**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

The stale dated unclaimed property is a result of warrants that have been issued and have not been negotiated within six (6) months of issuance per Riverside County Auditor-Controller's Office's (ACO) policy and as stated on the warrant. The statute of limitation varies depending on the type of warrant. Uncashed property tax-related warrants have a statute of limitation of three (3) years from the original issuance date, while all other warrants have a statute of limitation of four (4) years from the original issuance date. All stale-dated (uncashed) funds are journaled to the stale-dated fund every month. A listing of stale-dated warrants is updated monthly and retained on the Riverside County Auditor-Controller's Office (ACO) website until the warrants have reached the statute of limitation. California law requires that the Auditor Controller's Office publish a listing of unclaimed money (amounts over \$15), that have resided in the State Dated Fund before they become the property of the County.

As outlined in Sections 50050 through 50055, of the California Government Code, the undersigned hereby states that the required publication was made on the Auditor Controller's Office website and that an appropriate opportunity was given for parties of interest to file claims prior to the filing deadline.

**Impact on Residents and Businesses**

The funds designated for publication have been available for reimbursement for over four years, with all efforts made to contact and return these funds without any response. Furthermore, funds related to victim restitution and employee benefits are excluded and remain in the State Dated Fund.
