacobsen

Sent from my iPhone

March 12, 2022. From our initial meeting with Kelly to the actual wedding day, our experience was nothing less than exceptional.

It is not often the bride, the groom and their respective families can unequivocally say that the planning and execution of their entire wedding came off flawlessly, but in our case, and I attribute it to the fact that we had the benefit of partnering with Kelly Winter and her amazing venue and staff, it most certainly did.

lly is the consummate professional and together with her supportive staff, she was able to provide a world-class experience. Her unique property provides a serene and beautiful setting for any event. Every part of her space is carefully thought out and provides a fully functional venue with tons of options to customize and create the perfect event.

Kelly provides guidance and support and ensures that the customer's every need is met. I am a free-lance florist, and have done many weddings and special events, primarily in Los Angeles and surrounding areas. In all my experiences, I have never had the privilege of working with such a professional venue. The Winter White Barn is exceptional in that, under Kelly's management, planning an event is very easy. From the very beginning, she provides guidance and support. We received a resource binder filled with every detail we would need to plan and organize our event. Supervisor Washington (and Mssrs. Hewitt, McGee, Mitchell, Welch and Renaquil),

3 LETTER IS OF URGENT CONCERN.

my understanding Riverside County Code Enforcement, <u>under your supervision</u>, is moving forward shutting down the Winter White Barn <u>THIS WEEKEND</u>, in spite of the County's having previously mitted and represented to the owners that they would have three months to confirm compliance to the scheduled weddings.

recent client of the Winter White Barn, and a constituent of YOUR District 3, I am absolutely aged that this is happening.

J MUST UNDERSTAND the impossible position this puts the clients who have carefully chosen and been planning for months, if not years for the most important event in their lifetime.

n tell you from my personal experience that I, and my daughter's husband's family are fortunate to live e Temecula Valley and we were so grateful and fortunate to find such a wonderful venue to have our trens' wedding. Both sides of the family had several members fly in from all over the nation and stay e Temecula Valley during the wedding weekend. It was a tremendous investment in time and money ust by our children, ourselves, but our family members and friends who planned for MONTHS to e in the celebration. If we were facing the possibility of having the literal rug pulled out from under so you are planning now by shutting down the venue just days before this weekend and the uned wedding, we NEVER WOULD HAVE RECOVERED, both financially or emotionally.

re is NO plan B at this point for the families involved or the Winter White Barn. It is literally impossible love an event that takes months, if not years to plan.

funds are spent and the vendors have committed. Travel expenses are non refundable, family nbers are coming from all over to attend a long anticipated event and it is abhorrent that this is even g contemplated.

re is NOTHING that could be so urgent to not at least allow the upcoming events to be fulfilled while a lution is being sought to comply with the County's Code Enforcement allegations.

w is a copy of the letter I wrote last month in support of the Winter White Barn. Please read it fully and please reconsider your current plans as they are devastating and will cause arable financial harm and emotional damage in such a ripple effect that I can only assume you have considered when you made this unfortunate decision to suspend operation of this venue.

Winter White Barn, under Kelly Winter's ownership, is a spectacular venue. Please cease your ediate efforts to shut this venue down and allow the owners the time to mitigate whatever the causes a ction are against them so they may continue to serve the families that are so looking forward to the dings they have planned. This is heartbreaking and I am despondent to know this is happening under supervision. Please do what is right.

Reviews from Clients

Rachel

Winter White Barn is an absolute dream venue. Kelly has everything you could ever need to make planning and decorating for you wedding easy and stress free. On top of having all the things, she is an amazing person. She is knowledgeable and helpful and available for all your questions. We got married right in the middle of the pandemic with a whole lot of uncertainty. Kelly and all the vendors we had made us feel like our wedding was safe (from covid and from getting canceled), stress free, and honestly the best day of our lives. Everyone we had kept complimenting us on our venue. I cannot recommend Winter White Barn enough!

Ale

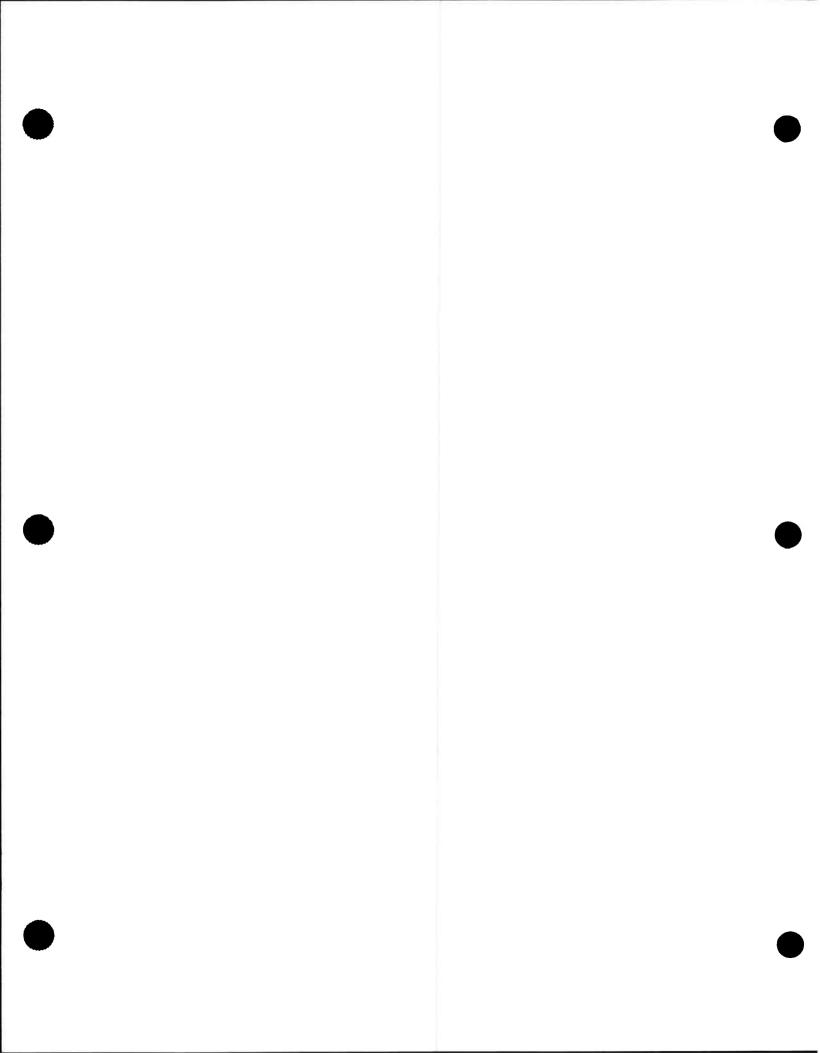

We are so glad we chose Winter White Barn as our wedding venue! Kelly and her staff are the absolute BEST! From the moment we did our initial tour, we knew WWB was special. The venue is absolutely gorgeous and Kelly is constantly making upgrades that further enhance the space. When you book with WWB, you not only get to utilize the beautiful venue but you also get to tap into Kelly's vast network of fellow wedding vendors (who are all amazing) and her extensive knowledge of the wedding industry. During the design meeting when you go over how you want the venue to be set up and what decor options you'd like to use, you can rely on Kelly to be honest and share her expertise to really bring your vision to life. When wedding day came, we had minimal stress because we knew Kelly and her team had it under control. The grounds were immaculate, it was set up and decorated even better than we imagined, and the staff was beyond helpful! Our guests could not stop talking about how beautiful the venue is and how the flow of the venue makes sense. The WWB staff truly went above and beyond to ensure everything was perfect all night long. We cannot thank Kelly and her staff enough for their hard work. Winter White Barn will always hold a special place in our hearts! Best venue ever!

Gabi

Dreams do come true here at Winter White Barn! My wedding was nothing short of perfect thanks to Kelly and her amazing ability to take our vision and turn it into the best day of our lives. The venue is absolutely stunning and is set up perfectly allowing for a smooth transition from ceremony to reception. The luscious greenery and beautiful barn allow for the perfect backdrop for all your wedding photo needs. Our guests loved the openness of the venue and how they were able to explore the property and see all the little details that make this place magical. Everyone still raves about how fun and beautiful our wedding was. We can't thank you enough Winter White Barn for making our big day truly special!

Mia

Kelly was a dream to work with! From start to finish she knew exactly what she was talking about. Not only was she amazing but the venue is perfection! The flow of everything is just so inviting for guests with much to do and plenty of space to never feel cramped. I got married here over a year ago and from Kelly's post it looks like she's done even more work to the venue! Which looks amazing! Everyone that attended our wedding was raving about the space and how beautiful it was.

If you're looking into this venue and Kelly has availability don't hesitate to book! You won't regret a thing!

Kat

Kelly and the Winter White Barn family is the most incredible team to work with. They truly made all of our dreams come true, it's the most magical and romantic wedding venue, that's not just our opinion, all of our guest were blown away and months later still talk about it! Kelly has a huge collection of décor and everything else you would need and is eager to help bring to life your wedding dreams. We wish we could relive the day over and over!

