BACKGROUND:

Summary

The California Office of Traffic Safety (OTS) has awarded the County of Riverside District Attorney's Office (DA) a \$659,000 grant for the continuation of the DA's Drug Impaired Driver Vertical Prosecution Program (DUID) in Riverside County.

The DA will assign three (3) Deputy District Attorneys (DDA), to vertically prosecute misdemeanor drug impaired driving cases. These DUID prosecutors will handle cases throughout each step of the criminal process, including the review of charges, and courtroom proceedings (including trials) of misdemeanor DUID cases throughout the County

The DUID prosecutors will work with the California District Attorneys Association (CDAA) Traffic Safety Resource Prosecutor Program (TSRP), funded by OTS, to increase capabilities of the prosecutor and the office by obtaining and delivering specialized training. The DUID prosecutors will share information with peers and law enforcement personnel throughout the County and across the State. The Office will accomplish these objectives as a means to prevent impaired driving and reduce drug-involved traffic fatalities and injuries.

The DA will host regional roundtable meetings with representatives from law enforcement agencies throughout Riverside County, as well as the regional CDAA TSRP and OTS Grant Coordinator. Both, in-house training for other deputy district attorneys, as well as "investigation protocol" training for law enforcement and DUID prosecutor, will be developed and presented in collaboration with the CDAA TSRP Program Coordinators.

In addition, prosecutors assigned to this program will attend specialized training, including DUID prosecution and Vehicular Homicide Seminars, sponsored by OTS and CDAA. Tracking the number of cases and disposition of DUID filing requests received by the DA, as well as the dispositions and conviction rate on DUID cases, will be maintained.

The DA budgeted revenue in this category will need to be adjusted due to this award hence the inclusion of a budget adjustment as part of this submittal.

1. PROBLEM STATEMENT

Riverside County remains the fourth most populous county in the state, with over 2.4 million inhabitants, as well as the fourth largest by landmass (7,200 square miles.) The County's growth rate remains above six percent; well above the population growth rates of Orange, San Bernardino and San Diego counties. Riverside County contains two major Freeway arteries within its borders, Interstate 10 and Interstate 15.

In 2013, Riverside County saw DUI arrests drop below 10,000 per annum, for the first time since 2006. (1) The trend continued into 2018. Riverside County now ranks as one of the top four counties for DUI arrests in the State of California. (2) While the number and severity of Alcohol-Involved fatalities within the County remained relatively consistent from 2013-2016, Riverside experienced an increase in Alcohol-Involved fatalities in 2017, which rose from 88 to 108. (3) Alcohol involved injury crashes also increased in 2016-2017, which rose from 888 to 1051 in 2016 and to 1139 in 2017. (4) The California Office of Traffic Safety for 2019 in Riverside County indicated that of the 15248 total fatal and injury crashes, 1786 were alcohol involved. According to NHTSA, in 2019, 26% of fatal vehicle crashed involved a BAC greater than .08.

In 2010 NHTSA reported 18 percent of those fatally injured tested positive for at least one drug (over-the-counter, prescription or illicit.) In 2012, the California Office of Traffic Safety indicated 30 percent of all drivers killed in California vehicle crashes in 2010 tested positive for legal or illegal drugs. The number of fatal crash fatalities involving only drugs increased 45 percent between 2010 and 2013. (5) Drug-only crashes accounted for 26 percent of all impaired-fatalities and amounted to over 8 percent of all impaired fatal/injury crashes. (6) The number of crash fatalities involving combo (i.e. alcohol plus drugs) decreased by 6.9 percent in 2018, following an increase of 8.5 percent in 2017, (7) and the median BAC level of alcohol- and drug-involved drivers in fatal/injury crashes was 0.16 percent in 2016. (8) Among 2017 alcohol- and drug-involved drivers in fatal/injury crashes, the percentage of drivers with drug-related impairment in Riverside was 16.9 percent. (9)

According to the Berkeley SafeTREC 2021 report, 49.6 percent of fatally injured drivers were positive for drugs. The second highest number of drug-involved road user fatalities and serious injuries in California occurred in Riverside County. In 2020 NHTSA reported (based on studied trauma centers, Oct-Dec 2020) 56 percent of those fatally injured tested positive for at least one drug.

