BACKGROUND:

C.E.O. RECOMMENDATION:

An ad hoc committee is a temporary committee formed for a specific purpose or task and is dissolved once its objective is achieved. An ad hoc committee are often created to focus on short-term effort when needed to investigate a matter, provide advice, or carry out a specific duty. Once the committee has completed its work and reported its findings or recommendations, it is disbanded.

An ad hoc committee is comprised of two Supervisors for the purpose of producing a report in less than six months is advisory and exempt from the Brown Act because it is comprised solely of less than a quorum of the Board of Supervisors members and is not a standing committee because it is charged with accomplishing a specific task in a short period of time.

In 2020 the State legislature passed Assembly Bill 1185 authorizing counties to establish a sheriff oversight committee and an office of inspector general with subpoena authority. Currently, seven counties have an oversight body including Santa Clara, Sonoma, Sacramento, Los Angeles, San Francisco, San Diego and Orange with annual operating budgets starting at $1,559,269.

Oversight of the Sheriff's Department can be a strong good government approach to fulfilling the responsibilities of the Board of Supervisors. Oversight strengthens department transparency, supports independent identification of department training needs, and helps the community better understand department operations and services. Oversight supports trust in public safety by creating a local avenue to recognize and address community concerns. Greater community trust in department operations creates a safer and more functional working environment for sheriff deputies.

Seeking to offer greater transparency, trust and efficiency, it is recommended that the Board of Supervisors create an ad hoc committee to consider establishing a Sheriff's Department oversight committee and office of inspector general as authorized by Assembly Bill 1185. The oversight committee will only advise the Board of Supervisors and the Sheriff's Department, without managerial or disciplinary powers.

An oversight committee and inspector general will have the power of subpoena to review, investigate and advise the Board of Supervisor on the Sheriff's Department operations, internal and external complaints, department-involved deaths, and will regularly report to the Board of Supervisors.

The work of the ad hoc committee will consider all aspects of structuring and funding an oversight committee and an inspector general including, among other needs and objectives, scope, committee representation, organizational structure, budget, reporting and accountability.

The ad hoc committee, working with the Executive Office, Human Resources, County Counsel, Sheriff Department and others, would seek to deliver a proposal to establish a Sheriff's Department oversight committee and inspector general to the Board of Supervisors for its consideration.

Impact on Residents and Businesses

The proposed ad hoc committee represents a proactive step towards a thoughtful creation of the Sheriff's Department Oversight Committee and Office of Inspector General. Seeking to offer greater operations, internal and external complaints, department-involved deaths, and will regularly report to the Board of Supervisors.

The Chair will determine what order the speakers will address the Board and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using course, crude, profane or vulgar language while speaking to the Board members, staff, the public and/or meeting participants. Such behavior, at the discretion of the Board Chair may result in removal from the Board Chambers by Sheriff Deputies.

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Pamela Caro

Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Anna Lynd

· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Kevin M Sullivan

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Julio Olguin

Re: Opposition to Board Agenda Item 3.82 – Formation of a Sheriff's Department Oversight Committee and Office of Inspector General

Dear Chair and Honorable Members of the Board,

I am writing to express my firm and unequivocal opposition to Agenda Item 3.82, which proposes the creation of a Sheriff's Department Oversight Committee and the establishment of an Office of Inspector General.

This proposal is not the result of broad community consensus or a demonstrated operational failure. Instead, it is being driven by politically motivated activists who are pushing a narrative that undermines law enforcement rather than strengthens it. Let's be clear: this measure is a solution in search of a problem, and it risks weakening the very people who work every day to protect our communities.

Counties that have pursued similar oversight structures have seen firsthand the cost, dysfunction, and lack of measurable results. These committees routinely demand upwards of $1 million or more in taxpayer dollars annually, yet yield little more than bureaucratic gridlock, legal uncertainty, and adversarial relationships between oversight bodies and law enforcement agencies. Rather than fostering transparency or accountability, these efforts often devolve into politicized investigations that compromise public trust and officer morale.

Even more concerning is the fiscal recklessness of this proposal at a time when Riverside County is facing serious budget constraints. During recent budget hearings, this Board was unable to fully fund the core operations of the Sheriff's Department. It is both irresponsible and unjustifiable to divert scarce resources toward redundant

oversight mechanisms while our deputies are being asked to do more with less. Public safety should never take a back seat to political theater.

Oversight in government must be balanced, grounded in facts, and driven by community need—not political pressure. This initiative fails all three tests. I urge the Board to reject Agenda Item 3.82 and instead direct your efforts toward reinforcing public safety, supporting law enforcement, and investing in proven solutions that serve the entire county—not just special interest agendas.

Thank you for your attention to this critical issue.

Respectfully,

Natasha Johnson

I am OPPOSING Assembly bill 1185 (Agenda Item 3.82) and the Riverside County Supervisors creating a Sheriff Oversight Board.

This whole proposal dates back to 2020 when now current Supervisor Medina proposed this into law. He also alleges that there is no cost to enact such a bill which is totally FASLE and misleading. Los Angeles County has such a measure in force and financial records will PROVE it costs over 1 MIllion annually to run., naturally at taxpayers' expense!

This is nothing more than a layer of government that is totally unnecessary to have or enact.
This will cause further rifts within the Riverside Sheriff's Department in enforcing their duties and responsibilities,

It has been further reported that as civilians appointed to the oversight board are not allowed into active crime scenes, and rightfully so should NOT be allowed or entitled "before the bodies are even cold".

Police Officers need to be respected, and this proposal by Supervisor Medina if this measure is passed will bring further a further level of BLATANTLY DISRUPTIVE oversight to the Riverside Sheriff's Department.

I urge you to OPPOSE and VOTE NO on any form of passage.

Thank You for your time and consideration.

I oppose AB 1185, Agenda Item 3.82, because it is just another politicized agenda to scrutinize and create a Sheriff's Oversight Board and Inspector General including subpoena powers to investigate the activities of an upcoming Republican Candidate for California Governor, Sheriff Chad Bianco, who is combating crime in California's Sanctuary State, replacing Gavin Newsom. This is a typical Democratic move to drag thkeir opponents through lengthy hearings with taxpayers footing the bill. The American people want Justice, safety in our streets, and eliminate crime.

