C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

The District's Board approved a contract with the Contractor in the amount of \$2,448,700 as Agenda Item Number 11.6 (MT 19876) on September 13, 2022.

This District-led Project replaced approximately 1,800 lineal feet of existing earthen channel with an open concrete trapezoidal and rectangular channel with base width and height ranging from 6'-11' and 5'-7', respectively. This completed project now provides 100-year flood protection to the community near the channel between Valley View Avenue and Sierra Avenue. The Project includes installation of a permeable paver lined invert at the downstream end of the Project to promote infiltration of the low flows.

Final inspection of the Project was made, and the Project was found to be complete according to plans and specifications. A brief Project description and location map is attached. The final price for the contract is \$2,475,404.99.

The District does not anticipate any claims for additional compensation from the Contractor.

Prev. Agn. Ref.: MT 19876, 11.6 of 09/23/2022 (Award)
 MT 19044, 11.2 of 06/07/2022 (Advertise)
 MT 6018, 11.1 of 05/08/2018 (Cooperative Agreement)
 MT 4999, 11.2 of 12/05/2017 (CEQA Findings)

Impact on Residents and Businesses

The Project improves flood protection and groundwater recharge for residents and businesses in the vicinity. The District constructed a segment of drainage infrastructure which remedies ongoing flooding problems in the area, thus resulting in positive impacts to residents and businesses.

Contract History and Price Reasonableness

Pursuant to Public Contract Code 21091, invitation of sealed bids was solicited by advertising in print and digital media.

The final price for the contract is \$2,475,404.99.

RIVERSIDE COUNTY FLOOD CONTROL & WATER CONSERVATION DISTRICT

North Norco Channel Line NB, Stage 3

Project Number 2-0-00145-03

This is a District led project to replace approximately 1,800 lineal feet of existing earthen channel with an open concrete trapezoidal and rectangular channel with base width and height ranging from 6'-11' and 5'-7', respectively. The primary objective is to provide 100-year flood protection to the community near the channel between Valley View Avenue and Sierra Avenue by collecting 100-year flows from the existing improved portion of Line NB upstream of Valley View Avenue and conveying them westerly in an upgraded channel until they are discharged into the existing North Norco Channel just east of Interstate 15. The project includes installation of a permeable paver lined invert at the downstream end of the project to promote infiltration of low flows.
