In summary | am asking for an intervention. The safety and welfare of our community is at stake due to the gross mismanagement of our water system. We have received several Coli violations from the EPA because of water breaks in our aging system. We have no monetary reserves. The water manager and board refuse to implement a text alert system to let us know when there is a water break. It is the water managers responsibility as per the Water Managers Certification Course given by the California Rural Water Association, to implement this system. This board in my opinion, with its indirect ties to a convicted felon and inability to hold the current water manager accountable for his highly disfunctional behavior, cannot be trusted with a 2 million dollar grant or loan. Upon doing my research of the formation of the water district | believe it was implemented with the approval of the Riverside County Board of Supervisors. | am asking that approval be revoked and that the management of our system be done by a local water association such as the Desert Water Association of Palm Springs. There are many new homeowner renovations currently taking place throughout our small community and several young families now reside here. In addition to health and management issues whenever there is a fire in our area we loose water pressure as the fire department uses our water as well.

Riverside County Board of Supervisors
4080 Lemon Street, 5th Floor
Riverside, CA 92501

Dear Riverside County Board of Supervisors,

My name is Robert Ferguson. I live in Mountain Center and am a member of the Pinyon Pines County Water District.

I am presenting you with this information as a plea for help regarding our water system that is in disrepair and being grossly mismanaged.

We are designated as a special water district in that we are expected to manage and financially support our own district without government oversight or involvement.

As per the California Rural Water Association water manager certification program our water manager was advised almost 50 years ago, by the EPA to start collecting funds for a reserve for maintenance and replacement of items for our water system. Our current water manager who was the water manager then, failed to do this. The total amount of money that we currently have for the operation of our system is around \$13,000 with no reserves. The replacement cost of our current gravity flow system is around two million dollars.

Attached herein are three letters hand delivered to the board. Due to the violent nature of our water manager, attacking members and throwing them out of meetings when confronted with this disfunctional behavior, local law enforcement had to be called in to the meetings to assure delivery of the letters.

The first letter dated October 6th 2024 refers to the board inviting a convicted felon who spent over a year in prison for defrauding the government, to sit at the board table during the meetings. They were told by the community that they needed to hold an election for a new member to serve as a board member. Several highly qualified members of the community submitted resumes but the board decided to elect the wife of the convicted felon who seemed to be their personal friend.

In the letter dated December 1st 2024 it is mentioned that the water manager owns several properties in the community. An explosion was witnessed at one of his properties. Local authorities were called, the community member who witnessed it was on scene was told by the authorities that there were several propane tanks in the yard and that this is usually a sign of meth production. A small trailer in front the property was gone by the following morning. When confronted with this at a meeting the water manager insisted the tenants were having a BBQ. There was no BBQ grill. Only a black charred area on the ground where the explosion took place. The member was thrown out of the meeting.

There cannot be a recall as members of the community are in a constant state of fear of having their water shut off for confronting them. Please see follow the below link to the video. This was simply the board members putting up an awning to protect themselves from the over 90 degree weather. The woman who is berating the elderly man is the wife of the water manager who is standing behind her.

<https://youtu.be/e43FGQdkTyQ?si=gFLNDpUTyKmNik9Y>

A complaint was filed against the board citing possible embezzlement. The attorney that did the investigation never bothered to review what he thought were our bylaws. I spoke with the attorney, clarified that these were not bylaws but were just rules regarding the water system. He reiterated that although they did not find any evidence of embezzlement he did say that this board is rogue and has no accountability to the members of the community or to each other because there are no bylaws or codes of conduct.

The board is currently seeking a two million dollar grant to make up for the reserves the water manager failed to collect. The water manager pockets about 70% of the funds collected from members of the community to run the system. It is concerning that they have given indirect access to board decision making and possibly finances to a convicted felon though his wife.

In summary we need help. The members of the community do not understand the concept of a self managed water system and they do not want this responsibility. We are only a community of about 60 homeowners. The only reason the system has survived is because it operates on gravity flow coming from a local underground spring and requires very little maintenance.

Yours Sincerely,

Robert Ferguson
Pinyon Pines County
Water District Member

Re: Board Code Violations

Dear Board of Directors:

On behalf of the members of the Pinyon Pines County Water District members please be advised of the following:

According to California special water district code 30500 you are required to have 5 active members serving on the board. According to your website you have only 4 board members. James Maloon passed away several month ago.

According to California special water district code 30504 you are required to fill the vacancy per California code 1780 in that you are required to notify your Riverside County elections official of the vacancy no later than 15 days of the vacancy. Did the board take this action within the time frame required by law? If so please remit the dated evidence to the address provided herein.

