**BACKGROUND:**

**Summary**

Claimants Frank Lindeburg and Kathy Wright filed a claim for tax refund with the Clerk of the Board on April 3, 2023. A copy of the claim is included with this agenda item.

In late 2017, upon the passing of the claimants' father, the present beneficial ownership interest in the real property held in the father's trust transferred to the claimants. For property tax purposes, this change in ownership caused a reassessment of each of the four properties held in the trust. Although the claimants served as co-trustees of the father's trust, they did not file notice with the county of the change in ownership within 150 days of the passing of their father as is required by law. The claimants subsequently sold the four properties in 2018.

Once the Assessor's office learned of the transfer of the four properties to the claimants, the Assessor's staff determined the fair market value of the claimants' properties as of the date of the change in ownership and mailed notices of both supplemental and escape assessment to the claimants. The notices were mailed on the dates listed below for each property.

<b>ADDRESS</b>	<b>PIN #</b>	<b>DATE OF NOTICE</b>	<b>ASSESSMENT #</b>	<b>TAX YEAR</b>

When real property is transferred between parents and children, an exclusion from reassessment – sometimes called the parent-child exclusion – may apply. However, that exclusion from reassessment is not automatic. To qualify for the parent-child exclusion, state law requires a claimant to file a timely claim with the Assessor's office (Rev. & Tax. Code § 63.1, subd. (e)). If a timely claim is not filed, the parent-child exclusion cannot be granted.

In this case, the claimants were required to file a claim by the later of two dates – the date on which they sold each property to a third party, or the date that is six months after the mailing of

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

the respective notice of escape assessment. The properties were sold in 2018. The notices were mailed on June 5<sup>th</sup>, 2019 for three of the properties and on September 1<sup>st</sup>, 2018 for the last property, as listed in the chart above. Therefore, the claims were due no later than December 5, 2019 for three of the properties and no later than March 1, 2019 for the other property. The claimants did not file a claim for the parent-child exclusion by that date, so the parent-child exclusion may not be applied to the transfer of the real property to them through their father's trust.

In consultation with the Office of County Counsel, the Assessor's staff reviewed this claim and determined that no refund is allowable to the claimants under the law. Therefore, the Assessor recommends that the Board deny this claim for tax refund.

**Impact on Residents and Businesses**

If the claim for tax refund were approved, the amount of funds available to provide services to the residents of the County of Riverside would be reduced.

On 11/9/2017 our Dad passed away.

Kathy and I were co-trustees of our parents Trust in which there were 4 properties. We sold the properties in 2018 and paid substantial taxes through escrow at closing.

In late 2019 we received subliminal tax bills for Laramie, Highlander, and Candle Light all in Riverside, CA. They came to my address on Via Pueblo as that was the trust's address but addressed to Kathy so I gave them to her. We figured some kind of mix up as we'd paid our taxes through escrow but Kathy called the County Tax Collector anyway and talked to a clerk named Barbara who said it must have been a mistake so we tossed the bills.

That was 2019!

In late 2020 we again received the 3 tax bills and something called an escape bill, unsecured supplemental taxes and Pre-intercept bills. I immediately called both escrow and title who handled the closing and was assured we had paid the proper taxes. I called the Treasurer-Tax Collector who was at the time Jon Christenson. I was put on hold for over an hour when I hung up and emailed. I emailed a cover letter and on 11/4/2020 the properties in question and the closing statements from Appian Escrow. (letter in pac) I had left many messages on the phone and email and finally received a response from Yvette Medina who was very helpful and in fact when the Assessor's office would not return my calls, she emailed them on November 19, 2020 asking if it was possible for anyone to return a call to me. We did get a response from Saul from the Assessor's Title help desk on the 24<sup>th</sup> of November. Kathy and I were fighting the taxes from a trustee's perspective thinking there was a mistake due to the Trust and the sale of the properties. We found out from Saul that "you have 6 months from the notice of escape of supplemental assessment, for it to be considered timely. Our records show the timeframe to file has expired". In the last email from Saul after we stated we had none of that he stated "we do apologize if any info was not communicated correctly...These bills were delayed due to timeframe in getting generated and a switch in software system.

We have all these emails and copies of letters sent to the Tax Collector

What we found out after 3 years had gone by from our Dad's passing was that:

1. A Notice of Proposed Escape Assessment must precede the tax bills by at least 10 days
2. If we had received the "Notices" we would have had 6 months to file for a Parent to Child Exclusion
3. Although we had constantly pushed for info from the Tax Collector's office we were finally told to we had to go to the Assessor's office.
4. We found out from Elvie Samson of the Tax-collector's office that she had received our letter of 11/20/2020 and forwarded it to the Assessor's office. We received NO reply.

Again, we figured if nobody would talk to us we didn't owe the taxes and we did point out in that letter that was forwarded to the Assessor's office that without a "Notice" the bills were invalid and I quoted the Tax bill 531.8 included in this month's pac.

That was <sup>2020</sup>~~2019~~!

EARLIER COMMUNICATION w/ TX / ASSESOR  
OVER 3 YRS TOO LATE!

Saul,  
There was NO change in ownership with my Dad's passing. The properties were in a living Trust and remained there until sold to other residents. Since neither my Sister or I ever owned the properties we can't be taxed for any assessment AND, if there was any kind of escape assessment you are required by law to explain the assessment BEFORE sending the tax bill. That is CA Rev & TC 531.8, 532. We are not paying taxes on properties we never owned. When the trust sold the properties all taxes/liens were paid and have been verified by Applan Escrow.

As previously mentioned, being that the properties were in Trust, upon the last Trustor/Settlor to pass, and the trust becoming irrevocable, it is considered a change in ownership, and therefore subject to reassessment, unless an exclusion applies.

>Morning Saul,  
>I think you are missing a main point and the reason someone in your

office said this was a mistake last year. These properties were in a living

They remained in the Trust. In 2018 the Trust sold the properties and the proceeds passed to the siblings and ALL taxes/liens were paid thru escrow. Please check with your legal dept so we can put this finally to bed.

Escape bills? Why?

>>

>>Dear Customer,

>>

>>Per our records for both properties, the escape notice date 6/5/2019 and supplemental notice date 5/6/2020. Being that the time to file timely for the parent-child exclusion has expired, that does not mean taxes are canceled. These additional bills seem were delayed due to timeframe in getting generated and a switch in software system.

>>Hi Saul,

>>Thanks for trying to help us understand what is happening. I sent an overnight pac to Matt Jennings that should be there about now. We have not seen, nor have we been notified of any reassessment of these properties and in fact my sister, Kathy Wright, contends that these bills were sent to her last year and when she checked they told here it was a mistake. She was the co-trustee with me. If there WAS a reassessment we would have had to be notified at that time.....or does your note state that since the time has expired that there is no bill??

>>If you claim we owe moneys on these properties how and why?? We closed escrow on both properties in 2018 and both escrow and title claim all liens and taxes were paid and the buyers received clear and lawful title. How can the government possibly come back after a closing and claim more \$\$ is due when the homeowners, both buyers and sellers, have not been notified of any debts?? Kathy has been licensed by the CA DRE, I have a license and my wife is a broker and this is all new to us!! So are you stating we owe moneys we were never aware of or are you stating that the time has expired and since we have NOT been notified of the how and why of the assessment that it is null and void?

>>>Dear Frank,

>>>

>>>We are happy to assist.

>>>

>>>In regards to PIN 223234005 & 251091017, our records reflect a reassessment occurred on 11/9/2017 due to date of death of Franklin Lindenburg. Upon the death of the last Trustor/Settlor of Trust, the trust becomes irrevocable. Being the decedent no longer has present beneficial interest or rights to income in property, it is considered a change of ownership when interest shifts to the trust beneficiaries, and therefore subject to reassessment. I see you previously mentioned that it was your Father's Trust. I also see that both properties have been sold to a third party. The statute of limitations on the Parent-Child exclusion form states that if the property has been sold to a third party, you have 6 months from the notice of escape or supplemental assessment, for it to be considered timely. Our records show the timeframe to file has expired.

