BACKGROUND:

Summary

The Sheriff's Department is requesting to continue purchasing The WRAP safety restraint system, WRAP carts, transport harness, and protective helmets from Safe Restraints, Inc. The WRAP safety restraint is a unique device that can be utilized to quickly and safely restrain inmates and suspects. This specific device is designed to restrain a subject comfortably in an upright and seated position to maximize the subject's respiratory recovery and receive immediate medical care as needed. The WRAP is designed to protect subjects as well as personnel by reducing the possibility of injury.

The WRAP system has unique safety features, such as a locking shoulder harness to position a person in an upright position. The position is one of the safest positions for oxygen recovery. It also consists of a leg restraint which eliminates the ability to kick and holds legs in an extended position. The ankle strap comes with a carry handle. It distributes pressure to reduce blood flow restriction and a tactical bag with a hands-free shoulder strap and bright yellow marking for ease-of-use in low light.

Impact on Residents and Businesses

The WRAP system will assist the Sheriff's Department with maintaining their obligation to ensure the safety of subjects as well as personnel.

Contract History and Price Reasonableness

The price offered to Riverside County Sheriff reflects a discounted price offered to law enforcement agencies. In addition, the vendor provides value-added services at no additional cost. The benefits include instructor-led training and a warranty for conditional repair support for seven years.

The Ben Clark Training Center (BCTC) personnel will manage all training for additional operational cost savings after this period.

achieved, the subject is now restrained comfortably in an upright and seated position for respiratory recovery and receives immediate medical care as needed. The WRAP has over two decades of saving lives, reducing injuries, and minimizing risks for all involved.

7. Reasons why my department requires these unique features from the vendor and what benefit will accrue to the county:

The WRAP restraint's unique features are required and beneficial to the Sheriff's Department. The device will assist in ending the conflict with department members and the public. However, it will also help the Sheriff's Department maintain our obligation to ensure inmates and suspects can receive immediate medical care while maintaining an upright/seated/controlled position for respiratory recovery. The restraints and accessories will be distributed to the five jail facilities in Riverside County after training has been put in place by BCTC Training personnel. Training will be part of the Correctional Deputy Academy and the Annual Jail Training courses.

8. Period of Performance: From: 07/01/2023 to 06/30/2028
 (Total number of years: 5)

Is this an annually renewable contract? No Yes
 Is this a fixed-term agreement: No Yes

9. Identify all costs for this requested purchase. In addition, please include any single or sole source amounts previously approved and related to this project and vendor in the section designated below for current and future fiscal years. You do not need to include previous fiscal year amounts. If approval is for multiple years, ongoing costs must be identified below. If annual increases apply to ongoing costs such as CPI or other contract increases, provide the estimated annual cost for each consecutive year. If the annual increase may exceed the Purchasing Agent's authority, Board approval must be obtained. (Note: ongoing costs may include but are not limited to subscriptions, licenses, maintenance, support, etc.)

Description:	FY 23/24	FY 24/25	FY 25/26	FY 26/27	FY 27/28	Total
One-time Costs:						
Wrap safety restraint system	\$185,000	\$135,000	135,000	\$135,000	\$135,000	\$725,000