Riverside County began focusing on DUID prosecution on FFY 2013 with the California Legislature's creation of enumerated DUID crimes and a grant for the California Office of Traffic Safety. (OTS grant #AL1359). This inception grant funded a single DUID prosecutor and covered only the Western District of Riverside County. The resulting data collection brought into the light the exceptionally high number of Drug-only (CVC §23152(e)) and Combo (CVC §23152(f)) DUID drivers on the roads in western Riverside. In FFY 2013, 829 filing requests were submitted to the DUID DDA. (More than 2 per calendar day.) 748 of those requests resulted in criminal complaints being files. (Again, more than 2 per day.) In all, the grant prosecutor handled 417 misdemeanor Combo cases and 318 misdemeanor Drug-only cases in FFY 2013. This resulted in a conviction success rate of 42 percent for Drug-only filings and 35 percent for Combo filings. (10)

In FFY 2014, Riverside County received a grant (OTS grant #DI1427) to expand the DUID Prosecution Program to the entire county. The Riverside DA DUID Prosecution Team encompassed three DDAs, one based in each of the judicial-geographical regions of the county. Grant DI1427 saw a 20 percent increase in the number of filing submissions from law enforcement, but a lower rate of submission resulting in actual filings. (11)

More importantly, the rate of conviction of DUI-only drivers increased by almost 100% and the rate of conviction for Combo drivers increased by more than 100%, reflecting an improvement in the prosecution abilities of the Riverside District Attorney's Office and validating the objectives of the OTS grants.

FFY2015 saw a changing of the guard at the Riverside District Attorney's Office with the election of the Honorable Michael A. Hestrin and the retirement of Assistant District Attorney and former TSRP Director, Cregor Datig. FFY 2015 evidenced a continuing DUID problem within Riverside County, as well as continued success in hold DUID drivers accountable.

FFY 2016 saw the development of an improved office-wide Case Management System, replacing the 17-year-old DOS based system to improve visibility into cases reviewed sent back for further investigations, thus enabling timelier re-submission of the matter. This system will be operational during FFY 2017. The system should allow tracking the time from arrest to conviction for DUID cases, similar to the data found in DMV DUI MIS Table B3. Significant variation exists in the longevity of DUI cases in Riverside County. (12)

DUI in the Southwest Division are completed in less than 100 days, while those in the Eastern Division linger for close to 200 days. One goal of the Riverside DUID Prosecution Team will be to meet or surpass the statewide Median DUI Adjudication Time of 94 days.

During FFY 2016, Riverside County courts implemented a redistricting. This redistricting moved a number of cases, including DUID cases to our Banning Courthouse. The move required the DUID prosecutor assigned to the Southwest region to travel between Banning and Murrieta courts. This geographic challenge impacted the grant as the Southwest prosecutor divided time between the two courts. In the Riverside Judicial District, our grant assigned prosecutors left the office during the year. This caused delay as the newly assigned grant prosecutor had to develop an understanding of a new case load. Despite these challenges, there was a 34% increase in drug cases reviewed and 14% increase in Combo cases. Total volume for drug/combo cases increased 27%.

DUID remained a persistent problem within Riverside County. Proposition 64 allowed legal possession of marijuana separate from the Compassionate Use Act. This change created an increase in DUID. The absence of a per-se standard and public misperception made prosecution more challenging. With an ever-growing population, the negative impact on the motoring public caused by DUID drivers increased.