I provided you with the information below. Prop 13 allow for the taxes to go up the minimum 1 - 2% each year off the purchase price. If there were changes in title, say adding someone or removing someone but some of the owners were still on title, this would still cause a reassessment depending on who was removed and why. If you contact the Assessor's Office, they will tell you the reason for the billing. We can only see notes from the Assessor but this one is not clear. They will make corrections if there is an error but it must be valid.

An escape bill is a bill sent by the Assessor based on information they received or a possible audit that was done for your time of ownership. It looks like they may have found a possible something was missed in the entries made to the tax roll and they fixed it. Taxes were to be paid on a particular value and were not. They created these bills to collect taxes based on what you should have paid during your time of ownership.

From: Frank Lindeburg

11/4/2020

I received 2 'Pre-intercept collection' bills 11/3/2020. I called your office at 955-3900 and when I explained that the 2 properties in question had been sold she transferred me to 985-6200 where I sat for an hour. So, let's do this by email.

The two properties are 2989 Laramie Rd 92506 and 545 Highlander 92507. They were both sold in 2018 and I've attached the closing statements to show property taxes up to date and necessary funds for taxes paid through escrow.

Please respond by email so we can clear this up without wasting anymore time.

Thanks,

  
Frank Lindeburg

EMAILED WITH ALL CLOSING PAPERS  
REQUESTING INFO!

Matthew Jennings  
Tax Collector of the County of Riverside, CA

11/22/2020

Mr. Jennings,

You have sent my sister, Kathy Wright, and me tax bills of which we have no information. If you will take the time to read through the information I have sent you you will find that I have been trying to get some answers for a couple of weeks. I called immediately after receiving the first bills dated Nov. 2, 2020. The only person I have had the pleasure of communicating with has been Yvette Medina who has been great in trying to get someone, anyone to contact me. I called the assessor's office last Monday and left a detailed message and then again on Wednesday and finally on Friday with NO response from your office.

My Father, Franklin A. Lindeburg, passed away late 2017. Kathy and I, as trustees of the trust sold the properties in 2018. I have enclosed the closing statements for the properties that I have matched up and have checked with escrow and title to make sure all taxes were paid as required. I have been assured they have been paid correctly.

As per what Yvette refers to as "escape tax bills" I have checked with the State of CA. I quote: "A notice of Proposed Assessment will be given to the property owner by the assessor as a prerequisite to enforcing as escape assessment. Without the notice, the escape assessment cannot be levied. If an escape assessment is levied without prior notice, it is invalid." Additionally, the notice must be served within four years of the incorrect assessment. Generally, an escape assessment cannot be made outside that period: (LREV & TC 531.8,532)

So would you please read through the materials you have sent me and I have sent to you regarding these supposed liens and let's figure out what it is you require and why!

Respectfully,

  
Frank Lindeburg, Jr.

RE: PIN#223234005, 251091017, 185252004

Dear Frank Lindeburg,

Our office is in receipt of your correspondence dated 01/7/2022.

In reply to your recent correspondence, please note, the Treasurer-Tax Collector only bills and collects the property taxes and has no jurisdiction with the re-assessment of the PIN's indicated above. All matters relating to ownership, property data, values and exemptions are determined by the County Assessor's office.

Our records noted that on 12/8/2020 we receive a letter from you and was forwarded to the Assessor's Office since we have no jurisdiction over their functions. On December 10, 2021 Maricela Ambriz responded to your e-mail and directed you to contact the Assessor's Office. Records also shows that notification on the Proposed Escape Assessment and Supplemental notices were completed by the Assessor's Office on 3 properties on the above PINS on June 5, 2019 with the 556 Via Pueblo, Riverside, CA 92507 as the mailing address. Please obtain copies of the notices from the Assessor's Office. The re-assessment was certified by the Assessor's office and posted by the Auditor's office on June 2019 on the Escapes followed by the Supplemental on July 2020, this was the result of automatic property tax bills generated based on the increase in values. Property tax bills were mailed by the Treasurer Tax-Collector to the owner on record with the Assessor's Office database, 556 Via Pueblo, Riverside, CA 92507. Included in this letter are the series of property tax bills that were sent to the 3 properties and the most current outstanding tax bills as of January 2022 (see copies enclosed).

To this date unsecured delinquent taxes are still outstanding. The Tax-Collector does not have any information if correction needs to be completed or change since we don't see an updated information on record. As I have mentioned earlier we have no jurisdiction over the Assessor's Office. As all matters relating to ownership, property reassessments, property data, values and exemptions are determined by the County Assessor's office. Questions regarding these items should be directed to them. The County Assessor may be reached at (951) 955-6200 or (800) 746-1544 or by mail at P O Box 12004, Riverside, CA. 92502-2204; the County Assessor's website is [www.rivcoacr.org](http://www.rivcoacr.org); and their e-mail address is [accrmail@srclrec.com](mailto:accrmail@srclrec.com).

Please note until the change or correction is completed by the County Assessor, we are required by law to continue mailing tax bills to the owner on record with the Assessor's database. If the property tax stands without correction, you can submit a cancellation of penalty request on or before February 19, 2022. I have included copies of the letters you sent our office to attached to the Cancellation of Penalty request should you decide to submit the request. Cancellation of penalty will be reviewed and a notification letter will be mailed if the cancellation of penalty is approved or denied.

Please mail Cancellation of Penalty to: (Form included with instructions)

Riverside County Treasurer  
Attn: Cancellation Request  
P.O Box 12005  
Riverside, CA 92505

I sincerely apologize for the inconvenience this may have caused you and hopeful for a resolution on both ends.

No. 2008/021

March 10, 2008

TO COUNTY ASSESSORS AND COUNTY CLERKS OF THE BOARD:

CLARIFICATION OF ESCAPE ASSESSMENT PROCEDURES  
SECTIONS 531.8, 534, AND 1605

This letter is in response to several questions regarding the correct enrollment procedures for escape assessments. Revenue and Taxation Code sections 531.8, 534, 1605, and 2611.6<sup>1</sup> govern the form and content of the *Notice of Proposed Escape Assessment*, *Notice of Enrollment of Escape Assessment*, and the tax bill. For total compliance with the statutory requirements, each of the sections must be reconciled or harmonized with the others.

Section 531.8

Prior to the actual enrollment of an escape assessment, a *Notice of Proposed Escape Assessment* must be mailed to the taxpayer. This notice is mandatory, and no escape assessment may be entered on the roll until 10 days after mailing the notice. As required by section 531.8, the notice must contain:

- The amount of the proposed escape assessments for each tax year involved; and
- The telephone number of the assessor's office to allow the taxpayer to contact that office regarding the proposed escape assessment.

Section 1605(c)

Section 1605(c) eliminates the need for mailing a separate *Notice of Enrollment of Escape Assessment* for Los Angeles County and those other counties where the county board of supervisors has adopted a resolution that allows a taxpayer to file an assessment appeal based upon receipt of the tax bill. For those counties, the tax bill serves as proper notice if the equalization language of section 534(c)(3) is incorporated into the tax bill.

<sup>1</sup> All statutory references are to the Revenue and Taxation Code unless otherwise designated.

Late 2021 we received the same 3 bills and now certified liens. All of a sudden people were returning calls! Covid?? Not sure but we found out later that the Assessor's office closed March of 2020 and I don't know when they reopened. We do know from experience that they acted like nobody was home! We sent a letter to the County tax Collector and was told we needed to see the Assessor. We called, made an appointment and wasted half a day talking through a plexiglass partition to a gal who got frustrated with us and called over another lady, a supervisor I assume, who told us we needed to see the County Clerk of the board. After speaking to the County Clerk of the Board we were told to go back to the Assessor's office. Not funny anymore.....does anybody know what they are doing and are they giving out info anywhere??

