STATE OF CALIFORNIA**

BACKGROUND/APPOINTEE INFORMATION: The Temecula-Anza-Elsinore-Murrieta Resource Conservation District (TEAM RCD) is an independent special district with the mission of promoting natural resource conservation practices, opportunities for public education and participation, and a sustainable quality of life for communities within the District. Under California Public Resources Code section 9150 et seq., resources conservation districts provide important local control for the protection of people, communities, ecosystems, and public and private resources through programs, projects, and activities designed to promote conservation practices. Covering 505,000 acres land, TEAM RCD includes portions of Riverside County within Supervisorial Districts 1 and 3.

On January 11, 2024, Jeff McClenahan resigned from his appointment on TEAM RCD, effective January 12, 2024. Per Public Resources Code section 9314(b)(4), the Board of Supervisors has sixty (60) to make an appointment, counted from the day the vacancy was created.

Stuart's application followed the procedures set forth in Ordinance 662 and was timely. The Registrar of Voters determined his eligibility under Ordinance 662, Section 2(c) before forwarding his application to the District 3 office for further review, along with all other timely, qualified applications.

After consideration of all qualified applicants, Supervisor Washington nominates Stuart Kuhn for appointment by the Board of Supervisors to fill the unexpired term ending on November 30, 2026.

Stuart has over 20 years of experience supporting public works projects. In his current role as a Stormwater Program Manager, Stuart is working to implement the Alternative Compliance Program developed for the City of Temecula across all Riverside and San Diego County cities. Stuart was previously accountable for the stormwater program at the City of Temecula Department of Public Works. He has managed numerous projects with budgets ranging from \$600k to \$25M, directed design teams, administrative staff, consulting professionals, and university professors to complete projects on time, and created stormwater management plans designed to improve city safety and efficiency.
