BACKGROUND:

Summary

The Assignment, Assumption and Amendment Agreement ("Agreement") transfers the rights and responsibilities as established by the Cooperative Agreement executed on March 2, 2021 (District Board Agenda Item No. 11.3) from Cimarron Ridge, LLC ("Assignor") to Pulte Home Company, LLC ("Assignee"). Once executed, the Assignee will assume responsibility for the construction of the storm drain facilities, as originally required as a condition of development for Tract Nos. 36658-5 and 36658-6. Upon completion of the facility's construction, the District will assume ownership, operation and maintenance of the mainline storm drain greater than 36 inches in diameter for the Romoland MDP Lines A-14 and Line A-14a, Romoland – Ethanac Road and Romoland – Byers Road Storm Drain facilities.

The City will assume ownership and responsibility for the operation and maintenance for certain associated appurtenant features that are located within City-held easements or rights of way, including inlets, outlets, catch basins, connector pipes, trash rack and water quality features.

County Counsel has approved the Agreement as to legal form, and the City, Assignor and Assignee have executed the Agreement.

Environmental Findings

The transfer of rights and responsibilities in the Agreement from the Assignor to the Assignee is not a "project" under the State CEQA Guidelines. Pursuant to Section 15378(b)(5) of the State CEQA Guidelines, a "project" does not include "organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment." The transfer of rights and responsibilities described in the Agreement will not, in and of itself, result in a physical change to the environment and does not authorize to any extent whatsoever actual physical development. This Agreement does not authorize any development, construction, maintenance, operation or any other activity that would have the potential to result in any significant effect on the environment. This Agreement does not foreclose any alternatives to the facilities, including a "no project" alternative, or to foreclose any mitigation measures that may be necessary to reduce any impacts that could potentially result from the construction, operation or maintenance of the facilities. The Agreement merely set forth the terms and conditions under which the parties will fund, operate, and maintain their respective facilities that may be constructed as part of the project. Any development, if it occurs at all, will be the result of

OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

subsequent actions subject to the Final Environmental Impact Report (EIR; SCH No. 2014051029) prepared and certified by the Lead Agency (City of Menifee). Therefore, the transfer of rights and responsibilities is not a project within the meaning of CEQA. No further CEQA analysis is required for this action.

Even if the Agreement is deemed a project under the State CEQA Guidelines, pursuant to Section 15096 of the State CEQA Guidelines, the District has considered the Final Environmental Impact Report (EIR; SCH No. 2014051029) prepared and certified by the City of Menifee for Tract Nos. 36658-5 and 36658-6. The District, in its limited capacity as a Responsible Agency, finds that the impacts associated with inspection, operation and maintenance of the proposed drainage facilities as described in the Agreement have been adequately analyzed in the related Final Environmental Impact Report (EIR; SCH No. 2014051029). Ownership, operation, and maintenance of the drainage facilities described in this Agreement will not have a significant adverse impact on the environment. Therefore, nothing further is required under CEQA.

Impact on Residents and Businesses

Assignee's planned development will benefit from the storm drain facilities that are to be constructed by the Assignee. Ancillary benefits will accrue to the public who will utilize the tract's roadways.

Prev. Agn. Ref.: MT Item No. 14452, 11.3 of 03/02/21

Additional Fiscal Information

The Assignee is funding all construction and construction inspection costs. Future operation and maintenance costs associated with said mainline storm drain facility will accrue to the District.