By Steve Sanchez, Marine Corps Veteran & La Quinta City Councilman

As a Marine Corps veteran and La Quinta City Councilman, I've dedicated my life to service—both on the battlefield and in our community. I've seen what happens when politics interferes with frontline operations. Whether in combat zones overseas or city halls at home, the consequences are always the same: mission failure, chaos, and danger to the very people we're meant to protect.

That's why I strongly oppose the Riverside County Board of Supervisors' proposal to create a politically driven civilian oversight committee.

Let me be clear: this proposal is not about transparency—it's about control. It's modeled after failed systems in Los Angeles, San Francisco, and Oakland—places where crime is up, morale is down, and law enforcement recruitment is in crisis. Over 6,000 officers have walked away from departments in those regions. That is not a coincidence. That is what happens when you try to govern public safety through political theater instead of operational necessity.

Riverside County already has robust, multi-layered oversight in place:

Use-of-force investigations are handled by outside agencies like the Force Investigation Division (FID).
In-custody deaths are reviewed independently by the San Bernardino Sheriff's Department.
We have a Civilian Advisory Committee, a Civil Grand Jury, Internal Affairs, POST (Peace Officer Standards and Training), and multiple complaint channels—each accessible to the public and accountable to the law.
Despite this, special interest groups—many of whom aren't even rooted in voter representation—want to bypass our system of checks and balances. One such group, IE United, only received 2,000 survey responses in a county of 2.5 million people. That is not a mandate. That's a marketing strategy disguised as public consensus.

Real oversight already exists. It's called elections. The Sheriff, the District Attorney, all 5 members of the Board of Supervisors, and even the Mayors and Councilmembers who contract with the Sheriffs are directly accountable to the voters. If the public believes law enforcement isn't meeting expectations, they have the power to make a change at the ballot box. That is the essence of a constitutional republic.

Unfortunately, what this proposal really does is shift power from the voters to unelected political appointees—many of whom may have no experience in public safety, may carry activist agendas, or may even have pending legal disputes with the Sheriff's Department. That's not accountability. That's political infiltration.

If enacted, this committee could be granted subpoena power over law enforcement—risking due process, jeopardizing investigations, mishandling confidential information, and exposing the County to massive legal liability. Deputies would be placed under a microscope not by objective legal standards, but by political bias and public perception.

As someone who served in Iraq, I've lived under "rules of engagement" written by people who never wore a uniform. It made the battlefield more dangerous and the mission more complicated. The same is

happening now in our own backyard. Deputies are hesitating, morale is sinking, and criminals are exploiting the chaos. If you don't believe me, ask why Los Angeles County can't retain or recruit deputies even with competitive pay. The answer is morale, not money.

We must also consider the tremendous strain this committee would place on County resources. Investigations are time-consuming and expensive. The County has already cited budget shortfalls for law enforcement staffing—how will it afford duplicate oversight? Before a single new layer of bureaucracy is created, taxpayers deserve a full cost-benefit analysis.

And what's the plan to ensure this committee doesn't become permanent, bloated, or unaccountable itself? There's no sunset clause. No strict standards for training. No guarantees of neutrality or legal literacy. In fact, without safeguards, this oversight body risks becoming more harmful than helpful—damaging reputations, compromising public trust, and weakening our public safety infrastructure from within.

We can do better.

Let's start by honoring the systems already in place, improving them where needed, and—most importantly—supporting the men and women who protect this county with courage and integrity every day.

I urge the Riverside County Board of Supervisors to reject this shortsighted and dangerous proposal.

Let's preserve public safety—not politicize it.
Let's trust the voters—not hand power to unelected panels.
And let's always remember: strong communities are built on trust, not fear—and on law, not politics.

Opposing the Proposed Sheriff Oversight Committee

Good Morning Chair, Board Members, and fellow residents of Riverside County.

My name is Kyndra Wright. I come before you not just as a community advocate and a successful mortgage banker—proudly helping families across California achieve homeownership through the Wright Loan—but also as a wife and the mother of two young boys who reside here in Riverside County.

And like every parent, my deepest concern is for the safety and future of my children, and of every family who calls this county home.

That's why I rise today in strong opposition to the proposed Sheriff Oversight Committee.

Let's be crystal clear—this proposal isn't about transparency. It's about control. It's being pushed by radical anti-law enforcement interests and modeled after failed policies in Los Angeles, San Francisco, and Oakland—places now grappling with surging crime, devastated officer morale, and the loss of over 6,000 trained professionals. Cities where their citizens have escaped and found solace in our county. Citizens I have helped relocate to our county for this very reason. This is not a coincidence—it's the cost of politicizing public safety.

We don't need more bureaucracy. We need more support for the men and women who put their lives on the line to protect us.

This proposed committee would remove accountability from where it belongs—with the voters—and hand it to unelected political appointees. That's not oversight—that's overreach.

If we want real oversight, we already have it—it's called elections. And if problems arise, we already have multiple layers of leadership, including city councils and mayors who contract with our Sheriff's Department. Councils I work with daily and I am standing with today.

As a mother, I want my sons to grow up in a community that values both justice and safety. As a wife, I stand with families who count on law enforcement every single day. And as a business leader, whose purpose is bringing citizens home, I know that safe communities are the foundation of thriving neighborhoods and strong economies.

As I conclude I want to Thank you for your time, consideration as I urge the board to support the voice of the voters, our elected officials, and our selfless law enforcement and reject this measure.

Good morning, Chair and Board Members:
1. My Name is Dirk Voss, resident of Desert Hot Springs and a City Councilman for the City of Desert Hot Springs.

2. I'm here to voice my opposition to the creation of an Ad-Hoc Committee to consider an Oversight Committee and Officer of Inspector General.

3. This is nothing more than a solution looking for a problem, creating unnecessary and politically driven policy that will ultimately prove to be a bureaucracy of duplication, wasted time, unlawful investigations that will ultimately violate personnel rules and employment protections thus creating litigation and lawsuits. There are no current oversight committees that have proven to be effective or even work.

