SOURCE OF FUNDS: Unincorporated Community Fund			Budget Adjustment:	Yes
			For Fiscal Year:	21/22

BACKGROUND:

Summary

On November 17, 2020, the Riverside County Board of Supervisors (Board) directed the Executive Office to implement an Unincorporated Communities Initiative (UCI). The UCI is a focused, ongoing, and coordinated effort to improve the infrastructure and services provided to the residents of unincorporated communities, with emphasis on Disadvantaged Unincorporated Communities (DUCs). The program is funded through the Unincorporated Communities Fund (UCF). The UCF receives authorized General Fund/Net County Cost (NCC) monies from the County during the annual budget and quarterly budget revision process.

On December 15, 2020, the Executive Office presented a proposed framework for planning and implementation of the UCI. With the support of the Board, the Executive Office established a team of staff and department heads to facilitate the UCI program. Through March 31, 2021, the Executive Office team held 15 community meetings and conducted online surveys to better understand community needs for services, infrastructure, and infrastructure maintenance. On May 25, 2021, the UCI Team presented the needs assessment to the Board.

On June 29, 2021, the Board adopted the FY21/22 Budget, which included the allocation of \$5,000,000 in NCC General Funds to the Unincorporated Communities Fund. The \$5,000,000 was to be divided evenly between the five Supervisorial Districts for each Supervisor’s use within their unincorporated communities.

Based on the foundational work completed by the UCI Team and further analysis by this office, \$450,000 of the \$820,000 in remaining available UCF funding for the Third District will be allocated to the following project at the French Valley Airport:

- 1. Air Traffic Control Tower Siting Study and Environmental Compliance Documentation for the French Valley Airport.**

Impact on Residents and Businesses

The French Valley Airport is a General Aviation (GA) Reliever airport located in southwest Riverside County. The airport includes one 6,000-foot by 75-foot runway that supports a diverse

STATE OF CALIFORNIA**

fleet mix associated with corporate aircraft, flight schools, and regional aviation. The French Valley Airport is home to more than 240 based aircraft and supports approximately 89,000 annual operations. The surrounding area impacted by the airport operations can be characterized as predominantly residential. The inclusion of a traffic control tower will significantly reduce the impact of airport operations on the surrounding community.

The long-term goal of the Unincorporated Communities initiative is to ultimately improve infrastructure and services to all of our unincorporated communities. This is a first step to meeting that commitment.
