

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

ITEM: 3.45
(ID # 20059)

MEETING DATE:
Tuesday, October 18, 2022

FROM : TLMA-TRANSPORTATION:

SUBJECT: TRANSPORTATION AND LAND MANAGEMENT AGENCY/TRANSPORTATION:
Approval of the Plans and Specifications and Authorization to Advertise for Bid for the Construction of the Slurry Seal and Curb Ramp Accessibility Project for Fiscal Year 2022/23 at various locations; CEQA Exempt; District 3. [\$2,872,313 Total Cost - Local Funds 100%] (Clerk to Advertise)

RECOMMENDED MOTION: That the Board of Supervisors:

1. Find that the Slurry Seal and Curb Ramp Accessibility Project for Fiscal Year 2022/23 is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15301 (c) - Existing Facilities;
2. Approve the plans and specifications for the Slurry Seal and Curb Ramp Accessibility Project for Fiscal Year 2022/23 at various locations in the 3rd District;
3. Authorize the Clerk of the Board to advertise for bids to be received by the office of the Director of Transportation and Land Management at the Transportation Annex located at 3525 14th Street, Riverside, California 92501. All bids must be received up to the hour of 2:00 p.m., Wednesday, November 16, 2022 at which time bids will be opened; and
4. Direct the Clerk of the Board of Supervisors to file the Notice of Exemption with the County Clerk for posting within five (5) working days of Board approval.

ACTION:Policy

Mark Lancaster, Director of Transportation 9/19/2022

MINUTES OF THE BOARD OF SUPERVISORS

On motion of Supervisor Jeffries, seconded by Supervisor Perez and duly carried by unanimous vote, IT WAS ORDERED that the above matter is approved as recommended.

Ayes: Jeffries, Spiegel, Washington, Perez and Hewitt
Nays: None
Absent: None
Date: October 18, 2022

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The slurry seal treatment is provided as a preventative maintenance to extend the life of the pavement and postpone more costly pavement rehabilitation. The slurry seal treatment seals small cracks, restores lost flexibility to the pavement surface and helps preserve the underlying pavement structure. This project includes various roads located within the communities of East Hemet, French Valley, Gilman Hot Springs, Homeland, Soboba, Murrieta Hot Springs, and the unincorporated areas near the Cities of Menifee, San Jacinto, and Temecula. The specific roads are listed in "Attachment 1".

The slurry seal project proposes slurry seal and micro-surfacing seal treatments based on the existing pavement conditions. The slurry seal treatment consists of an application of a mixture of asphalt emulsion, aggregates, water and other additives placed over the existing asphalt pavement surface. This work includes road cleaning, crack repair, crack sealing, asphalt concrete repairs, application of seal coat treatment, installation of new thermoplastic crosswalks, replacement of striping, pavement markings and raised pavement markers. All roads will be swept several times at specified intervals after the slurry has been applied.

The micro-surfacing treatment is similar to the slurry seal except it uses polymer modified and fast setting asphalt emulsion allowing thicker layers to be placed. The thick layer application allows to fill in ruts commonly found on roadways with light to moderate truck traffic.

This project also proposes to reconstruct or upgrade thirty-one (31) existing concrete curb ramps at various locations within the 3rd District as part of the Transportation Department goal to provide safe and usable pedestrian facilities for all pedestrians and to comply with the Title II of the Americans with Disabilities Act (ADA) requirements. As part of the ADA requirement, curb ramps must be upgraded when adjoining roads are altered through resurfacing or placement of a thick layer of seal coat. The specific curb ramp locations are listed in "Attachment 2."

The proposed curb ramp accesibility work will consist of modifying or removing existing concrete curb ramps and placing back ADA compliant concrete curb ramps. Certain curb ramps will be

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

upgraded by installing yellow detectable warning devices (series of small bumps or truncated domes) and making repairs to street landing slopes to meet ADA compliance. Detectable warning devices are used to alert pedestrians who are blind or visually impaired that there is vehicle traffic nearby.

The bid documents include the following bid schedules of work:

Base Bid Schedule:	Slurry Seal and associated work
Alternative Bid Schedule 1:	Curb Ramp and associated work
Alternative Bid Schedule 2:	Repair of Existing Asphalt Concrete Surfaces
Alternative Bid Schedule 3:	Slurry Seal and associated work, City of Menifee
Alternative Bid Schedule 4:	Slurry Seal and associated work, City of San Jacinto
Alternative Bid Schedule 5:	Slurry Seal and associated work, City of Temecula

If the low bid is approved and concurred to by the City of Menifee, San Jacinto, and Temecula for their respective alternative bid schedule of work, then reimbursement agreements between the Cities and the County will be submitted to the Board of Supervisors for approval prior to or concurrent with the award of the construction contract.

The Transportation Department will select the contractor based upon the lowest responsive and responsible bid of the sum of all bid schedules.

The submitted plans and specifications have been approved as to form by County Counsel.

Project Numbers: D3-0008 (Slurry Seal)
 D3-0013 (Curb Ramp)

Environmental Findings

The proposed project is exempt from CEQA under Section 15301 (c) because the slurry seal treatment and the reconstruction or modification of curb ramps do not create additional traffic lanes and involve negligible or no expansion of existing or former use of the existing roadways and associated facilities.

Impact on Citizens and Businesses

The Slurry Seal treatment will extend the life of the pavement thereby reducing the need for more extensive types of resurfacing that can be up to ten times more costly.

