BACKGROUND:

Summary

The Riverside County Flood Control and Water Conservation District, a body corporate and politic ("District"), owns fee title in real property located in the County of Riverside, identified as APNs 377-430-036, 377-430-037 and 377-140-023, respectively referenced as RCFC Parcel Nos. 3175-3A, 3175-2 and 3175-1 ("District ROW"). These properties run parallel to Third Street between Collier Avenue and Pasadena Street known as the Third Street Channel.

Southern California Edison Company, a California publicly regulated private utility corporation (SCE), is currently in the process of procuring the necessary right of way for an electric subtransmission line reaching over 27 miles from the Valley Substation in the city of Menifee through the city of Lake Elsinore and into the Ivyglen Substation in the unincorporated area of Temescal Valley ("Project"). SCE's alignment uses public right of way when applicable.

SCE has requested to purchase an easement interest in the amount of \$1,000 (One Thousand Dollars) from the District under portions of the referenced right of way ("Easements") hereinafter described in Exhibits "A" and "B" and referenced in Exhibit "C" for the purpose of an underground easement, and Easements being approximately 21,973 square feet, to construct, operate, use, maintain, alter, add, reconstruct, enlarge, repair, renew, replace, inspect, improve, relocate and/or remove electrical systems consisting of crossarms, wires and other fixtures and appliances with necessary appurtenances for conveying electric energy.

The Project will help maintain reliability for current and projected demand for electricity in southern Riverside County, including the cities of Menifee, Perris and Lake Elsinore. The District has reviewed and approved the offer to purchase, and SCE has obtained a Permit to Construct (PTC Application 07-01-031, Decision 180-8-026) from the California Public Utilities Commission authorizing the construction Project. The District is now prepared to convey a utility easement to SCE for the construction and operation of the Project.

Pursuant to the California Water Code Appendix §48-9, the District's Board of Supervisors ("Board") has the power to convey an interest in real property which it owns when necessary or convenient to the full exercise of its powers. District staff has evaluated and determined that the

OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

conveyance of the permanent easement interest to SCE will not interfere with the use of the property by the District as is necessary or convenient to the full exercise of the District's powers.

Pursuant to the California Water Code Appendix §48-13, the District's Board may determine that any real property held by the District is no longer necessary to be retained for the uses and purposes thereof and may thereafter sell or otherwise dispose of said property or lease the same. The Board has evaluated and determined that the easement interest which is intended to be conveyed to SCE is no longer necessary to be retained for the uses and purposes of the District.

Impact on Residents and Businesses

There is no impact to the residences and business.

Additional Fiscal Information

All costs shall be borne by SCE.
