SOURCE OF FUNDS: 100% - District 2 UCI			Budget Adjustment: Yes	
			For Fiscal Year: 23/24	

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

This project consists of the purchase and installation of 6 Solar Powered LED Enhanced Blinking Stop Signs in the Home Gardens area. Solar Powered LED Enhanced Blinking Stop Signs enhances stop sign visibility and increase driver compliance for both day and night scenarios. Additionally, "Continental" style crosswalk markings will be implemented at the two noted intersections to help enhance visibility for both motorists and pedestrians.

The Second Supervisorial District and the Transportation Department are recommending that the existing all-way stop signs located at the following intersections be upgraded with Solar Powered LED Enhanced Blinking Stop Signs:

- Intersection of Tolton Ave and Grant Street (4 Blinking Stop Signs)
- Intersection of Grant Street and Harlow Avenue (2 Blinking Stop Signs)

The two identified intersections are located within the Home Gardens Academy School Zone.

Impact on Residents and Businesses

The installation of Solar Powered LED Enhanced Blinking Stop Signs will increase stop sign compliance resulting in enhanced intersection right-of-way control and safety as well as enhance pedestrian safety around Home Gardens Academy.

Additional Fiscal Information

The average cost to purchase and install a one (1) Solar Powered LED Enhanced Blinking Stop Sign is \$1,500. Annual maintenance is approximately \$250 per sign and will be funded by Gas Tax. Transportation has indicated that the maintenance cost can be absorbed in their current budget and there is no need for a budget adjustment at this time.