That was a short 2021

My sister, Kathy Wright, and I have been receiving tax bills on the above properties we never owned. This started 2-3 years ago and at first Kathy was told this was a mistake and we let it go. When Kathy received the same tax bills in 2020 I called, spent an hour on hold and tried using email to no avail. I sent a letter to Matthew Jennings and received no response. So you understand, these 3 properties were owned by my parent's trust, the Franklin and Cora Lindeburg Family Trust of which Kathy and I were the trustees. When my father passed away in late 2017 the Trust made improvements to the 3 properties and sold them in 2018. The Trust sold the properties, paid the taxes and then was dissolved as my parents had both passed away. We have been assured by title who insured the transactions that we owe nothing. Lastly, a Yvette Medina, who was very helpful but could NOT get us moved up the chain of command, stated this might be an "Escape Tax Bill". According to the State of CA. and I quote "A notice of Proposed Assessment will be given to the property owner by the assessor as a prerequisite to enforcing an escape assessment. Without the notice, the escape assessment cannot be levied". We have NOT received any "Notice" so we assume this is not the case. Would someone of authority please respond to this message and try to clarify in terms we can understand if this is a mistake or why you think we owe taxes on properties we never personally owned.

Respectfully,

ORIGINAL CONVERSATIONS W/ TAX COLLECTOR

Hello,

Thank you for your response. Unfortunately, our office does not make the value assessments nor can we change legal parties/owner information. As far as why the assessor took so long to generate these assessments, that again, is not something our office can address since value assessments are not under our office's jurisdiction. The Treasurer-Tax Collector's office will only bill based on the information we have on file, provided by the Assessor's Clerk-Recorder's office. I would advise you to speak to their office regarding the title and the values assessed on this property.

Thank you,

Maricela Ambriz  
Accounting Assistant II

Hi Maricela,

Thanks for the quick response. Understand that although my sister, Kathy and I were legal parties, we were not owners and never were of these properties. Why do you think families have trusts?! Since that is the case how do you warrant taxing us for ownership. We were the trustees, as we took care of my Dad as my Mom passed in 2012. Why wasn't there an escape tax at that time yet there is one now. The change in ownership went from the Trust to the new owners and at that time the properties had been updated to be sold ASAP which they were. So how does an assessor value the properties as higher than we sold them for. We had multiple offers!  
We will be out of town next week and this week is gone so you'll hear from us in about 10 days and we will set a time and come down and see you to clear up this seemingly illogical situation.

Respectfully,

Frank Lindeburg

Hello,

Thank you for your response regarding this tax matter. Our records show that for all these properties, WRIGHT KATHRYN ANN, LINDEBURG FRANKLIN ALFRED JR, and LINDEBURG FAMILY TRUST DATED 03/14/1994 are listed as legal parties for these properties since 11/9/2017. I can see that LINDEBURG FRANKLIN ALFRED and LINDEBURG CORA HOLDEN were the previous legal parties from in 3/17/1994-11/8/2017. Anytime there is a title change (adding or removing), a supplement bill is generated. If you would like to dispute owner information and/or assessed values you will need to contact the Assessor's office because that is out of our jurisdiction. You may contact them at:

Good morning,

Thanks for the response. That said you do NOT address the most important aspect of our confusion. We, Kathy Wright and Frank Lindeburg, Jr never owned the properties. They were owned by a Trust as stated and sold by the Trust as per escrow and title. Regarding your assessment, the Trust spent thousands to make each property the nicest in the neighborhood to insure a fast sale which happened to each property. To say the properties were worth more than they were sold for is a silly statement; and the Trust paid the taxes due thru escrow as per the law. Please be more explicit as you are not making any common sense. Since Kathy and I have never owned these properties I certainly don't think we are responsible for the taxes based on an appraisal done after the fact. What do you think, that they went down in value?

Please respond with an answer as to why we are being taxed AFTER the fact for properties we never owned.

Respectfully,

Frank Lindeburg, Jr.

2022 was an extremely busy ~~month~~<sup>year</sup> as we learned that the trust had nothing to do with the bills but a "Notice" called the Notice of Proposed Escape Assessment was the root of our problems. Sad that it took us over 4 years to understand that issue being that we kept asking anyone who would listen or email that we had issues that we did not understand! In late 2021 we notified the Riverside County Clerk of the Board and immediately received a call from Christina ACR Technician 111. She was good! As you can see from the email in the pac that we talked at length about the Claim for Reassessment Exclusion between Parent and Child I asked Christina what would have happened had we had the Parent to Child form when we first received the tax bills in 2019 and she stated there would have been NO taxes to be paid!

This info and what we had gone through for the past 3 years was put in a certified letter dated 1/7/2022 to Matthew Jennings the Treasurer-Tax Collector, Peter Aldan, the County Assessor, and Kecia Harper, Riverside County Clerk of the Board. That letter is in the pac and we asked why we had not known or told about the Parent to Child situation as we were chasing our tails with the Trust. Also we had yet to see what everyone in the Assessor's office seemed to think we had and that was the Notice of Proposed Escape Assessment. We still had not seen one until Abigail from the Assessor's office email us the original 3 bills with copies of the "Notice of Proposed Escape Assessment" January 25, 2022. We responded to Abigail that someone really made a mistake or the new computer system failed or something because we never received a "Notice". In the file!

That said I thought I would set a trap for the Assessor's office to prove something was wrong. That would be the 4<sup>th</sup> property, Colgate, that they missed, LONG email on and off with deputy Amy R. also in the file. We also met with the Assessor, Peter Aldana, and felt good about the meeting. I showed the trap and they looked for dates. You see, we had just received the 3 bills again in late Jan of 2022. On the last day of January I emailed Amy that the confusion might have been because there was a 4<sup>th</sup> property. I did not name the property but on Feb. 7<sup>th</sup> we received all 4 bills which is 3 days short of legal time to send a "Notice" on Colgate. Their response was just a coincidence as the bills are sent out that time of year.....but we just received the original 3 late January and now we get them again with Colgate??

And so we never heard from Peter Aldana again and the last thing that Amy told us was to get an attorney....nice huh?

And so we retained a lawyer to send a letter to the Assessor which he did. He asked that they respond within 10 days by mail or phone....NO response! He waited and sent another letter requesting a response and about 15 days later was sent a letter from their law dept which basically said to go pound sand!!

And that was 2022

Dear Mr. Lindeburg and Ms. Wright,

Your email has been forwarded to the Title Division of the Assessor's Office. Our office processes transfers of real property and change of ownership. We also determine reassessments, which includes reviewing and applying any exclusions that are applicable. There is a reassessment exclusion for transfers between parent and child pursuant to R&T Code 63.1. However, this exclusion is not automatically applied. A Claim for Reassessment Exclusion for Transfer between Parent and Child form, BOE-58-AH, must be completed and filed within the filing deadlines for eligibility. A claim must be filed within three years of the date of transfer or death, or prior to the sale or transfer to a third party. In addition, a claim may be filed within six months after the mailing date of the supplemental notice or escape assessment.

For PINs 223334005 and 251091017, Document 2018-0453878 captures the death of Frank and Cora with an effective date 11/9/2017. Subsequently, Document 2018-0483580 transfers PIN 223234005 to a third party and Document 2018-0453879 transfers PIN 251091017 to a third party. Supplemental notices for both PINs were issued 5/6/2020. The six-month filing deadline for the parent-child reassessment exclusion has passed.

For PIN 185252004, Document 2018-0282117 captures the death of Frank and Cora with an effective date 11/9/2017. Subsequently, Document 2018-0277124 transfers the property to a third party. A Supplemental notice was issued 5/6/2020. Therefore, the six-month filing deadline for the parent-child exclusion has passed.

If you have any further questions, please feel free to contact me directly at (951)955-0248.

Thank you,

We would like to make an appointment with the Riverside County Clerk of the Board. We have talked to the County Tax folks who sent us to the Assessor's office who stated we had to meet with you. Our issue is based on 3 properties sold in 2018 through a Family Trust after our Dad passed in late 2017. In late 2019 we received 3 tax bills but when brought to the attention of a clerk in the County Tax office we were told it was a mistake. In late 2020 we received the same tax bills X 2 at which time we tried to communicate with the County Tax office. They either was too busy to call us or all out with the Covid. Late this year we received the same bills and finally were told to go to the assessor's office which we did last week. The clerk there seemed confused with our bills and stated we had to go down to the Riverside County Clerk of the Board in Downtown Riverside. She said we had to have something called a Parent to Child form which we have never seen. Can we just drop in or do we need an appointment??

Pin# 223234005 Pin# 251091017 Pin# 185252004 each has an Escape Bill? and a Supplemental bill.