4. The public expects better of their elected officials even if it means we have to do what's best by being proper instead of seeking out what is obviously an attempt to discredit the Sheriff who is running for Governor and create political sound bites to use later. This clearly looks like a partisanattempt to attack. Being complacent and voting yes byassuming it's "bound" to happen anyways is not good governance.

5. Experience and history have already shown these types of committees are politically driven, accomplish nothing and create a hostile work environment. Looking at other cities and counties where this has been adopted, it's hindered recruitment, hurt morale, and empowered Defund the Police Activist and has residents questioning the safety of their community. Recruitment of officers especially minority and female officers is tough enough as it is - you are simply adding a roadblock to improved recruitment numbers.

6. I'm sure people will bring up examples of "bad apples" but reality is given the vast number of employees there is in the County, you would find that general unit and management and others would have personnel issues and yet there's no Oversight Committee or Inspector General, but rather there are standard internal and external personnel rules and regulations including already in place State and Federal regulations, and other already professional standards ininvestigative policies.

7. Lastly, people moved to Riverside County because of our clean, safe and prosperous neighborhoods, the open space living, and to get away from big cities, urban crime and politically driven policies that continue to fail such as citieslike Los Angeles, San Diego, Long Beach and others. I urge you to vote No on the creation of an Oversight Committee and Inspector General position.

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Susan ODonnell

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Steven Martin

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Iveth Santos

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

james baldwin

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

The only additional funding worth voting on would be to increase the number of Officers on the Force. We do not need any more government "bodies" taking up space and collecting all of our hard earned tax dollars. DOGE is the only oversight committee we need.

Thank you Sheriff Chad Bianca. No thank you Jose Medina.

Honorable V. Manuel Perez
4080 Lemon Street
Riverside, CA 92501

Dear Chairman Perez,

Rising crime has plagued communities across the state for more than a decade. AB 109 and Propositions 47 and 57 created an environment that cultivated a criminal culture that included smash-and-grabs, auto thefts, and violent crime. These three bad laws protected criminals over law-abiding members of our communities. Voters rejected this path by passing Prop 36 in November, and we are already seeing the tides change.

Supervisor Medina campaigned on proposing an oversight committee and inspector general. Item 3.82 fulfills this promise. The Board, as responsible defenders of our community and its law-abiding members, may reject this proposal. This would align with the voters' clear sentiment and allow Supervisor Medina to fulfill his campaign promise without further risks to our communities.

Riverside County residents have chosen a tough-on-crime policy. They continue to elect Sheriff Chad Bianco by a wide margin. The Sheriff is an elected official, and an appointed oversight committee isn't necessary.
In fact, an oversight committee here would act as an indirect attack on our democracy. Supervisor Medina proposes a policy that conflicts with what most county residents want.

I submit that the answer is not putting anti-law enforcement activists in positions of power to undermine our public safety. Instead, support the will of the voters and align with Prop 36 by fully staffing the Benoit Detention Center with enough resources to ensure proper inmate care.

This will improve safety in our community and raise the level of care for inmates.

Starving our jail system and putting criminals back on the streets leads to the clashes between repeat offenders and law enforcement that cause the problems that prompt Supervisor Medina to make this proposal.

Please reject this proposal and redirect this ad-hoc effort to find ways to bring the John Benoit Detention Center to full capacity.

Respectfully,

Joe Pradetto
Palm Desert, CA

Dear Members of the Riverside County Board of Supervisors,

As a resident of Riverside County, I'm writing to urge you to VOTE NO on this proposal to create an ad hoc to consider the creation of a sheriff's oversight committee.

Creating such an open-ended committee with no protections opens the door to dangerous political interference in operational law enforcement decisions, shift power away from the voters and into the hands of non-elected individuals, who may not be held accountable to the public.

I stand with the deputies who honorably protect our county. I also fully support oversight and accountability, but multiple layers of oversight already exist in Riverside County for the sheriff's department including:

· Civil Grand Jury
· Commission on Peace Officer Standards and Training
· Professional Standards Bureau
· Sheriff's Civilian Advisory Committee
· Force Investigation Detail (The department does not investigate their own use-of-force or deputy involved shootings)

In June, the county stated that we are in a budget deficit and would be unable to fund essential public safety needs for our deputies. Not only is this oversight committee redundant (as it would less effectively duplicate oversight efforts), but it is also not feasible due to the budget deficit. For these reasons, we urge you to vote no on the creation of the ad hoc committee to discuss this issue.

Sincerely,

Joyce McMahon

Dear Board of Supervisors,

First, I would like to thank you for all you do for our communities and your constituents.
I am writing to respectfully as for your support a "YES" vote on item such as 3.82 to establish an "ad hoc committee" for Civilian Oversight of the Riverside County Sheriff's Department.

This is one of urgent importance to address specific tasks and issues in our Riverside County. The Civilian Oversight "ad hoc committee" can help to improve public confidence in law enforcement, increase transparency, and ensure accountability. We want to see strong relations with communities and sheriff's department. Nothing of what we are seeing now! We ask and want the Riverside County to invest in a system of oversight for the sheriff's department.

Thank you for your time, consideration and have a heart and good spirit to do the right thing. This will help our public understand law enforcement duties and most of all to build trust.

Gracias,

Civilian Oversight Commission for the Riverside County Sheriff's Department

I am writing to support a civilian oversight commission for the Riverside County Sheriff's Department and separation of the office of the sheriff from the county coroner's office. The Sheriff's Department accounts for $1 billion taxpayer dollars annually, but lacks any effective oversight or accountability. This lack of accountability has led to excessive use of force, racial profiling, civil rights violations, and 220 in-custody deaths between 2011 and 2024. Subsequent lawsuits have cost county taxpayers over $100 million. Without effective civilian oversight of the sheriff's office, these abuses will continue and will cost us even more both in terms of taxpayer dollars and human lives. And without separating the office of the sheriff from the office of the coroner, we will also continue to see conflicts of interest when people die when in custody. I implore all members of the Riverside County Board of Supervisors to vote in favor of a civilian oversight commission over the Riverside County Sheriff's Department and the separation of the office of the sheriff from the office of the coroner.

