BACKGROUND:

Summary

On October 31, 2023 the Board of Supervisors introduced Ordinance No. 756.1 that adopts as amended, the Establishment of Regulations for ALS Ambulance, Air Ambulance, BLS Ambulance, and Critical Care Transport Providers through its EMS Agency for the County of Riverside. In accordance with Government Code Section 25131, the Board of Supervisors may adopt Ordinance No. 756.1 because more than five (5) days have passed since its introduction on October 31, 2023.

Impact on Residents and Businesses

The purpose of Ordinance No. 756.1 is to ensure regulations for ALS ambulance, air ambulance, BLS ambulance, and critical care transport providers are being followed and enforced. REMSA is dedicated to providing emergency medical services in support of the public health and welfare of the residents of Riverside County.

CEQA

Ordinance No. 756.1 merely brings definitions, roles, and processes current, and removes certain details, including for applications, permit fees, and other administrative matters, from the ordinance, with instead having them subject to REMSA Policy 3201. Because these changes have no possibility of causing a direct or reasonably foreseeable indirect physical environmental change, they do not qualify as a project under CEQA. In addition, they are exempt from CEQA pursuant to State CEQA Guidelines section 15061(b)(3) because there is no possibility that they will have a significant effect on the environment.

Additional Fiscal Information

Ambulance transport providers are responsible for providing all EMS supplies and emergency medical response equipment that is required to support the medical response tasking. REMSA's responsibility is to provide medical direction and protocols.