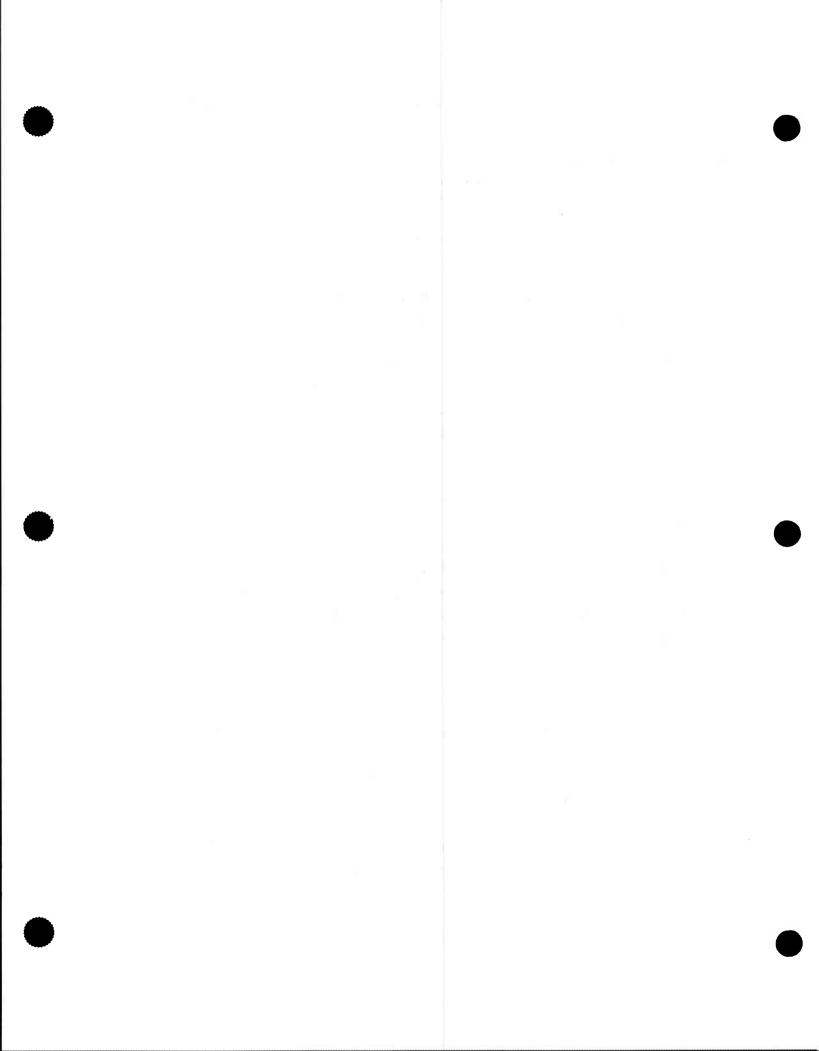

Ashlee

From the moment we stepped foot on Kelly Winter's sprawling venue in early 2019, we knew this was the place for us. We wanted a rustic setting with natural beauty and a picturesque barn. We got all of the above and more. Kelly immediately made us feel right at home with her warm personality. We could tell she was extremely creative, talented, and very detail-oriented. The amount of work, detail, and care that Kelly puts into her venue cannot be underscored enough. She is dedicated to making her venue an affordable, dreamlike place for couples to celebrate their special day and she continues to achieve that. Your happiness is important to her.l

In addition to her amazing venue, Kelly is an incredible person who we were fortunate to have by our side during the uncertainty of COVID. Our 2020 wedding was postponed twice until 2021. Despite all of the challenges that Kelly faced due to closures and restrictions, she went out of her way to be there for her couples. She sacrificed time from her own schedule to make the postponements for her 2020 couples work. She immediately rescheduled us for the same timeframe the following year to ensure that our date was locked in and something was reserved for us. During an extremely stressful time, Kelly's selflessness and generosity made us feel at ease. We felt supported and cared for. We can never thank her enough. When other venues were canceling on their couples, Kelly was there fighting for hers.

Prior to opening her venue, Kelly was a wedding planner. Given this, she is very integrated with other vendors in Southern California. When we signed our contract, she gave us a list of vendors to help us craft our day. We knew we could trust Kelly's judgment with other vendors based on our experience with her, so we ended up booking some of them. They did not disappoint! This vendor list was extremely helpful in trying to navigate the remainder of the planning process.

Kelly has thought of it all. She is constantly making positive additions to her property and adding to her inventory. Instead of outsourcing a lot of décor and activity-related items, Kelly has them on-site and they are included with the venue-tables, chairs, table numbers, candle holders, lanterns, place settings, signage, corn hole, a photo booth-you name it. This was really helpful to us because not only did it add to the rustic-glam vibe we were going for, but it helped cut down on overall rental

costs for us. She also has amazing instinct with how the day should flow from ceremony, to cocktail hour, and then the reception. There is a detailed plan for everything and Kelly incorporates all of the things you want along the way to tailor it to your vision. There are few people who can do this as seamlessly as Kelly.

Winter White Barn is where you want to get married. Enjoy some wine in Temecula wine country after you sign your contract!

Rachelle

Due to COVID we couldn't travel from WA to CA to see Winter White Barn in person so we took a leap of faith and booked it based off of pictures. Let me tell you, WWB is even more gorgeous in person! There are so many details that this venue offers and Kelly is absolutely amazing. All of our guests are still raving about how amazing the venue is. Every little detail has been thought through and made our day more special than we could have imagined. If you are thinking about booking WWB, you won't regret it for a second!

Andie

WWB was the perfect spot to host our wedding last month. The venue grounds are absolutely STUNNING. We couldn't have been more happy with how our event turned out. Everybody was raving about how beautiful the property is. The flow from the ceremony space to the pavilion to the barn is just perfect! Kelly and her team are wonderful, kind, and professional. I cannot say enough about how great Kelly is! She puts her whole heart into every event to make sure it is picture perfect. Thank you, Kelly!! Xoxo

Kristen

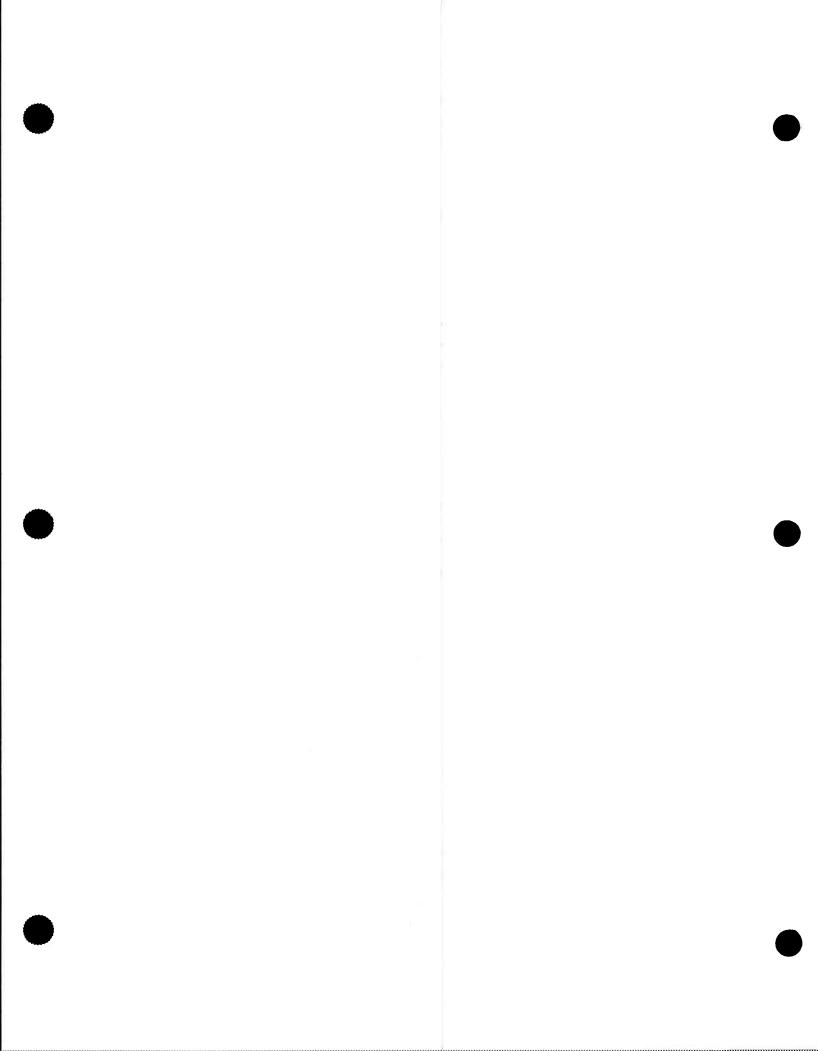

WOWOWOW! From the second we started working with Kelly and stepped onto the property, we were in love with this venue. Hands down, Kelly is the best venue manager, coordinator, fairy godmother extraordinaire. She has a magic touch that makes every wedding unique to the couple and absolutely magical. The venue itself is gorgeous and like a dream. Our guests were raving about how beautiful everything was. Kelly has a design den with almost everything you need decor wise. Pricing for this venue is great as well. Plus Kelly has a dream team of vendors she can recommend you based on your style & budget.

