BACKGROUND:

Summary

The Cooperative Agreement ("Agreement") sets forth the terms and conditions by which certain flood control facilities required as a condition of approval for Plot Plan No. 190032 are to be constructed by the Developer and will be inspected, operated and maintained by the County, District and Developer.

The Agreement is necessary to formalize the transfer of necessary rights of way and to provide for District construction inspection and subsequent operation and maintenance of the Perris Valley Master Drainage Plan Lateral H-12, Stage 3 facility.

Upon completion of construction, the Developer will assume ownership, operation, and maintenance of the flood control facilities; until such time, the County will assume ownership, operation and maintenance of the project's associated curbs, gutters, catch basins, connector pipes and certain lateral storm drains that are 36 inches or less in diameter located within the County's rights of way. The District will assume ownership, operation and maintenance in accordance with the terms and conditions as set forth in the Agreement. The Developer will retain ownership, operation and maintenance of a private channel located within Developer's held rights of way or easements.

County Counsel has approved the Agreement as to legal form, and the Developer has executed the Agreement. A companion item appears on the Riverside County Flood Control and Water Conservation District's agenda on the same date.

Environmental Finding

The County acting as CEQA lead agency finds that the inspection, acceptance, operation, and maintenance as described in the Agreement are adequately addressed. The terms of ownership, operation, and maintenance between the County and District as described in this Agreement will not have a significant impact on the environment. Therefore, no further analysis is required under CEQA. None of the triggers under Section 15162 of the State CEQA Guidelines applies. Pursuant to the State CEQA Guidelines Section 15061(b)(3) (Common Sense Exemption), which provides, "The activity is covered by the common-sense exemption that CEQA applies only to projects which have the potential for causing a significant effect on

the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA". Therefore, no further analysis is required under CEQA.

Impact on Residents and Businesses

Construction of these drainage and channel improvements are a requirement for the development of Plot Plan No. 190032. The principal beneficiaries are the future residents of the tract. Ancillary benefits will accrue to the public who will utilize the tract's roadways.

Additional Fiscal Information

The Developer is funding all construction and construction inspection costs. Future operation and maintenance costs of the County maintained storm drain facilities will accrue to the County. Future operation and maintenance costs of the District maintained storm drain facilities will accrue to the District.
