C.E.O. RECOMMENDATION: Approve

BACKGROUND:

Summary

Riverside University Health System (RUHS) is seeking authorization to issue a Purchase Order to CDW Government LLC (CDW-G) for the implementation of Cohesity’s backup and data recovery platform. This solution will enhance the protection and availability of RUHS’s critical health data, strengthen the security of patient records, support rapid recovery in the event of a system outage or cyberattack, and help ensure continued compliance with health data regulations.

Cohesity’s centralized platform allows RUHS to manage backups across both on-premises and cloud environments. This streamlines IT operations and reduces administrative burden. It also includes built-in ransomware protection through immutable backups and advanced threat detection, helping to ensure patient care can continue uninterrupted.

By improving data storage efficiency through compression and deduplication, the system also helps reduce long-term infrastructure costs. This scalable and resilient solution supports RUHS’s commitment to delivering high-quality, uninterrupted care while maintaining fiscal and regulatory responsibility.

Impact on Residents and Businesses

These services are a component of RUHS’s system of care aimed at improving the health and safety of its patients and the community.

Contract History and Price Reasonableness

This purchase is being made through the county’s Vizient Group Purchasing Organization (GPO) member program. The comprehensive contracting process administered by Vizient has been found by the Board to meet the statutory requirements for competition which was approved on June 27, 2023 (Item 15.5).

RUHS-MC is seeking Board approval as the cost exceeds the authority delegated to the purchasing agent to execute purchase orders in excess of \$100,000 for professional services.