Margaret

Well, let's just say that 2020 has been the craziest year for everyone, amirite?

At the end of 2019, my now husband and I had a vision of this beautiful wedding. We looked low and high for places that fit our vibe, budget, and style. Then we found this venue.

Winter White Barn is a beautiful venue filled with tons of charm. They have a beautiful indoor barn area, outdoor reception area, and a beautiful ceremony area - all separate!

In addition, Kelly, the owner of WWB is an absolute angel. She has been nothing short of amazing. When COVID hit, she helped to accommodate our new wedding dates without hesitation. Unfortunately, we decided to not move forward with a big ceremony, and Kelly was still so helpful. I look forward to the day that we can revisit this venue again.

Briar Rose

What an amazing experience having our daughter's wedding at the Winter White Barn. Such a beautiful atmosphere - classy & cozy! I've personally worked in the wedding industry for decades and I have never worked with someone as accommodating, dependable and pleasant as Kelly. She made our daughter's special day perfectly memorable. Kelly has put her whole heart into the venue and it is evident in her meticulous attention to details. Our experience at the Winter White barn exceeded our expectations. We couldn't have been happier with our experience!

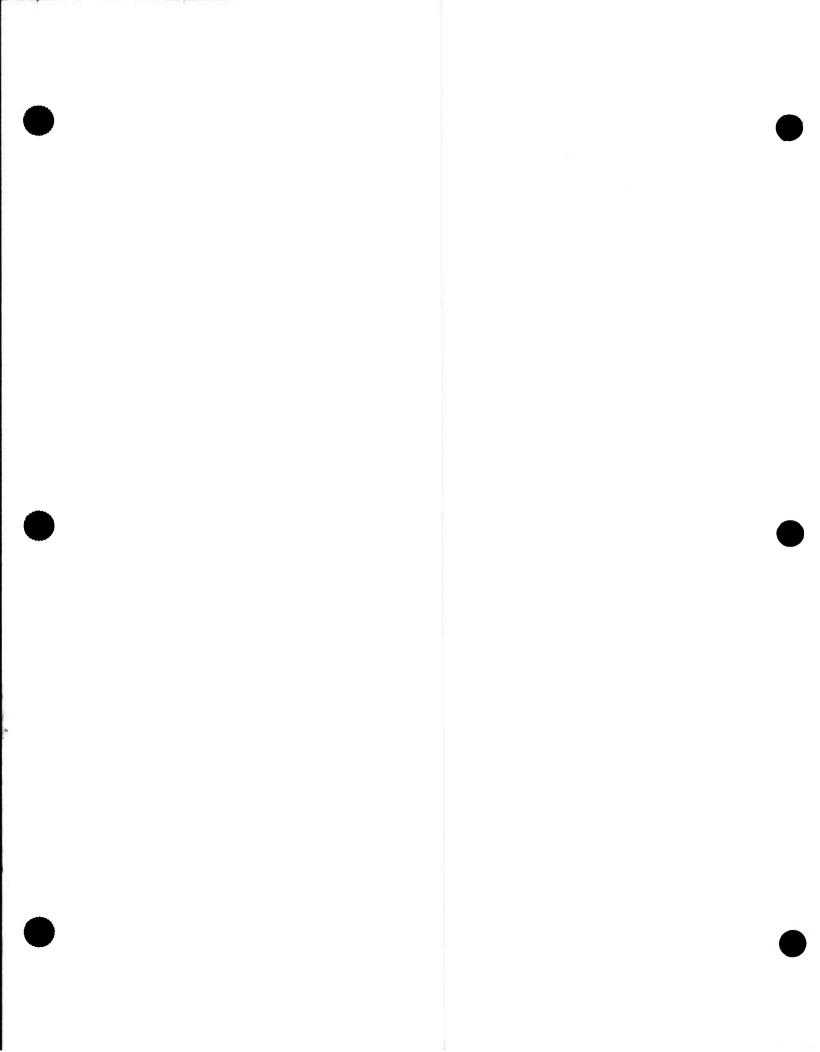

Cassandra

Winter white barn is one of the best venues that Temecula has to offer! The grounds are designed with the perfect flow of a wedding, starting with the ceremony then flows over to a cocktail hour space and lastly a beautiful White barn for reception! The grounds are lush and manicured and the owners do EVERYTHING they can to make you 100% satisfied!

I am a local wedding coordinator and this venue is everything I look for for my clients! SOOO much is included in all their packages and the fact that you get so much access to the space before your event assures your stress will be minimal!

Every time we have a wedding there, I am thrilled because the clients and their guests all tell me that the property has the best vibe of relaxation and fun!

Winter White Barn is PERFECT, the owner is the sweetest and the events we do there are always epic! You MUST see this place, you won't be disappointed!!!

BOARD RULES

Requests to Address Board on "Agenda" Items:

You may request to be heard on a published agenda item. Requests to be heard must be submitted to the Clerk of the Board before the scheduled meeting time.

Requests to Address Board on items that are "NOT" on the Agenda:

Notwithstanding any other provisions of these rules, member of the public shall have the right to address the Board during the mid-morning "Oral Communications" segment of the published agenda. Said purpose for address must pertain to issues which are under the direct jurisdiction of the Board of Supervisors. YOUR TIME WILL BE LIMITED TO TWO (2) MINUTES.

Power Point Presentations/Printed Material:

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, insuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please ensure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo.

Individual Speaker Limits:

Individual speakers are limited to a maximum of two (2) minutes. Please step up to the podium when the Chair calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 20 seconds remaining, the "yellow" light will begin flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chair adheres to a strict two (2) minutes per speaker.

"Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.

Group/Organized Presentations:

Group/organized presentations with more than one (1) speaker will be limited to six (6) minutes at the Chair's discretion. The organizer of the presentation will automatically receive the first two (2) minutes, with the remaining four (4) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the front bottom of the form.

Addressing the Board & Acknowledgement by Chair:

The Chair will determine what order the speakers will address the Board and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles in order to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using course, crude, profane or vulgar language while speaking to the Board members, staff, the general public and/or meeting participants. Such behavior, at the discretion of the Board Chambers by Sheriff Deputies.

Public

Comments:

Hello.

I would like to submit the following for public comment for the next board

meeting on 7/26/2022.

Please find attached the court recognized, whistleblower affidavit filed in Arizona

court. I

have made extensive attempts to discuss the illegitimate certification of election

machines and

this report will back those claims up.

Attachments (Must be .pdf, .doc, or

.docx):

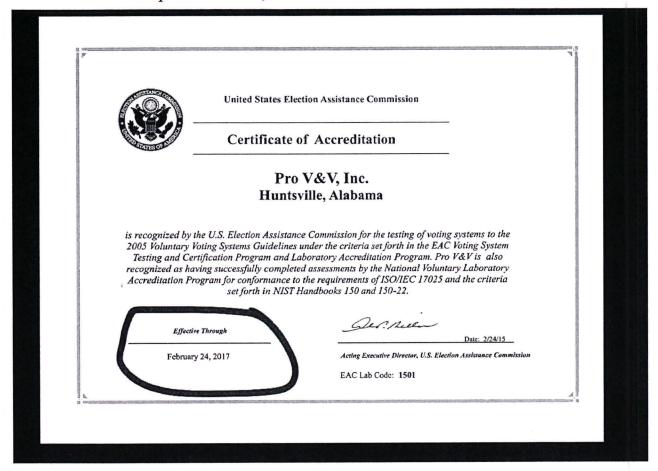

TORE-Affidavit.pdf

Declaration of	ı
----------------	---

Pursuant to 28 U.S.C Section 1746, I, make the following declaration.

- I am over the age of 21 years and I am under no legal disability, which would prevent me from giving this declaration.
- 2. I have been a private contractor with experience gathering and analyzing foreign intelligence and acted as a LOCALIZER during the deployment of projects and operations both OCONUS and CONUS. I am a trained Cryptolinguist, hold a completed degree in Molecular and Cellular Physiology and have FORMAL training in other sciences such as Computational Linguistics, Game Theory, Algorithmic Aspects of Machine Learning, Predictive Analytics among others.
- I have operational experience in sources and methods of implementing operations during elections both CONUS and OCONUS
- I am an amateur network tracer and cryptographer and have over two decades of mathematical modeling and pattern analysis.
- In my position from 1999-2014 I was responsible for delegating implementation via other contractors sub-contracting with US or 9 EYES agencies identifying connectivity, networking and subcontractors that would manage the micro operations.
- 6. My information is my personal knowledge and ability to detect relationships between the companies and validate that with the cryptographic knowledge I know and attest to as well as evidence of these relationships.
- 7. In addition, I am WELL versed due to my assignments during my time as a private contractor of how elections OCONUS (for countries I have had an assignment at) and CONUS (well versed in HAVA ACT) and more.
- 8. On or about October 2017 I had reached out to the US Senate Majority Leader with an affidavit claiming that our elections in 2017 may be null and void due to lack of EAC certifications. In fact Sen. Wyden sent a letter to Jack Cobb on 31 OCT 2017 advising discreetly pointing out the importance of being CERTIFIED EAC had issued a certificate to

Pro V & V and that expired on Feb 24, 2017. No other certification has been located.