My name is Emma Carlsen, and I am a resident of Hemet, CA. I am writing today to urge the Board of Supervisors to support the enactment of oversight measures over the Riverside County Sheriff's Department. The people of Riverside County deserve a sheriff's department that serves with integrity, transparency, and accountability. The current lack of independent oversight and the concentration of power within the Sheriff's Office have created an environment of mistrust, fear, and injustice. Thank you.

Dear County Supervisor Perez,

My name is Jo Ann Bollen and I am a resident of Thousand Palms, California.

I am writing today to urge you to support the enactment of oversight measures over the Riverside County Sheriff's Department. The ongoing issues surrounding sheriff-involved shootings, in-custody deaths, and the significant financial liability have eroded public trust and demand urgent reforms.

To restore and maintain confidence in the sheriff's department and its operations, the County should establish an Oversight Board and an Office of Inspector General with subpoena power, as authorized under AB 1185.

The people of Riverside County deserve a sheriff's department that serves with integrity, transparency, and accountability. The current lack of independent oversight and the concentration of power within the Sheriff's Office have created an environment of mistrust, fear, and injustice. The time for change is now. I urge you to implement these critical reforms immediately to ensure public safety and justice for all Riverside County residents. Thank you.

Where's Officer Bloomer and CSO Christy? The ones that falsely arrested me have quietly disappeared. The ones who refused to allow my neighbor to help interpret so I could understand what was being said. A federal discrimination violation. What happened to the pictures I gave to the department? And the documentation? The evidence given to the department with two witnesses present? And the private investigator's report showing multiple policy violations and saying my truck showed no evidence of the other truck's damage? Who destroyed this evidence? A Brady violation of the SCOTUS decision. Why did DA Hestrin fail to investigate federal law violations? Why did he change an official "complaint" to a "concern"? Why did the County Supervisors do nothing? They have the evidence. Why did the Sheriff's Department lie to AG Bonte? Why has AG Bonte stalled on all the complaints made against Bianco over the past ten plus years? Who is paying off these politicians to keep quiet? The Sheriff's Department and DA's Department need investigations. Bianco and Hestrin need to be put on leave during any investigation. Immediately.

Hello Supervisors. My name is Cassandra L. Madison, and I live in Lake Elsinore.

I'm writing to you as a concerned resident asking you to support real and immediate oversight of the Riverside County Sheriff's Department.

Too many lives have been lost, too many questions remain unanswered—about sheriff-involved shootings, in-custody deaths, and the millions of taxpayer dollars spent on lawsuits tied to misconduct. This pattern of harm and silence has shattered public trust.

Let me be clear: we have lost faith and trust in Sheriff Chad Bianco. His personal actions and public affiliations with organizations that promote racial division and extremism have no place in a position of public leadership. These choices are not only disturbing—they are dangerous to the unity and safety of our community.

To restore any measure of confidence, we need independent oversight now. I urge this board to establish an Oversight Board and an Office of Inspector General with subpoena power, as authorized under AB 1185.

This is not a political request—this is a demand for justice, for transparency, and for a sheriff's department that serves all of Riverside County with integrity.

The time for change is not someday. The time is now. Thank you.

For years, Sheriff Chad Bianco has operated with virtually no oversight. He refused to support public health guidelines during a deadly pandemic. He shared data with ICE, in clear violation of state law. He has used official department platforms to promote extremist political views. And he's stonewalled civil rights investigations, dismissing them as partisan attacks. But the most chilling—and most unforgivable—issue, the one that should keep every one of you up at night, is the death toll inside our jails. A record number of in-custody deaths. Medical neglect. Suicides. One man murdered because of a classification error that placed him with a violent offender. And when grieving families ask for answers, they're often met with silence—or worse, misdirection. Why? Because the same man who runs the jail is also the one who, as county coroner, gets to determine the cause of death. That's not just a conflict of interest—it's a systemic failure of accountability.

Bianco's actions follow the dangerous playbook of the so-called "constitutional sheriff" movement, which claims sheriffs are above state and federal authority. Do you actually believe this man should have the authority to decide for himself whether a law is constitutional or not? That ideology has no place in a constitutional democracy—and certainly not in our county.

We need real, independent, and enforceable oversight. May I suggest, among other things:

- An Inspector General with subpoena power.
- Civilian review panels with access to records.
- Mandatory public reporting on use of force, jail conditions, and misconduct.
- And clear, accessible complaint processes that don't get buried in the sheriff's inbox.

Without these tools, the system will not change—because Sheriff Bianco has absolutely no incentive to. Enough deference. Enough pretending that power checks itself. You are the check. And this man needs one.

On behalf of the PASS DEMOCRATIC CLUB we write to support the creation of a Riverside County Civilian Oversight Board, and an Office of the Inspector General as authorized under Assembly Bill 1185 (McCarthy). After years of witnessing patterns of misconduct, racial profiling, in-custody deaths, and a total lack of transparency in disciplinary action, it is imperative that Riverside County invest in a system of oversight for the sheriff's department.

The Riverside County Sheriff's Department oversees law enforcement services for about 2.46 million residents, operates a 4,000-bed jail system, and includes the coroner's office that conducts investigations into the manner and cause of death. The department has over 4,000 employees with a budget of over $1 billion. And yet for a government agency so large there is no means of accountability outside of the limited function of the civil grand jury and the district attorney's office.

As a community based non-profit organization committed to public welfare we believe that our communities deserve a sheriff's department that serves with integrity, transparency and accountability.

Oversight isn't anti-law enforcement. Rather it helps ensure our hard-earned tax dollars are being spent appropriately. Oversight agencies can assist a county in liability management and reduce the likelihood of costly litigation by identifying and addressing problems before a lawsuit is filed. Between 2014-2024, the County paid out $73 million dollars in litigation lawsuits involving the sheriff's department. As a comparison other California counties with an oversight of their Sheriff's Department have annual costs of oversight between one to two million dollars.

