**BACKGROUND:**

**Summary**

On October 3, 2019, the Governor of California approved Senate Bill (SB) 128 which resulted in updates to Public Contract Code (PCC) Article 3.7 Best Value Construction (BVC) Contracting for Counties Pilot Program [PCC 20155-20155.9]. This program allows the Counties of Alameda, Los Angeles, Riverside, San Bernardino, San Diego, San Mateo, Solano, and Yuba to select a bidder on the basis of best value. Existing law also authorized counties to use the best value construction contracting method to award individual annual contract for repair, remodeling, or other repetitive work to be done according to unit prices, as specified. The bill authorizes the County of Riverside to utilize this pilot program and extended the operation of the provisions until January 1, 2025.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

The BVC program offers a wider range of qualified, experienced contractors in specific trades for better project support, cost planning, and delivery once the vendors are vetted and contracts are established. On April 27, 2021 (3.27), the Board approved the Sheriff's Department to advertise and issue the bids covering various trades to support their BVC program.

The Department is utilizing a two-step bid process, Request for Qualification (RFQ) and Request for Proposal (RFP) to select the most qualifying contractors for various trades. Once the qualified contractors are vetted based on established selection criteria, they are invited back to participate in the RFP and go through additional screening and scoring process. The rigorous vetting process provides measures in which laws and criteria are established for the selection of a best value contractor. The bid process requires these contractors to demonstrate their experience and competency to manage and complete projects, provide financial information needed to perform the contract, demonstrate their ability to comply with all relevant policies and requirement directed by the Department of Industrial Relations (DIR), and disclose their safety records. The selection process is not based on cost alone and these elements of the BVC are important to ensure the most responsive responsible contractors are selected. In addition, the contractors must provide their price adjustment factor by using the Job Order Contract price book – Construction Task Catalog and Technical Specifications established by The Gordian Group, Inc. (Gordian).

On July 20, 2021 (3.32) the Board approved a three-year capability-based contracting program with ten (10) contractors in which the Sheriff are utilizing to manage their Capital Improvement Program (CIP) projects. These contracts will expire on June 30, 2024. Since the BVC program has worked well for the department, allowing the Department's Project Management Office (PMO) to expediate and complete the necessary projects to maintain the County aging facilities, the department is requesting approval to advertise the Request for Proposals covering six (6) trades: General Building, General Electric, Mechanical, Low Voltage, Paving, and Roofing Services. Once the bid process yields the most qualified contractors to do business with, the Department will return to the Board to request for approval of the contracts.

**Impact on Residents and Businesses**

County residents will continue to receive the benefit of expedited delivery of public works projects. This program would have positive sustainability implications. JOC contracts enable the County to execute energy and sustainability related projects in an efficient and timely manner, thereby enhancing the effort to conserve resources and support a sustainable community.

**Contract History and Price Reasonableness**

The Riverside County Purchasing Department assisted the Sheriff's Department in conducting the initial Request for Qualifications (RFQ) for pre-qualified contractors for various trades. The bids were advertised on the County's Internet, Planet Bids, the Press Enterprise, Desert Sun and Mission Reprographics, and they are as follows:

1. RSO-PMO-23-001 General Building Services
2. RSO-PMO-23-002 General Electric Services

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

- 3. RSO-PMO-23-003 Mechanical Services
- 4. RSO-PMO-23-004 Low Voltage Services
- 5. RSO-PMO-23-005 Paving Services
- 6. RSO-PMO-23-006 Roofing Services

The County received interest in these RFQ's and the table below summarizes the response result:

	General Building Services	Electric Services	Mechanical Services	Low Voltage Services	Paving Services	Roofing Services
No. of Invitation Sent to Bidders	298	188	68	62	44	35
No. of Bidders Downloaded Bid	28	24	15	18	15	14
No. of Bidders Responded to Bid	13	11	6	3	6	8
No. of Pre-qualified Contractors	13	11	6	3	6	6

For the purpose of transparency, compliance and ensuring all aspects of the qualification scope, requirements and licenses are met, the Department elected to contract with a third-party vendor, Cummings Management Group, to assist in the review and evaluation of the responses. The evaluation committee was composed of professional staff who scored each response using the best value criteria: compliance with prequalification documents, due authorization, required license(s) financial condition, and labor compliance. As a result of the evaluation processes, forty-five (45) prequalified contractors listed in Attachment A: Approved Prequalified Contractor List were selected. Two contractors were disqualified as they didn't meet certain aspects of the requirements. These 45 pre-qualified contractors will be invited to participate in the next step, the Request for Proposal (RFP). Contractors selected through that phase of the process will be awarded a contract and the Department anticipates making multiple awards. The Department will return to the Board at a future date to request approval of those contracts.

The awarded contracts will allow the Department to expedite and execute projects without the need to conduct a lengthy bid process that can take between 4-6 months to complete. The three (3) year cumulative contract capacity amount which will be awarded for each of these trades, General Building, Electrical, Mechanical, Low Voltage, Paving, and Roofing Services, shall be determined based on project needs, approved budgets, and adherence to the PCC. The contracts will also include a provision stating they are subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year.

**Compliance with CEQA:** This action is not a project within the meaning of the California Environmental Quality Act (CEQA) Guidelines Section 15378 and is therefore not subject to

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

CEQA, since it does not have the potential for resulting in either a direct or physical change in the environment, or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action regarding a project since it only involves authorization to advertise for Job Order Contracts. This proposed activity is therefore not subject to CEQA. Any future action connected to this approval that constitutes a project will be reviewed for compliance with CEQA.
