BACKGROUND:

Summary

Riverside University Health System – Public Health (RUHS-PH) relies on a robust server infrastructure to deliver essential programs and services to the community. These servers are housed in two primary data centers: the County Data Center and the Health Administration Building (HAB). This infrastructure supports a wide range of public health operations, including data storage, application hosting, communications, and other mission-critical services.

The servers in use across both data centers are aging and, if not proactively replaced, are at an increasing risk of failure. Aging hardware is more prone to unexpected downtime, security vulnerabilities, and performance issues, all of which can directly impact the delivery of public health services. A system failure could result in significant disruptions to operations and the community services we provide.

To mitigate this risk, it is essential to continue an annual replacement cycle for outdated servers. This approach ensures we maintain system reliability, minimize downtime, and keep pace with modern technology standards. It also supports compliance with county Information Technology policies and promotes long-term cost savings by reducing emergency repair costs and improving energy efficiency.

The purchase is critical to RUHS-PH's ability to function securely and effectively. Investing in modern infrastructure not only protects our existing services but also positions us to adapt to future public health demands.

Impact on Residents and Businesses

There are no negative impacts on residents or businesses in the County of Riverside. This purchase will help improve the amount of time required to back up all the systems for RUHS-PH.

Additional Fiscal Information

The six (6) new HPE servers are a one-time cost and have been purchased within fiscal year 24/25 utilizing the department's budget.

Contract History and Price Reasonableness

On December 26, 2024, Riverside County Purchasing released a Request for Quote (RFQ) ITARC-000559. The notification was posted publicly on the County's e-procurement System (Public Purchase) and sent to multiple bidders to solicit Information Technology hardware

equipment. Multiple vendors responded and three (3) suppliers were awarded for the HPE servers: Nth Generation, Saitech, and GST. Riverside County Procurement, on behalf of RUHS-PH, requested quotes from the awarded suppliers from RFQ ITARC-000559 for the purchase of six (6) HPE servers. GST provided the deepest discounts on this request. The request before the Board of Supervisors is to authorize the ratification of the purchase.

 **Terms & Conditions**

THIS IS A QUOTATION ONLY AND IS NOT AN ORDER OR OFFER TO SELL.

All prices and descriptions are subject to change without notice. No contract for sale will exist unless and until a purchase order has been issued by you and accepted by Golden Star Technology Inc. ("GST"). By issuing a purchase order to GST, you agree to GST's Terms and Conditions of sale set forth in GST's quote, GST's invoice, and GST online Terms and Conditions (<https://gstinc.com/resources/terms-and-conditions/>). If there is a separate purchase agreement signed by both your company and GST, the separate agreement will govern.

The prices contained in this list may not be relied upon as the price at which GST will accept an offer to purchase products or provide services unless expressly agreed to by GST in writing. Products and/or services quoted were selected by GST based on specifications available at the time of the quotation and are not guaranteed to meet your specifications. Product and services specifications may be changed by the manufacturer without notice. All products are subject to availability from the manufacturer. It is your responsibility to verify product and service conformance to specifications of any subsequent contract.

The freight costs listed are estimates. Shipping costs may vary based on time of purchase, additional services required, quantity ordered, shipment carrier and warehouse sourced. Actual shipping costs will be calculated during shipment and will be reflected on your invoice.

For hardware product(s), manufacturer warranty will begin upon physical delivery of the hardware product(s) by the customer or GST warehouse. For software product(s), the manufacturer warranty will begin upon electronic or physical receipt of the software product(s) by you or GST. Any returns must be approved by GST based on manufacturer approval. More details at gstes.com/RMA.

Client acknowledges that applicable sales tax rates may change after the initial quotation is provided and before the final invoice is issued. In the event of a change in the applicable sales tax rate, GST reserves the right to adjust the sales tax amount accordingly. The Client agrees to pay the updated sales tax amount as required by applicable law at the time of the invoice issuance.

GST is not responsible for compliance with regulations, requirements or obligations associated with any contract resulting from this quotation unless said regulations, requirements or obligations have been passed to GST and approved in writing by an authorized representative of GST.

GST DOES EVERYTHING WE CAN TO ENSURE THAT THE PRICES WE HAVE QUOTED ARE CORRECT AND CURRENT. DUE TO SHORTAGES OF RAW MATERIAL, INCREASED LOGISTIC COSTS, AND TARIFFS, PRICING MAY INCREASE AT ANY TIME FROM OUR VENDORS AND MANUFACTURERS THAT IS OUT OF OUR CONTROL.