9. Section 231(b) of the Help America Vote Act (HAVA) of 2002 (42 U.S.C. §15371(b)) requires that the EAC provide for the accreditation and revocation of accreditation of independent, non-federal laboratories qualified to test voting systems to Federal standards. Generally, the EAC considers for accreditation those laboratories evaluated and recommended by the National Institute of Standards and Technology (NIST) pursuant to HAVA Section 231(b)(1). However, consistent with HAVA Section 231(b)(2)(B), the Commission may also vote to accredit laboratories outside of those recommended by NIST upon publication of an explanation of the reason for any such accreditation.

United States Department of Commerce National Institute of Standards and Technology

Certificate of Accreditation to ISO/IEC 17025:2017

NVLAP LAB CODE: 200978-0

Pro V&V Huntsville, AL

is accredited by the National Voluntary Laboratory Accreditation Program for specific services, listed on the Scope of Accreditation, for:

Voting System Testing

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communique dated January 2009).

2020-03-26 through 2021-03-31

Effective Dates

ation Program

- 11. VSTL's are VERY important because equipment vulnerabilities allow for deployment of algorithms and scripts to intercept, alter and adjust voting tallies.
- 12. There are only TWO accredited VSTLs (VOTING SYSTEM TEST LABORATORIES). In order to meet its statutory requirements under HAVA §15371(b), the EAC has developed the EAC's Voting System Test Laboratory Accreditation Program. The procedural requirements of the program are established in the proposed information collection, the EAC Voting System Test Laboratory Accreditation Program Manual. Although participation in the program is voluntary, adherence to the program's procedural requirements is mandatory for participants. The procedural requirements of this Manual will supersede any prior laboratory accreditation requirements issued by the EAC. This manual shall be read in conjunction with the EAC's Voting System Testing and Certification Program Manual (OMB 3265-0019).

State Participation:

Requires Testing by an Independent Testing Authority. MI requires that voting systems are certified by an independent testing authority accredited by NASED and the board of state canvassers.

Applicable Statute(s):

"An electronic voting system shall not be used in an election unless it is approved by the board of state canvassers ... and unless it meets I of the following conditions: (a) Is certified by an independent testing authority accredited by the national association of state election directors and by the board of state canvassers. (b) In the absence of an accredited independent testing authority, is certified by the manufacturer of the voting system as meeting or exceeding the performance and test standards referenced in subdivision (a) in a manner prescribed by the board of state canvassers." MICH, COMP, LAWS ANN § 168.795a (2009).

Applicable Regulation(s):

MI does not have a regulation regarding the federal certification process.

State Certification Process: The Secretary of State accepts requests from persons/corporations wishing to have their voting system examined. The requestor must pay the Secretary of State an application fee of \$1,500.00, file a report listing all of the states in which the voting system has been approved and any reports that these states have made regarding the performance of the voting system. The Board of State Canvassers conducts a field test involving Michigan electors and election officials in simulated election day conditions. The Board of State Canvassers shall approve the voting system if it meets all of the state requirements. MICH, COMP, LAWS ANN \$ 168.795a (2009).

Fielded Voting Systems: [After the EAC completes and issues the 2008 Election Administration and Voting Survey, information about fielded voting systems will be added to this document. In the meantime, readers may find information on the voting systems at the following website (if available)].

http://www.michigan.gov/sos/0,1607.7-127-1633 8716 45458---00.html

WISCONSIN

State Participation:

Requires Testing by a Federally Accredited Laboratory. WI requires that its voting systems receive approval from an independent testing authority accredited by NASED verifying that the voting systems meet all of the recommended FEC standards.

Applicable Statute(s):

"No ballot, voting device, automatic tabulating equipment or relating equipment and materials to be used in an electronic voting system may be utilized in this state unless it is approved by the board [of election commissioners]." WIS. STAT.ANN. § 5.91 (West 2009).

Applicable Regulation(s):

"An application for approval of an electronic voting system shall be accompanied by all of the following ... [r]eports from an independent testing authority accredited by the national association of state election directors (NASED) demonstrating that the voting system conforms to all the standards recommended by the federal elections commission." WIS. ADMIN. CODE GAB § 7.01 (2009).

State Certification Process: The Board of Election Commissioners accepts applications for the approval of electronic voting systems. Once the application is completed, the vendor must set up the voting system for three mock elections using; (1) offices, (2) referenda questions and (3) candidates. A panel of local election officials can assist the Board in the review of the voting system. The Board conducts the test using a mock election for the partisan primary, general election, and nonpartisan election. The Board may also require that the voting system be used in an actual election as a condition of the approval. WIS. ADMIN. CODE GAB §§ 7.01, 7.02 (2009).

Fielded Voting Systems: [After the EAC completes and issues the 2008 Election Administration and Voting Survey, information about fielded voting systems will be added to this document. In the meantime, readers may find information on the voting systems at the following website (if available)].

http://elections.state.wi.us/section.asp?linkid=643&locid=47

59

GEORGIA

State Participation:

Requires Federal Certification. GA requires that its voting systems are tested to EAC standards by EAC accredited labs and certified by the EAC.

Applicable Statute(s):

"Any person or organization owning, manufacturing, or selling, or being interested in the manufacture or sale of, any voting machine may request the Secretary of State to examine the machine. Any ten or more electors of this state may, at any time, request the Secretary of State to reexamine any voting machine previously examined and approved by him or her. Before any such examination or reexamination, the person, persons, or organization requesting such examination or reexamination shall pay to the Secretary of State the reasonable expenses of such examination; provided, however, that in the case of a request by ten or more electors the examination fee shall be \$250.00. The Secretary of State may, at any time, in his or her discretion, reexamine any voting machine." GA CODE ANN. § 21-2-324 (2008).

Applicable Regulation(s):

"Prior to submitting a voting system for certification by the State of Georgia, the proposed voting system's hardware, firmware, and software must have been issued Qualification Certificates from the EAC. These EAC Qualification Certificates must indicate that the proposed voting system has successfully completed the EAC Qualification testing administered by EAC approved ITAs. If for any reason, this level of testing is not available, the Qualification tests shall be conducted by an agency designated by the Secretary of State. In either event, the Qualification tests shall comply with the specifications of the *Voting Systems Standards* published by the EAC." GA. COMP. R. & RES. 590-8-1-.01 (2009).

State Certification Process: After the voting system has passed EAC Qualification testing, the vendor of the voting system submits a letter to the Office of the Secretary of State requesting certification for the voting system along with a technical data package to the certification agent. An evaluation proposal is created by the certification agent after a preliminary view of the Technical Data Package and sent to the vendor. Any additional EAC ITA testing identified in the evaluation proposal is arranged by the vendor and the certification agent will perform all other tests identified in the evaluation proposal. The certification agent submits a report of their findings to the Secretary of State. Based on these findings the Secretary of State will make a final determination on whether to certify the voting system. GA, COMP, R. & RES, 590-8-1-.01 (2009).

Fielded Voting Systems: [After the EAC completes and issues the 2008 Election Administration and Voting Survey, information about fielded voting systems will be added to this document. In the meantime, readers may find information on the voting systems at the following website (if available)]. http://www.sos.georgia.gov/Elections/

State Participation in EAC Voting System Certification Program

17

PENNSYVANIA

State Participation:

Requires Testing by a Federally Accredited Laboratory. PA requires that its voting systems are approved by a federally recognized independent testing laboratory as meeting federal voting system standards.

Applicable Statute(s):

"Any person or corporation owning, manufacturing or selling, or being interested in the manufacture or sale of, any electronic voting system, may request the Secretary of the Commonwealth to examine such system if the voting system has been examined and approved by a federally recognized independent testing authority and if it meets any voting system performance and test standards established by the Federal Government." 25 PA. CONS, STAT. ANN. Code § 3031.5 (West 2008).

Applicable Regulation(s): PA does not have a regulation regarding the federal certification process.

State Certification Process: The Secretary of State examines voting systems, upon request, once the voting systems have received approval by a federally recognized independent testing authority. The person(s) requesting the examination of the voting system are responsible for the cost of the examination. After the examination, the Secretary of State issues a report stating whether or not the voting systems are safe and compliant with state and federal requirements. If the voting systems are deemed safe and compliant by the Secretary of State then the systems may be adopted and approved for use in elections by each county through a majority vote of its qualified electors. 25 PA. CONS. STAT. ANN. Code §§ 3031.5, 3031.2 (West 2008).

