BACKGROUND:

Summary

The Planning Department is initiating four individual community planning efforts throughout the County with the objective of proactively planning for future growth and preparing both the requisite General Plan Amendments (GPA) and the necessary California Environmental Quality Act (CEQA) studies for each Community Plan. A significant community outreach component is included to work closely with interested parties and affected stakeholders. Each Community Plan will be unique to the community it serves. As such, each effort will progress in a manner independent from the others. The Community Plans will focus on the County Unincorporated areas of: 1) Hwy. 74 between the cities of Lake Elsinore and Perris, 2) Winchester, 3) Thermal and, 4) Date Palm Area. Due to the unique nature of these efforts, the Planning Department has budgeted for and intends to secure the services of several consulting firms with experience in these types of planning efforts.

The request before the Board is for the approval of the Agreement with Michael Baker International, Inc to provide Community Planning and Design Services for an annual amount of \$500,000 through June 30, 2027. Community planning is a complex, multi-year process that includes significant community outreach, land use analysis, a GPA and necessary documentation for purposes of CEQA.

In support of the aforementioned community planning efforts, the Transportation and Land Management Agency on behalf of the Planning Department has requested that Michael Baker International, Inc provide all services as outlined and specified in the submitted contracts with a scope of work, and the prices stated in Exhibit B, Payment Provisions. The agreement shall be effective through June 30, 2027, unless terminated earlier. It should be noted that most, if not all, of the above mentioned community plans may come to a conclusion prior to 2027. Having this contract in place will allow consultant availability to take on additional community plans initiated at a future date.

Impact on Residents and Businesses

There is no negative impact on the citizens or businesses in the County of Riverside. Community Plans are a vital tool to proactively analyze areas that may experience future

growth. With the loss of redevelopment, proactive community planning is one of the few tools left available to help properly plan for growth and promote economic development in future growth areas. Working closely with existing property owners and businesses and other stakeholders, they provide a tool to guide balanced development that: 1) looks holistically at the opportunities and constraints within the community, 2) identifies densities and land uses can be supported by existing and/or future planned infrastructure, 3) examines public services and other amenities to be incorporated, and 4) includes early outreach to the local residents and businesses. Early outreach affords residents and businesses the opportunity to guide the future development of their communities while such development is still within the conceptual land use stage. Community Planning efforts can range from conceptual land use planning at the outset to eventually lead to general plan amendments and other tools such as consistency zoning to lower the cost of individual development and foster economic growth.

Additional Fiscal Information

Maximum payment by the County to Michael Baker International, Inc annually shall not exceed \$500,000 for an aggregate amount of \$2,500,000 for five years through June 30, 2027.

These Four community projects (Hwy. 74 between the cities of Lake Elsinore and Perris, Winchester, Thermal, & Date Palm Area) will be funded as General Fund support is available. No dollar amount of work is guaranteed. The basis for work will be on "as-needed" basis. The contract amount is anticipated to be divided based on the timing of each project as it progresses and availability of funding.

Subsequent FY costs will be adjusted based on future approved budgets, and the work can be suspended at any time if funding is not available. The contracts include provisions for the County to terminate at any time.

Contract History and Price Reasonableness

In January 2022 Purchasing and Fleet Services released a Request for Proposal (RFP) #TLARC-2022-459, on behalf of TLMA-Planning Department for Community Planning and Design Services. The RFP documents were posted publicly and linked to the County website and twenty-four (24) potential bidders were invited to the RFP. The RFP closed on February 22, 2022, with three bid proposals received in response to the RFP. The proposals were thoroughly evaluated based on their scope of work, experience and the cost proposed to provide services by an evaluation committee.

The evaluation criteria for the bid included overall responsiveness and understanding of the RFP requirements, bidder experience and ability, technical capability/qualifications, cost, references, and other factors. Based on the evaluation of the proposals by CASC Engineering and Consulting, Inc., KTG Group, Inc., and Michael Baker International, Inc. The Evaluation committee selected Michael Baker International, Inc as the most responsive/responsible vendor and recommend awarding. The proposed agreement will be in effect through June 30, 2027, unless terminated earlier. Purchasing and TLMA have reviewed the proposed hourly rates and

they are comparable for such work in the industry. Contractors' technical knowledge of this effort is significant and critical to the completion of the aforementioned work.
