#### **BACKGROUND:**

#### **Summary**

Riverside University Health System - Behavioral Health (RUHS-BH) operates a continuum of care that consists of County-operated and contracted service providers delivering a variety of behavioral health treatment services within each geographic region of Riverside County. To support the Behavioral Health Information System (BHIS), RUHS-BH utilizes myAvatar a Netsmart product, for Electronic Health Record (EHR) services. The National Institutes of Health have concluded that use of an EHR results in improved quality and patient care, more efficient tracking of patients and costs, and better documentation and improved audit capabilities. The agreement with Netsmart enables RUHS-BH to be in compliance with State and Federal laws, meets the State requirements for billing Short-Doyle Medi-Cal, and ensures revenue to fund the County's behavioral health care services.

Netsmart currently operates under a Single Source Justification with RUHS-BH. Since 2010, this entity has been providing the needed technology services at the lowest cost in comparison to existing competitors. RUHS-BH is now seeking a five-year contractual agreement with Netsmart to provide continued provisions for maintenance and support services for existing components, telehealth and support services required by State and Federal EHR regulations. In addition to the existing services; RUHS-BH has requested additional services from Netsmart to remain in compliance with State and Federal Regulations. One major component of the new services includes the Dispatch Software for Mobile Crisis.

RUHS-BH has multiple fully Mobile Crisis Response Teams (MCRT) and Mobile Crisis Management Teams (MCMT) that are dispatched throughout Riverside County 24/7. RUHS-BH MCRTs and MCMTs respond to a variety of crisis calls from within the community supporting all ages and community agencies; calls received focus on diversion from hospitalization and incarceration, when possible. Mobile Crisis teams provide high-quality mental health and substance abuse services, homeless outreach, and placement services throughout the county including remote areas.

## **Impact on Citizens and Businesses**

The continuation of existing services coupled with the new service provisions will facilitate RUHS-BH to continue to improve the health and safety of consumers and the community.

#### <u>Additional Fiscal Information</u>

There are sufficient funds in the Department's FY24/25 – 28/29 budget and no additional County funds are required.

## **Contract History and Price Reasonableness**

On October 18, 2023, the Riverside County Purchasing Department, on behalf of RUHS-BH, issued Request for Information (RFI) #MHARC-289 for a new Crisis Dispatch Software. Under this RFI, the County was seeking conceptual solutions from qualified vendors who can provide mobile crisis dispatch software along with training and technical support for mobile crisis teams. Four (4) organizations provided demonstrations to a committee comprised of staff from Behavioral Health. Netsmart was determined most suitable to meet the requirements and was recommended for the Crisis Dispatch Software. The entire RUHS-BH (Material Management, Program Support, Research, Evaluations and Technology, etc.) utilizes Netsmart Services hence there will always be a need for additional services as each department continues to grow.

On April 21, 2009, the Riverside County Purchasing Department, on behalf of RUHS-BH, issued Request for Proposal (RFP) #MHARC-50 for a new BHIS. Under this RFP the County was seeking a state-of-the-art electronic integrated BHIS for supporting all RCDMH programs and related financial activities. This BHIS was needed to bring RCDMH into compliance with the State and Federal requirements for an EHR by replacing existing paper-based health records and replacing two existing core legacy applications that were in place for over 20 years.

The RFP was sent to eight organizations and advertised on the County's website. Four organizations submitted proposals, of which three were determined to be responsive in meeting the minimum requirements stipulated in the RFP. Netsmart was determined to be the lowest, responsive and responsible bidder and was recommended to be awarded the BHIS contract.

Previous Board of Supervisor F11 approvals include: March 16, 2010 (3.46), August 31, 2010 (3.61) June 17, 2014 (3.41), May 3, 2016 (3.17), June 20, 2017 (3.35) and June 26, 2018 (3.52). The last F11 approval for Netsmart's services was approved on September 21, 2021, for three (3) years through June 30, 2024 on Agenda item# 3.14 for a total of \$5,212,150.

Due to the amount of money, time and resources already invested into this system, it would not be cost-effective nor in the best interest of the County to go back out to bid for these services. On July 19, 2024, the Riverside County Purchasing Department reviewed and issued SSJ # 25-014 with Netsmart, Inc., in the amount of \$21,419,606 over the (5) five year period, as outlined in the chart below for FY 2024/2025 through FY 2028/2029. Therefore, RUHS-BH requests the Board approve the Master Agreement for Netsmart, Inc. for five (5) years in the amount of \$21,419,606 for July 1, 2024 through June 30, 2029.

