**BACKGROUND:**

**Summary**

The California Office of Emergency Services (Cal OES) approved the FY20/21 Riverside Urban Areas Security Initiative (UASI) grant application and authorized commencement of expenditures for the period of September 01, 2021 through May 31, 2024. The Emergency Management Department (EMD) received an award letter in the amount of \$33,200 on March 29, 2022 for the proposed project to purchase DuoDotes for first responders.

DuoDote (atropine and pralidoxime chloride injection) assists in responding to poisoning by organophosphorus chemical nerve agents (CNAs) or insecticides. The self-contained auto injector delivers the two recommended antidotes, atropine and pralidoxime chloride, in a single injection.

The Center for Disease Control and Prevention (CDC) has provided ChemPacks (Mark 1 Kits and antidotes in IV form) in both Riverside and San Bernardino County in the event of a chemical nerve agent release. However, these caches are not on the front line and if requested, may be too late to assist exposed first responders on the scene. The purchase of DuoDotes injectors will ensure that first responders can effectively perform their duties during an emergency and will prevent negative outcomes from a chemical nerve agent exposure in the field.

Riverside County Emergency Management Department surveyed HazMat Teams, Fire and Police Chiefs to determine the needed quantity and distribution of DuoDotes. Based on these recommendations, EMD proposes purchasing 1,919 for distribution to the following disciplines and teams in the Operational Area:

- Public Health
- Law Enforcement
- Fire
- Environmental Health
- Hazardous Materials Teams

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

An enhanced antibiotic cache will provide additional countermeasures against a biological event that will warrant the request of the Strategic National Stockpile, since their response time may take up to 24-48 hours for the cache to arrive to both Riverside and San Bernardino counties. The window of opportunity for successful treatment decreases for individuals exposed to the agent. Both counties are committed to ensuring the health and safety of our first responders and their ability to protect the residents of each county during a medical/health or terrorism event.

Resolution No. 2022-141, the Memorandum of Understanding, and related documents were approved as to form by County Counsel.

**Impact on Residents and Businesses**

A cache of antibiotics allows first responders in both Riverside and San Bernardino OA's access to antibiotics, before additional resources are needed through regional, state or federal caches. Riverside County is surrounded by major freeways and is neighbor to Imperial County, the number two agricultural producer in California. The risk of poisoning from organophosphorus chemical nerve agents (CNAs) or insecticides is identified as a high hazard throughout Riverside County. Organophosphorus insecticides exposure can occur through an accidental spill during production or transport.

**Contract History**

On July 11, 2017 (Agenda Item 3.36) the Board accepted Riverside UASI project funding of \$30,221 from the US Department of Homeland Security through Cal OES to the Department of Public Health to purchase and distribute DuoDote TM Auto Injector kits to first responders.

On March 20, 2018 (Agenda Item 3.6) the Board accepted Riverside UASI project funding of \$200,000 to the Riverside County Emergency Management Department (EMD), in collaboration with the San Bernardino County Public Health Department, to purchase antibiotics for first responders including, personnel from fire, law, and emergency medical services (EMS), as well as non-traditional first responders who provide front-line emergency or essential services such as medical personnel, public health staff, and school nurses. The goal is to provide a sufficient mix of Ciprofloxacin and Doxycycline for distribution to first responders, receivers and their families in the event of a public health emergency such as an anthrax attack or other biological agent release.

During the review process, Riverside UASI and Cal OES staff examined and evaluated your project proposal. As a result of this review, the purchasing and performance milestones identified below will be used by Riverside UASI to 1) determine the appropriate date to disencumber funds awarded under this grant and re-direct those funds to other needs across the RUASI region, and 2) indicate performance and grant management capacity in future competitive project proposals.

Sub-recipients are also required to obtain a performance bond prior to the purchase of any equipment item over \$250,000, including any aviation or watercraft financed with Homeland Security dollars.

Following completion of the Post Award Actions listed below, this letter will serve as your authorization to begin spending against your approved projects. Please remember that any modifications to your project will require pre-approval by both Riverside UASI and Cal OES prior to incurring any costs.

**Post Award Actions:**