As per subdivision (d) of the California special district water code 1780 the Board has 60 days from the day of the vacancy to post a notice of the vacancy in 3 conspicuous locations throughout the Pinyon Pines County Water District. Was this done? If so please remit the dated evidence to the address provided herein. Please note that the bulletin board at the community mailboxes is not a sufficient conspicuous location as the notices are not secured from being removed, vandalized or blown away by high winds. Also because of high vandalism of the mailboxes there are many members of the water district that do not use them.

Please note that members of the community would like to be notified when there is a vacancy on the Board. It has come to our attention that you are deliberately avoiding telling members of the community about theses vacancies to ensure that only your personal friends and associates serve on the board. If you do not take immediate action to rectify the situation legal action will be taken against you.

Sincerely,

Members of the Pinyon Pines County Water District

Subject: Management of our Water Utility

Dear Members of the Board:

We would like to bring to your attention the following matters.

According to the Water Manager Utility Certification Course provided by the California Rural Water Association, in 1996, the Environmental Protection Agency advised Water Utility Managers to avoid offering significantly reduced water rates to their communities. This guidance was prompted by a situation where a water community lost its water source due to aging and obsolete equipment. Water Utility Managers were encouraged to revise their pricing structures with a focus on the long-term sustainability of their water systems. This adjustment would require them to increase rates to ensure adequate funding for future maintenance and replacement needs. This concept is known as financial and technical capacity, for which the Water Utility Manager holds responsibility.

It is important to recognize that at this juncture, our current Water Utility Manager should have revised our water fees accordingly. For instance, implementing a \$20 fee at that time would have provided the Pinyon Pines Water Utility with approximately \$500,000 to address system replacements and repairs. It was the responsibility of our current Water Utility Manager to guarantee that our financial resources were sufficient for long-term sustainability, thereby facilitating the opportunity to seek grants and low-interest government-funded loans.

The Pinyon Pines Community has engaged with representatives from local water authorities, who have indicated that due to the financial mismanagement by our current Utility Water Manager, it is improbable that we will secure either a grant or a loan for the replacement and repair of our system.

The Water Utility Managers Certification Course, as outlined by the Environmental Protection Agency, emphasizes that the foremost responsibility of water utility managers is to maintain a consistent and supportive relationship with the constituents they serve. This is primarily due to safety concerns. A Water Utility Manager must prioritize the well-being of the community. For instance, in the event of a water main break that allows E. coli bacteria to enter the water supply, it is impera-

tive for the Water Utility to have an effective communication system established. This system should enable them to promptly notify all community members of the health risks associated with the breach within minutes. Utilizing modern technology, our Water Utility Manager can promptly notify every community member of any health risks within minutes, or even seconds, for a nominal monthly fee.

It has come to our attention that numerous members of the Pinyon Pines County Water District have faced animosity and hostility from our current Utility Water Manager and his spouse, as evidenced by the videos available at the following link:

<https://www.youtube.com/@pinyoncommunity/videos>

The current Water Utility Manager has failed to establish a constructive relationship with the community and, in fact, has done the opposite, leading to significant concerns regarding the safety of our water supply.

As you are aware, the Board of Directors was elected by the community to oversee our water system, which includes the selection and management of a trustworthy Water Utility Manager. We urge you to implement both disciplinary and corrective actions concerning these matters. Please be informed that a lack of action may lead to potential legal consequences for you.

Sincerely,

Members of the Pinyon Pines
County Water District

Subject: Management of our Water Utility

Dear Members of the Board:

We wish to draw your attention to the following issues.

As you are aware, the Pinyon Pines County Water District was recently subject to an investigation by the Riverside County District Attorney's Office concerning allegations of embezzlement and the improper use of public funds. While no definitive criminal activities were identified, the investigators informed the plaintiffs that the current water manager's practice of receiving \$700 monthly for rent lacks oversight due to the absence of established codes of conduct or by-laws addressing conflicts of interest. This situation results in a complete lack of accountability among the board members and to the Pinyon Pines Water Community regarding such conduct.

As per the Water Manager Certification Course provided by the National Rural Water Association (NRWA) and the financial obligations of the water manager, we would like to highlight the following points:

The certification course emphasizes that it is the water manager's duty to manage financial capacity, which includes Asset Management, Capital Improvement, Equipment Replacement, and funding for Asset Management. Our current financial records indicate that the water manager is receiving funds for the following:

Rent for the water manager's building, totaling \$8,400.00 annually. This expenditure was not voted on in a board meeting, and the community was not informed of it. Typically, meetings in small water communities are conducted at the residences of water members. Had a code of conduct been established for this board, such behavior would have been deemed unacceptable due to the potential conflict of interest.

Self appointed secretarial position totaling \$7220.00 annually. Again it appears there is no record of this position being appointed to our water manager in a formal meeting. If there are meeting records please submit them to the address herein.