We would like an appointment.

Thanks,

Frank Lindeburg and Kathy Wright

Re: Tax Relief

I realize that the covid has caused issues with regard to communication between your offices and the public. That said, if you can tax us then you can surely give us the information requested to avoid said taxes if that information is viable.

In late 2019 we received 3 tax bills sent to Kathy Wright, my sister, at my address. I forwarded the 3 envelopes to Kathy without opening as I didn't know what it concerned and they were addressed to Kathy. She told me later that they were tax bills for 3 properties in my parents Trust that had been sold the year prior. Kathy said she had called the County Tax Collector, talked to a clerk named Barbara and was told "Sorry, that was a mistake".

In late 2020 we received the same bills sent to Kathy at my address but they had included something called an Escape bill, Unsecured supplemental taxes. They also had Pre-intercept bills. So I got involved. Escrow and Title both said we were good with the taxes paid through escrow. I called the Treasurer-Tax Collector who at that time was Jon Christenson. I was put on hold for 60 minutes when I hung up and emailed. I received NO response by email or snail mail. I then sent him a letter by mail, 11/22/2020 which is included in this package. I did NOT receive any response so I figured it was all a mistake as the clerk Barbara stated a year earlier and we let it go.

In late 2021 we received the bills again so we got proactive. I had a long conversation with Maricela Ambriz, Accounting Assistant II (included in this pac) and she finally told us we had to go to Assessor's office. I set an appointment and talked to a gal at window 8. I had over 50 pages of documentation/info from you and the State and we tried to talk through a mic that shut down when someone on either side of us was talking. She finally talked to a supervisor and told us we had to talk to the Riverside County Clerk of the Board. I emailed the Riverside County Clerk of the Board and received a call from Christina ACR Technician III. She was very knowlegable and as you can see from the email (in the pac) that we talked in length about the Claim for Reassessment Exclusion for Transfer Between Parent and Child. I asked Christina what would have happened

had we had the Parent to Child form when we first received the tax bills in 2019 and she stated there would have been NO taxes! So to be blunt why were we never told of this form or the ramifications of NOT having it executed. Don't your offices have the obligation to pass on all the facts?? Had we been briefed by your offices on the importance of that information we would have been able to forget about all this stress and wasted time.

You didn't send us any proposed assessment as required by CA law 531.8,32 and more importantly nobody mentioned the importance of the Parent to Child form. Seriously, don't you think we would have taken care of business had you done your jobs!? You have sent us from the Tax Collector to the Assessor to the Riverside Clerk of the Board and then a request to go back to the Assessor. Please do what you should have done 3 years ago.....help us!

We are requesting relief from these 3 property taxes:

Hi Abigail,

I tried to catch you via phone this afternoon but ended up with Casey. After Casey said the same story that you stated, she said she would have Amy call me this afternoon. I guess Amy was busy as I did not receive a call from her. Let me say this about your 'notice of escape', I've never seen them! The reason I am sure that you didn't send them is because being in the R. E. business for many years I understand appraisals. Had you sent me any of the 3 I would have immediately called the appraiser who had their name and phone number on the bottom of the page! That would have been a blessing as I can speak their language and would have gotten a clue as to what was happening. I have every document your office sent me and there were no notices. This was during the height of the pandemic so maybe you folks were working from home. I know the City was and they got nothing done. Maybe the Assessor's office should take a look at how you were doing business at that time and accept the fact that mistakes could have been made by your people. Trust me, Had I received all of this I would have taken the necessary steps to get a Parent to Child Exclusion in my hand. That said, as I've been told numerous times by your office, it's too late for that!! So, as I've stated to Amy and others in the past month, send me the necessary forms for the Parent to Child Exclusion. Make an exception to make this issue right and let's move on.

Respectfully,  
Frank Lindeburg

Hello Frank,

An escape bill cannot be generated without first sending a Notice of Proposed Escape Assessment. I've attached all the notices for parcels 185252004, 223234005 & 251091017. They were sent to your address which is listed on the recorded documents (Affidavit Death of Trustee).

months from the date of notice of supplemental or proposed escape assessment. It is also considered timely if claim is filed within 3 years after the date of transfer (date of death) or prior to the sale to a third party, whichever comes earlier. You had 6 months from the escape notice date of 6/5/2019 and another 6 months from the supplemental notice date of 5/6/2020 to file the exclusion form timely. You could have also filed prior to the sale of the property. Unfortunately, a claim was not filed within the prescribed deadlines.

The title was clear at the time of sale because the reassessment had not been created since the Assessor was not notified that your father had passed away the year before in 2017. The affidavit death of trustee was not recorded until 1-3 months prior to the sale and that was not enough time to reassess for the change in ownership due to death, send out a notice and generate the tax bills. I hope this clarifies your concern but if you have questions you can leave a voicemail for the duty appraiser at (951) 955-6381.

CLAIM FOR REASSESSMENT EXCLUSION FOR TRANSFER BETWEEN PARENT AND CHILD  
Revenue and Taxation Code, Section 63.1

IMPORTANT: In order to qualify for this exclusion, a claim form must be completed and signed by the transferor and a spouse and filed with the Assessor. A claim form is being filed if it is filed within three years after the date of purchase or transfer, or prior to the transfer of the real property to a third party, whichever is earlier. If a claim form has not been filed by the date specified in the preceding sentence, it will be timely if filed within six months after the date of making of a notice of supplemental or escape assessment for this property, if a claim is not timely filed.

1. This exclusion only applies to transfers that occur on or after November 6, 1988.
2. In order to qualify, the real property must be transferred from parents to their children or obligor to their parents.
3. If you do not complete and return the form, it may result in this property being reassessed.
4. Exclusion is provided, with certain limitations, that a "change in ownership" does not include the purchase or transfer of:
  - The principal residence between parents and children, and/or
  - The first \$1,000,000 of the federal base year value of other real property between parents and children.

We have had very little response from your office although from speaking to both the County of Riverside Treasurer- Tax Collector and the Riverside Clerk of the Board it is the Riverside County Assessor's office we need to communicate with. Please note that I sent the Riverside Treasurer/Tax Collector correspondence 12/8/2020 and they have claimed to have forwarded that letter to you. I sent all 3 County offices the same letter, certified, on 1/7/2021 and have received a response only from Elvie Sampson, Deputy Publick Services Div. of the Treasurer Tax collector. She also states that I must talk to you but also states to have forwarded my latest letter of 12/7/2021 to you. For your information, I called and set an appointment at your office at the end of last year and as per my letter visited your office. If your office has read my correspondence you will know that a supervisor at your office said I had to talk to the Riverside County Clerk of the Board! I have tried all 3 County Offices concerning our issues and have been directed to another agency. Please answer these questions:

1. Why were we NOT notified prior to receiving thre Escape Bills (Unsecured Supplemental Taxes) as per law?
2. Why didn't someone from any of these important tax offices let us know of a form called the Exclusion for Tranfer Between Parent and Child?

## DATES AS WE TRIED TO GATHER INFO

Date: 11/09/2017 our Dad passed away. We were the Trustees of the properties and sold them all from the Trust to new buyers in 2018. Taxes were paid through escrow!

Date: Late 2019 we received 3 tax bills for properties we will refer to as Laramie, Highlander, and Candle Light all in Riverside County. The bills were sent to my address as 556 Via Pueblo Riverside was the address of the Trust. I got the 3 bills to Kathy and she called the Riverside County Tax Collector and was told by Barbara, it was a mistake.

Date: Late 2020 we received the same 3 bills with 2 additional "intercept" bills. I called the Riverside County Tax collector and at one time waited for over an hour before trying email. I then sent the Tax Collector a letter, that we found out in 2022, was forwarded to the Riverside County Assessor's office. Learned a little about "Notice of Proposed Escape Assessment" and that it was required by law that this "Notice" was delivered 10 days before any "Escape" or Sublimental Tax Bills. We had yet to see what one looked like. We had spent hours talking to escrow and title to make sure we were not liable! This was turning into a messy tax issue for which we could find NO answers.

