BACKGROUND:

Summary

Landscaping and Lighting Maintenance Districts (L&LMD's) are formed for the purpose of creating a funding mechanism to pay for the installation and maintenance of landscaping, streetlights, traffic signals, runoff catch basin filters, decorative fencing, and other roadside features within the road right of way. Within an established L&LMD, zones are created for specific developments, a fee structure is developed specific to the features within that zone, and the zone is then assessed through a tax levy on an annual basis for the installation and maintenance of the features within that particular zone.

L&LMD No. 89-1-C was formed in 1994, Resolution No. 94-389, and currently consists of 166 individual zones with different fee structures spread throughout Riverside County. The residential property owner of Tract Map No. 33145, as described in the attached Exhibit "A", has petitioned the County to annex their property into L&LMD No. 89-1-C, creating Street Lighting Zone 155. The boundaries of Street Lighting Zone 155 will encompass the entire Tract Map No. 33145 and will include the maintenance and servicing of streetlights.

Adoption of Resolution No. 2022-041 appoints the Director of the Transportation Department, or their designee, as the Engineer to prepare a Report regarding the proposed annexation of Street Lighting Zone 155 to Landscaping and Lighting Maintenance District No. 89-1-Consolidated ("L&LMD No. 89-1-C").

Resolution No. 2022-042 declares the Board of Supervisors' intention of ordering the annexation of Street Lighting Zone 155 to L&LMD No. 89-1-C. The annexation of Street Lighting Zone 155 to L&LMD No. 89-1-C will fund the maintenance and servicing of streetlights within public right-of-way located south of Domengoni Parkway and east of Leon Road in the Winchester area and includes 378 condominium units totalling 26.17 acres.

Consistent with the Board of Supervisors' direction regarding compliance with Article XIID of the California Constitution and the Landscaping and Lighting Act of 1972, the attached resolutions have been prepared and a public hearing scheduled for 9:30 a.m. on January 31, 2023 to receive testimony for and against the proposed assessment. Each property owner within the proposed Street Lighting Zone 155 will receive a notice of the public hearing and mail-

STATE OF CALIFORNIA**

in assessment ballot, an impartial analysis, a copy of Resolution No. 2022-042, and an information sheet.

Assessment ballots must be returned prior to the conclusion of the public hearing. If, at the time designated for the tabulation of the assessment ballots, the assessment ballots submitted in favor of the annexation and levy of the assessment exceed the assessment ballots submitted in opposition of said annexation and levy, Street Lighting Zone 155 will be annexed to L&LMD No. 89-1-C.

There is only one individual/entity which owns all of the property within the proposed boundaries of Street Lighting Zone 155 and said property owner has executed a "Waiver and Consent Regarding Date of Assessment Ballot Proceeding" allowing for the proceeding and public hearing to be held on January 31, 2023.

Reference

At the direction of the County of Riverside Board of Supervisors, L&LMD No. 89-1-C was formed in 1994 by Resolution No. 94-389 authorizing the annexation of new zones into L&LMD No. 89-1-C for the purpose of levying assessments to pay for the installation and maintenance of landscaping, streetlights and other right-of-way approved improvements.

The zone specific Engineer's Report for fiscal year 2022-23 was prepared in compliance with the requirement of Article 4, Chapter, 1, of the Landscaping and Lighting Act of 1972, which is Part 2, Division 15 of the California Streets and Highways Code. The County initiates annexation proceedings for the annual levy of assessments by passing a resolution, which proposes the new levy under the Landscaping and Lighting Act of 1972. This resolution also describes the improvements, describes the location of the zone within the District and finally orders an engineer, who is a registered professional engineer, certified by the State of California, to prepare and file a detailed report.

In November 1996, California voters passed Proposition 218, Right to Vote on Taxes Act which added Articles XIII C and XIII D to the California Constitution, new procedures must be followed to levy annual assessments under the Landscaping and Lighting Act of 1972. A County may levy annual assessments for an assessment district after complying with the requirements of the Landscaping and Lighting Act of 1972, and the provisions of Proposition 218 Right to Vote on Taxes Act.

Impact on Residents and Businesses

The new assessment is for the purpose of providing the maintenance and servicing of streetlights within public right-of-way.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,
STATE OF CALIFORNIA**

Only the residential property owners within the proposed boundaries of Street Lighting Zone 155, which are represented by Tract Map No. 33145, as described in the attached Exhibit "A" (a two page exhibit containing a description and diagram) are impacted by the cost of this annexation. By setting up an assessment for the maintenance of certain infrastructure required by the development, the County requires that the development pay for its maintenance impact, rather than the obligation falling upon public funding sources.

