BACKGROUND:

Summary

The County of Riverside Transportation Department conducted Engineering and Traffic Surveys (E&TS) in accordance with the California Vehicle Code (CVC), Sections 627 and 40802, for various county-maintained roads in the Mead Valley, Perris, Temecula, and Hemet areas of Riverside County.

Based upon the results of the E&TS for these roads, the Transportation Department recommends the introduction of designated radar-enforceable speed limits along the road segments summarized in the List of Speed Zones and has determined these speed limits to be appropriate to facilitate the safe and orderly movement of vehicular traffic. The Transportation Department intends to recommend adoption of these designated radar-enforceable speed limits at the March 19, 2024 Board of Supervisors meeting.

Transportation Department staff has contacted the Riverside, San Geronio, and Temecula area offices of the California Highway Patrol (CHP) regarding the recommended speed zones.

Previous Agenda References

August 29, 2023 (Item 3.75) - Initiation of Ordinance No. 452

Impact on Residents and Businesses

The establishing and posting of appropriate speed limits promote safe and orderly movements of vehicular traffic and enable the CHP to use radar equipment to enforce the speed limits. Since the recommended speed limits were determined based on actual speed surveys, the majority of the motorists are already driving at or below the recommended speed limits. Posted speed limits also guide motorists to drive at a reasonable speed in unfamiliar locations.

Additional Fiscal Information

The cost for establishing the recommended speed limits is primarily for the installation of speed limit signs, which is estimated at about \$3,500.