The indemnifying party has the right to control and defend the Claim at its own expense and with its own counsel and to settle the Claim so long as such settlement does not require the indemnified party to pay any money or admit any liability without the indemnified party's prior written consent. The indemnified party will have the right, at its option, to participate in the defense of the Claim with its own counsel at its own expense.

Either party may terminate this Agreement or a Purchase Agreement, if the other party is in material breach by sending a written notice specifying each breach with reasonable detail, unless (i) the breaching party has cured the breach within thirty (30) days of receipt of written notice, or (ii) with respect to a breach which may not be reasonably cured within the 30-day period, the breaching party is diligently pursuing cure of, and cures the breach as soon as practicable. In the event this Agreement is terminated due to a breach by Client, within thirty (30) days of the date of termination of this Agreement, Client will erase from all computer storage any image or copies of the Software Services, related documentation and will certify in writing to Netsmart that the original and all copies of such property have been destroyed. In the event of termination, Client shall be responsible for all fees related to software and Services rendered through the effective date of such termination.

- ii. Service Package means software designed to fix identified Problems or Defects in the Software Services, including documentation and release notes made available with such patch or service pack.
- iii. System Stabilization Period is the period during the seventy-two (72) hour window following the First Productive Use and following a Major System Change.

#### 2. Coverage.

This Section sets forth the System Availability commitments for Software Services. If monthly System Availability (as defined below) falls below 99.9%, Netsmart will provide a credit against the Client's next monthly recurring Software Services fees to account for the downtime. The appropriate credit percentage (%) will be determined based on the following table.

For the absence of doubt, Software Services include 24x7x365 Support Services for Priority 1 issues.

| System Uptime %      | Credit % |  |
|----------------------|----------|--|
| >= 99.0% and < 99.9% | 5%       |  |
| 98.0 to 98.9%        | 10%      |  |
| 96.0 to 97.9%        | 15%      |  |
| < 95.9 or below      | 25%      |  |

## 3. System Availability Calculation

- a. Netsmart will calculate System Availability as set forth below for each month during the Term.
- b. System Availability will be calculated as follows (and will be rounded to up to the next one tenth of a percentage point):

System Availability = [ (Base Time - Unscheduled Downtime) / (Base Time) ] x 100

Base Time equals the product of the number of days in the applicable month times 24 hours times 60 minutes.

**Unscheduled Downtime** equals the time (in minutes) during which the production system is not operational (excluding "Scheduled Downtime") from the Netsmart-provided hosting facility internet connection based on the measuring methodology documented below.

Scheduled Downtime equals the aggregate total of all minutes of planned and scheduled maintenance performed during the month to perform any necessary hardware, operating system, network, database, application software maintenance, repair, upgrades, and updates. Netsmart will work with Client to determine and use commercially reasonable efforts to schedule downtime after regular business hours, during times that minimize the disruption to operations. The amount of scheduled downtime may vary from month to month depending on the level of change to the system such as the project implementation phase, adding new products, upgrading products, etc

- c. Client is permitted to audit Unscheduled Downtime based on the methodology established below. Netsmart agrees to cooperate with Client in connection with any audit of Unscheduled Downtime. This audit must take place within 30 days of the month end.
- d. Netsmart recommends that Client implement, on a timely basis, the Service Packages that will be provided to Client by Netsmart on a periodic basis. Netsmart will advise Client on Service Packages that may enhance performance and availability and will advise Client of the advantages of implementing the Service Packages as well as the implication of electing not to implement the Service Packages. Netsmart will perform the technical requirements needed for Client to use the Service Packages that Client elects to implement, at no additional charge and as part of the recurring SaaS/Hosting fees. Client and Netsmart will work together to establish a mutually agreeable implementation schedule for the Service Packages. Upon notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement a Service Package, Client will waive any credits set forth above, until such time as Client performs its obligations as necessary to implement the required Service Packages.
- e. Client must allow Netsmart to implement the latest Netsmart supported layered software version (i.e. OS, DBMS, etc.) and patches within six (6) months of the general support announcement from Netsmart. Netsmart will advise Client regarding the layered software enhancements as well as the implications of electing not to implement the layered software enhancements. Netsmart will perform the technical requirements needed for Client to use the layered software enhancements that Client elects to implement as part of the fees. Client and Netsmart will work together to establish an implementation schedule for the layered software enhancements. If Netsmart provides notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement the layered software enhancements, Client waives its right to any credits set forth above until Client implements the required layered software enhancements.
- f. If Client is operating beyond the Scope of Use limits, Client waives its right to any credits set forth above until Client is in compliance with Scope of Use.
- g. During a System Stabilization Period, changes to the System may be required to achieve optimal performance and Unscheduled Downtime or Scheduled Downtime minutes do not apply.

