**BACKGROUND:**

**Summary**

KB Home Coastal Inc. (Developer) is developing a community commonly known as Olivebrook that includes Tract No. 30266-1 (Tract), that consists of fifty-eight (58) multi-family residential units located at the northwest corner of Leon Road and Domenigoni Parkway.

The Developer is conditioned to construct road improvements on Leon Road that include three (3) southbound lanes, one (1) northbound lane, and a raised median. These road improvements are identified facilities under the County of Riverside (County) Menifee Valley Area Road and Bridge Benefit (RBBB) District.

The Developer and the County now desire to enter into this Road and Bridge Benefit District Project Agreement (RBBB Agreement) to provide a means by which the Developer's eligible costs for the construction of certain road improvements are offset against the Developer's obligation to pay the applicable RBBB fees for the Tract. The Developer would be eligible to receive reimbursement from the Menifee Valley Area RBBB Program in an amount set forth in this RBBB Agreement. Upon completion of the improvements, acceptance by the County, and verification of actual costs, the County Transportation Department will determine the actual reimbursement due to the Developer.

The RBBB Agreement is not a "project" under the California Environmental Quality Act (CEQA). Pursuant to Section 15378 of the State CEQA Guidelines, the RBBB Agreement does not have the potential to result in direct physical changes in the environment and it is not reasonably foreseeable that the RBBB Agreement will result in an indirect physical change in the environment. The RBBB Agreement does not authorize any development, construction, maintenance, operation, or any other activity that would have the potential to result in any significant effect on the environment. Any future development, if it occurs at all, will be the result of subsequent actions subject to further CEQA review. The RBBB Agreement is not a project pursuant to Section 15378 (b)(5) of the State CEQA Guidelines which states that a "project" does not include "organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment". Therefore, it is reasonably foreseeable that the RBBB Agreement will not result in any direct or indirect physical change in the environment.

### AGREEMENT

NOW, THEREFORE, for good and valuable consideration and the mutual promises contained herein, it is agreed as follows:

**Section 1. Purpose of the Agreement:** Following execution of this Agreement, the Developer shall cause, consistent with Sections 3 through 12, below, the Improvements to be designed, engineered and constructed as if it had been constructed under the direction and supervision or under the authority of the County, and the County shall pay or credit the Developer the Reimbursement Amount consistent with Exhibit D in conformance with Section 6, below.

**Section 2. Definitions:** Unless otherwise specifically defined in this Agreement, all terms will have the meaning ascribed to them by the Rules and Regulations for the Administration of Road and Bridge Benefit Districts of the County of Riverside.

**Section 3. Preparation and Approval of Plans and Specifications:** To the extent that it has not already done so, the Developer shall cause plans (the "Plans") to be prepared for the Project. The Developer shall obtain the written approval of the Plans from County. The Developer shall provide a copy of the Plans and Specifications to the Director of Transportation Department of the County, or his/her designee (the "County Engineer").

**Section 4. Duty of Developer to Construct:** To the extent authorized by law, County will grant the Developer any license and/or permit required from it to allow for the construction of the Improvements as approved by County. The Developer shall perform all of its obligations hereunder and shall conduct all operations with respect to the construction of the Project in a good, workmanlike and commercially reasonable manner, with the standard of diligence and care normally employed by duly qualified persons utilizing commercially reasonable efforts in the performance of comparable work and in accordance with generally accepted practices appropriate to the activities undertaken. The Developer shall not be relieved of its obligation to construct the Project

and cause title to the Project to be conveyed to the County even if the Reimbursement Amount is less than the actual cost of the Project. Notwithstanding the foregoing, nothing set forth in this Agreement shall be construed to require the Developer to perform any work requiring a contractor's license, nor shall the Developer be deemed to be performing construction services pursuant to this Agreement.

**Section 5. Acquisition of County Facilities:** The Developer hereby agrees to convey to the County and the County hereby agrees to pay to the Developer the Reimbursement Amount for the Project, subject to the terms and conditions hereof.