Fielded Voting Systems:

[After the EAC completes and issues the 2008 Election Administration and Voting Survey, information about fielded voting systems will be added to this document. In the meantime, readers may find information on the voting systems at the following website (if available)].

http://www.votespa.com/HowtoVote/tabid/74/language/en-US/Default.aspx

State Participation:

Requires Testing by a Federally Accredited Laboratory. AZ requires that its voting systems are HAVA compliant and approved by a laboratory that is accredited pursuant to HAVA.

Applicable Statute(s):

"On completion of acquisition of machines or devices that comply with HAVA, machines or devices used at any election for federal, state or county offices may only be certified for use in this state and may only be used in this state if they comply with HAVA and if those machines or devices have been tested and approved by a laboratory that is accredited pursuant to HAVA." ARIZ, REV. STAT. § 16-442(B) (2008).

Applicable Regulation(s): AZ does not have a regulation regarding the federal certification process.

State Certification Process:

The Secretary of State appoints a committee of three people that test different voting systems. This committee is required to submit their recommendations to the Secretary of State who then makes the final decision on which voting system(s) to adopt. ARIZ. REV. STAT. § 16-442(A) and (C) (2008).

Fielded Voting Systems: [After the EAC completes and issues the 2008 Election Administration and Voting Survey, information about fielded voting systems will be added to this document. In the meantime, readers may find information on the voting

systems at the following website (if available)]. http://www.azsos.gov/election/equipment/default.htm

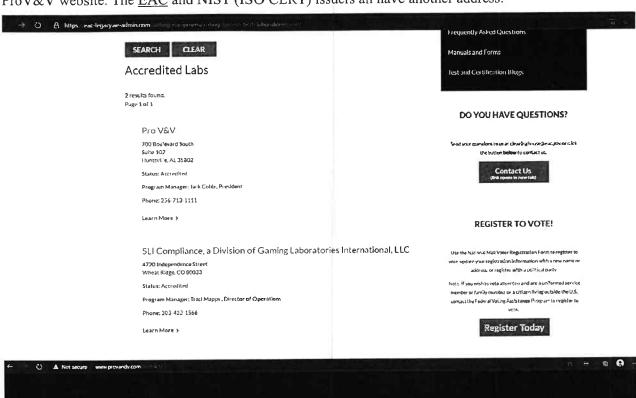

State Participation in EAC Voting System Certification Program

9

17.

18. **Pro V& V** and **SLI Gaming** both lack evidence of EAC Accreditation as per the Voting System Testing and Certification Manual.

19. **Pro V& V** is owned and Operated by Jack Cobb. Real name is Ryan Jackson Cobb. The company ProV&V was founded and run by Jack Cobb who formerly worked under the entity of Wyle Laboratories which is an AEROSPACE DEFENSE CONTRACTING ENTITY. The address information on the EAC, NIST and other entities for Pro V& V are different than that of what is on ProV&V website. The <u>EAC</u> and NIST (ISO CERT) issuers all have another address.

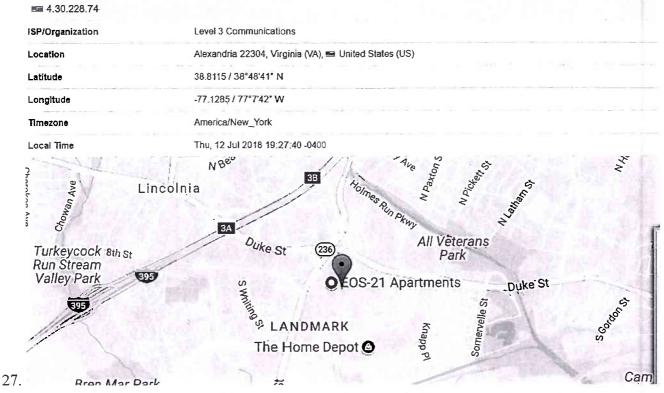

- 20. VSTLs are the most important component of the election machines as they examine the use of COTS (Commercial Off-The-Shelf)
- 21. "Wyle became involved with the testing of electronic voting systems in the early 1990's and has tested over 150 separate voting systems. Wyle was the first company to obtain accreditation by the National Association of State Election Directors (NASED). Wyle is accredited by the Election Assistance Commission (EAC) as a Voting System Testing Laboratory (VSTL). Our scope of accreditation as a VSTL encompasses all aspects of the hardware and software of a voting machine. Wyle also received NVLAP accreditation to ISO/IEC 17025:2005 from NIST." Testimony of Jack Cobb 2009
- 22. COTS are preferred by many because they have been tried and tested in the open market and are most economic and readily available. COTS are also the SOURCE of vulnerability therefore VSTLs are VERY important. COTS components by voting system machine manufacturers can be used as a "Black Box" and changes to their specs and hardware make up change continuously. Some changes can be simple upgrades to make them more efficient in operation, cost efficient for production, end of life (EOL) and even complete reworks to meet new standards. They key issue in this is that MOST of the COTS used by Election Machine Vendors like Dominion, ES&S, Hart Intercivic, Smartmatic and others is that such manufacturing for COTS have been outsourced to China which if implemented in our Election Machines make us vulnerable to BLACK BOX antics and backdoors due to hardware changes that can go undetected. This is why VSTL's are VERY important.
- 23. The proprietary voting system software is done so and created with cost efficiency in mind and therefore relies on 3rd party software that is AVAILABLE and HOUSED on the HARDWARE. This is a vulnerability. Exporting system reporting using software like Crystal Reports, or PDF software allows for vulnerabilities with their constant updates.
- 24. As per the COTS hardware components that are fixed, and origin may be cloaked under proprietary information a major vulnerability exists since once again third-party support software is dynamic and requires FREQUENT updates. The hardware components of the computer components, and election machines that are COTS may have slight updates that can be overlooked as they may be like those designed that support the other third -party software. COTS origin is important and the US Intelligence Community report in 2018 verifies that.
- 25. The Trump Administration made it clear that there is an absence of a major U.S. alternative to foreign suppliers of networking equipment. This highlights the growing dominance of

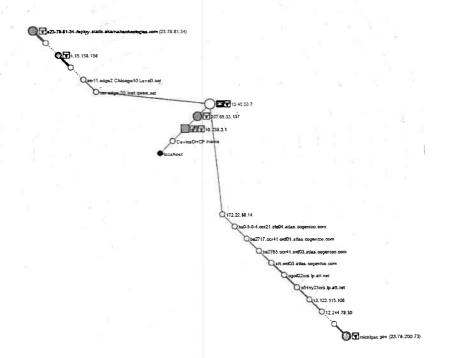

- Chinese manufacturers like Huawei that are the world's LARGEST supplier of telecom and other equipment that endangers national security.
- 26. China, is not the only nation involved in COTS provided to election machines or the networking but so is Germany via a LAOS founded Chinese linked cloud service company that works with SCYTL named Akamai Technologies that have offices in China and are linked to the server that Dominion Software.

ptt.gov resolves to 4.30.228.74. According to our data this IP address belongs to Level 3 Communications and is located in Alexandria, Virginia, United States. Please have a look at the information provided below for further details.

28. L3 Level Communications is federal contractor that is partially owned by foreign lobbyist George Soros. An article that AP ran in 2010 – spoke out about the controversy of this that has been removed. (LINK) "As for the company's other political connections, it also appears that none other than George Soros, the billionaire funder of the country's liberal political infrastructure, owns 11,300 shares of OSI Systems Inc., the company that owns Rapiscan. Not surprisingly, OSI's stock has appreciated considerably over the course of the year. Soros certainly is a savvy investor." Washington Examiner re-write.

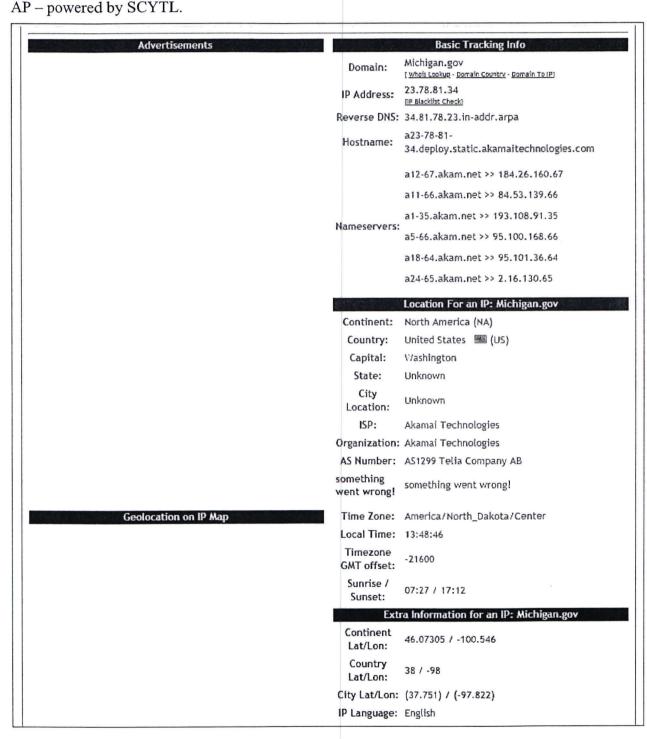

30.