SUPPLEMENTAL:

Additional Fiscal Information

The proposed budget for fiscal year 2023-24 for Street Lighting Zone 155 is \$3,543. This will result in an assessment for fiscal year 2023-24 within Street Lighting Zone 155 of \$9.38 per condominium parcel. The annual assessment may be adjusted annually by the greater of 2% or the cumulative percentage increase in the Consumer Price Index for all Urban Consumers for electricity (CPI-U), if any, as it stands as of March of each year over the base index for March of 2022.

12 **NOW, THEREFORE, BE IT RESOLVED, FOUND, DETERMINED AND ORDERED** by the Board
13 of Supervisors in regular session assembled on December 13, 2022 as follows:

14 **Section 1. Findings.** The Board of Supervisors, after reviewing the Report, finds that:

- 15 (a) The foregoing recitals are true and correct;

21 **Section 2. Intent.** The Board of Supervisors hereby declares its intention to order the
22 annexation of Street Lighting Zone 155, as described and shown in Exhibit "A", to L&LMD No. 89-1-C,
23 and to levy and collect an annual assessment on all assessable lots and parcels of property within Street
24 Lighting Zone 155 commencing with the fiscal year 2023-24 as set forth in the Report. The Report
25 expressly states that there are no parcels or lots within Street Lighting Zone 155 that are owned by a
26 federal, state or other local governmental agency that will benefit from the services to be financed by the

1 annual assessments. The annual assessments will be collected at the same time and in the same manner
2 as property taxes are collected, and all laws providing for the collection and enforcement of property
3 taxes shall apply to the collection and enforcement of said assessments.

4 **Section 3. Boundaries.** All the property within the boundaries of Street Lighting Zone 155 is
5 proposed to be annexed to L&LMD No. 89-1-C and shall include that property in the unincorporated area
6 of the County as described and shown in Exhibit "A".

7 **Section 4. Description of Services to be Provided** . The services authorized for Street
8 Lighting Zone 155 of L&LMD No. 89-1-C are:

- 9 (a) Providing electricity to and the maintenance and servicing of streetlights within the public

11 **Section 5. Amount to be Levied.** The assessment to be levied upon each parcel that benefits
12 from the annexation of Street Lighting Zone 155 to L&LMD No. 89-1-C will be \$9.38 per condominium
13 parcel for fiscal year 2023-24. As stated in the Report, the total budget for Street Lighting Zone 155 for
14 the fiscal year 2023-24 is \$3,543; there are 2 parcels that are to be assessed that aggregate to 378 future
15 condominium parcels. Each succeeding fiscal year the special assessment may be subject to an annual
16 adjustment that is the greater of two percent (2%) or the cumulative percentage increase, if any, in the
17 Consumer Price Index for all Urban Consumers for electricity ("CPI-U") for the Riverside-San Bernardino-
18 Ontario California Standard Metropolitan Statistical area ("Index") published by the Bureau of Labor
19 Statistics of the United States Department of Labor. The annual CPI-U adjustment will be based on the
20 cumulative increase, if any, in the Index as it stands on March of each year over the base Index for March
21 of 2022. Any increase larger than the greater of 2% or the CPI-U annual adjustment requires a majority
22 approval of all the property owners in Street Lighting Zone 155. The Board of Supervisors will levy the
23 assessment in each subsequent fiscal year until the Board of Supervisors undertakes proceedings for
24 the dissolution of Street Lighting Zone 155 of L&LMD No. 89-1-C. The annual assessment will fund the
25 services described in Section 4 of this Resolution. For further particulars, reference is to be made to the
26 Report on file in the Office of the Clerk of the Board of Supervisors.

1 **Section 6. The Property to be Annexed.** The property to be annexed to L&LMD No. 89-1-C

5 which has been presented to the Board of Supervisors, is hereby approved. Reference is made to the
6 Report for a full and detailed description of the services, the boundaries of Street Lighting Zone 155, and
7 the annual assessment to be levied upon assessable lots and parcels within Street Lighting Zone 155
8 proposed to be annexed to L&LMD No. 89-1-C.

9 **Section 8. Public Hearing.** The question of whether Street Lighting Zone 155 shall be
10 annexed to L&LMD No. 89-1-C and an annual assessment levied beginning with fiscal year 2023-24 shall
11 be considered at a public hearing (hereinafter the "Public Hearing") to be held on January 31, 2023, at

16 XIID and Section 4000 of the California Elections Code. The assessment ballots are to be returned prior
17 to the Public Hearing. The agency shall not impose an assessment if there is a majority protest. A majority

20 assessment ballots, the assessment ballots shall be weighted according to the proportional financial
21 obligation of the affected property.

