C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

Riverside County Ordinance 787 Adopting the 2022 California Fire Code requires the Board of Supervisors approval for the closure of hazardous fire areas for more than fifteen (15) days. Due to the potential of damaging human caused fires, the County Fire Chief has determined these areas should be closed except on public roadways and on inhabited areas of private property within the closure areas. The potential for large damaging fires occurring this year may be enhanced by the extreme vegetation growth experienced throughout Riverside County.

The Hazardous Fire Area closures shall become effective Monday, June 1, 2023, and remain in effect until the County Fire Chief determines that the fuel and weather conditions are safe for the public and the threat of wildfire is minimized.

Impact on Residents and Businesses

There may be a reduction of recreational activities in some areas due to the closures.

Additional Fiscal Information

There is no fiscal impact with the closure of these areas.