Date: Late 2021 we received the same 3 bills and now 3 certified liens on the properties. All of a sudden people were returning calls! Covid?? We sent a letter to the County Tax Collertor and was told we needed to talk to the County Assessor's office. We called, made an appointment a wasted a day talking to a gal who finally called over another lady who we assumed to be a supervisor as we were told to go see the County Clerk of the Board. After trying to set that appointment we were told we had to go back and speak to the County Assessor. Not funny anymore!

Date: Early 2022 I sent a certified letter to the Tax Collector, the Assessor's Office and the Clerk of the Board. We soon heard from Christina and then Abigail from the Assessor's office explaining the tax issues with our 3 properties and emailed us copies of the bills and the "Notices" which we finally saw and were amazed by the simplicity of the process. I had spent time on the phone with Christina, then Abigail and finally Amy Rasmussen stepped in and took over. Amy was actually offended that I was still communicating with Abigail but I was just happy to be getting some info from people with answers. I had asked Christina that if we had responded to a "Notice" which would have led to a "Parent to Child Exclusion" would we be in this mess owing these taxes and she said simply no, we woud NOT owe the taxes. After much back and forth with no help giving to us I finally asked <sup>her</sup> was was given an appointment with Peter Aldana, the Riverside County Assessor. Of course Amy was also going to be present. Since nobody was helping us at all I figured I would try to set a trap....you see, there were 4 properties! I set the trap by emailing Amy and stating there was another property that I did not name. Well, in 8 days from me emailing her I had a bill for Colgate, the 4<sup>th</sup> property. That of course is impossible because a supplemental or escape take bill MUST be

proceeded by 10 days by the "Notice Of Proposed Escape Assessment!! We did NOT receive any "Notice" at all and in fact have still not one for Colgate. Another important issue is what Peter Aldana referred to as the mess of going from an old computer system to a new one. According to the Desert Sun Newspaper it was quite a mess with many complaints. Peter pointed this out to us and I asked him the same question I put to Christina earlier. If we had received the "notices" and moved on to the Parent to Child Exclusion would we have taxes to pay...and he said "No, not if you are the legit children. Which of course we are. I thought we had a nice meeting with the trap exposed and the info on the change of computer systems I thought we were going to get help out of this mess. That said we never heard from Peter again but our friend Amy was all over looking for pics of the envelopes until she finally emailed that we owed the taxes and she could not find a way out of it!

Hi Frank -

What a game, I am glad you made it back in time to watch!

I understand how frustrating this must be for you, and I want to thank you for always being amiable in our communication. Unfortunately, I think we have reached an impasse on this situation. I have spoken with several individuals about this, including Assessor Aldana there is nothing within the confines of the law we can do to assist you. If you believe there is something that can be done, I respectfully suggest that you contact legal representation.

Sincerely,

Amy Rasmussen

Hi Amy,

We're back in time for the game! Hope you enjoy it and your weekend. Awaiting us when we returned was a late tax (Escape) on another property which I told you was left out as I'm sure was passed up the line. That said, as with the other properties there was NO Notice of Escape Assessment as required by law 10 days before. So when you say you can't grant an application for a Parent to Child Exclusion I would disagree with you. You may make an exception because we have never received the "Notice on any of the properties just like on Colgate, the new found property which came with the other bills this past week. So if you say I am mistaken then please show me first the "Notice" for the last property, Colgate! As you know from the numerous times I've called your office and the office of the Tx Collector we have been seeking info about these taxes since we first received them. It is my understanding that had we understood or received a "Notice" we could have filed a Parent to Child Exclusion and there would have been no additional taxes other than those taken through escrow. Is that correct??

We all went through the covid mess and I'm sure it caused stress and mistakes in all business offices. The fact that the Tax Collector's office states in a letter to me in Dec. 2021 that they had forwarded my questions to you in my correspondence in late 2020 to which I received NO calls or emails from the Assessor's office which tells me you were at least short handed. The fact that I came to your office and was told I needed to go see the County Clerk of the Board.....who sent me back to you! This has been an incompetent mess and has cost hours of time. I'm asking you to allow us to complete a Parent to Child Exclusion on each property so that we will have been treated fairly and legally. We can come to your office anytime next week except for Wed afternoon.

Thanks,

Frank Lindebur

Hi Frank –

I know you are out of town this week but wanted to get back to you as soon as possible. However, I don't have any different information to provide you. As I have indicated several times, there are no provisions in the law that allow for the Assessor's Office to grant an application after the deadline has been missed. I understand your frustration and disappointment and wish there were something our office could do. Unfortunately, there is nothing in our power to assist you.

Most sincerely,

Amy Rasmussen

Good morning, Frank

I was surprised this morning to hear that you contacted our public service team, as I thought we were communicating regarding your situation. After I received your message below on Monday, I attempted to contact our County Counsel representative, and he is out of the office until tomorrow. I was planning on contacting you after my conversation with County Counsel, as your message said to contact you prior to February 6 or after February 13. I do not have any further information for you currently. For now, I would appreciate keeping the lines of communication between us open, as this has been escalated to me.

I will get back to you after my conversation with County Counsel.

Thank you,

Amy

Hi Amy,  
Seriously, why have a weekend if it's not going to be a nice weekend!  
OK where should I start.....  
1. When we received the 1st bills in 2019 there was no notification of why we were looking at a supplemental Assessment. Kathy called the County Tax Collector and was told it was a mistake so we blew the 3 bills off and forgot about it.  
2. When we received the bills AGAIN in late 2020 I got involved and called the Tax Collector and then emailed. We checked with Escrow and Title who informed us we were clean and paid our taxes through escrow as required. We never received a notice of what was coming or an explanation of our options as required by law. All we received was the 3 envelopes with 3 MORE bills. I was informed in writing by the County Tax Collector that they had forwarded our inquiries to the Assessor's office in Dec of 2020. Why didn't your office contact me as we were looking for answers and at that time nobody was returning calls or emails? So as 2020 came to a close and nobody from the Assessor's office contacted me we figured we were OK and didn't worry about the bills. My wife has been a broker since 1979 and I've been licensed since 1984 and have never heard of "Escape Taxes" and although we

TSAA  
COLGATE →

none!

3. Late 2021 we received the SAME bills but they were larger. Believe it or not there were people now returning calls and emails. As you know as per our phone conversations, I set an appointment at your office. It was depressing NOT to be called into an office to present our information. Instead we were forced to talk through a plexiglass wall into a mike that did not work if either of the mikes to our left and right were being used. We told the gal basically what you see on this page. She got what we thought was a supervisor and she sent us to the County Clerk of the Board. When I called/emailed for an appointment I was informed I had to speak to the Assessor's office! What a pleasure this has been.

4. Part of our confusion is probably because the Trust sold more than those 3 properties so we did figure it was 1st a mistake and then the lack of response because of the Covid. That said, nobody wanted to say they made a mistake although I can guarantee you we never received any notice 10 days prior to our supplemental or escape tax bills as required by law! Seriously, why would we continue to ask for info from the start in 2019 and continue with NO response in 2020 even though the County Tax Collector stated in writing that they had forward our questions to your office.

5. If, and that's a big IF, we had been informed of the reasons for the taxes and the options of the parent to child exclusion within the time limits so we could have responded in a timely manner, what do you think we would have done??? Anybody with half a brain would have completed the Parent to Child Exclusion and said goodbye to all of this poor transfer of information.

6. At this time we are requesting a meeting with someone who can make a decision. If you persist in claiming we owe taxes and state you will lien our properties then we will file a lawsuit against the 3 agencies and their leaders who have shown such poor communication and business skills. I don't like to even consider that but we have been treated so poorly with such poor communication that maybe a lawsuit will open the door for others who have also been treated like this at your convenience. Or.....

We are requesting that you send us the proper forms you should have exposed us to in 2019. We would like to execute our right to a Parent to Child Exclusion. We would appreciate an apology and a withdrawal of all actions against us!

Respectfully,  
Frank Lindeburg  
Kathy Wright

PS We are out of town from Feb 6 to Feb 13th so please contact me prior to or later. Thanks

Section 531.8 of the Revenue and Taxation Code provides that we give you notice at least 10 days prior to levying an escape assessment. This escape assessment is intended to correct omissions or errors in the assessment of your taxable property. This notice is to inform you that we propose to process the following escape assessment(s) on the real and/or business property described above.

