

**SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

ITEM: 3.32

(ID # 26541)

**MEETING DATE:**

Tuesday, December 10, 2024

**FROM :** TLMA-TRANSPORTATION

**SUBJECT:** TRANSPORTATION AND LAND MANAGEMENT AGENCY/TRANSPORTATION:  
Approval of the FY 2024/2025 Annual Edition, Transportation Improvement Program with Additional Related Actions. All Districts. [\$0]

**RECOMMENDED MOTION:** That the Board of Supervisors:

1. Approve and adopt the FY 2024/2025 Annual Edition, Transportation Improvement Program (TIP);
2. Authorize the use of Western Riverside County Development Impact Fee (DIF) Traffic Signal funds (Fund No. 30503) in the amount of \$3,787,500 and Eastern Riverside County DIF Traffic Signal funds (Fund No. 30502) in the amount of \$1,957,000 for construction of traffic signals as listed on Attachment "A";
3. Direct the Executive Office to transfer DIF funds to the Transportation Fund No. 31692 (Western DIF Signal funds) and Fund No. 31691 (Eastern DIF Signal Funds) pursuant to submitted billings for traffic signal projects; and
4. Authorize the Director of Transportation to take all necessary administrative actions to implement the TIP.

**ACTION:Policy**

  
Dennis Acuna, Director of Transportation 11/27/2024

---

**MINUTES OF THE BOARD OF SUPERVISORS**

On motion of Supervisor Spiegel seconded by Supervisor Jeffries and duly carried by unanimous vote, IT WAS ORDERED that the above matter is approved as recommended.

Ayes: Jeffries, Spiegel, Washington, Perez and Gutierrez  
Nays: None  
Absent: None  
Date: December 10, 2024  
xc: TLMA-Transp.

Kimberly A. Rector  
Clerk of the Board  
By:   
Deputy

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

**Summary**

The Transportation Improvement Program (TIP) is the County of Riverside's (County's) funding plan for Transportation Capital projects. The Transportation Department (Department) has approximately \$585 million in active projects either under construction or soon to be, including several large bridges and interchanges.

The passing of Senate Bill 1 (SB-1) by the state legislature in April 2017 included the creation of the Road Maintenance and Rehabilitation Program and the Road Maintenance and Rehabilitation Account (RMRA) which has provided a much-needed long term, reliable and stable cash funding source aimed primarily at maintaining our existing paved roads. The County received \$45 million in FY 23/24 and is projected to receive \$48 million in FY 24/25. The SB-1/RMRA funds are restricted to pavement rehabilitation and maintenance.

Securing funds for projects to increase traffic capacity continues to be difficult. The very limited availability of Federal funds for road capacity expansion continues to stretch our ability to timely deliver needed projects. We will continue to work closely with our partners at the Riverside County Transportation Commission (RCTC), Coachella Valley Association of Governments (CVAG), Western Riverside Council of Governments (WRCOG), the State of California Department of Transportation (Caltrans) and our cities to assess priorities and shift limited funding to optimize project delivery. The County serves as the lead agency on several projects within cities, on a contract basis. Thirty-six percent of the dollars in this TIP are associated with projects in other jurisdictions that are being funded by those jurisdictions and/or through regional, State, or Federal programs.

The Transportation Department presently sees two significant issues impacting delivery of larger projects. The State's federally funded bridge program is substantially underfunded and is not able to meet the cash flow needs of bridge projects currently in progress. The largest impacts are to bridge projects within cities for which the County is in the role as lead agency. Projects of particular concern are the Mission Boulevard Bridge and the Market Street Bridge.

Also, the Infrastructure Investment and Jobs Act (IIJA) signed into law by the President on November 15, 2021, provides limited funding stability given that federally funded projects take

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

years to deliver. It has also created significant changes to established funding programs and has added new administrative guidelines and policies for implementation. The \$350 billion investment in highway programs the bill will provide through September 2026 comes with the creation of more than a dozen new highway programs with new regulations to navigate. The competition for these funds has been intense. The Department will continue to work closely with its regional partners at RCTC, CVAG, WRCOG, and our cities to assess priorities and shift funding.

**Transportation Improvement Program Summary**

This program includes projects funded by General Highway funds, Special Districts, State and Federal funds, special programs, and other agencies. The TIP is a multi-fund source planning document, with periodic amendments as needed throughout the year, which the Department uses to more efficiently manage its numerous projects and financial resources.

The total TIP amount is estimated at \$982 million. This amount does not include the needs for an additional \$702 million required for all unincorporated area listed projects to be fully funded.

In order to be eligible for the upcoming fiscal year's SB-1/RMRA allocation, legislation requires counties to submit a Board of Supervisors approved list of projects planned to be funded with the SB-1/RMRA funds to the California Transportation Commission (CTC), by July 1<sup>st</sup> annually. The list of projects to be funded with FY 24/25 SB-1 funds were approved by resolution 2024-064 under agenda item 3.23 on May 7, 2024. The approved list was submitted to the CTC on June 11, 2024 and the projects have been incorporated into the TIP document.

The County is required to submit a five-year Measure "A" Local Streets and Roads Program to RCTC each May in conformance with the Measure "A" Expenditure Plan. This edition of the TIP is consistent with the previously submitted FY 24/25 Measure "A" Program. The County allocation shares of Measure "A" funds for FY 24/25 are forecasted at \$12 million.

On March 11, 2021, President Biden signed the American Rescue Plan Act (ARPA) of 2021 (H.R. 1319) into law. The \$1.9 trillion package is intended to combat the COVID-19 pandemic, including the public health and economic impacts. Riverside County's share of the American Rescue Plan funding is \$479,874,599. The funds must be obligated by December 31, 2024 and expended by December 31, 2026. The department has been allocated nearly \$38 million in ARPA funding to finance several TIP projects including the Temescal Canyon Road widening, Jurupa Road Grade Separation, Clark Street sidewalk, and Carver Tract sidewalks.

**Impact of State Budget on County Transportation Budget**

The receipts of traditional State Gas Tax funds dedicated to operations and maintenance has been on an upward trend, increasing gradually to roughly \$38 million annually over the last 5 years as result of the SB-1 legislation. This has helped to offset inflation and traffic growth.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

Two large projects funded in part by State funds dedicated by the SB-132 legislation of 2017 are proceeding. Those projects are the Hamner Avenue Bridge over the Santa Ana River (under construction) and the Jurupa Road Grade Separation (under construction). Riverside County is serving as the implementing agency for these projects located in the cities of Norco and Jurupa Valley. The SB-132 funds total \$115 million and the total budget for these projects is \$251 million. No County funds are being used for these projects that are being delivered for cities on a contract basis.

**Utility Underground Projects**

The County's Underground Utility Conversion Program (Rule 20A), which was funded from California Public Utility Commission (CPUC) funds, were allocated to cities and counties in accordance with a formula developed by the CPUC. Rule 20A funds were collected by the Edison Company from its rate payers and kept in trust by the Edison Company, with oversight and auditing provided by the CPUC. Allocations to the County have been reduced significantly over the past few years and as of 2023 the CPUC decided to discontinue the program. The County is no longer receiving allocations and is currently exploring how to best draw down our current balance and discontinue the program.

**Traffic Signal DIF Funds**

The list of traffic signal projects on Attachment "A" includes both new and active projects proposed to be funded with DIF funds, specifically the Western Riverside County Traffic Signal funds and Eastern Riverside County Traffic Signal funds. Funds will be transferred from the Executive Office to the Department as costs are incurred. In addition to these projects, the Department and developers are working on other traffic signal projects in each supervisorial district.

**Pavement Condition**

Funding for pavement rehabilitation in FY 24/25 and 25/26 is greater than prior years due to steadily increasing gas tax revenue along with County Supervisors providing the Department a significant amount of ARPA funds over the last two fiscal years. These increases have improved the pavement condition overall throughout the County. The steady increase in gas tax revenue is providing funds for more costly pavement resurfacing and pavement reconstruction projects which would otherwise have been shelved.

**Impact on Residents and Businesses**

The Transportation Department is responsible for planning, designing, funding, building, operating and maintaining nearly 2,300 centerline miles of County-maintained roadways and 116 bridges within the unincorporated areas. The projects, as identified in the TIP, will improve safety, maintain existing roads and bridges, and enhance roadway capacity needed to accommodate growth.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

**SUPPLEMENTAL:**

**Additional Fiscal Information**

Budget authority is given by the Board of Supervisors. Funding varies by project.

## INTRODUCTION

The Riverside County Transportation Department is responsible for planning, designing, funding, building, operating and maintaining roads, bridges, and transportation facilities within the unincorporated territory. The County covers an area of approximately 7,300 square miles, which is larger than 3 states and about the size of New Jersey. The County-Maintained Road System is nearly 2,300 miles. The Transportation Department is also responsible for the maintenance of 116 bridges in the unincorporated area and 565 traffic signals (184 within the unincorporated area and 381 within contracted cities). There are 9 Transportation maintenance yards located throughout the County. This puts into context the diverse challenges the Transportation Department faces in providing service to nearly 2.5 million residents (and growing) in Riverside County. We focus on the priorities of improving safety, maintaining existing roads and bridges, and enhancing roadway capacity to keep up with our population growth.

The Transportation Department receives revenue from a variety of funds. At present, the Department has approximately 90 active fund sources. The capital expenditure of these funds is defined and programmed in this document named the “Transportation Improvement Program” or “TIP,” which provides a multi-year projection of revenues and expenditures for the Department. It is updated and approved by the County Board of Supervisors annually, with periodic amendments throughout the year. The Department uses the TIP to help manage its numerous projects and financial resources.

The multi-year budget outlined by the TIP includes \$982 million in total improvements, with \$377 million scheduled for fiscal year 2024/2025 and \$279 million for fiscal year 2025/2026. This represents the capital budget for the Transportation Department. The operating budget numbers are not included in this document. This program includes projects funded by General Highway Funds, Special Districts, State and Federal Funds, special programs and other agencies. No County General Funds are included.

The Department has approximately \$585 million in projects either under or close to construction, including several large bridge and interchange projects as well as State Highway projects within cities where the County is the lead agency. The Department has taken advantage of Federal and State Funds to boost project deliveries.

The State’s SB-1 transportation funding program is expected to provide \$98 million over two fiscal years, 24/25 and 25/26, that will be used for road maintenance and rehabilitation. Projects proposed for delivery with SB-1 funds are contained within this document. Additionally, the SB-1 legislation continues the Gas Tax/HUTA revenues which are forecast to provide \$13 million over two fiscal years, 24/25 and 25/26.

The current Federal Transportation Bill brings limited stability given that federally funded projects take years to deliver and significant changes to established funding programs have new administrative guidelines and policies for implementation. The Infrastructure Investment and Jobs Act of 2021 (IIJA) signed into law by the President on November 15, 2021 invests \$350 billion in highway programs through September 2026 and includes the largest dedicated bridge investment since the construction of the Interstate Highway System. Several new funding programs such as the Safe Streets and Roads for All and the Bridge Investment Program were created with the passage of this bill. The Department will continue to compete for all funding available, and work closely with our regional partners at RCTC, CVAG, WRCOG, and our cities to assess priorities and shift funding.

The accompanying graphs, charts and tables provide a detailed look at the proposed projects, programmed funds, revenue allocations, and various components that make up the Transportation Improvement Program. An electronic copy of this year’s TIP document, as well as previous years’ TIP documents, can be found on the Transportation Department website at:

## **FUNDING ALLOCATION "GROUND RULES"**

GUIDELINES FOR ALLOCATING GENERAL HIGHWAY FUNDS  
FOR SUPERVISORIAL DISTRICTS

### **GAS TAX & SB-1**

- County Wide:
  - 2/3 Maintained Lane Miles
  - 1/3 Road Condition

### **LOCAL TRANSPORTATION FUNDS**

- Return to Sub-Region of the County

### **MEASURE A**

- Return to Sub-Region of the County (Western, Coachella Valley and Palo Verde)
- In Western & Coachella Valley Regions:
  - 2/3 Maintained Lane Miles
  - 1/3 Road Condition

### **FEDERAL STP "FORMULA" FUNDS**

- Rural Area:
  - 1/3 Federal-Aid System Miles
  - 1/3 Area
  - 1/3 Population
- Urbanized Area and Urban Place Area:
  - Population

#### **General Notes:**

- Reconcile and recalculate each year to account for actual vs. estimated costs.
- Allow staff to interchange general highway fund sources on any given year to provide maximum flexibility on project delivery to overall targets for each supervisorial district over time.
- Discretionary Federal funds (STP Discretionary, CMAQ, HBRR and HSIP) are received on a competitive basis and are not subject to these "Ground Rules."

## COUNTY MAINTAINED ROAD CENTERLINE MILES

## REVENUE HISTORY of GENERAL HIGHWAY FUNDS for the Unincorporated Area

See table below for details.

|               | FISCAL YEAR     |                 |                 |                 |                 |                 |                 |                 |

*Underground Utility Program*

## **UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)**

An underground utility conversion program established by the California Public Utilities Commission (CPUC) for the conversion of existing overhead distribution lines to an underground location. Funds for the conversion of electrical facilities are kept in trust by the owning utility and apportioned to local agencies by an established formula. Other overhead utilities are required by similar CPUC Rules to fund their own conversions, when ordered by the Board of Supervisors by establishment of an Underground Utility District.

By minute order dated April 27, 1999 (agenda item 3.35), the Board of Supervisors adopted a project selection method whereby technically sound and cost effective candidate districts are identified by the Transportation Department and the Southern California Edison Company for each Supervisorial District. Projects for funding are to be identified after consultation with Supervisors, and relative equity is to be maintained over time based on the proportion of road mileage in the Edison Company service area in each Supervisorial District.

| <b>Rule 20A<br/>District</b> | <b>Location</b>   | <b>Supr.<br/>Dist.</b> | <b>Status</b>   |
|------------------------------|---|------------------------|---|
| 45                           | Stetson Avenue<br>Dartmouth St to Hemet CL<br>(W of San Jacinto Street) | 3                      | <p>District adopted by the Board 7/31/07 (9.15).</p> <p>Design has not begun due to Edison workload and shortage of County allocations.</p> <p>Project may be phased in order to enable earliest start.</p> |

*Note:*

Funding is currently not available for the completion of Stetson Avenue, due to increased project costs since the adoption of that District. Additionally, other utility undergrounding projects are desired.

Due to limited Rule 20A funding, and escalating utility undergrounding costs, the Transportation Department is exploring the concept of the following course of action, with consideration for anticipated allocations and Supervisorial equity:

Phasing the Stetson Avenue project, so that a first phase can commence design in the near future, and allow for the initiation of either or both of the following proposed projects:

Van Buren Boulevard, between Washington Street and Dauchy Street  
(or a portion thereof)  
Supervisorial District 1

Rancho California Road, east and west of Anza Road  
Supervisorial District 3

**UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)**  
**FY 2024-2025**

**Program Funding Summary**

**Recent Allocations:**

|                 |     |
|-----------------|-----|
| 2024 Allocation | \$0 |
|-----------------|-----|

|   |              |
|---|--------------|
| Funding (Allocation) Balance as of 4/3/2024 | \$11,806,326 |
|---|--------------|

**Remaining Encumbrances:**

|   |              |
|---|--------------|
| Stetson Avenue (Rule 20A District 45, Estimated Cost) | \$15,840,000 |
|---|--------------|

|                               |              |
|-------------------------------|--------------|
| Total Remaining Encumbrances: | \$15,840,000 |
|-------------------------------|--------------|

**Summary:**

|                                   |              |
|-----------------------------------|--------------|
| Estimated Unencumbered Allocation | -\$4,033,674 |
| Balance:(as of 4/3/2024)          |              |

**Projected Allocation Balance vs Estimated Cost:**

|  |     |
|--|-----|
| Estimated future annual Allocations:<br>(Based on SCE reports that allocations are diminished) | \$0 |
|--|-----|

| Year | Estimated Allocation | Balance    |
|------|----------------------|------------|
| 2025 |                      | -4,033,674 |
| 2026 |                      | -4,033,674 |
| 2027 |                      | -4,033,674 |
| 2028 |                      | -4,033,674 |
| 2029 |                      | -4,033,674 |
| 2030 |                      | -4,033,674 |
| 2031 |                      | -4,033,674 |
| 2032 |                      | -4,033,674 |
| 2033 |                      | -4,033,674 |
| 2034 |                      | -4,033,674 |
| 2035 |                      | -4,033,674 |
| 2036 |                      | -4,033,674 |
| 2037 |                      | -4,033,674 |
| 2038 |                      | -4,033,674 |
| 2039 |                      | -4,033,674 |
| 2040 |                      | -4,033,674 |
| 2041 |                      | -4,033,674 |

**Notes:**

Costs and allocation balances are based on information provided by the Southern California Edison Company. Rule 20A funds are managed by the Edison Company in accordance with CPUC requirements and procedures.

**SUPERVISORIAL EQUITY DISTRIBUTION**  
**RIVERSIDE COUNTY UNDERGROUND UTILITY CONVERSION PROGRAM (RULE 20-A)**  
As approved by the Board of Supervisors 4/27/1999 (3.35)

| Supervisorial District | Rule 20-A Project Totals To Date * |        |
|------------------------|------------------------------------|--------|
| Dist. 1                | \$6,368,000                        | 14.3%  |
| Dist. 2                | \$6,244,649                        | 14.0%  |
| Dist. 3                | \$14,986,861                       | 33.6%  |
| Dist. 4                | \$9,616,455                        | 21.6%  |
| Dist. 5                | \$7,407,130                        | 16.6%  |
| Total:                 | \$44,623,095                       | 100.0% |

\* Includes approved projects in development

*Culvert Rehab Program*

## ANNUAL CULVERT REHABILITATION PROGRAM

### Background

The Transportation Department maintains approximately five thousand culverts throughout the County of Riverside. Prior to the inception of this Annual Culvert Rehabilitation, culverts do not normally get replaced except in catastrophic storm events causing failure or replaced in conjunction with an adjacent Capital Improvement Project. This reactive approach causes significant work for the Transportation Department's Maintenance Staff since culverts can become completely rotted, broken, clogged, and buried over time.

As local developments are approved and constructed, new infrastructure is added into the County's maintenance system including the number of culverts the County is responsible to maintain, which continues to put a demand on the Department's Maintenance Staff. Approximately one thousand culverts were added into the maintenance system since fiscal year 2021.

The Department's Maintenance Staff has recently begun inspecting culverts annually and have documented the information into a database summarized in the table below. Culverts in need of repair are rated into three categories:

1. Minor facility component repair
2. Functional, but needs repair
3. Non-functional, needs repair

| Up to Fiscal Year 22/23*        |                           |                                 |                            |

| Non-functional, needs repair    | 129                       | 5                               | 13                         |

\*Data is still incomplete due to ongoing inspections by Maintenance Staff

### Purpose

Asset management through the Annual Culvert Rehabilitation Program allows the Transportation Department to alleviate the workload of Maintenance Staff on existing culverts while assessing the number of culverts that need and can be repaired each fiscal year. In addition, the Regional Water Quality Control Board (RWQCB) has indicated that a requirement for asset management will be included in new MS4 Permits coming out in 2022.

The County of Riverside contains three main watersheds and is regulated by three state Regional Water Quality Control Boards described below:

1. Santa Ana River Watershed. RWQCB: Middle Santa Ana River Watershed 8
2. Santa Margarita River Watershed. RWQCB: San Diego Region 9
3. Whitewater River Watershed. RWQCB: Colorado Region 7

## Program Details

The Annual Culvert Rehabilitation Program will aim to distribute culvert repairs across the three watersheds and five supervisorial districts equally. The infrastructure, geography, and environmental factors of each watershed and supervisorial district influences the number of existing culverts and will affect the number and locations of culverts repaired each year.

Culvert repair types will be split into two categories in accordance with the County's Long Term Maintenance Agreement (LTA) with the California Department of Fish and Wildlife:

1. Replace in kind
2. Upsize, modify, addition of features (requires environmental permitting)

The Program will prioritize on repairing culverts rated as "Non-functional, major repair needed" and culverts that can be replaced in kind. Culvert repairs requiring upsizing or modifications will be more expensive and take greater efforts because of the required environmental permitting process as defined by the LTA.

Groupings of culverts selected to be repaired will additionally be based off efficiency of proximity, cost effectiveness, and ease in administrative burdens relating to environmental permitting. This will result in focusing on one watershed every year or two years with the goal of having culverts repaired each fiscal year.