31. L-3 Communication Systems-East designs, develops, produces and integrates communication systems and support equipment for space, air, ground, and naval applications, including C4I systems and products; integrated Navy communication systems; integrated space communications and RF payloads; recording systems; secure communications, and information security systems. In addition, their site claims that MARCOM is an integrated communications system and The Marcom® is the foundation of the Navy's newest digital integrated voice / data switching system for affordable command and control equipment supporting communications and radio room automation. The MarCom® uses the latest COTS digital technology and open systems standards to offer the command and control user a low cost, user friendly, solution to the complex voice, video and data communications needs of present and future joint / allied missions. Built in reliability, rugged construction, and fail-safe circuits ensure your call and messages will go through. Evidently a HUGE vulnerability.

- 32. Michigan's government site is thumped off Akamai Technologies servers which are housed on TELIA AB a foreign server located in Germany.
- 33. Scytl, who is contracted with AP that receives the results tallied BY Scytl on behalf of Dominion – During the elections the AP reporting site had a disclaimer.

- 34. "Scytl was selected by the Federal Voting Assistance Program of the U.S. Department of Defense to provide a secure online ballot delivery and onscreen marking systems under a program to support overseas military and civilian voters for the 2010 election cycle and beyond. Scytl was awarded 9 of the 20 States that agreed to participate in the program (New York, Washington, Missouri, Nebraska, Kansas, New Mexico, South Carolina, Mississippi and Indiana), making it the provider with the highest number of participating States." PDF
- 35. According to DOMINION: 1.4.1Software and Firmware The software and firmware employed by Dominion D-Suite 5.5-Aconsists of 2 types, custom and commercial off the shelf (COTS). COTS applications were verified to be pristine or were subjected to source code review for analysis of any modifications and verification of meeting the pertinent standards.
- 36. The concern is the HARDWARE and the NON ACCREDITED VSTLs as by their own admittance use COTS.
- 37. The purpose of VSTL's being accredited and their importance in ensuring that there is no foreign interference/ bad actors accessing the tally data via backdoors in equipment software. The core software used by ALL SCYTL related Election Machine/Software manufacturers ensures "anonymity".
- 38. Algorithms within the area of this "shuffling" to maintain anonymity allows for setting values to achieve a desired goal under the guise of "encryption" in the trap-door.
- 39. The actual use of trapdoor commitments in Bayer-Groth proofs demonstrate the implications for the verifiability factor. This means that no one can SEE what is going on during the process of the "shuffling" therefore even if you deploy an algorithms or manual scripts to fractionalize or distribute pooled votes to achieve the outcome you wish you cannot prove they are doing it! See STUDY: "The use of trapdoor commitments in Bayer-Groth proofs and the implications for the verifiability of the Scytl-SwissPost Internet voting system"

40. Key Terms

- 41. UNIVERSAL VERIFIABILITY: Votes cast are the votes counted and integrity of the vote is verifiable (the vote was tallied for the candidate selected). SCYTL FAILS UNIVERSAL VERIFIABILITY because no mathematical proofs can determine if any votes have been manipulated.
- 42. **INDIVIDUAL VERIFIABILITY**: Voter cannot verify if their ballot got correctly counted. Like, if they cast a vote for ABC they want to verify it was ABC. That notion clearly discounts the need for anonymity in the first place.

- 43. To understand what I observed during the 2020 I will walk you through the process of one ballot cast by a voter.
- 44. STEP 1 |Config Data | All non e-voting data is sent to Scytl (offshore) for configuration of data. All e-voting is sent to CONFIGURATION OF DATA then back to the e-voting machine and then to the next phase called CLEANSING. CONCERNS: Here we see an "OR PROOF" as coined by mathematicians an "or proof" is that votes that have been pre-tallied parked in the system and the algorithm then goes back to set the outcome it is set for and seeks to make adjustments if there is a partial pivot present causing it to fail demanding manual changes such as block allocation and narrowing of parameters or self-adjusts to ensure the predetermined outcome is achieved.
- 45. STEP 2|CLEANSING | The Process is when all the votes come in from the software run by Dominion and get "cleansed" and put into 2 categories: invalid votes and valid votes.
- 46. STEP 3|Shuffling /Mixing | This step is the most nefarious and exactly where the issues arise and carry over into the decryption phase. Simply put, the software takes all the votes, literally mixes them a and then re-encrypts them. This is where if ONE had the commitment key-TRAPDOOR KEY—one would be able to see the parameters of the algorithm deployed as the votes go into this mixing phase, and how algorithm redistributes the votes.
- 47. This published PAPER FROM University College London depicts how this shuffle works. In essence, when this mixing/shuffling occurs, then one doesn't have the ability to know that vote coming out on the other end is actually their vote; therefore, ZERO integrity of the votes when mixed.

Background - ElGamal encryption

Setup: Group G of prime order q with generator g

• Public key: $pk = y = g^x$

• Encryption: $\mathcal{E}_{pk}(m; r) = (g^r, y^r m)$

• Decryption: $\mathcal{D}_{x}(u, v) = vu^{-x}$

· Homomorphic:

$$\mathcal{E}_{pk}(m; r) \times \mathcal{E}_{pk}(M; R) = \mathcal{E}_{pk}(mM; r + R)$$

Re-rencryption:

$$\mathcal{E}_{pk}(m; r) \times \mathcal{E}_{pk}(1; R) = \mathcal{E}_{pk}(m; r + R)$$

- 49. When this mixing/shuffling occurs, then one doesn't have the ability to know that vote coming out on the other end is actually their vote; therefore, ZERO integrity of the votes.
- 50. When the votes are sent to Scytl via Dominion Software EMS (Election Management System) the Trap Door is accessed by Scytl or TRAP DOOR keys (Commitment Parameters).

- 52. The encrypted data is shifted into Scytl's platform in the form of ciphertexts this means it is encrypted and a key based on commitments is needed to read the data. The ballot data can only be read if the person has a key that is set on commitments.
- 53. A false sense of security is provided to both parties that votes are not being "REPLACED" during the mixing phase. Basically, Scytl re-encrypts the ballot data that comes in from Dominion (or any other voting software company) as ciphertexts. Scytl is supposed to prove that votes A, B, C are indeed X, Y, Z under their new re-encryption when sending back the votes that are tallied coding them respectively. This is done by Scytl and the Election Software company that agrees to certain

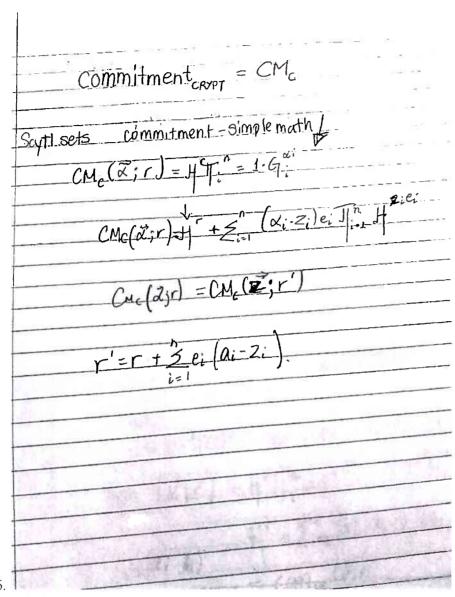

"Generators" and therefore together build "commitments."

```
public CommitmentParams(final ZpSubgroup group, final int n) {
        group = group;
        h = GroupTools.getRandomElement(group);
        commitmentlength = n;
        g = GroupTools.getVectorRandomElement(group,
        this.commitmentlength);
    }

// from getRandomElement(group)

Exponent randomExponent = ExponentTools.getRandomExponent(group.getQ());
return group.getGenerator().exponentiate(randomExponent);
```

- 54. Scytl and Dominion have an agreement only the two would know the parameters. This means that access is able to occur through backdoors in hardware if the parameters of the commitments are known in order to alter the range of the algorithm deployed to satisfy the outcome sought in the case of algorithm failure.
- 55. Trapdoor is a cryptotech term that describes a state of a program that knows the commitment parameters and therefore is able change the value of the commitments however it likes. In other words, Scytl or anyone that knows the commitment parameters can take all the votes and give them to any one they want. If they have a total of 1000 votes an algorithm can distribute them among all races as it deems necessary to achieve the goals it wants. (Case Study: Estonia)

57. Within the trapdoor this is how the algorithm behaves to move the goal posts in elections without being detected by this proof. During the mixing phase this is the algorithm you would use to

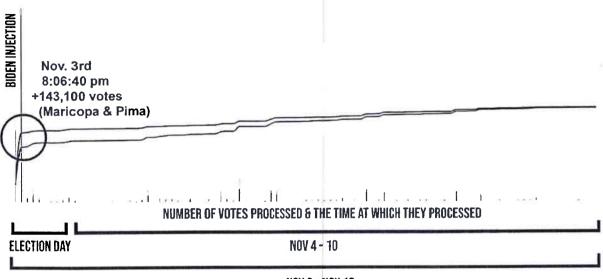

"reallocate" votes via an algorithm to achieve the goal set.