The Reimbursement Amount is to be paid solely from fees collected or to be collected by the District and designated for the cost of construction of the Project and the County shall not be obligated to pay the Reimbursement Amount except from amounts held by the District for such purposes.

**Section 6. Payment of the Reimbursement Amount:** The Developer accepts that this Agreement does not serve to stop the County from making further adjustments to the District Fee, by amending the District, consistent with State law. The Developer acknowledges that the Board will annually consider adjustments to the District Fee. The parties agree that the dollar amount of any fee credit to be earned by the Developer pursuant to this Agreement will be determined by the actual cost of construction incurred not to exceed Exhibit D. The maximum allowable reimbursement amount will be based on the reimbursement scheduled established by the District at the time the Developer pays District Fees. **Additionally, cash reimbursement is subject to availability of funds received by the District which may include reimbursement over a period of time.**

(a) Upon recordation of a Notice of Completion for the Project and acceptance of the Project by the County Engineer, the Developer shall submit a billing to the County Engineer requesting determination of the actual cost of the Project and the District Fee credit. The reimbursement amount of the earned fee credit is to equal the actual cost incurred in an amount not to exceed what is set forth in Exhibit D in constructing the Project. The Developer is to supply all documentation requested by the County Engineer in determining the actual construction cost of the Project. The County Engineer is to use his best efforts to determine the amount of the earned fee credit within thirty (30) calendar days of receipt of the bill submitted by the Developer which may include reimbursement over a period of time.

(b) The County Engineer will provide the Developer written notice, in the form of Exhibit E attached hereto (the "Credit Notice"), of the dollar amount of the earned credit. If the dollar amount of the earned fee credit exceeds the dollar amount of the District Fee that would otherwise be due from the Developer (the "Fee Credit Excess"), the County Engineer will identify in the Notice that the Fee Credit Excess will generate either: (i) a cash reimbursement to the Developer or (ii) an earned fee credit to offset the District Fee required on another approved tract or parcel map to be developed by the Developer within the District. Once completed, the Credit Notice is to be executed and dated by the County

Engineer and the Developer.

(c) If the dollar amount of the earned fee credit is less than the District Fee that would be due from the Developer, the Credit Notice will so note. The amount of credit to be applied with each District Fee payment on either a per unit or per acre basis will be identified, and shall be based on prorating the earned fee credit over those units which have not previously paid the District Fee in the first phase of the Tract.

(d) If the Developer is issued one or more building permits prior to the date the County Engineer accepts the Project and prepares the Notice of Credit, then the Developer will have to pay the full District Fee for each permit issued, and upon acceptance of the Project by the County Engineer, the County Engineer will note on the Notice of Credit the full District fee paid to date of acceptance and make the appropriate adjustment for the application of the earned fee credit consistent with the subsections (b) or (c) above.

**Section 7. Bid and Construction Requirements:**

(a) In order to insure that the Project is constructed as if it had been constructed under the direction and supervision, or under the authority of, the County, the Developer shall comply with all of the requirements set forth in this Section.

(b) Prior to soliciting bids, the Developer shall submit a bid packet for review and approval to the County Engineer. The contract for the construction of the Project shall be awarded to the responsible bidder submitting the lowest responsive bid for the Project after notice inviting sealed bids is given as required for public works projects pursuant to any applicable provisions of the California Public Contract Code and the rules, regulations and policies of the County. Upon opening of bids and prior to awarding the construction contract, the Developer shall submit the lowest responsible bidder's bid to the County Engineer for review and approval, which approval shall not be unreasonably withheld or delayed.

(c) The Developer shall require, and the specifications, bid and contract documents shall require all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such individuals or entities are engaged to perform work on the Project, to pay at least general prevailing wage rates to all workers employed in the execution of the contract, to post a copy of the general prevailing wage rates at the job-site in a conspicuous place available to all employees and applicants for employment, and to otherwise comply with applicable provisions of the California Labor Code, the California Government Code and the California Public Contract Code relating to general prevailing wage rates as required by the specifications approved by the County Engineer. The County has provided the Developer with copies of tables setting forth the general prevailing wage rates, and the Developer hereby acknowledges receipt thereof.