B. Description of Street Lighting Assessment Zone

The services to be provided by L&LMD No. 89-1-C STL Zone 155 include public street lighting, which provides a special benefit to the parcel(s) to be assessed. The annexation of TR 33145 to L&LMD No. 89-1-C as STL Zone 155 will provide the financial mechanism (annual assessments) by which the ongoing operation and maintenance of these improvements and services will be funded. STL Zone 155's structure, proposed improvements, method of apportionment and assessments described in this Report are based on the Plans provided to Harris & Associates as of the date of this Report, including all estimated direct expenditures, incidental expenses, and reserves associated with the energizing, maintenance and servicing of the proposed improvements.

PART II – METHOD OF APPORTIONMENT

A. Benefit Analysis

The proposed improvements, the associated costs, and assessments have been carefully reviewed, identified, and allocated based on special benefit.

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the construction, maintenance, and servicing of public lights, landscaping, dedicated easements for landscape use, and appurtenant facilities. The 1972 Act further provides that assessments may be apportioned upon all assessable lots or parcels of land within an assessment district in proportion to the estimated benefits to be received by each lot or parcel from the improvements rather than by assessed value.

Section 22573 of the 1972 Act gives the following instructions for apportioning assessments to the parcels within the district:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In addition, Article XIII D of the California Constitution (“Article”) requires that a parcel’s assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. The Article provides that only special benefits are assessable, and the County must separate the general benefits from the special benefits conferred on a parcel. A special benefit is a particular and distinct benefit over and above general benefits conferred on the public at large, including real property within the district. The general enhancement of property value does not constitute a special benefit.

The proposed improvements, the associated costs, and assessments have been carefully reviewed and allocated based on the special benefit received by the parcels to be assessed as required by the 1972 Act and Article XIII D as described in the following section.

Special Benefit

The street lighting improvements within STL Zone 155 provide direct and special benefit to the lots or parcels within STL Zone 155. Proper maintenance and servicing of the public street lighting system, and appurtenant facilities, confers particular and distinct benefits upon developable properties within the Zone by providing security, safety, community character, and vitality, as described below:

Security and Safety

- Mitigates property damage due to criminal activity
- Serves as a deterrent to graffiti and vandalism
- Alleviates the fear of crime, which increases the desirability of property
- Enhances pedestrian safety by improving traffic safety

Community Character and Vitality

- Promotes business and industry
- Provides a positive nighttime visual image

Therefore, the installation and maintenance of streetlights is for the express, special benefit of the parcel(s) within STL Zone 155.

STL Zone 155 does not include any government-owned parcels or easements, utility easements, or flood channel parcels.

Special Benefits of Landscaping and Lighting Maintenance District No. 89-1-C STL Zone 155 Authorized Improvements and Services:

The special benefits of street lighting are the provision of energy, convenience, safety, security of property, improvements and goods, specifically:

- Increased nighttime safety on roads and streets
- Improved ability of pedestrians and motorists to see during the hours of darkness
- Improved ingress to and egress from property within the zone
- Reduced vandalism and other criminal acts and damage to improvements or property
- Improved traffic circulation and reduced nighttime accidents and personal property loss

General Benefit

The total benefit from the works of improvement is a combination of the special benefits to the parcels within STL Zone 155 and the general benefits to the public at large and to adjacent property owners. A portion of the total maintenance costs for the public street lighting, if any, associated with general benefits cannot not be assessed to the parcels in STL Zone 155, but would be paid from other Riverside County Transportation Department funds. Because the public streetlight improvements are located adjacent to properties within STL Zone 155, were required as a condition of approval for

the development of the property, and are maintained solely for the benefit of the properties within STL Zone 155, any benefit received by properties outside of STL Zone 155 is nominal. Therefore, the general benefit portion of the benefit received from the improvements for STL Zone 155 is zero.

Summary

In summary, no property is assessed in excess of the reasonable cost of the proportional special benefit conferred on that property. Additionally, because the benefiting properties will consist of a uniform land use (residential), it is determined that each of the residential parcels or lots within STL Zone 155, at buildout, will benefit equally from the improvements. Therefore, the proportionate share of the costs and expenses for the maintenance and servicing of the streetlights are apportioned equally on a per parcel basis within STL Zone 155.

