**BACKGROUND:**

**Summary**

Riverside University Health System-Behavioral Health (RUHS-BH) operates a continuum of care system that consists of County-operated and contracted service providers delivering a variety of substance abuse prevention and treatment services within each geographic region of Riverside County.

Proposition 64 Public Health and Safety Grant Projects (Cohort 3) announced services and grant activities. RUHS-BH applied for funding and subsequently, received notification of award in the amount of \$3,000,000. The term for this project is May 1, 2023, through April 30, 2028. The Proposition 64 Public Health and Safety Grant Program enables funding for projects that assist with law enforcement efforts, fire protection efforts, or other local projects addressing public health and safety associated with the implementation of the Control, Regulate, and Tax Adult Use of Marijuana Act (AUMA).

The RUHS-BH Substance Use Prevention and Treatment (SAPT) program plans to set up Transitional Age Youth (TAY) Peer Outreach teams at five high school campuses in southwest Riverside County. These teams will offer preventative services for substance use disorders and mental health issues. The program will pair four TAY Peer Support Specialists with two Health Educators to facilitate FNL activities and expand FNL chapters. The outreach teams will collaborate with youth leaders to create on-campus events focused on preventing substance abuse and raising mental health awareness. These events will leverage the experiences of youth with lived experience to create engaging, youth-oriented approaches. Activities will be guided by youth voices, who will share their struggles with substance abuse, empowering them to actively participate in their campus community and support the growth of youth-led FNL chapters.

To address the needs of the entire TAY population, individuals aged 18 to 25 will receive outreach and prevention services at the Mid-County TAY Drop-In Center, which serves youth aged 16 to 25. The TAY Peer Outreach Teams will collaborate with this group to create and implement events focused on cannabis abuse education and prevention, ensuring approaches are appropriate for TAY engagement. This ensures that older youth not in high school are included.

The TAY Peer Outreach teams, led by TAY Peer Support Specialists and Health Educators, will also partner with RUHS-BH mobile crisis teams that visit high school campuses for crisis intervention. A similar approach will be employed at the TAY Drop-In Center to support youth aged 16 to 25 who are not on a high school campus. In partnership with mobile crisis staff, the teams will identify youth in need and provide case management, referral and linkage, and follow-up services to ensure access to substance abuse, behavioral health, and primary health services. TAY Peer Support Specialists will receive professional development to enhance their skills and become state-certified Peer Support Specialists.

On October 29, 2024 (#3.20), the Board of Supervisors approved Grant Award #BSCC 962-22 and Resolution No. 2024-186 to accept funds from BSCC in the amount of \$3,000,000 and authorize the Director of Behavioral Health to sign future related documents and amendments. However, the granting agency has requested specific language revisions. Therefore, RUHS-BH requests that the Board of Supervisors approve Resolution No. 2024-240, to rescind and replace the previously approved Resolution No. 2024-186.

**Impact on Residents and Businesses**

These services are a component of Behavioral Health's system of care aimed at improving the health and safety of consumers and the community.