In addition to the aforementioned expenses, there is an annual medical benefit of \$7,800 and a salary of \$16,800. Our water manager has repeatedly informed community members that he is a recipient of Medicaid and incurs no costs for his medical care. We request the submission of receipts demonstrating that these funds are being utilized for medical expenses. Please send them to the address provided.

According to your financial report for the year 2023-2024, our total income amounts to \$61,000. Out of this total, \$40,220 has been allocated to our water manager, which constitutes nearly 70% of our overall income. There have never been any funds designated for Asset Management, Capital Improvement, Equipment Replacement, or any related initiatives. This unsustainable financial situation has persisted for several decades under the same water manager.

Please be informed that as the Pinyon Pines County Water District Board, you bear full responsibility for this predicament, as it is your duty to oversee the actions of our water manager. You are personally accountable for the financial incapacity resulting from your lack of managerial oversight and are hereby notified by the Members of the Water District.

Furthermore, it is concerning that our water manager owns multiple properties within the community, for which he has received numerous code violation notices from the Riverside Department of Code Violations. If he is unable to manage his own properties effectively, how can we place our trust in him to oversee our water source, which is vital to the community?

According to information from local water authorities, in a water district as small as ours, much of the operational work is carried out by community volunteers, including the role of water manager. Our community is fortunate to have several highly qualified candidates who are willing to volunteer for both the water manager and treasurer positions. This initiative could potentially save enough funds over five years to establish our reserve at \$240,000. Furthermore, it is their belief that due to the mismanagement of financial resources, it is highly improbable that we will secure funding at this time.

You are given a period of 30 days to implement corrective measures. Should you fail to do so, we will initiate a petition for your recall. A notice will be sent to all water members outlining our grievances against each board member. We require only 20 signatures to proceed with this action. Please provide your written response to the P.O. box indicated below.

Thank you for your attention to these matters.

Sincerely,

Members of the Pinyon Pines
County Water District

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, ensuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please ensure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo. **Speakers are prohibited from bringing signs, placards, or posters into the hearing room.**

Individual Speaker Limits:

Individual speakers are limited to a maximum of three (3) minutes. The Board may limit the public input on any item, based on the number of people requesting to speak and the business of the Board. Please step up to the podium when the Chair calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 30 seconds remaining, the "yellow" light will begin flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chair adheres to a strict three (3) minutes per speaker. ***Note: If you intend to give your time to a "Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.***

Group/Organized Presentations:

Group/organized presentations with more than one (1) speaker will be limited to nine (9) minutes at the Chair's discretion. The organizer of the presentation will automatically receive the first three (3) minutes, with the remaining six (6) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the front bottom of the form.

Addressing the Board & Acknowledgement by Chair:

The Chair will determine what order the speakers will address the Board and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using coarse, crude, profane or vulgar language while speaking to the Board members, staff, the public and/or meeting participants. Such behavior, at the discretion of the Board Chair may result in removal from the Board Chambers by Sheriff Deputies.

Santa Ana Unified could lose 350 teachers and counselors due to budget cuts

By [Yusra Farzan](#)

Published Dec 20, 2024 1:20 PM

The school board passed a resolution on a 4-1 vote Thursday evening that paves the way for the layoffs as the district tries to close a more than \$180-million deficit.

According to a staff report, state and federal COVID relief grants aren't available for the school district and the state is cutting revenue based on the average daily attendance. At the beginning of the pandemic, the school district had 47,000 enrolled students, but that has since dropped to 36,000.

The school district is now looking at cutting around 169 teachers, 57 counselors, 55 instructional coaches, 15 curriculum specialists, 21 itinerant teachers and other positions.

At the same time, the school district is proposing a 3% pay bump and 3% bonus for Superintendent Jerry Almendarez, who made \$347,083 in 2022, according to public records.

National Blue Ribbon Schools

A federal No Child Left Behind program that celebrates many of America's most successful schools. Its goal is to promote education in America.

Program Information

A component of the California Department of Education (CDE) [California School Recognition Program \(CSRP\)](#), the National Blue Ribbon Schools Program recognizes public and private elementary, middle, and high schools based on their overall academic excellence or their progress in closing achievement gaps among student subgroups.

Originated by Secretary of Education Terrel H. Bell in 1982, the National Blue Ribbon Schools Program is an important part of the U.S. Department of Education (ED). The coveted National Blue Ribbon School award affirms the hard work of students, educators, families, and communities in creating safe and welcoming schools where students master challenging and engaging content. The National Blue Ribbon School flag gracing an entry or flying overhead is a widely recognized symbol of exemplary teaching and learning.

**IN SUMMARY**

The Inland Empire is falling behind in educating students for well-paid, professional jobs, limiting the economic prospects of the region's youngest inhabitants. In an effort to raise that ceiling, educators are trying to get tweens to envision their potential for a college degree.

On a recent rainy day, several dozen students sat in a UC Riverside classroom, planning their path to college.