In addition, oversight is a proven means by which communities can build strong relationships between their community and their sheriff department. These bodies help the public understand law enforcement duties, help deputies build trust with communities and provide a valid input for people to improve the legitimacy of the sheriff's department. In short, oversight is good for the community and the department.

We urge you, our elected County Board of Supervisors, to promptly implement these critical accountability measures to rebuild trust and ensure justice for all Riverside County residen

I want to voice my strong support for creation of an ad hoc committee to consider the establishment of a Sheriff's Department Oversight Committee and Office of Inspector General. There is much evidence of great need to oversee the Riverside County Sheriff's Department. Such a committee would assist the board and the public in understanding the needs, the processes and the advantages of a permanent committee. This is the necessary "order" we need to assure our "laws" are constitutional and not subject to the influence of anyone with their own agenda.

Hello, I strongly support civilian oversight of the Riverside County Sheriff's department. Captain Victoria Flores was fired after she reported corruption and abuse. The department is plagued by scandals, corruption, and abuse. Deputies that try to do the right thing are terminated. Civilian oversight will help restore the public trust in the SO.

I do not doubt Sheriff Chad Bianco's valor and devotion to protect the citizens of Riverside County. That said, Sheriff Bianco's approaches to challenges our county and country has faced have been very disappointing. One example of poor leadership was his refusal to help implement public health directives during the COVID pandemic. His statements and actions at the time demonstrated poor judgement during several surges of infection over a multi-year period. At the height of the pandemic, some hospitals ended up rationing care, or coming dangerously close to doing so. The fact that many of those who come down with COVID-19 do not die is not an excuse to allow critical infrastructure (e.g., hospitals) to be strained to the point of being virtually unusable by the public. Regional disasters, large-scale industrial accidents, and the usual medical emergencies do not stop because there is a pandemic. The Sheriff failed to see the pandemic for what it was: A threat to public safety, national security and the economy. In fact, a pandemic can cause as much damage to the people of a nation as an attack by foreign entities. Such a threat requires that elected officials, and the public they serve, stand together and take commonsense measures to minimize the danger. How can we trust an elected official who can't (or won't) protect the public in the event of an attack?

Another example of extremely poor judgment was Sheriff Bianco's year-long membership in the Oath Keepers group in 2014. By 2014 there was sufficient evidence that the group, launched in 2009, was intent on replacing interpretation of the U.S. Constitution with personal interpretations of the Constitution rather than by U.S. lawmakers and judges. Furthermore, the Constitutional Sheriffs and Peace Officers movement, to which Sheriff Bianco subscribes (or at least promotes), is an example of such thinking—a recipe for anarchy and chaos—not a democratic republic. One-person rule is a defining characteristic of dictatorships, autocracies, and monarchies—not democratic republics.

Lastly, we need leaders who promote common-sense thinking and solutions, not falling for the right vs. left politicization of every discussion. According to voter registration data, the percentage of registered voters in Riverside County—as of 2/10/25—breaks out as 38.28% Democratic, and 32.42% Republican. Given the somewhat even breakdown, it seems to me that Sheriff Bianco would want to get to know his Democratic constituents so he could better represent us. If he made sincere efforts to meet with us—not to castigate us as left-wing radicals—he might find that many of us grew up in conservative, blue collar families in the Midwest and we are not "radical." We are practical and logical and expect well-thought out solutions to the challenges we face. Sheriff Bianco's consistent misrepresentation of the Democrats (or anyone who disagrees with him) in our county does not inspire trust in him.

For the reasons cited above—including a record-number of in-custody deaths in the Riverside County jail system—I believe an independent oversight board would go a long way to restoring trust in the Sheriff's leadership.

Letter of Support for Robust Oversight of the Sheriff's Department via Establishment of a Riverside County Civilian Oversight Board and Office of the Inspector General

Message
July 26, 2025

Dear Riverside County Supervisors,

I am a life-long resident of Riverside, and I write today to urge you to provide robust oversight of the Riverside County Sheriff's Department. I ask you to create a Civilian Oversight Board and an Office of the Inspector General, both of which would have full access to sheriff's department records, would have power of subpoena, and would report directly to you as members of the Board of Supervisors.

Robust, independent oversight of law enforcement is a well-established, common sensical, economical and common tool of good governance of public services. It ensures ongoing accountability, fosters community trust and support, and guarantees responsible stewardship of community resources. Your oversight of our sheriff's department would be a win-win for the community and the sheriff's department.

Riverside County residents deserve a sheriff's department that serves with integrity, transparency and accountability. I urge you, our elected County Board of Supervisors, to fulfill the responsibility afforded you five years ago via Bill 1185: On behalf of the community and in order to fulfill your duties to the people you serve, I urge you to provide for robust oversight of the sheriff's department so that trust is built and justice is provided for all Riverside County residents.

Sincerely,
Julie Weatherford

It is 5 years overdue to have created a method to monitor and oversee the Riverside County Sheriff Department.

How many unnecessary deaths in custody and in the jails could have been prevented if oversight had been in place when it first became available for the County to institute?

A mechanism to address the rampant abuse of power and lack of training for jail staff has been in place since 2021:

AB 1185 allows each of California's 58 counties to establish civilian oversight bodies, such as a Civilian Oversight Commission (COC), to oversee their elected sheriffs.

The bill grants these oversight bodies the power to issue subpoenas, compelling witnesses to appear and produce documents.

AB 1185 also allows counties to establish an Office of the Inspector General to work with the oversight board

Ultimately it falls to the Riverside County Board of Supervisors to monitor and oversee ALL county departments . Saying the sheriff is elected doesn't remove that responsibly from the County Board. The many lawsuits the County has had to pay as a result of abuses or errors in the Sheriff Department and in the jails under its control should have made that obvious.

No department under the county's jurisdiction should be allowed to function without oversight. Not even a department for enforcing the law. The buck stops with you.

As a 40+ year resident of Riverside County, this is the first time I feel ashamed of our elected Sheriff, Chad Bianco. I have had the opportunity to work directly with the Sheriff's Department in the past and have always supported and respected their work, until now.