B. Maximum Assessment Methodology

The following methodology for establishing the Maximum Annual Assessment was adopted by Riverside County Board of Supervisors in the annual Report approved on November 29, 1994. Such methodology has been maintained in preparation of this Report. The purpose of establishing a Maximum Assessment formula is to provide for reasonable increases and inflationary adjustments to annual assessments without requiring costly noticing and mailing procedures, which would add to STL Zone 155 costs and assessments.

The Maximum Assessment formula shall be applied to all assessable parcels of land within STL Zone 155. For STL Zone 155, the initial Maximum Assessment for Fiscal Year 2023-2024 is as follows:

- The initial Maximum Assessment established within STL Zone 155 (TR 33145) shall be \$3,543.
- The initial Maximum Assessment per assessable lot/unit established within STL Zone 155 (TR 33145) shall be \$9.38.

The initial Maximum Assessment shall be adjusted by the greater of two percent (2%) or the cumulative percentage increase in the Consumer Price Index for all Urban Consumers for Electricity ("CPI-UE") for Riverside-San Bernardino-Ontario California Standard Metropolitan Statistical Area ("Index") published by the Bureau of Labor Statistics of the United States Department of Labor (BLS). The annual CPI-U-E adjustment will be based on the cumulative increase, if any, in the Index as it stands in March of each year over the base Index of 2023, starting in Fiscal Year 2024-2025.

The Maximum Assessment is adjusted annually and is calculated independent of STL Zone 155's annual budget and proposed annual assessment. The proposed annual assessment (rate per assessable parcel) applied in any fiscal year is not considered to be an increased assessment if less than or equal to the Maximum Assessment amount. In no case shall the annual assessment exceed the Maximum Assessment.

Although the Maximum Assessment will increase each year, the actual STL Zone 155 assessments may remain virtually unchanged. The Maximum Assessment adjustment is designed to establish a

reasonable limit on STL Zone 155 assessments. The Maximum Assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessments for the fiscal year require an increase and the increase is more than the adjusted Maximum Assessment, it is considered an increased assessment.

To impose an increased assessment, the County of Riverside must comply with the provisions of the California Constitution Article XIII D Section 4c, that requires a public hearing and certain protest procedures including mailed notice of the public hearing and property owner protest balloting. Property owners, through the balloting process, must approve the proposed assessment increase. If the proposed assessment is approved, then a new Maximum Assessment is established for STL Zone 155. If the proposed assessment is not approved, the County may not levy an assessment greater than the adjusted Maximum Assessment previously established for STL Zone 155.

C. Annual Assessment

The Method of Apportionment of the Assessment is based upon the relative special benefit derived from the improvements and conferred upon the assessable real property within STL Zone 155 over and above general benefit conferred upon the assessable real property within STL Zone 155 or to the public at large. It is determined that each residential parcel, lot or unit within STL Zone 155, at buildout, will benefit equally from the improvements. Therefore, the proportionate share of the costs and expenses for the maintenance and servicing of the streetlights are apportioned on a per residential parcel basis for all benefiting residential parcels within STL Zone 155. Any Exempt Property within STL Zone 155 is specifically excluded from the apportionment calculation and is exempt from assessment.

The Assessment Rate per Residential Parcel within STL Zone 155 is calculated by dividing the total Annual Balance to Levy by the total number of Assessable Residential Parcels within STL Zone 155, at buildout, to determine the Annual Assessment per Assessable Residential Parcel. The Annual Balance to Levy is the Total Annual Street Lighting Costs as seen in Part III – Cost Estimate.

The Assessment for each Assessable Residential Parcel for FY 2023-2024 is calculated as follows:

$$\text{Annual Balance to Levy} / \text{Total number of Assessable Residential Parcels} \\ = \text{Annual Assessment per Assessable Residential Parcel.}$$

PART IV – ASSESSMENT DIAGRAM/BOUNDARY MAP

Part IV – Assessment Diagram/Boundary Map

Fiscal Year 2023-2024 L&LMD NO. 89-1-C STL ZONE 155

The Assessment Diagram/Boundary Map for STL Zone 155 by this reference is incorporated and made a part of this Report. Only the parcels identified within STL Zone 155 Assessment Diagram are within said boundary.

If any parcel submitted for collection is identified by the County Auditor Controller to be an invalid parcel number for the current fiscal year, a corrected parcel number and/or new parcel number will be identified and resubmitted to the County Auditor Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rate approved in this Report. Therefore, if a single parcel has changed to multiple parcels, the assessment amount applied to each of the new parcels shall be according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

Information identified on this Assessment Diagram/Boundary Map was provided by the Riverside County Transportation Department.