33
Or Candidakic Ci. John Co. Most Co. Arty
Ci = Epk (Ijp1) C1 = Epk (Marps +p')
$C_1 = \mathcal{E}_{pk}(\mathcal{I}_{s}^{\prime}\rho_1)C_1 = \mathcal{E}_{pk}(M_{s,p_1} + p_1)$ $C_2 = \mathcal{E}_{pk}(\mathcal{I}_{s}^{\prime}\rho_2)C_3 = \mathcal{E}_{pk}(M_{3,p_2} + p_3)^{\perp}$ $C_3 = \mathcal{E}_{pk}(\mathcal{I}_{s}^{\prime}\rho_2)C_3 = \mathcal{E}_{pk}(M_{3,p_2} + p_3)^{\perp}$
C3 = Epk(1; P3)C3 = Epk (Mg P3 + P'g)
Giving vote to C3 rather than C2.

- 58. STEP 4|Decryption would be the decryption phase and temporary parking of vote tallies before reporting. In this final phase before public release the tallies are released from encrypted format into plain text. As previously explained, those that know the trapdoor can easily change any votes that the randomness is applied and used to generate the tally vote ciphertext. Thus in this case, Scytl who is the mixer can collude with their vote company clients or an agency (-----) to change votes and get away with it. This is because the receiver doesn't have the decryption key so they rely solely on Scytl to be *honest* or free from any foreign actors within their backdoor or the Election Company (like Dominion) that can have access to the key.
- 59. In fact, a study from the University of Bristol made claim that interference can be seen when there is a GREAT DELAY in reporting and finalizing numbers University of Bristol: How not to Prove Yourself: Pitfalls of the Fiat-Shamir Heuristic and Applications to Helios
- 60. "Zero-knowledge proofs of knowledge allow a prover to convince a verifier that she holds information satisfying some desirable properties without revealing anything else." David Bernhard, Olivier Pereira, and Bogdan Warinschi.

- 61. Hence, you can't prove anyone manipulated anything. The TRAP DOOR KEY HOLDERS can offer you enough to verify to you what you need to see without revealing anything and once again indicating the inability to detect manipulation. **ZERO PROOF of INTEGRITY OF THE VOTE.**
- 62. Therefore, if decryption is challenged, the administrator or software company that knows the trap door key can provide you proof that would be able to pass verification (blind). This was proven to be factually true in the case study by The University of Melbourne in March. White Hat Hackers purposely altered votes by knowing the parameters set in the commitments and there was no way to prove they did it or any way to prove they didn't.
- 63. IT'S THE PERFECT THREE CARD MONTY. That's just how perfect it is. They fake a proof of ciphertexts with KNOWN "RANDOMNESS". This rolls back to the integrity of the VOTE. The vote is not safe using these machines not only because of the method used for ballot "cleansing" to maintain anonymity but the EXPOSURE to foreign interference and possible domestic bad actors.
- 64. In many circumstances, manipulation of the algorithm is NOT possible in an undetectable fashion. This is because it is one point heavy. Observing the elections in 2020 confirm the deployment of an algorithm due to the BEHAVIOR which is indicative of an algorithm in play that had no pivoting parameters applied.
- 65. The behavior of the algorithm is that one point (B) is the greatest point within the allocated set. It is the greatest number within the A B points given. Point A would be the smallest. Any points outside the A B points are not necessarily factored in yet can still be applied.
- 66. The points outside the parameters can be utilized to a certain to degree such as in block allocation.
- 67. The algorithm geographically changed the parameters of the algorithm to force blue votes and ostracize red.
- 68. Post block allocation of votes the two points of the algorithm were narrowed ensuring a BIDEN win hence the observation of NO Trump Votes and some BIDEN votes for a period of time.

ARIZONA "FIXING" THE VOTE

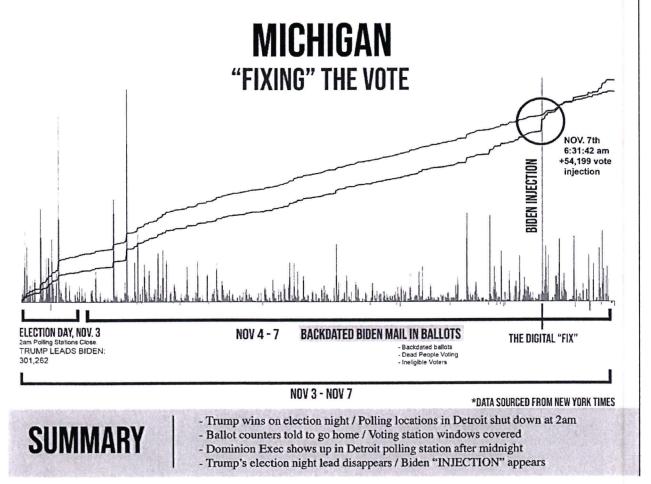

NOV 3 - NOV 10

*DATA SOURCED FROM NEW YORK TIMES

SUMMARY

- Mathematical evidence of the seeding "injection" of votes at the beginning
- A spike means that a large number of votes were injected into the totals
- A normal vote pattern would look like a natural progression smooth without extreme jumps

70. Gaussian Elimination without pivoting explains how the algorithm would behave and the election results and data from Michigan confirm FAILURE of algorithm.

71. The "Digital Fix" observed with an increased spike in VOTES for Joe Biden can be determined as evidence of a pivot. Normally it would be assumed that the algorithm had a Complete Pivot. Wilkinson's demonstrated the guarantee as:

$$\frac{\|U\|_{\infty}}{\|A\|_{\infty}} \le n^{\frac{1}{2}\log(n)}$$

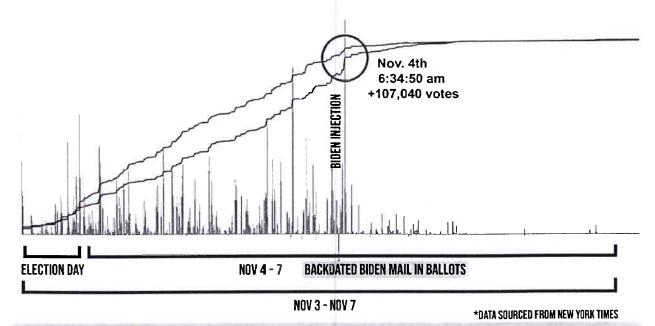

- 73. Such a conjecture allows the growth factor the ability to be upper bound by values closer to n.

 Therefore, complete pivoting can't be observed because there would be too many floating points.

 Nor can partial as the partial pivoting would overwhelm after the "injection" of votes. Therefore, external factors were used which is evident from the "DIGITAL FIX"
- 74. Observing the elections, after a review of Michigan's data a spike of 54,199 votes to Biden. Because it is pushing and pulling and keeping a short distance between the 2 candidates; but then a spike, which is how an algorithm presents; and this spike means there was a pause and an insert was made, where they insert an algorithm. Block spikes in votes for JOE BIDEN were NOT paper

- ballots being fed or THUMB DRIVES. The algorithm block adjusted itself and the PEOPLE were creating the evidence to BACK UP the block allocation.
- 75. I have witnessed the same behavior of the election software in countries outside of the United States and within the United States. In ------, the elections conducted behaved in the same manner by allocating BLOCK votes to the candidate "chosen" to win.
- 76. Observing the data of the contested states (and others) the algorithm deployed is identical to that which was deployed in 2012 providing Barack Hussein Obama a block allocation to win the 2012 Presidential Elections.
- 77. The algorithm looks to have been set to give Joe Biden a 52% win even with an initial 50K+ vote block allocation was provided initially as tallying began (as in case of Arizona too). In the am of November 4, 2020 the algorithm stopped working, therefore another "block allocation" to remedy the failure of the algorithm. This was done manually as ALL the SYSTEMS shut down NATIONWIDE to avoid detection.

GEORGIA "FIXING" THE VOTE

SUMMARY

78.

- The spike on the morning of Nov. 4 resulted in a net increase of 107,040 to Biden's total
- A spike means that a large number of votes were injected into the totals
- A normal vote pattern would look like a natural progression smooth without

79. In Georgia during the 2016 Presidential Elections a failed attempt to deploy the scripts to block allocate votes from a centralized location where the "trap-door" key lay an attempt by someone using

the DHS servers was detected by the state of GA. The GA leadership assumed that it was "Russians" but later they found out that the IP address was that of DHS.

80. In the state of Wisconsin, we observed a considerable BLOCK vote allocation by the algorithm at the SAME TIME it happened across the nation. All systems shut down at around the same time.

Total presidential votes for each party so far, with 89 percent of Wisconsin's expected vote counted as of 6:23 a.m on Nov. 4

2 million votes

An estimated 381k more votes have not yet been counted

1.5m

1m

81.

83.

Republican votes

Brown and Kenosha counties are still counting.

