**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

By Minute Order dated September 20, 2022 (Agenda Item 3.31), the County of Riverside Board of Supervisors authorized the Clerk of the Board to advertise for the resurfacing of approximately 1.75 miles of Girard Street from the Ramona Bowl Entry Gate to Florida Avenue (State Highway 74), construct drainage improvements, and to resurface approximately 0.15 miles of Acacia Avenue from approximately 580-feet west of Marlo Court to 225-feet east of Marlo Court, in the Community of East Hemet of Riverside County.

Roadway resurfacing is needed due to the deteriorated pavement conditions. Mainly, the proposed resurfacing of Girard Street consists of removing the existing asphalt concrete pavement and underlying material and placing back cement stabilized soil and new Hot Mix Asphalt (HMA) pavement. The proposed resurfacing of Acacia Avenue consists of two treatment types. The first treatment consists of removing the existing asphalt concrete pavement and underlying material and placing back class 2 aggregate base, designed to compact firmly, and HMA pavement. The second treatment consists of grinding down a portion of the existing asphalt concrete pavement followed by overlaying back with HMA.

Additional improvements include placement of asphalt concrete dike, construction of asphalt concrete driveways, construction of concrete curb and gutter, sidewalk, Americans with Disabilities Act (ADA) compliant curb ramps, cross gutter and spandrels, residential and commercial driveways, construction of pavement safety edge to protect outside edge of pavement, installation of traffic striping, thermoplastic crosswalk, installation of traffic signs, and other associated work.

Drainage improvements on Acacia Avenue consist of constructing a storm drain system to convey storm water from the south side of Acacia Avenue to an existing ephemeral earth channel located on the north side of Acacia Avenue easterly of Marlo Court. Storm drain system includes installation of 18-inch and 24-inch high-density polyethylene (HDPE) storm

STATE OF CALIFORNIA**

drainpipe with watertight joints, 36-inch by 36-inch precast drop inlet, construction of concrete headwall, wing walls, apron, and energy dissipator.

During the advertisement period, two addenda were issued to all registered plan holders as a supplement to the plans and specifications. Bidders were required to acknowledge and take into account the issued addenda on their contractor's Bid in order to be considered for award.

The addenda were issued to supplement, clarify and modify the approved contract documents. The addenda are attached and designated as Addendum No. 1 and Addendum No. 2.

Addendum No. 1 was issued to combine Rosalie Avenue and Caroline Court Resurfacing project, in the Community of East Hemet, and the Valle Vista Library Parking Lot Paving project in the Community of Valle Vista.

Both Rosalie Avenue and Caroline Court are cul-de-sac roads with a width of 31 feet and 36 feet, respectively. Both roads have curb and gutter along their entire segments of roadway. The proposed resurfacing of both roads consists of removing the top portion of the existing pavement and placing back new HMA pavement.

The Valle Vista Public Library is located at 25757 Fairview Avenue. The library has an approximate 0.3-acre area of unpaved parking lot. The proposed parking lot improvements will include grinding the existing aggregate base and underlying material of the unpaved parking lot area, compacting it in place, and overlaying with new HMA pavement. Additional improvements include painting parking lot stripes, installation of parking bumpers, construction of a retention basin, and installation of steel railing fence with swing gates along the perimeter of the parking lot.

On November 17, 2020, the Riverside County Board of Supervisors directed the Executive Office to implement an Unincorporated Communities Initiative (UCI). The UCI is a focused, ongoing, and coordinated effort to improve the infrastructure and services provided to the residents of unincorporated communities, with emphasis on Disadvantaged Unincorporated Communities. Through March 31, 2021, the Executive Office team held 15 community meetings and conducted online surveys to better understand community needs for services, infrastructure, and infrastructure maintenance. Based on the foundational work completed by the UCI team, the Valle Vista Library Parking Lot Project was selected as a recipient of these funds (Minute Order 3.29 of the 3/29/22 Board of Supervisors Meeting Agenda).