The fact that this Sheriff has created the worst death rate in our jails nationwide is embarrassing and unacceptable. He puts his political aspirations before his constituents and his job. He makes his political beliefs known which is unnecessary in a non-partisan position.

Our County Supervisors should absolutely aporove new oversight measures for this Sheriff and consider additional action if improvements are not made.

Dear Riverside County Supervisors,

My Name is Lou La Monte; I am a current resident in Riverside County District 4. Before that I was the Mayor of the City of Malibu. I am also a Past President of the California Contract Cities Association. Which represents about 80 Cities in Southern California including several from Riverside County, These Cities have contracted for Sheriff and Fire Dept Services from the County. Our job is to help negotiate these contracts and as the Contract Cities Liability Trust Fund Claims Board we review and approve liability payments for lawsuits against the Sheriffs Dept. I have worked with several sheriffs and I have some experience with this subject.

Our Riverside County Sheriff has no oversight. To restore and maintain confidence in the sheriff's department and its operations, the County should establish an Oversight Board and an Office of Inspector General.

The people of Riverside County deserve a sheriff's department that serves with integrity, transparency, and accountability. The current lack of independent oversight and the concentration of power within the Sheriff's Office have created an environment of mistrust, fear, and injustice.

In LA County, I've seen how effective the Inspector General and the Sheriff Civilian Oversight Commission is, and I ask that you consider Supervisor Medina's proposal very seriously, it could be a first step for the 2.4 million residents of Riverside County to get the transparency and accountability from the Sheriff that they are entitled to. Your decision will send a clear message about your priorities, and I believe the public will remember who chose courage over complacency. Thank you.

Lou La Monte

Establishing the proposed ad hoc committee shows that the Board of Supervisors is listening to its constituents and taking their concerns seriously. The committee could review the use of law enforcement oversight in other jurisdictions and determine the appropriate parameters for Riverside County.

The New York Times reports that the most likely explanation for deaths in detention facilities of the County Sheriff is that the employees are inadequately trained and supervised. More experienced deputies are working outside the detention centers. The detention centers have had numerous deaths and injuried go unexplained to the general public. I understand that the correctiinal officers at the detentiion centers have their Fifth Amendment rights and are represented by a union. This situation cries out for greater oversight from the County Council. In matters of life and death, secrecy should not be accepted practice.

I am writing to support the creation of a Riverside County Civilian Oversight Board, and an Office of the Inspector General as authorized under Assembly Bill 1185 (McCarthy). After years of witnessing patterns of misconduct, racial profiling, in-custody deaths, and a total lack of transparency in disciplinary action, it is imperative that Riverside County invest in a system of oversight for the sheriff's department. Every department needs some type of oversight. The sheriff's department must serve with integrity, transparency and accountability.

The Riverside County Sheriff's Department oversees law enforcement services for about 2.46 million residents, operates a 4,000-bed jail system, and includes the coroner's office that conducts investigations into the manner and cause of death. The department has over 4,000 employees with a budget of over $1 billion. And yet for a government agency so large there is no means of accountability outside of the limited function of the civil grand jury and the district attorney's office.

Oversight isn't anti-law enforcement. Rather it helps ensure our hard-earned tax dollars are being spent appropriately. Oversight agencies can assist a county in liability management and reduce the likelihood of costly litigation by identifying and addressing problems before a lawsuit is filed. Between 2014-2024, the County paid out $73 million dollars in litigation lawsuits involving the sheriff's department. As a comparison, other California counties with an oversight of their Sheriff's Department have annual costs of oversight between one to two million dollars.

We urge you, our elected County Board of Supervisors, to promptly implement these critical accountability measures to rebuild trust and ensure justice for all Riverside County residents.

Thank you,

Sincerely,

Honorable Riverside County Board of Supervisors: After reading the record of over 40 in-custody deaths over the last few years in Riverside County jails, I gasped in wonder! How is it that the public doesn't know this is happening? Surely, some of those deaths could have been prevented! And then, the financial numbers: lawsuit settlement payments amounting to $100 million over the last 10 years, that is $10 million per year! And that is paid out of the taxes that we citizens pay to the county, not out of the sheriff's budget! Something is terribly wrong . I need no more reasons to energetically support the establishment of a civilian oversight panel, since the County Board of Supervisors does not seem to be able to resolve these issues. Furthermore, it is obvious that there should be regular public reporting on them as well. Thank you

Dear Members of the Riverside County Board of Supervisors,

My name is Corey Cullen, and I am a resident of District 1. I'm writing to express my strong support for Agenda Item 3.82, which would establish an independent Civilian Oversight Commission for the Riverside County Sheriff's Department.

I want to thank Supervisor Jose Medina for his leadership in bringing this long-overdue proposal forward. Supervisor Medina understands what so many of us in the community have been saying for years: that transparency and accountability are not optional—they are essential to rebuilding trust between law enforcement and the communities they serve.

Riverside County is one of the largest and most diverse counties in the state. Yet we remain behind our neighboring counties, like Los Angeles and Orange, which already have functioning oversight bodies in place. These models have demonstrated that oversight is not about antagonism—it's about partnership, transparency, and ensuring that public safety truly serves the public.

Our Sheriff's Department holds tremendous power. With that power must come accountability. An oversight commission will provide a clear, fair, and professional structure for reviewing complaints, identifying systemic issues, and helping to improve policies and practices—ultimately supporting both community members and law enforcement officers.

This vote on July 29 is a critical opportunity to show Riverside County residents that their concerns are heard, and that their leaders are committed to building a more just, transparent, and responsive system of public safety.

I urge all Supervisors to vote YES on Agenda Item 3.82 and stand with the many residents across the county who are calling for common-sense oversight.

Sincerely,
Corey Cullen

I strongly support Supervisor Medina's motion to establish civilian oversight of the Riverside County Sheriff's Department. With credible reports of high numbers of jail deaths, blatant deputy misconduct and a pattern of abuse often resulting in lawsuit settlements costing taxpayers millions of dollars, there is a strong argument for this oversight. With over 4,000 employees and a budget of over $1 billion, the Riverside County Sheriff's Department is the second largest sheriff's department in the state. No other agency this large is allowed to operate with zero transparency or accountability. Please vote yes for this Civilian Oversight Commission.