The reconstruction of curb ramps is expected to improve the access and safety of disabled persons using the pedestrian facilities along the roadways. In addition, bringing the curb ramps up to current accessibility standards contributes toward fulfilling the County Transportation Department's goals as stated in its ADA Self-Evaluation and Transition Plan as required by Title II of the Americans with Disabilities Act.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

SUPPLEMENTAL:

Additional Fiscal Information

The construction contract is estimated to cost approximately \$2,872,313 and construction is anticipated to be completed in FY 2022/2023. The Slurry Seal and Curb Ramp work will be funded with Gas Tax/SB-1, Measure A/Western, City of Menifee, City of San Jacinto, and City of Temecula funds.

There are no General Funds used in this project.

ITEM 3.45

COUNTY OF RIVERSIDE

TRANSPORTATION AND LAND MANAGEMENT AGENCY

Mark Lancaster, P.E.
Director of Transportation

Transportation Department NOTICE OF EXEMPTION

Mojahed Salama, P.E.
Deputy for Transportation/Capital Projects

July 14, 2022

PROJECT TITLE: Slurry Seal Project – Districts 1, 2 & 3

Work Order# D30006, D30011, D30007, D30012, D30008, D30013 Task Code #Z1530

PROJECT SPONSOR: County of Riverside Transportation Department

PROJECT LOCATION: Various Locations in Unincorporated areas within Supervisorial Districts 1, 2, & 3

SUPERVISORIAL DISTRICT: 1st, 2nd, & 3rd

PROJECT DESCRIPTION: The County of Riverside Transportation Department proposes to provide slurry seal treatment to existing pavement surfaces on various roads located in District 1, 2, 3 of Riverside County. Slurry Seal treatments consist of an application of a mixture of asphalt emulsion, aggregate (very small, crushed rock), water, and other additives over the existing asphalt pavement surface. The treatments are provided as preventative maintenance to extend the life of the pavement and postpone more costly pavement rehabilitation. Slurry seal treatments seal cracks, restores lost flexibility to the pavement surface, provide a new black pavement surface color, and help preserve the underlying pavement structure.

The work also involves replacing non-compliant curb ramps, removing, and replacing thermoplastic crosswalk and pavement markings/paint traffic stripes and other work as may be required.

ENVIRONMENTAL ANALYSIS:

The proposed project will not acquire right-of-way. Temporary construction easements will not be required for the proposed improvements.

This project is subject to compliance with the Western Riverside County MSHCP. In accordance with Section 7 of the Western Riverside County MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity outside/inside of cell criteria area/conservation areas. This project is considered to be an operation and maintenance; therefore, it is a covered activity under the Western Riverside County MSHCP.

If tree and/or vegetation removal takes place during the migratory bird breeding season (March 1 – September 1), a preconstruction nesting survey will be conducted pursuant to the Migratory Bird Treaty Act (MBTA).

The County of Riverside Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:

Section 15301 (c) – Existing Facilities – The project proposes to provide slurry seal treatment to existing pavement surfaces on various roads located in District 1, 2, 3 of Riverside County. The project in its entirety is consistent with Section 15301(c) because it does not create additional traffic lanes and involves no expansion of use of the existing roadway and associated facilities.

Notice to Bidders
County of Riverside, herein called Owner, Invites sealed proposals for:
Slurry Seal and Curb Ramp Accessibility Project For Fiscal Year 2022 - 2023
District 3, Project No. D3-0008, D3-0013

Bid shall be delivered to the County of Riverside Transportation Department, 14th Street Annex, 3525 14th Street, Riverside, California 92501, telephone (951) 955-6780 not later than 2:00 p.m., on Wednesday, **November 16, 2022** to be promptly opened in public at said address. Each bid shall be in accordance with plans, specifications and other contract documents, dated **September 2022**, and prepared by County of Riverside, whose address is same as the above, from whom a digital set of documents (bid book and plans) may be obtained upon request, at no cost, or a printed set of bidding documents with 11"x17" plans may be obtained upon request for a nonrefundable fee of **\$35.00** per set, plus mailing costs. Email request of bidding documents, with company and contact information, to **Bids-Contracts@rivco.org** and reference this project (or contact the address or telephone number above).

Pursuant to Labor Code section 1771.1, any Contractor bidding, or subcontractor to be listed on a bid proposal subject to Public Contract Code section 4104, shall not be qualified to bid after March 1, 2015, unless currently registered and qualified to perform public works pursuant to Labor Code section 1725.5. No Contractor or subcontractor may be awarded a contract or perform work on any contract for public work, after April 1, 2015, without proof of current registration with the Department of Industrial Relations pursuant to Labor Code section 1725.5 to perform public works.

The County of Riverside, in accordance with Title VI of the Civil Rights Act of 1964 (78 Stat. 252) and the Regulations of the Department of Commerce (15 C.F.R., Part 8) and related statutes, issued pursuant to such Act, hereby notifies all bidders that minority businesses will be afforded full opportunity to submit bids, and it will affirmatively insure that the contract entered into pursuant to this advertisement will be awarded to the lowest responsible bidder without discrimination on the grounds of race, color, sex, national origin, religion, age, or disability.
The Contractor is required to have a Class "A" license at the time of bid submission.

Engineering Estimate:	\$ 2,165,000 - \$2,530,000	(Base Bid Schedule)
