BACKGROUND:

Summary

On January 14, 2014, Item 9-4, the Board of Supervisors approved a revision to Ordinance 640, Department of Environmental Health (DEH) Service Fees. The revised ordinance authorizes DEH to seek adjustments to the fees in Ordinance 640 no later than April 15th of each year. DEH has submitted its Fiscal Year 25/26 recommended budget to the Executive Office. The budget represents increases in employee salaries/benefits, an increase to ISF rates, and proposed facility improvement projects. The department has completed a cost study in accordance with Board of Supervisor's Policy B-4, *Rates Charged for Current Services*, to support the FY25/26 recommended budget. DEH last raised fees in FY 24/25 an average of 3%, but not more than 6% in any one single fee category. Prior to that (FY 23/24) DEH did not increase its fees and absorbed increased costs, due to the continued challenging economic conditions related to COVID-19 and balancing increased departmental operating costs.

DEH is proposing updates to the narrative of the ordinance and the layout of its fee structure. Several changes to the narrative are needed to streamline language for permit generation and permit issuance, delinquency applicability timing, and the fee adjustment methodology. These proposed changes will help constituents identify and locate the fee and fee category and compare previous fiscal year fees to the proposed changes, if any.

Impact on Residents and Businesses

The proposed revised Environmental Health Service fees are necessary for the on-going operational costs to ensure effective and efficient delivery of environmental health programs for the benefit of Riverside County residents and businesses.

Additional Fiscal Information

DEH established a cost model to support its FY25/26 fees. The cost model allows the department to measure the level of effort of providing services, allocate indirect costs on an equitable basis, and ensure fees are fairly charged. The cost model also ensures passthrough revenues are properly applied to offset the department's operating costs. DEH is requesting an average fee adjustment of 5% shown in Attachment A.