#### 4. Exceptions

Client shall not receive any credits under this Schedule in connection with any failure or deficiency of System Availability caused or associated with:

- h. Use of a VPN or similar connection which is not exclusively within Netsmart's control at both ends of such connection, and where the problem occurs in the part of the VPN which is not under Netsmart's control.
- 5. Scheduled Maintenance. Netsmart reserves the right to establish a monthly maintenance window for the purpose of upgrading, patching, modifying, and repairing portions or the entire cloud computing environment. The monthly window is generally scheduled on the 3<sup>rd</sup> Sunday of the month, from 2:00AM 5:30AM EST.

#### 6. Credit Request and Payment Procedures.

In order to receive a credit, Client must submit a request for credit to Netsmart Accounting at AR@ntst.com, within thirty (30) days after the incident supporting the request. Each request must include Client's account number (per Netsmart's invoice) and the dates and times of the unavailability of the services. If the unavailability is confirmed by Netsmart as an incident eligible for credit, credits will be applied within two billing cycles after Netsmart's receipt of Client's request. Credits are not refundable and can be used only towards future billing fees.

Notwithstanding anything to the contrary herein, the total amount credited to Client in a particular month under this Schedule cannot exceed the total SaaS fees paid by Client for the month in which Services were impacted. Credits are exclusive of any applicable taxes charged to Client or collected by Netsmart and are Client's sole and exclusive remedy with respect to any failure or deficiency in level of services described in this Schedule if Client applied for and received a credit. Nothing in this Schedule precludes Client from pursuing an alternate contract remedy for any future incident that may occur.

## Schedule 1 - Scope of Use, Fees and Payment Terms

- 1. Definitions. The following definitions shall apply to this Purchase Agreement:
  - a. "Concurrent User" means the peak number of simultaneous users accessing the Licensed Software on monthly basis.

For purposes of scope of use measurements, prior to charging Client for increased scope of use, Netsmart will review the concurrent usage measures to ensure that non user activities that might increase the total concurrent usage counts are removed, subject to the restrictions of Netsmart's third party partners.

- b. "Named User" means a user of the Licensed Software that has a unique log-on and password.
- c. "ADC" means the average number of patients per day admitted and under care.
- d. "Bed Count" means the total number of licensed beds or total beds designed within a facility.
- e. "Non-Prescribing User" means any person who is granted limited access to the OrderConnect solution for the purpose of editing information that is not required to be entered or modified by a Prescriber or a person who is authorized under applicable law and regulations to transmit or relay prescription authorization information between a Prescriber and a pharmacy. A Non-Prescribing User typically generates reports without modification of the information in the reports and can update basic demographic information or a nurse who is authorized by a physician to communicate with a pharmacy or laboratory on behalf of a Prescriber.
- f. "Prescriber" means any person who possesses a DEA number and who is authorized by law to write prescriptions.
- 2. <u>Purchase.</u> Client agrees to purchase the following products and services and pay the fees according to the terms set forth in this Purchase Agreement:

a) Payments. Client agrees to pay Netsmart the Fees in the amounts and at the times set forth in Addendum Schedules. With the exception of the initial invoice which is due contract signing, invoices are payable net thirty (30) days after invoice date. Thereafter, any outstanding balance shall bear simple interest at the lower of 18% per annum or the highest interest rate permitted by law. Failure to make timely payment is considered a material default of the Agreement.