The County of Riverside Transportation Department recommends award of the following schedules of work in the Contract amount of \$5,592,526:

Base Bid Schedule 1:                      Girard Street Resurfacing Project

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

Alternative Bid Schedule 1:	Not Selected for Award, City of Hemet Portion (City Limit to Florida Avenue)
Alternative Bid Schedule 2:	Frontier Communications Manhole Adjustments
Alternative Bid Schedule 3:	Not Selected for Award, Eastern Municipal Water District (EMWD) Manhole Adjustments
Base Bid Schedule 2:	Acacia Avenue Drainage Repair and Resurfacing
Base Bid Schedule 3:	Rosalie Avenue and Caroline Court Resurfacing Project
Alternative Bid Schedule 4:	Lake Hemet Municipal Water District (LHMWD) Manhole Adjustments for Rosalie Avenue and Caroline Court
Base Bid Schedule 4:	Valle Vista Library Parking Lot Paving

The City of Hement has rejected the bid prices proposed by All American Asphalt for Alternative Bid Schedule 1.

Frontier Communications and LHMWD have accepted the bid prices proposed by All American Asphalt for Alternative Bid Schedules 2 and 4 respectively, and the cost for the work will be reimbursed by the utility owners through reimbursement Agreements. The Director of Transportation has the authority to sign reimbursement Agreements up to \$100,000 per Minute Order dated November 19, 2019 (Agenda Item 3.25).

EMWD has rejected the bid prices proposed by All American Asphalt for Alternative Bid Schedule 3.

The contractor, All American Asphalt, is qualified to perform the work as outlined in the bid, has executed the contract, and has provided bonds and insurance documents which meet the requirements of the contract documents.

Project Nos.: C9-0047 – Girard Street Resurfacing  
D0-0106 – Acacia Avenue Drainage Repair and Resurfacing  
D3-0093 – Rosalie Avenue and Caroline Court Resurfacing  
D2-0118 - Valle Vista Library Parking Lot Project

**Environmental findings**

**Rosalie Avenue and Caroline Court Resurfacing Project**

The proposed Rosalie Avenue and Caroline Court Resurfacing Project is exempt from CEQA under Section 15301 (c) – Existing Facilities exemption because it does not create additional traffic lanes and involves no expansion of use of the existing roadway and associated facilities.

**Valle Vista Library Parking Lot Paving Project**

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

The proposed Valle Vista Library Parking Lot Paving Project is exempt from CEQA under Section 15301 (c) – Existing Facilities exemption because it does not create additional traffic lanes and involves no expansion of use of the existing roadway and associated facilities.

**Impact on Residents and Businesses**

The purpose of these resurfacing projects are to replace existing deteriorated pavement with new hot mix asphalt to provide the public with a smooth paved roadway that will improve the safety and efficiency of vehicular traffic on an approximate 1.75 miles segment of Girard Street, 0.15 miles segment of Acacia Avenue and on Rosalie Avenue and Caroline Court cul-de-sacs.

Acacia Avenue drainage improvements will address water flow issues during rain events.

The parking lot improvements will provide an approximate 0.3 acre of additional paved and fenced parking surface area for public use when visiting the Valle Vista Library.

The work is scheduled to begin in winter 2022. The work will be phased to keep the roads open during construction as much as possible and will take approximately two and half months to complete.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

Construction is expected to be completed in Fiscal Year 2022/2023 and will be funded with Gas Tax/SB-1, Gas Tax/HUTA, Frontier Communications, LHMWD, Unincorporated Communities Initiative (UCI), and Combined Improvement Funds (CIF).

The proposed budget as shown on Attachment “A” includes Contract award amount and other associated costs.

There are no General Funds used in this project.

**Contract History and Price Reasonableness**

A total of four bids were received ranging from \$5,922,999 to \$8,250,000 for all bid schedules. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsive and responsible bid was submitted by All American Asphalt in the amount of \$5,922,999 which is \$1,159,199 (24%) above the engineer’s cost estimate.

The Transportation Department recommends the award of the contract to All American Asphalt in the amount of \$5,592,526. The contract amount (\$5,592,526) varies from the submitted bid amount (\$5,922,999) because Alternative Bid Schedule 1 in the amount of \$325,972 and Alternative Bid Schedule 3 in the amount of \$4,500 were not selected for award.

### EXCESS LIABILITY POLICY

There are provisions in this policy that restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Words and phrases in quotation marks have special meaning and can be found in the **Definitions** Section or the specific policy provision where they appear.

In consideration of the payment of the premium and in reliance upon the statements in the Declarations we agree with you to provide coverage as follows:

### INSURING AGREEMENTS

#### I. COVERAGE

We will pay on behalf of the Insured "loss" in excess of the Underlying Limits of Insurance shown in Item 5. of the Declarations, but only up to an amount not exceeding the Company's Limits of Insurance as shown in Item 4. of the Declarations. Except for the terms, conditions, definitions and exclusions of this policy, the coverage provided by this policy will follow the First Underlying Insurance Policy, as shown in Item 5. of the Declarations.