VALUE/EXEMPTION TYPE	PRIOR ASSESSMENT	NEW ASSESSMENT	VALUE CHANGE
Land	19,428	90,259	70,831
Structures	47,703	259,741	212,038
TOTAL	67,131	350,000	282,869
Homeowners Exemption	7,000	0	(7,000)
Net Taxable	60,131	350,000	289,869

**REASON:** Transfer, 4831 - To Correct Entries on the Roll

Escape assessments with both value increases and decreases may be processed separately by the Auditor - Controller. This could result in the creation of both an escape tax bill for the total of all increases and a tax refund for the total of all decreases (if all taxes have been paid).

If you have questions regarding this proposed assessment, you should contact the following person:

**Senior Appraiser**  
Mary  
951-955-6381

**AN ASSESSMENT APPEAL MAY NOT BE FILED AS A RESULT OF THIS NOTICE.** You will have 60 days from the date that you receive the escape tax bill to file an appeal with the Assessment Appeals Board. Filing information can be found on the back of the tax bill.

## REAL ESTATE

### Riverside County finally replaced a 1972 computer used for property taxes — with some snags in the transition

**Amy DiPierro** Palm Springs Desert Sun

Published 10:46 a.m. PT May 23, 2019 | Updated 11:01 a.m. PT May 23, 2019

#### Key Points

Riverside County, one of the largest counties in the country, recently replaced a half-century old mainframe computer system used to calculate property taxes.

While the old system badly needed replacement, the transition to the new software has been blamed for difficulty resolving some taxpayer complaints.

Riverside County is one in a group of counties that must replace outdated systems used to value and tax the nation's real estate.

More than fifty years ago, while serving as a Marine in the northernmost region of South Vietnam, Edwin Lee Maspero was wounded four times: First, by a ricocheted bullet, and three more times, by shrapnel that wounded his right arm, calf and head.

Maspero's injuries, including post-traumatic stress, make him a disabled veteran in the eyes of the federal government. The status also makes the Murrieta home he shares with his wife eligible for a property tax exemption — a useful way for the couple, who live on a fixed income, to save money.

But in September 2018, Maspero opened his Riverside County tax bill to find that his exemption wasn't there. As a result, his property taxes had risen to \$2,571, almost two-and-a-half times higher than the year before.

Maspero wanted to fix the bill. But each time he called one of the county tax departments, no one seemed to be able to resolve the issue. At some point, an employee told him the problem was technical: The county had new property tax software.

In October, Riverside County switched from using an antiquated 1972 mainframe computer to a new, long-awaited property tax system, which officials say will make the county's property taxes more efficient and transparent. But in the early months of implementation, the change of software has slowed down some property tax exemptions, refunds and reductions for a group of taxpayers.

Staff and officials at the county's three tax departments said they recognize the software transition isn't perfect but are proud of replacing an old and outdated system, a process they said has been extremely difficult. Taxpayers like Maspero, though, are frustrated by the technical snags.

All three of the county departments responsible for property taxes, each of which is led by an elected official, are plugged into the new software. In Riverside County, the property tax process starts with the Assessor's Office, which determines the value of all of the property in the county. The next link in the chain is the Auditor-Controller's Office, which calculates tax rates, so that the final department, the Treasurer-Tax Collector's Office, can collect the taxes.

✂ The Assessor's Office does not directly track how many tax processes have been slowed down as a result of the software switch. But data from the Assessor's Office and the Tax Collector's Office show the number of phone calls and other contacts with taxpayers, like office visits, have been roughly in line with recent years since October. At the Assessor's Office, call volume from constituents in each of the first four months after the software switch in October 2018 was lower than a year prior. Call volume in April 2019 rose 8.5% compared to April 2018, up to about 2,000 calls.

✂ The tax departments field complaints from taxpayers every year, said Peter Aldana, the county's elected Assessor-County Clerk-Recorder. The difference this year, he said, is that staff have to tell constituents that the software transition might slow down how quickly they can resolve their problems. At the same time, staff have to work toward meeting a major deadline: June 30, the time to close the tax roll so it can go to the Auditor-Controller.

"I'd ask people to be patient with us but I understand their frustration," he said. "I can guarantee we're giving it our best effort and we're going to get to an accurate assessment roll."

Still, taxpayers feel the impact of any delays “on a personal level,” said Supervisor Chuck Washington, who represents Murrieta, where Maspero lives.

“If it was you, and your life was being kind of messed up because of this, you don’t care how many other cases there are,” he said. “Some things just have to be 100 percent.”

Maspero later contacted Washington’s staff for help and they, in turn, reached out to the Assessor’s Office. The Assessor’s Office staff said the county has since corrected the value of Maspero’s home, which had been reassessed, canceled supplemental tax bills and sent a refund claim form.

\* Maspero said he has not yet received the refund. He said more than the financial impact on his household, the problems with his taxes have worsened his anxiety.

\* “It might be 60 or 70% mental that it bothers me, more than physically and financially,” said Maspero, 74. “I truly believe, someday, somebody is going to figure out what they did wrong and fix it. I just don’t know how long I’m going to have to keep paying for their mistakes.”

## **County taxes, 2.0**

Property taxes are a cornerstone of local government finance in California. In Riverside County, the fourth-largest county in the state, the taxes fund schools, cities and special districts. They also represent the largest single source of the county’s general purpose revenue.

Collecting those property taxes is a monumental task. Riverside County keeps track of a million parcels each year, with an assessed value of \$286 billion. It bills taxpayers for \$3.8 billion in property taxes. And until last fall, the county relied on a mainframe computer system to do it.

The mainframe’s days were numbered. It was an aging system that relied on an aging workforce to keep it running, said Kan Wang, an assistant Assessor-County Clerk-Recorder.

Plus, the mainframe had technical limitations. To figure out just one property’s value, a staff member might have to combine data from the mainframe with information stored on microfiche, in paper files or in real estate databases. Over the course of years, the tax departments developed ancillary programs and workarounds to make the whole system work, the Assessor’s Office staff said.

Jon Christensen, the Treasurer-Tax Collector, said the mainframe is backed up on tape. He said he feared the system was vulnerable to natural disasters like a flood or earthquake.

Between the mainframe's limitations and the prospect of obsolescence, a replacement was necessary.

"We faced kind of that double whammy," Wang said.

Around 2006, the three departments responsible for property taxes agreed they needed a fix. The county Board of Supervisors approved a contract with a software vendor in 2010 and a funding plan for \$98 million to fund the replacement project, including the costs of employees and the new software. Wang said the county projects that it will spend \$60 million on the project through June 30.

Initially, the new system was supposed to be finished in October 2013 but was delayed five years. The county finally turned on the new software in October 2018.

There have been bumps in the transition.

\* Taxpayer complaints sent via email to Supervisors Kevin Jeffries and Washington show that the new software is being blamed for trouble handling a variety of tax exemptions, reductions and exclusions.

In the emails, taxpayers asked their supervisor's offices for help with their Disabled Veterans' Exemptions, property tax reductions under Proposition 8 and Parent-Child Exclusions, which allow the transfer of property between relatives without triggering a reassessment, as would happen if a property was sold to a third party.

The taxpayers who reached out to the supervisors or The Desert Sun include:

A veteran who said she filed for a Disabled Veterans' Exemption in August 2018 but still did not know in March if it would be applied to her April tax bill. Wang said the exemption was processed in the new system as it was being implemented. It may have been delayed as a result, he said, but will be finished in a few weeks.

A taxpayer whose home value was flagged for a Proposition 8 tax reduction in the midst of converting to the new computer system. The taxpayer said he did not receive a corrected bill to reflect the lower taxes. Wang said the county has since sent the taxpayer a refund claim form and noted that the county has a year to process Proposition 8 corrections.

\* Mike Naggar & Associates, a real estate firm owned by Temecula Mayor Michael Naggar, who contacted Washington's office on behalf of a client seeking Parent-Child Exclusions on seven parcels. Wang said the exclusion form was processed in August 2018, but the process wasn't completed in the mainframe before the switch to the new system. Wang said the last of the seven assessments still needs to be corrected. Naggar said the firm experienced "the slightest delay" and that county staff were very responsive.