b) Annual Increases. Netsmart agrees that it will not revise any recurring fees during the first year of this Addendum. Thereafter, any recurring fees will be increased annually at a rate of 5% or the most recent increase in the US Bureau of Labor Statistics Consumer Price Index for All Urban Consumers (CPI-U) - Medical Care, whichever is greater. **CONFIDENTIALITY**. Except as permitted in this Addendum, neither party will, nor will they permit their employees, agents, attorneys or independent contractors to, disclose, use, copy, distribute, sell, license, publish, reproduce, or otherwise make available confidential information of the other party. Each party agrees to secure and protect the other party's confidential information using the same standard of care, but in no event less than reasonable care, that it uses to protect its own confidential information. Each party agrees to require their respective employees, agents, attorneys, and independent contractors who have a need to access confidential information to be bound by confidentiality obligations sufficient to protect the confidential information. Either party may disclose the other party's confidential information to the extent required by applicable law or regulation, provided that, as permitted, it notifies the other party in writing as soon as practicable prior to such disclosure. Confidential Information does not include information (a) publicly available through no breach of this Agreement; (b) rightfully acquired from a third party having a bona fide right to disclose or make the same available; (c) independently developed or previously known by a party; or (d) Protected Communication. Parts 170 and 171). Client recognizes that Netsmart has a legitimate interest in the

Protected Communications and that if Netsmart is not made aware of the issues that may be detailed in a Protected Communication, Netsmart is not able to resolve, correct or explain them. Netsmart encourages Client to report all such issues included in Protected Communications through Netsmart's standard support process. Netsmart reserves all rights to assert that any prohibition or restriction imposed by Netsmart on Protected Communications is permitted because it is not entitled to unqualified protection under 45 C.F.R. 170.403(a)(2)(ii).

8. GENERAL TERMS

Except as expressly set forth in this Addendum, the relationship between Netsmart and Client will be governed by the provisions of the Agreement.

SURVIVAL OF TERMS

In the event this Addendum terminates pursuant to its terms, the Agreement will continue in full force and

10. CROSS DEFAULT

A default by Client and resulting termination of the Agreement will similarly terminate all rights granted by this Addendum. A default and termination of this Addendum, however, will not constitute grounds for termination of the Agreement, unless the default under this Addendum would likewise be grounds for termination of the Agreement.

11. USE OF NETSMART WEBSERVICES

If separately purchased, Netsmart supports the use of Netsmart-provided web services in the hosted environmental platforms. A secure medium for transmission of web services data is required in order to connect to the cloud computing environment.

IN WITNESS WHEREOF, the parties have executed this Addendum as of the Addendum Effective Date.

## Addendum Schedule 2(b) Service Level Agreement for Hosting Services

## 1. Definitions.

- i. Major System Change means a material change to the system, including a backend upgrade, operating system upgrade, new release upgrade, SAN upgrade, database upgrade.
- ii. Service Package means software designed to fix identified Problems or Defects in the Software Services, including documentation and release notes made available with such patch or service pack.
- iii. System Stabilization Period is the period during the seventy-two (72) hour window following the First Productive Use and following a Major System Change.

#### 2. Coverage

This Section sets forth the System Availability commitments for Software Services. If monthly System Availability (as defined below) falls below 99.9%, Netsmart will provide a credit against the Client's next monthly recurring Software Services fees to account for the downtime. The appropriate credit percentage (%) will be determined based on the following table.

| System Uptime %      | Credit % |  |
|----------------------|----------|--|
| >= 99.0% and < 99.9% | 5%       |  |
| 98.0 to 98.9%        | 10%      |  |
| 96.0 to 97.9%        | 15%      |  |
| < 95.9 or below      | 25%      |  |

#### 3. System Availability Calculation

- a) Netsmart will calculate System Availability as set forth below for each month during the Term.
- b) System Availability will be calculated as follows (and will be rounded to up to the next one tenth of a percentage point):

System Availability = [ (Base Time - Unscheduled Downtime) / (Base Time) ] x 100

Base Time equals the product of the number of days in the applicable month times 24 hours times 60 minutes.

Unscheduled Downtime equals the time (in minutes) during which the production system is not operational (excluding "Scheduled Downtime") from the Netsmart-provided hosting facility internet connection based on the measuring methodology documented below.

