C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Impact on Citizens and Businesses

The Riverside University Health System Medical Center (RUHS MC) is a licensed and accredited acute care hospital serving the needs of County residents since 1893. RUHS MC currently has two campuses – one in Moreno Valley and one off of County Farm Road in the City of Riverside.

As an acute care hospital RUHS MC is required by the State of California to have a “governing body” separate from its administrative leaders and medical staff leadership. The “governing body” is “the person, persons, board of trustees, directors or other body in whom the final authority and responsibility is vested for conduct of the hospital.” 22 CCR §70035. (See also 42 CFR 482.12 and Joint Commission Standard LD.01.03.01). The Board of Supervisors serves as the “governing body” for the hospital.

Good governance of the Medical Center, along with various regulatory requirements, mandates that the Governing Board participate in the leadership and decision-making of the Medical Center relating to various topics, including:

Oversight of Accreditation and Compliance related Activities

Review and approval of certain policies

Review of controls for Ethics and Quality of Care established by the Medical Staff

Review of contractor performance

Oversight of Grievance process

Review of operations of Quality Assurance and Performance Improvement processes

**SUBMITTAL TO THE RIVERSIDE UNIVERSITY HEALTH
SYSTEM MEDICAL CENTER GOVERNING BOARD OF DIRECTORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

Review of reports on system / process failures, follow-up on such events

Participation in Community Health planning

The attached reports provide information related to these topics. Their presentation and review by the Board of Supervisors not only helps the Medical Center to meet regulatory requirements but also to be transparent about its operations, successes, and challenges.

Impact on Residents and Businesses

The RUHS Medical Center offers a 439-bed providing adult, Pediatric and Neonatal Services, including a Level 1 Trauma Center, the county's only Pediatric Intensive Care Unit, a Stroke Center, with over 40 specialty care clinics, as well as a 200,000 square foot Medical and Surgical Center featuring state-of-the-art Outpatient Surgical, Diagnostic and Imaging Equipment, Rehabilitation Services, and an Outpatient Pharmacy. The RUHS Emergency Treatment Services/Inpatient Treatment Facility at the Arlington Campus located in Riverside is a 77-bed inpatient Psychiatric Treatment Facility. The integrated healthcare continuum is fortified with 14 RUHS-CHCs conveniently located throughout the county which work in close partnership with RUHS-BH and RUHS-PH to offer access to comprehensive high-quality and integrated primary, Behavioral Health, Specialty Care, Dental Care and Health Promotion services.

Training future healthcare leaders is fundamental to our commitment to serving our community as well as our mission as a safety net institution. An efficient, well-functioning medical center providing care of high quality creates many positive benefits for Riverside County citizens and its businesses.
