BACKGROUND:

Summary

This Board item is for the establishment of RCIT’s allocations and rates for Fiscal Year (FY) 22/23. In compliance with the Executive Office Memo dated September 17, 2021, RCIT has absorbed labor increases. RCIT is submitting a preliminary budget of \$89,373,085 for FY 22/23 comprised of \$87,108,785 for RCIT Operations and \$2,264,300 for GIS.

In FY 20/21, the department reduced costs to departments through a revised rate reduction in response to the pandemic and subsequent budget deficits. On June 16, 2020 (Item 3.15), the Board of Supervisors approved the revised rates for FY 20/21. The revision represented a cost reduction of (\$3.9M) from the previously approved FY 20/21 rates. This resulted in the elimination of some services to departments and the delay in replacing end of life equipment. This decrease rolled over into FY 21/22.

Given direction from the Executive Office to maintain a roll-over budget from prior fiscal year there are still many projects and “end of life” mission critical equipment that will require funding in future years. RCIT remains committed to using technology and efficient management strategies to ensure resources are utilized in the most effective manner possible.

RCIT’s fixed allocation model is comprised of calculating and establishing baseline percentages for determining cost allocations across departments for the Access and Support allocations now known as the “Enterprise” allocation. The Enterprise allocation encompasses core services such as the County phone system, CORNET, support for devices and the RC3 data center, back-up, disaster recovery, and Office 365, etc. Although the “Access” and “Support” allocations have been combined, departments are only charged if the service is managed by RCIT. Allocations have also been developed for Document Management and Dedicated Staff, which are not fully utilized by all departments. Effective FY 22/23, RivcoPRO will shift from being managed by Purchasing and Fleet to being managed by RCIT. The RivcoPRO allocation is based on number of Purchase Orders (POs) processed in FY 20/21. RCIT continues to use a “Fixed Allocation Methodology” which has been further refined to eliminate large unpredictable swings and provide a more consistent way to bill and forecast IT spend across departments.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

With the need to be prepared for a county-wide emergency response and in accordance with Board Policy B-28, Riverside County Information Technology (RCIT) Operations is requesting to update its Capital Asset/Project Plan to set aside additional reserves as funding permits in the current and in future budgets for capital asset purchases and replacements. This five-year plan is part of the department's overall management strategy to ensure RCIT infrastructure and systems are properly maintained, managed, and kept up to date. The plan identifies necessary upgrades to address future enterprise infrastructure needs and equipment.

This five-year plan incorporates maintaining an ongoing reserve of up to \$5,500,000 - RCIT Budget, this includes an incremental increase of \$600,000. RCIT manages more than 3,000 county-wide mission critical capital assets. This plan will help to finance the continued investment necessary to properly maintain, replace or upgrade enterprise systems (e.g., PeopleSoft and ServiceNow) and core infrastructure equipment (e.g., servers, routers, mission critical hardware, and data center equipment) and to ensure the department meets expected service levels.

This update does not increase rates and costs to the departments. Through more efficient management of resources, departmental restructuring, enhanced contract negotiations, financing technology where possible and reserving a portion of unrestricted net assets, RCIT plans to fund this Capital Asset/Project Plan going forward as permitted by the department's budget and available reserves.

All future capital asset purchases will be purchased in accordance with all applicable procurement guidelines and will come separately to the Board for approval as part of the annual or quarterly budget process or individually where required.

Impact on Residents and Businesses

Direct departmental service will still be available through direct billing, but some service levels maybe delayed. This updated five-year Capital Asset/Project Plan will positively impact the ability of our departments to serve the citizens and businesses of the County.

Additional Fiscal Information

The proposed fixed allocation and rates will ensure full cost recovery for RCIT and help RCIT's customers in their budgeting by providing a pre-determined budgetary amount.