These weren't high school seniors. They were seventh graders getting a jump-start on the competitive university application process. They're part of a university program called the Middle School Initiative that aims to get Inland Empire students thinking about higher education long before they take their first AP class or submit an application.

Student suspensions in Oceanside Unified have plummeted with the help of wellness centers, conflict-resolution coaches and a new approach to discipline.

clothing closet with a range of options, from when a student finds themselves needing new pants during the school day to a rack of prom dresses.

The school's wellness center, like its new counterpart at El Camino High, is part of the Oceanside Unified School District's ongoing work to develop healthy relationships between its high schools' staff and students and to improve how it administers discipline, and ideally to intervene before it becomes necessary.

That effort has also involved working to build student-teacher relationships, offering alternative forms of discipline, training educators on implicit bias implicit-bias and using restorative-justice coaches to help improve conflict resolution.

Administrators credit that work with a steep drop in student suspensions in just the last few years, and a growing number of school-level mediations. So far this school year, the district has seen only one third as many student suspensions as it did three years earlier.

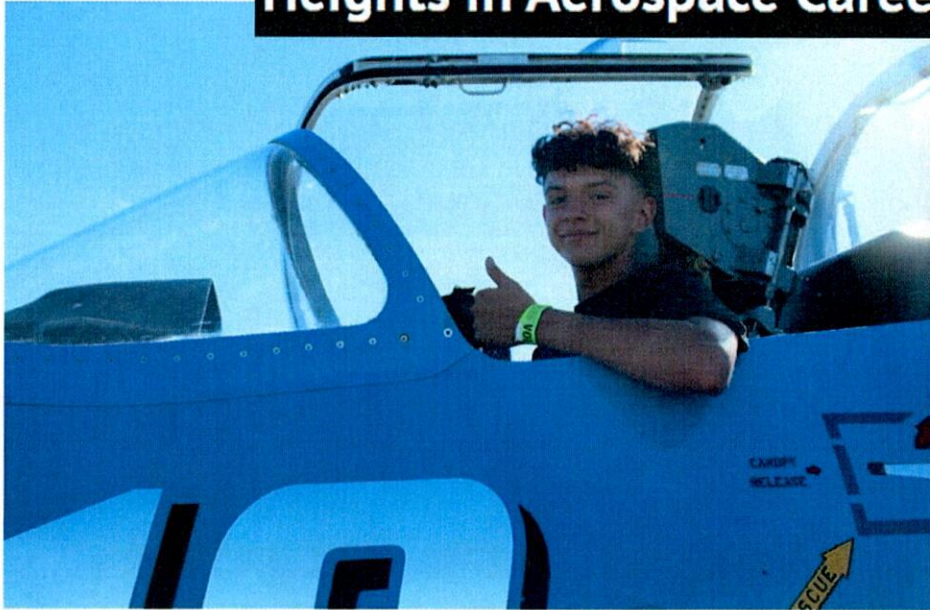

At Oceanside High, suspensions have dropped even more dramatically, down to just 57 this school year from 323 three years earlier.

BOARD RULES

Requests to Address Board on "Agenda" Items:

You may request to be heard on a published agenda item. Requests to be heard must be submitted to the Clerk of the Board before the scheduled meeting time.

Requests to Address Board on items that are "NOT" on the Agenda:

Notwithstanding any other provisions of these rules, member of the public shall have the right to address the Board during the mid-morning "Oral Communications" segment of the published agenda. Said purpose for address must pertain to issues which are under the direct jurisdiction of the Board of Supervisors. YOUR TIME WILL BE LIMITED TO THREE (3) MINUTES. The Board may limit the public input on any item, based on the number of people requesting to speak and the business of the Board.

Power Point Presentations/Printed Material:

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, ensuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please ensure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo. **Speakers are prohibited from bringing signs, placards, or posters into the hearing room.**

Individual Speaker Limits:

Individual speakers are limited to a maximum of three (3) minutes. The Board may limit the public input on any item, based on the number of people requesting to speak and the business of the Board. Please step up to the podium when the Chair calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 30 seconds remaining, the "yellow" light will begin flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chair adheres to a strict three (3) minutes per speaker. ***Note: If you intend to give your time to a "Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.***

Group/Organized Presentations:

Group/organized presentations with more than one (1) speaker will be limited to nine (9) minutes at the Chair's discretion. The organizer of the presentation will automatically receive the first three (3) minutes, with the remaining six (6) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the front bottom of the form.

Addressing the Board & Acknowledgement by Chair:

The Chair will determine what order the speakers will address the Board and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using coarse, crude, profane or vulgar language while speaking to the Board members, staff, the public and/or meeting participants. Such behavior, at the discretion of the Board Chair may result in removal from the Board Chambers by Sheriff Deputies.