On Tuesday, the Riverside County Board of Supervisors will discuss a motion to appoint an ad hoc committee that will consider creating a Sherrif's Department Oversight Committee and Office of Inspector General. We are writing to express our strong support of this first step in increasing transparency and accountability for the Sherrif's Department.

Independent oversight of any public entity is a sound government approach to help leadership (i.e., the Board of Supervisors) ensure that the entity in question is operating in accordance with leadership's direction and expectations as well as the entity's own internal operating policies and procedures. Oversight also strengthens public confidence in government institutions by increasing transparency in the entity's operations and establishing accountability for any misconduct. We believe this measure comes at a critical time, given that public concern is growing over law enforcement overreach in general and within the Riverside County Sherrif's Office in particular. Recent controversies (e.g., the record number of in-custody deaths, the refusal to enforce COVID public health orders, and politicized messaging from the Sherrif's office) point to the need for external review. Restoring public trust, building the community's understanding of department operations and services, and strengthening the department's economy, efficiency, and effectiveness will result in a stronger Sherrif's Office that better serves the needs of all Riverside residents. Thank you for your consideration.

I would like to voice support for Supervisor Medina to establish a Sheriff's Department Oversight Committee and Office of Inspector General.
"Among the nation's 15 largest jail systems, Riverside was the second-most deadly, with a rate more than twice that of Chicago, Philadelphia and Dallas."
This is a high priority concern and this statistic pretty much speaks for itself. What is going on in our Sheriff Department? We have courageous and professional Deputies out there putting their lives on the line for our community. Where is the administrative leadership that protects these Deputies from tragic circumstances? Where are the leaders that provide Policies and Procedures that protect our Deputies and the citizens they interact with? This lack of leadership and policy and training direction within the Department is costing our Deputies and citizens a safe environment in which to live and work, not to even mention the money that is escaping our County service to pay for litigation awards and legal service. Do better Riverside County Supervisors. Supervisor Medina is taking a step in the right direction for our county. Please join him and vote for this over site committee

How many lawsuits over wrongful deaths will taxpayers have to pay for, for some change in our County. Oversight of the Riverside County Sheriff's Department is not just about holding a system accountable that has historically failed far too many — it's about protecting the integrity of our community and the tax

dollars we all contribute. When there is no transparency, the cost is paid in more than just lost trust — it's paid through lawsuits, settlements, and the continued erosion of public safety. I commend the Riverside County Supervisors who are taking bold steps to support oversight efforts. This isn't just about reform — it's about fiscal responsibility, justice, and ensuring our resources are used to build solutions, not to cover up the consequences of unchecked power.

My name is Patricia Eickman, and I am a resident of Riverside. I strongly support the creation of an oversight committee and inspector general's position to provide thoughtful oversight over the Riverside County Sheriff's Department.

At this point, Riverside County jails are among the most dangerous in the nation, with an alarming number of in-custody deaths, as well as lapses in proper procedure and best practices. These lapses endanger broth inmate and staff safety. This is intolerable. As taxpayers, we are responsible for the safety of all those in our jails. We cannot allow such a dangerous situation to continue. An oversight committee and inspector general would allow thoughtful, systematic reform of present harmful practices in our jails.

In addition, an oversight committee and inspector general could monitor officer-involved shootings, as well as law enforcement practices that affect public trust in law enforcement.

Thank you for considering my opinion.

Dear Members of the Riverside County Board of Supervisors,

I am writing as a deeply concerned resident to urge the Board to take immediate action to restore

3.82

accountability and public trust by supporting the creation of a permanent, independent oversight committee over the Riverside County Sheriff's Department and to initiate the process for the recall of Sheriff Chad Bianco.

Under Sheriff Bianco's leadership, our county has become a national symbol of crisis and neglect:
• 68 people have died in custody since 2019, with 47 of those deaths occurring in just the past four years under Sheriff Bianco's direct oversight.
• According to The New York Times, Riverside County has the second-highest in-custody death rate in the nation.
• Six of these deaths have been officially ruled homicides, raising urgent questions about preventable violence and institutional failure.
• A recent Riverside County Grand Jury report uncovered a disturbing lack of basic safeguards and accountability in jail operations.

This record is not just unacceptable — it is a humanitarian crisis. These are not just statistics; they are lost lives, grieving families, and a community shaken by the absence of transparency and responsibility.

The Sheriff is entrusted with:
• Overseeing the welfare of individuals in custody;
• Managing more than $1 billion in taxpayer resources;
• Upholding the law with fairness, not political ambition or personal ideology.

Instead, Sheriff Bianco has:
• Refused to take responsibility for the crisis unfolding under his watch, even as the U.S. Department of Justice investigates alleged constitutional violations in Riverside County jails;
• Maintained ties to extremist groups like the Oath Keepers and Constitutional Sheriffs and Peace Officers Association, aligning law enforcement with anti-government ideology;
• Politicized the office by using it as a platform to run for Governor rather than focusing on the county's urgent safety and human rights concerns.

This is not leadership — it is a dereliction of duty.

To move forward, Riverside County must commit to real oversight, real justice, and real accountability. I call on you to:
1. Establish a permanent, independent oversight committee with investigative powers to monitor the Sheriff's Department's conduct, finances, and operations;
2. Publicly audit jail conditions and department procedures to ensure they meet constitutional and ethical standards;
3. Support a community-led recall of Sheriff Chad Bianco, whose tenure has failed the basic test of public safety and human decency.

A justice system without oversight is a system vulnerable to abuse. Now is the time for action—not only to correct these failures but to ensure they are never repeated.

Sincerely,
Leila Namvar

The Riverside Sheriff's Department needs to be held accountable for misconduct and in-custody deaths. If Chad Bianco and his department have nothing to hide, then they shouldn't fear oversight. If they are resistant then that raises a serious question: what exactly are they trying to hide from the public?

