BACKGROUND:

Summary

The California Board of State and Community Corrections (BSCC), formerly known as the Board of Corrections (BOC), was established in 1944 to provide leadership and coordination in local California corrections. The BOC set minimum standards for local adult detention facilities and operations and had statutory responsibility for establishing selection criteria and training standards for local corrections personnel (i.e., Sheriff, Probation, Police and Department of Correction). These responsibilities continue under the BSCC and are defined in California Penal Code Sections 6024 through 6036.

The Standards and Training for Corrections (STC) program, established in 1980, is a division of the BSCC. The purpose of the STC program is to raise the level of competence of the state's local corrections and probation personnel. The program accomplishes this by developing selection and training standards; and providing a course certification and delivery system, technical assistance and support, and training to local corrections agencies statewide. In addition, participating agencies are allocated subvention funding through the STC program to offset the cost of the mandatory training. The regulations for counties and cities that choose to participate in the STC program are found in Title 15, Division 1, Chapter 1, Subchapter 1, Articles 1 through 9, Sections 100-358 of the California Code of Regulations (CCR).

There are two categories of courses certified by STC: core training and annual training. Core training is completed at the entry-level, supervisor, and manager positions and requires up to 196 hours of core training, depending on position. As an STC participating agency, once core training is completed, the Riverside County Probation Department (Probation) sworn staff are required to maintain up to 40 hours of mandatory STC certified training annually, depending on position. To ensure that Probation sworn staff meet this requirement, Probation is seeking Board of Supervisors approval to use the trainers certified by STC, without seeking competitive bids, to schedule and pay for classes as needed. This item is renewing the prior Board authorization for the use of STC certified trainers approved on August 18, 2015, Minute Order 3.44 and June 9, 2020, Minute Order 3.14.

Impact on Residents and Businesses

Mandatory annual training requirements play a major role in our community's protection efforts. Utilizing these STC certified trainers is essential to maintain staff proficiency through job-related

STATE OF CALIFORNIA**

skills training and will benefit the safety and well-being of the residents and businesses of Riverside County.

Additional Fiscal Information

The total cost of this item is \$1,500,000 over a five-year period, with an annual cost of \$300,000. The funding for these services will be provided through State Funds (84%) and General Funds (16%). This is an ongoing cost associated with the utilization of certified trainers from the BSCC under the STC program.

Contract History and Price Reasonableness

Per the BSCC policy regarding budget, all approved/certified private providers must follow the policy with a cap to charge for services at \$150 per day per trainee or \$18.75 per hour. The cost of up to \$150 per trainee per day is intended to cover all course costs associated with course delivery, including instructor fees, materials, room rental, travel, and per diem.

Ordinance No. 459 allows for selection and award of contracts, without competitive bidding, with service providers that have been designated (mandated) to provide contracted services for state and federal programs. Probation is seeking Board of Supervisors approval to use the trainers certified by STC, to schedule and pay for classes as needed to meet the annual mandatory training requirements. No alternate providers are available as only those certified by STC can provide training that qualifies for the required up to 196 hours of core training and up to 40 hours annually per sworn staff member, depending on position.
