BACKGROUND:

Summary

The Transportation Improvement Program (TIP) provides for the construction of the Oleander Avenue Sidewalk Improvements Project Phase II in the Community of Mead Valley of Riverside County.

This Project will extend from the previously completed Oleander Sidewalk Project Phase I, which included construction of curb, gutter and sidewalk from Mead Valley Elementary school to Haines Street. The proposed Project will include the construction of approximately 1,290-feet of concrete sidewalk along the north side of Oleander Avenue between Haines Street and Clark Street. The project also includes roadway widening on the north half of the Oleander Avenue and resurfacing the existing asphalt concrete pavement. The resurfacing treatment consists of grinding down a portion of the asphalt concrete pavement followed by overlaying with new hot mix asphalt.

Additional improvements include construction of concrete curb and gutter, cross gutter, curb ramps and driveways. Safety features include placing of roadside signs, traffic stripes, and thermoplastic crosswalks and pavement markings.

The proposed improvements will provide a fully American with Disabilities Act (ADA) accessible all-weather pathway for pedestrians.

On March 11, 2021, President Biden signed the \$1.9 trillion American Rescue Plan Act (ARPA) of 2021 into law. To accelerate recovery from the economic and health impacts of the COVID-19 pandemic, the County of Riverside was provided approximately \$480 million. The Executive Office in conjunction with the Board Supervisors developed a plan to disburse these funds based on the principles of providing recovery funding to those sectors of our economy and society that are struggling most to recover from the pandemic; have a constituent and community based focus; provide a vehicle for transformational investment in our County's recovery from COVID-19; provide for countywide equity; and focus on one time investments, rather than funding ongoing operational costs. As a result of these principles, the Oleander

Avenue Sidewalk Improvements Project Phase II was selected as a recipient of \$1,000,000 of ARPA funds from District 1 per Minute Order dated December 13, 2022 (Agenda Item 3.2).

The submitted plans and specifications have been approved as to form by County Counsel.

The bid documents include the following bid schedules of work:

Base Bid Schedule: Oleander Avenue Sidewalk Improvements Project Phase II and associated work

The Transportation Department will select the contractor based upon the lowest responsive and responsible bid for the sum of all bid schedules.

Project Number: D2-0109

Environmental Findings

The proposed project is exempt from CEQA under Section 15301 (c) – Existing Facilities exemption because the Oleander Avenue Sidewalk Improvements Project Phase II does not create additional traffic lanes and involves negligible or no expansion of existing or former use of the existing roadway and associated facilities.

Impact on Citizens and Businesses

The proposed improvements will improve pedestrian safety and provide an Americans with Disabilities Act (ADA) compliant path. The new sidewalk will serve as a path to and from Mead Valley Elementary School located on Oleander Avenue.

The work is scheduled to begin in December 2024. The work will be phased to keep the road open during construction as much as possible and will take approximately two months to complete.

SUPPLEMENTAL:

Additional Fiscal Information

The construction contract is estimated to cost approximately \$686,617. The County improvements will be funded with American Rescue Plan Act funds.

There are no General Funds used in this project.

Transportation Department NOTICE OF EXEMPTION

February 13, 2024

PROJECT TITLE: Oleander Avenue Phase II Project
Work Order# ZD20109 Task Code #Z1530

PROJECT SPONSOR: County of Riverside Transportation Department

PROJECT LOCATION: Community of Perris

PROJECT DESCRIPTION: The County of Riverside Transportation Department proposes to install ADA ramps, sidewalk, curb and gutter along the north side on Oleander Ave between Haines Street and Clark Street in the Perris area of Riverside County. This segment of Oleander Ave is currently a two-lane secondary road that travels in the east-west directions. Existing pavement width is approximately 26' wide with 8' of graded shoulders along the roadway.

Project includes:

- Grind and overlay existing asphalt concrete pavement.
- Installation of concrete sidewalk
- Installation of driveways
- Installation curb, gutter, pavement, signs, and markings
- Installation of ADA compliant curb ramps
- Minor widening and drainage feature modifications

ENVIRONMENTAL ANALYSIS:

No additional right-of-way will be required to construct the proposed improvements. The project improvements will be within the existing footprint of the roadway.

This project is subject to compliance with the Western Riverside County MSHCP. In accordance with Section 7 of the Western Riverside County MSHCP, necessary operation and maintenance along existing roadways are considered a covered activity outside of cell criteria area. This project is considered to be an operation and maintenance activity; therefore, it is a covered activity under the Western Riverside County MSHCP.

If tree and/or vegetation removal takes place during the migratory bird breeding season (March 1 – September 1), a preconstruction nesting survey will be conducted pursuant to the Migratory Bird Treaty Act.

The Riverside County Transportation Department has found that the above-described project is exempt from the provisions of the California Environmental Quality Act (CEQA), based on the following:

Section 15301 (c) – Existing Facilities – The project proposes to construct a new concrete sidewalk along the north side of Oleander Avenue between Haines Street and Clark Street in the Perris area of Riverside County. The project in its entirety is consistent with Section 15301(c) because the construction of sidewalk and associated minor improvements do not create additional traffic lanes and involve negligible or no expansion of existing or former use of the existing roadway and associated facilities.