I believe an establishment of an oversight committee as well as an office of inspector general to advise the supervisors would go a long way toward improving community trust and cooperation with the sheriff's department and all of its employees. Their input could also be valuable for providing suggestions for streamlining procedures and determining those that are successful and those that could be in need of updating or different approaches..which could result in better outcomes and reducing costs.

I urge the Supervisor to support the enactment of oversight measures over the Riverside County Sheriff's Department. The people of Riverside County deserve a sheriff's department that serves with integrity, transparency, and accountability. The current lack of independent oversight and the concentration of power within the Sheriff's Office have created an environment of mistrust, fear, and injustice. Thank you.

Good evening,

I write today to voice my support for Supervisor Jose Medina's motion to "Appoint an Ad Hoc Committee to Consider the Establishment of a Sheriff's Department Oversight Committee and Office of Inspector General." I believe this committee is long overdue, but I hope Supervisor Medina and/or others on the board will take a step further. I would much prefer this motion be to establish civilian oversight, but I would never shout down any attempt to get there. My only concern is that this specific motion will only slow the establishment of an oversight board that was needed five years ago. As such, I hope there is at least a push for the committee's return to the board within 90-120 days.

After millions paid out in taxpayer money and hundreds of deaths caused by the Riverside County Sheriff's Department, both in their county jails and out in the general public, it is long past time to not only establish this committee but a full civilian oversight board. We all know that unchecked power breeds mismanagement. Unfortunately, there is a reason Riverside County's jails are amongst the leaders in in-custody deaths - the jails have no oversight. AB 1185 passed five years ago. Our county must take advantage of that law and save taxpayer money and lives. This can be done through civilian oversight. I hope this motion passes with some actual teeth behind it.

Thank you very much for being open to public comments.

Best,
Miguel Gonzalez

The needless in-custody deaths and sheriff-involved shootings are out of control. It is not only your official duty to put a stop to it, it is also moral imperative. The financial liability incurred is also a huge problem, especially now that Riverside County is on the brink of losing hundreds of millions of dollars in federal funding.

Dear Riverside County Supervisors,

I am a constituent writing to support the creation of a Riverside County Civilian Oversight Board, and an Office of the Inspector General as authorized under Assembly Bill 1185 (McCarthy). After years of witnessing patterns of misconduct, racial profiling, in-custody deaths, and a total lack of transparency in disciplinary action, it is imperative that Riverside County invest in a system of oversight for the sheriff's department.

The Riverside County Sheriff's Department oversees law enforcement services for about 2.46 million residents, operates a 4,000-bed jail system, and includes the coroner's office that conducts investigations into the manner and cause of death. The department has over 4,000 employees with a budget of over $1 billion. And yet for a government agency so large there is no means of accountability outside of the limited function of the civil grand jury and the district attorney's office.

I believe that our communities deserve a sheriff's department that serves with integrity, transparency and accountability. I urge you, our elected County Board of Supervisors, to promptly implement these critical accountability measures to rebuild trust and ensure justice for all Riverside County residents.

First, I want to thank Supervisor Medina for his courageous leadership, and I stand in complete support of his motion for civilian oversight of the Riverside County Sheriff's Department. I could share numerous personal testimonies, but the data speaks for itself. I believe the Board of Supervisors will make the responsible decision to ensure transparency and accountability and vote to restore the public's trust by approving this motion. Thank you, Supervisor Medina and the rest of the Board, for ensuring that those we are paying to protect and serve are doing just that. Lastly, I want to send my strength and support to all of the families who have been directly impacted by the almost 70 lives that have been reported as lost while awaiting trial since 2019.

Hello. My name is Kai Lopez, and I am a resident of Beaumont, Riverside County. I am writing you today to urge the Supervisor to support the enactment of oversight measures over the Riverside County Sheriff's Department. The people of Riverside County deserve a sheriff's department that serves with integrity, transparency, and accountability. The current lack of independent oversight and the concentration of power within the Sheriff's Office have created an environment of mistrust, fear, and injustice. There is also now record of sheriff Chad Bianco lying to reporters about the transparency of his department after multiple deaths within riverside county jails. These actions demand oversight of the sheriffs department who continuously ignores journalist requests for information. Thank you.

Good morning,

My name is Ibet Ruiz, and I'm here to urge the Riverside County Board of Supervisors to establish independent oversight of the Sheriff's Department.

As elected officials, sheriffs hold significant power — but with that power must come accountability. Unfortunately, Riverside County has seen the consequences of a system lacking proper checks: excessive use of force, racial profiling, civil rights violations, and over 220 in-custody deaths since 2011. These are not isolated issues; they point to a deeper, systemic failure.

It is urgent to establish an oversight board that has both the authority and the responsibility to provide oversight — just as it does for every other county department. This isn't about politics or any one sheriff. It's about restoring public trust, protecting taxpayer dollars, and ensuring our public safety system is fair and transparent.

Oversight is not anti-law enforcement — it's pro-community, pro-transparency, and ultimately, pro-safety for both deputies and the people they serve.

It's time to separate the Coroner's Office from the Sheriff's Department, and it's time to build real accountability into a system that impacts all of us. Thank you.

Buenos días,

Mi nombre es Isaura Ruiz, y tengo mas de 50 anos de vivir en la ciudad de Moreno Valley . Hoy les pido urgentemente que la Junta de Supervisores establezca una supervisión independiente del Departamento del Sheriff.

Este departamento opera sin controles reales, y las consecuencias han sido graves: uso excesivo de la fuerza, perfil racial, violaciones de derechos civiles y más de 220 muertes bajo custodia desde 2011. No son casos aislados — es una falla sistémica.

Necesitamos una junta de supervisión con poder real. No se trata de política ni de una persona. Se trata de proteger vidas, restaurar la confianza

pública y usar nuestros recursos de forma responsable.

La supervisión no es en contra de los agentes — es a favor de la comunidad, de la transparencia y de la seguridad de todos.

Separar la Oficina del Forense del Sheriff también es esencial para lograr justicia real. Actuar ahora es urgente. Gracias.

Flores, Kate