\* Morgan Myrmo, who inherited property in La Quinta contacted The Desert Sun, because his Parent-Child Exclusion form was not processed, resulting in the value of the property he inherited being reassessed at a higher value. He said he has been trying to have the assessment corrected for more than a year. Wang said a new Parent-Child Exclusion form has been resubmitted and processed but that the problem hasn't been resolved and the county is working to correct it.

County officials said — given the complexity of transferring data from a mainframe computer to new software — they're making progress toward working through the bugs.

"We take the quality and accuracy of our work seriously, and we make every effort possible to address issues when we identify errors," Wang said.

Wang said the tax departments are still compliant with the legal timeframe they're granted to finish their work and make any necessary corrections.

Aldana, the Assessor-County Clerk-Recorder, said it's not as if the Assessor is experiencing "epidemic numbers" of complaints from constituents.

"If our phones were being flooded with complaints, we would know that and everybody would know that," he said.

Jon Christensen, the Treasurer-Tax Collector, acknowledged that the new software rollout hasn't been perfect. But given the potential pitfalls, he said, "I was expecting worse issues than it came out to be."

Christensen is looking forward to new functions he can perform with the new software, like using credit and debit cards and accepting partial tax payments. Under the mainframe, he had to return partial payments to their senders.

The tax departments have also brought in extra help to close the tax rolls this year.

Besides 15 to 20 county staff members, Wang said between 40 and 50 workers for the software vendor, Thomson Reuters, have been working to address snags in the new software.

Thomson Reuters is also paying overtime during the transition, Christensen and Aldana said.

Riverside is not the only county confronted with the challenge of upgrading an aging tax system.

Ed Price, the Assistant Auditor-Controller in Santa Barbara County, remembers the growing pains when his own department was trying to break in its new property tax software from Thomson Reuters, too. Taxpayers kept calling. His staff was frustrated.

"When you're an individual taxpayer, it's tough sometimes," he said. "And I can appreciate that pickle."

Tarrant County, Texas, the 900-square-mile county that is home to Fort Worth, also switched from a mainframe-based system to Thomson Reuters software in 2015.

The new software system was blamed for excluding millions of dollars in property from the tax roll in 2015 and setting off a wave of taxpayer refunds.

Wang said Riverside County learned everything it could from Tarrant County's troubled rollout by meeting with the county's officials and Thomson Reuters to try to prevent the same errors. He said Tarrant County's experience is one reason Riverside County assigned county staff to work on the software transition and tasked the three tax departments, each headed by an elected official, to oversee it.

✂ He said the debut of the new tax software in Riverside "is not the perfect 'go live,' but we're definitely fortunate that we're nowhere close to the Tarrant 'go live.'"

In an emailed statement, Thomson Reuters spokesperson Laura Rojo-Eddy wrote that the company has "devoted a large support staff to Riverside County to ensure that we can quickly address any issues as they arise" and that she feels "confident that we can support the county in delivering timely, accurate tax bills and refunds as well as the smooth execution of all processes in the property tax cycle."

Good morning, Mr. Lindeburg

I am in receipt of the letter you sent to Assessor Aldana on January 7, 2022. It is my understanding that Christina Tran, a n Recorder team spoke with you on or about December 30, regarding the supplemental assessments you received for PINs : 185252004; and the parent-child exclusion.

Unfortunately, a claim for reassessment exclusion for a transfer between parent and child was never filed on these PINs, a expired. Based on this information, I regret to inform you that there is nothing the Assessor's Office can do to assist with y property taxes.

If there are other questions I can answer for you, please let me know.

Kind regards,

Amy Rasmussen

NOTICE

Hello Frank,

An escape bill cannot be generated without first sending a Notice of Proposed Escape Assessment. I've attached all the notices for parcels 185252004, 223234005 & 251091017. They were sent to your address which is listed on the recorded documents (Affidavit Death of Trustee).

RECORDING REQUESTED BY:

AND WHEN RECORDED MAIL TO:  
AND MAIL TAX STATEMENTS TO:

Kathryn Ann Wright  
556 Via Pueblo  
Riverside CA 92507

78253-99/  
APR No.: 281-691-911-2

When you receive these notices and you have questions regarding them, you should contact the number listed on the letter. The reassessment was triggered by a change in ownership due to the death of Franklin A Lindeburg on 11/9/2017. Change in ownership can be a sale or purchase, but it also can be a gift or inheritance. Transfers that constitute a change in ownership may be grant, gift, devise, inheritance, trust, contract of sale, addition or deletion of an owner, or property settlement. Payment or consideration for the property is not required.

In order to file for the parent to child exclusion, the claim form must be filed within 6 months from the date of notice of supplemental or proposed escape assessment. It is also considered timely if claim is filed within 3 years after the date of transfer (date of death) or prior to the sale to a third party, whichever

Exclusion form timely. You could have also filed prior to the sale of the property.

Unfortunately, a claim was not filed within the prescribed deadlines.

The title was clear at the time of sale because the reassessment had not been created since the Assessor was not notified that your father had passed away the year before in 2017. The affidavit death of trustee was not recorded until 1-3 months prior to the sale and that was not enough time to reassess for the change in ownership due to death, send out a notice and generate the tax bills. I hope this clarifies your concern but if you have questions you can leave a voicemail for the duty appraiser at (951) 955-6381.

CLAIM FOR REASSESSMENT EXCLUSION FOR TRANSFER BETWEEN PARENT AND CHILD  
Revenue and Transfer Code, Section 63.1

IMPORTANT: In order to qualify for this exclusion, a claim form must be completed and signed by the transferee and a certificate and deed with the Assessor. A claim form is valid only if it is filed within three years after the date of purchase or transfer, or date of the transfer of the real property to a third party, whichever is earlier. If a claim form has not been filed by the date specified in the preceding sentence, it will be denied if filed within six months after the date of mailing of a notice of supplemental or escrow assessment for the property. If a claim is not timely, the exclusion will be granted beginning with the calendar year in which you file your claim. Complete all of Sections A, B, and C and attach each question or your claim may be denied. Proof of eligibility, including a copy of the recorded document, trust, or will, may be required. In this case, please attach all information to not known by the assessor, the parties should file this claim with as much information as possible, and later amend to claim with any relevant information. Please print.

1. This exclusion only applies to transfers that occur on or after November 8, 1988.
2. In order to qualify, the real property must be transferred from parents to their children or children to their parents.
3. If you do not complete and return this form, it may result in the property being reassessed.
4. California law provides, with certain limitations, that a "change in ownership" does not include the purchase or transfer of:
  - The principal residence between parents and children, and/or
  - The first \$1,000,000 of the fair market value of other real property between parents and children.

Sincerely,

Abigail #447  
Senior Appraiser, Public Service

# BOARD RULES

## **Requests to Address Board on "Agenda" Items:**

You may request to be heard on a published agenda item. Requests to be heard must be submitted to the Clerk of the Board before the scheduled meeting time.

## **Requests to Address Board on items that are "NOT" on the Agenda/Public Comment:**

Notwithstanding any other provisions of these rules, a member of the public shall have the right to address the Board during the mid-morning "Oral Communications" segment of the published agenda. Said purpose for address must pertain to issues which are under the direct jurisdiction of the Board of Supervisors. YOUR TIME WILL BE LIMITED TO THREE (3) MINUTES. Donated time is not permitted during Public Comment.

## **Power Point Presentations/Printed Material:**

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, insuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please ensure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo.

## **Individual Speaker Limits:**

**Individual speakers are limited to a maximum of three (3) minutes.** Please step up to the podium when the Chairman calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 30 seconds remaining, the "yellow" light will begin to flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chairman adheres to a strict three (3) minutes per speaker. **Note: If you intend to give your time to a "Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.**

## **Group/Organized Presentations:**

Group/organized presentations with more than one (1) speaker will be limited to nine (9) minutes at the Chairman's discretion. The organizer of the presentation will automatically receive the first three (3) minutes, with the remaining six (6) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the bottom of the form.