Democratic votes

82. In Wisconsin there are also irregularities in respect to BALLOT requests. (names AND address Hidden for privacy)

FACT SHEET: U.S. Crisis Support Package for Ukraine

President Obama and Vice President Biden have made U.S. support for Ukraine an urgent priority as the Ukrainian government works to establish security and stability, pursue democratic elections and constitutional reform, revive its economy, and ensure government institutions are transparent and accountable to the Ukrainian people. Ukraine embarks on this reform path in the face of severe challenges to its sovereignty and territorial integrity, which we are working to address together with Ukraine and our partners in the international community. The United States is committed to ensuring that Ukrainians alone are able to determine their country's future without intimidation or coercion from outside forces. To support Ukraine, we are today announcing a new package of assistance totaling \$50 million to help Ukraine pursue political and economic reform and strengthen the partnership between the United States and Ukraine.

- 91. Right before the ----- elections it was alleged that CyberBerkut a pro-Russia group infiltrated --central election computers and <u>deleted key files</u>. These actions supposedly rendered the votetallying system inoperable.
- 92. In fact, the KEY FILES were the Commitment keys to allow Scytl to tally the votes rather than the election machines. The group had disclosed emails and other documents proving that their election was rigged and that they tried to avoid a fixed election.
- 93. The elections were held on May 25, 2014 but in the early AM hours the election results were BLOCKED and the final tally was DELAYED flipping the election in favor of ----.
- 94. The claim was that there was a DDoS attack by Russians when in actual fact it was a mitigation of the algorithm to inject block votes as we observed was done for Joe Biden because the KEYS were unable to be deployed. In the case of -----, the trap-door key was "altered"/deleted/ rendered ineffective. In the case of the US elections, representatives of Dominion/ ES&S/ Smartmatic/ Hart Intercivic would have to manually deploy them since if the entry points into the systems seemed to have failed.
- 95. The vote tallying of all states NATIONWIDE stalled and hung for days as in the case of Alaska that has about 300K registered voters but was stuck at 56% reporting for almost a week.
- 96. This "hanging" indicates a failed deployment of the scripts to block allocate remotely from one location as observed in ----- on May 26, 2014.
- 97. This would justify the presence of the election machine software representatives making physical appearances in the states where the election results are currently being contested.
- 98. A Dominion Executive appeared at the polling center in Detroit after midnight.
- 99. Considering that the hardware of the machines has NOT been examined in Michigan since 2017 by Pro V& V according to Michigan's own reporting. COTS are an avenue that hackers and bad actors seek to penetrate in order to control operations. Their software updates are the reason vulnerabilities to foreign interference in all operations exist.
- 100. The importance of VSTLs in underrated to protect up from foreign interference by way of open access via COTS software. Pro V& V who's EAC certification EXPIRED on 24 FEB 2017 was contracted with the state of WISCONSIN.
- 101. In the United States each state is tasked to conduct and IV& V (Independent Verification and Validation) to provide assurance of the integrity of the votes.
- 102. If the "accredited" non-federal entities have NOT received EAC accreditation this is a failure of the states to uphold their own states standards that are federally regulated.
- 103. In addition, if the entities had NIST certificates they are NOT sufficing according the HAVA ACT 2002 as the role of NIST is clear.
- 104. Curiously, both companies PRO V&V and SLI GAMING received NIST certifications OUTSIDE the 24 month scope.

PRO V& V received a NIST certification on 26MAR2020 for ONE YEAR. Normally the NIST 105. certification is good for two years to align with that of EAC certification that is good for two years.

- The last PRO V& V EAC accreditation certificate (Item 8) of this declaration expired in 107. February 2017 which means that the IV & V conducted by Michigan claiming that they were accredited is false.
- The significance of VSTLs being accredited and examining the HARDWARE is key. COTS 108. software updates are the avenues of entry.
- As per DOMINION'S own petition, the modems they use are COTS therefore failure to have an 109. accredited VSTL examine the hardware for points of entry by their software is key.

	Fax Modem US	
	Robotics 56K V.92.	

- 111. For example and update of Verizon USB Modern Pantech undergoes multiple software updates a year for it's hardware. That is most likely the point of entry into the systems.
- 112. During the 2014 elections in ---- it was the modems that gave access to the systems where the commitment keys were deleted.
- 113. SLI Gaming is the other VSTL "accredited" by the EAC BUT there is no record of their accreditation. In fact, SLI was NIST ISO Certified 27 days before the election which means that PA IV&V was conducted without NIST cert for SLI being valid.

United States Department of Commerce National Institute of Standards and Technology

Certificate of Accreditation to ISO/IEC 17025:2017

NVLAP LAB CODE: 200733-0

SLI Compliance

Wheat Ridge, CO

is accredited by the National Voluntary Laboratory Accreditation Program for specific services, listed on the Scope of Accreditation, for:

Voting System Testing

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communique dated January 2009)

- In fact SLI was NIST ISO Certified for less than 90 days. 115.
- I can personally attest that high-level officials of the Obama/Biden administration and large 116. private contracting firms met with a software company called GEMS which is ultimately the software ALL election machines run now running under the flag of DOMINION.
- GEMS was manifested from SOE software purchased by SCYTL developers and US Federally 117. Funded persons to develop it.
- The only way GEMS can be deployed across ALL machines is IF all counties across the nation 118. are housed under the same server networks.
- GEMS was tasked in 2009 to a contractor in Tampa, Fl. 119.
- GEMS was also fine-tuned in Latvia, Belarus, Serbia and Spain to be localized for EU 120. deployment as observed during the Swissport election debacle.
- John McCain's campaign assisted in FUNDING the development of GEMS web monitoring via 121. WEB Services with 3EDC and Dynology.

- AKAMAI Technologies has locations around the world. 131.
- AKAMAI Technologies has locations in China (ref item 22) 132.
- AKAMAI Technologies has locations in Iran as of 2019. 133.
- AKAMAI Technologies merged with UNICOM (CHINESE TELECOMM) in 2018. 134.
- AKAMAI Technologies house all state .gov information in GERMANY via TELIA AB. 135.

- 136. In my professional opinion, this affidavit presents unambiguous evidence:
- 137. That there was Foreign interference, complicit behavior by the previous administrations from 1999 up until today to hinder the voice of the people and US persons knowingly and willingly colluding with foreign powers to steer our 2020 elections that can be named in a classified setting.
- 138. Foreign interference is present in the 2020 election in various means namely,
- 139. Foreign nationals assisted in the creation of GEMS (Dominion Software Foundation)
- 140. Akamai Technologies merged with a Chinese company that makes the COTS components of the election machines providing access to our electronic voting machines.
- 141. Foreign investments and interests in the creation of the GEMS software.
- 142. US persons holding an office and private individuals knowingly and willingly oversaw fail safes to secure our elections.
- 143. The EAC failed to abide by standards set in HAVA ACT 2002.
- 144. The IG of the EAC failed to address complaints since their appointment regarding vote integrity
- 145. Christy McCormick of the EAC failed to ensure that EAC conducted their duties as set forth by HAVA ACT 2002
- 146. Both Patricia Layfield (IG of EAC) and Christy McCormick (Chairwoman of EAC) were appointed by Barack Hussein Obama and have maintained their positions since then.
- 147. The EAC failed to have a quorum for over a calendar year leading to the inability to meet the standards of the EAC.
- 148. AKAMAI Technologies and Hurricane Electric raise serious concerns for NATSEC due to their ties with foreign hostile nations.
- 149. For all the reasons above a complete failure of duty to provide safe and just elections are observed.
- 150. For the people of the United States to have confidence in their elections our cybersecurity standards should not be in the hands of foreign nations.
- 151. Those responsible within the Intelligence Community directly and indirectly by way of procurement of services should be held accountable for assisting in the development, implementation and promotion of GEMS.
- 152. GEMS ----- General Hayden.
- 153. In my opinion and from the data and events I have observed ------ with the assistance of SHADOWNET under the guise of L3-Communications which is MPRI. This is also confirmed by <u>us.army.mil</u> making the statement that shadownet has been deployed to 30 states which all

happen to be using Dominion Machines.

FAIRFAX, Va. -The Virginia National Guard's Bowling Green-based 91st Cyber Brigade completed the nationwide rollout of its ShadowNet enterprise solution July 19, 2019, with the integration of the 125th Cyber Protection Battalion into the solution's virtual private network. ShadowNet is a custombuilt private cloud-based out of the brigade's data center in Fairfax, Virginia, that uses VPN connectivity to provide its aligned units with 24-hour, sevendays-a-week remote access to critical cyber training at both the collective and individual levels. The brigade successfully integrated its three other cyber protection battalions - the 123rd, 124th, and 126th Cyber Protection Battalions - into the ShadowNet platform last January.

"I'm extremely proud to announce that the Soldiers of the 91st Cyber Brigade have completed the construction and rollout of ShadowNet, a world-class enterprise solution designed to propel operational innovation in the field of cyber training," said Col. Adam C. Volant, commander of the 91st Cyber Brigade, "ShadowNet will allow us to leverage the expertise of cyber professionals across our four cyber protection battalions to build Soldier-centric programs and collective training environments that deliver