(d) The Developer shall require each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such individual or entity is engaged to perform work on the Project, to provide proof of insurance coverage satisfying the requirements of Section 12(g) hereof throughout the term of the construction of the Project. Rather than requiring

its contractors to provide such insurance, the Developer may elect to provide the same for the benefit of its contractors.

(e) Each contractor engaged to perform work on the Project shall be required to furnish (i) labor and material payment bonds, and (ii) contract performance bonds, each in an amount equal to one hundred percent (100%) of the contract price naming the Developer and the County as obligees and issued by a California admitted surety subject to the provisions of Section 995.660 of the California Code of Civil Procedure. All such bonds shall be in a form as shown in Exhibit F. Rather than requiring its contractors to provide such bonds, the Developer may elect to provide the same for the benefit of its contractors.

(f) The Developer shall comply, and shall cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such individual or entity is engaged to perform work on the Project, to comply, with such other requirements relating to the construction of the Project as the County may impose by written notification delivered to the Developer, to the extent legally required as a result of changes in applicable Federal, State or County laws, rules or procedures.

(g) The Developer shall require, and the specifications and bid and contract documents shall require, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such individuals or entities are engaged to perform work on the Project, to submit certified weekly payroll records to the Developer for inspection by the County Engineer, and to furnish certified payroll records to the County Engineer promptly upon request.

The Developer shall provide proof to the County Engineer, at such intervals and in such form as the County Engineer may require, that the foregoing requirements have been satisfied as to the Project.

**Section 8. Licenses and Permits:** To the extent authorized by law, County will grant the Developer any license and/or permit required from it to allow for the construction of the Project as approved by County. The form and content of said license and/or permit shall be in form mutually acceptable to both the County and the Developer.

**Section 9. Modifications to the Estimated Cost Stated in Exhibit D:** The lowest responsible bid for the Project shall not exceed the amounts shown in Exhibit D without a formal amendment to this Agreement. If during the course of construction of the Project, the Developer is presented with a change order or set of change orders that would increase the construction cost, the Developer must receive the approval of the County Engineer before approving the change order(s). In no instance shall the total construction costs, including any change orders, exceed the estimated costs shown in Exhibit D without a formal amendment to this Agreement. Upon approving the change order, the County Engineer will cause a formal amendment to this Agreement to be prepared, if necessary. Failure to comply with this provision will result in the County not reimbursing or crediting the Developer for any change orders.

**Section 10. Inspection; Completion of Construction:** The County Engineer shall have

responsibility for providing inspection of the work of construction of the Project to insure that the work of construction is accomplished in accordance with the Plans and the specifications approved by the County Engineer. County personnel shall have access to the site of the work of construction at all reasonable times for the purpose of accomplishing such inspection.

No later than (10) ten business days after receiving notification from the County that the Project has been constructed in accordance with the Plans, the Developer shall forthwith file with the Riverside County Recorder a Notice of Completion pursuant to the provisions of Sections 9550 of the California Civil Code. The Developer shall furnish to the County a duplicate copy of each such Notice of Completion showing thereon the date of filing with said County Recorder.

**Section 11. Maintenance of Facilities; Warranties:** The Developer shall maintain the Project in good and safe condition until their acceptance by the County. Prior to the acceptance of the Project, the Developer shall be responsible for maintaining the Project in proper operating condition, and shall perform such maintenance as the County Engineer reasonably determines to be necessary. As of the date of acceptance, the performance bond provided by the Developer for the Project pursuant to Section 7(e) hereof shall be reduced to an amount equal to 10% of the original amount thereof and shall serve as a warranty bond to guarantee that the Project will be free from defects due to faulty workmanship or materials for a period of 12 months from the date of acceptance, or the Developer may elect to provide a new warranty bond or cash in such an amount. As of the date of acceptance of the Project, the Developer shall assign to the County all of the Developer's rights in any warranties, guarantees, maintenance obligations or other evidence of contingent obligations of third persons with respect to the Project.