Scheduled Downtime equals the aggregate total of all minutes of planned and scheduled maintenance performed during the month to perform any necessary hardware, operating system, network, database, application software maintenance, repair, upgrades, and updates. Netsmart will work with Client to determine and use commercially reasonable efforts to schedule downtime after regular business hours, during times that minimize the disruption to operations. The amount of scheduled downtime may vary from month to month depending on the level of change to the system such as the project implementation phase, adding new products, upgrading products, etc

- c) Client is permitted to audit Unscheduled Downtime based on the methodology established below. Netsmart agrees to cooperate with Client in connection with any audit of Unscheduled Downtime. This audit must take place within 30 days of the month end.
- d) Netsmart recommends that Client implement, on a timely basis, the Service Packages that will be provided to Client by Netsmart on a periodic basis. Netsmart will advise Client on Service Packages that may enhance performance and availability and will advise Client of the advantages of implementing the Service Packages as well as the implication of electing not to implement the Service Packages. Netsmart will perform the technical requirements needed for Client to use the Service Packages that Client elects to implement, at no additional charge and as part of the recurring hosting fees. Client and Netsmart will work together to establish a mutually agreeable implementation schedule for the Service Packages. Upon notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement a Service Package, Client will waive any credits set forth above, until such time as Client performs its obligations as necessary to implement the required Service Packages.
- Client must allow Netsmart to implement the latest Netsmart supported layered software version (i.e. OS, DBMS, etc.) and patches within six (6) months of the general support announcement from Netsmart. Netsmart will advise Client regarding the layered software enhancements as well as the implications of electing not to implement the layered software enhancements. Netsmart will perform the technical requirements needed for Client to use the layered software enhancements that Client elects to implement as part of the fees. Client and Netsmart will work together to establish an implementation schedule for the layered software enhancements. If Netsmart provides notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement the layered software enhancements, Client waives its right to any credits set forth above until Client implements the required layered software enhancements.
- f) If Client is operating beyond the Scope of Use limits, Client waives its right to any credits set forth above until Client is in compliance with Scope of Use.
- g) During a System Stabilization Period, changes to the System may be required to achieve optimal performance and Unscheduled Downtime or Scheduled Downtime minutes do not apply.

#### 4. Exceptions

Client shall not receive any credits under this Schedule in connection with any failure or deficiency of System Availability caused or associated with:

- a. an event of Force Majeure;
- b. Failure of access circuits to the Netsmart network, unless such failure is caused solely by Netsmart;
- Scheduled maintenance, scheduled backups, scheduled restores and emergency maintenance and upgrades;
- d. Issues with FTP, POP, or SMTP Client access;
- e. Client's acts or omissions (or acts or omissions of others engaged or authorized by Client), including, without limitation, custom scripting or coding (e.g., CGI, Perl, Java, HTML, ASP, etc), any negligence, willful misconduct, or misuse of the Software Services;
- f. E-mail or webmail delivery and transmission;
- g. Outages elsewhere on the Internet that hinder access to your account. Netsmart is not responsible for browser or DNS caching that may make your site appear inaccessible when others can still access it. Netsmart will guarantee only those areas considered under the control of Netsmart: Netsmart server links to the Internet, Netsmart's routers, and Netsmart's servers; and

- h. Use of a VPN or similar connection which is not exclusively within Netsmart's control at both ends of such connection, and where the problem occurs in the part of the VPN which is not under Netsmart's control.
- Scheduled Maintenance. Netsmart reserves the right to establish a monthly maintenance window for the
  purpose of upgrading, patching, modifying, and repairing portions or the entire
  cloud computing environment. The monthly window is generally scheduled on the 3<sup>rd</sup> Sunday of the month,
  from 2:00AM 5:30AM EST.

## 6. Credit Request and Payment Procedures.

In order to receive a credit, Client must submit a request for credit to Netsmart Accounting at AR@ntst.com, within thirty (30) days after the incident supporting the request. Each request must include Client's account number (per Netsmart's invoice) and the dates and times of the unavailability of the services. If the unavailability is confirmed by Netsmart as an incident eligible for credit, credits will be applied within two billing cycles after Netsmart's receipt of Client's request. Credits are not refundable and can be used only towards future billing fees.

Notwithstanding anything to the contrary herein, the total amount credited to Client in a particular month under this Schedule cannot exceed the total hosting fees paid by Client for the month in which Services were impacted. Credits are exclusive of any applicable taxes charged to Client or collected by Netsmart and are Client's sole and exclusive remedy with respect to any failure or deficiency in level of services described in this Schedule if Client applied for and received a credit. Nothing in this Schedule precludes Client from pursuing an alternate contract remedy for any future incident that may occur.