The inclusion or addition hereunder of more than one Insured shall not operate to increase the Company's Limits of Insurance beyond that set forth in Item 4. of the Declarations.

We will be furnished a complete copy of the First Underlying Insurance Policy described in Item 5. of the Declarations.

#### II. LIMITS OF INSURANCE

**A.** The Limits of Insurance shown in the Declarations and the rules below describe the most we will pay regardless of the number of:

- 1. Insureds;
- 2. claims made or suits brought; or
- 3. Persons or organizations making claims or bringing suits.

**B.** The Limits of Insurance of this policy will apply as follows:

- 1. This policy applies only in excess of the Underlying Limits of Insurance shown in Item 5. of the Declarations.
- 2. The aggregate limit shown in Item 4. of the Declarations is the most we will pay for all "loss" that is subject to an aggregate limit provided by the First Underlying Insurance Policy. The aggregate limit applies separately and in the same manner as the aggregate limits provided by the First Underlying Insurance Policy.
- 3. Subject to **B.2.**, the occurrence limit stated in Item 4. of the Declarations is the most we will pay for all "loss" arising out of any one occurrence to which this policy applies.
- 4. Subject to Paragraphs **B.2.** and **B.3.** above, if the underlying Limits of Insurance stated in Item 5. of the Declarations are reduced or exhausted solely by payment of "loss," such insurance provided by this policy will apply in excess of the reduced Underlying Limits or, if all Underlying Limits are exhausted, will apply as underlying insurance subject to the same terms, conditions, definitions and exclusions of the First Underlying Insurance Policy, except for the terms, conditions, definitions and exclusions of this policy.
- 5. The Limits of Insurance of this policy apply separately to each consecutive annual period and to any remaining pe-

Work Order# ZD20118C Task Code #1530

**PROJECT SPONSOR: County of Riverside Transportation Department**

**PROJECT LOCATION: Community of Valle Vista**

**SUPERVISORIAL DISTRICT: 3**

**PROJECT DESCRIPTION:** The County of Riverside Transportation Department is proposing to resurface an existing parking lot of 0.316 acres for the Valle Vista Library. The proposed work includes pulverizing the existing aggregate base and compacting it, then apply an overlay with Hot Mix Asphalt (HMA). The project also includes installing a retention basin on the west side of the parking lot and a ribbon gutter on the north side to redirect drainage to the proposed retention basin.

The project will also include the following:

- Concrete parking bumpers
- Steel fence posts and gate
- Concrete curb ramp and driveway
- Detectable warning surface

**ENVIRONMENTAL ANALYSIS:**

The proposed project will not acquire right-of-way. Temporary construction easements will not be required for the proposed improvements.

This project is subject to compliance with the Western Riverside County MSHCP. In accordance with Section 7 of the Western Riverside County MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity outside/inside of cell criteria area/conservation areas. This project is considered to be an operation and maintenance; therefore, it is a covered activity under the Western Riverside County MSHCP.

If tree and/or vegetation removal takes place during the migratory bird breeding season (February 15th – August 15th), a preconstruction nesting survey will be conducted pursuant to the Migratory Bird Treaty Act (MBTA).

DEC 6 2022 3.24

**The County of Riverside Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:**

**Section 15301 (c) – Existing Facilities** – The project proposes to resurface an existing parking lot of 0.316 acres for the Valle Vista Library. The proposed work includes pulverizing the existing aggregate base and compacting it, then applying an overlay with Hot Mix Asphalt (HMA) and installing a retention basin and ribbon gutter. The project in its entirety is consistent with Section 15301(c) because it does not create additional traffic lanes and involves no expansion of use of the existing roadway and associated facilities.

Attn: Mr. Jonathan Reyes – Assistant Engineer

Dear Mr. Reyes

All American Asphalt would like to bring to your attention that inadvertent errors were made on the Subcontract List Page. Our subcontractor, Elecnor Belco, reside in the City of Chino, CA and not Encino, CA. Also, the percent of work to be performed by Subcontractors was not entered. The percentage amount should be 7.5%.

We ask that the County waive these minor irregularities and still award to All American Asphalt

Yours Truly,

All American Asphalt
