**BACKGROUND:**

**Summary**

The Special Enforcement Bureau (SEB) houses numerous enforcement teams such as the Hazardous Device Team for the Riverside County Sheriff's Office. The Hazardous Device Team provides trained experts in numerous types of explosive devices. They are responsible for the handling, transportation, and rendering safe of all explosive items located within the County. The team has specific goals designed to promote not only the safety of law enforcement personnel but of the public at large in dealing with explosive devices and bombings.

The Riverside County Sheriff's Department is requesting approval to finance one (1) hazmat response vehicle in the amount of \$307,022 using the Sheriff's budget. The vehicle requested was not part of the fiscal year new vehicles request (schedule 23), however, it is urgently needed to replace the vehicle 15-198. The purchase of this vehicle will reduce the repair cost as well as support the day-to-day operations of the department and County.

**Contract History and Price Reasonableness**

The Sheriff's Department, in cooperation with the Purchasing and Fleet Services Department, has leveraged Houston-Gavelston Area Council (HGAC) Cooperative Agreement No. AM10-23, to purchase the requested vehicle (Product No. AM23CC08) from Braun Northwest, Inc. The cooperative agreement has been competitively bid and awarded through HGAC's cooperative contract No. AM-10-23. The purchase price through this cooperative agreement includes a discount of \$1,500 toward the purchase of the bomb truck.

**Impact on Residents and Businesses**

The vehicle will be used to conduct Department business and to support the day-to-day functions of the department and County. The SEB Bomb Squad ensures the safety and well-being of the members of the County's diverse communities as well as the safety of all public safety personnel who may be first responders to an explosive-related incident.