## **Addressing the Board & Acknowledgement by Chairman:**

The Chairman will determine what order the speakers will address the Board, and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles in order to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using coarse, crude, profane or vulgar language while speaking to the Board members, staff, the general public and/or meeting participants. Such behavior, at the discretion of the Board Chairman, may result in removal from the Board Chambers by Sheriff Deputies.

Re: Appealing taxes paid,requesting a refund

By: Kathy Wright and FrankLindeburg

Please note the attached letter about last week's meeting and then a letter a year one each for years 2020, 2021, and 2022 that I don't believe you've seen.

An important theme for the last paragraph in each letter and email over the years is a plea for information so that we could do what is necessary in a timely manner. Instead what we hear is that since we missed the 6 month time frame &ldquo;Notice of Proposed Escape Assessment&rdquo; and then the three year limit on the &ldquo;Parent to Child Exclusion&rdquo; we must pay and have no recourse. Here is a fact for you that nobody will dispute. The first time we heard about either was during an email conversation with Yvette and if you follow the email dates I sent you last week you'll see that we were within the 3 year limit with the Parent toChild Exclusion. That said, by the time Yvette could find anyone in the Assessor's office to return an email the three years was up. When Saul did return the email he stated that the new software was slowing things down and he used Parent to Child Exclusions as an example.

If the County was in fact losing time because of a new computer system (which the Desert Sunstates there are issues) and the Assessor's office closed during these times with Covid, don't you think there should be some leniency for those of us who are trying to work with you! And please don't forget, we are available and ready to take any kind of lie detector and we'll even pay for it.....because we NEVER received a Notice of Proposed Escape Assessment, until Abigail emailed me three of them in early 2022.

Now we have paid the taxes/penalties and await a decision from you the Supervisors.

With Respect,

Frank Lindeburg and Kathy Wright

Re: Tax relief

7/11/2023

1. The attached letters to the County are: one in 2020 one in 2021 and the last and most comprehensive sent certified so you might get another slant on our situation.
2. It's important to note that we had been requesting information with every communication as it took 2 years plus just to find out that having the Trust didn't seem to matter.
3. It took 3 years plus a few days for a response from the Assessor's Office which was from Saul after Yvette emailed the Assessor's office to see "if anyone could help this taxpayer". Saul mentioned the fact that we were too late for a Notice and stated it was because of the new software that was causing some info to go out late and referenced Exclusions as a point.
4. There's something wrong with a system that allows the County to be late with taxes and /or info on said properties, but no help for the taxpayer regardless of the situation.
5. For all practical purposes We don't owe the County a dime on this situation. Had we received the Notice of Proposed Escape Assessment we would have done a little paperwork for the Parent to Child Exclusion and this issue would have been solved. That, by the way, was the answer we got from Peter Aldana during our face to face meeting. So, we are basically being told we must pay for the lack of information available to us during the process.
6. Outside as we were leaving we had an opportunity to speak with Amy Rasmussen and Michael Thomas. Neither of them could clarify my "trap" saying that the 4<sup>th</sup> property was on the roles for the last 5 years even though we never received a "Notice" or a bill until I mentioned it. So there are mistakes here that nobody can or want to take credit for.

By the way, the question you asked me about my lack of knowledge of the Notice of Proposed Escape Assessment was a good one! So, I came home and called 3 different old buddies from my time in the mortgage business in the San Diego area.....and nobody knew what I was talking about.

And so, I hope you will forgive our inability to know the facts or be able to get it from the County when requested! After all, the Assessor's Office was closed during 2020 and I don't know when they reopened, they were having issues with their new computer system and we all were dealing with Covid. So please return our \$\$ to us that we should not have had to pay and please do not fire anybody as the computer problems and working from home were not anybody's fault!

Respectfully,

Frank Lindeburg

11/4/2020

I received 2 'Pre-intercept collection' bills 11/3/2020. I called your office at 955-3900 and when I explained that the 2 properties in question had been sold she transferred me to 965-6200 where I sat for an hour. So, let's do this by email.

The two properties are 2989 Laramie Rd 92506 and 545 Highlander 92507. They were both sold in 2018 and I've attached the closing statements to show property taxes up to date and necessary funds for taxes paid through escrow.

Please respond by email so we can clear this up without wasting anymore time.

Thanks,

Re: Escape Assessments on:

1. 2989 Laramie Rd Riverside, Ca 92506
2. 545 Highlander Dr. Riverside, CA 92507
3. 6272 Candle Light Dr. Riverside, CA 92509

My sister, Kathy Wright, and I have been receiving tax bills on the above properties we never owned. This started 2-3 years ago and at first Kathy was told this was a mistake and we let it go. When Kathy received the same tax bills in 2020 I called, spent an hour on hold and tried using email to no avail. I sent a letter to Matthew Jennings and received no response. So you understand, these 3 properties were owned by my parent's trust, the Franklin and Cora Lindeburg Family Trust of which Kathy and I were the trustees. When my father passed away in late 2017 the Trust made improvements to the 3 properties and sold them in 2018. The Trust sold the properties, paid the taxes and then was dissolved as my parents had both passed away. We have been assured by title who insured the transactions that we owe nothing. Lastly, a Yvette Medina, who was very helpful but could NOT get us moved up the chain of command, stated this might be an "Escape Tax Bill". According to the State of CA. and I quote "A notice of Proposed Assessment will be given to the property owner by the assessor as a prerequisite to enforcing an escape assessment. Without the notice, the escape assessment cannot be levied". We have NOT received any "Notice" so we assume this is not the case. Would someone of authority please respond to this message and try to clarify in terms we can understand if this is a mistake or why you think we owe taxes on properties we never personally owned.

Respectfully,  
  
Frank Lindeburg

Re: Tax Relief

I realize that the covid has caused issues with regard to communication between your offices and the public. That said, if you can tax us then you can surely give us the information requested to avoid said taxes if that information is viable.

In late 2019 we received 3 tax bills sent to Kathy Wright, my sister, at my address. I forwarded the 3 envelopes to Kathy without opening as I didn't know what it concerned and they were addressed to Kathy. She told me later that they were tax bills for 3 properties in my parents Trust that had been sold the year prior. Kathy said she had called the County Tax Collector, talked to a clerk named Barbara and was told "Sorry, that was a mistake".

In late 2020 we received the same bills sent to Kathy at my address but they had included something called an Escape bill, Unsecured supplemental taxes. They also had Pre-intercept bills. So I got involved. Escrow and Title both said we were good with the taxes paid through escrow. I called the Treasurer-Tax Collector who at that time was Jon Christenson. I was put on hold for 60 minutes when I hung up and emailed. I received NO response by email or snail mail. I then sent him a letter by mail, 11/22/2020 which is included in this package. I did NOT receive any response so I figured it was all a mistake as the clerk Barbara stated a year earlier and we let it go.

In late 2021 we received the bills again so we got proactive. I had a long conversation with Maricela Ambriz, Accounting Assistant II (included in this pac) and she finally told us we had to go to Assessor's office. I set an appointment and talked to a gal at window 8. I had over 50 pages of documentation/info from you and the State and we tried to talk through a mic that shut down when someone on either side of us was talking. She finally talked to a supervisor and told us we had to talk to the Riverside County Clerk of the Board. I emailed the Riverside County Clerk of the Board and received a call from Christina ACR Technician III. She was very knowlegable and as you can see from the email (in the pac) that we talked in length about the Claim for Reassessment Exclusion for Transfer Between Parent and Child. I asked Christina what would have happened

had we had the Parent to Child form when we first received the tax bills in 2019 and she stated there would have been NO taxes! So to be blunt why were we never told of this form or the ramifications of NOT having it executed. Don't your offices have the obligation to pass on all the facts?? Had we been briefed by your offices on the importance of that information we would have been able to forget about all this stress and wasted time.

You didn't send us any proposed assessment as required by CA law 531.8,32 and more importantly nobody mentioned the importance of the Parent to Child form. Seriously, don't you think we would have taken care of business had you done your jobs!? You have sent us from the Tax Collector to the Assessor to the Riverside Clerk of the Board and then a request to go back to the Assessor. Please do what you should have done 3 years ago.....help us!

We are requesting relief from these 3 property taxes:
