Kimberly A. Rector  
Clerk of the Board

By:   
Deputy

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

**RECOMMENDED MOTION:** That the Board of Supervisors:

2. Approve the attached Request for Release of Funds and Certification (RROF) for 8 Housing Choice Voucher Program (HCVP) Project Based Vouchers (PBVs) for the Proposed Project;
3. Authorize the Chair of the Board of Supervisors to execute the attached EA on behalf of the County;
4. Authorize the Chair of the Board of Supervisors to execute the attached RROF on behalf of the County to be filed with the United States Department of Housing and Urban Development (HUD); and
5. Authorize the Director of Housing and Workforce Solutions (HWS), or designee, to take all necessary steps to implement the RROF, EA, and FONSI including, but not limited to, signing subsequent necessary and relevant documents, subject to approval as to form by County Counsel.

**C.E.O. RECOMMENDATION:** Approve

**BACKGROUND:**

Chelsea Investment Corporation, a California corporation and affordable housing developer (Developer), was selected to receive a total of 8 Housing Choice Voucher Program (HCVP or Section 8) Project Based Vouchers (PBVs) in response to a competitive Request for Proposal (RFP) issued by the Housing Authority of the County of Riverside on June 2, 2023 (RFP No. 2023-110) for Arc Village Apartments (Proposed Project). The Developer has formed a California limited partnership, Arc Village CIC, LP, for the purpose of developing and financing the new construction of the Proposed Project, an affordable multi-family housing development consisting of a total of 40 units (39 affordable rental housing units for low-income households and one resident manager units). The Proposed Project is located on 1.84 acres of land located behind and to the south of the existing Desert Arc offices at 73-295 Country Club Drive, in the City of Palm Desert, identified as Assessor's Parcel Number 622-370-014 (Property). The Property is currently vacant.

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

The Proposed Project will include 40 total units within one building (20 one-bedroom units, 10 two-bedroom units, and 10 three-bedroom units). Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, 8 units for tenants with an income of 40% AMI and 4 units for tenants with an income of 30% AMI. One one-bedroom unit will be reserved for an on-site manager. The 8 PBV units includes 4 one-bedroom units (2 units @ 30% AMI and 2 units @ 40% AMI), 2 two-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI), and 2 three-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI).

The PBVs will serve as a rental subsidy for the clients on the Housing Authority's Section 8 waiting list for the Proposed Project. Upon environmental clearance and Developer securing necessary funding to develop the Proposed Project, the Housing Authority will enter into an Agreement for Housing Assistance Payments (AHAP) with Developer for the PBVs, subject to approval by the Housing Authority's Board of Commissioners. The PBVs have an estimated value of \$3,929,280 in rental subsidies over the 20-year term of the agreement that may be extended for an additional 20 years. Approximate permanent sources for financing include the following:

<b>Permanent Sources</b>	<b>Amount</b>
Banner Bank	\$3,260,000
Solar Tax Credits	\$99,650
Inland Regional Center	\$1,500,000
Palm Desert Housing Authority, Land Donation	\$1,680,000
Palm Desert Housing Authority	\$3,000,000
Deferred Developer Fee	\$313,122
Tax Credit Equity	\$13,794,523
<b>Total</b>	<b>\$23,647,295</b>

NEPA Review

The environmental effects of activities carried out with PBVs must be assessed in accordance with the National Environmental Policy Act (NEPA) and the related authorities listed in the U.S. Department of Housing and Urban Development (HUD) implementing regulations at 24 CFR Parts 50 and 58, for responsible entities which must assume responsibility for environmental review, decision making, and action that normally apply to HUD. The County of Riverside, through its Housing and Workforce Solutions Department (HWS), is the responsible entity for purposes of the subject NEPA review. The County has completed all applicable environmental review procedures and has evaluated the potential effects of the Proposed Project on the environment pursuant to NEPA regulations. On February 4, 2025, HWS completed an Environmental Assessment (County EA) and Finding of No Significant Impact (FONSI) for the Proposed Project (which is attached) and concluded that the Proposed Project activities are not

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

actions that may affect the quality of the environment. Staff of HWS completed the County EA and FONSI pursuant to 24 CFR Section 58.40 (g)(1) and 40 CFR Section 1508.13.

HUD also requires that the responsible entity for the environmental review process complete and execute the attached Request for Release of Funds and Certification (RROF) when requesting to release funds that are subject to the HUD environmental review process.

Public Notice of the FONSI and RROF was published on February 23, 2025, pursuant to 24 Code of Federal Regulations Section 58.43, and is attached hereto.

Staff recommends that the Board approve and execute the attached Environmental Assessment, Environmental Assessment Determinations and Compliance Findings for HUD-Assisted Projects 24 CFR Part 58, and Request for Release of Funds.

**Impact on Residents and Businesses**

The development of 40 additional affordable rental units will have a positive impact on businesses and residents through the creation of jobs and affordable housing.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

No impact on the County's General Fund. The Housing Authority's contribution to the Proposed Project is anticipated to include only the HCVP or Section 8 Project-Based Vouchers which are fully funded from the United States Department of Housing and Urban Development.

# Request for Release of Funds and Certification

U.S. Department of Housing  
and Urban Development  
Office of Community Planning  
and Development

OMB No. 2506-0087  
(exp. 08/31/2023)

This form is to be used by Responsible Entities and Recipients (as defined in 24 CFR 58.2) when requesting the release of funds, and requesting the authority to use such funds, for HUD programs identified by statutes that provide for the assumption of the environmental review responsibility by units of general local government and States. Public reporting burden for this collection of information is estimated to average 36 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.

## Part 1. Program Description and Request for Release of Funds (to be completed by Responsible Entity)

1. Program Title(s) Housing Choice Voucher Program (HCVP) Project Based Vouchers (PBV)	2. HUD/State Identification Number CA027	3. Recipient Identification Number (optional)
4. OMB Catalog Number(s) 14.871	5. Name and address of responsible entity County of Riverside, Board of Supervisors c/o Riverside County Housing and Workforce Solutions 3403 Tenth Street, Suite #300 Riverside, CA 92501	
6. For information about this request, contact (name & phone number) Nicole Sanchez, 760.863.2825	7. Name and address of recipient (if different than responsible entity) Same as Responsible Entity	
8. HUD or State Agency and office unit to receive request United States Department of Housing and Urban Development Community Planning and Development 300 N. Los Angeles Street, Suite 4054		

The recipient(s) of assistance under the program(s) listed above requests the release of funds and removal of environmental grant conditions governing the use of the assistance for the following

9. Program Activity(ies)/Project Name(s) HUD-Project Based Vouchers/ Arc Village	10. Location (Street address, city, county, State) Behind and to the south of the existing Desert Arc offices at 73-295 Country Club Drive, in the City of Palm Desert, CA 92260
---	---

### 11. Program Activity/Project Description

The project activity includes the use of 8 PBVs to serve as a rental subsidy for Arc Village by Arc Village CIC, LP, a California limited partnership. Arc Village will consist of the new construction of a 40-unit multi-family development (which includes 1 manager's unit) of affordable rental housing for low-income family households (Proposed Project). The Proposed Project will include 40 total units within one building (20 one-bedroom units, 10 two-bedroom units, and 10 three-bedroom units). Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, 8 units for tenants with an income of 40% AMI and 4 units for tenants with an income of 30% AMI. One one-bedroom unit will be reserved for an on-site manager. The 8 PBV units includes 4 one-bedroom units (2 units @ 30% AMI and 2 units @ 40% AMI), 2 two-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI), and 2 three-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI). Located on 1.84 acres of land located behind and to the south of the existing Desert Arc offices at 73-295 Country Club Drive, in the City of Palm Desert, identified as Assessor's Parcel Number 622-370-014.

In addition to the Project Based Vouchers other financing sources for the Proposed Project are anticipated to include \$3,260,000 from Banner Bank, \$99,650 in Solar Tax Credits, \$1,500,000 from Inland Regional Center, \$1,680,000 from Palm Desert Housing Authority as Land Donation, \$3,000,000 from \$3,000,000, \$313,122 in Deferred Developer Fee, and \$13,794,523 in Tax Credit Equity, for a total of \$23,647,294.

**Part 2. Environmental Certification** (to be completed by responsible entity)

With reference to the above Program Activity(ies)/Project(s), I, the undersigned officer of the responsible entity, certify that:

1. The responsible entity has fully carried out its responsibilities for environmental review, decision-making and action pertaining to the project(s) named above.
2. The responsible entity has assumed responsibility for and complied with and will continue to comply with, the National Environmental Policy Act of 1969, as amended, and the environmental procedures, permit requirements and statutory obligations of the laws cited in 24 CFR 58.5; and also agrees to comply with the authorities in 24 CFR 58.6 and applicable State and local laws.
3. The responsible entity has assumed responsibility for and complied with and will continue to comply with Section 106 of the National Historic Preservation Act, and its implementing regulations 36 CFR 800, including consultation with the State Historic Preservation Officer, Indian tribes and Native Hawaiian organizations, and the public.
4. After considering the type and degree of environmental effects identified by the environmental review completed for the proposed project described in Part 1 of this request, I have found that the proposal did ☐ did not ☒ require the preparation and dissemination of an environmental impact statement.
5. The responsible entity has disseminated and/or published in the manner prescribed by 24 CFR 58.43 and 58.55 a notice to the public in accordance with 24 CFR 58.70 and as evidenced by the attached copy (copies) or evidence of posting and mailing procedure.
6. The dates for all statutory and regulatory time periods for review, comment or other action are in compliance with procedures and requirements of 24 CFR Part 58.
7. In accordance with 24 CFR 58.71(b), the responsible entity will advise the recipient (if different from the responsible entity) of any special environmental conditions that must be adhered to in carrying out the project.

As the duly designated certifying official of the responsible entity, I also certify that:

8. I am authorized to and do consent to assume the status of Federal official under the National Environmental Policy Act of 1969 and each provision of law designated in the 24 CFR 58.5 list of NEPA-related authorities insofar as the provisions of these laws apply to the HUD responsibilities for environmental review, decision-making and action that have been assumed by the responsible entity.
9. I am authorized to and do accept, on behalf of the recipient personally, the jurisdiction of the Federal courts for the enforcement of all these responsibilities, in my capacity as certifying officer of the responsible entity.

24 CFR Part 58**

**Project Information**

**Project Name:** ARC-Village

**HEROS Number:** 900000010449618

**Start Date:** 01/24/2025

**Project Location:** 73295 Country Club Dr, Palm Desert, CA 92260

**Additional Location Information:**

73295 Country Club Drive, Palm Desert, CA. The site is 1.84 acres in size and located behind and to the south of the existing Desert Arc offices (APN 622-370-014).

**Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:**

ARC Village is a 40-unit project that will be constructed in one building on a 1.84-acre parcel in the City of Palm Desert, CA. The development will consist of a mix of one-bedroom, two-bedroom and three-bedroom units. Of the 40 units, 20 will be one bedroom/one bathroom, 10 will be two-bedroom and one bath and 10 will be three-bedroom and two-bathroom units. Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, eight units for tenants with an income of 40% AMI and four units for tenants with an income of 30% AMI. Of the total, 8 units would be set aside for non-permanent supportive housing (PSH) project-based vouchers. One two-bedroom unit will be reserved for an on-site manager employed by a third-party operator. The project will provide a total of 49 surface parking spaces. Resident amenities include off-street parking, a shared laundry facility, and a community building for residents' use and where services will be administered by Desert Arc. Desert Arc provides work training, employment opportunities, adult day care, supported living services, behavior management classes, health programs, transportation and other supportive services onsite. The building will be accessed via an existing driveway that extends south from Country Club Drive and the Desert Arc facilities located adjacent to and north of the site. The surface runoff from the apartments and impervious areas will be directed into area drains, then into storm chambers and Post construction surface drainage will be retained on site in a 13,284 cubic foot underground Stormtech retention system. Water/sewer and other utilities (i.e., electrical, communication) would be provided via existing infrastructure located adjacent to the site. New landscaping would be installed per Chapter 24.04 (Water Efficient Landscape Requirements) of the Palm Desert Municipal Code and the City's current policies.

**Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:**

ARC Village is a 40-unit project that will be constructed in one building on a 1.84- acre parcel in the City of Palm Desert, CA. The development will consist of a mix of one-bedroom, two-bedroom and three-bedroom units. Of the 40 units, 20 will be one bedroom/one bathroom, 10 will be two-bedroom and one bath and 10 will be three-bedroom and two-bathroom units. Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, eight units for tenants with an income of 40% AMI and four units for tenants with an income of 30% AMI. Of the total, 8 units would be set aside for non-permanent supportive housing (PSH) project-based vouchers. One two-bedroom unit will be reserved for an on-site manager employed by a third-party operator. The project will provide a total of 49 surface parking spaces. Resident amenities include off-street parking, a shared laundry facility, and a community building for residents' use and where services will be administered by Desert Arc. Desert Arc provides work training, employment opportunities, adult day care, supported living services, behavior management classes, health programs, transportation and other supportive services onsite. The building will be accessed via an existing driveway that extends south from Country Club Drive and the Desert Arc facilities located adjacent to and north of the site. The surface runoff from the apartments and impervious areas will be directed into area drains, then into storm chambers and Post construction surface drainage will be retained on site in a 13,284 cubic foot underground Stormtech retention system. Water/sewer and other utilities (i.e., electrical, communication) would be provided via existing infrastructure located adjacent to the site. New landscaping would be installed per Chapter 24.04 (Water Efficient Landscape Requirements) of the Palm Desert Municipal Code and the City's current policies.

**Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]:**

The purpose of the proposed project is to provide affordable apartment housing for low-income residents meeting income qualifications. Per the City of Palm Desert 2021-2029 Housing Element (approved Resolution 2022-20, March 2023), the Regional Housing Needs Assessment (RHNA) has allocated a total of 2,790 new housing units to the City of Palm Desert. Of the total, 675 units are allocated to

extremely low and very low income (30-50% Area Median Income (AMI)) category and 460 units are allocated to the low-income category (50 to 80% AMI). The project would provide 40 new units or approximately four percent of the allocation for extremely low, very low and low-income tenants.

**Existing Conditions and Trends [24 CFR 58.40(a)]:**

The site is approximately 1.84 acres in size and part of a larger complex owned and operated by Desert Arc and the City of Palm Desert Housing Authority.. The surrounding neighborhood is comprised of a mixture of residential and commercial development. The site is currently vacant. The project site is served by Sunline Transit Agency Route 4 which has stops on Monterey Avenue and Country Club Drive west of the site. The site is bordered by the following uses: North: Existing Desert Arc office and apartments zoned Public (P) South: Existing residential zoned Planned Residential (PR) East: Existing residential zoned Planned Residential (PR) West: Existing single-family residential zoned Mixed-Residential (R-2)

**Compliance with 24 CFR §50.4, §58.5 and §58.6 Laws and Authorities**

<b>Compliance Factors:</b> Statutes, Executive Orders, and Regulations listed at 24 CFR §50.4, §58.5, and §58.6	Are formal compliance steps or mitigation required?	Compliance determination (See Appendix A for source determinations)
<b>STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR §50.4 &amp; § 58.6</b>		
<b>Airport Hazards</b> Clear Zones and Accident Potential Zones; 24 CFR Part 51 Subpart D	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements. The project site is not located within 2,500 feet of the end of a civil airport runway or 8,000 feet from the end of a military airfield runway. The closest airport to the project site is the Bermuda Dunes Airport which is located 6 miles to the southwest at 79-880 Avenue 42 in the unincorporated community of Bermuda Dunes in Riverside County. The project site is located outside the compatibility zone boundaries of the Airport Land Use Compatibility Plan (ALUCP) and the Federal Aviation Administration (FAA) Part 77 Noticing Area as depicted in Maps BD-1 and BD-2 in the Bermuda Dunes Airport ALUCP (Riverside County Airport Land Use Compatibility Plan Policy Document adopted, December 2004). The building would be consistent with Airspace Protection guidelines and within the limits of airspace protection. The proposed project would not pose any threat to airport navigation. No adverse impacts

		related to Runway Clear Zones or Accident Potential Zones would occur.
<b>Coastal Barrier Resources Act</b> Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project is located in a state that does not contain CBRS units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.
<b>Flood Insurance</b> Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001-4128 and 42 USC 5154a]	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Based on the project description the project includes no activities that would require further evaluation under this section. The project does not require flood insurance or is excepted from flood insurance. While flood insurance may not be mandatory in this instance, HUD recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with Flood Insurance requirements.
<b>STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR §50.4 &amp; § 58.5</b>		
<b>Air Quality</b> Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	The project's county or air quality management district is in non-attainment status for the following: Ozone, Particulate Matter, <10 microns. This project does not exceed de minimis emissions levels or the screening level established by the state or air quality management district for the pollutant(s) identified above. The project is in compliance with the Clean Air Act. The project would result in temporary air emissions during construction and would be a source of emissions post-construction. To determine whether emissions would be de minimis, CalEEMod version 2022.1 was used to estimate emissions during construction. Table 1 below shows the pollutant modeled, the SCAQMD threshold and project emissions. As shown, maximum daily emissions would not exceed SCAQMD thresholds; thus, emissions would be de minimis and no air quality impact would occur as defined by 40

		<p>CFR Parts 6, 51, and 93 and Sections 176 (c) and (d) of the Clean Air Act. Table 1 - Daily Construction Emissions Pollutant Daily Emissions (lbs. per day) Standard (lbs. per day) ROG 7.6 75 NOx 11.2 100 CO 16.0 550 PM10 0.9 150 PM2.5 0.5 55 ROG - Reactive Organic Gases NOx - Nitrogen Oxides CO - Carbon Monoxide PM10 - Particulate Matter 10 PM2.5 - Particulate Matter 2.5 Post construction emissions would be associated with operation of vehicles and use of energy to operate the household. Emissions were projected using CalEEMod 2022.1 and are shown in Table 2 below. As shown, maximum daily emissions would not exceed SCAQMD thresholds; thus, emissions would be de minimis and no air quality impact would occur as defined by 40 CFR Parts 6, 51, and 93 and Sections 176 (c) and (d) of the Clean Air Act. Daily Operation Emissions Pollutant Daily Emissions (lbs. per day) Standard (lbs. per day) ROG 2.4 55 NOx 1.2 55 CO 12.0 550 PM10 1.8 150 PM2.5 0.5 55 SOx 0.02 150 SOx - Sulfur Oxides</p>
<b>Coastal Zone Management Act</b> Coastal Zone Management Act, sections 307(c) & (d)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project is not located in or does not affect a Coastal Zone as defined in the state Coastal Management Plan. The project is in compliance with the Coastal Zone Management Act. The project site is not located in a coastal zone, as defined by the California Coastal Act (Public Resources Code, Division 20, Section 3000 Et. Seq.). The nearest coastal zone is located approximately 95 miles to the west. Therefore, no adverse coastal zone impacts are anticipated.
<b>Contamination and Toxic Substances</b> 24 CFR 50.3(i) & 58.5(i)(2)]	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Site contamination was evaluated as follows: ASTM Phase I ESA. On-site or nearby toxic, hazardous, or radioactive substances that could affect the health and safety of project occupants or conflict with the intended use of the property were not found. Radon testing

		indicated radon levels below 4.0 pCi/L. The project is in compliance with contamination and toxic substances requirements.
<b>Endangered Species Act</b> Endangered Species Act of 1973, particularly section 7; 50 CFR Part 402	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project will have No Effect on listed species due to the nature of the activities involved in the project. This project is in compliance with the Endangered Species Act. The project site is a vacant lot and with sparsely distributed ruderal species. The City of Palm Desert is a signatory to the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP) which was last amended in August 2016. The CVMSHCP encompasses approximately 1.2 million acres. Of the total, approximately 69,000 acres are Indian Reservation Lands, which are not included in the Plan, leaving a total of approximately 1.1 million acres addressed by the Plan. Of the total area, approximately 6 percent is developed land located within the urbanized portion of the Coachella Valley. The project site is located within a developed portion of the plan area; and thus, is not located within a designated CVMSHCP conservation area. No federal or state listed threatened, endangered or species of concern or their habitat are located on the site. No local species would be adversely affected by the project.
<b>Explosive and Flammable Hazards</b> Above-Ground Tanks)[24 CFR Part 51 Subpart C	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	There is a current or planned stationary aboveground storage container of concern within 1 mile of the project site. The Separation Distance from the project is acceptable. The project is in compliance with explosive and flammable hazard requirements. The proposed project is a residential project designed to provide affordable housing for low income residents. It would not require the ongoing use, storage or routine transport of hazardous,

		<p>explosive or flammable materials. Aside from common household chemicals, no hazardous materials would be used on-site. The project would not emit or release hazardous waste or emissions. As referenced, Weis Environmental, Inc., prepared a Phase I ESA (April 2024) for the project site. The project site does not contain facilities containing hazardous materials or that are affected by a known release of hazards or hazardous materials. The California Environmental Protection Agency (CalEPA) regulated site portal (<a href="https://siteportal.calepa.ca.gov/nsite/map/help">https://siteportal.calepa.ca.gov/nsite/map/help</a>) was used to identify the presence of any regulated sites within one mile of the site that would present a potential hazard to the project site. A total of 64 records were identified. The majority were underground storage tanks associated with retail fueling stations, retailers selling motor oil and other automotive related products, automotive dealers, school sites, stormwater treatment facilities and hazardous waste generators (i.e., heavy commercial/light industrial facilities). Two above ground tanks for the storage of petroleum were identified at the Monterey Country Club maintenance building which is located approximately one mile southeast of the site. One above ground diesel tank with a capacity of 600 gallons and one gasoline tank with a capacity of 600 gallons are registered at this location. The Acceptable Separation Distance (ASD) was calculated using the HUD ASD tool. The ASD for thermal radiation for each tank is approximately 223 feet. The site is further away from the site than the ASD. No mitigation measures are required.</p>
<b>Farmlands Protection</b> Farmland Protection Policy Act of	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project does not include any activities that could potentially convert

1981, particularly sections 1504(b) and 1541; 7 CFR Part 658		agricultural land to a non-agricultural use. The project is in compliance with the Farmland Protection Policy Act. The project site is currently vacant; however, it is located within an urbanized area within the City of Palm Desert. The site is categorized as Urban and Built-Up Land, as indicated on the State Farmland Mapping and Monitoring Program maps for the County of Riverside. The site does not include prime or unique farmland, or other farmland of statewide or local importance. No impact to farmland resources defined under the Farmland Protection Policy Act per 7 CFR 658 would occur.
<b>Floodplain Management</b> Executive Order 11988, particularly section 2(a); 24 CFR Part 55	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project does not occur in the FFRMS floodplain. The project is in compliance with Executive Orders 11988 and 13690. All federally funded development projects are evaluated per Executive Order 11988 as discussed below. Those occurring in mapped flood zones require evaluation consistent with Part II of EO 11988. The site is designated an Area of Minimal Flood Hazard Zone X in Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) 06065C2270H, prepared March 6, 2018; and thus, is located outside a 100-year flood zone. No analysis per Part II of Executive Order 11988 is required.
<b>Historic Preservation</b> National Historic Preservation Act of 1966, particularly sections 106 and 110; 36 CFR Part 800	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Formal Section 106 consultation was conducted by the County of Riverside Housing and Workforce Solutions (HWS), the HUD Responsible Entity (RE) in accordance with HUD requirements using HUD's Tribal Direct Assessment Tool database. The Agua Caliente Band of Cahuilla Indians responded to the County's consultation notice via a letter dated January 10, 2025, and requested the following be incorporated into the Environmental Review Record: Should

		<p>human remains be discovered during construction of the proposed project, the project contractor would be subject to either the State law regarding the discovery and disturbance of human remains or the Tribal burial protocol. In either circumstance all destructive activity in the immediate vicinity shall halt and the County Coroner shall be contacted pursuant to State Health and Safety Code s.7050.5. If the remains are determined to be of Native American origin, the Native American Heritage Commission (NAHC) shall be contacted. The NAHC will make a determination of the Most Likely Descendent (MLD). The City and Developer will work with the designated MLD to determine the final disposition of the remains. An approved Cultural Resource Monitor(s) from a Consulting Tribe shall be present during any ground disturbing activities (including archaeological testing and surveys). Should buried cultural deposits be encountered, the Monitor may request that destructive construction halt and the Monitor shall notify a Qualified Archaeologist (Secretary of the Interior's Standards and Guidelines) to investigate and, if necessary, prepare a mitigation plan for submission to the State Historic Preservation Officer. A monitoring agreement shall be established between the project applicant and Agua Caliente Band of Cahuilla Indians prior to construction as a condition of project approval. Based on Section 106 consultation there are No Historic Properties Affected because there are no historic properties present. The project is in compliance with Section 106.</p>
<b>Noise Abatement and Control</b> Noise Control Act of 1972, as amended by the Quiet Communities	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	A Noise Assessment was conducted. The noise level was acceptable: 53.0 db. See noise analysis. The project is in compliance with HUD's Noise

<p>Act of 1978; 24 CFR Part 51 Subpart B</p>		<p>regulation. According to HUD site acceptability standards, a maximum of 65 dB is considered an acceptable exterior noise level. Exterior 24-hour average (Ldn) traffic-related noise was estimated along Country Club Drive using the HUD Ldn calculator based on the CVAG traffic counts. The Ldn metric is similar to the CNEL and used for the purpose evaluating noise impacts per HUD criteria. For modeling purposes, the fleet mix assumed 3% medium trucks and 1% heavy trucks. The Ldn at 950 feet (measured from Country Club Drive centerline to the center of the site) is estimated to be 53 dBA. As referenced, the City of Palm Desert daytime standards for residential areas is 55 dBA. When existing conditions exceed 55 dBA during the day (i.e., 6:00 to 10:00 pm), a project-related increase of 3 dBA or more is considered to be a significant impact. The project is conservatively estimated to generate 288 vehicle trips per day based on trip generation rates for low rise multifamily housing. (7.2 trips per unit) as defined in the Institute for Traffic Engineers 11th Edition (2021). For a noticeable (i.e, 3 dBA) noise increase to occur, the number of Average Daily Trips (ADT) would have to double over current volumes while maintaining current speeds. Using the HUD Ldn calculator, project-related trips (288 average daily trips) were added to existing volumes on Country Club Drive. No increase in the DNL would occur. The project would have no adverse exterior noise impact.</p>
<p><b>Sole Source Aquifers</b> Safe Drinking Water Act of 1974, as amended, particularly section 1424(e); 40 CFR Part 149</p>	<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p>The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements. There are no sole source aquifers in Riverside County as designated by the US Environmental Protection Agency Pacific Southwest</p>

		Region 9. The project would not use groundwater or otherwise impact groundwater recharge. No impacts to sole source aquifers as defined per 40 CFR 149 would occur.
<b>Wetlands Protection</b> Executive Order 11990, particularly sections 2 and 5	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	The project will not impact on- or off-site wetlands. The project is in compliance with Executive Order 11990. The site is in a heavily urbanized area. According to the U.S. Fish and Wildlife Service's Wetlands Online Mapper, no wetlands are located on or immediately adjacent to the project site. No adverse impacts related to wetlands protection are anticipated.
<b>Wild and Scenic Rivers Act</b> Wild and Scenic Rivers Act of 1968, particularly section 7(b) and (c)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act. The project site is located in an urbanized portion of Palm Desert. The Whitewater Channel or segment thereof, is the nearest channel. It is not a designated wild or scenic river. (National Wild and Scenic Rivers, 2011). The project would have no adverse impacts on wild or scenic rivers.
<b>HUD HOUSING ENVIRONMENTAL STANDARDS</b>		
<b>ENVIRONMENTAL JUSTICE</b>		
<b>Environmental Justice</b> Executive Order 12898	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	No adverse environmental impacts were identified in the project's total environmental review. The project is in compliance with Executive Order 12898.

**Environmental Assessment Factors [24 CFR 58.40; Ref. 40 CFR 1508.8 &1508.27]**

**Impact Codes:** An impact code from the following list has been used to make the determination of impact for each factor.

- (1) Minor beneficial impact
- (2) No impact anticipated
- (3) Minor Adverse Impact – May require mitigation
- (4) Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement.

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
<b>LAND DEVELOPMENT</b>			
Conformance with Plans / Compatible Land Use and Zoning / Scale and Urban Design	2	The site is currently vacant and has historically been undeveloped. The base zoning is Public (P). The proposed project is allowed as a conditional use per Section 25.22.030 Table 25.22-1 of the Palm Desert Municipal Code. The project was issued Precise Plan approval and a Conditional Use Permit by the City of Palm Desert per Resolution 2669 approved on May 17, 2016. The City of Palm Desert determined that the proposed project is categorically exempt from environmental review pursuant to the guidelines of the California Environmental Quality Act as an "In-Fill Development" project (CEQA Guidelines, Section 15332). The project will comply with all zoning regulations as referenced above. Thus, assuming all applicable design guidelines are met, the project would be consistent with applicable plans and related policies. No mitigation measures are required to reduce potentially significant or adverse impacts to less than significant.	
Soil Suitability / Slope/ Erosion / Drainage and Storm Water Runoff	2	Soils. As referenced in the Phase I Environmental Site Assessment (Weis Environmental, April 2024), the uppermost geologic deposits are comprised of varying amounts of sands, silts and gravel. Soils are mapped as Myoma fine sand. The Myoma series consists of deep, somewhat excessively drained, highly to very highly permeable soils that formed in wind blown sandy alluvium. Characteristics within the Coachella Valley indicate the project could be subject to adverse impacts associated with seismically-induced settlement, surface manifestation of liquefaction and potential structural distress. Measures would be provided in a Preliminary Geotechnical Assessment to reduce potential impacts to the building and on-site improvements to less than significant. Slope Erosion. The site is flat which limits	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		erosion potential. There are no slopes that would erode as a result of project construction. Stormwater Runoff. The site is 100 percent pervious under existing conditions. Precipitation is presumed to infiltrate into the soils. The project would disturb more than one acre of soil during construction; thus, the applicant would be required to obtain coverage under the General Permit for Discharges of Storm Water Associated with Construction Activity. The Construction General Permit (CGP) requires the development and implementation of a Storm Water Pollution Prevention Plan (SWPPP). The SWPPP will contain Best Management Practices (BMPs) the discharger will use to protect storm water runoff and how the BMPs would be implemented on-site. With project implementation, stormwater from impervious areas would be conveyed into a Stormtech retention chamber that will be designed to percolate stormwater into the underlying soil. The project will be designed to retain 100% of storm flows. Because the site is more than one-acre in size, the City of Palm Desert would require the project to prepare and implement a Water Pollution Control Plan and formal drainage plans prior to issuance of grading and building permits. This would ensure that erosion and sedimentation impacts would be less than significant. No adverse impacts would occur.	
Hazards and Nuisances including Site Safety and Site-Generated Noise	2	Hazards and Nuisances. The proposed project is a residential project designed to provide housing for income qualifying tenants. It would not require the ongoing use, storage or routine transport of hazardous materials. Aside from common household chemicals, no hazardous materials would be used on-site. The project would not emit or release hazardous waste or emissions. As reported in the	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		Phase I, (April 2024), the project site does not contain facilities containing hazardous materials or that are affected by a known release of hazards or hazardous materials. The project site would be constructed consistent with current City of Palm Desert requirements for fencing, lighting and other features related to site safety. No impacts related to hazards, nuisance or site safety would occur. Regarding noise, the proposed project would not be exposed to exterior noise levels that currently exceed acceptable limits within the City of Palm Desert Municipal Code.	
<b>SOCIOECONOMIC</b>			
Employment and Income Patterns	1	During construction, the project would generate temporary employment opportunities. These jobs would not substantially affect overall employment patterns in the City. Operation of the project would be managed by a property management company with support staff from Desert Arc and other service providers. The number of jobs are not expected to substantively increase employment opportunities in the City. Any new jobs would be a minor benefit associated with the proposed project. Based on CalEEMod 2022.1 population estimates, the project would house approximately 129 residents. It is unknown whether new residents would retain existing jobs or seek new employment opportunities proximal to the project site. Regardless, the addition of 40 new housing units would likely accommodate existing residents within Coachella Valley; thus, it is not anticipated to change existing employment patterns or otherwise induce growth to the extent income patterns were adversely affected.	
Demographic Character Changes / Displacement	1	The proposed project site is vacant. The project would develop 40 new units designed to house income qualifying	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		<p>tenants. According to the California Department of Finance, the January 2024 population of Palm Desert was 50,984. Based on CalEEMod 2022.1 population estimates, the project would house approximately 129 residents. This would be 0.002 percent increase. All construction would be confined to the proposed site. It would not impact adjacent street and utility corridors. The project area includes primarily commercial uses and light industrial uses. The project would be allowed on the site per existing zoning. Redevelopment of the site would not adversely affect community character or displace existing residents.</p>	
Environmental Justice EA Factor	1	<p>The project would provide 40 affordable apartment units for low income and/or residents with developmental disabilities. The project would not remove housing or otherwise displace minority or low-income communities to accommodate construction. The project would not violate Executive Order 12898. Neighboring uses are comprised of residential and commercial uses. The site is not of any biological or cultural significance. The project is not known to be located in an area subject to climate change nor would affects from climate change disproportionately impact low income or minority populations. Per the City of Palm Desert 2021-2029 Housing Element (approved Resolution 2022-20, March 2023), the Regional Housing Needs Assessment (RHNA) has allocated a total of 2,790 new housing units to the City of Palm Desert. Of the total, 675 units are allocated to extremely low and very low income (30-50% Area Median Income (AMI)) category and 460 units are allocated to the low-income category (50 to 80% AMI). The project would provide 40 new units or approximately four percent of the allocation for extremely low, very low and low-income</p>	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		tenants. There is no evidence based on project scope and location of the proposed project, that any populations with limited housing choices or that otherwise are considered to have special life challenges would be adversely affected by the project. Further, to date, no public comment known to the applicant, either in favor of or opposing the project because of potential environmental justice concerns, has been received. The project site is proximal to commercial uses that may benefit future project residents. The project site also proximal to Sunline Transit Agency Route 4 which has stops on Monterey Avenue and Country Club Drive. Based on evidence presented herein, the project would be consistent with Executive Order 12898.	
<b>COMMUNITY FACILITIES AND SERVICES</b>			
Educational and Cultural Facilities (Access and Capacity)	2	The school nearest the site is the James Earl Carter Elementary School located at 74251 East Holvey Lane approximately 1 mile southeast of the site. Palm Desert High School is located at 74910 Aztec Road approximately 2 miles southeast of the site. Riverside County provides library and related cultural services to its residents through the Public Library System. The nearest library is the Palm Desert Branch at located at 73300 Fred Waring Road approximately 1.8 miles south of the site. The project is comprised of 40 residential units for income qualifying residents. Using the Desert Sands Unified School District student generation rate of .38 students (i.e., elementary, middle and high school) per multifamily residence, the number of school age children living at the property would be 15. Payment of impact fees by the applicant would contribute fair share funds needed to expand school capacity as needed to address future capacity constraints. With respect to library services, it is possible that residents may visit the library; however, the	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		addition of approximately 129 residents would not exceed the service population to the extent that new library facilities are required. Furthermore, a portion of the impact fees paid by the applicant will be allocated to the expansion of library facilities.	
Commercial Facilities (Access and Proximity)	2	The proposed project would not provide commercial space. However, the need for goods and services required by approximately 129 new residents would be met by vendors and existing businesses within the area. A commercial center with a grocery store, restaurants and retail is located at the southeast corner of Monterey Avenue and Country Club Drive northwest of the site approximately 1,000 feet. These businesses could be patronized by project residents. No adverse impact to commercial facilities would occur as a result of the project.	
Health Care / Social Services (Access and Capacity)	2	It is assumed project residents are currently residing in the Coachella Valley. The project is expected to accommodate approximately 129 new residents. This would not increase the general population to the degree that expanded health care services would be required. The Eisenhower Health complex is located approximately one mile northwest of the site at 39000 Bob Hope Drive in the City of Rancho Mirage. These facilities are accessible by transit and available to serve project residents. No adverse impacts related to health care are anticipated. The project would provide social services on-site through Desert Arc. As noted, it is expected that the residents currently live in the Coachella Valley. While on-site services would be designed to benefit existing residents, it may also relieve demand on existing social services. No impact to existing social services is expected.	
Solid Waste Disposal and Recycling	2	Construction activities would temporarily generate solid waste in the form of	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
(Feasibility and Capacity)		<p>construction debris (e.g., drywall, asphalt, lumber, and concrete) and household waste associated with a residential living facility. No specific requirements for recycling and disposal of construction and demolition debris are specified in Lake Elsinore Municipal Code. However, it is assumed the contractor would be conditioned to comply with all applicable recycling and disposal requirements for construction and demolition waste. The project would be required to provide domestic waste recycling containers to reduce the volume of waste entering area landfills and support statewide recycling mandates required by the California Integrated Waste Management Act of 1989 (Assembly Bill 939) and Assembly Bill 341 (2011). Assembly Bill (AB) 341 amended AB 939 to include a provision stating that at least 75% of solid waste be source-reduced, recycled, or composted by the year 2020 and annually thereafter. The proposed project would generate construction and demolition waste (CDW) as well as ongoing domestic waste. Solid waste collection and disposal services in Palm Desert are provided by Burretc Waste and Recycling Services Inc. Solid waste collected in the Palm Desert is disposed of in the Desert Center Landfill located in Desert Center, California. The project would be provided recycling bins to accommodate recycled material which would reduce the amount of waste disposed of in landfills. CalEEMod 2022.1 estimates that the proposed project would generate approximately seven tons of solid waste material annually assuming 75% is recycled. A total of 38 pounds daily would go to the landfill. Desert Center Landfill is permitted for a 60 ton daily throughput. The addition of 38 pounds daily would increase the total volumes going to landfill by less than one percent. A less than</p>	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		significant impact would occur under this threshold. No adverse impact to landfills associated with project-related waste disposal would occur.	
Waste Water and Sanitary Sewers (Feasibility and Capacity)	2	The proposed project would utilize existing sewer connections managed by the Coachella Valley Water District. Sewer requirements for incoming development projects are administered by the City's Public Utilities Department. Sewer trunk lines are continually monitored in the field to determine remaining capacity. The Engineering Division plans its capital improvement projects several years prior to pipelines actually reaching capacity. The project site is located in an urbanized area that is connected to existing infrastructure. The project would connect to the existing wastewater infrastructure serving the site pursuant to the City's Municipal Code requirements. Prior to the issuance of building permits, waste water impact fees would be paid to the City to cover fair share costs associated with adequate wastewater conveyance, treatment and disposal. No adverse impacts would occur.	
Water Supply (Feasibility and Capacity)	2	The proposed project would utilize existing water connections. Potential water supply impacts for the Coachella Water District service area were evaluated in the 2020 Urban Water Management Plan (July 2021). The Coachella Valley Water District determined there is sufficient water planned to supply the estimated annual average usage in normal, single-dry year, and multiple-dry water year forecasts. The UWMP states that 2030 demand would be 10,874 acre-feet annually for the service area. Projected supplies would equal demand. The proposed project would create 40 new units with an estimated potable water demand of 3,687 gallons per day or 4.1-acre feet annually. This would be within the projected future year supply and	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		demand estimated by the Coachella Valley Water District in the 2020 Urban Water Management Plan. The project is subject to water fees that would be paid by the applicant prior to receipt of a building permit. No new or expanded water connections would be required for the project.	
Public Safety - Police, Fire and Emergency Medical	2	The Riverside County Fire Department provides fire protection, paramedic and emergency medical technician services to the City of Palm Desert and the project site. Station Number 71 is located at 73-995 Country Club Road which is 0.7 miles east of the site. The project area is served by the City of Palm Desert Police Department. The department is headquartered at 73-705 Gerald Ford Drive, approximately 2 miles northeast of the project site. While the project would increase the residential population within the City of Palm Desert, demand for fire and police services are evaluated cumulatively by the City and Riverside County as part of the project review process. The proposed project would increase demand for fire services and police protection services; however, 40 low income and/or developmentally disabled residents would not increase demand to the extent that new facilities would be required. Staffing needs are evaluated based on changing demographics within each service area and adjustments made within each department. No adverse impacts related to police services would occur.	
Parks, Open Space and Recreation (Access and Capacity)	2	The project would not increase demand for recreational facilities such that existing facilities would be adversely affected. The project would construct common indoor and outdoor areas which would provide recreational opportunities for residents. No adverse impacts to parks and recreation facilities associated with the project would occur.	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
Transportation and Accessibility (Access and Capacity)	2	<p>Project construction and material staging would occur on the project site. During construction, some temporary traffic control measures may be required to allow vehicles to safely enter and exit the site. Transit services are provided by the Sunline Transit Agency via Route 4. Stops are located west of the intersection of Monterey Avenue and Country Club Drive approximately 0.3 miles west of the project site. Pedestrian and bicycle access is also provided throughout the area. No striped bicycle lanes are provided along either Country Club Road or Monterey Avenue. Monterey Avenue and Country Club Drive are both classified as vehicle-oriented arterials in the 2016 General Plan Mobility Element (Figure 4.1). A vehicle-oriented arterial is designed to accommodate up to 45,000 vehicles per day under LOS C conditions. According to traffic counts collected by the City of Palm Desert in April 2015, 24-hour volumes on Country Club Drive east of Monterey Avenue are 22,654. Assuming a two percent annual escalation, 2024 volumes are approximately 27,073. Thus, volumes are approximately 1/2 of those that can be accommodated under LOS C operating conditions. Traffic volumes associated with the project would be 288 vehicle trips per day or 29 trips during the peak hour. The addition of 288 daily trips would be increase existing volumes by 0.01 percent. This would not adversely impact traffic operations on Country Club Drive. The proposed project is not expected to adversely affect transportation or accessibility.</p>	
<b>NATURAL FEATURES</b>			
Unique Natural Features /Water Resources	2	The proposed project site is located within an urbanized area within the City of Palm Desert. The project site is flat with sparse ruderal vegetation species. There are no	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		unique natural features or water resources occurring on the project site.	
Vegetation / Wildlife (Introduction, Modification, Removal, Disruption, etc.)	2	The project area is heavily urbanized. The site is vacant and contains areas of ruderal vegetation species. There are no sensitive plants or animal species, habitats, or wildlife migration corridors in the area, or on-site. The only plant species are ruderal (weedy) and ornamental. The only wildlife species observed are common birds. The site is identified as 'developed' in the CVMSCP. No local species would be adversely affected by the project.	
Other Factors 1	2	There are no federally listed sensitive plants or animal species, habitats, or wildlife migration corridors in the area or on-site. No local species would be adversely affected by the project.	
Other Factors 2	2	There are no federally listed sensitive plants or animal species, habitats, or wildlife migration corridors in the area or on-site. No local species would be adversely affected by the project.	
<b>CLIMATE AND ENERGY</b>			
Climate Change	2	Climate Change. The SCAQMD has adopted 3,000 metric tons of CO <sub>2</sub> e per year as the threshold of significance. Air impact modeling was conducted using CalEEMod version 2022.1 which estimates the project will generate approximately 435 metric tons of CO <sub>2</sub> e annually which includes all construction emissions amortized over a 30-year period. This would be less than the 3,000 annual metric ton standard referenced above. Thus, impacts related to GHG emissions would be less than significant. The project site is approximately 44 feet above sea level and within a heavily urbanized area. It is not located proximal to coastal areas that may be subject to sea level rise, wildland areas that may be subject to wildfire or other natural conditions that could be affected by climate change. As stated, the project site	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		is located proximal to bus and light rail transit and will have a limited parking supply which in part, is intended to increase the unit count on the site and disincentivize vehicle ownership. Proximity to transit services will contribute to an overall reduction in GHG emissions associated with commuting to/from work and other destinations. Impacts associated with mobile source air emissions would be less than significant.	
Energy Efficiency	2	Energy. Project construction would utilize common methods for site preparation, grading and installation of all infrastructure. Construction vehicles and equipment would utilize fossil fuels such as gasoline, diesel fuel, and motor oil. However, construction would be short-term and temporary. The project is not anticipated to include any unique features or construction techniques that would generate high energy demand or be wasteful or otherwise result in inefficient use of fuels or other sources of energy. The project would conform with all state and local requirements regarding construction-related energy use, including anti-idling regulations. The project would be required to comply with California Energy Code Title 24 requirements. Further, the project would implement water conservation strategies focused on achieving the goals set forth by Senate Bill X7-7 (2010) which mandates a statewide 20% per capita reduction in water consumption by 2020. The proposed project will have to meet Title 24 energy requirements and comply with California Building Code's (CBC) Zero Net Energy requirements if in effect at time of building permit issuance. The project would comply with applicable elements of state and local plans through the implementation of measures addressing energy efficient design, water conservation and related	

Environmental Assessment Factor	Impact Code	Impact Evaluation	Mitigation
		features that reduce energy demand. While the project would increase demand for public utilities in the region, for reasons stated above, this would not represent a significant impact with respect to energy consumption.

**List of Permits Obtained:**

Site Development Permit

**Public Outreach [24 CFR 58.43]:**

Tribal outreach was performed during preparation of the Cultural Resource Assessment. The project results in a Finding of No Significant Impact (FONSI) which will be published in the newspaper and circulated to public agencies, tribes already contacted, interested parties, and landowners/occupants of parcels located within the proposed project's Area of Potential Effects. The FONSI Notice will include information about where the public may find the Environmental Review Record pertinent to the proposed Project.

**Cumulative Impact Analysis [24 CFR 58.32]:**

The proposed project is the construction of an affordable housing building that would provide 40 affordable units to income qualifying tenants. Based on the scope of the project, no significant or adverse environmental impacts would occur as a result of project construction and operation. No other projects were identified that would cause or contribute to cumulative impacts associated with the proposed project.

**Alternatives [24 CFR 58.40(e); 40 CFR 1508.9]**

Offsite Alternative: Consideration of an offsite alternative is not warranted because no significant impacts that cannot be avoided were identified. Reduced Project: Reducing the size of the proposed project would incrementally reduce impacts across a range of issue areas such as air quality, water supply and wastewater. However, the proposed project's impacts would not be significant in these areas so reducing the project size is not warranted. Density was maximized to ensure highest and best use

of the site. Reducing the building footprint or number of units proposed is not a feasible or economically viable alternative.

**No Action Alternative [24 CFR 58.40(e)]**

No Action Alternative [24 CFR 58.40(e)]: If the proposed project was not implemented, the site would likely remain vacant until another use was proposed by the applicant, the City of Palm Desert Housing Authority (the current owner), or the property was sold/granted a ground lease for development by another developer. It is not known if or when another development would be proposed on the site. Without construction of the proposed project, the benefits associated with the affordable housing project would not occur.

**Summary of Findings and Conclusions:**

Arc Village CIC, LP, is proposing to develop the Arc Village Affordable Housing Project. Arc Village is a 40-unit project that will be constructed in one building on a 1.84-acre parcel in the City of Palm Desert, CA. The development will consist of a mix of one-bedroom, two-bedroom and three-bedroom units with a 1,542 square foot community room, outdoor open space and a tot lot. The project will provide a total of 49 surface parking spaces. Of the 40 units, 20 will be one bedroom/one bathroom, 10 will be two-bedroom and one bath and 10 will be three-bedroom and two-bathroom units. Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 15 will be reserved for tenants with an income at 50% AMI, eight units for tenants with an income of 40% AMI and four units for tenants with an income of 30% AMI. One two-bedroom unit will be reserved for an on-site manager. The building will be accessed via an existing driveway that extends south from Country Club Drive and the Desert Arc facilities located adjacent to and north of the site. Desert Arc provides work training, employment opportunities, adult day care, supported living services, behavior management classes, health programs, transportation and other supportive services onsite. Arc Village will have an on-site property manager employed by a third-party operator. The project site is generally flat and is not subject to unusual geological hazards. Specific grading and foundation requirements will be provided in a project-specific Geotechnical Report. The project site is located within Flood Zone X; and thus, is not within a special flood hazard area. No adverse impacts associated with a 100-year flood event would occur. No significant air quality impacts would occur. No historic or archaeological resources are known to be present onsite. The proposed project exterior noise levels would not exceed HUD or City of Palm Desert standards. The project would not noticeably change exterior noise levels. Interior noise standards would be met. The project would not change the existing noise environment. The project would not adversely affect public services. The proposed project would not result in adverse effects on water or energy or generate the need for new or expanded water, wastewater, or solid waste facilities. The proposed project would increase the intensity of the use on-site. Traffic volumes would not adversely affect operation of Country Club Drive. Thus,

no adverse traffic impacts are anticipated. The project would conform to applicable Federal, State, and regional regulations affecting air emission, water quality, cultural resources, geologic hazards and related environmental resources addressed herein.

**Mitigation Measures and Conditions [CFR 1505.2(c)]:**

Summarized below are all mitigation measures adopted by the Responsible Entity to reduce, avoid or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure or Condition	Comments on Completed Measures	Mitigation Plan	Complete
---------------------------------	---------------------------------	---	--------------------	----------

**Project Mitigation Plan**

**Supporting documentation on completed measures**

**APPENDIX A: Related Federal Laws and Authorities****Airport Hazards**

General policy	Legislation	Regulation
It is HUD's policy to apply standards to prevent incompatible development around civil airports and military airfields.		24 CFR Part 51 Subpart D

1. To ensure compatible land use development, you must determine your site's proximity to civil and military airports. Is your project within 15,000 feet of a military airport or 2,500 feet of a civilian airport?

✓ No

Based on the response, the review is in compliance with this section. Document and upload the map showing that the site is not within the applicable distances to a military or civilian airport below

Yes

**Screen Summary****Compliance Determination**

The project site is not within 15,000 feet of a military airport or 2,500 feet of a civilian airport. The project is in compliance with Airport Hazards requirements. The project site is not located within 2,500 feet of the end of a civil airport runway or 8,000 feet from the end of a military airfield runway. The closest airport to the project site is the Bermuda Dunes Airport which is located 6 miles to the southwest at 79-880 Avenue 42 in the unincorporated community of Bermuda Dunes in Riverside County. The project site is located outside the compatibility zone boundaries of the Airport Land Use Compatibility Plan (ALUCP) and the Federal Aviation Administration (FAA) Part 77 Noticing Area as depicted in Maps BD-1 and BD-2 in the Bermuda Dunes Airport ALUCP (Riverside County Airport Land Use Compatibility Plan Policy Document adopted, December 2004). The building would be consistent with Airspace Protection guidelines and within the limits of airspace protection. The proposed project would not pose any threat to airport navigation. No adverse impacts related to Runway Clear Zones or Accident Potential Zones would occur.

**Supporting documentation**

[Airport Map.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Coastal Barrier Resources**

General requirements	Legislation	Regulation
HUD financial assistance may not be used for most activities in units of the Coastal Barrier Resources System (CBRS). See 16 USC 3504 for limitations on federal expenditures affecting the CBRS.	Coastal Barrier Resources Act (CBRA) of 1982, as amended by the Coastal Barrier Improvement Act of 1990 (16 USC 3501)	

**This project is located in a state that does not contain CBRA units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.**

**Compliance Determination**

This project is located in a state that does not contain CBRS units. Therefore, this project is in compliance with the Coastal Barrier Resources Act.

**Supporting documentation**

[CBRS Map.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Flood Insurance**

General requirements	Legislation	Regulation
Certain types of federal financial assistance may not be used in floodplains unless the community participates in National Flood Insurance Program and flood insurance is both obtained and maintained.	Flood Disaster Protection Act of 1973 as amended (42 USC 4001-4128)	24 CFR 50.4(b)(1) and 24 CFR 58.6(a) and (b); 24 CFR 55.1(b).

**1. Does this project involve financial assistance for construction, rehabilitation, or acquisition of a mobile home, building, or insurable personal property?**

- ✓ No. This project does not require flood insurance or is excepted from flood insurance.

Based on the response, the review is in compliance with this section.

Yes

**4. While flood insurance is not mandatory for this project, HUD strongly recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). Will flood insurance be required as a mitigation measure or condition?**

Yes

- ✓ No

**Screen Summary****Compliance Determination**

Based on the project description the project includes no activities that would require further evaluation under this section. The project does not require flood insurance or is excepted from flood insurance. While flood insurance may not be mandatory in this instance, HUD recommends that all insurable structures maintain flood insurance under the National Flood Insurance Program (NFIP). The project is in compliance with Flood Insurance requirements.

[FEMA FIRM.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

ARC-Village

Palm Desert, CA

900000010449618

✓ No

**Air Quality**

General requirements	Legislation	Regulation
The Clean Air Act is administered by the U.S. Environmental Protection Agency (EPA), which sets national standards on ambient pollutants. In addition, the Clean Air Act is administered by States, which must develop State Implementation Plans (SIPs) to regulate their state air quality. Projects funded by HUD must demonstrate that they conform to the appropriate SIP.	Clean Air Act (42 USC 7401 et seq.) as amended particularly Section 176(c) and (d) (42 USC 7506(c) and (d))	40 CFR Parts 6, 51 and 93

1. Does your project include new construction or conversion of land use facilitating the development of public, commercial, or industrial facilities OR five or more dwelling units?

✓ Yes

No

**Air Quality Attainment Status of Project's County or Air Quality Management District**

2. Is your project's air quality management district or county in non-attainment or maintenance status for any criteria pollutants?

No, project's county or air quality management district is in attainment status for all criteria pollutants.

✓ Yes, project's management district or county is in non-attainment or maintenance status for the following criteria pollutants (check all that apply):

Carbon Monoxide

Lead

Nitrogen dioxide

Sulfur dioxide

- ✓ Ozone
- Particulate Matter, <2.5 microns
- ✓ Particulate Matter, <10 microns

**3. What are the *de minimis* emissions levels (40 CFR 93.153) or screening levels for the non-attainment or maintenance level pollutants indicated above**

Ozone	0.07	ppb (parts per million)
Particulate Matter, <10 microns	150.00	µg/m3 (micrograms per cubic meter of air)

**Provide your source used to determine levels here:**

National Ambient Air Quality Standards

**4. Determine the estimated emissions levels of your project. Will your project exceed any of the *de minimis* or threshold emissions levels of non-attainment and maintenance level pollutants or exceed the screening levels established by the state or air quality management district?**

- ✓ No, the project will not exceed *de minimis* or threshold emissions levels or screening levels.

**Enter the estimate emission levels:**

Ozone	0.07	ppb (parts per million)
Particulate Matter, <10 microns	150.00	µg/m3 (micrograms per cubic meter of air)

Based on the response, the review is in compliance with this section.

Yes, the project exceeds *de minimis* emissions levels or screening levels.

**Screen Summary**

**Compliance Determination**

The project's county or air quality management district is in non-attainment status for the following: Ozone, Particulate Matter, <10 microns. This project does not exceed *de minimis* emissions levels or the screening level established by the state or air quality management district for the pollutant(s) identified above. The project is in

compliance with the Clean Air Act. The project would result in temporary air emissions during construction and would be a source of emissions post-construction. To determine whether emissions would be de minimis, CalEEMod version 2022.1 was used to estimate emissions during construction. Table 1 below shows the pollutant modeled, the SCAQMD threshold and project emissions. As shown, maximum daily emissions would not exceed SCAQMD thresholds; thus, emissions would be de minimis and no air quality impact would occur as defined by 40 CFR Parts 6, 51, and 93 and Sections 176 (c) and (d) of the Clean Air Act. Table 1 - Daily Construction Emissions

Pollutant	Daily Emissions (lbs. per day)	Standard (lbs. per day)
ROG	7.6	75
NOx	11.2	100
CO	16.0	550
PM10	0.9	150
PM2.5	0.5	55

ROG - Reactive Organic Gases  
NOx - Nitrogen Oxides  
CO - Carbon Monoxide  
PM10 - Particulate Matter  
PM2.5 - Particulate Matter 2.5

Post construction emissions would be associated with operation of vehicles and use of energy to operate the household. Emissions were projected using CalEEMod 2022.1 and are shown in Table 2 below. As shown, maximum daily emissions would not exceed SCAQMD thresholds; thus, emissions would be de minimis and no air quality impact would occur as defined by 40 CFR Parts 6, 51, and 93 and Sections 176 (c) and (d) of the Clean Air Act. Table 2 - Daily Operation Emissions

Pollutant	Daily Emissions (lbs. per day)	Standard (lbs. per day)
ROG	2.4	55
NOx	1.2	55
CO	12.0	550
PM10	1.8	150
PM2.5	0.5	55
SOx	0.02	150

SOx - Sulfur Oxides

**Are formal compliance steps or mitigation required?**

Yes

✓ No

## Contamination and Toxic Substances

General Requirements	Legislation	Regulations
It is HUD policy that all properties that are being proposed for use in HUD programs be free of hazardous materials, contamination, toxic chemicals and gases, and radioactive substances, where a hazard could affect the health and safety of the occupants or conflict with the intended utilization of the property.		24 CFR 58.5(i)(2) 24 CFR 50.3(i)
Reference		
<a href="https://www.onecpd.info/environmental-review/site-contamination">https://www.onecpd.info/environmental-review/site-contamination</a>		

**1. How was site contamination evaluated?\* Select all that apply.**

☒ ASTM Phase I ESA

☐ ASTM Phase II ESA

☐ Remediation or clean-up plan

☐ ASTM Vapor Encroachment Screening.

☐ None of the above

\* HUD regulations at 24 CFR § 58.5(i)(2)(ii) require that the environmental review for multifamily housing with five or more dwelling units or non-residential property include the evaluation of previous uses of the site or other evidence of contamination on or near the site.

For acquisition and new construction of multifamily and nonresidential properties HUD strongly advises the review include an ASTM Phase I Environmental Site Assessment (ESA) to meet real estate transaction standards of due diligence and to help ensure compliance with HUD's toxic policy at 24 CFR §58.5(i) and 24 CFR §50.3(i). Also note that some HUD programs require an ASTM Phase I ESA.

**2. Were any on-site or nearby toxic, hazardous, or radioactive substances\* (excluding radon) found that could affect the health and safety of project occupants or conflict with the intended use of the property? (Were any recognized environmental conditions or RECs identified in a Phase I ESA and confirmed in a Phase II ESA?)**

Provide a map or other documentation of absence or presence of contamination\*\* and explain evaluation of site contamination in the Screen Summary at the bottom of this screen.

✓ No

Explain:

Based on a review of the Phase I ESA prepared for the proposed project by Weis Environmental, Inc., (April 2024), there are no Recognized Environmental Conditions on or related to the project site. The project site is not on a list of hazardous material sites nor would the project introduce hazardous materials to the site or otherwise have any adverse impacts related to toxic substances, explosive or flammable operations.

Yes

\* This question covers the presence of radioactive substances excluding radon. Radon is addressed in the Radon Exempt Question.

\*\* Utilize EPA's Enviromapper, NEPAassist, or state/tribal databases to identify nearby dumps, junk yards, landfills, hazardous waste sites, and industrial sites, including EPA National Priorities List Sites (Superfund sites), CERCLA or state-equivalent sites, RCRA Corrective Action sites with release(s) or suspected release(s) requiring clean-up action and/or further investigation. Additional supporting documentation may include other inspections and reports.

**3. Evaluate the building(s) for radon. Do all buildings meet any of the exemptions\* from having to consider radon in the contamination analysis listed in CPD Notice [CPD-23-103](#)?**

Yes

Explain:

✓ No

\* Notes:

- Buildings with no enclosed areas having ground contact.
- Buildings containing crawlspaces, utility tunnels, or parking garages would not be exempt, however buildings built on piers would be exempt, provided that there is open air between the lowest floor of the building and the ground.
- Buildings that are not residential and will not be occupied for more than 4 hours per day.
- Buildings with existing radon mitigation systems - document radon levels are below 4 pCi/L with test results dated within two years of submitting the application for HUD assistance and document the system includes an ongoing maintenance plan that includes periodic testing to ensure the system continues to meet the current EPA recommended levels. If the project does not require an application, document test results dated within two years of the date the environmental review is certified. Refer to program office guidance to ensure compliance with program requirements.

- Buildings tested within five years of the submission of application for HUD assistance: test results document indoor radon levels are below current the EPA's recommended action levels of 4.0 pCi/L. For buildings with test data older than five years, any new environmental review must include a consideration of radon using one of the methods in Section A below.

**4. Is the proposed project new construction or substantial rehabilitation where testing will be conducted but cannot yet occur because building construction has not been completed?**

Yes

Compliance with this section is conditioned on post-construction testing being conducted, followed by mitigation, if needed. Radon test results, along with any needed mitigation plan, must be uploaded to the mitigation section within this screen.

✓ No

**5. Was radon testing or a scientific data review conducted that provided a radon concentration level in pCi/L?**

✓ Yes

No

If no testing was conducted and a review of science-based data offered a lack of science-based data for the project site, then document and upload the steps taken to look for documented test results and science-based data as well as the basis for the conclusion that testing would be infeasible or impracticable.

Explain:

File Upload:

Based on the response, the review is in compliance with this section. Continue to the Screen Summary at the bottom of this screen.

Non-radon contamination was found in a previous question.

**6. How was radon data collected?**

All buildings involved were tested for radon

- ✓ A review of science-based data was conducted

Enter the Radon concentration value, in pCi/L, derived from the review of science-based data:

0

Provide the documentation\* used to derive this value:

The State of California Department of Conservation, Indoor Radon Potential Tool, the site is not located in an area with known radon potential. No further work with respect to hazards or hazardous materials is required.

File Upload:

[Radon Potential Map.pdf](#)  
[ARC Village Project - Phase I ESA.pdf](#)

Based on the response, the review is in compliance with this section. Continue to the Screen Summary at the bottom of this screen.

Radon concentration value is greater than or equal to 4.0 pCi/L and/or non-radon contamination was found in a previous question. Continue to Mitigation.

\* For example, if you conducted radon testing then provide a testing report (such as an ANSI/AARST report or DIY test) if applicable (note: DIY tests are not eligible for use in multifamily buildings), or documentation of the test results. If you conducted a scientific data review, then describe and cite the maps and data used and include copies of all supporting documentation. Ensure that the best available data is utilized, if conducting a scientific data review.

### **Screen Summary**

#### **Compliance Determination**

Site contamination was evaluated as follows: ASTM Phase I ESA. On-site or nearby toxic, hazardous, or radioactive substances that could affect the health and safety of project occupants or conflict with the intended use of the property were not found. Radon testing indicated radon levels below 4.0 pCi/L. The project is in compliance with contamination and toxic substances requirements.

#### **Supporting documentation**

**Are formal compliance steps or mitigation required?**

Yes

✓ No

## Endangered Species

General requirements	ESA Legislation	Regulations
Section 7 of the Endangered Species Act (ESA) mandates that federal agencies ensure that actions that they authorize, fund, or carry out shall not jeopardize the continued existence of federally listed plants and animals or result in the adverse modification or destruction of designated critical habitat. Where their actions may affect resources protected by the ESA, agencies must consult with the Fish and Wildlife Service and/or the National Marine Fisheries Service ("FWS" and "NMFS" or "the Services").	The Endangered Species Act of 1973 (16 U.S.C. 1531 <i>et seq.</i> ); particularly section 7 (16 USC 1536).	50 CFR Part 402

### 1. Does the project involve any activities that have the potential to affect species or habitats?

- ✓ No, the project will have No Effect due to the nature of the activities involved in the project.

This selection is only appropriate if none of the activities involved in the project have potential to affect species or habitats. Examples of actions without potential to affect listed species may include: purchasing existing buildings, completing interior renovations to existing buildings, and replacing exterior paint or siding on existing buildings.

Based on the response, the review is in compliance with this section.

No, the project will have No Effect based on a letter of understanding, memorandum of agreement, programmatic agreement, or checklist provided by local HUD office

Yes, the activities involved in the project have the potential to affect species and/or habitats.

### Screen Summary

#### Compliance Determination

This project will have No Effect on listed species due to the nature of the activities involved in the project. This project is in compliance with the Endangered Species Act. The project site is a vacant lot and with sparsely distributed ruderal species. The City of Palm Desert is a signatory to the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP) which was last amended in August 2016. The CVMSHCP

encompasses approximately 1.2 million acres. Of the total, approximately 69,000 acres are Indian Reservation Lands, which are not included in the Plan, leaving a total of approximately 1.1 million acres addressed by the Plan. Of the total area, approximately 6 percent is developed land located within the urbanized portion of the Coachella Valley. The project site is located within a developed portion of the plan area; and thus, is not located within a designated CVMSHCP conservation area. No federal or state listed threatened, endangered or species of concern or their habitat are located on the site. No local species would be adversely affected by the project.

**Supporting documentation**

[Critical Habitat Map.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Explosive and Flammable Hazards**

General requirements	Legislation	Regulation
HUD-assisted projects must meet Acceptable Separation Distance (ASD) requirements to protect them from explosive and flammable hazards.	N/A	24 CFR Part 51 Subpart C

1. Is the proposed HUD-assisted project itself the development of a hazardous facility (a facility that mainly stores, handles or processes flammable or combustible chemicals such as bulk fuel storage facilities and refineries)?

✓ No

Yes

2. Does this project include any of the following activities: development, construction, rehabilitation that will increase residential densities, or conversion?

No

✓ Yes

3. Within 1 mile of the project site, are there any current or planned stationary aboveground storage containers that are covered by 24 CFR 51C? Containers that are NOT covered under the regulation include:

- Containers 100 gallons or less in capacity, containing common liquid industrial fuels OR
- Containers of liquified petroleum gas (LPG) or propane with a water volume capacity of 1,000 gallons or less that meet the requirements of the 2017 or later version of National Fire Protection Association (NFPA) Code 58.

If all containers within the search area fit the above criteria, answer "No." For any other type of aboveground storage container within the search area that holds one of the flammable or explosive materials listed in Appendix I of 24 CFR part 51 subpart C, answer "Yes."

No

✓ Yes

**4. Based on the analysis, is the proposed HUD-assisted project located at or beyond the required separation distance from all covered tanks?**

✓ Yes

Based on the response, the review is in compliance with this section.

No

**Screen Summary**

**Compliance Determination**

There is a current or planned stationary aboveground storage container of concern within 1 mile of the project site. The Separation Distance from the project is acceptable. The project is in compliance with explosive and flammable hazard requirements. The proposed project is a residential project designed to provide affordable housing for low income residents. It would not require the ongoing use, storage or routine transport of hazardous, explosive or flammable materials. Aside from common household chemicals, no hazardous materials would be used on-site. The project would not emit or release hazardous waste or emissions. As referenced, Weis Environmental, Inc., prepared a Phase I ESA (April 2024) for the project site. The project site does not contain facilities containing hazardous materials or that are affected by a known release of hazards or hazardous materials. The California Environmental Protection Agency (CalEPA) regulated site portal (<https://siteportal.calepa.ca.gov/nsite/map/help>) was used to identify the presence of any regulated sites within one mile of the site that would present a potential hazard to the project site. A total of 64 records were identified. The majority were underground storage tanks associated with retail fueling stations, retailers selling motor oil and other automotive related products, automotive dealers, school sites, stormwater treatment facilities and hazardous waste generators (i.e., heavy commercial/light industrial facilities). Two above ground tanks for the storage of petroleum were identified at the Monterey Country Club maintenance building which is located approximately one mile southeast of the site. One above ground diesel tank with a capacity of 600 gallons and one gasoline tank with a capacity of 600 gallons are registered at this location. The Acceptable Separation Distance (ASD) was calculated using the HUD ASD tool. The ASD for thermal radiation for each tank is approximately 223 feet. The site is further away from the site than the ASD. No mitigation measures are required.

**Supporting documentation**

[Acceptable Separation Distance \(ASD\) Electronic Assessment Tool - HUD Exchange.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Farmlands Protection**

General requirements	Legislation	Regulation
The Farmland Protection Policy Act (FPPA) discourages federal activities that would convert farmland to nonagricultural purposes.	Farmland Protection Policy Act of 1981 (7 U.S.C. 4201 et seq.)	<a href="#">7 CFR Part 658</a>

1. Does your project include any activities, including new construction, acquisition of undeveloped land or conversion, that could convert agricultural land to a non-agricultural use?

Yes

✓ No

If your project includes new construction, acquisition of undeveloped land or conversion, explain how you determined that agricultural land would not be converted:

Based on the response, the review is in compliance with this section. Document and upload all documents used to make your determination below.

**Screen Summary****Compliance Determination**

This project does not include any activities that could potentially convert agricultural land to a non-agricultural use. The project is in compliance with the Farmland Protection Policy Act. The project site is currently vacant; however, it is located within an urbanized area within the City of Palm Desert. The site is categorized as Urban and Built-Up Land, as indicated on the State Farmland Mapping and Monitoring Program maps for the County of Riverside. The site does not include prime or unique farmland, or other farmland of statewide or local importance. No impact to farmland resources defined under the Farmland Protection Policy Act per 7 CFR 658 would occur.

## Floodplain Management

General Requirements	Legislation	Regulation
Executive Order 11988, Floodplain Management, requires Federal activities to avoid impacts to floodplains and to avoid direct and indirect support of floodplain development to the extent practicable.	Executive Order 11988 * Executive Order 13690 * 42 USC 4001-4128 * 42 USC 5154a * only applies to screen 2047 and not 2046	24 CFR 55

**1. Does this project meet an exemption at 24 CFR 55.12 from compliance with HUD's floodplain management regulations in Part 55?**

Yes

(a) HUD-assisted activities described in 24 CFR 58.34 and 58.35(b).

(b) HUD-assisted activities described in 24 CFR 50.19, except as otherwise indicated in § 50.19.

(c) The approval of financial assistance for restoring and preserving the natural and beneficial functions and values of floodplains and wetlands, including through acquisition of such floodplain and wetland property, where a permanent covenant or comparable restriction is place on the property's continued use for flood control, wetland projection, open space, or park land, but only if:

(1) The property is cleared of all existing buildings and walled structures; and

(2) The property is cleared of related improvements except those which:

(i) Are directly related to flood control, wetland protection, open space, or park land (including playgrounds and recreation areas);

(ii) Do not modify existing wetland areas or involve fill, paving, or other ground disturbance beyond minimal trails or paths; and

(iii) Are designed to be compatible with the beneficial floodplain or wetland function of the property.

(d) An action involving a repossession, receivership, foreclosure, or similar acquisition of property to protect or enforce HUD's financial interests under previously approved loans, grants, mortgage insurance,

or other HUD assistance.

(e) Policy-level actions described at 24 CFR 50.16 that do not involve site-based decisions.

(f) A minor amendment to a previously approved action with no additional adverse impact on or from a floodplain or wetland.

(g) HUD's or the responsible entity's approval of a project site, an incidental portion of which is situated in the FFRMS floodplain (not including the floodway, LiMWA, or coastal high hazard area) but only if: (1) The proposed project site does not include any existing or proposed buildings or improvements that modify or occupy the FFRMS floodplain except de minimis improvements such as recreation areas and trails; and (2) the proposed project will not result in any new construction in or modifications of a wetland .

(h) Issuance or use of Housing Vouchers, or other forms of rental subsidy where HUD, the awarding community, or the public housing agency that administers the contract awards rental subsidies that are not project-based (i.e., do not involve site-specific subsidies).

(i) Special projects directed to the removal of material and architectural barriers that restrict the mobility of and accessibility to elderly and persons with disabilities.

Describe:

☒ No

**2. Does the project include a Critical Action? Examples of Critical Actions include projects involving hospitals, fire and police stations, nursing homes, hazardous chemical storage, storage of valuable records, and utility plants.**

Yes

Describe:

☒ No

**3. Determine the extent of the FFRMS floodplain and provide mapping documentation in support of that determination**

The extent of the FFRMS floodplain can be determined using a Climate Informed Science Approach (CISA), 0.2 percent flood approach (0.2 PFA), or freeboard value approach (FVA). For projects in areas without available CISA data or without FEMA Flood Insurance Rate Maps (FIRMs), Flood Insurance Studies (FISs) or Advisory Base Flood Elevations (ABFEs), use the best available information<sup>1</sup> to determine flood elevation. Include documentation and an explanation of why this is the best available information<sup>2</sup> for the site. Note that newly constructed and substantially improved<sup>3</sup> structures must be elevated to the FFRMS floodplain regardless of the approach chosen to determine the floodplain.

Select one of the following three options:

- ✓ CISA for non-critical actions. If using a local tool, data, or resources, ensure that the FFRMS elevation is higher than would have been determined using the 0.2 PFA or the FVA.

0.2-PFA. Where FEMA has defined the 0.2-percent-annual-chance floodplain, the FFRMS floodplain is the area that FEMA has designated as within the 0.2-percent-annual-chance floodplain.

FVA. If neither CISA nor 0.2-PFA is available, for non-critical actions, the FFRMS floodplain is the area that results from adding two feet to the base flood elevation as established by the effective FIRM or FIS or — if available — a FEMA-provided preliminary or pending FIRM or FIS or advisory base flood elevations, whether regulatory or informational in nature. However, an interim or preliminary FEMA map cannot be used if it is lower than the current FIRM or FIS.

<sup>1</sup> Sources which merit investigation include the files and studies of other federal agencies, such as the U. S. Army Corps of Engineers, the Tennessee Valley Authority, the Soil Conservation Service and the U. S. Geological Survey. These agencies have prepared flood hazard studies for several thousand localities and, through their technical assistance programs, hydrologic studies, soil surveys, and other investigations have collected or developed other floodplain information for numerous sites and areas. States and communities are also sources of information on past flood experiences within their boundaries and are particularly knowledgeable about areas subject to high-risk flood hazards such as alluvial fans, high velocity flows, mudflows and mudslides, ice jams, subsidence and liquefaction.

<sup>2</sup> If you are using best available information, select the FVA option below and provide supporting documentation in the screen summary. Contact your [local environmental officer](#) with additional compliance questions.

<sup>3</sup> Substantial improvement means any repair or improvement of a structure which costs at least 50 percent of the market value of the structure before repair or improvement or results in an increase of more than 20 percent of the number of dwelling units. The full definition can be found at [24 CFR 55.2\(b\)\(12\)](#).

5. Does your project occur in the FFRMS floodplain?

Yes

✓ No

#### **Screen Summary**

##### **Compliance Determination**

This project does not occur in the FFRMS floodplain. The project is in compliance with Executive Orders 11988 and 13690. All federally funded development projects are evaluated per Executive Order 11988 as discussed below. Those occurring in mapped flood zones require evaluation consistent with Part II of EO 11988. The site is designated an Area of Minimal Flood Hazard Zone X in Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) 06065C227OH, prepared March 6, 2018; and thus, is located outside a 100-year flood zone. No analysis per Part II of Executive Order 11988 is required.

## Historic Preservation

General requirements	Legislation	Regulation
Regulations under Section 106 of the National Historic Preservation Act (NHPA) require a consultative process to identify historic properties, assess project impacts on them, and avoid, minimize, or mitigate adverse effects	Section 106 of the National Historic Preservation Act (16 U.S.C. 470f)	36 CFR 800 "Protection of Historic Properties" <a href="https://www.govinfo.gov/content/pkg/CFR-2012-title36-vol3/pdf/CFR-2012-title36-vol3-part800.pdf">https://www.govinfo.gov/content/pkg/CFR-2012-title36-vol3/pdf/CFR-2012-title36-vol3-part800.pdf</a>

### Threshold

Is Section 106 review required for your project?

No, because the project consists solely of activities listed as exempt in a Programmatic Agreement (PA ). (See the PA Database to find applicable PAs.)  
 No, because the project consists solely of activities included in a No Potential to Cause Effects memo or other determination [36 CFR 800.3(a)(1)].

- ✓ Yes, because the project includes activities with potential to cause effects (direct or indirect).

### Step 1 – Initiate Consultation

Select all consulting parties below (check all that apply):

- ✓ State Historic Preservation Offer (SHPO) Response Period Elapsed
- ✓ Advisory Council on Historic Preservation Not Required
- ✓ Indian Tribes, including Tribal Historic Preservation Officers (THPOs) or Native Hawaiian Organizations (NHOs)
- ✓ Agua Caliente Band of Cahuilla Indianws Completed

### Other Consulting Parties

**Describe the process of selecting consulting parties and initiating consultation here:**

Responsible engaged multiple tribes in the consultation process. The Agua Caliente Band of Cahuilla Indians responded with a request for monitoring.

Document and upload all correspondence, notices and notes (including comments and objections received below).

**Was the Section 106 Lender Delegation Memo used for Section 106 consultation?**

Yes

No

### ***Step 2 – Identify and Evaluate Historic Properties***

- 1. Define the Area of Potential Effect (APE), either by entering the address(es) or uploading a map depicting the APE below:**

The APE comprises the project site.

**In the chart below, list historic properties identified and evaluated in the APE. Every historic property that may be affected by the project should be included in the chart.**

Upload the documentation (survey forms, Register nominations, concurrence(s) and/or objection(s), notes, and photos) that justify your National Register Status determination below.

Address / Location / District	National Register Status	SHPO Concurrence	Sensitive Information
----------------------------------	-----------------------------	------------------	--------------------------

**Additional Notes:**

- 2. Was a survey of historic buildings and/or archeological sites done as part of the project?**

✓ Yes

Document and upload surveys and report(s) below.

For Archeological surveys, refer to HP Fact Sheet #6, Guidance on Archeological

Investigations in HUD Projects.

Additional Notes:

No

***Step 3 –Assess Effects of the Project on Historic Properties***

Only properties that are listed on or eligible for the National Register of Historic Places receive further consideration under Section 106. Assess the effect(s) of the project by applying the Criteria of Adverse Effect. (36 CFR 800.5)] Consider direct and indirect effects as applicable as per guidance on direct and indirect effects.

**Choose one of the findings below - No Historic Properties Affected, No Adverse Effect, or Adverse Effect; and seek concurrence from consulting parties.**

✓ No Historic Properties Affected

Based on the response, the review is in compliance with this section. Document and upload concurrence(s) or objection(s) below.

**Document reason for finding:**

✓ No historic properties present.

Historic properties present, but project will have no effect upon them.

No Adverse Effect

Adverse Effect

**Screen Summary**

**Compliance Determination**

Formal Section 106 consultation was conducted by the County of Riverside Housing and Workforce Solutions (HWS), the HUD Responsible Entity (RE) in accordance with HUD requirements using HUD's Tribal Direct Assessment Tool database. The Agua Caliente Band of Cahuilla Indians responded to the County's consultation notice via a

letter dated January 10, 2025, and requested the following be incorporated into the Environmental Review Record: Should human remains be discovered during construction of the proposed project, the project contractor would be subject to either the State law regarding the discovery and disturbance of human remains or the Tribal burial protocol. In either circumstance all destructive activity in the immediate vicinity shall halt and the County Coroner shall be contacted pursuant to State Health and Safety Code s.7050.5. If the remains are determined to be of Native American origin, the Native American Heritage Commission (NAHC) shall be contacted. The NAHC will make a determination of the Most Likely Descendent (MLD). The City and Developer will work with the designated MLD to determine the final disposition of the remains. An approved Cultural Resource Monitor(s) from a Consulting Tribe shall be present during any ground disturbing activities (including archaeological testing and surveys). Should buried cultural deposits be encountered, the Monitor may request that destructive construction halt and the Monitor shall notify a Qualified Archaeologist (Secretary of the Interior's Standards and Guidelines) to investigate and, if necessary, prepare a mitigation plan for submission to the State Historic Preservation Officer. A monitoring agreement shall be established between the project applicant and Agua Caliente Band of Cahuilla Indians prior to construction as a condition of project approval. Based on Section 106 consultation there are No Historic Properties Affected because there are no historic properties present. The project is in compliance with Section 106.

**Are formal compliance steps or mitigation required?**

Yes

✓ No

## Noise Abatement and Control

General requirements	Legislation	Regulation
HUD's noise regulations protect residential properties from excessive noise exposure. HUD encourages mitigation as appropriate.	Noise Control Act of 1972  General Services Administration Federal Management Circular 75-2: "Compatible Land Uses at Federal Airfields"	Title 24 CFR 51 Subpart B

**1. What activities does your project involve? Check all that apply:**

- ☒ New construction for residential use

NOTE: HUD assistance to new construction projects is generally prohibited if they are located in an Unacceptable zone, and HUD discourages assistance for new construction projects in Normally Unacceptable zones. See 24 CFR 51.101(a)(3) for further details.

Rehabilitation of an existing residential property

A research demonstration project which does not result in new construction or reconstruction

An interstate land sales registration

Any timely emergency assistance under disaster assistance provision or appropriations which are provided to save lives, protect property, protect public health and safety, remove debris and wreckage, or assistance that has the effect of restoring facilities substantially as they existed prior to the disaster  
None of the above

**4. Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport).**

**Indicate the findings of the Preliminary Screening below:**

There are no noise generators found within the threshold distances above.

- ✓ Noise generators were found within the threshold distances.

5. **Complete the Preliminary Screening to identify potential noise generators in the**

- ✓ Acceptable: (65 decibels or less; the ceiling may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))

Indicate noise level here: 53

Based on the response, the review is in compliance with this section. Document and upload noise analysis, including noise level and data used to complete the analysis below.

Normally Unacceptable: (Above 65 decibels but not exceeding 75 decibels; the floor may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))

Unacceptable: (Above 75 decibels)

HUD strongly encourages conversion of noise-exposed sites to land uses compatible with high noise levels.

Check here to affirm that you have considered converting this property to a non-residential use compatible with high noise levels.

Indicate noise level here: 53

Document and upload noise analysis, including noise level and data used to complete the analysis below.

### **Screen Summary**

#### **Compliance Determination**

A Noise Assessment was conducted. The noise level was acceptable: 53.0 db. See noise analysis. The project is in compliance with HUD's Noise regulation. According to HUD site acceptability standards, a maximum of 65 dB is considered an acceptable exterior noise level. Exterior 24-hour average (Ldn) traffic-related noise was estimated along Country Club Drive using the HUD Ldn calculator based on the CVAG traffic counts. The Ldn metric is similar to the CNEL and used for the purpose evaluating noise impacts per HUD criteria. For modeling purposes, the fleet mix assumed 3%

medium trucks and 1% heavy trucks. The Ldn at 950 feet (measured from Country Club Drive centerline to the center of the site) is estimated to be 53 dBA. As referenced, the City of Palm Desert daytime standards for residential areas is 55 dBA. When existing conditions exceed 55 dBA during the day (i.e., 6:00 to 10:00 pm), a project-related increase of 3 dBA or more is considered to be a significant impact. The project is conservatively estimated to generate 288 vehicle trips per day based on trip generation rates for low rise multifamily housing. (7.2 trips per unit) as defined in the Institute for Traffic Engineers 11th Edition (2021). For a noticeable (i.e, 3 dBA) noise increase to occur, the number of Average Daily Trips (ADT) would have to double over current volumes while maintaining current speeds. Using the HUD Ldn calculator, project-related trips (288 average daily trips) were added to existing volumes on Country Club Drive. No increase in the DNL would occur. The project would have no adverse exterior noise impact.

**Supporting documentation**

[Day\\_Night Noise Level \(DNL\) Calculator - HUD Exchange with Project.pdf](#)

[Day\\_Night Noise Level \(DNL\) Calculator - HUD Exchange Existing.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Sole Source Aquifers**

General requirements	Legislation	Regulation
The Safe Drinking Water Act of 1974 protects drinking water systems which are the sole or principal drinking water source for an area and which, if contaminated, would create a significant hazard to public health.	Safe Drinking Water Act of 1974 (42 U.S.C. 201, 300f et seq., and 21 U.S.C. 349)	40 CFR Part 149

1. Does the project consist solely of acquisition, leasing, or rehabilitation of an existing building(s)?

Yes

✓ No

2. Is the project located on a sole source aquifer (SSA)?

A sole source aquifer is defined as an aquifer that supplies at least 50 percent of the drinking water consumed in the area overlying the aquifer. This includes streamflow source areas, which are upstream areas of losing streams that flow into the recharge area.

✓ No

Based on the response, the review is in compliance with this section. Document and upload documentation used to make your determination, such as a map of your project (or jurisdiction, if appropriate) in relation to the nearest SSA and its source area, below.

Yes

**Screen Summary****Compliance Determination**

The project is not located on a sole source aquifer area. The project is in compliance with Sole Source Aquifer requirements. There are no sole source aquifers in Riverside County as designated by the US Environmental Protection Agency Pacific Southwest

Region 9. The project would not use groundwater or otherwise impact groundwater recharge. No impacts to sole source aquifers as defined per 40 CFR 149 would occur.

**Supporting documentation**

[sole source aquifer map.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

## Wetlands Protection

General requirements	Legislation	Regulation
Executive Order 11990 discourages direct or indirect support of new construction impacting wetlands wherever there is a practicable alternative. The Fish and Wildlife Service's National Wetlands Inventory can be used as a primary screening tool, but observed or known wetlands not indicated on NWI maps must also be processed. Off-site impacts that result in draining, impounding, or destroying wetlands must also be processed.	Executive Order 11990	24 CFR 55.20 can be used for general guidance regarding the 8 Step Process.

1. Does this project involve new construction as defined in Executive Order 11990, expansion of a building's footprint, or ground disturbance? The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of the Order

No

✓ Yes

2. Will the new construction or other ground disturbance impact an on- or off-site wetland? The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support, and under normal circumstances does or would support, a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds.

"Wetlands under E.O. 11990 include isolated and non-jurisdictional wetlands."

✓ No, a wetland will not be impacted in terms of E.O. 11990's definition of new construction.

Based on the response, the review is in compliance with this section. Document and upload a map or any other relevant documentation below which explains your determination

Yes, there is a wetland that be impacted in terms of E.O. 11990's definition of new construction.

### Screen Summary

### Compliance Determination

The project will not impact on- or off-site wetlands. The project is in compliance with Executive Order 11990. The site is in a heavily urbanized area. According to the U.S. Fish and Wildlife Service's Wetlands Online Mapper, no wetlands are located on or immediately adjacent to the project site. No adverse impacts related to wetlands protection are anticipated.

**Supporting documentation**

[wetland mapper.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Wild and Scenic Rivers Act**

General requirements	Legislation	Regulation
The Wild and Scenic Rivers Act provides federal protection for certain free-flowing, wild, scenic and recreational rivers designated as components or potential components of the National Wild and Scenic Rivers System (NWSRS) from the effects of construction or development.	The Wild and Scenic Rivers Act (16 U.S.C. 1271-1287), particularly section 7(b) and (c) (16 U.S.C. 1278(b) and (c))	36 CFR Part 297

**1. Is your project within proximity of a NWSRS river?**

✓ No

Yes, the project is in proximity of a Designated Wild and Scenic River or Study Wild and Scenic River.

Yes, the project is in proximity of a Nationwide Rivers Inventory (NRI) River.

**Screen Summary****Compliance Determination**

This project is not within proximity of a NWSRS river. The project is in compliance with the Wild and Scenic Rivers Act. The project site is located in an urbanized portion of Palm Desert. The Whitewater Channel or segment thereof, is the nearest channel. It is not a designated wild or scenic river. (National Wild and Scenic Rivers, 2011). The project would have no adverse impacts on wild or scenic rivers.

**Supporting documentation**

[wild and scenic river.pdf](#)

**Are formal compliance steps or mitigation required?**

Yes

✓ No

**Environmental Justice**

General requirements	Legislation	Regulation
Determine if the project creates adverse environmental impacts upon a low-income or minority community. If it does, engage the community in meaningful participation about mitigating the impacts or move the project.	Executive Order 12898	

HUD strongly encourages starting the Environmental Justice analysis only after all other laws and authorities, including Environmental Assessment factors if necessary, have been completed.

1. Were any adverse environmental impacts identified in any other compliance review portion of this project's total environmental review?

Yes

✓ No

Based on the response, the review is in compliance with this section.

**Screen Summary****Compliance Determination**

No adverse environmental impacts were identified in the project's total environmental review. The project is in compliance with Executive Order 12898.

**Supporting documentation**

Are formal compliance steps or mitigation required?

Yes

✓ No

**PUBLIC NOTICE**

**February 23, 2025**

Riverside County, Housing and Workforce Solutions

3403 Tenth Street, Suite 300

Riverside, California 92501

Annjanette Aguilar, Preparer (760) 863-2541

**TO ALL INTERESTED AGENCIES, GROUPS, AND PERSONS:**

These notices shall satisfy procedural requirements for activities to be undertaken by the County of Riverside. Any individual, group or agency submitting comments should specify in their comments which "notice" their comments address.

**REQUEST FOR RELEASE OF FUNDS**

**On or about March 11, 2025**, the County of Riverside will submit a request to the U.S. Department of Housing and Urban Development (HUD) Los Angeles Field Office for the release of: HUD Housing Choice Voucher Program (HCVP) Project Based Vouchers (PBVs) through the Housing Authority of the County of Riverside, to undertake the following project:

**PROJECT NAME:** Arc Village

**PURPOSE:** The project activity includes the use of 8 PBVs to serve as a rental subsidy for Arc Village by Arc Village CIC, LP, a California limited partnership. Arc Village will consist of the new construction of a 40-unit multi-family development (which includes 1 manager's unit) of affordable rental housing for low-income family households. The Proposed Project will include 40 total units within one building (20 one-bedroom units, 10 two-bedroom units, and 10 three-bedroom units). Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, 8 units for tenants with an income of 40% AMI and 4 units for tenants with an income of 30% AMI. One one-bedroom unit will be reserved for an on-site manager. The 8 PBV units includes 4 one-bedroom units (2 units @ 30% AMI and 2 units @ 40% AMI), 2 two-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI), and 2 three-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI).

**LOCATION:** The property sits on a parcel totaling approximately 1.84 acres of land located behind and to the south of the existing Desert Arc offices at 73-295 Country Club Drive, in the City of Palm Desert, identified as Assessor's Parcel Number 622-370-014.

This activity may be undertaken over multiple years.

**FINDING OF NO SIGNIFICANT IMPACT**

The County of Riverside has determined that the project will have no significant impact on the human environment. Therefore, an Environmental Impact Statement under the National Environmental Policy Act of 1969 (NEPA) is not required. Additional project information is

contained in the Environmental Assessment (EA) on file at the Housing Authority of the County of Riverside at 5555 Arlington Ave, Riverside, CA 92504. The EA may be downloaded at the following website address <https://www.harivco.org/>.

### **PUBLIC COMMENTS**

Any individual, group, or agency may submit written comments on the EA and the Request for Release of Funds to the Department of Housing and Workforce Solutions, Attention: Annjanette Aguilar at 3403 Tenth Street, Suite 300, Riverside, CA 92501 or email comments to [AABarreras@rivco.org](mailto:AABarreras@rivco.org). All comments received at the address specified above **on or before March 11, 2025** will be considered by the County of Riverside prior to submission of a request for release of funds. Comments should specify which Notice they are addressing.

### **RELEASE OF FUNDS**

The County of Riverside certifies to the HUD Los Angeles Field Office that the Chair of the Board of Supervisors consents to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the County of Riverside Housing, and Workforce Solutions to allocate Housing Choice Voucher Program Project Based Vouchers on behalf of the County of Riverside.

### **OBJECTIONS TO RELEASE OF FUNDS**

HUD will accept objections to its release of funds and the County of Riverside's certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases:

- a. the certification was not executed by the Certifying Officer of the County of Riverside;
- b. the County of Riverside has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 58;
- c. the grant recipient has committed funds or incurred costs not authorized by 24 CFR Part 58 before approval of a release of funds by HUD; or
- d. another Federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.

Objections must be prepared and submitted via email in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to the following HUD Los Angeles Field Offices: Office of Public Housing at [HUDLOSANGELESOPH@hud.gov](mailto:HUDLOSANGELESOPH@hud.gov). Potential objectors should contact HUD Los Angeles Field Offices via email to verify the actual last day of the objection period.

### **A TODAS LAS AGENCIAS, GRUPOS Y PERSONAS INTERSADOS:**

Estos avisos deberán satisfacer las actividades que realizara el Condado de Riverside. Cualquier individuo, grupo o agencia que envíe comentarios debe especificar en sus comentarios que “aviso” tiene la dirección de sus comentarios.

### **SOLICITUD DE LIBERACION DE FONDOS**

**El 11 de marzo del 2025 o alrededor de esa fecha**, el Condado de Riverside presentara una solicitud a la Oficina de Campo de Los Ángeles del Departamento de Vivienda y Desarrollo Urbano de EE.UU. (HUD) la Autoridad de Vivienda del Condado de Riverside (HACR), para emprender el siguiente proyecto:

**NOMBRE DEL PROYECTO:** Arc Village

**PROPÓSITO:** La actividad del proyecto incluye el uso de 8 PBV para servir como subsidio de alquiler para Arc Village por parte de Arc Village CIC, LP, una sociedad limitada de California. Arc Village consistirá en la nueva construcción de un desarrollo multifamiliar de 40 unidades (que incluye 1 unidad del gerente) de viviendas de alquiler asequibles para hogares familiares de bajos ingresos. El proyecto propuesto incluirá un total de 40 unidades dentro de un edificio (20 unidades de una habitación, 10 unidades de dos habitaciones y 10 unidades de tres habitaciones). Del total, 15 unidades se reservarán para inquilinos con ingresos del 60% del Ingreso Medio (AMI), 12 se reservarán para inquilinos con ingresos del 50% del AMI, 8 unidades para inquilinos con un ingreso del 40% del AMI y 4 unidades para inquilinos con un ingreso del 30% del AMI. Una unidad de un dormitorio se reservará para un gerente en el lugar.

**UBICACIÓN:** La propiedad se encuentra en una parcela con un total de aproximadamente 1.84 acres de tierra ubicada detrás y al sur de las oficinas existentes de Desert Arc en 73-295 Country Club Drive, en la ciudad de Palm Desert, identificada como Parcela del Tasador Número 622-370-014.

Esta actividad se puede realizar durante varios años.

### **NO HAY IMPACTO SIGNIFICATIVO**

El Condado de Riverside ha determinado que el proyecto no tendrá un impacto significativo en el medio ambiente humano. Por lo tanto, no se requiere una Declaración de Impacto Ambiental Nacional de 1969 (NEPA). Se incluye información adicional del proyecto en la Evaluación Ambiental (EA) archivada en la Autoridad de Vivienda del Condado de Riverside en 5555 Arlington Ave, Riverside, CA 92504. La EA se puede descargar en la siguiente dirección del sitio web <https://www.harivco.org/>.

## COMENTARIOS PUBLICOS

Cualquier individuo, grupo o agencia puede enviar comentarios por escrito sobre el EA y la Solicitud de liberación de fondos al Departamento de Soluciones para Vivienda y la Fuerza Laboral, Atención: Annjanette Aguilar en 3403 Tenth Street, Suite 300, Riverside, CA 92501 o comentarios por correo electrónico a [AABarreras@rivco.org](mailto:AABarreras@rivco.org). Todos los comentarios recibidos en la dirección especificada anteriormente **en o alrededor del 11 de marzo del 2025** serán considerados por el Condado de Riverside antes de presentar una solicitud de liberación de fondos. Los comentarios deben especificar a que Aviso se dirigen.

## LIBERACION DE FONDOS

El Condado de Riverside certifica a la Oficina de Campo de HUD en Los Ángeles que el Presidente de la Junta de Supervisores consiente en aceptar la jurisdicción de los tribunales federales si se entable una acción para hacer cumplir las responsabilidades se han cumplido satisfecho. La aprobación de la certificación por parte de HUD satisface sus responsabilidades según la NEPA y las leyes y autoridades relacionadas y permite que el Condado de Riverside Housing y Workforce Solutions asignen vales basaos en proyectos del programa de vales de elección de Vivienda en nombre del Condado de Riverside.

## OBJECIONES A LA LIBERACION DE FONDOS

HUD aceptara objeciones a su liberación de fondos y la certificación del Condado de Riverside por un periodo de quince días después de la fecha de presentación anticipada o su recepción real de la solicitud (lo que sea posterior) solo si se basan en una de las siguientes bases:

- a. la certificación no fue ejecutada por el Oficial Certificador del Condado de Riverside;
- b. el Condado de Riverside omitió un paso o no tomo una decisión o un hallazgo requerido por las regulaciones de HUD en 24 CFR parte 58;
- c. el beneficiario de la subvención ha comprometido fondos o incurrido en costos no autorizados por 24 CFR Parte 58 antes de la aprobación de una liberación de fondos por parte de HUD; o
- d. otra agencia federal que actúa de conformidad con el 40 CFR Parte 1504 ha presentado una conclusión por escrito de que el proyecto no es satisfactorio desde el punto de vista de la calidad ambiental.

Las objeciones deben prepararse y enviarse por correo electrónico de acuerdo con los procedimientos requeridos (24 CFR Parte 58, Sec. 58.76) y deben dirigirse a las siguientes Oficinas de Campo de HUD en Los Ángeles: Oficina de Vivienda Pública en [HUDLOSANGELESOPH@hud.gov](mailto:HUDLOSANGELESOPH@hud.gov). Los posibles objetores deben comunicarse con las oficinas de campo de HUD en Los Ángeles por correo electrónico para verificar el ultimo día real del periodo de objeción.

**TO ALL INTERESTED AGENCIES, GROUPS, AND PERSONS :**

These notices shall satisfy procedural requirements for activities to be undertaken by the County of Riverside. Any individual, group or agency submitting comments should specify in their comments which "notice" their comments address.

**REQUEST FOR RELEASE OF FUNDS**

On or about March 11, 2025, the County of Riverside will submit a request to the U.S. Department of Housing and Urban Development (HUD) Los Angeles Field Office for the release of: HUD Housing Choice Voucher Program (HCVP) Project Based Vouchers (PBVs) through the Housing Authority of the County of Riverside, to undertake the following project:

PROJECT NAME : Arc Village

PURPOSE: The project activity includes the use of 8 PBVs to serve as a rental subsidy for Arc Village by Arc Village CIC, LP, a California limited partnership. Arc Village will consist of the new construction of a 40-unit multi-family development (which includes 1 manager's unit) of affordable rental housing for low-income family households. The Proposed Project will include 40 total units within one building (20 one-bedroom units, 10 two-bedroom units, and 10 three-bedroom units). Of the total, 15 units will be reserved for tenants within an income at 60% Average Median Income (AMI), 12 will be reserved for tenants with an income at 50% AMI, 8 units for tenants with an income of 40% AMI and 4 units for tenants with an income of 30% AMI. One one-bedroom unit will be reserved for an on-site manager. The 8 PBV units includes 4 one-bedroom units (2 units @ 30% AMI and 2 units @ 40% AMI), 2 two-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI), and 2 three-bedroom units (1 unit @ 30% AMI and 1 unit @ 40% AMI).

LOCATION: The property sits on a parcel totaling approximately 1.84 acres of land located behind and to the south of the existing Desert Arc offices at 73-295 Country Club Drive, in the City of Palm Desert, identified as Assessor's Parcel Number 622-370-014.

This activity may be undertaken over multiple years.

**FINDING OF NO SIGNIFICANT IMPACT**

The County of Riverside has determined that the project will have no significant impact on the human environment. Therefore, an Environmental Impact Statement under the National Environmental Policy Act of 1969 (NEPA) is not required. Additional project information is contained in the Environmental Assessment (EA) on file at the Housing Authority of the County of Riverside at 5555 Arlington Ave, Riverside, CA 92504. The EA may be downloaded at the following website address <https://www.harlrvco.org/>.

**PUBLIC COMMENTS**

Any individual, group, or agency may submit written comments on the EA and the Request for Release of Funds to the Department of Housing and Workforce Solutions, Attention: AnnJanette Aguilar at 3403 Tenth Street, Suite 300, Riverside, CA 92501 or email comments to [AABarreras@rlvco.org](mailto:AABarreras@rlvco.org). All comments received at the address specified above on or before March 11, 2025 will be considered by the County of Riverside prior to submission of a request for release of funds. Comments should specify which Notice they are addressing.

**RELEASE OF FUNDS**

The County of Riverside certifies to the HUD Los Angeles Field Office that the Chair of the Board of Supervisors consents to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. HUD's approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the County of Riverside Housing, and Workforce Solutions to allocate Housing Choice Voucher Program Project Based Vouchers on behalf of the County of Riverside.

**OBJECTIONS TO RELEASE OF FUNDS**

HUD will accept objections to its release of funds and the County of Riverside's certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases:

- a. the certification was not executed by the Certifying Officer of the County of Riverside;
- b. the County of Riverside has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 58;
- c. the grant recipient has committed funds or incurred costs not authorized by 24 CFR Part 58 before approval of a release of funds by HUD; or
- d. another Federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality.

Objections must be prepared and submitted via email in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to the following HUD Los Angeles Field Offices: Office of Public Housing at HUDLOSANGELESOPH@hud.gov. Potential objectors should contact HUD Los Angeles Field Offices via email to verify the actual last day of the objection period.