FFY 2017 marked major changes in DUID prosecution within Riverside County. The grant funding reduced from funding three prosecutors to funding only two. Birchfield v. North Dakota dramatically changed the investigation of DUI investigation and prosecution. Birchfield impacts California's implied consent advisement. The final part of the DS-367 advisement (that the DMV will suspend your license if you choose not to submit to a blood test) should no longer be a part of a request for consent to provide blood. Birchfield triggered evidentiary issues with a number of post-arrest/pre-filing cases, as well as a number of pending cases. Typically reports stated the defendant was given the DS-367 implied consent advisement. Those cases required clarification from the agency. Training updates to law enforcement and prosecutors became a critical part of the day-to-day operations. Birchfield resulted in an increase of case rejections as well as an overall slowdown in the movement of cases through the system. Beyond changes in case law, the legislature created a new hurdle to offender accountability. SB 725 (Jackson), signed by the Governor as urgency legislation on August 7, 2017, allows offenders who are veterans to pre-plea diversion of DUI charges, including DUID. Offenders who successfully complete the program will have their charges dismissed. A reduction in grant funding further challenged prosecutors in this area. The number of DUID cases submissions continued to increase, evidencing a continued demand for specialized prosecution.

FFY 2018 saw continued challenges for prosecutors of DUID driving. As California moves towards the commercialized use of marijuana, we see more issues with DUID involving marijuana. Poly-substance combinations of marijuana, alcohol, and or other drugs (prescription and non-prescription) create new challenges. The end of the year saw another criminal justice reform measure (mental health diversion) create still more challenges for prosecution. Despite these challenges, our assigned grant prosecutors pressed cases to trial, served as instructors for the Traffic College, conducted numerous briefings and community presentations, and changed policy. Significantly, they worked with California Highway Patrol to change their provider for blood analysis to allow for quantitative analysis of marijuana results. This greatly improves our ability to prosecute cases from the agency.

FFY 2019 saw several DDA rotations in the DUID assignment due to employee turnover and needs of the office. During this year the Indio office rotated three DDAs into the unit and Riverside rotated two DDAs. Due to the specialized nature of DUID, out of the office training such as ARIDE and DRE school were necessary to bring each of these DDA's up to speed. That training accounts for the slightly lower filing numbers this year.

FFY 2020 brought many challenges due to the COVID-19 pandemic, which substantially interrupted the full execution of grant objectives, especially through court processes. The DUID grant attorneys, despite these challenges, remained productive. The percentage of convictions fell from years priors due to circumstances beyond the DA's office's control. However, filing numbers rose. Further, DDAs took advantage of the time they were unable to spend in court by preparing their cases for trial and creating new trainings for law enforcement. Both meetings and trainings were held virtually with good attendance. The priority this year was focusing on what could be accomplished and dedicating all resources to improved performance going forward.

In the Eastern end of the County, DUI and non-DUI vehicular homicide investigations have exploded. The number of cases staffed for prosecution in 2021 in the Eastern region alone increased over 150% from 2020 as did the total number of cases filed. Additionally, caseloads in the vehicular homicide unit have tripled from 2019 to 2021 going from an average of 14 cases in 2019 to 24 cases in 2020 finishing with 45 cases in 2021. Of those 45 cases in 2021, 11 of those are what are referred to as "Watsons", a second-degree murder prosecution.

OTS staff, TSRP staff, local law enforcement, CHP and probation staff should be included in the roundtable. Agenda and minutes should be produced and distributed. All four meetings for the year should be scheduled in the first quarter of the grant. • Develop protocols to be used to measure the success of the DUI Prosecution Program. • Conduct training for all program staff outlining the goals and objectives of the project. • Refer cases for prosecution to the grant-funded Deputy District/City Attorney(s). • Transfer all pending DUI cases which qualify under this program so that vertical prosecution may begin. • Develop a training protocol for law enforcement agencies within the county, and start a process of coordinating all reporting, investigation, and referral of cases that qualify under the grant. 	
<u>Media Requirements</u>	
<ul style="list-style-type: none"> • Issue a press release approved by the OTS PIO announcing the kick-off of the grant by November 15, but no sooner than October 1. Instructions for Primary Tier Participant Certification (States)

1. By signing and submitting this proposal, the prospective primary tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR parts 180 and 1200.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.
4. The prospective primary tier participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary tier participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5.
